6 A union free school district in which an academic department was maintained on or before May 2, 1917, may become a part of a town school district as provided herein. The board of education of any such union free school district shall, upon petition signed by not less than fifteen per centum of the qualified electors of such district, submit to an annual or special school meeting in the manner provided by law a resolution determining that such district shall become a part of a town school district in the town in which such union free school district is located and become subject to the provisions of this article. If such resolution be adopted at such meeting, the board of education of the town school district in which it is proposed to incorporate such union free school district shall call a special meeting of the qualified electors of such town school district, and there shall be submitted to such meeting a resolution determining that such union free school district shall become a part of such town school district and be subject to the provisions of this article. Only qualified electors of such town school district residing outside of such union free school district shall vote upon such resolution. If such resolution be adopted such union free school district shall become a part of the town school district and be subject to the provisions of this article. The district superintendent shall thereupon issue an order indicating that such union free school district has been included within the town school district.

At the annual meeting to be held on the first Tuesday in May following the date of such order, a board of education shall be elected, to consist of three members if the number of school districts in such town school district is five or less, and of five members if the number of such districts is more than five. The members of the board of education elected at such annual meeting shall be divided into classes as herein provided for the election of the first board of education of a town school district, and shall hold office for terms of one, two and three years, beginning on the first day of August succeeding their election. Their successors shall be elected for terms of three years. The terms of office of the members of the board of education and other officers of such town school district and union free school district shall terminate on the said first day of August, and on and after such date such town school district as established by including such union free school district shall be subject to the provisions of this article.

7. All orders executed by district superintendents under the provisions of this section shall be in the form prescribed by the Commissioner of Education. Each such order shall be executed in sufficient number so that one may be filed in the office of the town clerk of the town or towns in which the districts affected are situated and one shall be transmitted to the Commissioner of Education. Any qualified elector conceiving himself to be aggrieved by any order executed by a district superintendent under this section may bring an appeal from such order to the Commissioner of Education within one year from the date thereof. Such appeal shall be brought in the manner provided by law for appeals to the Commissioner of Education.

§ 332 **School districts having outstanding bonded indebtedness.** 1 A school district having, at the time this act goes into effect, an outstanding bonded indebtedness in excess of five hundred dollars shall not be included within a town school district and shall not be subject to the provisions of this article, except as provided herein. Such school district shall continue as an independent school district and be subject to the provisions of the Education Law in relation to school districts not included within town school districts. If one of such school districts determines, as hereinafter provided, to become a part of a town school district, such school district shall on complying with the provisions prescribed herein become a part of a town school district and shall be subject to the provisions of law relating to town school districts.

2 In each school district having a bonded indebtedness in excess of five hundred dollars, the State shall assume and pay the sum of five hundred dollars toward the liquidation of such outstanding bonded indebtedness from funds appropriated for this purpose, upon the condition that the qualified electors of such district shall, on or before August 1, 1919, at an annual or special meeting duly called for such purpose, vote to become a part of the town school district and to continue to assume the liability of the balance of such outstanding bonded indebtedness, after applying thereto the five hundred dollars assumed by the State. When one of such school districts votes to become a part of a town school district and to pay such balance of the outstanding bonded indebtedness, the board of education of the town school district shall include annually in its *budget* an amount sufficient to meet the payment of such outstanding bonded indebtedness and the interest thereon as it becomes due, and shall levy and assess the same against the property of such school district. A school district may, at the time it votes to become a part of the town school district, also authorize the trustees of such school district to liquidate such outstanding bonds before their maturity, upon the condition that satisfactory arrangements therefor may be made with the holders of the outstanding bonds.

3 In each school district having a bonded indebtedness of five hundred dollars or less, such indebtedness shall be assumed by the State and shall be paid out of funds appropriated for this purpose. Thereupon such school district shall become a part of the town school district.

4 The school authorities of each district having an outstanding bonded indebtedness shall furnish the commissioner of education with such evidence

as he shall require in relation to the amount of such outstanding bonded indebtedness.

§ 333 Board of education of town school district. 1 A board of education is hereby established in each town school district. Such board shall consist of three members in a town school district comprising five or less school districts, and of five members in each town school district comprising more than five. If a town school district has more than nine school districts, the number of members of the board of education may be increased to seven, by adopting a resolution at an annual meeting, after notice given as required in section 308 of the Education Law.

2 The members of a town board of education in a town having one school unit, elected and in office under chapter 328 of the Laws of 1917, residing in the school districts comprising a town school district as herein established, shall continue in office as members of the board of education of such town school district for the terms for which they are elected. The members required to be elected in order to complete the membership of such board shall be elected at an annual school meeting to be held in such town school district on the first Tuesday in June 1918. The members of the board of education shall be divided into classes, so that those continuing in office as above provided and those elected at such annual meeting, shall, where the board consists of three members, hold office for terms of one, two and three years respectively, and, where such board consists of five members, two shall hold office for one year, two for two years and one for three years, from the first day of August, 1918, and their successors shall be elected for terms of three years, beginning on the first day of August succeeding their election.

3 In a town which under the provisions of said chapter 328 of the Laws of 1917 was divided into two or more town school units, the members of the boards of education of each of the town school districts comprising the districts in such former town school units shall be elected at an annual meeting to be held in such town school district on the first Tuesday in June, 1918. If there are three members to be elected, one of such members shall be elected to serve until August 1, 1919; one until August 1, 1920, and one until August 1, 1921. If there are five members to be elected, two of such members shall be elected to serve until August 1, 1919; two until August 1, 1920, and one until August 1, 1921. Their terms of office shall begin August 1, 1918. Their successors shall be elected at the annual meeting for terms of three years beginning on the first day of August following their election.

§ 334 Qualifications of members of board of education. A member of a board of education of a town school district must be a qualified elector at the school meetings of the district for which he is chosen. A district superintendent of schools, or a supervisor shall not be eligible to the office of member of a board of education. Not more than one member of a family shall be a member of the same board of education. A person who is removed from his office as a member of a board of education shall be ineligible to appointment or election to any school office in the district for a period of five years from the date of such removal.

§ 335 **Appointment of officers by board.** The board of education of each town school district shall elect one of its members chairman who shall serve until the next annual meeting of the board, and shall also appoint a clerk of the board who may be a member of the board or a teacher employed in the public schools of the district. The board of education of such district shall appoint a treasurer. Such treasurer shall also be the collector of school taxes of such district, except in a county where it is provided by special act that school taxes shall be collected by the same officer as town taxes. Such clerk and treasurer shall serve during the pleasure of the board. Any person who is qualified to vote at a school meeting in the district may be appointed as clerk or treasurer. The board shall determine the duties and fix the compensation of such clerk. The treasurer shall receive as compensation for his services the fees allowed by this chapter to a school collector for the collection of school taxes.

§ 336 **Bond of treasurer.** The treasurer, within ten days after the receipt of notice in writing of his appointment, duly served upon him, and before entering upon the duties of his office, shall execute and deliver to the board of education a bond, in a sum to be prescribed by the board and with sureties to be approved by it, conditioned for the faithful discharge of the duties of his office and for the due and faithful collection of school taxes, under a warrant for the collection thereof, executed as provided in this article.

§ 337 **Vacancies in school offices.** 1 A school office becomes vacant by death, resignation, refusal to serve, incapacity, removal from the district or from office.

2 A member of a board of education who publicly declares that he will not accept or serve in the office of member of the board of education, or refuses or neglects to attend three successive meetings of the board of which he is duly notified, without rendering a good and valid reason therefor to the board of education, vacates his office by refusal to serve.

3 A member of a board of education vacates his office by the acceptance of either the office of district superintendent of schools or of supervisor.

4 A treasurer vacates his office by failure to execute a bond to the board of education as herein required.

5 A vacancy in the office of member of a board of education may be filled by the board. A person appointed to fill such vacancy shall hold office until the next annual school meeting of the rural school district, when such vacancy shall be filled by election for the balance of the unexpired term.

6 When a vacancy has existed in the office of a member of a board of education for thirty days, the district superintendent of schools shall appoint a person qualified to vote at school meetings in the district to fill such vacancy and the person so appointed shall hold office until the next annual school meeting of the district, when the vacancy shall be filled for the balance of the unexpired term.

§ 338 **Board to constitute a body corporate.** The board of education of each town school district shall be a corporation. All property which is now

vested in, or shall be hereafter transferred to, the board of education of a town school district for the use of schools therein shall be held by such board as a corporation.

§ 339 Meetings of board. The first annual meeting of a board of education of a town school district, established as herein provided, shall be held on the first Tuesday in July, 1918. The annual meeting of a board of education of such district in each year thereafter shall be held on the first Tuesday in August of each year. A regular meeting of the board shall be held at least once in each quarter. The board may adopt by-laws prescribing the time and place where regular meetings shall be held, and regulate the conduct of such meetings. Such board shall also prescribe a method of calling special meetings. The meetings of the board shall be open to the public but the board may hold executive sessions at which business may be transacted which should not, in its judgment, be transacted in an open session, at which sessions only members of the board or persons invited shall be present.

§ 340 Duties of clerk. The clerk of the board of education shall have the powers and perform the duties of the clerk of a school district as provided in this chapter. In addition to such powers and duties, such clerk shall

- 1 Act as clerk at all meetings of the board and record the proceedings of such meetings, and the orders and resolutions adopted thereat, in proper books.

- 2 Draw and sign warrants upon the treasurer for all moneys to be disbursed by the district for school purposes and present them to the chairman to be countersigned by that officer. Each warrant shall specify the object for which it is drawn, the fund from which it is payable and the name of the individual or corporation to whom the amount thereof is payable.

- 3 When directed by the board of education, prepare all reports required by law and forward the same to the proper officers.

- 4 Perform such other duties as are or shall be required by law or by the board of education.

§ 341 Duties of treasurer. The treasurer shall have the powers and perform the duties of a district treasurer as provided in this chapter, and in addition thereto shall

- 1 Be the school tax collector of the town school district, and have the powers and perform the duties of a school tax collector as provided by this chapter.

- 2 Be the custodian of all school moneys of the town school district and be responsible for the safekeeping and accurate account thereof.

- 3 Pay all orders or warrants lawfully drawn upon him out of the moneys in his hands belonging to the funds upon which such orders or warrants are drawn.

- 4 Keep accurate accounts of all moneys received and disbursed by him, the sources from which they are received and the persons to whom, and the objects for which, they are disbursed.

5 Prepare and submit as required by law annual reports of receipts and disbursements, and render at such times as may be required by law or directed by the board of education, a report or statement relative to the school funds of the district.

§ 342 **Powers of board of education.** The board of education of each town school district shall, in respect to the public schools and school officers of the district,

1 Exercise the powers and perform the duties conferred or imposed by law upon boards of education or trustees of school districts, so far as they may be applicable to the schools or other educational affairs of the district and not inconsistent with the provisions of this article. Any power, duty, liability or obligation which is conferred or imposed by this chapter, or any other statute, upon the board of education of a union free school district or the trustees of a school district, shall be exercised or performed by the board of education, and such board shall be subject to such liability or obligation, in respect to the schools in the town school district, in the same manner and to the same extent as in the case of boards of education in union free school districts or trustees of school districts.

2 Determine the number of teachers to be employed in the several schools of the town school district and to contract with principals and teachers for the maintenance and operation of such schools pursuant to the provisions of this chapter; employ or appoint medical inspectors, nurses, attendance officers, janitors and other employees required for the proper and efficient management of the schools and other educational affairs under their direction and control.

3 Provide transportation when necessary for children attending school, under regulations to be prescribed by it.

4 Have the care, custody, control and safekeeping of all school property or other property of the district used for educational, social or recreational work and not specifically placed by law under the control of some other body or officer, and prescribe rules and regulations for the preservation of such property.

5 Purchase and furnish such apparatus, maps, globes, books, reproductions of standard works of art, furniture and other equipment and supplies as may be necessary for the proper and efficient management of the schools.

6 Establish and maintain elementary schools, high schools, vocational, industrial, agricultural and homemaking schools or classes, night schools, or such other schools and classes as shall be deemed necessary to meet the needs and demands of the town school district.

7 Provide for the academic instruction of all pupils residing in such town school district, who have completed the elementary courses of instruction in the schools in such district, in the academic department or high school of another town school district, union free school district or city, if the town school district in which such pupils reside does not maintain a high school or academic department.

8 Establish and maintain school libraries which may be open to the public as provided by law.

9 Prescribe courses of study which shall be followed in the schools or classes established and maintained in the district.

10 Contract with boards of education of other town school districts, and of union free school districts and cities for the instruction of pupils of the district, and when any such contract is made the public money or State tuition apportioned for such instruction shall be paid to such town.

§ 343 **Schools to be free.** Each school maintained in a town school district under the supervision and control of a board of education in such district, and each department of such school and each course of study maintained therein, shall be free to the children of school age residing in such district.

§ 344 **Transfer of pupils.** Where pupils of school age residing in a town school district may be more conveniently instructed in the school or schools of an adjacent town school district, or of a union free school district or city, the board of education of such town school district may provide for the transfer of such pupils to the school or schools in such adjacent town or an adjacent union free school district or city. The board of education making such transfer shall send notice thereof to the board of education of the town school district, union free school district or city to which it is proposed to transfer such pupils, and provisions shall thereupon be made by the board of education of the town school district, union free school district or city wherein such pupils are to be instructed, for the accommodation of such pupils, upon the approval of the Commissioner of Education. The Commissioner of Education shall not approve the transfer of such pupils, when such action shall require the town school district, union free school district or city receiving such pupils to provide additional teachers or other school accommodations, without the consent of the board of education of such district or city. Whenever pupils have been transferred as herein provided, the board of education of the town school district, union free school district or city to which the transfer is made shall submit, through its chairman and clerk, to the board of education of the town school district where the pupils reside, a verified statement of the cost of the instruction of such pupils. The cost of the instruction of such pupils and, in case of academic pupils the cost in excess of the State tuition allowed for their instruction, shall be a charge against the town school district wherein such pupils reside, and the board of education thereof shall direct the payment of the cost of such instruction out of the school funds of such district, in the same manner as other charges upon such funds are paid.

The amount charged for such instruction may be determined by an agreement between the board of education of the town school district wherein the pupils reside and the board of education of the town school district, union free school district or city in which such pupils are to be instructed, or if such boards are unable to make such agreement the matter may be referred to the Commissioner of Education for determination; and in making such determination the per capita cost of the instruction of the pupils of the town school district, village or city to which such pupils have been transferred may be used as a basis.

§ 345 **Schoolhouse sites.** The board of education of a town school district, whenever in its judgment it is necessary for the interest of the schools of the district, may designate a new site for the schoolhouse, or enlarge the site of an existing schoolhouse. Whenever a new site is designated, or an existing site is enlarged, the board shall pass a resolution stating the necessity therefor, describing by metes and bounds the land to be acquired for either of such purposes, and estimating the amount of funds necessary therefor. Such resolution must be adopted by the votes of at least a majority of the members of the board of education. When such resolution is adopted the land described therein may be acquired by the board of education in the manner provided by law for the acquisition of real property for school purposes.

§ 346 **Erection, repair and improvement of school buildings.** The board of education of a town school district shall provide for the repair of school buildings therein, or other buildings under its control and management, and shall expend therefor an amount not exceeding the amount included in the annual school tax budget. The board may also remodel, enlarge or improve such school buildings or other buildings under its control and management, and may construct new buildings, whenever required, for the proper accommodation of the school children of the district. The board of education shall not expend in any one year for the remodeling, improvement or enlargement of existing school buildings or for the construction of new buildings an aggregate amount in excess of one-half of one per centum of the assessed valuation of the town school district and in no case an amount in the aggregate in excess of five thousand dollars without a vote of a school meeting of the district except as hereinafter provided.

§ 347 **Annual school budget.** 1 On or before the first day of July in each year the board of education shall prepare in duplicate an itemized tax budget containing the amounts required to be raised by tax for school purposes in the town school district for the ensuing school year. Such tax budget shall contain a statement of the probable amount to be received by the district in the next apportionment of school funds from the State and the estimated amount to be received from all other sources, and shall specify the several amounts to be raised for the following purposes:

a The salaries and compensation of principals, teachers, medical inspectors, nurses, attendance officers, janitors and other employees appointed or employed by said board of education.

b The cost of instruction of pupils residing in the district who are to be instructed in the schools of another town or in a union free school district or city.

c All necessary incidental and contingent expenses of the schools of the district, including transportation, the purchase of fuel and light, supplies, textbooks, school apparatus, furniture and other articles and services necessary for the proper maintenance, operation and support of the schools of the district.

d The ordinary repairs of school buildings and other buildings under its control and management.

e The remodeling, improvement, or enlargement of existing buildings, and the construction of new buildings and the furnishing and equipment thereof.

f The amount required to be raised for the payment of the interest and principal of bonds and other indebtedness lawfully incurred or to be incurred for school purposes and which are a charge against the district.

g The amount which may be required for the payment of any other claim against the district arising from the support and maintenance of the schools therein.

h The amount voted at the annual or a special school meeting in the district on a proposition or question lawfully submitted at such meeting.

2 A written or printed copy of such budget shall be posted in at least five of the most public places in the district at least twenty days before the first day of August. The board may cause such budget to be published at length once in each week for the four weeks next preceding the first day of August, in two newspapers if there shall be two, or in one newspaper if there shall be but one, published or circulated in such town school district.

3 Such tax budget shall be signed in duplicate by a majority of the members of the board of education. On or before the first day of September such duplicate tax budgets shall be filed as follows: one in the office of the clerk of the board of education and one in the office of the clerk of the town. If a town school district is established comprising school districts in two or more towns a sufficient number of such tax budgets shall be executed so that one may be filed in the office of the town clerk of each town.

4 The board of education of a town school district may, in the manner herein provided, prepare a supplemental budget to raise money for any lawful purpose

a When authorized by a vote of an annual or special school meeting in the district.

b When the amounts stated in the annual tax budget for the purposes specified are insufficient therefor and such amounts may be raised by tax without a vote of a school meeting in the district. Such supplemental budget shall not authorize the levy of a tax for the purposes therein specified, or be effectual for any purpose unless there shall be endorsed thereon the certificate of the district superintendent of the supervisory district in which such district is situated, to the effect that the purposes for which the amount therein specified is to be raised are lawful. Such supplemental tax budget shall be prepared and signed in the same manner, and filed with the same officers as the annual tax budget, within ten days after the execution thereof.

5 The Commissioner of Education may prescribe the form of such budget. He may adopt regulations not inconsistent with law, providing for the examination, review, correction and modification of such budgets and the instruction and assistance of school authorities in the performance of duties in respect thereto.

6 District superintendents shall, during the month of August in each year, examine the tax budgets on file in the office of each clerk of the board of education of each town school district in his supervisory district, and shall advise with and aid boards of education in the preparation and cor-

rection of such budgets, and perform such other duties in respect thereto as may be prescribed by the Commissioner of Education.

§ 348 **Levy and collection of school taxes.** 1 The board of education of a town school district shall, within ten days after the first day of September in each year, cause the amount specified in such tax budget and supplemental tax budgets, if any, to be levied and assessed against the taxable property in the town school district. The board of education shall immediately upon the completion of its tax list, annex thereto a warrant for the collection thereof, which shall direct the treasurer of the town school district, as the collector of school taxes thereof, to collect the taxes so levied and assessed. The treasurer, as school collector of taxes, shall have the same power and jurisdiction in respect to the collection of such taxes as a town tax collector has in respect to the collection of taxes levied upon taxable property in a town and the provisions of law relative to the collection of such taxes, except as otherwise provided in this chapter, shall apply to the collection of such school taxes.

2 The provisions of article 15 of this chapter, relating to the assessment and collection of school taxes, shall apply to the assessment of school taxes in a town school district by the board of education thereof, and to the collection of the taxes assessed and levied as herein provided, except so far as the provisions thereof may be in conflict with the provisions of this article.

3 If it is provided by special act that school taxes in a county shall be collected by the same officer as town taxes, the provisions of such special act shall control the collection of school taxes therein and the taxes collected by such officer shall be paid to the treasurer of the town school district.

§ 349 **Borrowing money in anticipation of collection of taxes.** The board of education of a town school district may borrow money in anticipation of the levy and collection of a tax, for any of the purposes specified in a budget or supplemental budget filed with the clerk of the board of education. Certificates of indebtedness may be issued by such board of education which shall be signed by the president of the board and countersigned by the treasurer thereof. Such certificate shall not be issued for more than one year from the date thereof, and shall bear interest at a rate not exceeding six per centum per annum. The money borrowed shall be placed in the custody of the treasurer and shall be paid out by him on the order of the board of education in the same manner as money collected by taxes levied against the taxable property of the district.

§ 350 **Submission of certain questions to a vote of the district.** 1 Whenever the board of education of a town school district shall deem it necessary to expend an amount exceeding the sum of two thousand and five hundred dollars or an amount in excess of one-half of one per centum of the assessed valuation of the property of the town school district for the acquisition of a schoolhouse site, for the repair, remodeling, improvement or enlargement of an existing school building or the construction of a new school building in a school district in such school district, it shall submit

a proposition therefor to a vote of the qualified school electors of the town school district at either an annual school meeting of the district or a special school meeting called for such purpose.

2 If a school building in a town school district shall have been condemned by the district superintendent as unfit for use and not worth repairing and the amount required to be raised by tax therefor shall exceed the sum of two thousand and five hundred dollars or an amount in excess of one-half of one per centum of the assessed valuation of the property of the town school district the board of education shall submit a proposition for the construction of such new building to the qualified school electors of the district as above provided. If the amount to be raised for the erection of a new building in place of a building which has been condemned is less than two thousand and five hundred dollars the amount thereof shall be included in the annual school tax budget of the district. Except as herein provided the board of education of a town school district shall be subject to the same powers and duties in relation to the erection of a new schoolhouse, when the schoolhouse in a district in such district has been condemned, which are imposed upon trustees of school districts under the provisions of the Education Law.

3 The board of education of a town school district may in its discretion submit a proposition to the qualified electors of the district at an annual or special school meeting for the voting of a tax in an amount not less than one thousand dollars for the erection of a new building, the repair, remodeling, improvement or enlargement of an existing building, the purchase of a new site or of an addition to an existing site.

4 When the electors at a school meeting in a town school district adopt a proposition for any of the purposes specified in this section they may direct the levy of a tax to meet the expense incurred thereby either in one levy or by instalments.

5 The provisions of section 467 of this chapter relative to the notice of the meeting and the levy of a tax by instalments in a union free school district shall apply, except when inconsistent with this act, to the submission of the propositions herein authorized and the levy and collection of taxes for the purposes specified.

§ 351 **Issue and sale of school bonds.** Whenever a tax shall have been voted to be collected in instalments for any of the purposes specified in the preceding section the board of education of the town school district may borrow so much of the sum voted as may be necessary at a rate not exceeding six per centum per annum. The board may issue bonds or other evidences of indebtedness for such purposes which shall not be sold below par. The interest and principal of such bonds or other evidences of indebtedness shall be a charge upon the district and shall be paid when due. Such bonds or other evidences of indebtedness shall be sold by the board of education in the manner provided by section 480 of this chapter.

§ 352 **State funds to be used for schools of town school districts.** There shall be apportioned to each town school district, out of public moneys to be apportioned by the State, district quotas for each school district included within such town school district. Each town school district shall receive

all public moneys apportioned by the State under the provisions of this chapter, in the same manner and of the same amount as school districts are entitled to receive out of such moneys under such provisions. The funds hereafter apportioned to a town school district as herein provided shall be paid by the county treasurer to the school treasurer of such district. Funds apportioned for teachers' salaries shall be paid on the order of the board of education of the town school district for the payment of the salaries of teachers employed therein, and funds apportioned for school libraries, apparatus, maps or works of art, shall be paid respectively in like manner for school libraries, apparatus, maps or works of art, in such town.

All public school moneys apportioned under the provisions of this chapter on account of schools maintained in districts during the school year ending July 31, 1918, in school districts included within a town school district as herein established, shall be paid by the county treasurer to the treasurer of such rural school district. All school moneys so apportioned on account of schools maintained in a union free school district maintaining an academic department, which prior to the taking effect of this act was included in a town or town school unit as then constituted, shall be paid to the treasurer of such union free school district.

§ 353 Certain union free school districts not subject to provisions of article. This article shall not apply to a union free school district maintaining an academic department, except as herein otherwise provided. School districts which, under the provisions of this section, are exempt from the provisions of this act shall continue to be subject to and regulated by the provisions of law which now regulate and control the affairs of such districts.

A union free school district maintaining an academic department which prior to the taking effect of this act was subject to the provisions of this article as inserted by chapter 328 of the Laws of 1917, shall, on and after the taking effect of this act, be subject to and regulated by the provisions of this chapter relative to union free school districts. An annual school meeting shall be held in each of such districts on the first Tuesday in June, 1918, and there shall be elected at such meeting a board of education to consist of not less than three nor more than nine trustees. Such trustees shall by order of such meeting be divided into three classes, the first to hold for terms of one year, the second for terms of two years and the third for terms of three years, from the first day of August, 1918. Their successors shall be elected for terms of three years. The provisions of this chapter relative to the election of trustees in union free school districts shall apply to the election of trustees at such annual meeting. The trustees so elected and their successors in office in each of such union free school districts constitute the board of education thereof. The annual meeting held in each of such districts as herein provided shall have the same powers and duties as annual meetings held in union free school districts under the provisions of this chapter.

§ 354 School district officers abolished; apportionment of funds and indebtedness. 1 All members of boards of education and other school officers of towns and town school units in office when this act takes effect shall continue in office to and including the thirty-first day of July, 1918, when

the offices of members of boards of education, clerks, treasurers and other school district officers of such towns and town school units shall be and are hereby abolished and the terms of such officers shall cease except as herein provided.

2 The board of education of a union free school district maintaining an academic department which prior to the taking effect of this act was subject to the provisions of this article as added by chapter 328 of the Laws of 1917, shall take office on July 1, 1918, and on and after that date such board shall possess the powers and perform the duties conferred or imposed upon boards of education of union free school districts under this chapter.

3 The board of education of a town or town school unit in office when this act takes effect shall cause to be prepared an itemized account of the receipts from all sources for the support of the schools in such town or town school unit and of the expenditures of such moneys, and cause the same to be submitted to the board of education of the town school district and a duplicate thereof to the board of education of a union free school district maintaining an academic department which, prior to the taking effect of this act, was included within such town or town school unit. A copy of such account shall also be submitted to the district superintendent of schools having jurisdiction over such districts. The district superintendent shall examine carefully such account, and if he finds the same accurate he shall approve it and notify the boards of education of such districts that he has approved the same. If it appears from such account as so approved that a balance unexpended remains in the hands of the school treasurer of such town or town school unit, such balance shall be apportioned to the town school district and the union free school district which was formerly a part of such town school unit, according to the assessed valuation of the taxable property in such town school district and union free school district. If it appear from such account that there are outstanding obligations or claims against the town or town school unit, except bonded indebtedness, incurred because of the maintenance of the schools in such town or town school unit during the preceding year, the amount of such deficiency or outstanding obligations and claims shall be charged proportionately against such town school and union free school district, based upon the assessed valuation of the taxable property in such districts. The boards of education of such town school district and union free school district shall cause the amount of such deficiency or outstanding obligations and claims so apportioned to each district to be included in the school tax budget thereof, and the amount raised by tax on account of such apportionment shall be paid out in liquidation of such outstanding obligations and claims.

§ 355 Outstanding bonds; existing school property. 1 The bonded indebtedness of a school district in a town, existing and outstanding on May 2, 1917, the time of the taking effect of chapter 328 of the Laws of 1917, shall continue as a charge against the taxable property of such district, and the principal and interest thereof shall be paid when due out of taxes levied and assessed against the taxable property of such district.

2 If a board of education of a town or a town school unit which prior to the taking effect of this act included a union free school district maintaining an academic department, provided for the levy and collection of a

tax upon the property of such town or town school unit for the payment of the principal and interest of any bonded indebtedness existing against such union free school district, under section 353 of the Education Law as inserted by chapter 328 of the Laws of 1917, the amount of such tax collected for such purpose shall be applied in payment of the principal and interest of such bonded indebtedness falling due prior to the taking effect of this act. On and after the taking effect of this act the bonded indebtedness existing and outstanding against such union free school district shall be a charge against the taxable property of such district and shall be paid in the same manner as other charges against such district.

3 All school property in a union free school district maintaining an academic department, included within a town or town school unit under the provisions of chapter 328 of the Laws of 1917, which under that act became the property of such town or town school unit and within the custody and control of the board of education thereof, shall, on and after the taking effect of this act, become the property of such union free school district.

§ 356 **Time and place of annual meeting.** 1 The annual school meeting in each town school district in each year after the said annual meeting on the first Tuesday of June, 1918, shall be held on the first Tuesday in May in each year, at which members of the board of education shall be elected and such business as may legally come before such meeting shall be transacted. Such meeting shall be held at the schoolhouse in the district which is the most conveniently accessible to a majority of the qualified electors of such district. The board of education shall designate the schoolhouse at which such meeting shall be held.

2 The board of education may divide the town school district into school election districts, whenever it deems it necessary for the convenience of the qualified electors, because of the territorial extent of the town school district or the number of such electors. If a town school district is divided into school election districts, the board shall designate the schoolhouse in each district where the annual meeting shall be held.

§ 357 **Notice of annual school meeting.** The clerk of each board of education shall give notice of the time when and the place where the annual school meeting in the town school district is to be held, by publishing such notice once in each week for the four weeks next preceding such meeting, in two newspapers, if there shall be two, or in one newspaper, if there shall be but one, published or circulated in such district. If no newspaper shall be published or circulated therein, such notice shall be posted on the door of each schoolhouse in the district and in at least ten other public places in said town, at least twenty days before the time of such meeting.

§ 358 **Special school meetings in towns.** The board of education of each town school district shall have power to call a special meeting of the qualified electors of the district, whenever it deems necessary and proper, and whenever required by law, in the manner prescribed for the giving of a notice of the annual meeting. Such special meetings shall be held at the schoolhouse or schoolhouses at which the annual school meeting of the town is required to be held.

§ 359 **Qualifications of voters at school meetings.** To be eligible to vote at annual or special town school meetings a person must be a resident of a school district included within the town school district, established as herein provided, and possess the other qualifications prescribed in section 203 of this chapter.

2 In a school district located in two or more towns, those persons possessing the qualifications required under subdivision 1 of this section shall be entitled to vote at annual or special town school meetings in the town school district of the town in which they reside.

§ 360 **Conduct of school meetings.** 1 The provisions of this chapter relative to the conduct of annual and special school meetings in school districts shall apply to annual and special school meetings held in town school districts except as otherwise provided in this article.

2 If school meetings are held in a town school district at one place, the members of the board of education of such district shall act as inspectors of election at such meetings. If the town school district has been divided into school election districts, the board of education shall designate three inspectors of election for each election district into which the town school district has been divided, who shall be qualified electors, residing within such election district. The clerk of the board of education shall give written notice of appointment to the persons so appointed but, if a person so appointed as inspector of election refuses to accept such appointment, the board of education may appoint a qualified elector of the district to fill such vacancy. Such board of inspectors shall, before opening the polls in the election district for which they are appointed, organize by electing one of their number as chairman and one as poll clerk. Each inspector shall receive for his services a compensation of three dollars, to be paid out of the school fund of the town and in the same manner as other expenses are paid.

3 The clerk of the board of education shall attend at each meeting in a town school district where school meetings are held at one place and keep a record of the minutes thereof. The clerk in such a town school district, or the poll clerk, where a town school district is divided into election districts shall keep a poll list of the names of the qualified electors present and voting for candidates for district offices or upon questions submitted. If the clerk or poll clerk is absent or is unable or refuses to act, the board of education or inspectors of election shall appoint a qualified elector to act in his place.

4 Any qualified elector present at the meeting may challenge the vote of any person offering to vote either for candidates for district offices or upon questions submitted at such meeting. The provisions of this chapter relative to challenges shall apply to challenges so made.

5 The board of education shall at the expense of the district provide a suitable box in which ballots shall be deposited as they are received. Ballots for candidates for district offices shall contain the names of such candidates and shall designate the office for which each of them is a candidate. The ballots may be either written or printed, or partly written and partly printed. The ballots when presented to the inspectors shall be folded so as to conceal the names of candidates for whom, or the proposition or

question for which, the elector has voted. All electors entitled to vote who are in the place where the election is held at the time of the closing of the polls shall be allowed to vote.

6 The inspectors immediately after the close of the polls shall proceed to canvass the votes. They shall first count the ballots to determine if they tally with the number of names recorded by the clerk, and if they exceed that number enough ballots shall be withdrawn to make them correspond. The ballots so drawn out shall be inclosed without unfolding in an envelop which shall be sealed and endorsed with the statement of the number of such excess ballots withdrawn from the box, and shall be signed by the inspector who withdrew such ballots. Such envelop shall be delivered to the clerk of the board of education and shall be preserved by him for a period of at least one year. The inspectors shall thereupon count the votes and upon the completion of the count make a written statement containing the names of the candidates, a description of the proposition or question submitted, and the number of votes cast for each of such candidates and for and against each question or proposition submitted at the meeting. Such statement shall be signed by the inspectors. The chairman of the board shall declare publicly the result of the count. The persons having a plurality of the votes cast for the respective offices shall be declared elected. The statement of the result of such votes shall be delivered to the clerk of the board of education and he shall record the result of the election in the minutes of the meeting.

7 If a town school district is divided into election districts the inspectors shall deliver a statement of the vote cast at such meeting, in each election district, to the clerk of the board of education on the day following such meeting. The board of education of the town school district shall meet, at its usual place of meeting, at eight o'clock in the evening on the day following such school meeting and shall forthwith examine the tabulated statements of the results of the school meeting in the several election districts of the town school district. The board of education shall canvass the returns as contained in the statements of the inspectors and shall determine the number of votes cast for and against each candidate at such election and for and against each question or proposition voted upon at the school meeting in the several election districts of the town school district. The board of education shall thereupon declare the result of the canvass of the votes cast in the election districts.

§ 361 **Successful candidates to be notified of election.** The clerk of the board of education shall within twenty-four hours after the result of the election has been declared, serve a written notice either personally or by mail upon each person declared to be elected as a member of the board of education. A person upon whom such notice has been served shall be deemed to have accepted the office unless within five days after the service of such notice he shall file his written refusal with the clerk.

§ 362 **Appeals to the Commissioner of Education.** An appeal may be taken to the Commissioner of Education from such election or from any of the acts or proceedings of a school meeting or the board of education, in the same manner and with the same effect as in the case of an appeal to

him from the acts or proceedings of a school meeting or election or of a board of education, under the provisions of this chapter. The Commissioner of Education may, in his discretion, order a new election in any town school district.

§ 363 Custodian of school property in school district. 1 There shall be a custodian of school property in each school district included within a town school district. Such custodian shall be a resident of such school district and a qualified elector of the town school district. Such custodian may be elected by the qualified electors of the school district at a meeting of such electors to be held on the first Tuesday in August in each year, in the schoolhouse of such district, at seven thirty o'clock in the evening. Notice of the time and place of the meeting for the election of such custodian shall be given by the clerk of the board of education of the town school district by causing five notices of such meeting to be posted in five conspicuous places previous to the date of such meeting. One of such notices shall be posted on the front door of the schoolhouse.

2 Such meeting shall be conducted and such custodian shall be elected in the same manner as school district officers are elected in districts not included within a town school district. A statement of the result of the vote for custodian shall be made and signed by the chairman and clerk of the meeting and the clerk shall cause the same to be filed with the clerk of the board of education of the town school district.

3 If a custodian is not elected by the qualified electors as hereinbefore provided, the town board of education may designate a qualified elector of such district to serve as the custodian of school property in such district.

4 Subject to the supervision and control of the board of education of the town school district, such custodian shall have the care and custody of the schoolhouse, school grounds and all school property of the district. He shall be responsible to the board of education for the safe-keeping of such property. He shall superintend, under the direction of the board of education, the erection repair and improvement of the school building in the school district and the equipment of the same. He shall perform or cause to be performed such work in the repair and improvement of the school building and of the school grounds as may be authorized by the board of education, and for which provision has been made in the school tax budgets of the town school district. He shall provide for cleaning the schoolhouse, for building fires, and for janitor work generally in and about the schoolhouse, and when authorized by the board of education of the town school district shall provide fuel and other necessary supplies for the use of the school. The amount to be expended therefor shall not exceed the amount included in the school tax budget of the town school district. All contracts made by such custodian for the purchase of fuel and supplies and the performance of labor shall be subject to the approval of the board of education of the town school district. Such board of education may compensate such custodian for services actually performed by him in caring for the schoolhouse and grounds and in making repairs and improvements thereof.

The board of education of the town school district may remove such custodian from office for refusal or failure to perform the duties imposed

upon him by this section. A vacancy in the office of such custodian shall be filled by the board of education, and the person appointed to fill such vacancy shall hold office until the election of a custodian as provided in this section.

§ 2 Section 491 of such chapter, as amended by chapter 140 of the Laws of 1910, is hereby amended to read as follows:

§ 491 **Apportionment of moneys appropriated for the support of common schools.** After setting apart therefrom for a contingent fund not more than ten thousand dollars, the Commissioner of Education shall apportion *annually* the money appropriated for the support of common schools as follows:

1 To each city and to each union school district which has a population of five thousand and which employs a superintendent of schools, eight hundred dollars. This shall be known as a supervision quota.

[2 To each district having an assessed valuation of twenty thousand dollars or less, two hundred dollars.

3 To each district having an assessed valuation of forty thousand dollars or less, but exceeding twenty thousand dollars, one hundred and seventy-five dollars.

4 To each district having an assessed valuation of sixty thousand dollars or less, but exceeding forty thousand dollars, and to each Indian reservation for each teacher employed therein for a period of one hundred and sixty days or more, one hundred and fifty dollars.]

2 *To each town school district, two hundred and fifty dollars for each of the school districts in such town school districts on September 1, 1918. If a new town school district shall be organized after September 1, 1918, there shall be apportioned to such district two hundred and fifty dollars for each of the school districts in such town school district. If a school district shall be transferred from one town school district to another, the town school district to which such school district is transferred shall receive the apportionment for the transferred district.*

3 *To each union free school district, to each independent school district organized pursuant to the provisions of subdivision 7 of section 331 of this act, two hundred and fifty dollars. The apportionment provided for by subdivisions two and three shall be known as district quotas.*

4 *When a town school district, union free school district, or independent school district contains a consolidated district established since March 25, 1913 there shall be appointed to such town school district, union free school district, or independent school district a district quota for each of the school districts embraced in such consolidated district.*

5 To each of the orphan asylums which meet the conditions mentioned in article 35 of this chapter, one hundred and twenty-five dollars.

[6 To each of the remaining districts and to each of the cities in the State one hundred and twenty-five dollars. The apportionment provided for by subdivisions 2, 3, 4, 5 and 6 shall be known as district quotas.]

6 *To each Indian reservation for each teacher employed therein for a period of one hundred and sixty days or more, one hundred and fifty dollars.*

7 To each such district, city and orphan asylum for each additional qualified teacher and his successors by whom the common schools have been taught during the period of time required by law, one hundred dollars. The apportionment provided for by this subdivision shall be known as the teacher's quota.

8 To a school district which has failed to maintain school for one hundred [sixty] *eighty* days or which has employed an extra teacher for a shorter period than one hundred [sixty] *eighty* days such part of a district or teacher's quota as seems to him equitable when the reason for such failure is in his judgment sufficient to warrant such action.

9 To each separate neighborhood such sum as in his opinion it is equitably entitled to receive upon the basis of distribution established by this article.

10 All errors or omissions in the apportionment whether made by the Commissioner of Education or by the school commissioner shall be corrected by the Commissioner of Education. Whenever a school district has been apportioned less money than that to which it is entitled the Commissioner of Education may allot to such district the balance to which it is in his judgment entitled and the same shall be paid from the contingent fund. Whenever a school district has been apportioned more money than that to which it is entitled the Commissioner of Education may, by an order under his hand, direct such moneys to be paid back into the hands of the county treasurer by him to be credited to the school fund, or he may deduct such amount from the next apportionment to be made to said district.

11 The Commissioner of Education may also in his discretion excuse the default of a trustee or a board of education in employing a teacher not legally qualified, legalize the time so taught and authorize the payment of the salary of such teacher.

§ 3 Subdivision 2 of section 492 of such chapter, as amended by chapter 140 of the Laws of 1910 and chapter 511 of the Laws of 1913, is hereby amended to read as follows:

2 No *town school district or other district* shall be entitled to any portion of such school moneys on such apportionment unless the report of the *board of education of such town school district or the board of education or trustees of such other district* for the preceding school year shall show that [a common] schools [was] *were* supported in [the] *such* district *for the instruction of the pupils residing in such district* and taught by [a] qualified teachers or by successive qualified teachers for at least one hundred and eighty days, inclusive of legal holidays that may have occurred during the term of said school and exclusive of Saturdays.

§ 4 The first paragraph and subdivision 1 of section 493 of such chapter, as amended by chapter 140 of the Laws of 1910, is hereby amended to read as follows:

§ 493 **Apportionment of moneys appropriated to cities, academies, academic departments and school libraries.** The Commissioner of Education shall apportion the money annually appropriated for the support of cities, academies, academic departments and school libraries in accordance with regulations established or to be established by him as follows:

1 To each city, union *free* school district, [and] nonsectarian academy and town school district maintaining an academic department, a quota of [one] six hundred dollars for each such academic department maintained therein. This apportionment shall be known as the academic quota.

§ 5 Section 502 of such chapter, as amended by chapter 140 of the Laws of 1910, is hereby amended by adding thereto a new subdivision to read as follows:

3 *To the city of New York, the actual expenditures for the maintenance and support of three training schools, but not to exceed the sum of three hundred and fifty thousand dollars on furnishing the Commissioner of Education such evidence as he shall require of such expenditures.*

§ 6 All acts or parts of acts, general or special, inconsistent with the provisions of this act are hereby repealed. The repeal of such inconsistent acts or parts of such acts shall not affect any right existing or accrued, or any liability incurred prior to the passage of this act. This act shall not affect a pending action or proceeding brought by or against a trustee, trustees, or a board of education of a school district, prior to the taking effect of chapter 328 of the Laws of 1917, but the same may be prosecuted or defended in the same manner and for the same purpose, by the board of education of the town school district of which such district forms a part, as though this act had not been passed. Any action or proceeding brought by or against the board of education of a town or a town school unit under or pursuant to the provisions of said chapter 328 of the Laws of 1917, pending at the time this act takes effect, may, if such action or proceeding pertains to a school district included within a town school district as established herein, be prosecuted or defended in the same manner and for the same purpose by the board of education of such town school district as though this act had not been passed. If such an action or proceeding brought by or against the board of education of a town or a town school unit, under and pursuant to such chapter 328 of the Laws of 1917, pertains to a union free school district maintaining an academic department, such action or proceeding may be prosecuted or defended by the board of education of such union free school district in the same manner and for the same purpose as though this act had not been passed. All contracts entered into by a trustee, trustees or the board of education of a school district prior to the taking effect of this act, under and pursuant to the provisions of the Education Law or of said chapter 328 of the Laws of 1917, shall, if such contract pertains to a district included within a town school district as established by this act, be carried into effect according to the terms thereof by the board of education of the town school district, or if such contract pertains to a union free school district maintaining an academic department, it shall be carried into effect according to the terms thereof by the board of education of the union free school district, in the same manner and for the same purpose as though this act had not been passed. Any right, existing or accrued, or any liability incurred, prior to the passage of this act, by a trustee, trustees, or board of education of a school district, included within a town school district as established by this act, may be asserted and enforced by or against the board of education of the town school district of which such school district forms a part, in the same manner and to the same extent as though this

act had not been passed. Any such right or liability accrued or incurred prior to the passage of this act by the board of education of a union free school district maintaining an academic department, or in behalf or on account of such district by the board of education of a town or a town school unit, under and pursuant to chapter 328 of the Laws of 1917, may be asserted and enforced by or against the board of education of such union free school district, in the same manner and to the same extent as though this act had not been passed.

§ 7 Sections 340 and 341 of the Education Law are hereby renumbered sections 364 and 365; sections 360, 361, 362, 363, 364 and 365 of such law are hereby renumbered respectively sections 370, 371, 372, 373, 374 and 375.

§ 8 This act shall take effect July 1, 1918, except that the provisions of sections 331, 353, 356, 357, 359, 360, 361, 362 and 363, relative to the establishment of town school districts, the election of boards of education therein, and the election of boards of education in union free school districts maintaining academic departments, shall take effect June 1, 1918. The boards of education of towns and town school units as constituted under and pursuant to chapter 328 of the Laws of 1917, shall have the powers and perform the duties conferred or imposed by law until their offices are terminated as provided in this act, except they shall not be authorized to employ teachers for schools in the town school districts established by this act or in union free school districts maintaining academic departments, subsequent to May 1, 1918, but the boards of education of town school districts and union free school districts maintaining academic departments elected under and pursuant to the provisions of this act may immediately subsequent to their election employ teachers for the schools in such districts for the ensuing school year.

ACTION OF JOINT LEGISLATIVE COMMITTEE REPRESENTING STATE EDUCATIONAL ASSOCIATIONS

Educational Legislation—State Aid

To all interested in improving the educational facilities of the State:

A new crisis has developed in the rural school situation. It is assumed and anticipated that the township law will be repealed. But it is the general, if not unanimous, opinion of those who have taken an interest in the country schools, both those who have favored and those who have opposed the township law, that something must be done to improve the condition of these schools, and that we can not go permanently back to the old system. The question arises, "Why should we go back to it at all?" Can not some immediate improvement be assured? Other states surrounding New York have gone forward. Shall New York State not do something, and at once, instead of confessing herself helpless in the face of conditions which are admittedly not to be generally improved under the old system?

A proposal comes from the Senate committee on education to meet this crisis by calling upon the State to contribute a greater part itself toward meeting the expense of education throughout the State. The state allotments have remained nominally the same for a quarter of a century, but are actually less than they were twenty-five years ago, and are relatively

greatly diminished. While the local expenditures for rural schools have been doubled in that period (three millions to six millions), there has been no increase in the state appropriations to these districts. The entire increase in the state appropriations has been apportioned to the cities and villages. Moreover, New York State is now thirty-first in the list of states in the proportion of state to local expenditure for school purposes, and it is twenty-fifth in the proportion of state aid to total assessed valuation.

Under the proposed increase to \$250 for each district, the State would not be meeting more than a fair share of the burden due to changed conditions and increased cost. *Under the provisions, therefore, of the plan contained in the bill of the Senate committee on public education, the county of _____ will receive an increased allotment from the State of \$ _____.*

In the second place, it is proposed to eliminate from the town school unit all the union free school districts which maintain academic departments, and to make an allotment to each in the amount of \$600. An especially heavy burden rests at present upon many of these districts.

In the third place, it is proposed to maintain the larger, that is, the town, unit of taxation and administration, except when the towns are too large for one board; but to consolidate no districts except upon the vote of the districts affected.

New York State is hesitating at the moment. There is a strong demand for the repeal of the township law. Its enactment has, however, served a good purpose in inciting a greater interest in the schools of this State. But it would be a disaster to the State and a cause for humiliation in the eyes of all the states, if New York were to accept as inevitable a system which every other state in this part of the country has abandoned, and were to decline to bear a fair share of the expense which an improved condition of the schools makes imperative.

F. D. BOYNTON, Superintendent of Schools, Ithaca

Chairman Joint Legislative Committee

H. S. WEET, Superintendent of Schools, Rochester

President, State Teachers Association

S. R. SHEAR, Superintendent of Schools, Poughkeepsie

President, State Council of Superintendents

GEORGE H. COVEY, District Superintendent of Schools, Westchester county

President, State Association of District Superintendents

A. R. BRUBACHER, President, State College for Teachers

P. I. BUGBEE, Principal, Oneonta State Normal School

C. EDWARD JONES, Superintendent of Schools, Albany

ARVIE ELDERED, Superintendent of Schools, Troy

DANIEL J. KELLY, Superintendent of Schools, Binghamton

RAY P. SNYDER, District Superintendent of Schools, Oneida county

JOHN D. JONES, District Superintendent of Schools, Allegany county

J. M. SCHOONMAKER, District Superintendent of Schools, Ulster county.

The following table shows the amount of ADDITIONAL PUBLIC MONEYS which would be apportioned by the State to the several counties of the State under the terms of the township school bill introduced by the committee on education in the senate:

COUNTY	DISTRICT QUOTAS	ACADEMIC QUOTAS	TOTAL
Albany	\$14 675	\$1 500	\$16 175
Allegany	23 700	8 000	31 700

This selection of letters and newspaper clippings indicates the attitude of the people in regard to the proposed amendment of Township Law.

Township School Law Amendments

Albany, Dec. 11.—Republican leaders have decided that legislation must be passed at the coming session of the legislature modifying the law enacted last year, known as the township school law.

This decision is the result of complaints from the rural districts, where it is claimed that the law has worked a hardship on the communities having rural schools. It is charged that the expense of the school system has been increased without proportionate increase in benefits of the education system.

It is said that the demand from rural districts that the law be changed this year will be so insistent that no legislator having such a district will dare to turn an unheeding ear to his farmer constituents. And it was by votes of men representing the rural districts that the bill passed the legislature last session.

The changes to be made in the measure, it is said, will make the plan a home-rule one, so as to permit localities to adopt the township system or reject it as their own judgment may dictate. Of course, this plan will be opposed by the state department of education, which wants a system of school administration uniform for the state. But the legislators, warned by the decreased pluralities of many from the rural districts, undoubtedly will override the department officials.

Under the law as enacted at the last session, certain school districts were omitted from the provisions of the statute. These comprised all union free school districts having a population of 1,500 or more; all union free districts employing fifteen teachers or more, and all of the school districts included within the county of Nassau.

It is said that the bill amending the township school bill will be one of the first to be introduced when the legislators return to Albany for the winter work.—*Buffalo Express, December 12, 1917*

Ask Amendments to Machold Law

Canton, Dec. 12.—Practically all the afternoon of yesterday was given over by the board of supervisors to a discussion of the Machold township school law. Most of the district school superintendents of the county were present, and Assemblyman Frank L. Seaker and representatives of the town school board of Lisbon were also present.

District Superintendent Edward McDonald, Massena, opened the discussion. He said that he thought the law should be amended so as to exempt union free schools from its action. He said that the most of the complaint had come from increased taxes, but that there were a number of causes for increased cost of operation of the schools for which the law was not responsible, such as the fact that teachers' wages had been increased from 10 to 15 per cent, that fuel cost more, and that for a number of

years the country districts had been looking forward to the time when some similar law would be enacted and had deferred making necessary repairs to their school property pending the time when the town should take the property over and make the repairs.

He said that about the only added expense caused by the law was the salary of the clerk and treasurer and that in some cases larger salaries had been paid to these officers than were necessary. He thought \$100 to \$150 should be sufficient to pay the salaries of these officers. He recommended that the districts should be permitted to contract with one another, saying that in his district he knew of one school with only two pupils and another with only one. He said that the law did not permit of elimination of a district except by a referendum vote of all the districts in the township, and in this respect did not allow of consolidation and elimination of districts so readily as the old law.

Mr. Moore made a lengthy speech as representing the farmers of Lisbon, charging that the bill had been sprung on them unawares, but this Mr. McDonald denied, calling attention to the fact that the bill was endorsed by the granges generally and by the state grange and also by the board of supervisors at its last annual session, and that the matter had been in the air for several years.

District Superintendent William E. Clark spoke in favor of the bill as a whole, but said that some amendments should be made and that he was assured by the state department of education that it was of the same mind. One of the amendments suggested provides for the town's taking over the property of the districts, which was one of the provisions of the law particularly objectionable to the Lisbon men.

Assemblyman Frank L. Seaker stated that he voted for the law because he believed it was a good law and that he still believed it to be a good law in its main features. He called attention to the fact that the law had been in force only about four months and was endorsed by granges and other bodies generally when it was presented and that he thought it should have a fair trial. Supervisor Hatch of Russell spoke in opposition to the bill, saying that he thought it tended to take the authority out of the hands of the residents of the districts and put it into the hands of those not so much interested. J. Leslie Craig of Lisbon said he would be satisfied with having the bill amended in certain particulars, but if it could not be amended, he was for its repeal.

After some further discussion, Mr. Chaney introduced a resolution which was adopted and which stated that the board favored the amendment of the law so as to take the union free school districts out from under the operation of the law and to do away with the provision providing for the town's taking over the property of the districts.

Mr. Daly introduced a bill to permit the town of Colton to borrow the sum of \$2,000 for highway purposes.

At its meeting Monday evening, the board went on record as favoring an amendment of the election law so as to provide for the having of one election district for every 500 of voting population.—*Watertown Times*, December 12, 1917

Sweet Expects Amendment to School Measure

Modification, not repeal, is the legislative program with respect to the Machold township school law, according to Speaker Thaddeus C. Sweet of the Assembly, who is preparing to take up the reins next week for his fourth consecutive year in Assembly leadership.

"Sentiment is overwhelmingly strong for some modification of the Mac-hold law," said the Speaker yesterday at his home in Phoenix, "so as to make it more workable without sacrificing its fundamental principle—higher education for children of rural districts.

"I think it will be possible to make it less burdensome without a complete repeal, although a course so drastic as that is possible if no easier methods can be found. The State Department of Education, grange leaders, prominent educators and legislators are devoting a great deal of thought to the subject and a great many suggestions have been made.

"One of them, which I recall particularly, is that the unit for the law's operation be made the county, instead of the township. It happens frequently that certain townships in the county have big taxable corporate interests, like trolley and lighting franchises, while neighboring townships have none. Enlarging the unit would spread the tax burden over a larger territory."—*Ogdensburg Journal*, December 27, 1917

The Abused Township School Law

The Township school law, constituting Article XI-A of the State Education law, continues to absorb public attention, particularly in the rural districts. It is the leading subject of discussion at Grange meetings, special meetings of taxpayers have been held in different parts of this county, and a few days ago delegates representing aggrieved citizens held a conference in Canandaigua with Senator Carson and Assemblyman Tyler and presented resolutions demanding repeal of the law.

Not before in years has a legislative enactment aroused such bitter controversy as has this act of the Legislature of 1917, and while not a few representative citizens defend the law in its general scope, there is well-nigh universal criticism of some of its provisions and a widely-expressed demand for its entire repeal.

Judging from the communications printed in recent issues of *The Times* and others since received, the new law is condemned for four principal reasons:

1—The largely increased taxation for school purposes which has followed its enactment, doubling, trebling and even quadrupling former school taxes.

2—The injustice done taxpayers of certain districts through the spreading over a whole town of a tax for new buildings, constructed for the immediate benefit of a locality.

3—The alleged centralization of authority in the State Department of Education and the alleged robbing of the people of control over the local schools.

4—The elaborate and costly method provided for the annual election of members of the Town Boards of Education.

There can be no question whatever but that injustice has resulted from the equalizing of taxes in some of the larger units, or that the elaborate election method prescribed will entail larger cost without compensating advantages.

The instance showing the rankest injustice in the matter of taxation is that found in the town of Manchester, where the two high schools, each of which the law requires shall be the focus of a unit of control and taxation, are located in the southwestern corner of the town, so distant from other sections now called upon to bear a proportion of the indebtedness incurred through erection of buildings as to be entirely denied the advantages they afford, being in fact naturally tributary to the high school at Palmyra, in the adjoining county of Wayne, or to that in Clifton Springs, which being in a village of 1500 inhabitants, is constituted a unit by itself.

Other less aggravated cases of injustice might be noted, but this one suffices to show that there is just cause for dissatisfaction and complaint and good reason for amendment of the new law. However, even this criticism is met in part at least by the fact that the law provides that if pupils are nearer to some high school of another unit than the one in which they reside, it is the duty of the town board to arrange for them to attend such school.

The election provisions requiring the nomination by petition of candidates for members of the town board of education, the registration of the voters, official ballots and other machinery of a general election, will entail large expense, serve no good purpose, and would prevent rather than assist in getting the best men to serve on the several boards.

The increase in taxation in some rural districts, owing to their inclusion in units having high school buildings to pay for, as in those above instanced, is unjustifiable, but otherwise it appears that there is no additional expense in school administration involved in the operation of the township law, except that resulting from the employment of a paid secretary of the board of education, the salary of whom has been fixed in the towns of this county anywhere from \$50 to \$600 a year. At the last named figure this secretary is required to make out the tax roll without additional compensation, and as he must provide the registry list of voters, acts as general purchasing agent and performs other duties as directed by the board, he is probably not overpaid for the work he does, and when it is considered that even at this largest figure the salary is but a very small percentage of the total budget of a town it will be seen that it adds little to the tax rate. The members of the board receive no compensation, the collector gets only the fees that such officers have heretofore received, and there are no more.

Whence then the large increase in this year's levy for school purposes? It is due partly to the general tendency of the times, to increased wages to teachers, to the providing of inside sanitary closets now ordered by the state authorities, to the cost of the required physical instruction, and to the provision made by most of the boards for a surplus with which to open another year. Contrary to quite general understanding, the township law is in no way responsible for the sanitary closets or the physical instruction. Had it never been enacted, expenditures for these new features,

amounting in each town to several thousand dollars, would have had to be made, and in case of its repeal could not be avoided. The proposed surplus would seem to be a wise provision in view of the fact that the balances in the hands of the old school trustees must be returned to the taxpayers and the new boards had to start the year with an absolutely empty treasury.

As to the charge that the new law takes control of the schools from the hands of the people and centralizes it in the hands of state officials there seems to be no foundation. The control is taken from district trustees, in whose election usually only a handful of people have participated and placed with a board of five members in each town or unit, but these five are to be elected by the people, are directly responsible to the people and exercise no power over the schools, the hiring of teachers, or the making of improvements that their predecessors did not possess. It is true that they are empowered to make up the budget, but the trustees under the old system could arbitrarily increase the tax levy over the sum voted if they found it necessary in order to obtain teachers or make improvements. It is true that, while consolidation of districts can only be brought about by vote of the people interested, a board may in its discretion close a school, but when it is known that some of the schools have no more than 8 or 10 pupils each and that the members will presumably act for the benefit and convenience of those from whom they derive their power it need hardly be feared that injustice will be done in this respect. Conditions are very different from the time a few years ago when each rural school had 20 or 30 pupils, including boys and girls 15 to 20 years old. Now if such children go to school at all it is at a high school or academy.

The law's advantages, as pointed out by discerning taxpayers and practical school men, are manifest. The unifying of the control of the schools in a town or other unit will make for a higher and more uniform standard and better equipment. The equalization of the school tax rate throughout a town will remove the unfair advantages possessed by one district over another, perhaps adjoining, by reason of the possession of railroad or other corporation property, an advantage as great as that between \$2 and \$10 per \$1,000 of assessed valuation. As the change made a few years ago from district to town control of road supervision, which it is remembered was for a time strenuously resisted, made for better roads and equalized the cost of their maintenance, the township school system, if amended to avoid unnecessarily cumbersome and expensive elections and to remedy such injustices as those presented in the town of Manchester, may be depended upon to make for better schools and a fairer distribution of the cost of their maintenance.

The law is a new one and has not as yet had a fair test. The township system of school control for which it provides has the unqualified endorsement of the most experienced and best qualified educational men in the country and has been put in operation in most of the Eastern states, including Ohio, Pennsylvania, Massachusetts and other commonwealths recognized as the most progressive in the Union. Its operation will not unlikely lead to, or be accompanied by, increased cost in the maintaining of schools in rural sections, though, we are assured, in many cases the taxes in future years will be considerably lessened. That is an unavoidable

result of the popular demand for improved and more efficient educational facilities for the rising generation. The people in Canandaigua and other centers of population have been taxing themselves \$11 per \$1,000 of assessed valuation for the support of schools whose advantages have been placed at the disposal of the pupils from outside at considerably less cost.

But as above indicated the Township school law, in some of its provisions, works rank injustice and necessitates unwarranted expense. It should be amended. Its repeal would be a mistake.—*Canandaigua Times*, January 2, 1918

Township School Law

One of the big issues of the session of the state legislature this winter will be the so-called township school law, which has almost all of the farming districts in the state as stirred up as a hornet's nest struck by a well-aimed stone.

Dr. Thomas E. Finegan, the father of the bill, states that the Department of Education was not satisfied with the bill as it now stands, particularly with that portion of it which deals with the taxation, and every town board in the state affected by the measure was being asked to present its opinion on the legislation with a view to equalizing the financial side of the measure.

"Everything is costing more these days," declared Dr. Finegan. "This is true in regard to education as in everything else. You cannot put through a big question like this and have it satisfactory all at once. There must be revision and we expect to make recommendations to the legislature at this coming session. Some of the districts had large valuations and some of them small and the result was that some had to pay higher taxes than others. The former complained. The chief complaint seemed to be generated by bringing the village high school into the township and this put a higher tax on the farming community. We are going to try to solve this matter in an equitable manner."—*Warrensburg News*, January 24, 1918

Township School Law

Rochester, Jan. 24.—Senator James W. Wadsworth has begun suit in Supreme Court in Rochester to contest the constitutionality of the amendment to the state education law taking effect last August which made whole townships instead of school district units for the assessment of school taxes. Senator Wadsworth is represented by Elihu Root, former senator from New York, and Frank K. Cook, deputy attorney-general; the town is represented by A. M. Little of Rochester, and the state education and tax departments are represented by Frank B. Gilbert, chief counsel of the University of the State of New York.

The suit is brought against the Board of Education and tax collector of the town of Caledonia, in Livingston county.—*Ogdensburg News*, January 25, 1918

Note: Senator Root was not retained in this case and did not appear in the case. It was generally believed that his name was used in this connection to give the prestige which his name carries to the repeal of the law.

School Law May Be Amended

There has been a considerable opposition among the farmers of the whole state against the operations of the township school law enacted at the last session of the legislature. The taxes of the rural regions were largely increased by the provisions of the law, and although the educational advantages to the children of the state were largely increased under the law, the opposition came from those who thought more of taxes than they did of education. Catering to the opposition Assemblyman Martin, of Oneida, introduced a bill in the legislature last week providing for the repeal of the law. This was referred to the education committee, and word comes forth that the bill will be allowed to die in committee, as the state board of education will oppose its passage to the utmost. It is probable, however, that the bill will be amended so as to remove a number of its most objectionable features, among which is the increased taxation.—*Montgomery Standard and Republican, January 25, 1918*

Modify Township School Law

There may be many faults to be found with the Township School Law but it appears somewhat ridiculous to attribute every failure connected with the school work of the State to the application of that popular law.

Those who attack the township school law should not include Governor Whitman in their tirade as he approved that law simply because the Granges of the counties and state represented that law was wanted and in his effort to give the people what they wanted, or thought they wanted, he approved the township school law; what better could any Governor have done regardless of political affiliations? Governor Whitman could approve or repeal that law without all this agitation and committee work and with just as little encouragement as he endorsed it to become a law—he is a Governor who wishes to give the people what they want.

The township school law was endorsed by the State Agricultural Society, the State Grange and other bodies. Every State in New England has adopted the township system. Every state bordering upon New York State has discarded the old district system and adopted the township plan.

When the Union Free School was adopted in 1868 the opposition was bitter because it would tax those without children and increase the tax rate.

Because in the past the district school filled an important educational position is no reason that it does so now. The old carryall has given place to the automobile and the scythe to the mowing machine, both were necessary things in their day, but their day has passed. Forty years ago the apex was reached. There was then in the rural districts one hundred thousand more children than there is today. Right in the town of Bethel there are schools that now have ten to a dozen pupils that formerly had from twenty-five to forty-five. While the village schools have kept pace with the times the district school is in many respects where it was forty years ago, but lacking the enthusiasm of numbers.

Recent statistics show that there are fifteen schools in the state now in each of which there is just one pupil. There are eighty-six in which there are 2; 116 with 3 pupils; 258 with 4 pupils; 357 in which there are

but 5 pupils; 600 in which there are less than 7, and 3,800 in which there are less than 10 children in attendance.

It does not need any argument to convince any reasonable person that a school with from one to five pupils is hardly a school in any sense. It is for the elimination of these schools by consolidation and the merging of the resources of scattering districts, so that one good school would take the place of several poor ones, that the township school law was passed; that law still left the matter of consolidation to the people of the districts affected, and they could continue as they are or consolidate at their option. In this respect there was no privilege taken away from the taxpayer by the township school law.

The meeting at Monticello last week there was considerable reference made to the purchase of sanitary toilets and the expense connected with their purchase—the indebtedness of the town of Bethel for toilets being \$1,586.27. The committeeman from this county should become more familiar with the township school law as the installation of sanitary toilets is no part of that law, and no reference is made to these toilets in any section of the township school law.

They are made compulsory by a regulation of the State Board of Regents who are to be complimented on their relegating the unsightly and unsanitary district toilet to the past ages.

The Boards of Education had the authority to purchase the toilets and install them in the schools of the town and they have followed the directions given them by the State Department of Education so that all the schools would have their sanitary toilets without the cost coming on each individual district, while every district gets the benefit.

This is about the first time an indebtedness was incurred upon the town of Bethel and each section derived a benefit from the contract.

Take for instance, in the year 1912, the town board of this town with John Townsend, supervisor (the committeeman appointed at Monticello to go to Albany), entered into a contract involving an expenditure of some \$4,850 for road machinery for making stone road; year after year since that time the tax payers of every school district in the town have been paying out their money on the contract price of the machinery and how many districts have had a foot of stone road built in their borders? The Board of Education cannot be justly criticised for their impartial work in installing sanitary toilets to comply with law and decency, neither is the township school law responsible for the disappearance of the old district privies.

The physical training and the expense connected with its conduct in rural districts is outside the township school law by special statute of its own, yet it is placed among other offensive things that go to make the township school law so unpopular.

The cost of carrying on the township law next year in the town of Bethel would be far less than the past year, but the *Times* would be as well pleased for a return to the former system of the district school and the board of trustees. We hope the repeal will take place before the time of the annual school meeting, when the expense of the conduct of the election under the township school law can be omitted and the clerk of the Board of Education can vacate the duties of his office.—*White Lake Times*, February 22, 1918

Finds Advantages in New Town School Law

By CHARLES J. HERRICK

The *Knickerbocker Press*, on January 21 last, contained an article on the town school law, criticizing my article approving of this school system, published in the same paper on January 14. This critic, writing from Voorheesville but stating that Guilderland was her town, objected to my approval of the present system on the ground that I was a lawyer and a city man and, therefore, unfamiliar with country conditions and the wishes of farmers relative to the education of their children.

My observation has been that the people attacking this system have indulged in unnecessary personalities in order to distract attention from the real reason for their opposition to the law, which consists almost entirely in their objection to contributing their fair share of the amount which is necessary for the maintenance of suitable schools for country children. While my own occupation and place of residence have nothing to do with the merits of this question, yet for almost eight years I have lived continuously on a farm of 150 acres, and I send my own children to one of these rural schools. I have the same objection that she entertains to paying unnecessary taxes, but as a parent of school children I wish the best system that is practical adopted for our country schools and I am willing to contribute whatever my share may be towards the improvement of the schools throughout the town. I have no financial interest of any nature in the maintenance of the present law.

I assume that none of the people would be willing to accept either this critic or myself as competent to plan a system for the proper management of rural schools. A portion of the money raised by the state through general taxation is used to employ the best experts that can be found to manage our schools through the state department of education. The New York state department of education is regarded as the equal of any similar organization in the United States. It is their duty, which they have properly discharged, to thoroughly investigate the condition of our rural schools and to endeavor to improve them wherever possible. This department is familiar with the work done by similar organizations in other states in the Union. They know that the country school system which we have just adopted has been in operation for several years in most of the states on each side of us, that it displaced in these states the same system that we have just discarded, and that in each of these states it has fully demonstrated its great superiority over the old school system.

We are fortunate in having at the head of the department, charged with responsibility for the care and management of our rural schools, a man who is recognized by educators as one of the best informed, most practical and progressive educators engaged in this particular field. Dr Finegan not only has demonstrated his worth to the people of the State of New York but has received the unqualified approval and support of the National Society of School Superintendents who have selected him as their president, and thereby demonstrated their complete confidence in his ability, his knowledge, his experience in educational matters and his management of our rural schools. It was only after a most careful investigation by Dr. Finegan

CHARLES J. HERRICK
An advocate of the township law

that the State department determined to abolish the old system of managing our schools, and to introduce in its place the system which the states on all sides of us were employing, and the system which is similar in many respects to that found in most of our cities. It would be the height of folly for people, who at best can be classified only as amateur educators, to argue that their ideas should be substituted and adopted by the State in place of the mature judgment of the greatest experts in this country.

The two main objections urged by opponents of this system are that it deprives small communities of local control and that it uses money raised in one locality for expenditure in another. Under the old system the trustees prepared budgets, and these were submitted to a school meeting of the taxpayers. Under the present system, while the budget is prepared by the board of education and published for the benefit of the entire town, yet no attack can be made successfully upon this budget if the proposed appropriations are for purposes recognized by the law and kept within the limitations prescribed by the law. Under the old system the taxpayers had the power, and this power usually was employed to cut down the budget so as frequently to prevent necessary improvements from being made, and competent teachers from being employed. The experience of sixty or seventy-five years has demonstrated that this system for these reasons has been a failure. The new system is based upon the same principles upon which all other town money is raised and disbursed. The principle of selecting competent men to take charge of such matters and trusting to their good judgment to refrain from extravagance and to spend the money not only legally but wisely, is followed invariably in the town government, in the city government, in the county government, in the State government and in the national government. The old system was an anomaly. It grew out of the situation where the private schools of several generations ago, which had been supported by the people in the vicinity, were converted into public schools for the free education of children and all the people in that little locality instead of merely the parents of the children at school, were forced to contribute for its support as a matter of public policy. But this system never was a success, and we have outgrown its necessity. It has given way to a modern system and we cannot go back to it.

In the disbursement of money raised for general town purposes we may find, for instance, that a large sum is used for the construction or maintenance of a bridge that is used by but a portion of the town, yet the people in another portion of the town who will never have occasion to use this bridge are forced to contribute towards paying for it; but sooner or later the latter in turn will require some public improvement, and then the section of the town which has enjoyed the benefits of the bridge will be taxed to pay for the public improvement in the other section. All are taxed for the general public good of the whole town, and so it is, and should be, with the schools. It is far more important for a man living in the southwest corner of a town to have the children in the northeast corner properly educated than it is to have a bridge or some other local improvement constructed in that locality, for he is sure to benefit sooner or later by the improvement in these children which must eventually benefit the entire town.

The new system affords possibilities which could not even be contemplated under the old system. Let me illustrate this by what has been done in our

own town, and, lest some reader may say at the startoff that such improvements must have been extremely extensive, perhaps unwarrantably so, I could mention that whereas the critic from Voorheesville stated that in her town of Guilderland there are thirteen schools for which the town was obliged to raise \$25,994, yet, in the town of Bethlehem, there are fifteen schools for which our town raised less than \$25,000, and our tax rate was but seventy-two cents on every \$100 of assessed valuation. The first improvement made by our board which would not have been practical under the old system was to employ a trained nurse, to act in the double capacity of supervisor of physical training and school nurse for all the schools in the town. Whatever criticism may be made of the office of supervisor of physical training, every well informed person must concede that a competent school nurse will protect the health of school children, perfect the sanitary conditions of our schools and improve the personal appearance of many of the children. Every child in our schools is examined carefully by this nurse. Those having difficulty with their eyes or with their hearing or breathing, who have defective teeth or other physical weaknesses are reported to their parents, who are informed of their condition, advised to consult a physician or surgeon and frequently induced to take the necessary measures to safeguard the well being of their children. Our school nurse was largely responsible for the speedy control of an epidemic of typhoid fever in one of our large villages which was exciting the consternation of our people, and might have led to the gravest consequences. Our experiences so far has imbued us with great confidence in this plan of having a competent trained nurse to safeguard the health of our school children.

We next organize a rather unusual type of school, offering an academic course for children of the first and second year in high school, and what may be termed an industrial course to cover a period of four years to be taken by children from the seventh grade upward. The principal of the school is a graduate of the agricultural department of Cornell university. He is giving a thorough course in agriculture at this school extending over a period of four years and designed primarily for the benefit of farmers' sons, which includes also a very practical course in carpentry, forge work and machinery. We have employed also for the benefit of the girls a graduate of the State College for Teachers who gives a thorough course in home economics, including cooking, sewing, household management, home nursing, etc. This school is open to all the children of the town free of charge. Moreover, we encourage children from distant parts of the town to come to the school by paying all, or the greater part of, the cost of their transportation. Some of these children come by trains, some by motor buses and some use bicycles in good weather and horses in bad weather. We have taken out the seventh and eighth grades from two of the district schools in close proximity to this central school and give the children of these schools an option of coming either to the central school, in which event we pay their transportation, or of going into the city of Albany, in which event we pay their tuition, which amounts practically to the same as their transportation. Courses are so arranged that a child in the seventh grade spends his forenoon in the regular rural school, located in the same village in which is situated the new school, where he gets his usual elemen-

tary work, while he spends the afternoon in the new school at his industrial work. Children in the eighth grade spend their mornings at the new school, taking the industrial course and their afternoons in the old school getting their regular elementary work. This new school is located in an old dwelling house, and one of the novel features is an arrangement by which the teacher of home economics has three girls living in the school with her for the first four days of the week, so as to be under her constant care and supervision, and in this way learn home management to far better advantage than they can merely in classroom work. When these girls have finished a period of two or three weeks living at the school their places are taken by three other girls. Of course, during the entire period all girls are having their regular cooking and sewing lessons in the school kitchen or sewing room. While no charge is made for the girls' lodging they all contribute towards the expense of maintaining their table at the school, and this amounts, as the mothers of some of the girls have stated, to about the same sum that it would cost for their meals at home. Such a school is made possible because the State pays half the salary of the principal, one-third the salaries of the other teachers and makes a generous allowance for equipment.

We have adopted in our town the principle of promotion in order to encourage and reward our teachers. If a vacancy occurs in a position that is more desirable than that held by another competent teacher in our town, we believe in promoting such a teacher to this vacancy rather than going outside of the town. This principle, of course, could not be applied under the old system. It has worked extremely well in operation. In one of our village schools the principal got into a row with some of the people there and before an investigation could be made by the board he broke his contract and deserted the school. It became necessary to fill his position immediately. We were able to transfer to this place a teacher who had been doing excellent work in another school in our town who thereby was rewarded by being given larger pay and a splendid opportunity to demonstrate her ability and authority in a prominent position. She already has made a great success in her new location and should win a reputation that will lead to further advancement, if not in our town perhaps in other towns or in cities, where they could afford to pay more for a first-class teacher than our town may be justified in paying. The place she left vacant has already been filled by a competent teacher, and the people of the village from which she was taken realize that they in turn, when a vacancy occurs in their school which is superior in many respects to most of the schools in our town, will be able to call upon the rest of the town to surrender to them the most competent teacher occupying a position of inferiority to that becoming vacant. We believe this system of promotion will improve the schools throughout the town, and even make our system attractive to teachers outside of the town, who otherwise might not care to take a position in our town that in itself might not be particularly advantageous, but as a stepping stone to something better where the merit system is recognized might be extremely desirable.

We have also found it is advisable and necessary to employ a regular substitute in our town, which could not have been done under the old system.

We have four classrooms in one of our village schools, and three class rooms in another village school. The principal of each of these schools is one of the regular teachers whose work confines him to his own class room, and prevents him from properly supervising the other class rooms. Notwithstanding this he has been held responsible for the condition of the entire school. The employment of this substitute enables us to send her for a portion of her time to each of these schools, thus permitting the principal to surrender his class to the substitute and supervise the rest of his school. The substitute also takes the place of other teachers at the school as well as the places of teachers at our one room schools, thus enabling the regular teacher to spend a day or two visiting and inspecting other schools, either in our own town, or in the adjoining cities. The visiting teacher is enabled in this way to observe different methods from those employed in her own school and thereby improve her own work. This system so far has worked well and is meeting with enthusiastic response from the teachers.

We have made it a point under this new system to have all the teachers of the town meet the board once every four weeks, at which time they file their reports of the school work, and obtain their checks for four weeks' salary. This permits the board to meet frequently all the teachers and to discuss with them various problems involving the different schools, and also enables the teachers to become acquainted with each other, and to talk over with each other the various questions of school management in which they are interested. We have also arranged to have an expert on rural schools attend these meetings and deliver a course of lectures on modern methods of teaching and managing rural schools. We hope also that we can arrange to have the younger teachers in our town who have not had the advantage of a course at a normal training school, spend a portion of their summer in attendance at one of the summer courses at a school devoted to the training of rural teachers. We expect as a result of these measures to increase the teacher's interest in her profession, to stimulate her ambition and to improve her methods of teaching; and we intend to so organize the force as to promote those teachers who demonstrate their ability and their devotion to their work.

The result will be that we should have very much better teachers and greatly improved schools, with corresponding advantages in the education of our children. All of these things are done in many of our cities where the same system of school organization is in operation that is provided under the present town school law. The results have been satisfactory in the cities and we anticipate the same improvements in our country schools.

I should add, inasmuch as some of the frenzied opponents of the new system have stigmatized it as an example of "Prussianism" by which the schools of the State will be managed by the State educational department instead of by the local representatives, that all of these changes originated with our own board, that none of them was ordered or even suggested by the State board, although each of them after adoption tentatively by our board was submitted to the State department and approved by it before being put into operation.

Elsmere, January 25.—Albany Knickerbocker Press.

New School Bill Brings More Money

The Machold Township School Law will undoubtedly be repealed. Opposition to it has been so bitter on the part of the State Granges that even a reasonable lease of life seems likely to be denied this measure. The principal ground of objection is increased and unequal taxation. As the township system has for many years been an accepted system, has been adopted in every adjoining state as a progressive plan for the improvement of rural education, and has been publicly declared by our Department of Education to be the most forward step in rural education since the establishment of free schools, everyone must be deeply impressed with the advisability of a substitute measure which will save to the people of the State such provisions of the law as the public welfare requires, while affording relief from provisions which have resulted in inequalities or improper burdens.

A bill has already been introduced in the State Senate known as the "Senate Bill on Public Education" which to a remarkable degree eliminates the objectionable features of the Machold Law and includes new provisions for State aid of high and rural schools which should ensure its enthusiastic endorsement by every member of our organization. Your legislative committee and the undersigned were assured in a conference at the Department Wednesday that its provisions are most acceptable to the Department and immediate communication with all our members acquainting you with its provisions was advised.

The features which distinguished the bill from its predecessor are:

Union free school districts are withdrawn from the township system. The districts of the township forming a town school district have a Board of Education of three, five or seven members depending on the number of districts in the town district. The union free school district is a separate entity controlled by its own Board of Education as at present. Union free school district may receive nonresident pupils and charge a tuition equal to the actual cost of instruction; the State paying \$20, the district from which the pupil comes paying the difference. Smaller units than towns may be created when public interest and convenience require it. Units of administration so as to embrace school districts from two or more towns, even if in different counties, may be organized. Independent districts may be created.

State aid provided by this bill is greatly increased. Every school district in every town school district will receive a district quota of \$250. Every union free school district will receive a district quota of \$250. To every city, union free school district and town school district maintaining an academic department an academic quota of \$600 will be given. In other words every high school will receive \$850 in lieu of the \$125 district quota and \$100 academic quota now received or a net gain of \$625.

It is a critical moment in our educational progress as a State. The condition of rural life, the strength of our citizenship, the productive capacity of our farm land and the welfare of the State largely depend on the education of its youth.

Write your assemblyman and senator today asking them to support the "Senate Bill on Public Education." Action on this bill will begin in the

legislature next Monday or Tuesday. One strong collective effort will help to place on the statute books a law which will preserve the good features of the township law and increase State aid for all time.

The additional district quotas which will come to Dutchess county amount to \$21,075 and the academic quotas \$6,500, making a total of \$27,575 of new money received from the State.

The Rural School Bill

The Malone-Lockwood school bill is a measure that is definitely drawn to meet the objections made to the present town school law. It appears on its face to accomplish that object. It is understood to be satisfactory to the department of education and if that is the case it ought to be sent forward for executive approval with the least delay under the regular order.

The new bill defines rural schools as all those in a town except union free schools with academic department begun before May 17, 1917. The district unit is the town but the town board is made up of trustees elected in the several districts of the town and thus the town is a rural school district in the terms of the law and no less than five districts must be united to make a rural district. Where there are twelve or more districts in a town the electors may divide the town into two or more rural districts by popular vote at the annual meeting or a special meeting called for the purpose.

The rural district board of education shall maintain a school in each district going to form the rural, or town district. It shall provide transportation when necessary for children attending school and furnish all needed equipment. It shall establish elementary, high, vocational, industrial, agricultural, and home-making schools or classes, night schools or any other kind of school that shall be thought necessary to meet the demands of the rural district. It may provide for academic instruction in another district if the district in which a student lives has no high school and there is room in an adjacent district for such instruction without new buildings or more teachers.

On the subject of taxation it is provided that the trustees of the rural school district, that is, of the town as a whole, if one district, or of the district if there are two or more in the town, shall prepare an annual budget. In no event is it prepared by the trustee of the single district, who is elected to represent a district in the rural district board. The annual budget need not be approved by vote of the district. But if there is a supplemental district budget for any reason it must be voted by the district.

The taxable property of a rural district is assessed on the town roll and is duly apportioned if the district runs into two towns. The school budgets, annual and supplemental, go to the board of supervisors and are incorporated in the regular town budget, collected by the town collector and finally turned over to the treasurer of the rural school district. The separate districts composing the rural district have nothing to do, evidently except to elect its member of the rural district board of education.

It will be seen that taxes are based on the taxable values of property throughout the town so that no single district has any advantage over another. It will raise the school tax in some districts by raising assessments

and lower it in others, and all through the process of uniform assessments for town purposes including schools. The bill puts control of transportation into local hands so that no complaint need arise on that score. In a word it works as might be expected when the single district plan of running schools is changed to the rural district plan of not less than five districts united into one and all districts under the supervision of the State Department of Education.

This bill may be regarded as the best solution to be had of the rural school problem. The old system had to be revolutionized if children were to be induced to remain in the country after coming half way to years of discretion, for the old system had fallen into universal contempt except in the districts that put self-interest of a few taxpayers above the imperative need of sound teaching for New York children in the rural regions.—*Geneva Daily News, February 22, 1918.*

Good Points of Township School Law

There is a statewide discussion on the repeal of the Township School Law, on which a hearing was given in Albany yesterday. There are three bills introduced in the Legislature to repeal this law. School authorities believe the repeal of the bill is a backward step educationally, especially if there is no substitute bill enacted in its place. Senator Brown and Speaker Sweet both joined in recommending some compromise measure yesterday.

Friends of the new Township law argue that it has not had a fair trial. It has not yet been put completely into operation. It requires time to change the entire basis of management of the rural schools of a state the size of New York, and to put the new system into smooth running order. Amendments are needed to adjust certain inequalities in the practical workings of the law, and these should be made without delay. But to repeal the entire measure would mean confusion in the schools and would throw into the scrap heap all the constructive work that has been done under the new law.

The main effect of the law is to equalize the school taxes in a township, and to give help to the poorest districts that have had the worst schools. Here are some of the enlightening statistics in regard to this Township School Law sent out by the Woman Suffrage Party which opposes repeal. There are still 4,000 schools in the State with less than ten pupils each, and over 1,500 school districts where the total amount of taxable property in the district is less than \$20,000. The taxable property in one school district may be \$500,000 and in an adjoining one may be \$15,000. In the first district a man might pay a school tax of two mills on the dollar and the school in that district might have plenty of money. In the adjoining district a man might be obliged to pay ten mills on the dollar and the school in that district would not have money enough to give the children any advantages whatever.

The new law makes the township the unit of taxation in place of the school district and all the property in the township is taxed equally and the money apportioned where it is needed. A Board of Education elected by the voters of the township takes the place of the school trustees. This Board of Education may if thought best, consolidate the small schools of adjoining dis-

tricts. Union Free School Districts of 1,500 population were excluded from the provisions of the law and all Union Free School Districts employing fifteen teachers or more.

A budget for the following year must be made out for all the schools in the township by the Board of Education and be published in the local newspapers and posted where the public may see and discuss it. There is much misunderstanding of the new plan and some of the things objected to are only temporary, due to putting the plan into operation.

The new Boards of Education came into existence without a penny in their treasury and had to make a budget large enough to cover the expense of getting the new plan started. They also had to assume the contracts already made with school teachers by the old school trustees. So that while they had to raise more money last year than may be needed next year, they made less improvement in the schools last year than they will make next year and this has led to some dissatisfaction.

Those who helped frame the bill think it a great mistake to repeal the measure until its obvious faults have been eradicated and the system has been given a brief trial. It is not an experiment but is in line with what several of the other states have done for their children in the rural districts.—*Jamestown Post*, February 28, 1918.

Senator Brown Counters Strong on Whitman

Albany, Feb. 28.—Another hurdle for Governor Whitman to jump in his race to distance opposition from the up-State Republican farmer was raised by Senate Leader Brown yesterday, just when it began to appear that the Governor had outgeneraled Brown in bidding for support from the tillers of the soil.

The repeal of the Township School Law, concededly a wise enactment of the last Legislature but hated by all farmers because it raised their taxes, was being threshed out at a largely attended committee hearing. One speaker after another had pointed out that Mr. Whitman, responding to the demands of the rural voters, had urged the Legislature to repeal the law, before Brown vigorously defended it.

The farmers, whose opposition to Governor Whitman's third term aspirations Brown and his Republican associates have been encouraging, listened in evident amazement to Brown's address until he reached this passage:

"We have 8,300 one-room schools in this State. I propose to the Legislature that we vote \$100, \$200, or \$300 as a State appropriation for each district to bring the educational system of each district up to the standard. I propose that we bring the appropriation for each district to a reasonable equal amount, on the condition that the district raise for educational purposes an amount equal to that given by the State."

Up to this point Brown had been listened to in silence. But thereafter applause marked his every utterance. Brown finally resumed his seat, smiling triumphantly.

When the farmers left for home the agreement was general that, if Brown's suggestion were adopted, the one objectionable feature of the Township School Law would be removed, because the State would provide money to cut down the farmers' school taxes.

Last week when Governor Whitman withdrew his nominees for members of the State Farms and Markets Council, it was conceded that he had deprived his Republican legislative opponents of the only issue upon which they might accomplish his political downfall. The farmers had criticised the nominees severely, and the anti-Whitman forces had been making capital of the unpopularity of the Whitman selections.

Now, however, politicians who have been observing the strategic moves on both sides, credit Brown with having maneuvered himself back into a position of potential strength with the Republican farmer element.

Further than that, it was pointed out that Brown, at the same time, had popularized himself with the vast body of educational uplifters who are campaigning for the retention of the Township School Law, which State Commissioner of Education Finley to day called "the most important and beneficent legislation in the interest of the rural schools enacted since the establishment of the free schools in New York State."

The township law, which, by combining school districts, has abolished the one-room school and established central schools where classes are graded and every modern facility provided, was opposed at the hearing by elements which Brown described as "backwoods, barbarians, bourbon and ignorant."

"If you repeal this law," announced Brown, "you will set back education in New York State a quarter of a century. I do not want to be a party to such a poor, cheap, puny demand.

"Such mistakes as there are in the law should be corrected. I am for correction, not, however, because I want to get on any political band wagon. The little red schoolhouse in the 8,300 rural districts of this State is a dilapidated affair, that would not be permitted to stand as a barn on the poorest farm in the State."

Asa Bird Gardner, former District Attorney of New York, who appeared for Rockland County, contended that the "Little Red School is good enough," and that the "Three R's with a little bit of geography and history," are sufficient for the wants of the farmers' children. When Mr. Gardiner read from an arithmetic in use in the country schools, and contended that it was too obtuse to be understood by him, Senator Robinson of Herkimer, remarked:

"I dont know where we'll get an arithmetic simple enough for you to understand."

John Townsend, an up-State farmer, complained that the law worked many hardships on his District School Board, including the purchase of a \$6 lock for the schoolhouse door.

"The Red School House was good enough for our father and grandfathers," argued Townsend.

"Do you think we ought to abolish bathtubs because our forefathers didn't use them?" asked Senator Lockwood, of Brooklyn.—*Saratoga Saratogian*, February 28, 1918.

Changing the Rural School Law

A bill is pending in the Legislature to radically amend or repeal the rural school law, which, in effect, provides for the administration and support of the schools by townships instead of by school districts as formerly. We

believe in this matter the legislature should be very certain of its course and not accept without question the theory of the opponents of the law.

This measure, whatever may be its faults, was a long step forward in progressive school administration. It provides for a co-ordinated (popular word nowadays) school system that reaches all the way from the primary school in the rural districts to the university. Practically, it brings the high school within the reach of the boys and girls on the farms. It adds to the efficiency (another popular word) of the village schools, and makes the good roads functionate more completely.

To turn back now, to wipe this law off the statute books altogether, would be taking a step backward, so far as the public schools are concerned. Also, there is a demand that the farms shall be worked to the limit of their capacity. To accomplish this much desired work, it is necessary to make rural life attractive. One thing that has been urged against life on the farm for a family has been that the children are remote from schools and that the educational system is in fact of little account. Of course, distances cannot be reduced by statute nor space annihilated by law, but this school law did accomplish much in educational co-ordination and efficiency. Its best features should be preserved; and probably can be while inequalities in the burden of taxation can be remedied.—*Hudson Falls Herald, February 28, 1918.*

The Machold Law

The compromise made yesterday at Albany on the proposal to repeal the Machold school law seems like the sensible and sane thing to do. Senator Brown promised more state aid for the rural schools, and Speaker Sweet suggested the appointment of a commission to make a study of the township system and report to the next Legislature.

There has been a strong sentiment aroused against the bill which had for its only purpose the improvement of the rural school conditions. The objections have been based entirely on economical grounds and with little consideration of the educational advantages which might flow from the change in the school system.

There has been a lot of sentimental talk about the passing of the little red schoolhouse. Some great men have come from the little red schoolhouse, and we had one president of the United States who never went to any school. But that does not affect the argument that the boys and girls of the farm should have an equal educational opportunity with the boys and girls of the city, and that they do not have under the district school system which it is proposed to re-establish.

Give the township system a fair test, and no one can say that has been done. Dr. John H. Finley, the commissioner of education, is one of the greatest educators in the world today, and is so recognized both in this country and in Europe. He is not a faddist, and there is no man more interested in the boys and girls of New York. He said that when he came to the Educational departments four years ago he found that the children of the rural sections of New York did not have the school advantages he had 40 years ago in the country districts of Illinois.

The city boy has his way open from the kindergarten to the college. So far as education is concerned the country boy does not have that open road. It is to the advantage of the State, and it is certainly to the advantage of the rural districts that every boy in the State has as nearly an equal chance as it is possible to provide.

The township law is not a perfect law, and there can be amendments made to remedy some of the defects. But it is due to the children of the State that it be given a fair trial before it is wiped from the statute books and we return to a system which is condemned by every progressive educator in the country. Let us have a study of the system by a commission to determine how the defects can be remedied before we take the backward step in the matter of the education of the children of our State.

The minister of education for England says after the war that country will be the greatest which does the most for its schools. If that is true of countries it is likewise true of States. New York may decide that it is better to save a few dollars and retain a system of education which will not give the boys and girls of the rural districts the same advantages that the boys and girls of the rural districts of Pennsylvania, New Jersey and Massachusetts now have. But before this great State makes that decision there should be a fair and honest trial of a system which is more progressive and which has the approval of every student of educational matters.—*Watertown Standard, February 28, 1918.*

Whitman Is Trying to Pacify Farmers

ALBANY, March 2—“Will Governor Whitman be able to pacify the disgruntled farmers?”

On the answer, politicians believe, depends largely the success or failure of the Whitman renomination boom as the situation stands at present, and consequently the question is foremost in the minds of both the Whitman supporters and the anti group which is struggling to kill the Governor's third term aspirations.

There was a time, a few months ago, when the success or failure of the Governor's ambitions seemed to depend largely on the attitude of the Republicans in the big cities—particularly New York and Brooklyn. But that time has passed. The Governor has effected close alliances with the organizations in these sections, and now the seat of opposition is the up-State and largely the agricultural sections. This is a dangerous battleground, too, for it is the farming sections that pile up Republican pluralities on Election Day, and even the leaders in the metropolitan districts are inclined to think twice before they line up finally behind a candidate who has the opposition of the farmer. Therefore, on successful settlement of the agricultural dissatisfaction depends not only the support of those sections, but by indirection it tends to affect the loyalty of the metropolitan districts.

The dissatisfaction among the farmers hinges on two points—the township school law and the administration of the State Council of Farms and Markets. Governor Whitman is trying to give the farmers what they want in both cases, and so far as it lies within their power the antis are endeavoring to keep the split wide open.

The township school law was passed last winter, on the recommendation of the State Commissioner of Education, Dr. John H. Finley. It wipes out the little school districts, consolidating them in larger districts, for the purpose of enlarging the area of taxation and supplying thereby better educational advantages in the rural districts. The effect, however, has been to jump the farmers' school taxes enormously. They leaped from 10 to 200 per cent. in many sections. That brought the farmers to Albany with a demand on the Governor, who had supported and signed the bill, for its immediate repeal.

The Governor has yielded to their pleas. He is ready to sign the bill repealing the hated act. This might have been the end of the issue, but Senator Brown, leader of the Republican majority in the Upper House and the most active anti-Whitman fighter, has thrown a monkey wrench into the wheels that threatens to tear the whole question wide open and leave it a bleeding sore.

Mr. Brown made a speech at the hearing on the repeal bill on Wednesday, proposing that, as compromise, the State keep on the statute books the plan for better rural schools, and appropriate out of the general fund moneys to stand the extra expense where it bore heavily on the farmers. Brown argued that the system was conceded to be a big advance over the old plan, that it would be a step twenty-five years backward to erase it from the statute books and that if it was an unbearable burden to the farmer the rest of the State should come to the financial rescue and that in no event should the farmer be robbed of his educational advantages.

This has a kick in it that may come back on the Governor from New York City—the section where his renomination boom is now strongest—because it means, if put into effect, a jump in the direct tax levy. The indirect revenues of the State, as matters now stand, will be insufficient. A direct tax of from \$10,000,000 to \$13,000,000 must be imposed. Therefore, appropriations from the general fund to help the country school districts in addition to the present budget means increases in the direct levy. And New York City pays 70 per cent. of all direct taxes. It will be called on to pay the lion's share of any increase to help the country schools.

The second issue, while it has created scarce a ripple of excitement below the Harlem River has set the up-State afire. It is the State Council of Farms and Markets. The agricultural interests are against the policy that body has pursued. They are against its personnel—in large part. Several of the big farm organizations have passed resolutions condemning it and a State Federation of Agriculture has been formed for the express purpose of fighting it.

One of the principal officers of the Council against whom criticism has been directed is the secretary, Charles Betts of Lyons, but the criticism has been direct, as well, against the members of the Council and Governor Whitman, after sending the names of the ten councilmen—those whom he had named temporarily last summer after the Council was created—to the Senate for confirmation two weeks ago, withdrew them all last week as a result of the protests from the farms. This was another move to conciliate the farmer.—*Brooklyn Eagle*, March 3, 1918

Brown Gives Right Report on Speech

Senator Elon R. Brown yesterday made public transcripts of his arguments Wednesday before the senate and assembly education committees in which he opposed repeal of the township school law and advocated its amendment to correct objectionable features. This action followed objections to the manner in which he was quoted in newspapers carrying reports of the hearing.

Abstracts purporting to comprise the arguments of Senator Brown made before the committee were given to the press at the Capitol Wednesday afternoon and were generally used reporting his talk. When the articles appeared Senator Brown objected to them, declaring he was incorrectly quoted.

When the stenographic transcripts of what he said before the committee were given out yesterday afternoon, Senator Brown said he had been investigating to learn the origin of the abstracts given to the press Wednesday afternoon but had been unable to determine from what source they had come.

"They might have been circulated to put me in a wrong light," Senator Brown declared.

In arguing before the committee for the retention of the best features of the township school law, Senator Brown told of his own experiences, explaining a system which was in use in Wellesley, Mass., and comparing the system with the system then in use in New York state.

"I was amazed at the comparison between that township school and the schools in New York," Senator Brown declared. "It led me to think upon the subject and to study it. Among other papers that I read was one which I think was the report of the board of education of the state of Connecticut for the year 1900—a very marvelous report framed by Professor Sumner at Yale. I looked over the law and got reports of the various educational systems of the states and I discovered that in most of the northern states there had been a change from the old district system to a broader plan, usually the township system.

"I began to investigate and I found that they had better schoolhouses; that they had larger schools; that they had systems of transporting scholars to central schools; that they spent more money on buildings and on teaching, . . . and that in the rural districts they systematically gave instruction in agriculture. I became satisfied that we were backward in our system in New York, and the reason for our becoming backward was easy enough to apprehend.

"The country districts were more populous fifty years ago than they are today; the families were larger—there were more children within a school district than there are today. The people were poor and salaries were small, but a better class of mind could be obtained to instruct children in those days than can be obtained for small pay today.

"Many of our best citizens received their best instruction in the old select schools which prevailed throughout the country districts, where able men inspired their students. Now, our schools in the country have steadily gone down in attendance. The schoolhouses are poor, miserable, cheap. The majority of them would not be permitted to stand as outbuild-

ings on the best farms in the town. This is the fact about it, and everybody here knows it, that the children in the country haven't received and aren't receiving the education which the rising generation needs if we are to be worthy of the name of a commonwealth at all.

"Now this bill may have faults. I suppose it has. I never knew a bill blocking out a new line of thought and action which wasn't in need of amendment and change. A great many people think that when legislation is passed it should be perfect. Now what I object to about this situation is this:

"I have always advocated doing everything that could be done to make the rural schools of the state stronger, and the rural districts better and more desirable as a place of residence. I believe that the interests of the commonwealth demand that attention. I object, after this bill has been passed, because it has defects and because there are a good many defective people who object to it on untenable grounds. I object to having an issue made upon the subject of education where you find upon one side all bourbonism and ignorance and on the other side progressivism and no alternative. I object to that division.

"I don't want a fight between those on one hand who want to go back to conditions that are undesirable, and on the other hand people who want improved school conditions in the rural districts without any capacity to solve the problem. I object, as a legislator, to being put in a position of either discarding this attempt to improve the schools of the state altogether or giving the people of the state something that they are not satisfied with.

"We should seek now to find out what the just criticisms are upon this legislation and correct them. If we repeal this law, it will set back education in this state for a quarter of a century. I object, as a legislator, to being put in an impossible position and because there is something to correct, to correct it by destroying a great and beneficial measure.

"It isn't consistent with the public interest or with manhood to do a thing of that kind. It may be that there are mistakes in the bill. I am for correcting them, but I am for correcting them not because I am afraid or because I want to get on the "band wagon," but because I believe conditions will be improved—and for no other reason.

"Now education is a state matter. How many millions does the state appropriate annually for education"?

Doctor Finley: "Six or seven million dollars."

Senator Brown: "It is a recognized fact, and has been for decades, that education is the state's duty and the state's obligation, and the particular manner in which it performs that duty—whether by the school district system or the township system or whatever system it may do it—is merely a matter of convenience. The state has been giving six or seven million dollars and in the apportionment of this money it has come to my knowledge that in quite a number of districts they have sent their children to a neighboring district and paid the entire expense with the state's apportionment and levied no tax whatever, and I suppose those people are objecting to this bill.

HONORABLE ELON R. BROWN
President Pro Tem of the Senate and Republican Leader

"It is a novel experience to me to be in harmony with the Woman Suffrage party, but I am their ally or they are mine — we are married today. It may be on the Japanese plan, possibly.

"I want to say, in relation to this matter, that I have had very grave doubts whether, even with an appropriation of six or seven million dollars among the various school districts of the state, the state of New York was discharging its full duty. I understand that there are about 8,300 one-room schools in this state. . . . Now, if the state of New York hasn't given enough to the support of these single-room schools so that the different towns can afford to have the tax levied in the town as it is in the state, on an equal basis throughout the entire state, I am in favor of the state's levying more and giving more to the common schools that cannot be maintained without it.

"Now I want to say to you — I don't want to be unfair and I don't want to institute a plan for the flag and an appropriation — but we have had poor conditions for an awfully long time on the one-room system. We have 8,300 districts with one, two, three, four or five scholars, and they have been maintained for \$300, \$400, \$500 or \$600 when it is wholly inadequate.

"So far as I am concerned I stand ready to correct the wrongs in this bill, to recognize the necessity of the state's helping these single-room schools, on the ground that they are single-room schools, and to vote, if need be, to vote \$100 more to every single-room school on the average; if that won't do, to vote \$200, and if that won't do, to vote \$300 to every single-room school for the purpose of bringing it up to a desirable standard of efficiency."—*Albany Knickerbocker Press, March 3, 1918*

Farmers Plead for Red School House

Albany, March 1.—The farmers, for whose political favor there has been a merry race among the various factions of the Republican party, were here in force Wednesday. They came to fight for the repeal of the township school law at the hearing before the Senate and Assembly education committees.

The Governor has sent a special message to the Legislature asking for the repeal of the township school law while Speaker Sweet at the opening of today's hearing announced that he is not only for its repeal but also for the creation of a commission to study the entire question.

A big delegation of women suffragists appeared at the hearing to protest against the proposed repeal of the township law. Senator Elon R. Brown made an impassioned appeal for the retention of the township law.

"The country school," he said, "has been steadily going down in attendance. The schoolhouses are poor, miserable and cheap, and respectable farmers would not permit the majority of them to stand as outhouses on their farms. I do not want to see a return to the intolerable conditions of the past. If this law is repealed education in this State will go back twenty-five years."

The woman suffragists were indignant because they were not consulted on the question of repealing the township law and declared that such action would result in a step backward. They freely criticised the State Education

Department, declaring that one of the principal causes for the opposition to the law was the bungling way in which it was enforced.

Dr. John H. Finley, State Education Commissioner, led the opposition to the repeal of the law, terming the law an effort to give the farmer boy an equal opportunity with the city boy to get a good education. He said that it was a long step forward and that sufficient time had not yet been given to try it out.

Assemblyman Louis M. Martin, of Oneida, marshalled the forces of the farmers who demand the repeal of the township law.

John Townsend, of Sullivan county, insisted that the school that was good enough for Lincoln was good enough for him. Senator Lockwood then asked him if he thought they ought to abolish bath tubs because they did not have them in those days.

John J. Dillon, former State Commissioner of Markets, was vociferously applauded by the farmers when called upon. He asserted that he had never seen such unanimity among the country folks as was evidenced in their demand for the repeal of the township law.

A score of farmers from all sections of the State also spoke, demanding the law's repeal and a return to the little red school house district.—*Port Jervis Union, March 4, 1918*

Wants School Law Retained

Passage of the bill designed to amend the township school law, enacted last year, by correcting certain features that have aroused opposition in the rural districts, rather than the complete repeal of the law, is recommended in a report submitted to the Senate last night by the committee on public education.

The main provisions of the bill are:

The withdrawal of the union free school districts from the township system.

An increase in the State aid of \$100 to each of the rural schools of the State, payable to the town.

An increase in the academic quota from \$100 to \$500 for each of the high schools of the State.

Permitting union free school districts which receive nonresident students to charge a tuition equal to the actual cost of instruction.

Power to create smaller units than towns when the public interest and convenience require it.

Authority to organize units of administration so as to embrace school districts from two or more towns. Even if in different counties.

Authority to establish, when public interest and convenience and local conditions require, independent district.

Increasing the number of members on the board of education in the large units.

"The committee has," says the statement, "in view of the present strain on the resources of the State to meet war conditions, restricted its recommendations for changes and for expenditures to the minimum essential to remedy intolerable conditions to relieve the rural districts of the unjust burdens of taxation which they are required to carry, and to adapt the township system to existing conditions. If the bill becomes a law it will,

in the opinion of the committee meet all reasonable objections of the law of 1917, preserve the good features of that law, and save the State from lapsing into a decadent condition in rural education.

"No internal matter is of greater importance; the condition of rural life, the strength of our citizenship, the productive capacity of our farmland, and the welfare of the State are largely dependent upon the education of its youth.

"No one should fail to see that there is a critical moment in its history and that the failure to solve the pending problem means a backward step instead of a strong, vital, progressive movement in rural education."—*Albany Argus*, March 19, 1918

A Bill Which Would Help the Country Districts

The Senate Committee on Public Education, after giving careful consideration to the bills which have been introduced this session calling for the amendment or repeal of the present township law, has prepared and introduced a bill known as Nos. 1175-1212. We believe that this bill should have the careful consideration of every one of our readers, both those who are especially interested in our schools and those others who are interested in the general welfare of the rural communities.

This bill calls for the amendment of the township law as it now stands so that those provisions which have caused the most criticism and objection are eliminated.

It provides that every district which has an academic department shall be entirely separated from the rural districts. The rural districts would then contribute nothing in taxes toward the support of schools maintaining academic departments. All academic schools would have a separate board of education as under the old district system.

Towns containing twelve or more school districts may be divided into two or more Town Districts but no Town District shall contain less than five school districts. This will make the work in towns containing many school districts more easily and efficiently administered.

A resident of each rural school district shall be elected by the voters of each district as custodian of the school property of the district. His duties are to look after the repairs and improvements made in the district, provide for cleaning the school house, buy the fuel, etc.

An appropriation of \$250 to be paid by the State to each town for each school district in the town. An academic quota of \$600 to each high school district. As the rural schools are now receiving from \$125 to \$175 this means that each rural district will receive almost double the amount, on the average, that it now receives.

We have made careful investigation and find that the towns in this vicinity would be benefited as follows: The Town of Boston would receive \$1750, an increase of \$850. The Town of Colden would receive \$2600, an increase of \$1100. The Town of Concord would receive \$6025, an increase of \$2125. The Town of Holland would receive \$3400, an increase of \$1375. The Town of Sardinia would receive \$3900, an increase of \$1575. This means an increase in the public money received in these five towns of more than seven thousand dollars.

This is the first bill we have seen in a very long time that takes into consideration the real service which the rural districts are rendering to the State as a whole and responds by offering the financial assistance which has long been their due.

We think this bill of so much importance to the rural and village districts that we urge our readers to procure copies of the bill at once, examine it thoroughly, and see if it should not receive our undivided support.—*Springfield Journal and Herald*, March 28, 1918

The Township School Law

The Assembly has recently voted for a repeal of the present township school law. A bill has just been introduced in the Senate by the committee on public education which, it is believed very largely meets the objections that have been raised to the Machold law. Its main features are:

1. The elimination of all union free school districts maintaining academic departments from the present township units.

2. Power to divide a town into two or more units by vote of the qualified electors wherever public interest and convenience seem to require it.

3. Power to establish independent districts whenever public interest and convenience require it.

4. Increase State aid for schools to the amount of \$1,500,000. This will mean an average increase of more than \$100 for each one room school and a \$625 increase for each union school with an academic department. Under the provisions of this bill Lewis county will receive \$21,000 extra public money for the support of its schools.

5. Election by the people in each school district of a custodian of school property who shall, under the direction of the board of education, look after repairs, engage janitors, provide fuel and, in short, take care of all the details in connection with the operation of the school in the district for which he is elected.

6. Assumption by the State of all bonded indebtedness of the different districts to the amount of \$500.

7. Power to increase on vote of the people, the number of members of a board of education in town units with more than nine school districts.

8. Permitting union schools to charge for non-resident pupils a tuition in advance of the State allowance up to the limit of the actual per capita cost of instruction.

It would seem that no reasonable objection can be raised against this bill. It is expected that all the friends of education will rally to the support of this measure, including the opponents of the present Machold law. There never was a time when it was more important that we keep up the standards of our schools. They are the corner stone of our democracy. If we would be patriotic, if we would fight "to make the world safe for democracy," then we must keep our schools up to the highest possible standard of efficiency. The school is the most potent, the most fundamental of all our democratic institutions.

There is a reasonable certainty that this bill will be written upon our statute books, provided it is shown to be backed by public sentiment.

The time for action is short, however. This bill will come up for action in the Senate next Wednesday, April 3d. Now is the time to let our representatives in the legislature know whether this bill, which has grown out of all the agitation and debates of the past winter, is really what the rural people want. If we believe in better schools in Lewis county, then we should flood our Assemblyman, A. A. Copeley, our Senator, Theodore Douglass Robinson, Senator Charles C. Lockwood, Assembly M. E. Tallett (chairman respectively of the Senate and Assembly committees on public education,) with telegrams, letters and petitions to that effect. It is hoped that churches and granges, farmers and townspeople, in short every individual and club or organization of whatever nature which is interested in the matter of public education will take action and let our representatives know whether we are for or against this proposed law.

Township School Law

Out of the discussion concerning the township school law throughout the State a new situation in the Legislature has developed. It is assumed that the township law will be repealed, at least in those features which have proved objectionable and burdensome and in the place of those features will be substituted a liberal policy of State aid.

Under this policy each district maintaining an academic department will receive a district quota of \$250 and an academic quota of \$600, or a total of \$625 more per year than they have been receiving heretofore. The district quota for each rural school, it is proposed, will be \$250—an average increase of \$100. This increased liberality on the part of the State in matters of education will equalize the opportunities of all children for an education and will put New York State which is now 31 on the list in the matter of State aid, more nearly in line with what is being done in the other States of the Union. In other words the feeling now seems to be that New York State should take a forward rather than a backward step and get more nearly in line with the other States, most of which number have adopted a liberal policy of State aid for schools.

It is further proposed that union free school districts maintaining an academic department shall not be a part of the township system; that the people retain the power to create units smaller than towns whenever the interest and convenience of any particular community require; that school district boundaries shall remain the same as at present; that contiguous school districts in different townships be permitted to unite whenever the people by vote so direct; to give the people authority to establish independent districts whenever the public interest and convenience require; to increase the number of members on the boards of education in the larger units, and in many other ways preserve the principle of home rule—to increase rather than diminish the power of the local community.—

Rye Courier, March 29, 1918

New School Bill Deserves Support

The present township law is proving unsatisfactory to many localities for several reasons, principally the inclusion of the high school districts

with their bonded indebtedness as a part of the general township unit, the difficulty of town boards in providing for custodians of school property, and the increased taxation upon many districts.

However, it is felt that it would be little short of a calamity to revert to the unequal taxation and fragmentary administration of our schools which existed prior to the enactment of the present law.

Senate Bill No. 1175 which has been read twice and which will be brought up for vote Wednesday, April third contains the following provisions which should eliminate every reasonable objection to the present law:

(1) Union free school districts maintaining academic departments are not included in the township unit.

(2) An increase in the state aid of \$100 to \$125 to each of the rural schools of the state payable to the town.

(3) An increase in the academic quota to each high school from \$100 to \$600 and the district quota from \$125 to \$250.

(4) Permits union free school districts to charge tuition to nonresident pupils equal to the actual cost of instruction. (State aid for each academic pupil to be deducted.) Cost to be paid by the town unit.

(5) Permits the forming of smaller units than the town when public interest or convenience requires it.

(6) Permits "joint districts" from two or more counties.

(7) Independent districts may be established when advisable.

(8) Increases the number of members on the board of education when expedient.

(9) Provides for a custodian of each school house and property to be chosen from the district.

A companion bill is already under way amending the present physical training law so that schools having less than ten teachers will not be required to maintain a local physical director thus eliminating the expense of having physical training teachers in each town.

Rhinebeck has eleven outside districts which under the new law would constitute a town district.

Under the new law taxes will be collected by treasurer of the district who will receive the usual collector's fees. People will elect a custodian of property in each district. All objectionable features of old bill have been removed in this.

As shown in detail in another part of this issue of The Gazette the Town of Rhinebeck outside of the village would receive \$1350.00 more under the new law. Rhinebeck High School would be increased \$625.00 and the total increase for the county would be \$27,575.00.

District Superintendent F. O. Green has worked hard to make known the valuable features of the new law. He has prepared detailed tables for each town in his district similar to the one for Rhinebeck.

The Gazette believes the new law will prove satisfactory to citizens generally and at the same time work for the improvement of the schools of both the country and village.

Write to Senator Towner at once and urge the passage of the law.—

Rhinebeck Gazette, March 30, 1918

Letter from Charles J. Herrick, President of the Board of Education, Town of Bethlehem, to Senator Elon R.

Brown, Dated March 31, 1918

As I understand that you are now engaged in drafting a bill to be substituted for the present town school law, I venture to express my opinion as to the manner in which the Boards of Education should be selected. Under the substitute proposed by Senator Lockwood each school district was to elect each year a trustee and all of these trustees within the town or rural school district were to constitute the Board of Education. I am very much opposed to this feature as it seems to me that the present system of selecting a few members from the town at large and of electing only portion of these each year, having the remainder serve for a longer period, will accomplish very much better results. I should be very reluctant to see that feature of the Lockwood bill providing for the selection of the trustees by each district, which trustees would constitute the Board of Education, embodied in any new program. If the town system is to be preserved there must be a town spirit aroused in the Board of Education in order to make that system a success. Even now we find members of the Board viewing the work solely as representatives of a special district, and feeling no sense of obligation towards the rest of the town. If there should be representatives from every district this feeling would be intensified, there would be either a deadlock, each member refusing to do any thing for any district except his own, or else the representatives would compromise, each agreeing to the other's proposal in order to get his own plans carried out, which would result in the expenditure unnecessarily of considerable sums of money in every district of the town. Moreover such a large body is unmanageable. It is difficult enough to get five representatives of country communities to agree upon any line of policy, and it would be almost impossible to achieve results with a larger body. If it becomes necessary to have each district elect a trustee then these trustees ought either to elect from their members a small Board of Education, or else delegate their powers to either an executive committee or to a chairman. I cannot approve either of having the Board of Education changed every year as provided under the Lockwood bill. Under the present law three members of the Board who have had experience, survive each annual election. This enables the policy of the Board to be continued and the experience of the past known and utilized by the Board for future work. It seems to me too, that the selection by the entire town of the trustees makes them more independent than if they are selected by the local districts. We have found in our own experience that we have been obliged to disappoint certain districts in their expectations because for some reason the granting of their desires at that time might have been detrimental to the interests of the entire town, or more expensive than the town could afford. If each district has the selection of a trustee in acting for the welfare of the entire town in opposition to the wishes of his district, might be punished through the refusal of the district to return him to office, which punishment would militate against the best interests of the town. Under the Lockwood bill providing for a representative from each district, the communities having the greatest num-

ber of children and the largest assessed valuation of property in our town would be in a hopeless minority. I venture to say that two-thirds of the property valuation and of the school children in our town come from the villages of Slingerlands, Delmar, Elsmere and Selkirk. If the Lockwood bill went into effect they would have four votes in a Board consisting of fourteen members and the representatives of the minority of the people of the town would thus be able to control the schools of the districts where the majority of the people live.

I am sorry to have taken up your time with such a lengthy discussion of this feature but it seems to me extremely important for the proper administration of the schools under the township system.

Letter from H. J. Tirpening, M.D., Fulton, to Senator Elon R. Brown, Dated March 18, 1918.

I wrote you in December or January urging the repeal of the Machold Township School Law, I am writing you again for the same purpose, as I see a substitute has been proposed.

The State Department has had this same law, save the physical training part, before the school institutes and educational meetings for 25 years and it never grew in favor and the people in the country do not want it. They want no substitute but they do want it repealed.

Now, Senator Brown, the public think that Dr Finegan has your best ear and that you are the man that stands in the way of its repeal. I hope this is not so, for no law passed in 25 years so vitally affects the rural portion of this state.

Letter from C. S. Morris, Chairman, Board of Education, Milford, to Senator Elon R. Brown, Dated March 28, 1918.

I desire to inform you that a very large majority of the influential citizens of the town of Milford favor the passage of Senate Bill No. S 1175, 1212 and I sincerely hope and trust you will lend your support to said bill.

Letter from Ralph H. Pickard, Clerk Township School Board, Town of Minden, Fort Plain, to Senator Elon R. Brown, Dated March 28, 1918

At a meeting of our Town Board of Education held yesterday P.M. it was resolved that I, as the Clerk of our Board, should write you, that we are in favor of the Senate Bill No. 1212, amending the Township School Law and that the bill has our hearty approval and we ask you to support the bill.

Letter from W. A. Choate, of the W. A. Choate Seating Co., Albany, to Senator Elon R. Brown, Dated April 2, 1918.

I now venture a further line to say, as one of the strongest of township advocates, that the bill No. 1175 which I understand is the measure proposed in place of the present law, certainly *does not meet the views* of a

very large class of township advocates. In fact, to my mind and speaking frankly, it strikes me that the author of this new bill is either indifferent to the real rural school situation or else fails to grasp it. Personally, I would much prefer to see the bill pass than to see the old law repealed entirely, and thereby hang to the township unit—but *more trouble will follow all the same.*

And yet it would seem easy enough to iron out the bid "obstacles" if an earnest effort is made to do so—but if this new law is introduced simply for the purpose of stalling action on the repeal and thereby leaving the present law on the books, enough said.

Incidentally—of course you have been advised by the State Education Department that something like ONE MILLION DOLLARS was turned back into the pockets of the taxpayers when the new township law took effect, handing the new system an empty treasury, which accounts in a measure for the increased taxes.

On all sides it seems to be the belief that the Senate will not make the mistake made over in the Assembly—and therein lies the hope of the township advocates.

**Letter from F. W. Bauder, President, Farmers and Mechanics
Bank, Fort Plain, to Senator Elon R. Brown,
March 27, 1918**

I am heartily in favor with the new proposed school law number 1212. I think it is a marked improvement over the present law.

**Letter from Hugh I. Fish, Williamsville, to Senator Elon R.
Brown, Dated March 30, 1918.**

I have some information concerning the general terms of the new Lockwood Bill, which as I understand it, is to be substituted for the present township law.

It seems to me that this is an admirable measure, I am told that it provides for five members to compose a Board of Education, and I am wondering if you favor this bill and whether you will forecast the probable action of the Senate in this matter.

**Letter from F. C. Carpenter, Manager of John Wilcox Estate,
Printers and Publishers, Milford, to Senator Elon
R. Brown, Dated March 28, 1918**

Having just recently been privileged to peruse a copy of Senate Bill No. 1175, No. 1212, I am writing to you to express my sentiments concerning same as a substitute for the Township School Bill under which the schools of the state have been operated during the past year.

As the editor of a country weekly I have come in direct contact with many people who are opposed to the township bill we have had, for one or more reasons. So far as I can learn of the general opinion in this section the opposition is not to the entire bill but to certain portions thereof which Senate bill No. 1175, No. 1212 are aimed to correct. In fact many people

recognize good points in the township bill, although they condemn it utterly as a whole. Consequently, it has seemed to me that it would be a mistake to revert to the old order of things by repealing the township bill as the Assembly has already voted to do.

Believing that it is your desire to learn as nearly as possible what the sentiments of the people are concerning the matter, I wish to say, that after investigating carefully the changes which Senate Bill No. 1175 and No. 1212 would make, I believe that the objections to the old law are rectified in the proposed substitute, and though my expression in its favor may count as the opinion of only one, nevertheless I assure you that my decision was made only after talking the matter over with men whom I have known to be opposed to the township bill and have seen them convinced that the new proposed bill would be satisfactory.

Therefore, I wish to put myself on record as being in favor of the Senate Bill No. 1175, No. 1212, and respectfully request your consideration of the same to the end that you may favor its passage.

THE GOVERNOR'S SPECIAL MESSAGE FOR THE REPEAL

Albany, February 8, 1918

To the Legislature:

In my annual message I called attention to certain of the defects in the so-called township school law. Since communicating with you at that time I have continued to study the situation and I have come to the conclusion that the only solution of the problem confronting us, due to the passage of that bill, is its immediate repeal.

On July 31, 1916, there were ten thousand and twenty-four rural school districts of less than fifteen hundred population or employing less than fifteen teachers. By the operation of the township school law, these ten thousand and twenty-four rural school districts were consolidated into nine hundred and eighty-two town school units.

For the purpose of ascertaining whether the consolidation of these districts put an increased expense upon the taxpayers, I investigated figures submitted to me by the Education Department in regard to the expense in the town school units which had been consolidated and the districts which had not been consolidated. These figures consist of instances selected at random and furnished me, as I have said, by the Education Department.

There is an average increase in the total tax levy in one hundred and seventy-three town units in twenty-three counties of more than thirty-three and eight-tenths per cent. It is safe to say that each of the one hundred and seventy-three town units is made up of at least ten of the former rural free school districts. Thus figures from seventeen hundred and thirty of the old districts have been considered, and of the nine hundred and eighty-two districts which are now in existence the figures from one hundred and seventy-three have been considered.

In view of the fact that these figures have been impartially selected, I deem it safe to say that the percentage of the increase will prevail throughout the other districts in the State.

On July 31, 1916, there were one hundred and ninety-five districts of more than fifteen hundred population or employing fifteen teachers. These districts were not consolidated under the provisions of the law. The expense in twenty-seven of these districts, selected at random in fifteen counties, shows an increase of only thirteen per cent for the year 1917-1918. This indicates that the burden of a twenty per cent increase has been placed upon the taxpayers in the town units by the operation of the township school law.

I find that the widespread condemnation of the law is not alone based on the increase in taxes, but that there are other objections.

Districts with small school houses have been forced to assume the bonded indebtedness incurred by other districts for the building of large school houses from which the former derive no benefit.

The management of school houses has been taken away from the locality which had a pride and interest in its maintenance and operation, with the result that the buildings are often neglected and in many cases fuel has not been supplied.

Children are being transported long distances to school and in many instances pass, on their way, serviceable school houses which have been closed by reason of the provisions of the act.

From the experience of the last few months and the information gathered as to the working of this law, I believe wise legislation may be formulated which will work for the benefit of the rural school district.

For these and other reasons I recommend the repeal of chapter 328 of the Laws of 1917.

[Signed] CHARLES S. WHITMAN

LETTER OF PRESIDENT FINLEY

February 7, 1918

To the Honorable The Legislature of the State of New York:

We respectfully ask your attention to this brief statement concerning the rural schools of this State, for whose general supervision we are, under your direction, responsible.

"There is no educational need more pressing than the improvement of the educational conditions in rural districts and the small villages." This is the testimony of one of the very highest educational authorities in this country. It was appreciation of this need by the Regents, nearly every one of whom has been in close touch with country or village schools, that led to their urgent support of the measure known as the "Township School Bill," enacted into law at the last session of the Legislature.

The Governor, in his message of January 1918, gives the Regents credit for taking the initial steps in behalf of this legislation, "in the belief that it would better rural school conditions," and we should therefore meet whatever just criticism the law in its operation deserves.

It should be said in the first place that there has been as yet no educational test of the law. It has been in operation only a few months, and except for such physical and sanitary improvements as have been made under the direction of the new boards, the schools have been carried on under plans made by the district trustees of last year. The new boards did not enter upon their duties until a few weeks before the opening of the school year.

There is only one comparison that the operation of the law does permit; that is, as to the cost of maintenance; and even in that we have only the *estimated* expenditures of this year to compare with the *exact* expenditures of last year. These estimates show a considerable increase, due in part to war conditions, but also in part (probably about one-half of the increase) to such items as (1) improved sanitation, (2) physical training, (3) salary of school clerk and (4) the absence of a balance with which to begin the year.

Physical training, which we consider the most wholesome provision that has been made by any state for the promotion of the health, happiness and better citizenship of our children, is not a provision of the Township Law, though its efficient supervision will be greatly assisted by the township system.

The Township Law can not therefore be justly criticised as the source of increased expense, except so far as the added expense is for the intended educational benefit of the child in the country, that he may have as healthful a school environment and as good teaching as the city child.

The taxes of many have, however, been increased, and this has caused protest; but this increase is in the main attributable to the *equalization* of the tax over the larger area. It can not be successfully argued that the principle of a uniform tax throughout a town is unsound in theory or practice, so far, at any rate, as the elementary schools are concerned. If bridges and roads and other public utilities may be maintained by a tax extended over a town, certainly schools which are maintained for the common good may be supported by a like tax. The only valid objection is that in readjustments due to any change in system some individual injustice will be done. But, as a matter of fact, the taxpayers called upon for larger contributions should consider that they have been paying less than under a more equitable system they should have long ago been called upon to contribute.

If, however, it can be shown that what the resident of any town is required to pay is for the good of the child, and so of the community and the State and Nation, it is not conceivable that any good citizen will object because his tax for this service, fundamental to the very maintenance of the State, is increased by its equalization on a town basis.

The sole question is therefore as to the educational advantages of the new system in comparison with the old. As has been said, we have as yet no ground in our own state experience for reaching a conclusion. We do have, however, the experience of other states (all the New England states, New Jersey, Pennsylvania, Ohio, and practically all the leading states in the country) that have abandoned the district system for the township system or an even larger unit of administration and taxation.

There is practical unanimity of opinion among those who have to do directly with the education of children, that there can be no great general improvement in the rural school conditions except under this larger unit of taxation and administration; for nearly half of the one-room school districts of the State (3800 out of 8340) have a valuation of not to exceed \$40,000, and an average attendance of not to exceed 10. It is obvious that

adequate facilities can not be provided and efficient teaching assured in these days on such a basis, especially when agricultural teaching ought to form a part of the training in every rural school.

The Township School Law as finally enacted does not in our judgment, go as far it should, for it does not compel the elimination or consolidation of a single district in the State, though there are hundreds of schools that have an average attendance of only one, two, three, four or five pupils. Much of the criticism that the law has invited is due to the supposition that it does provide for this. As a matter of fact, it does not disturb the boundaries of a single district in the State. All that it does is to assure, so far as that is possible, equality of school provision throughout the town with equity of burden.

The Township School Law is the most important legislation touching the common schools of this State enacted since the establishment of free schools—and it is of record that the latter called forth even greater criticism than this measure, and was repealed after its first enactment only to be reenacted in substantially the same form. The repeal of this measure would, we believe, be a disaster. Modification may be necessary to obviate any inequities that may have arisen in the general application of the law, as the Governor has suggested, but it is hoped that its essential features will be preserved.

Respectfully submitted

JOHN H. FINLEY

Members of the Board of Regents

(Regent James Byrne is abroad in war service)

P. S. It should be noted that the Governor's suggestion of modification referred to above was that contained in his message of January 1918, and not that of his special message of February 8th recommending repeal. This letter had been written and sent to the public printer before the special message was issued. It is therefore not to be interpreted as a reply to the Governor's message.

Dr Finegan's address, giving more detailed information concerning the law, is enclosed herewith.

J. H. F.

The following represents the attitude of the people as expressed through the newspapers after the publication of the Governor's "Special Message."

Governor Whitman has sent to the Legislature a special message asking for the repeal of the Township School Law. We hope the Legislature will not repeal it. In the main it is a great improvement over the old system for our rural schools. In the hands of its friends the law is satisfactory; in the hands of town boards of education opposed to it it is a flat failure. The State Education Department made the law, and the changes were too radical to have been made all at once. They had an ideal in view and jumped the State into it. But few people are ready for the ideal in anything, and were not ready for such a radical change in their school system. There may be several features of the law that should be changed by amendment, and we hope the Legislature will do so; but to repeal the law and go back to the old system would certainly be a mistake.—*The Morris Chronicle, February 13, 1913*

As to the Township School Law

It is not necessary to take seriously Governor Whitman's pronouncement in his message yesterday against the township school law. Every one understands that the document "released" yesterday was a mere roll call of recruits as Falstaff paraded his squad, or, better, it might perhaps be an inventory of political assets and obligations for use in the coming campaign, which is to decide the Governor's political future. No more obvious moral appears on the face of things that the Governor is open to argument, paraphrase for a trade, than his letting himself down so easy at the end of his indictment by a suggestion, which nobody ever doubted, that the law might be improved.

As to the township law, when the proper time comes, there will be plenty to say about that. Nobody ever pretended that it was perfect. Few men and things, except Governors and messages are, in this world, but after years of trial the friends of the township law are firm in their belief that it was a long step in the right direction of better schools and better citizens in the rural counties, in which are the future strength and hope of the State; that fairly interpreted and wisely worked, it means more equitable adjustment of the cost of education, that the irregularities and contradictions of time and change will be rectified and that teachers, pupils and taxpayers will all be brought into better relation of harmony and efficiency with the State. Later in the session, doubtless, all these points of faith will be brought out and publicly established by experience and competent experts, the best possible demonstration, for nobody doubts the sincerity and good faith of both the real parties to the issue.

But what a pitiful and discouraging thing that the welfare of the public schools of the State should be made a pawn in a politician's game of personal ambition!—*Brooklyn Standard Union, January 3, 1918*

To Repeal Township School Law

The knell of the Township School Law was doubtless sounded yesterday when Governor Whitman sent a message to the Legislature recommending its repeal. As the rural legislators will reflect the general sentiment of their constituents against the law, it is likely that the action urged by the Governor will soon be taken. The State Grange, now in session at Syracuse, has received a flood of resolutions from subordinate granges favoring immediate repeal. The entire opposition seems to grow out of the high taxes, which are estimated by the Governor to have increased 33.8 per cent in the township units as against 13 per cent in districts not so consolidated.

We are informed by those familiar with the operation of the law in some of the towns of this vicinity that many of the costly improvements which have added to this year's enormous school taxes in the rural towns were ordered by the former district trustees, probably because they foresaw that they would be taxed upon the towns under the new law. The general complaint is that too many improvements were made in one year, not that there was any waste of public funds. Under these conditions the Legislature might very properly consider whether taxation in any one year for school purposes might not be limited to a reasonable percentage of the assessed valuation of the town.

While it is probable that the Legislature will yield as the Governor has done, to the general opposition expressed to the whole law, we are inclined to believe that the township school system has much to commend it from the educational point of view. The work done in "the little red school house" was good when there was an inspiring teacher and an apt pupil but to bring the village school within reach of all the children of a township, the ultimate purpose of this law, seems to us a great step in advance, which ought not to be lightly thrown away because of a year of exorbitant school taxes.—*Jamestown Post, February 9, 1918*

The New School Law

As was announced in the Advertiser some weeks ago Ex-Congressman James Wadsworth of Geneseo is after the new school law full cry. Mr. Wadsworth owns the big Street farm of about 2,000 acres in the east end of this town and his school tax in consequence is very much increased by this new law. The action will be decided upon briefs submitted to Supreme Court Justice William W. Clark.

The Board of Education for the town of Caledonia and Henry Feeley, tax collector, are made defendants. Elihu Root and Frank Cook are attorneys for Mr. Wadsworth. A. M. Little of Rochester represents the town officials and Frank B. Gilbert the educational and tax departments of the state.

As is well known this village has a brick school house worth about \$50,000 and which carries \$28,000 bonded indebtedness, the annual cost of maintaining which is in the vicinity of \$12,000. Because of the new law the school tax in town of Caledonia is \$6.50 a thousand, which was levied on real property owners in the third as well as the other districts. Mr. Wadsworth charges that the amendment which raises his school tax in the

third district from \$168.30 to \$729.30 is unconstitutional in that it taxes one unit for benefits derived by others. He claims that the school facilities of the village of Caledonia are not accessible to children residing in the third school district because of distance and weather conditions, especially in the winter.

He charges that no benefits whatsoever are derived by the taxpayers in the third district from the payment of the increased tax.

Well, what of it? There are many taxpayers in every district who do not get any benefit from the schools except indirectly from a moral standpoint. It is, of course, unfortunate for Mr. Wadsworth that he should be owner of that splendid farm down on the Genesee, but for years the taxpayers of the Caledonia high school have been paying their money out to educate the children of non-residents in the higher branches, and now to conform with the rules of the State Education Department, we are fitting them for college, saving the expense of sending pupils away to preparatory schools, yet the parents of these non-residents are up in arms because they are asked to help educate their own sons and daughters. We say there are many taxpayers right in this district who are not interested in this higher educational movement, except indirectly, and we can see no decent reason why James W. Wadsworth, sr., should escape this tax. We learn that Governor Whitman, who only last winter signed this law, is now in favor of its repeal by the legislature, but we hope the members will not knuckle down to him. It is a just law.—*Caledonia Advertiser, January 31, 1918*

The Rural School Law

The proposal to repeal the town board school law, drawn by the State Department of Education and passed last winter, comes from people up State who are more interested in the patronage of the rural schools than in their teaching. The Legislature should go slowly before destroying a system which has only begun to take root.

There has not been time enough yet for a general test of the new system, but in towns where the citizens have supported it loyally the effect has been found good; so good, indeed, that those towns will protest against going back to the old boards of trustees, who commonly knew little about teaching but were keen to keep down taxes. Under the old law supervision was left to superintendents having several towns under their charge and whose work tended to become routine and perfunctory, although superintendents here and there resisted that tendency; where, under the new law, men and women have been chosen to the town boards because they had an interest in maintaining high standards of teaching the stimulating effect on the schools has been notable. In some cases teachers' meetings have been held and have been found to promote high professional standards, in others repair of neglected buildings has been brought about, while the adoption of free textbooks is one of the things to which some of these boards look forward.

On its administrative side the new system is simpler than the old. Graduates of the district schools are admitted free to the town high schools, the rate of taxation has been made uniform for all the districts in a town—a source of opposition in some of the wealthier districts—and the tax is collected by the town collector along with other taxes. These things help to

carry out the purpose of the new law, which is to give a better education to country boys and girls. That purpose should not be abandoned until the law has had a fair trial.—*Brooklyn Eagle*.

Repeal or Amend Township Law?

Albany, Feb. 6.—Shall the township school law, passed in 1917, be repealed or amended? That is a question in which legislators, especially those outside of cities of the states, are deeply interested. Many say the law should be repealed entirely and permit towns to go back to the old school district plan, while others are equally positive that the law is a good one, only some amendments should be made. A number of bills affecting the future status of the law have been introduced and there will be a hearing in about 10 days. It promises to be one of the most interesting hearings of the season.

The township school law has been strongly opposed in many sections and its repeal has been advocated. Other sections urge amendment, while the State Education Department, which prepared the township school law, says it has not been given a fair trial. It has been in operation only about five months.

One of the greatest objections to the law is the taking of control and guidance of the rural schools from the district trustees and vesting the power in town school boards of five members elected by the entire town. Another objection is the effect of the operation of the law upon the tax statements rendered for support of schools.

Dr. Thomas E. Finegan, the deputy commissioner of education, who had a great deal to do with the law, says the new statute, after a fair trial, will result in better educational facilities in the towns, better instructions, high school facilities, graded systems, libraries, lecture rooms, recreational and social development and a discontinuance of unnecessary schools. Dr. Finegan says the five months' operation of the law has not given it a fair trial.

According to the Education Department, the state is now maintaining 15 district schools where there is only one pupil and that there are 86 schools in which there are only two pupils. There are over 900 district schools in operation today where there are not over five pupils learning their A B Cs and in three Rs. There are 600 districts in which there are under seven children, while in 3,800 schools the attendance of scholars does not exceed 10. The assessed valuation of the 3,800 districts is less than \$40,000, and in one-half the districts the assessed valuation is less than \$20,000. The Education Department believes that under such conditions it is absolutely impossible to maintain in such districts a school which will give a boy or girl anywhere near a fair chance.

Many school districts with large property valuations, including railroads, have had the privilege of taxing corporations and this has resulted in keeping down the school tax rate in the district. Other districts in the town, it is claimed, should receive the benefit of this taxation; that the basis of this taxation should be the town and not the school district, and that all school districts within the town should receive benefit from this source of taxation.

Many children in towns without high school advantages attend high schools in other towns and cities and have been required to pay certain tuition fees. The new law makes the town and not the individual pay the tuition.—*Watertown Standard*, February 6, 1918

A Thorny Path

Governor Whitman's path to the renomination he is represented as desiring will not be altogether flowery from present indications. Senator Brown, republican leader in the senate, is generally understood to be devoting deep thought to the erection of a barb wire entanglement that will call for some agility to surmount; and Speaker Sweet seems also bent on hedging up his way with thorns that he shall not find his path. Both the governor and the speaker appear to be in agreement that the present township school law is a crude and blundering piece of legislation; but the speaker thinks it can be improved into usefulness while the governor wants it repealed and hints that he has a plan in the back of his head for a better law to take its place. Evidently the law should be changed as it is widely and bitterly condemned; and its constitutionality has been challenged in the courts, and nobody that knew much about it ever wanted it except the Department of Education. The people do not want it, that is sure; and we can understand the natural anxiety of the governor, at this juncture, to gain the credit for giving them what they desire and to relieve the speaker of any responsibility in the matter he was inclined to assume. In any event, with Senator Brown's entanglement and the political cheval-de-frise the speaker is believed to be at work on, the governor seems likely to have a prickly path.—*Rochester Post Express*, February 11, 1918

The Governor and the Township Schools

Nobody misunderstands Governor Whitman's zeal for the repeal of the township school law, a slaughter of the innocents, it might fairly be called, since many of the consolidated schools are not yet a year old, which, to use the familiar comparison, almost out-Herods Herod. It is not necessary to dignify what the governor probably calls his policy by the new French word in everybody's mouth, since that is supposed to stand for cleverness, skillful deceit, at least plain "bluff," while this unseemly haste lest campaign thunder be stolen, and which has aroused the just indignation of Speaker Sweet and Assembly leaders, is neither. On the very first day of the session, in his list of offerings for political barter, which the governor by custom and courtesy called his message he went out of his way to intimate that among his choicest joblots of repeals and amendments was one which meant for the townships school law innocuous desuetude with the implication of equivalent Republican votes from the districts affected and disaffected. In plain terms, the governor plays the schools of the state as pawns in his game for a third term at Albany, which it is an open, nation-wide secret is but the overture to the play which is to be staged at Washington, a game in which the Perkins-Calder presence and activities at St. Louis last week are further significant factors, and for these reasons, though there are other and more weighty, the rate of the township schools is of interest to every citizen, urban or rural, of the state.

New York, however, has other and special concern in the contest, which the governor seems not only to invite but determined to force, if it can be made to advance his political fortunes. City money supports, in large measure, two-thirds or three-fourths in many localities, the country schools and as everybody knows, the upstate counties, in spite of all efforts at equalization, always win and put the heavier end of the load on the city taxpayer. No one pretends that the four thousand schools upstate, none of which have ten pupils each, many of them not half that number, begin to pay their way, nor that deprived of city money, assessed, collected and disbursed for them by the state, they would not have to go out of business. Therefore, it is by the simplest principles of common equity and justice, since New York city is taxed to maintain and operate these rural schools, we should have a voice as to what sort of schools they shall be, and the right to insist that the obsolete, expensive, inefficient plants and methods of past generations, the incomplete and inadequate teaching, and all the other relics and handicaps of bygone days and outworn conditions shall be scrapped, and the money spent for that which is worth while, modern and abreast of the times, that the education which is given shall be the real thing of the present time, which will fit the country boys and girls to take up the struggle or the game, as they may prefer to call it, of life on equal term with those of the cities, and that as nearly as possible, all grades and courses of the schools of the state shall be standardized and equivalent. The city of New York has the right to say and to know that its money, spent anywhere up-state, buys as good schooling, in content, in environment and personality, as that which it spends on its own children within its own limits.

When it comes to the township law itself and its merits, its friends need have no fear, if they will bestir themselves and make a square fight, independent of politics, of the result. Fruit of years of study and thought by the best experts, approved by the State Agricultural Society, and Grange, and by many smaller rural organizations of weight and influence, it represented to an exceptional degree the combined intelligence of educators, citizens and legislators, and to propose now, after less than a year's actual trial, to throw it into the discard because it is not ideal and absolutely perfect, is not common sense, hardly common decency. Moreover, to reverse the machine just as it gets under way, would be certain to produce confusion and dislocation, which would create a condition worse than that which it is intended to correct, far more than could possibly be developed by permitting the normal operation of the law until adjustments are effected and the new system stabilized. Time is certainly fair to both interests. If the law is as bad as its enemies would make out, it must soon become inoperative and die a natural death; if it is what its friends believe, and their faith is growing stronger every day, it must have a chance to prove what it can do.

Examination of objections to the law discloses but one which cannot be fairly and reasonably explained and rightly stated and squarely met, this objection becomes really an argument, and a strong one, in its favor. Increased cost, heavier taxation, is the protest of those who are hit, and there is no denying that there are cases of this sort. some prominent poli-

ticians among them, who will pay more under the new law than the old. Complete investigation, however, demonstrates that instead of increasing taxes the township law equalizes them, and spreads equally and equitably the burdens which had heretofore been borne by the fewer and the less favored. By the same reason, therefore, many citizens are obtaining for less money better schools and longer terms than ever before, and promise of progress and contentment never before possible in the rural depopulated and isolated districts. So far from being an exterior or superior force law, consolidating without consent of those affected, the township law is the embodiment and refinement of home rule carried to its extreme. No district can be consolidated or absorbed against its will, and three distinct and separate affirmative votes must be obtained to make it effective. And so with all the other minor but apparently sincere and serious objections; they disappear on honest discussion and intelligent study. Now is it quite reasonable to believe that New York cares longer to adhere to a school system of which the unit, the district, has been discarded by every New England state, by New Jersey and Pennsylvania?

Had Governor Whitman been even less impatient of his own political stake, cared to go or send across the street to the Department of Education, he could probably have learned that the friends and critics of the township schools are favorably comparing notes and hopeful of an early and satisfactory solution of the whole matter. Much of the trouble will disappear by removing the union free school districts from the operation of the law, and with an amendment to this effect and a smoothing out of a few other places, the principle and structure of the law will be saved and its efficiency increased. This is morally certain to be the early and satisfactory outcome if the hand which would mingle the schools and politics of the state can be stayed.

A still more potent reason, too, has New York in the welfare and prosperity of the country schools. Not more certainly do we draw water from the Catskills, the great reservoir of Ulster and Greene, than blood and brains, the physical and mental power of the coming generations, from them and the up-state counties beyond, and we can no more do without one than the other if we are to continue to be the imperial city.—*Brooklyn Standard Union, February 17, 1918*

New York's Town Schools Contest and Vermont's

New York is going through an experience not unlike that attending Vermont's long struggle over substitution of town schools for the district system. The chief difference is that the contest between the two systems has become involved in personal politics in New York at this time in a way that promises to have far-reaching results.

The township bill was passed in the Empire State last year. It called for equalization of school taxes by spreading the apportionment over the whole town, thus making those who had not been paying enough pay more, while others paid less. Some of the farmers and others have ignored good effects of the system as a whole and brought pressure to bear upon up-State legislators for the repeal of the township act and a return to the old districting system.

When the bill to repeal the town system act was introduced in the Assembly some time since, Speaker Sweet was credited with being behind the measure. In spite of the fact that this bill was pending Governor Whitman sent an emergency message to the Legislature urging repeal of the township school law, although the speaker had assured the executive the measure was in a forward state of preparation. Speaker Sweet is credited with indignation over this apparent effort by the executive to win credit.

Governor Whitman and Speaker Sweet had been closely allied politically. Recently an attempt has been made to induce Sweet to enter the governorship contest against the executive who is seeking a third term. It is claimed by the Albany correspondents that the merits of the school measure which has aroused this strife, are receiving little if any attention, the law having fallen into the background as soon as the political row had been started.

The New York State Agricultural society, the State Grange, the State Association of Tax Officers, the Conference for Better County Government, and State suffragists have strongly endorsed the township method of administering rural schools. The department of education made an exhaustive study of the State's requirements, and the application of the township system and thereafter made unqualified recommendation that the system was the best for New York.

When the repealing act was introduced in the Legislature various reasons were given by its sponsors for putting forward such a measure. It was said that the township system made consolidation of school districts arbitrary, therefore the law was undemocratic. The objection was made that it brought partisan politics into school affairs by the creation of political school boards. The distance children must travel under the new system and the increase in taxation for the people of some of the former districts are other arguments urged against the town system.

Dr. John H. Finley, commissioner of education, and Dr. Thomas E. Finegan, commissioner of elementary education, have issued a statement in support of the town system. They say the town school board is composed of the men who formerly acted as school trustees, so if the new board is political, which is unlikely, the influence is brought over from the old system into the new.

Under the old districting system, New York State, in its rural districts, was covered with little one-room school houses maintained by taxation in small districts. Teachers' salaries and equipment in these schools were exceedingly inadequate to provide the children with a curriculum in any way approaching the education standards of the State. The tax for their maintenance was apportioned according to the assessed valuation of the land in the separate districts, with the result that it happened that a poor district would have an exceedingly high tax rate which, at the same time, was only sufficient to maintain a poor school. In other instances the taxing of some rich corporate property, like a railroad, which went through a certain district, would make the school tax next to nothing. According to Dr. Finegan, "there are fifteen schools in the State now in each of

which there is just one pupil. There are eighty-six in which there are two; 116 with three pupils; 258 with four pupils; 357 in which there are but five pupils; 600 in which there are less than ten in attendance. It is impossible to maintain in one of these districts anything worthy of the name of school.

"The immense advantages of the township system," said Dr. Finegan, "are these: With a larger unit of administration, it will be possible to obtain school trustees with larger experience and viewpoint. Centralization of board administration will result in giving school affairs more business-like management. Unnecessary and poorly equipped schools will be discontinued. The unit of taxation being the town, the rate will be equalized. Township schools will provide educational facilities more equal to the advantages of city schools. With the larger school system, a better system of grading can be accomplished, and more and better teachers obtained."

Friends of the township system say it has not had fair opportunity for full trial in New York in one year. Town boards have not had the chance to put into operation all their plans. Like everything else, it has cost more to operate the schools this year.

It is urged that every State in New England has recognized these facts. Every State bordering on the State of New York, including Vermont, has discontinued the old district system and adopted the town system. The leading agricultural States of the West have also adopted the township system.

As far back as 1892 the Vermont Legislature passed a law which began with these eventful words: "After the date on which this act shall take effect each town in this State shall constitute a single district for school purposes, and the divisions of the town into school districts shall no longer exist, except for the settlement of their pecuniary affairs." Thus ended a fight over two decades. A law authorizing towns to make the change had been tried a decade and found wanting.

The first law providing for general primary education in Vermont was passed in October, 1782. It authorized the dividing of towns into convenient school districts and the appointment of trustees in each town for the general superintendence of schools. The judges of the county courts were authorized to appoint trustees of a county school in each of their respective counties. The latter constituted the original central schools.

At the end of half a century the primary educational system was on practically the same basis as at the outset. The selectmen of each town were required by law to assess a tax of three cents on a dollar of the grand list in addition to the deposit money for the support of schools. The Legislature in 1825 had established a fund for the benefit of the common schools. In 1837 Congress provided for the distribution of surplus revenue growing principally out of the sale of public lands, Vermont's share being only a few cents short of \$670,000. The permanent school fund, mobilized anew in 1906, now aggregates about \$1,370,000.

A State superintendent of education was substituted in 1874 for a board of education. In 1888 a radical change in school supervision was made after a heated campaign, county supervision being substituted for town supervision.

Following the adoption of town schools in 1892 educational development was rapid. In 1894 free text-books were provided. Two years later free high school privileges were instituted and supervision by union of towns was made possible. In 1908 the State took measures to encourage manual training, and in 1912 similar encouragement was extended to the teaching of agriculture and domestic science.

In 1915 the Legislature thoroughly revised Vermont's primary educational system largely in accordance with the report of the Carnegie commission, and we believe we now have under State Commissioner Hillegas one of the best systems of any State in the Union. We would not dream of going back to the antiquated district system in Vermont.—*Burlington, Vt., Free Press, February 19, 1918*

Township School Law

The Governor took a strong position for the repeal of the township school law. He, first, in his annual message recommended that the law be amended, but on further study he sent a special message to the Legislature calling attention to the increased expense caused by the operation of the act.

He also based his desire for the repeal of the law on the proposition that districts with small school houses have been forced to assume the bonded indebtedness incurred by other districts for the building of large school houses from which the former derive no benefit.

Furthermore, the management of school houses has been taken away from the locality which had a pride and interest in its maintenance and operation, with the result that the buildings are often neglected and in many cases fuel has not been supplied.

He has called attention on many occasions to the inadvisability of taking away from the people the control of the expenditures for school purposes, and believes that the people should have the right to vote upon the amount to be raised by taxation.

He has frankly admitted that the bill was passed and urged by those who were supposed to understand the needs of the rural communities in regard to education, but he has since, by personal study, found that the farmer was being discriminated against and has come out in aid of the farmer.—*Fort Edward Advertiser, March 21, 1918.*

In order to bring further light upon the activities of this period we are presenting the following newspaper articles and letters to indicate the attitude of those interested in the amendment rather than the repeal of the law.

The School Law

A well organized effort is being made by the rural people of the State for the repeal or radical amendment of the new township school law. The opposition to the law has its root in the fact that the new order of things places an equal share of the expense of maintaining village and high schools, except city high schools, upon the rural taxpayers, thereby nearly doubling their school taxes.

Some other objections to the law are also raised, charging inefficiency. How well founded these latter objections may be could better be determined by a longer trial. as, like many other new departures, there may be some confusion which would soon disappear.

Certain it is that the rural people are now compelled to pay more in proportion to the number of pupils they send to high schools, than the villagers pay; but they seem to forget, or possibly do not know, that for years under the previous law the villagers practically paid the expense of the high school education of any rural children who came to their schools. Under the "free tuition act" the State paid \$20 per year as tuition to the schools for each non-resident high school pupil, expecting that in this way rural children might, after completing their preliminary training in the district schools, attend high school without any tuition expense to themselves. But as the average cost per year for the maintenance of high school departments was about \$50 per pupil, the village school districts bore the greater part of the expense, which was the case here in Naples. Some schools finally tired of this, and charged a higher rate of tuition, the pupil paying the additional expense after being credited with the \$20 paid by the State; but this destroyed the "free tuition" plan and prevented some from going beyond a district school, and led to the present township law.

While the present law no doubt places more than his share of the burden upon the rural taxpayer, it would be equally unfair to return to the former law. It would seem that the old law could be made quite just in this respect by a provision that each rural school district pay the high school tuition of any children in the district who go to high school after completing the courses of instruction offered in their own district.—*Naples Record, January 30, 1918*

Would Amend It

While recognizing the objections to the rural school township law the *Jamestown Morning Post* is in favor of amending the law before repealing it entirely. The *Post* says:

In accordance with what seems to be a very general demand from the rural counties, Senator Thompson of Niagara has introduced a bill to repeal the Township School Law and directing town boards of education to return the school taxes to the district trustees. Before going quite so far as this, an effort should be made to amend the law so that the taxes to be raised in any one year shall be strictly limited to some definite percentage of the assessed value. Then the features of the law which promise better educational results in the rural districts will not be sacrificed without a trial.—*Niagara Falls Journal, January 22, 1918.*

New School Law Idea Throughout County

Owing to features of the present township school law objectionable to many persons, especially so in the rural sections, Supt. Stanton D. Austin has scheduled a series of public meetings for the purpose of explaining the new Senate bill as it has been introduced. It is hoped that every citizen will take advantage of the opportunity of becoming familiar with this bill, so as to conscientiously urge its adoption in place of the present township school law. The meeting will be held as follows:

Thursday, March 28, 1 P. M., Davis's Hall, Steuben Corners.

Thursday, March 28, 8 P. M., at the school house, Trenton.

Friday, March 29, 8 P. M., at the school house, Hinckley.

Saturday, March 30, 2 P. M., at the school house, Westernville.

Saturday, March 30, 8 P. M., at the Grange Hall, Floyd Corners.

Monday, April 1, 2 P. M., at the school house in North Western.

Monday, April 1, 8 P. M., at the school house in Holland Patent

The taxpayers and all of those who are interested in the welfare of our schools should attend at least one of the meetings.

The Senate Bill has been so drafted as to remove all objections contained in the present township law, and carries with it a greater State aid toward the support of the schools of the State. In fact this Senate Bill is said to be a golden opportunity to the taxpayer if it can be enacted to take the place of the present township law which has proven to be so unpopular. In order that the opportunity may not be lost, it is the duty of every citizen to urge the repeal of the present township school law and the enactment of the Senate Bill in its place.

If this can be done, the financial support will largely come from the State, and the direct tax upon the people for the support of the schools will be greatly diminished.

Bill for Township School System Favored with Five Modifications

Sessions of Pomona Grange in the Odd Fellows' Temple on Ellicott street yesterday morning, afternoon and evening were the most largely attended of any similar sessions in recent years. The most important transaction of the grange was the adoption of a resolution regarding the proposed new school law.

William F. Pratt, Thomas Roach and E. P. Lincoln, the committee on resolutions that had been appointed at the afternoon session, formulated a resolution expressing the sentiment of the granges of the county on the school law, which was presented at the afternoon session. This committee took all the resolutions that had recently been adopted by subordinate granges and rejected and adopted various features of these recommendations as their judgment prompted. The following resolutions, which they presented, represented the combined sentiment of the subordinate granges and was unanimously adopted:

"Resolved, that Genesee Pomona Grange favors the township system, with the following modifications:

"First, that the number of trustees in union school districts should be limited to three, thereby leaving the balance of power outside of the high school districts.

"Second, that, if feasible, the annual school meeting be held after the close of the school year.

"Third, that the amount \$5,000 under section 343 and subdivision 2 of section 347 be changed to \$2,500.

"Fourth, that the publication of the budget be made before the annual school meeting and that the district superintendents shall examine such budget and advise concerning same before publication.

"Fifth, that, if possible, a simpler method of election be provided for."

Features of this proposed law have been under discussion in subordinate granges for several months past and the measure is looked upon by grangers

as their special legislation. The state Legislature some time ago called upon the State Grange to formulate provisions for a law changing the conduct of school districts. H. A. Nethaway of Canandaigua was made chairman of a committee from the State Grange and this committee called upon the granges of the state for recommendations.

Subordinate granges are making recommendations to their county granges and these will in turn report to the State Grange. In general, the principal features of the new bill are that there shall be township superintendents instead of district school trustees. The result of the enlarging of the school district will be to put the administration in the hands of fewer men, to eliminate and combine districts, curtail expenses and secure greater uniformity in all respects.—*Batavia News, December 8, 1916*

THE HEARING ON THE BILL

The hearing on the township bill was to be held on February 12, 1918, but was postponed until February 27th.

The following appeared to speak in favor of the bill at this hearing:

Dr John H. Finley, State Department of Education

Dr George A. Works, State College of Agriculture, Cornell University

Mrs Raymond Brown, director, New York State Woman Suffrage party

Three other representatives of same organization

Miss Mary Wood, chairman, legislative department, General Federation of Women's Clubs

Dr Samuel McCune Lindsay, director, New York State Work, Bureau of Municipal Research, New York

George A. Hastings, secretary, New York State Committee on Feeble-mindedness

Representatives of Town Boards of Education

Charles Herrick, president, board of education, town of Bethlehem, Albany county

John L. Campbell, member board of education, town of Portland, Chautauqua county

W. S. Titus, president, town board of Irondequoit, Monroe county

Other representatives of town boards

Mr Patterson and Mr Schuyler, town of Florida, Montgomery county

 Mr McNeil and Mr Brower, town board of town of Mohawk, Montgomery county
 Assemblyman Slacer
 Senator Gibbs
 Mr Bull, supervisor of Westchester county, and other supervisors of same county.

Hold Hearing on Repeal of Finegan Law

Albany, Feb. 8.—Chairman M. K. Tallett of the assembly education committee, announced last night that the hearing on the Martin bill to repeal the township school law, which was to have been held February 12, has been postponed until Wednesday, Feb. 27. At that time the committee will take up the question of amending the law in relation to physical training and medical examination in rural schools.

One of the big fights of the legislative session will center round the township school act. The chief objection to it seems to be that it slightly increases taxes in some districts, although the state educational department points out it equitably distributes expenses, and is a fair-play proposition.

The law also makes it more certain that children in rural sections will get the best possible kind of education, something which, in the past, has not been vouchsafed all of them. A large hue and cry has been raised over the law, but it has been in force only a short time and even some of those clamoring for its repeal admit there is a possibility it may not have been given a fair trial.

An Erie county assemblyman today said he considered it unfortunate that the friends of the bill are not as active as those opposed to it.

"There is no doubt, whatever, in my mind," he declared, "that the law is a good one. It is a step in the right direction, and its repeal will be a sad step backward.

"So far as I personally am concerned, however, I must admit that unless those who favor the bill in my district become more active and show that the sentiment really is in favor of continuing the law, instead of repealing it, as many are trying to do, I will feel it is my duty to vote for the repeal."

Assemblyman Herbert A. Zimmerman of Buffalo sent letters to school

officials in the district he represents, asking for their views on the law. The replies he has received favor the repeal, but there is no sound argument in them to justify this step — except the repeated statement, with variations, that the township law makes the cost of school maintenance more expensive.

Mail on the subject received by other Western New York legislators and assemblymen and senators from all parts of the State is no different and indicates the same trend of argument. Dr. Thomas E. Finegan, deputy commissioner of education, told a meeting of the farmers here recently that increases in costs are not unusual and could not help being reflected somewhat in the cost of school administration. In the large cities the costs, he said, have advanced much more rapidly than in the rural sections under the township act.

One opponent of the law became so enthusiastic that he informed the stenographer of Assemblyman Zimmerman:

"The town people are feeling quite antagonistic toward Governor Whitman for signing the bill, so if Mr. Zimmerman can have the law repealed the towns of his district may nominate him for governor."—*Buffalo News*, February 8, 1918

Farmers in Furious Attack on Township School Law; Spirited Defense by Finley

Groups of emphatic, disgruntled farmers from all parts of the state, shouting "Repeal! Repeal!" surrounded Commissioner of Education John H. Finley and the public education committees of the senate and assembly in the well of a crowded assembly chamber at 6:30 o'clock last night, as the curtain was rung down on the politically significant township school law hearing. Commissioner Finley had just finished a final appeal to save at least the groundwork of the law, even though many features objectionable to the farmers be stricken out by amendment.

For four hours and a half, the defenders of the bill, woman suffrage leaders, district superintendents and representatives of a few town boards of education, led by Commissioner Finley, had urged the good features of the measure, and the opponents, mostly farmers, had raked it end to end with criticism.

The hearing revealed differences of opinion on the subject among Governor Whitman, Majority Leader Elon R. Brown and Speaker Thaddeus C. Sweet of the assembly.

Senator Brown, after arraigning the State's rural school education system as far behind the times, proposed legislation appropriating anywhere from \$800,000 to \$2,400,000 for the "little red school houses" and the correction of certain features of the present law. A flat repeal, he declared, would give rural education in the State a setback from which it would take a quarter of a century to recover.

Speaker Sweet had declared himself for a flat repeal of the law, withdrawing from the position of correctional amendments suggested in the bill offered by Assemblyman John G. Malone of Albany. The speaker followed this with the suggestions of the appointment of a commission to map a new law for the rural districts, to be reported and enacted in 1919, a law that would suit the rural districts.

Governor Whitman had previously put himself on record as favoring a flat repeal of the law in a message to the assembly that caused the split between him and Speaker Sweet.

Rural leaders who, in the past, have been lined up against Governor Whitman, were found on his side of the argument. John J. Dillon, editor of the Rural New Yorker, and Seth J. T. Bush, president of the Western New York Horticultural society, were both on hand, advocating the Governor's proposal—repeal. Sherman J. Lowell, master of the State Grange, also urged the committee with the necessity of a repeal.

Perhaps one of the most striking features of the hearing was an impassioned plea for the repeal by James Kelly, an Erie county farmer, who took Senator Brown to task.

"If you don't repeal this law," he thundered, gesticulating with clenched fist, "you'll irritate the already irritated farmers and create a rural Bolshevik, for the farmers don't believe they're getting a square deal.

"You say to us produce more—more grain, milk, eggs. If we are good enough to produce the food that provides the subsistence of the nation, we are good enough to know what school laws we want.

"The farmers are suffering from an economic situation that is driving the boys and girls to the cities. That's the reason for the depopulation of the rural schools."

Mr. Kelly's remarks brought forth cheers and applause from the farmers, especially his remarks about food production.

Commissioner Finley who advanced the main argument for the retention of the features of the law and others who spoke favorably for it were united in declaring that the law had not been given a fair trial, that a year was not long enough, and that while the law had defects, the principle of it was sound and should not be destroyed by a flat repeal.

"Correct the defects by amendment, don't destroy it," was the crux of their arguments.

Assemblyman Louis M. Martin, introducer of the bill for repeal led the farmers in their arguments while Commissioner Finley led the proponents of the law.

Charles J. Herrick, president of the Bethlehem school board of Albany county, one of the first proponents for the present law, after telling of the improvement of school conditions in this district under the present law, branded as "tax slackers" those who objected to the law because of the increase in cost.

"This system is more expensive. We did not deny it last year. We don't deny it today. Support of the schools is a public duty and those who would not are tax slackers in the same way as there are military slackers."

W. S. Titus, a Monroe county school superintendent, also spoke for the measure, favoring it because it equalized taxation.

"This law raises New York state to the level of neighboring states in rural education," said Mr Titus. "Give it a chance. Six months or a year is not long enough to test it."

Carlos Blood of St. Lawrence county, chairman of the legislative committee of the State Association of District Superintendents, declared that there were "great big principles underlying the law, which should be maintained and not lost sight of.

"Those who want this law repealed are holding the almighty American dollar so close to their eyes that it has been obscuring their vision," he declared.

George A. Hastings, secretary of the New York committee on feeble-mindedness, presented a resolution adopted by that committee, urging the retention of the law until it had been given a fair trial.

Others who appeared to be registered in favor of the bill or who spoke for it included Dr. George A. Works, of the State College of Agriculture of Cornell University, John L. Campbell, member of the board of education from the town of Portland, Chautauqua county; R. Grant Hitchman of Onondaga county, George W. Dunn of Monroe county, and these district superintendents, George W. Covey of Westchester county, Fred Hill of Monroe county, S. M. Kimm of Herkimer county and John Schoonmaker of Ulster county.

Assemblyman Martin opened for the farmers, in a bitter arraignment of the law. Addressing himself to the commissioner as well as to members of the committee he said:

"There must be something wrong with this law when all these people, whom it was supposed to benefit, are coming here to protest against it. There must be something wrong with this law when taxpayers in Westchester county have started an action in the courts to have it stricken from the statutes. There must be something wrong with this law when the astute assemblyman, Mr McWhinney, had his county, Nassau, exempted from the provisions of the law last session and then went out in the corridor chuckling."

Mr Martin then introduced Julius Henry Cohen, who has started the action to have the law stricken from the statutes for Westchester taxpayers. Mr Cohen declared himself in sympathy with a plan for better rural schools, with additional expense, if necessary, but he declared that the present law was not the right one and also was unconstitutional.

"Let's wipe it off the statute books and start on this rural school problem afresh," he urged.

John Townsend, a farmer of Sullivan county, told the committee he was at the hearing because the taxpayers of his school district sent him.

"I am here to ask the legislature to undo something it has done," he declared. Later he declared the rural schools had been "Finleyized and Fineganized" enough.

"It has resulted in excessive taxation and no benefits," he concluded, referring to the law.

One of the jokes of the hearing occurred during Mr Townsend's address. He was indulging in some rhetoric to the effect that the old style system had been good enough for Washington and Lincoln and good enough for those of today.

"Why not go back and abolish the bathtubs," suggested one of the members of the committee.

Colonel Asa Bird Gardner, of Westchester county, who told the committee he sent his children to the rural school, also spoke against the present law as being unfair and unjust in the method of tax levying. He even assailed the school books that are being used, saying they were too advanced for small children.

M. F. Agar of Putnam county opposed the law, he declared, because the taxpayers whom he represented were opposed to further consolidation of the school districts, as provided by the law.

Mr Dillon, the food and markets commissioner removed by the Governor, made one of the principal speeches for the repeal of the law.

"Repeal this law and restore the law we had and while you're at it repeal this calisthenics and physical exercise law," Mr Dillon advised the committee.

"Get this monstrosity out of the way and give us a chance to say what we want. We want good schools in the country. We want good teachers in the country.

"While we are sending our boys to fight for democracy, we are building up an autocracy right here by this law."

Mr Dillon then took exception to some remarks that the rural schools were not turning out as advanced and finished pupils as the city schools and declared he had found rural school children as good or better than the product of the city schools.

"If there are any exceptions to that rule," declared Mr Dillon, "it is right here in these legislative halls."

W. P. Dunlop of Montgomery county opposed the present law, he told the committee, because it works out for the benefit of the large school districts and to the detriment of the small.

Seth J. T. Bush, of the Western New York Horticultural society, told of a resolution the society had passed condemning the law and then urged a repeal.

"We want a square deal and we don't believe we are getting it," he declared.

Mr Lowell, master of the State Grange, also made a plea for the repeal. He was corrected several times for turning his back to the committee as William Jennings Bryan had done at the prohibition hearing on the previous day.

Mr. Lowell indulged in some irony at the expense of the State Education department, when he told of a rural school in his district that had a flag staff on the roof and had been obliged to erect another in the yard.

"The school now has two staffs for one flag," Mr Lowell said and his audience tittered loudly.

There were scores of farmers at the hearing who could not be heard because of the time limit set on the hearing. When Commissioner Finley rose and spoke in rebuttal they flung all order to the winds and from all parts of the chamber came the cry "Repeal! Repeal!" It was the farmers' only rebuttal.—*Albany Knickerbocker Press*, February 28, 1918

The School Bill Hearing

The hearing on the Township School bill at Albany on February 27 was a new experience for official Albany. Never before did the plain farm homes from the back districts of the State crowd the largest legislative chamber of the Capitol. The fathers and mothers of the back districts went to Albany to demand the repeal of the Township School Law, and to appeal for their little schoolhouse. Dr. Finley, the genial and able Commissioner of Education, spoke in favor of the law. He was supplemented

by the officials of the Department, and several women from cities, not affected by the law, also spoke in favor of the bill. Senator Elon R. Brown, the astute leader of the Senate, also spoke for it. He admitted a need of changes, but opposed repeal.

The burden of the arguments for the old bill was that country children should have more and better education and better schools; that farmers opposed the law to save money; that city children had a preference for positions because of their better education, and that intelligence and progress favored the bill, and ignorance and dullness only pleaded for its repeal.

I have taken part in many debates during the past 35 years, but never before felt more pride in my subjects and my associates than on this occasion. The human element was there; and this is the element that had been overlooked when this law was written, and passed and defended. This human element is the influence that will win the repeal of the law. The farmers contended that they joined the opposition in the desire for good schools and better education for the children; that they were willing to pay for them; that they objected to a city autocracy that sought to impose a school system on them that they did not want; that country mothers rebelled against a provision that compelled them to send their young and tender children miles from home to attend a city school; that the country school-house is a community asset, and lastly that the boys and girls from those country schools have worked their way to the top round of the ladder in every industry and business and profession in this country. The country school has turned out men and women in the past and may be trusted to do so in the future.

It is safe to say that the bill will be repealed. The demand was for clean repeal of the Township bill and the physical culture provision of the military law. Governor Whitman signed the bill last year, but since the demand for its repeal became so pronounced he characteristically abandoned it and is now courting credit by opposition to it.

Farmers are learning how to get what they want.—*Rural New Yorker*, March 9, 1918

The Rural School Law

The state department of education has chosen Dr. Thomas E. Finegan to be its spokesman in its fight to prevent the repeal of the rural school law—a repeal advised by Governor Whitman in his message to the legislature. Dr. Finegan has published a defense of the law as it now stands and has appeared before committees of the legislature. But judging from the defense published there is the same failure to keep clearly in mind two distinct issues which is often found in handling matters of legislation. Dr. Finegan restates the objectionable conditions in rural schools which led to the enactment of the present law. There is good ground for believing his facts accurate. Unquestionably in many rural schools the pupils are not given proper educational advantages. But Dr. Finegan assumes that the present law, or one amended to retain its essential provisions, is the only means of bettering objectionable conditions. If the farmers of the State are to be believed, the present law has made their school taxes unreasonably high and has not proved practical in bettering conditions. It would seem that a sensible thing to do would be to consider first what conditions must

be removed in favor of better ones and then to devise legislation sufficiently flexible to provide for actual improvements at reasonable cost. It is probable that local conditions are a great factor in determining what is best to be done in specific instances. Under the present law a general and undue rise in cost for rural education is not producing desired results. There is unquestionably a way to secure good education for rural children without doing injustice. This is the legislation needed, but it will not be found either by ignoring need of betterment or by seeking to retain a law unamended that has proved ineffective and productive of financial injustice. — *Rochester Post Express*, February 19, 1918

No Argument Against It

Dr. Finley countered well at the legislative hearing on the township school question when in reply to the present president of the State Grange he read a resolution of that body advocating the passage of the law. The assertion had been that it was imposed on "the farmers" without consulting that body. In fact, Dr. Finley said, its representative had helped frame the measure.

The incident was of importance as illustrating the general substanceless of the howling that has been worked up for its repeal and which The Argus has refused to believe to be in any way representative of the yeomanry of the State; such of them as have joined in it simply haven't stopped to think or analyze. When they do so they will agree with the deliberate judgment of their most important educational organization. That this must be so was made evident to any unprejudiced person that followed the hearing Wednesday. Deduct from the shriekings for repeal what was merely words, frothy denunciation without specific evidence or facts to support it, and how much was left? Simply an assertion that "taxes have increased" under the new law. Save as the cost of everything has been increasing under war conditions and save as surpluses have been returned to taxpayers of old districts to be replaced by new ones that must be raised in consolidated units, how can taxes under honest or capable administration — and if that has anywhere been lacking certainly the law is not at fault — be increased except as they represent better schools? No one has undertaken to answer that question. No human being can.

Take the third of the one-room school districts in the State that have appraised property valuations of less than \$20,000 with an average attendance of 10 or less. To maintain anywhere near a decent school in one of them, employ a competent teacher, provide fuel and proper equipment, maintain the building in repair and make good the natural depreciation going on, would cost at least \$800 yearly, more likely \$1,000 or more. That would mean a tax every year amounting to four or five per cent. of all the taxable property in the district, less the subsidy that comes from the State. Of course, the people in these districts cannot from their own means support such schools as every American child is entitled to. The essential principle of the township law is that other and better-to-do districts in the same town shall help them by an equalization of the school tax throughout the town. The only taxes that can be increased are, therefore, those in these more prosperous and populous districts. But these increases represent nothing but better schools.

These we must have if the greatest State of the Union in wealth and population is not to be steeped in an ignorance deeper than that of any of its northern sisters. In the last analysis the question is whether the State or township shall save us. The State is now disbursing approximately \$6,500,000 as her share. Whether she should add anywhere from \$800,000 to \$2,400,000 more as Senator Brown proposes, 90 per cent. of it coming from the cities, must equitably depend—and can only be determined when there is equalization of the burden throughout townships—on whether the rural citizens are paying as much pro rata for their schools as the cities do. Until that point is reached, it is simple robbery to draw more from the cities for the betterment of rural schools. When that point is reached the cities, through the State should and doubtless will cheerfully match dollar for dollar all that the townships or rural districts or whatever you call them spend for themselves.

The Bolsheviki spirit which one of the howler statesmen threatens unless the rural districts can be appeased in their "want more" proclivities, is already here to the extent that assent is refused to such a fair basis. If it turns and rends the Republican party that has so long been stimulating it in seeking the "up-State vote" it will be a righteous retribution. But the question of fair dealing between men is the all important one and it is time to end these policies that have hardly a pretense of right in them.

For there is a second and doubtless the loudest element in this howl about "more taxes." It is in the districts of which there are hundreds, as Prof. Works, of the rural education department of Cornell, says, that under the old law paid not a dime of school taxes but taking the \$200 a year given by the State to each district of \$20,000 or less of taxable property, farmed out the education of their few children to some adjoining district.

Are we going to cater further to methods so absolutely devoid of Americanism?

And isn't it infinitely pitiful that we have politicians capable of seeking to do so?—*Albany Argus*, March 1, 1918.

The Politicians and the Schools

It is rather amusing to see the politicians at Albany falling over each other in an effort to repeal the township school law and get credit for the same. Even Gov. Whitman and Speaker Sweet are in the petty game. All of them have an ear only for the clamor against the law which arises in many sections, a great deal of it due to conditions that are in no way related to the law. Probably few or none of the politicians stop to consider whether or not the law would improve the schools of the State, or what has been the result in other states where it was applied. Few or none of them stop to think of the folly of attempting to pass judgment upon a law which has been in effect only about half a year, some parts of which, in fact, are not yet in operation. They only know that in some quarters a good deal of noise is being made about the law, and that the folks who make the noise have votes.

We trust that instead of repealing the law outright and going back entirely to the old school system, some satisfactory solution may be reached so that fundamental features of the law may be saved and given a fair trial. We are quite satisfied that if the system were to be in operation a couple of years

under normal conditions the great mass of the public would not wish to go back to the old way. There would, of course, remain the objections of those who habitually put the dollar before the child—usually their own dollar and somebodyelse's child. But they should hardly be allowed to dictate the educational policy of a great state.—*Cuba Patriot and Free Press, March 8, 1918.*

The New York Assembly voted 107 to 36 in favor of repealing the Township School Law, which hasn't been in operation a year, which the Legislators don't know yet whether it is a good law or not, which hasn't had a chance to show its qualities good or bad, which really was a big benefit to rural schools, and properly worked out in five years would have placed New York State far along advanced lines of educational systems. The Assembly was scared into their action. We hope the Senate will show judgment enough to appreciate many of the benefits of the Township system, its justice and its worth, amend it perhaps, but never flatly repeal it. Such an act is cowardly. It comes before the Senate this week. Probably a proper amendment would be to bar the academic high school districts from the operation of the Township system. With this exception let the law alone.—*Morris Chronicle, March 20, 1918.*

Robbing Peter to Pay Paul

The article in your issue of March 30, declaring that a crisis has developed in the rural school situation requires an answer from the already tax-overburdened rural communities. In the first place what crisis has developed in the rural school situation other than the township school law, which your article stated it is assured will be repealed. With that law repealed no crisis will remain or develop. If it is to be repealed it is on account of the unanimous demands of the rural communities which were most affected by it, and demanding the repeal of this law the rural residents are not asking or demanding any substitute in place of it. For the Education Department of the State to foster some new Panacea before the present law is actually repealed looks suspicious in itself. Who is asking for any law? We have heard the plea that something must be done to improve the conditions of the rural schools before. This argument was well and finally answered at the hearing on the bill for the repeal of the present iniquitous township law. If the conditions are so bad, why were they not discovered before the pet township bill fell into disfavor. Oh, no if the rural residents had remained as innate and uncomplaining as they were expected to remain upon the passage of the present law no cry would have been raised about the bad condition of the rural school. It is strange that such bad conditions would have resulted in the origin of some of the greatest men and scholars that this country has ever known. Who constitute the majority of the graduating classes of the high schools and who are the leaders in the classes of the colleges and advance schools, other than these same children who have acquired their first taste for knowledge in these same despised rural schools.

And then the climax of this offer of something a great deal better. The offer is made with a promise of gold. \$28,300 is offered to the neglected and downtrodden rural schools and taxpayers. Surely the offer of balm such as this has always worked a charm on the country taxpayer since time

immemorial and why should it not work again. But the rural taxpayer has learned a thing or two by brutal experience, and he knows that \$28,300 cannot be allotted by the State unless some one settles for it. The State acquires its money only by taxation. Then how can this money be raised for Chenango county except by taxation? What difference does it make whether we pay our money out in school tax or State tax? Someone must settle and everyone knows that it is the rural taxpayer, who cannot hide his land or cattle in safe deposit vaults, whose taxes always go up and never down. Cannot the politicians "have a heart?" When all the country and every citizen is straining every effort to meet his war taxes and purchase his share of Liberty Bonds, and is doing it gladly and without complaint, why must some department of the State government take this time to foster upon us new and untried methods of running our rural schools entailing additional taxes.

No, the rural residents asked that the township school law be repealed. They have not asked for any new legislation curtailing their right to manage their own affairs, and the rural taxpayer who is wise will not endorse any new scheme until he knows much more about it than he can acquire at the hastily called meetings being held throughout the State to give this new bill an appearance of rural respectability. If he does he may again find himself asking for abolishment of further councils and commissions the same as all agricultural societies of the State are now doing with the State Food Commission and the Farm and Market council.

Remember the bright promises made for these, but how soon the promises failed to materialize after the legislation was enacted.—*New Berlin Gazette*, April 6, 1918

The Township Education Law

A hearing with reference to the bill repealing the so-called township law, which law last year established the township school system, and which hearing was set for February 12, has been postponed to Wednesday, February 27, at Albany, in order to take up at the same time the amendment with reference to the physical training and medical examination in rural schools and in order to prepare considerable legislation for consideration by all desiring to be heard on the question.

Much opposition has developed to the so-called township school law. Its operation has proved to be more expensive than the old system, and it is not satisfactory in many other respects. It is still defended, however, by its sponsor, Dr. Thomas E. Finegan, deputy commissioner of education, and he delivered an address upon the subject before the New York State Horticultural Society in the Assembly parlor of the Capitol, at Albany, on January 15, and one before the New York State Association of district superintendents of schools, in the auditorium of the Hotel McAlpin, New York, on January 17.

In his lengthy defense of the township law, Dr. Finegan says:

We are maintaining in this State at the present time 15 schools in each of which there is just one pupil; we are maintaining 86 other schools in each of which there are just two pupils. We are maintaining 166 other schools in each of which there are three pupils. We are maintaining 258 other schools in each of which there are four pupils. We are maintaining 357 other schools in each of which there are but

five pupils. In other words, there are in operation today in the rural regions of this State nearly 900 schools in each of which there are not more than five pupils. But in addition to these 900 schools, there are 600 other districts in the State in each of which there are less than seven children in attendance upon school. There are 3,800 rural schools in this State today in each of which there are less than ten children in attendance. And what is even worse than this, the assessed valuation of each one of these 3,800 districts is less than \$40,000. In one-half of such districts—2,000 of them—the assessed valuation of each district is less than \$20,000. In other words, under the district system four farms of an average value of \$5,000 were required to support a school in 2,000 of the districts of the State, and in nearly 2,000 additional districts, eight farms of an average value of \$5,000, or ten farms of an average value of \$4,000, were compelled to support a school. This placed a burden upon these communities which they were not able to meet. There is not a man or woman within the sound of my voice who does not know that it is absolutely impossible to maintain in one of these districts a school which comes anywhere near approaching an institution worthy of the name school. These schools are maintained not only in the interest of the local community but in the interest of the State as well. The State has an interest not only in each of these 900 schools that has an attendance of less than five, but it also has an interest in each of these 3,800 schools that has less than ten children in attendance.

The interest of the State from a financial standpoint is nearly equal to that of the taxpayers in each of these 3,800 districts. The taxpayers are, of course, taking their money in each one of these districts and supporting these schools. The State is doing likewise. The State is taking from its treasury \$200 and putting that amount of money in each of 2,000 of these schools and from \$150 to \$175 in each of the remaining 1,800 schools.

1313

As previously stated by the *Journal*, considerable opposition to this law has developed in Niagara county. Formal action against it has been taken by several communities in this county.

In Orleans county the opposition seems to be more intense than it is in Niagara county. Assemblyman Lattin of Orleans county says that he has received letters from over 90 per cent of the rural school trustees of that county, opposing the law. Petitions against the law have been signed by over 2,000 voters and taxpayers of Orleans county.

The only bill introduced to date, receiving serious consideration, is the Martin bill which provides for the restoration of former conditions in respect to school districts.—*Niagara Falls Journal*, February 25, 1918.

MEMORANDUM RELATIVE TO THE REPEAL OF ARTICLE 11-A OF THE NEW YORK STATE EDUCATION LAW

*Presented to Committees on Education at Hearing on Township Bill
February 27, 1918, by Bureau of Municipal Research*

Assembly bill No. 26 (Senate number 307) is now under consideration by your committee and your recommendations relative to the disposition of this proposed legislation will soon be presented to the Senate and Assembly. This bill proposes to repeal article 11-a of the New York State Education Law. The repeal of this statute would have far-reaching effects on the future development of rural education in the State of New York. Because of the great significance of this legislative bill the Bureau of Municipal Research desires to place before you certain facts and recommendations bearing on the question involved in this proposed legislation.

The sources of the information presented herewith are:

1 Investigations made by the Bureau of Municipal Research for the Nassau County Commission (formed under the laws of New York State) of the government of Nassau county

2 Studies made of state school laws and reports of New York and other states

3 Digests of the recent (1917) report of an educational survey of Nassau county (prepared by the New York State Education Department and Dr G. D. Strayer, professor of education administration, Teachers College, Columbia University)

As a result of careful consideration of the facts gleaned from the above sources, eight major conclusions are arrived at and are presented herewith. Under each conclusion are set forth the supporting facts and arguments as follows:

1 A repeal of article 11-a of the Education Law of New York State would mean taking a step backward in educational administration, because

a The district system to which we should return is antiquated, having been established over 100 years ago and having outlived the conditions which it was established to meet

b The most recent tendency in state education administration has been toward the larger unit of control:

(1) All the states east of the Mississippi river (22 in number) except New York, Illinois and Michigan, have abandoned the district system (Maryland did so as early as 1865)

(2) Massachusetts, beginning in 1853, having three times repealed the law for the abolition of the district system, finally in 1882 established the township system which is still operating successfully in the entire state

(3) Ohio adopted the township system in place of the district system in 1892 and in 1914, by adopting the county system, further enlarged its administrative unit

(4) No state which has adopted the larger unit of administration has ever returned permanently to the district system

2 The school district has proven to be an ineffectual unit of state educational administration, because

a Under it educational opportunities in a state are unequal

(1) They are dependent upon the taxable wealth of the small school district rather than on the aggregated taxable wealth of a number of districts varying widely in amounts of assessed valuations

(2) They could not possibly be equalized under a system in which there are, as in New York State, over 10,000 districts each one having from 1 to 3 trustees

b The advantages of expert educational supervision are almost nullified under the district system, because

(1) The power of the superintendent of the supervisory districts is dependent upon the good will and close cooperation of many groups of school trustees

- (2) The supervisory districts include too many independent school districts and trustees (in Nassau county there are two supervisors and 237 trustees for 57 school districts)
- 3 The district plan is wasteful of public funds and effort, because under it
- a A disproportionate amount of money is expended in the collection of taxes
 - (1) In Nassau county (1915) it cost over \$16,000 to collect the district school taxes alone, not counting the cost of copying the tax rolls in each district
 - b An unnecessary number of teachers is employed
 - (1) There are 3800 schools in the State with less than ten pupils
 - c There is an undue number of school sites and buildings
 - d The purchase and distribution of supplies is uneconomical
 - e The expenditures for fuel, light, janitorial services, etc., are duplicated
- 4 The district system does not distribute the burdens and benefits of education equitably: Under it
- a The school tax rate based upon property valuation shows marked variation within towns—

1 In Rome	tax rates varied from 1 mill to 10 in 1916 ^a
2 " Phillipstown	" 2 " 15 " " a
3 " Canaan	" 1 " 9 " " a
4 " Hempstead	" 2 " 15 " 1915 ^b
5 " North Hempstead	" 1 " 7 " " b
6 " Oyster Bay.....	" 1 " 17 " " b
 - b The product of the school tax per pupil in Nassau county shows marked variation:
 - (1) For the year 1914-15 in Hempstead it varied from \$430 to \$22^c
 - (2) For the year 1914-15 in North Hempstead it varied from \$79 to \$31^c
 - (3) For the year 1914-15 in Oyster Bay it varied from \$58 to \$19^c
 - (4) In 1915 in Nassau county it varied from \$365 to 20.50^d
 - c The cost of maintenance of schools per teacher employed showed marked variation
 - (1) In 1915 in Nassau county it varied from \$689 to \$3016^d
- 5 The town law eliminates the evils of the district system because
- a It centralizes the control of schools and places the responsibility of their administration in the hands of a few who can be held accountable
 - b It eliminates waste, for
 - (1) It reduces the cost of the collection of taxes
 - (2) It makes possible centralized purchasing and distribution of large quantities of supplies, thereby reducing the cost

^a Township Education Law; address by Dr Thomas E. Finegan before New York State Agricultural Society, January 15, 1918.

^b Bulletin 652, University of the State of New York, December 1, 1917.

^c Bulletin 652, University of the State of New York, December 1, 1917, part I, table I.

^d Id. part 2, table 96.

- c* It eliminates conflicts of authority between the superintendent and the numerous district boards
- d* It equalizes the school tax throughout the town
- e* It makes possible the equalization of the educational opportunities throughout the town
- 6 The town law makes possible the immediate consolidation of schools
 - a* Consolidation has made slow progress under the district system in New York State
 - b* Consolidation has always followed where the unit of administration has been enlarged
 - (1) In Indiana under the town system the number of schools with less than 20 pupils was reduced from 4180 to 1775 in ten years (1899-1909)^{*e*}
 - (2) In Ohio consolidation became state wide in 1898 after the town had become the unit of administration
 - (3) In Kentucky extensive consolidation followed the establishment of the county unit of administration (1908)^{*a*}
- 7 Consolidation of schools, the inevitable result of the town law, will produce great advantages for the educational system of New York State
 - a* Consolidation is conceded to be beneficial everywhere, for
 - (1) The United States Bureau of Education calls it "the most necessary reform for efficiency and economy in the conduct of rural schools"^{*b*}
 - (2) In Massachusetts, Connecticut, Ohio and Indiana, the most vigorous opponents of the plan at the time of its introduction were later among its strongest supporters^{*c*}
 - b* Consolidation has proved a marked benefit in states where it has been tried
 - (1) Illinois testified to its advantages in three schools^{*d*}
 - (2) Indiana reports "The work of the consolidation of schools is highly gratifying—children are doing better work, better teachers can be secured, and the High School attendance has increased by 6300^{*e*}
 - (3) Utah reports that "All the arguments in favor of consolidation are true—the tax levy is smaller, and a very material growth has been made without any additional debt . . . With better buildings and graded schools we are able to command a better teaching force. . . . The care that is now exercised in the handling of public school funds is an argument in itself for consolidation. No consolidated county would return to the small unit system. The larger unit is superior to it. It makes for economy and efficiency in every department."^{*f*}

^{*e*} Monroe: *Cyclopedia of Education*, Article on Consolidation of Schools.

^{*a*} Kentucky State Educational Report, 1912-13.

^{*b*} Bulletin 1917, No. 5, U. S. Dep't of Education.

^{*c*} E. P. Cubberly, *Monroe Cyclopedia*, Consolidation of Schools.

^{*d*} Circular No. 76, Superintendent of Public Instruction, Illinois, 1914.

^{*e*} Indiana State Report, 1910.

^{*f*} R. C. Nelson, State Superintendent of Education, Utah, 1913, quoted in United States Bureau of Education Bulletin 1914, No. 44.

(4) Kentucky after having tried consolidation for four years, reports that "The results are so much better that the cost cannot be considered. . . . There can be no reasonable argument made in favor of the old plan."^g The Kentucky report enumerates 38 benefits of consolidation, important among which are —

(a) Better grading and classification with better results for the same length of time

(b) Longer school term

(c) Larger number of recitations and more personal instruction

(d) Better work in the higher branches

(e) More comfortable and sanitary buildings with modern equipment

(f) Broader and deeper school spirit

(g) Efficient supervision

(h) Thorough work in special branches as domestic science, manual training, music, agriculture etc.

(i) Better school officials

(j) Public pride in the schools

(k) Better teachers

(l) Economic management

(m) Superior quality of citizenship for the state and greater opportunity for the child

8 The town unit system has proved satisfactory in other states:

a Massachusetts returned to it after having alternated between it and the district system

b Iowa reports that "in counties where both the township and the district systems exist under the township plan" the management is much more efficient than in the same counties where either the sub-district or rural independent system prevails^h

c Connecticut which adopted the town plan in 1909 reports that "This law reduces administration to the simplest elements and fixes responsibility for the working of the school system. It has found complete justification in diminishing the multiplicity of agencies and offices in fixing legal authority to make timely material improvements and in giving teachers and children a better chance."ⁱ

In the light of the above facts and arguments, the Bureau of Municipal Research is firmly convinced that the repeal of the township law would be a serious mistake. It would deprive the State and local authorities of the opportunity to work out progressively a more economical, efficient and equitable distribution of the costs and benefits of education throughout the State.

Leaving aside, however, the arguments on the merits of the case, it must be apparent to even the most casual observer that a few months' test of a system cannot furnish a sound basis for final judgment. Repeal now would be condemnation without adequate trial — a violation of accepted principles of legislation.

^g Kentucky State Educational Report 1912-13, p. 367-403.

^h Quoted in U. S. Bureau of Education Bull. 1914, No 44.

ⁱ Connecticut State Educational Report, 1910.

The Bureau of Municipal Research therefore respectfully urges that your committee disapprove Assembly bill no. 26 (Senate number 307) on the ground, first, that the township system is fundamentally right and in line with recent educational advance, and, second, that no fair and just test of the law has been made.

The action of the Legislature in 1918 on the township question is given in detail in the transcripts of the proceedings as appear in the

Senate and Assembly documents of the 1918 session
1918

Intro. no. S. 5, pr. no. S. 440. Mr G. F. Thompson, "An act to repeal chapter 328, Laws of 1917."

Jan. 2

Read first time. By unanimous consent read second time. Referred to committee on public education.

Feb. 12

Mr G. F. Thompson moved that the committee on public education be discharged from the consideration of Senate bill (no. 5, int. no. 5) entitled "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, . . ." and that the said bill be amended, reprinted and recommitted to the committee on public education.

The president put the question whether the Senate would agree to said motion, and it was decided in the affirmative.

Feb. 19

Mr G. F. Thompson gave notice that at some future time he will move to suspend rules numbered 1, 4, 8, 11, 14, 16, 18, 22, 30 and 44, for the purpose of reading, passing and transmitting to the Assembly out of its regular order the Senate bill (int. no. 5, pr. no. 440) entitled "An act to repeal article eleven-a of the Education Law relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts."

March 6

Mr G. F. Thompson moved that the motion to discharge the committee on public education from further consideration of Senate bill (no. 440, int. no. 5) entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," to be made pursuant to a notice heretofore given to be made a special order in the order of reports of standing committees on Tuesday, March 19th.

March 19

Mr G. F. Thompson called up the notice heretofore given for the suspension of Senate rules in relation to Senate bill (no. 440, int. no. 5) entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and the certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," and moved to substitute the Assembly bill (no. 26, Senate reprint no. 1207, rec. no. 128) entitled "An act to

repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, entitled 'An act to amend the Education Law by creating town boards of education and providing for the support and maintenance of schools in towns,' and to amend the Education Law by providing for the administration and maintenance of schools in towns other than in certain union free districts, and relative to the apportionment of school moneys," in such notice.

The president put the question whether the Senate would agree to said motion, and it was decided in the affirmative. (New York Senate Journal, 1918, p. 11, 141, 201, 370.)

Intro. no. S. 17, pr. no. S. 17. Mr Slater, "An act to amend the Education Law in relation to town board of education."

Jan. 9

Read first and second times. Referred to committee on public education. (New York Senate Journal, 1917, v. 1, p. 14.)

Int. no. A. 26, pr. no. S. 1348. Mr Martin, "An act to repeal article eleven-a of the Education Law relating to town boards of education, and certain provisions of the chapter by which such article was added and to provide for the restoration of former conditions with respect to school districts."

Jan. 9

Read the first time. Referred to the committee on public education.

March 6

Mr Tallett from the committee on public education to which was referred Assembly bill introduced by Mr Martin (no. 26, int. no. 26), entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," reported in favor of the passage of the same, without amendment.

Those who voted in the affirmative were: Messrs Tallett, Harris, Welsh, Duke, Soule, Gage, Brink, Amos, Fitzgerald, Whitcomb, Donnelly, Link, Claessens, which report was agreed to, and said bill placed on the order of second reading.

March 7

Mr E. C. Davis (reported) from the committee on revision, to which was referred the bill, introduced by Mr Martin (no. 26, intro. no. 26), entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education and certain provisions of the chapter by which such article was added and to provide for the restoration of former conditions with respect to school districts."

Read the second time.

On motion of Mr Martin, said bill was placed in the order of third reading and referred to the committee on revision.

March 13

The bill (no. 26, int. no. 26) entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and certain

provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," having been announced.

Debate was had thereon, when Mr Martin moved the previous question.

Mr Speaker put the question, "Shall the main question be now put?" and it was determined in the affirmative.

Said bill was then read the third time, having been printed and upon the desks of the members in its final form at least three calendar legislative days prior to its final passage.

Mr Speaker put the question whether the House would agree to the final passage of said bill, and it was determined in the affirmative, a majority of all the members elected to the Assembly voting in favor thereof, and three-fifths being present.

Ayes 107, Noes 36

Those who voted in the affirmative were:

Adler	Gaylord	Prangen
Allen	Graham	Pratt
Alvord	Hager	Quackenbush
Ames, D. H.	Harris	Richford
Ames, H. L.	Hooper	Rowe
Amos	Jenks	Seaker

Ordered, That the clerk deliver said bill to the Senate and request their concurrence therein. (New York Assembly Journal, 1918, p. 27, 590, 638, 743-44.)

March 14

In the Senate—rec. no. 128.

Read first time. By unanimous consent read second time and referred to committee on public education.

March 19

Mr Lockwood, from the committee on public education, to which was referred the Assembly bill introduced by Mr Martin (no. 26, rec. no. 128) entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," reported in favor of the passage of the same, with amendments, the title being amended to read as follows:

"An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, entitled 'An act to amend the Education Law by creating town boards of education and providing for the support and maintenance of schools in towns,' and to amend the Education Law by providing for the administration and maintenance of schools in towns other than in certain union free school districts, and relative to the apportionment of school moneys," which report was agreed to, and said bill committed to the committee of the whole.

March 20

Mr Lockwood moved that the committee of the whole be discharged from the consideration of Assembly bill (no. 26, Senate reprint no. 1207, rec. no. 128) entitled "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, entitled 'An act to amend the Education Law by creating town boards of education and providing for the support and maintenance of schools in towns,' and to amend the Education Law by providing for the administration and maintenance of schools in towns other than in certain union free school districts, and

relative to the apportionment of school moneys," and that said bill be restored to its original form (Assembly bill no. 26, rec. no. 128) by striking out the Senate amendments, and recommitted to the committee on public education.

The president put the question whether the Senate would agree to said motion, and it was decided in the affirmative.

March 25

Mr Whitney moved that the committee on public education be discharged from the consideration of Assembly bill (no. 26, rec. no. 128) entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," and that the said bill be amended, reprinted and recommitted to the committee on public education.

The president put the question whether the Senate would agree to said motion, and it was decided in the affirmative.

April 3

Mr Lockwood, from the committee on public education, to which was referred the Assembly bill introduced by Mr Martin (no. 1348, rec. No. 128), entitled "An act to repeal article eleven-a of the Education Law relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," reported in favor of the passage of the same, which report was agreed to.

On motion of Mr Lockwood, and by unanimous consent, the rules were suspended and said bill ordered to a third reading.

The Assembly bill (no. 26, Senate reprint no. 1348, rec. no. 128) entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," was read the third time.

The President put the question whether the Senate would agree to the final passage of said bill, the same having been printed and upon the desks of the members in its final form for three calendar legislative days, and it was decided in the affirmative, a majority of all the Senators elected voting in favor thereof, and three-fifths being present, as follows:

For the affirmative

Argetsinger	Hill	Slater
Brown, A. P.	Knight	Stivers
Burlingame	Koenig	Thompson, G. F.
Carson	Lockwood	Thompson, G. L.
Cromwell	Marshall	Towner
Dunnigan	Mullan	Walters
Emerson	Murphy	Walton
Farrenkopf	Newton	Wellington
Fowler	Nicoll	Whitney
Gibbs	Ottinger	Wicks
Gilchrist	Ramsperger	Yelverton
Hewitt		

For the negative

Boylan	Dowling	Lawson	
Cotillo	Downing	Robinson	
Cullen	Foley	Wagner	9

Ordered, That the Clerk return said bill to the Assembly, with a message that the Senate has concurred in the passage of the same, with amendments.

(New York Senate Journal, 1918, v. 1 & 2, p. 541, 582, 684, 898, 909.)

April 8

The Senate returned the Assembly bill (no. 26, Senate reprint no. 1348, int. no. 26) entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts," with a message that they have concurred in the passage of the same, with the following amendments:

Page 2, line 25, strike out all after the period and insert "All acts or parts of acts, general or special, repealed by chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, are hereby re-enacted to take effect on August first nineteen hundred and eighteen."

Page 3, strike out all of lines 1 and 2 and all of line 3 down to and including the period.

Mr. Martin moved to concur in the Senate amendments.

Mr. Speaker put the question whether the House would concur in said amendments, said bill having been printed and upon the desks of the members in its final form at least three calendar legislative days prior to its final passage, and it was determined in the affirmative, a majority of all the members elected to the Assembly voting in favor thereof, and three-fifths being present.

Ordered, That the clerk return said bill to the Senate, with a message that the Assembly have concurred in the amendments of the Senate thereto. (New York Assembly Journal, 1918, p. 1764-65.)

April 9

The Assembly returned (to the Senate) (no. 26 Senate reprint no. 1348, rec. no. 128) entitled "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts."

Senate ordered clerk to return said bill to Assembly. (Senate Journal, 1918, v. 2, p. 1105).

April 10

The Senate returned the Assembly bill (no. 26, Senate reprint 1348, int. no. 26) entitled, "An act to repeal article eleven-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts."

Ordered, That the clerk deliver said bill to the Governor. (New York Assembly Journal, 1918, p. 2034.)

April 13

Approved. Chapter 100. (New York Legislative Index, 1918, p. 146.)

Int. no. A. 73, pr. no. A. 73. Mr Franchot, "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and

seventeen, entitled 'An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns.'"

January 16

Read first time. Referred to the committee on public education.

Int. no. A. 125, pr. no. 125. Mr Gaffers. "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, entitled 'An act to amend the Education Law by creating town boards of education and providing for the support and maintenance of schools in towns and revising the district and union free school systems.'"

January 18

Read the first time and referred to the committee on public education. (New York Assembly Journal, 1918, p. 45, 60.)

Int. no. S. 307, pr. no. S. 322. Mr. Wicks, "An act to repeal article eleven-a of the Education Law, relating to town boards of education and certain provisions of the chapter by which such article was added and to provide for the restoration of former conditions with respect to school districts."

Feb. 5

Read first time. By unanimous consent read second time and referred to committee on public education. (New York Senate Journal, 1918, v. 1, p. 95.)

Int. no. S. 475, pr. no. S. 521. Mr Lockwood, "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen"

Feb. 15

Read first time. Referred to committee on public education. (New York Senate Journal, 1918, v. 1, p. 169-70.)

Int. no. A. 574, pr. no. A. 620. Mr Malone.

Feb. 15

By unanimous consent, Mr Malone by request introduced a bill entitled "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, entitled 'An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns,' and to amend the Education Law by providing for the administration and maintenance of rural schools" (int. no. 574), which was read the first time and referred to the committee on public education. (New York Assembly Journal, 1918, p. 285.)

Int. no. A. 666, pr. no. A. 736. Mr. J. M. Mead, "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen"

Feb. 20

Read first time. Referred to committee on public education. (New York Assembly Journal, 1918, p. 341.)

Intro. no. S. 953, pr. no. S. 1212. By education committee, "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, entitled 'An act to amend the Education Law, by creating town boards of education and providing for the support and

maintenance of schools in towns' and to amend the Education Law by providing for the administration and maintenance of schools in towns other than in certain union free school districts and relative to the apportionment of school moneys."

March 18

Read the first time and referred to committee on public education.

March 20

Mr Lockwood moved that the committee on public education be discharged from the consideration of Senate bill (no. 1175, int no. 953) entitled "An act to repeal chapter three hundred and twenty-eight of the Laws of nineteen hundred and seventeen, entitled 'An act to amend the Education Law by creating town boards of education and providing for the support and maintenance of schools in towns,' and to amend the Education Law by providing for the administration and maintenance of schools in towns other than in certain union free school districts, and relative to the apportionment of school moneys," and that the said bill be amended, the title being amended to read as follows:

"An act to amend the Education Law, by providing for the administration and maintenance of schools in towns other than certain union free school district, and relative to the apportionment of school moneys," and that the same be reprinted and recommitted to the committee on public education.

The president put the question whether the Senate would agree to said motion and, it was decided in the affirmative.

March 26

Mr. Lockwood, from the committee on public education, to which was referred the Senate bill introduced by committee on public education (no. 1212, int. no. 953) entitled "An act to amend the Education Law by providing for the administration and maintenance of schools in towns other than certain union free school districts, and relative to the apportionment of school moneys," reported in favor of the passage of the same, which report was agreed to, and said bill committed to the committee of the whole. (New York Journal, 1918, v. 1, p. 512, 585, 701-2.)

April 2

The committee on rules reported the following, namely, that Senate bill (pr. no. 1212, int. no. 953) entitled "An act to amend the Education Law by providing for the administration and maintenance of schools in towns other than certain union free school districts, and relative to the apportionment of school moneys," with amendments, if any, be taken up forthwith in the Senate, be advanced to the order of third reading and be and continue the pending order of business, superseding and taking precedence over all other orders until the vote of the Senate upon the final passage thereon be taken; that debate thereon, including debate upon all amendments or motions offered for the purpose of amendments and every question arising pending its consideration, be limited to not exceeding one hour, not more than one-half of such time to the members of the majority and not more than one-half to the members of the minority; that at the expiration of such debate, the vote of the Senate shall be forthwith taken upon the final passage of the bill and the amendments offered thereto, if any, then pending; that no motion shall be entertained except for the purpose

of amendment or call of the Senate and but one motion to adjourn shall be entertained and then only upon the recognition of the temporary president for such purpose; that in case a motion to adjourn is carried, the measure at that time under consideration together with the proposed amendments shall be the pending order of business when the Senate shall again convene and shall be taken up and continued as though no adjournment of the Senate had intervened and no additional time shall be allowed for debate thereon and the consideration of the measure shall be continued to the vote of the Senate on its final passage.

Debate on the adoption of this report shall not exceed one hour, not more than one-half to the members of the majority, and not more than one-half to the members of the minority, if desired.

That any and all rules of the Senate inconsistent with this rule be and they are hereby suspended until the vote of the Senate on its final passage.

The president put the question whether the Senate would agree to said report, and it was decided in the affirmative.

Following the debate upon the adoption of said report, Mr E. R. Brown moved that the Senate do now adjourn, and that when the Senate reconvenes, the said report shall be the pending order of business immediately following the reading of the journal.

The president put the question whether the Senate would agree to said motion, and it was decided in the affirmative.

April 3

The president stated the pending question to be the report of the committee on rules in relation to Senate bill (no. 1212, int. no. 953) entitled "An act to amend the Education Law by providing for the administration and maintenance of schools in towns other than certain union free school districts, and relative to the apportionment of school moneys," which was under consideration by the Senate at the time of adjournment on Tuesday, April 2d.

The president put the question whether the Senate would agree to said report, and it was decided in the affirmative.

On motion of Mr E. R. Brown, and by unanimous consent, the rules were suspended and said bill ordered to a third reading.

Said bill was read the third time.

The president put the question whether the Senate would agree to the final passage of said bill, the same having been printed and upon the desks of the members in its final form for three calendar legislative days, and it was decided in the affirmative, a majority of all the Senators elected voting in favor thereof, and three-fifths being present as follows:

For the Affirmative

Boylan	Foley	Ottinger
Brown, E. R.	Gibbs	Robinson
Cotillo	Koenig	Sage
Cullen	Lawson	Sheridan
Dowling	Lockwood	Slater
Downing	Marshall	Stivers
Dunnigan	Murphy	Wagner
Emerson	Newton	Walker

Gilchrist	Thompson, G. L.	Yelverton	18

Ordered, That the clerk deliver said bill to the Assembly and request their concurrence therein. New York Senate Journal, 1918, v. 2, p. 875-6, 906-7.)

April 4

In Assembly. Rec. no. 315. To education committee. (New York Legislative Index, 1918, p. 109.)

No. 521

Int. 475

In Senate

Introduced by Mr. LOCKWOOD—read twice and ordered printed, and when printed to be committed to the committee on public education.

An act to repeal chapter 328 of the Laws of 1917, entitled "An act to amend the Educational Law, by creating town boards of education and providing for the support and maintenance of schools in towns," and to amend the Education Law by providing for the administration and maintenance of rural schools.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1 Chapter 328 of the Laws of 1917, entitled "An act to amend the Education Law by creating town boards of education and providing for the support and maintenance of schools in towns," is hereby repealed.

§ 2 Chapter 21 of the Laws of 1909, entitled "An act relating to education, constituting chapter 16 of the Consolidated Laws," as amended by chapter 140 of the Laws of 1910, is hereby amended by inserting therein a new article, to be known as article eleven-a, and to read as follows:

Article XI-A

- 360 Conduct of school meetings

§ 330 Rural schools. All public schools maintained in a town except those maintained in a union free school district in which an academic department had been lawfully established on or before the second day of May 1917, shall be known as rural schools.

§ 331 Rural school districts established. 1 The several school districts in a town, except union free school districts in which academic departments were maintained on or before the second day of May, 1917, shall constitute a rural school district and shall be known as rural school district No.— of the town of ———.

2 A rural school district in which there are twelve or more school districts may be divided into two or more rural school districts, but in no such case shall a rural school district contain less than five school districts, and such districts shall be contiguous. At any annual meeting of a rural school district or at a special meeting called for the purpose, a resolution may be adopted by a majority vote of the qualified electors present at such meeting, dividing such rural school district into two or more rural school districts. Such resolution shall specify and designate the school districts to be included in each of such school districts. If such a resolution be adopted, a certified copy of it shall be transmitted by the clerk of the meeting to the district superintendent of schools, who shall thereupon make an order describing such rural school districts and designating them by number. Such order shall be executed in duplicate, one of which shall be filed in the office of the town clerk of the town and one transmitted to the Commissioner of Education. Upon the execution of such order such rural school districts shall be established as described therein.

§ 332 School districts continued. 1 Each school district in the State is hereby continued as such district exists at the time this act goes into effect or until its boundaries are modified as provided in this chapter.

2 No order consolidating two or more school districts shall be effective until such order is approved by a majority vote of the town board of education of the town or towns in which such districts are located, and by a majority vote of the qualified electors of each district present and voting at a meeting of the districts consolidated by said order.

§ 333 **Board of education of rural school district.** 1 Each school district within a rural school district shall hold an annual school meeting on the first Tuesday in May at seven-thirty post meridian for the purpose of electing a trustee who shall serve for one year from the first day of August following his election. The provisions of section 227 of this chapter shall apply to and regulate such election.

2 The trustees of the several school districts within a rural school district shall constitute the board of education of such rural school district.

§ 334 **Qualifications of members of board of education.** A member of a board of education of a rural school district must be a qualified elector at the school meetings of the district for which he is chosen. A district superintendent of schools, or a supervisor of a town shall not be eligible to the office of member of a board of education. Not more than one member of a family shall be a member of the same board of education. A person who is removed from his office as a member of a board of education shall be ineligible to appointment or election to any school office in the district for a period of five years from the date of such removal.

§ 335 **Appointment of officers by board.** The board of education of each rural school district shall elect one of its members chairman who shall serve until the next annual meeting of the board, and shall also appoint a clerk of the board and a school treasurer who may be a member of the board or a teacher employed in the public schools of the district. Such clerk and treasurer shall serve during the pleasure of the board. Any person who is qualified to vote at a school meeting in the district may be appointed as clerk or treasurer. The board shall determine the duties and fix the compensation of such clerk and treasurer.

§ 336 **Bond of treasurer.** The treasurer, within ten days after the receipt of notice in writing of his appointment, duly served upon him, and before entering upon the duties of his office, shall execute and deliver to the board of education a bond, in a sum to be prescribed by the board and with sureties to be approved by it, conditioned for the faithful discharge of the duties of his office.

§ 337 **Vacancies in school offices.** 1 A school office becomes vacant by death, resignation, refusal to serve, incapacity, removal from the district or from office.

2 A member of a board of education who publicly declares that he will not accept or serve in the office of member of the board of education, or refuses or neglects to attend three successive meetings of the board of which he is duly notified, without rendering a good and valid reason therefor to the board of education, vacates his office by refusal to serve.

3 A member of a board of education vacates his office by the acceptance of either the office of district superintendent of schools or of supervisor of the town.

4 A treasurer vacates his office by failure to execute a bond to the board of education as herein required.

5 A vacancy in the office of member of a board of education may be filled by the board. A person appointed to fill such vacancy shall hold office until the next annual school meeting of the rural school district, when such vacancy shall be filled by election for the balance of the unexpired term.

6 When a vacancy has existed in the office of a member of a board of education for thirty days, the district superintendent of schools shall appoint a person qualified to vote at school meetings in the district to fill such vacancy and the person so appointed shall hold office until the next annual school meeting of the district, when the vacancy shall be filled for the balance of the unexpired term.

§ 338 **Board to constitute a body corporate.** The board of education of each rural school district shall be a corporation. All property which is now vested in, or shall be hereafter transferred to, the board of education of a rural district for the use of schools therein shall be held by such board as a corporation.

§ 339 **Meetings of board.** The first annual meeting of a board of education of a rural school district, established as herein provided, shall be held on the first Tuesday in July, 1918. The annual meeting of a board of education of such district in each year thereafter shall be held on the first Tuesday in August of each year. A regular meeting of the board shall be held at least once in each quarter. The board may adopt by-laws prescribing the time and place where regular meetings shall be held, and regulate the conduct of such meetings. Such board shall also prescribe a method of calling special meetings. The meetings of the board shall be open to the public but the board may hold executive sessions at which business may be transacted which should not, in its judgment, be transacted in an open session, at which sessions only members of the board or persons invited shall be present.

§ 340 **Duties of clerk.** The clerk of the board of education shall have the powers and perform the duties of the clerk of a school district as provided in this chapter. In addition to such powers and duties, such clerk shall

1 Act as clerk at all meetings of the board and record the proceedings of such meetings, and the orders and resolutions adopted thereat, in proper books.

2 Draw and sign warrants upon the treasurer for all moneys to be disbursed by the district for school purposes and present them to the chairman to be countersigned by that officer. Each warrant shall specify the object for which it is drawn, the fund from which it is payable and the name of the individual or corporation to whom the amount thereof is payable.

3 When directed by the board of education, prepare all reports required by law and forward the same to the proper officers.

4 Perform such other duties as are or shall be required by law or by the board of education,

§ 341 Duties of treasurer. The treasurer shall have the powers and perform the duties of a district treasurer as provided in this chapter, and in addition thereto shall

1 Be the custodian of all school moneys of the rural school district and be responsible for the safekeeping and accurate account thereof.

2 Pay all orders or warrants lawfully drawn upon him out of the moneys in his hands belonging to the funds upon which such orders or warrants are drawn.

3 Keep accurate accounts of all moneys received and disbursed by him, the sources from which they are received and the persons to whom, and the objects for which, they are disbursed.

4 Prepare and submit as required by law annual reports of receipts and disbursements, and render at such times as may be required by law or directed by the board of education, a report or statement relative to the school funds of the town.

§ 342 Powers of board of education. The board of education of each rural school district shall, in respect to the public schools and school officers of the town,

1 Exercise the powers and perform the duties conferred or imposed by law upon boards of education or trustees of school districts, so far as they may be applicable to the schools or other educational affairs of the district and not inconsistent with the provisions of this article. Any power, duty, liability or obligation which is conferred or imposed by this chapter, or any other statute, upon the board of education of a union free school district or the trustees of a school district, shall be exercised or performed by the board of education, and such board shall be subject to such liability or obligation, in respect to the schools in the rural school district, in the same manner and to the same extent as in the case of boards of education in union free school districts or trustees of school districts.

2 Maintain a school in each of the school districts within the rural school district; determine the number of teachers to be employed in each of such schools and contract with principals and teachers for the maintenance and operation of such schools pursuant to the provisions of this chapter; employ or appoint medical inspectors, nurses, attendance officers, janitors and other employees required for the proper and efficient management of the schools and other educational affairs under their direction and control.

3 Provide transportation when necessary for children attending school, under regulations to be prescribed by it.

4 Have the care, custody, control and safekeeping of all school property or other property of the rural school district used for educational, social or recreational work and not specifically placed by law under the control of some other body or officer, and prescribe rules and regulations for the preservation of such property.

5 Purchase and furnish such apparatus, maps, globes, books, reproductions of standard works of art, furniture and other equipment and supplies as may be necessary for the proper and efficient management of the schools.

6 Establish and maintain elementary schools, high schools, vocational, industrial, agricultural and homemaking schools or classes, night schools, or such other schools and classes as shall be deemed necessary to meet the needs and demands of the rural school district.

7 Provide for the academic instruction of all pupils residing in such rural school district, who have completed the elementary courses of instruction in the schools in such district, in the academic department or high school of another rural school district, union free school district or city, if the rural school district in which such pupils reside does not maintain a high school or academic department.

8 Establish and maintain school libraries which may be open to the public as provided by law.

9 Prescribe courses of study which shall be followed in the schools or classes established and maintained in the rural school district.

10 Contract with boards of education of other rural school districts, and of union free school districts and cities for the instruction of pupils of the rural school district, and when any such contract is made the public money or state tuition apportioned for such instruction shall be paid to such rural school district.

11 To designate a repository wherein the funds of the district shall be deposited.

§ 343 Schools to be free. Each school maintained in a rural school district under the supervision and control of a board of education in such district, and each department of such school and each course of study maintained therein, shall be free to the children of school age residing in such district.

§ 344 Transfer of pupils. Where pupils of school age residing in a rural school district may be more conveniently instructed in the school or schools of an adjacent rural school district, or of a union free school district or city, the board of education of such rural school district may provide for the transfer of such pupils to the school or schools in such adjacent town or an adjacent union free school district or city. The board of education making such transfer shall send notice thereof to the board of education of the rural school district, union free school district or city to which it is proposed to transfer such pupils, and provisions shall thereupon be made by the board of education of the rural school district, union free school district or city wherein such pupils are to be instructed, for the accommodation of such pupils, upon the approval of the Commissioner of Education. The Commissioner of Education shall not approve the transfer of such pupils, when such action shall require the rural school district, union free school district or city receiving such pupils to provide additional teachers or other school accommodations, without the consent of the board of education of such district or city. Whenever pupils have been transferred as herein provided, the board of education of the rural school district, union free school district

or city to which the transfer is made shall submit, through its chairman and clerk, to the board of education of the rural school district where the pupils reside, a verified statement of the cost of the instruction of such pupils. The cost of the instruction of such pupils and, in case of academic pupils the cost in excess of the state tuition allowed for their instruction, shall be a charge against the rural school district wherein such pupils reside, and the board of education thereof shall direct the payment of the cost of such instruction out of the school funds of such district, in the same manner as other charges upon such funds are paid.

The amount charged for such instruction may be determined by agreement between the board of education of the rural school district wherein the pupils reside and the board of education of the rural school district, union free school district or city in which such pupils are to be instructed, or if such boards are unable to make such agreement the matter shall be referred to the commissioner of education for determination; and in making such determination the per capita cost of the instruction of the pupils of the rural school district, village or city to which such pupils have been transferred may be used as a basis.

§ 345 **Schoolhouse sites.** The board of education of a rural school district, whenever in its judgment it is necessary for the interest of the schools of the district, may designate a new site for the schoolhouse, or enlarge the site of an existing schoolhouse. Whenever a new site is designated, or an existing site is enlarged, the board shall pass a resolution stating the necessity therefor, describing by metes and bounds the land to be acquired for either of such purposes, and estimating the amount of funds necessary therefor. Such resolution must be adopted by the votes of at least a majority of the members of the board of education. When such resolution is adopted the land described therein may be acquired by the board of education in the manner provided by law for the acquisition of real property for school purposes.

§ 346 **Erection, repair and improvement of school buildings.** The board of education of a rural school district shall provide for the repair of such buildings therein, or other buildings under its control and management, and shall expend therefor an amount not exceeding the amount included in the annual school tax budget. The board may also remodel, enlarge or improve such school buildings or other buildings under its control and management, and may construct new buildings, whenever required, for the proper accommodation of the school children of the district. The board of education shall not expend in any one year for the remodeling, improvement or enlargement of existing school buildings or for the construction of new buildings an aggregate amount in excess of one-half of one per centum of the assessed valuation of the rural school district and in no case an amount in the aggregate in excess of two thousand five hundred dollars without a vote of the school meeting of the district, except as hereinafter provided.

§ 347 **Annual school budget.** 1 On or before the first day of July in each year the board of education shall prepare in triplicate an itemized tax budget containing the amounts required to be raised by tax for school

purposes in the rural school district for the ensuing school year. Such tax budget shall contain a statement of the probable amount to be received by the district in the next apportionment of school funds from the state and the estimated amount to be received from all other sources, and shall specify the several amounts to be raised for the following purposes:

a The salaries and compensation of principals, teachers, medical inspectors, nurses, attendance officers, janitors and other employees appointed or employed by said board of education.

b The cost of instruction of pupils residing in the district who are to be instructed in the schools of another town or in a union free school district or city.

c All necessary incidental and contingent expenses of the schools of the district, including transportation, the purchase of fuel and light, supplies, textbooks, school apparatus, furniture and other articles and services necessary for the proper maintenance, operation and support of the schools of the district.

d The ordinary repairs of school buildings and other buildings under its control and management.

e The remodeling, improvement or enlargement of existing buildings, and the construction of new buildings and the furnishing and equipment thereof.

f The amount required to be raised for the payment of the interest and principal of bonds and other indebtedness lawfully incurred or to be incurred for school purposes and which are a charge against the district.

g The amount which may be required for the payment of any other claim against the district arising from the support and maintenance of the schools therein.

h The amount voted at the annual or a special school meeting in the district on a proposition or question lawfully submitted at such meeting.

i The amount determined upon as the proportionate share of the cost of maintaining a school in a district partly in two or more towns, required to be paid by said board.

2 A written or printed copy of such budget shall be posted in at least five of the most public places in the town at least twenty days before the first day of August. The board may cause such budget to be published at length once in each week for the four weeks next preceding the first day of August, in two newspapers if there shall be two, or in one newspaper if there shall be but one, published or circulated in such rural school district.

3 Such tax budget shall be signed in triplicate by a majority of the members of the board of education. On or before the first day of September such triplicate tax budgets shall be filed as follows: one in the office of the clerk of the board of education, one in the office of the clerk of the town, and one shall be delivered by the clerk of the board to the supervisor of the town.

4 The board of education of a rural school district may, in the manner herein provided, prepare a supplemental budget to raise money for any lawful purpose.

a When authorized by a vote of an annual or special school meeting in the district.

b When the amounts stated in the annual tax budget for the purposes specified are insufficient therefor and such amounts may be raised by tax without a vote of a school meeting in the district.

Such supplemental budget shall not authorize the levy of a tax for the purposes therein specified, or be effectual for any purpose unless there shall be endorsed thereon the certificate of the district superintendent of the supervisory district in which such district is situated, to the effect that the purposes for which the amount therein specified is to be raised are lawful. Such supplemental tax budget shall be prepared in the same manner and filed with the same officers as the annual tax budget. The clerk of the board of education shall deliver such supplemental budget to the supervisor of the town.

5 The Commissioner of Education may prescribe the form of such budget. He may adopt regulations not inconsistent with law, providing for the examination, review, correction and the modification of such budgets and the instruction and assistance of school authorities in the performance of duties in respect thereto.

6 District superintendents shall, during the month of August in each year, examine the tax budgets on file in the office of each clerk of the board of education of each town in his supervisory district, and shall advise with and aid boards of education in the preparation and correction of such budgets, and perform such other duties in respect thereto as may be prescribed by the Commissioner of Education.

§ 348 Property subject to taxation; levy and collection of taxes. The taxable property in a rural school district shall be subject to taxation for school purposes in the town in which it is located, and the tax imposed on such property for school purposes shall be assessed against such property on the town assessment roll of such town. If a school district included within a rural school district, as constituted by this article, is in two or more towns, the taxable property of that portion of such school district which is in each town shall be assessed and taxed in such town for school purposes.

The supervisor of the town shall cause the school tax budget and supplemental tax budget, if any, to be presented to the board of supervisors at its annual meeting, and the amount specified therein shall be levied against the taxable property of the town which is subject to tax for school purposes as herein provided, in the same manner as other taxes are levied against the taxable property of the town. The board of supervisors shall provide for the collection of the tax so levied at the same time and in the same manner as other town taxes are collected, and the warrant issued to the collector shall direct the payment of the tax so collected to the treasurer of the rural school district.

§ 349 Maintenance of school in school district in two or more towns. The school in a district which is located in two or more towns shall be maintained at the expense of the rural school district of the town in which the schoolhouse is situated. The pupils residing in such school district in a

town other than that in which the schoolhouse is located shall be entitled to attend the school in such school district, and there shall be charged against the rural school district of the town in which such pupils reside the proportionate cost of the maintenance of such school based upon the number of pupils in attendance from the portion of such school district situated in such town. The board of education of the rural school district of the town in which such pupils reside shall include in its tax budget the amount required to be paid for the cost of such maintenance as herein provided, and such amount shall be paid by the board of education of such rural school district to the board of education of the rural school district maintaining such school.

§ 350 Borrowing money in anticipation of collection of taxes. The board of education of a rural school district may borrow money in anticipation of the levy and collection of a tax, for any of the purposes specified in a budget or supplemental budget filed with the clerk of the board of education and presented to the supervisor of the town as herein provided. Certificates of indebtedness may be issued by such board of education which shall be signed by the president of the board and countersigned by the treasurer thereof. Such certificate shall not be issued for more than one year from the date thereof, and shall bear interest at a rate not exceeding six per centum per annum. The money borrowed shall be placed in the custody of the treasurer and shall be paid out by him on the order of the board of education in the same manner as money collected by taxes levied against the taxable property of the town.

§ 351 Submission of certain questions to a vote of the district. 1 Whenever the board of education of a rural school district shall deem it necessary to expend an amount exceeding the sum of two thousand and five hundred dollars for the repair, remodeling, improvement or enlargement of existing school buildings or the construction of a new school building it shall submit a proposition therefore to a vote of the qualified school electors of the district at either an annual school meeting of the district or a special school meeting called for such purpose.

2 If a school building in the rural school district shall have been condemned by the district superintendent as unfit for use and not worth repairing and the amount required to be raised by tax therefor shall exceed the sum of two thousand and five hundred dollars the board of education shall submit a proposition for the construction of such new building to the qualified school electors of the district as above provided. If the amount to be raised for the erection of a new building in place of a building which has been condemned is less than two thousand and five hundred dollars the amount thereof shall be included in the annual school tax budget of the district. Except as herein provided the board of education of a rural school district shall be subject to the same powers and duties in relation to the erection of a new schoolhouse when the schoolhouse in a district in such district has been condemned, which are imposed upon trustees of school districts under the provisions of the education law.

3 The board of education of rural a school district may in its discretion submit a proposition to the qualified electors of the district at an annual

or special school meeting for the voting of a tax in an amount not less than one thousand dollars for the erection of a new building, the repair, remodeling, improvement or enlargement of an existing building, the purchase of a new site or of an addition to an existing site.

4 When the electors at a school meeting in a rural school district adopt a proposition for any of the purposes specified in this section they may direct the levy of a tax to meet the expense incurred thereby either in one levy or by instalments.

5 The provisions of section 467 of this chapter relative to the notice of the meeting and the levy of a tax by instalments in a union free school district shall apply, except when inconsistent with this act, to the submission of the propositions herein authorized and the levy and collection of taxes for the purposes specified.

§ 352 **Issue and sale of school bonds.** Whenever a tax shall have been voted to be collected in installments for any of the purposes specified in the preceding section the board of education of the rural school district may borrow so much of the sum voted as may be necessary at a rate not exceeding six per centum per annum. The board may issue bonds or other evidences of indebtedness for such purposes which shall not be sold below par. The interest and principal of such bonds or other evidences of indebtedness shall be a charge upon the rural school district and shall be paid when due. Such bonds or other evidences of indebtedness shall be sold by the board of education in the manner provided by section 48 of this chapter.

§ 353 **State funds to be used for schools of rural school districts.** There shall be apportioned to each rural school district, out of public moneys to be apportioned by the State, a district quota for each school district included within such rural school district, based upon the assessed valuation of the taxable property of such district as it exists when this act takes effect. Each rural school district shall receive other public moneys apportioned by the state under the provisions of this chapter, in the same manner and of the same amount as school districts are entitled to receive out of such moneys under such provisions. The funds hereafter apportioned to a rural school district as herein provided shall be paid by the county treasurer to the school treasurer of such district. Funds apportioned for teachers' salaries shall be paid on the order of the board of education of the rural school district for the payment of the salaries of teachers employed therein, and funds apportioned for school libraries, apparatus, maps or works of art, shall be paid respectively in like manner for school libraries, apparatus, maps or works of art, in such rural school district.

All public school moneys apportioned under the provisions of this chapter on account of schools maintained in districts during the school year ending July 31, 1918, in school districts included within a rural school district as herein established, shall be paid by the county treasurer to the treasurer of such rural school district. All school moneys so apportioned on account of schools maintained in a union free school district maintaining an academic department, which prior to the taking effect of this

act was included in a town or town school unit as then constituted, shall be paid to the treasurer of such union free school district.

§ 354 Certain union free school districts not subject to provisions of article. This article shall not apply to a union free school district maintaining an academic department. School districts which, under the provisions of this section, are exempt from the provisions of this act shall continue to be subject to and regulated by the provisions of law which now regulate and control the affairs of such districts.

A union free school district maintaining an academic department which prior to the taking effect of this act was subject to the provisions of this article, shall, on and after the taking effect of this act, be subject to and regulated by the provisions of this chapter relative to union free school districts. An annual school meeting shall be held in each of such districts on the first Tuesday in May, 1918, and there shall be elected at such meeting a board of education to consist of not less than three nor more than nine trustees. Such trustees shall by order of such meeting be divided into three classes, the first to hold for terms of one year, the second for terms of two years and the third for terms of three years, from the first day of August, 1918. Their successors shall be elected for terms of three years. The provisions of this chapter relative to the election of trustees in union free school districts shall apply to the election of trustees at such annual meeting. The trustees so elected and their successors in office in each of such union free school districts constitute the board of education thereof. The annual meeting held in each of such districts as herein provided shall have the same powers and duties as annual meetings held in union free school districts under the provisions of this chapter.

§ 355 School district officers abolished; apportionment of funds and indebtedness. 1 All members of boards of education and other school officers of towns and town school units in office when this act takes effect shall continue in office to and including the thirty-first day of July, 1918, when the officers or members of boards of education, clerks, treasurers and other school district officers of such towns and town school units shall be and are hereby abolished and the terms of such officers shall cease except as herein provided.

2 The board of education of a union free school district maintaining an academic department which prior to the taking effect of this act was subject to the provisions of this article as added by chapter 328 of the Laws of 1917, shall take effect on July 1, 1918, and on and after that date such board shall possess the powers and perform the duties conferred or imposed upon boards of education of union free school districts under this chapter.

3 The board of education of a town or town school unit in office when this act takes effect shall cause to be prepared an itemized account of the receipts from all sources for the support of the schools in such town or town school unit and of the expenditures of such moneys, and cause the same to be submitted to the board of education of the rural school district and a duplicate thereof to the board of education of a union free school district maintaining an academic department which, prior to the tak-

ing effect of this act, was included within such town or town school unit. A copy of such account shall also be submitted to the district superintendent of schools having jurisdiction over such districts. The district superintendent shall examine carefully such account, and if he finds the same accurate he shall approve it and notify the boards of education of such districts that he has approved the same. If it appears from such account as so approved that a balance unexpended remains in the hands of the school treasurer of such town or town school unit, such balance shall be apportioned to the rural school district and the union free school district which was formerly a part of such town school unit, according to the assessed valuation of the taxable property in such rural school district and union free school district. If it appear from such account that there are outstanding obligations or claims against the town or town school unit, except bonded indebtedness, incurred because of the maintenance of the schools in such town or town school unit during the preceding year, the amount of such deficiency or outstanding obligations and claims shall be charged proportionately against such rural school and union free school district, based upon the assessed valuation of the taxable property in such districts. The boards of education of such rural school district and union free school district shall cause the amount of such deficiency or outstanding obligations and claim so apportioned to each district to be included in the school tax budget thereof, and the amount raised by tax on account of such apportionment shall be paid out in liquidation of such outstanding obligations and claims.

§ 356 **Outstanding bonds; existing school property.** 1 The bonded indebtedness of the school districts in a rural school district which are subject to the provisions of this article, existing and outstanding at the time of the taking effect of this article, shall continue as a charge against the taxable property of such district, and the board of education of the town school unit in which such district is situated shall at the time it submits its annual tax budget to the supervisor of the town as provided in section of this article, present to such supervisor a certificate stating the amount of the principal and interest of such bonded indebtedness falling due during the school year. Such certificate shall designate the district against which such bonded indebtedness exists and shall describe definitely the boundaries of such district. The supervisor of the town shall present such certificate to the board of supervisors at the same time as the annual school tax budget of the town is presented, and it shall be the duty of such board of supervisors to levy a tax, in the same manner and at the same time as other school taxes are levied, against the property within the limits of such district. The tax levied for the purpose of paying the principal and interest of such bonds shall be collected in the same manner as other school taxes in such town and shall be paid when collected to the town school treasurer of the town in which such district is situated, to be applied by him in the payment of such principal and interest. If such district is partly in two or more towns, the certificate shall state such fact and shall be prepared by the town board of the town in which the principal school house in such district is located, and such certificate shall be submitted to the supervisor of the town in which such school house is located.

2 If a board of education of a town or a town school unit which prior to the taking effect of this act included a union free school district maintaining an academic department, provided for the levy and collection of a tax upon the property of such town or town school unit for the payment of the principal and interest of any bonded indebtedness existing against such union free school district, under section 353 of the Education Law as inserted by chapter 328 of the Laws of 1917, the amount of such tax collected for such purpose shall be applied in payment of the principal and interest of such bonded indebtedness falling due prior to the taking effect of this act. On and after the taking effect of this act the bonded indebtedness existing and outstanding against such union free school district shall be a charge against the taxable property of such district and shall be paid in the same manner as other charges against such district.

3 All school property in a union free school district maintaining an academic department, included within a town or town school unit under the provisions of chapter 328 of the Laws of 1917, which under that act became the property of such town or town school unit and within the custody and control of the board of education thereof, shall, on and after the taking effect of this act, become the property of such union free school district.

§ 357 Notice of annual school meeting. The clerk of each board of education shall give notice of the time when and the places where the annual school district meeting is to be held, by posting such notice on the door of the schoolhouse in each district and in at least three other public places in each of such districts, at least twenty days before the time of such meeting.

§ 358 Special school meetings in rural school districts. The board of education of each rural school district shall have power to call a special meeting of the qualified electors of the district, whenever it deems necessary and proper, and whenever required by law, in the manner prescribed for the giving of a notice of the annual meeting. Such special meeting shall be held at a schoolhouse designated by the board of education.

§ 359 Qualifications of voters at school meetings. To be eligible to vote at annual or special school meetings a person must be a resident of a school district included within the rural school district, established as herein provided, and possess the other qualifications prescribed in section 203 of this chapter.

2 In a school district located in two or more towns, those persons possessing the qualifications required under subdivision 1 of this section shall be entitled to vote at annual or special school meetings in the rural school district of the town in which they reside.

§ 360 Conduct of school meetings. 1 The provisions of this chapter relative to the conduct of annual and special school meetings in school districts shall apply to annual and special school meetings held in rural school districts, except as otherwise provided in this article.

§ 3 All acts or parts of acts, general or special, inconsistent with the provisions of this act are hereby repealed. The repeal of chapter 328 of the Laws of 1917 and of such inconsistent acts or parts of such acts shall not affect any right existing or accrued, or any liability incurred prior to the

passage of this act. This act shall not affect a pending action or proceeding brought by or against a trustee, trustees or a board of education of a school district, prior to the taking effect of chapter 328 of the Laws of 1917, but the same may be prosecuted or defended in the same manner and for the same purpose, by the board of education of the rural school district of which such district forms a part, as though this act had not been passed. Any action or proceeding brought by or against the board of education of a town or a town school unit under or pursuant to the provisions of said chapter 328 of the Laws of 1917, pending at the time this act takes effect, may, if such action or proceeding pertains to a school district included within a rural school district as established herein, be prosecuted or defended in the same manner and for the same purpose by the board of education of such rural district as though this act had not been passed. If such action or proceeding brought by or against the board of education of a town or a town school unit, under and pursuant to such chapter 328 of the Laws of 1917, pertains to a union free school district maintaining an academic department, such action or proceeding may be prosecuted or defended by the board of education of such union free school district in the same manner and for the same purpose as though this act had not been passed. All contracts entered into by a trustee, trustees or the board of education of a school district prior to the taking effect of this act, under and pursuant to the provisions of the Education Law or of said chapter 328 of the Laws of 1917, shall, if such contract pertains to a district included within a rural school district as established by this act, be carried into effect according to the terms thereof by the board of education of the rural school district, or if such contract pertains to a union free school district maintaining an academic department, it shall be carried into effect according to the terms thereof by the board of education of the union free school district, in the same manner and for the same purpose as though this act had not been passed. Any right, existing or accrued, or any liability incurred, prior to the passage of this act, by a trustee, trustees, or board of education of a school district, included within a rural school district as established by this act, may be asserted and enforced by or against the board of education of the rural school district of which such school district forms a part, in the same manner and to the same extent as though this act had not been passed. Any such right or liability accrued or incurred prior to the passage of this act by the board of education of a union free school district maintaining an academic department, or in behalf or on account of such district by the board of education of a town or a town school unit, under and pursuant to chapter 328 of the Laws of 1917, may be asserted and enforced by or against the board of education of such union free school district, in the same manner and to the same extent as though this act had not been passed.

§ 4 Sections 340 and 341 of the Education Law are hereby renumbered sections 364 and 365; sections 360, 361, 362, 363, 364 and 365 of such law are hereby renumbered respectively sections 370, 371, 372, 373, 374 and 375.

§ 5 This act shall take effect July 1, 1918, except that the provisions of sections 333, 354, 357, 358, 359, 361, 362 and 363, relative to the establishment of rural school districts, the election of boards of education therein, and the election of boards of education in union free school districts main-

taining academic departments, shall take effect May 1, 1918. The boards of education of towns and town school units as constituted under and pursuant to chapter 328 of the Laws of 1917, shall have the powers and perform the duties conferred or imposed by law until their offices are terminated as provided in this act, except they shall not be authorized to employ teachers for schools in the rural school districts established by this act or in union free school districts maintaining academic departments, subsequent to May 1, 1918, but the boards of education of rural school districts and union free school districts maintaining academic departments elected under and pursuant to the provisions of this act may immediately subsequent to their election employ teachers for the schools in such districts for the ensuing school year.

No. 736.

In Assembly

Introduced by Mr J. M. MEAD — read once and referred to the committee on public education

An act to repeal chapter 328 of the Laws of 1917, entitled "An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns."

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1 Chapter 328 of the Laws of 1917, entitled "An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns," is hereby repealed.

§ 2 For the purpose of avoiding confusion and disturbance in school administration and management during the remaining part of the current school year, all members of town boards of education of the respective township units as created by said chapter 328, shall continue in office up to and including the thirty-first day of July, 1918, when their terms of office as members of such town boards of education, and also the terms of the officers appointed by them under the provisions of said chapter 328, shall cease and determine, and their offices shall on said date be abolished, except as herein provided.

§ 3 The board of education and the other officers of each township unit created under the provisions of said chapter 328, are hereby continued in office with all the powers and duties conferred on such officers by the education law or other statutes, including power to levy, assess and collect taxes, for the purpose of closing up the business and financial affairs of such township unit and of satisfying its obligations, except bonded indebtedness, adjusting its claims, collecting funds due it and paying its just debts. After liquidating all outstanding obligations, except bonded indebtedness, and settling all claims against such township unit and closing up all its financial affairs, such officers shall apportion any funds remaining in the treasury among the various school districts within their township unit. Such apportionment shall be based upon the relation of the assessed valuation of the taxable property in such school districts to the aggregate

assessed valuation of the taxable property in the respective township unit. The bonded indebtedness lawfully incurred by any such town board of education shall be a valid charge against any school district or districts in which, or for the benefit of which the money raised by or through the sale of bonds, has been expended, or is to be expended. It shall be the duty of such town board of education, on or before the thirty-first day of July, 1918, to determine the proportion of benefit received by any such respective school district or districts through, or by reason of such bonded indebtedness having been incurred, and on the basis thus arrived at, to fix the amount or amounts to be paid by any respective school district or districts.

§ 4 For the purposes of this act, always excepting said chapter 328, all the provisions of chapter 21 of the Laws of 1909, entitled "An act relating to education, constituting chapter 16 of the Consolidated Laws," and all acts supplementary thereof or amendatory thereto, relating to school districts which have heretofore been subject to the provisions of said chapter 328, and which were in force on the first day of May, 1917, are hereby revived and shall be deemed to be, and they hereafter again shall be in full force and effect. The school district officers last elected or appointed in school districts which became part of township units shall have power and the duty to exercise and perform the functions necessary to and for the proper election of school officers at the next annual school meeting to be held on the first Tuesday in May, 1918. The school officers to be elected at such meeting shall enter upon and assume the duties of their respective offices on the first day of August of the same year.

§ 5 All acts or parts of acts, general or special, inconsistent with the provisions of this act, are hereby repealed.

§ 6 This act shall take effect immediately.

No. 322.

Int. 307

In Senate

Introduced by Mr WICKS—read twice and ordered printed, and when printed to be committed to the committee on public education

An act to repeal article 11-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1 Article 11-a of chapter 21 of the Laws of 1909, entitled "An act relating to education, constituting chapter 16 of the Consolidated Laws," as amended by chapter 140 of the Laws of 1910, as added by chapter 328 of the Laws of 1917, entitled "An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns," and section 2 of the chapter last mentioned are hereby repealed.

§ 2 Sections 304 and 365 of chapter 21 of the Laws of 1909, entitled "An act relating to education, constituting chapter 16 of the Consolidated

Laws," as amended by chapter 140 of the Laws of 1910, as thus renumbered by chapter 328 of the Laws of 1917, are hereby renumbered sections 340 and 341; and sections 370, 371, 372, 373, 374 and 375 of such chapter, as thus renumbered by chapter 328 of the Laws of 1917, are hereby renumbered, respectively, sections 360, 361, 362, 363, 364 and 365.

§ 3 School districts, as existing on the second day of May, 1917, which became subject to the provisions of chapter 328 of the Laws of 1917, are restored, from and after August 1, 1918, with the powers and functions of common or union free school districts, as the case may be as prescribed by the Education Law, and shall continue until altered, consolidated or dissolved as provided in such law. On and after August 1, 1918, the provisions of such law relative to common or union free school districts as the case may be, shall apply with full force and effect. Trustees shall be elected, meetings held and preliminary business transacted prior thereto as provided in the next section.

§ 4 The district superintendent shall issue a call for a meeting, in each school district within his jurisdiction, of the qualified electors thereof, to be held in the month of June, 1918. He shall cause notice of such meeting to be given in the manner provided in section 193 of the Education Law for the giving of notice of an annual meeting by the clerk. The expense of giving such notice shall be a charge against the district. The meeting may be called to order by any qualified elector present, who may conduct the election of a chairman, clerk and tellers. A trustee or trustees, as the case may be, for such district shall be elected to take office on the first day of August, 1918. Where more than one trustee is to be chosen, they shall be elected for terms severally expiring in such manner that the number of trustees to be elected thereafter, on the first Tuesday of May in each year, for full terms, shall conform to the provisions of the Education Law. The whole number of trustees to be elected at such meeting in June, 1918, shall be the number which such district had on May 2, 1917; but nothing herein contained shall prevent a subsequent change in the number, after August 1, 1918, in the manner provided in such law.

§ 5 At such meeting in June, 1918, any business which, by the provisions of the Education Law may be transacted at an annual meeting in a similar school district, may be transacted at the meeting so called. The provisions of the Education Law relating to the qualifications of electors at an annual meeting shall apply.

§ 6 Except as otherwise provided in this section, a town board of education, constituted pursuant to article 11-a of the Education Law, as added by chapter 328 of the Laws of 1917, shall not borrow money, issue bonds or other evidences of debt or make any contract obligation, after this section takes effect. Provided, however, that where funds on hand or provided for shall be insufficient to pay salaries and compensation of principals, teachers, medical inspectors, nurses, attendance officers, janitors and other employees of the board, and necessary expenses for light, fuel, supplies, text books, school apparatus, furniture, articles and services, and ordinary repair of school buildings, in order to properly maintain and operate the schools within its jurisdiction until and including July 31, 1918, the board may borrow money for such purposes upon temporary certificates of indebtedness, in anticipation of taxes.

§ 7 Obligations lawfully created by such town board of education before August 1, 1918, shall not be impaired by this act. Bonds, if any, and other evidences of debt, issued by such board to pay for the erection of a new school building or to remodel, enlarge or improve an existing school building, or to purchase a site for a school, or for any purpose in connection with the schools within the territory of a particular school district, shall be a charge upon the school district in which the building or site is located, or otherwise specially benefited or to be benefited by the proceeds of the debt. Where the amount due or to become due on a contract, made by such board, for the construction, repair, remodeling, enlargement or improvement of a building in the territory of any school district, or for any purpose applying only to the school or schools in such district, is not provided for by bonds or other evidences of debt, the payment thereof shall also be a charge upon such district. Where bonds or other evidences of indebtedness have been issued, or contracts made, by such board for any lawful purpose with respect to the schools in the town generally, the obligation thus created shall be apportioned among the school districts in proportion to benefits received or provided for. Such apportionment shall be made by the district superintendent after examining the facts at a public hearing. Such hearing shall be after notice given by such superintendent in the same manner as notice of an annual meeting of a common school district. The determination of such superintendent shall be filed with the town clerk and shall be subject to review by certiorari, upon the application of any qualified elector of the town.

§ 8 School buildings and sites within a school district, and personal property used in connection therewith, when this section takes effect, shall belong to such district. Unexpended moneys in the hands of the treasurer of any town board of education, when this act takes effect, after the payment of obligations incurred by the board, shall be divided among the several school districts, located in the town, in the proportion that the assessed valuation of taxable property in the district bears to the assessed valuation of such property in the town. Personal property, other than money, in the hands of the board, not already applied to particular schools, shall be distributed by the district superintendent among such schools as, in his judgment, are in need of the same for their proper operation.

§ 9 Moneys to pay a school district's portion of a town obligation, as apportioned under this act, shall, when raised by tax, be paid to the supervisor of the town, who shall, out of moneys so provided by the districts, pay such obligations as they mature.

§ 10 Members of town boards and their treasurers shall continue in office after August 1, 1918, until the affairs of the board are closed, and for such purpose only.

§ 11 A town, as referred to in this act, shall include any part of a town for which a town board of education was created by such article 11-a of the Education Law. Provisions of this act applying the provisions of the Education Law to school districts, meetings and trustees shall not be deemed to mean and include such article 11-a.

§ 12 Sections 1, 2, 7, 8, 9, 10 and 11 of this act shall take effect August 1, 1918. The other provisions of this act shall take effect immediately.

No. 17.

In Senate

Introduced by Mr SLATER—read twice and ordered printed, and when printed to be committed to the committee on public education.

An act to amend the Education Law, in relation to town board of education.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1 Subdivision 1 of section 331 of chapter 21 of the Laws of 1909, entitled "An act relating to education, constituting chapter 16 of the Consolidated Laws," as amended by chapter 140 of the Laws of 1910, and inserted by chapter 328 of the Laws of 1917, is hereby amended to read as follows:

1 A town board of education in each town of the State, having jurisdiction over all the schools in the town as hereinafter provided, except in union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more at the time this act takes effect, and the school districts in the several towns of a county which adjoins a city having a population of one million or more and in which there are [only] at least two district superintendents, is hereby established to begin on the first day of August, 1917. Such board shall consist of three members in each town in which the number of school districts under its jurisdiction is five or less and shall consist of five members in all other towns. The term of office of each member shall be three years except that, of the members first elected hereunder, in a town having three members on such board, one shall hold office until August 1, 1918, one until August 1, 1919, and one until August 1, 1920, and in a town having five members, two shall hold office until August 1, 1918, two until August 1, 1919, and one until August 1, 1920. The terms of office of such members shall begin on the first day of August following their election.

§ 2 This act shall take effect immediately.

Int. 5

In Senate

Introduced by Mr G. F. THOMPSON—read twice and ordered printed, and when printed to be committed to the committee on public education—committee discharged, said bill amended, ordered reprinted as amended, and when reprinted to be recommitted to said committee.

An act to repeal article 11-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1 Article 11-a of chapter 21 of the Laws of 1909, entitled "An act relating to education, constituting chapter 16 of the Consolidated Laws," as amended by chapter 140 of the Laws of 1910, as added by chapter 328

of the Laws of 1917, entitled "An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns," and section 2 of the chapter last mentioned are hereby repealed.

§ 2 Sections 364 and 365 of chapter 21 of the Laws of 1909, entitled "An act relating to education, constituting chapter 16 of the Consolidated Laws," as amended by chapter 140 of the Laws of 1910, as thus renumbered by chapter 328 of the Laws of 1917, are hereby renumbered sections 340 and 341; and sections 370, 371, 372, 373, 374 and 375 of such chapter, as thus renumbered by chapter 328 of the Laws of 1917, are hereby renumbered, respectively, sections 360, 361, 362, 363, 364 and 365.

§ 3 School districts, as existing on the second day of May, 1917, which became subject to the provisions of chapter 328 of the Laws of 1917, are restored, from and after August 1, 1918, with the powers and functions of common or union free school districts, as the case may be, as prescribed by the Education Law, and shall continue until altered, consolidated or dissolved as provided in such law. On and after August 1, 1918, the provisions of such law relative to common or union free school districts as the case may be, shall apply with full force and effect. Trustees shall be elected, meetings held and preliminary business transacted prior thereto as provided in the next section.

§ 4 The district superintendent shall issue a call for a meeting, in each such school district within his jurisdiction, of the qualified electors thereof, to be held in the month of June, 1918. He shall cause notice of such meeting to be given in the manner provided in section 193 of the Education Law for the giving of notice of an annual meeting by the clerk. The expense of giving such notice shall be a charge against the district. The meeting may be called to order by any qualified elector present, who may conduct the election of a chairman, clerk and tellers. A trustee or trustees, as the case may be, for such district shall be elected and take office on the first day of August, 1918. Where more than one trustee is to be chosen, they shall be elected for terms severally expiring in such manner that the number of trustees to be elected thereafter, on the first Tuesday of May in each year, for full terms, shall conform to the provisions of the Education Law. The whole number of trustees to be elected at such meeting in June, 1918, shall be the number which such district had on May 2, 1917; but nothing herein contained shall prevent a subsequent change in the number, after August 1, 1918, in the manner provided in such law.

§ 5 At such meeting in June, 1918, any business which, by the provisions of the Education Law may be transacted at an annual meeting in a similar school district, may be transacted at the meeting so called. The provisions of the Education Law relating to the qualifications of electors at an annual meeting shall apply.

§ 6 Except as otherwise provided in this section, a town board of education, constituted pursuant to article 11 of the Education Law, as added by chapter 328 of the Laws of 1917, shall not borrow money, issue bonds or other evidences of debt or make any contract obligation, after this section takes effect. Provided, however, that where funds on hand or provided for shall be insufficient to pay salaries and compensation of principals, teachers,

medical inspectors, nurses, attendance officers, janitors and other employees of the board, and necessary expenses for light, fuel, supplies, text books, school apparatus, furniture, articles and services, and ordinary repair of school buildings, in order to properly maintain and operate the schools within its jurisdiction until and including July 31, 1918, the board may borrow money for such purposes upon temporary certificates of indebtedness, in anticipation of taxes.

§ 7 Obligations lawfully created by such town board of education before August 1, 1918, shall not be impaired by this act. Bonds, if any, and other evidences of debt, issued by such board to pay for the erection of a new school building or to remodel, enlarge or improve an existing school building, or to purchase a site for a school, or for any purpose in connection with the schools within the territory of a particular school district, shall be a charge upon the school district in which the building or site is located, or otherwise specially benefited or to be benefited by the proceeds of the debt. Where the amount due or to become due on a contract, made by such board, for the construction, repair, remodeling, enlargement or improvement of a building in the territory of any school district, or for any purpose applying only to the school or schools in such district, is not provided for by bonds or other evidences of debt, the payment thereof shall also be a charge upon such district. Where bonds or other evidences of indebtedness have been issued, or contracts made, by such board for any lawful purpose with respect to the schools in the town generally, the obligation thus created shall be apportioned among the school districts in proportion to benefits received or provided for. Such apportionment shall be made by the district superintendent after examining the facts at a public hearing. Such hearing shall be after notice given by such superintendent in the same manner as notice of an annual meeting of a common school district. The determination of such superintendent shall be filed with the town clerk and shall be subject to review by certiorari, upon the application of any qualified elector of the town.

§ 8 School buildings and sites within a school district, and personal property used in connection therewith, when this section takes effect, shall belong to such district. Unexpended moneys in the hands of the treasurer of any town board of education, when this act takes effect, after the payment of obligations incurred by the board, shall be divided among the several school districts, located in the town, in the proportion that the assessed valuation of taxable property in the district bears to the assessed valuation of such property in the town. Personal property, other than money, in the hands of the board, not already applied to particular schools, shall be distributed by the district superintendent among such schools as, in his judgment, are in need of the same for their proper operation.

§ 9 Moneys to pay a school district's portion of a town obligation, as apportioned under this act, shall, when raised by tax, be paid to the supervisor of the town, who shall, out of moneys so provided by the districts, pay such obligations as they mature.

§ 10 Members of town boards and their treasurers shall continue in office after August 1, 1918, until the affairs of the board are closed, and for such purpose only.

§ 11 A town, as referred to in this act, shall include any part of a town for which a town board of education was created by such article 11-a of the Education Law. Provisions of this act applying the provisions of the Education Law to school districts, meetings and trustees shall not be deemed to mean and include such article 11-a.

§ 12 Sections 1, 2, 7, 8, 9, 10 and 11 of this act shall take effect August 1, 1918. The other provisions of this act shall take effect immediately.

In Assembly

Introduced by Mr GAFFERS—read once and referred to the committee on public education

An act to repeal chapter 328 of the Laws of 1917, entitled "An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns," and reviving the district and union free school systems.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1 Chapter 328 of the Laws of 1917, entitled "An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns," is hereby repealed and the district and union free school systems in towns as they existed and were maintained and supported prior to the second day of May, 1917, are hereby revived and restored and all laws and parts of laws repealed by such chapter 328 of the Laws of 1917 are hereby revived and continued with the same force and effect that they had prior to their repeal.

§ 2 Town boards of education and all officers under them as created by such chapter 328 of the Laws of 1917 are continued in office until the first day of August, 1918.

§ 3 At the annual district school election in towns to be held in the year 1918 district school officers shall be chosen, who, thereupon, shall become vested with all property owned or possessed by their respective school districts prior to the second day of May, 1917, and thereafter town boards of education and all officers under them shall and are hereby abolished and such boards and officers forthwith shall deliver all property and money in their possession to such district school officers in such manner as shall be determined by the town board of each town in proportion to the assessed value of the taxable property in such school district as it appears upon the last assessment-roll of such town for state or county taxes and with a view to restoring and returning to each school district the property owned or possessed by it prior to the second day of May, 1917, and a fair and proportionate amount of such money.

§ 4 The property of any school district which has become destroyed or so changed in its nature subsequent to the second day of May, 1917, that its identity cannot be traced or determined shall be appraised by the town board of the town in which such district is located at its market value at the time such district was divested of title thereto and such value thereupon shall become a town charge and forthwith be paid to such district.

§ 5 It is the purpose of this act fully to restore the maintenance, control and government of district and union free schools in towns to the system and conditions provided by law in relation thereto as they existed prior to the second day of May, 1917, and to continue such system and conditions as though chapter 328 of the Laws of 1917 had never been enacted.

§ 6 All acts or parts of acts, general or special, inconsistent with the provisions of this act, are hereby repealed.

§ 7 This act shall take effect immediately.

THE REPEAL OF THE LAW

Chapter 199

AN ACT to repeal article 11-a of the Education Law, relating to town boards of education, and certain provisions of the chapter by which such article was added, and to provide for the restoration of former conditions with respect to school districts.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

§ 1 Article 11-a of chapter 21 of the Laws of 1909 entitled "An act relating to education, constituting chapter 16 of the consolidated laws," as amended by chapter 140 of the Laws of 1910, as added by chapter 328 of the Laws of 1917, entitled "An act to amend the Education Law, by creating town boards of education and providing for the support and maintenance of schools in towns," and section 2 of the chapter last mentioned are hereby repealed.

§ 2 Sections 364 and 365 of chapter 21 of the Laws of 1909, entitled "An act relating to education, constituting chapter 16 of the consolidated laws," as amended by chapter 140 of the Laws of 1910, as thus renumbered by chapter 328 of the Laws of 1917, are hereby renumbered sections 340 and 341; and sections 370, 371, 372, 373, 374 and 375 of such chapter, as thus renumbered by chapter 328 of the Laws of 1917, are hereby renumbered, respectively, sections 360, 361, 362, 363, 364 and 365.

§ 3 School districts as existing on the second day of May, 1917, which became subject to the provisions of chapter 328 of the Laws of 1917, are restored, from and after August 1, 1918, with the powers and functions of common or union free school districts, as the case may be, as prescribed by the Education Law, and shall continue until altered, consolidated or dissolved as provided in such law. All acts or parts of acts, general or special, repealed by chapter 328 of the Laws of 1917, are hereby reenacted to take effect on August 1, 1918. Trustees shall be elected, meetings held and preliminary business transacted prior thereto as provided in the next section.

§ 4 The district superintendent shall issue a call for a meeting, in each such school district within his jurisdiction, of the qualified electors thereof, to be held in the month of June, 1918. He shall cause notice of such meeting to be given in the manner provided in section 193 of the Education Law for the giving of notice of an annual meeting by the clerk. The expense of giving such notice shall be a charge against the district. The meeting may be called to order by any qualified elector present, who may conduct the election of a chairman, clerk and tellers. A trustee or trustees, as the case may

be, for such district shall be elected to take office on the first day of August, 1918. Where more than one trustee is to be chosen, they shall be elected for terms severally expiring in such manner that the number of trustees to be elected thereafter, on the first Tuesday of May in each year, for full terms, shall conform to the provisions of the Education Law. The whole number of trustees to be elected at such meeting in June, 1918, shall be the number which such district had on May 2, 1917; but nothing herein contained shall prevent a subsequent change in the number, after August 1, 1918, in the manner provided in such law.

§ 5 At such meeting in June, 1918, any business which, by the provisions of the Education Law may be transacted at an annual meeting in a similar school district, may be transacted at the meeting so called. The provisions of the Education Law relating to the qualifications of electors at an annual meeting shall apply.

§ 6 Except as otherwise provided in this section, a town board of education, constituted pursuant to article 11-a of the Education Law, as added by chapter 328 of the Laws of 1917, shall not borrow money, issue bonds or other evidences of debt or make any contract obligation, after this section takes effect. Provided, however, that where funds on hand or provided for shall be insufficient to pay salaries and compensation of principals, teachers, medical inspectors, nurses, attendance officers, janitors and other employees of the board, and necessary expenses for light, fuel, supplies, textbooks, school apparatus, furniture, articles and services, and ordinary repair of school buildings, in order to properly maintain and operate the schools within its jurisdiction until and including July 31, 1918, the board may borrow money for such purposes upon temporary certificates of indebtedness, in anticipation of taxes.

§ 7 Obligations lawfully created by such town board of education before August 1, 1918, shall not be impaired by this act. Bonds, if any, and other evidences of debt, issued by such board to pay for the erection of a new school building or to remodel, enlarge or improve an existing school building, or to purchase a site for a school or for any purpose in connection with the schools within the territory of a particular school district, shall be a charge upon the school district in which the building or site is located, or otherwise specially benefited or to be benefited by the proceeds of the debt. Where the amount due or to become due on a contract, made by such board, for the construction, repair, remodeling, enlargement or improvement of a building in the territory of any school district, or for any purpose applying only to the school or schools in such district, is not provided for by bonds or other evidences of debt, the payment thereof shall also be a charge upon such district. Where bonds or other evidences of indebtedness have been issued, or contracts made, by such board for any lawful purpose with respect to the schools in the town generally, the obligation thus created shall be apportioned among the school districts in proportion to benefits received or provided for. Such apportionment shall be made by the district superintendent after examining the facts at a public hearing. Such hearing shall be after notice given by such superintendent in the same manner as notice of an annual meeting of a common school district. The determination of such superintendent shall be filed with the town clerk and shall be subject

HONORABLE LOUIS M. MARTIN

Introducer of the repeal bill

to review by certiorari, upon the application of any qualified elector of the town.

§ 8 School buildings and sites within a school district, and personal property used in connection therewith, when this section takes effect, shall belong to such district. Unexpended moneys in the hands of the treasurer of any town board of education, when this act takes effect, after the payment of obligations incurred by the board, shall be divided among the several school districts, located in the town, in the proportion that the assessed valuation of taxable property in the district bears to the assessed valuation of such property in the town. Personal property, other than money, in the hands of the board, not already applied to particular schools, shall be distributed by the district superintendent among such schools as, in his judgment, are in need of the same for their proper operation.

§ 9 Moneys to pay a school district's portion of a town obligation, as apportioned under this act, shall, when raised by tax, be paid to the supervisor of the town, who shall, out of moneys so provided by the districts, pay such obligations as they mature.

§ 10 Members of town boards and their treasurers shall continue in office after August 1, 1918, until the affairs of the board are closed, and for such purpose only.

§ 11 A town, as referred to in this act, shall include any part of a town for which a town board of education was created by such article 11-a of the Education Law. Provisions of this act applying the provisions of the Education Law to school districts, meetings and trustees shall not be deemed to mean and include such article 11-a.

§ 12 Sections 1, 2, 7, 8, 9, 10 and 11 of this act shall take effect August 1, 1918. The other provisions of this act shall take effect immediately.

LETTER OF EDUCATION DEPARTMENT

Procedure to be Followed in Administration of Rural Schools Due to Repeal of the Township Law

To District Superintendents and Town Boards of Education:

The bill introduced in the recent session of the Legislature by Honorable Louis M. Martin of Oneida county repealing the law enacted by the Legislature of 1917 known as the "township school law" passed both branches of the Legislature, was signed by the Governor on April 13th, and thus became chapter 199 of the Laws of 1918.

The general effect of this law is to place the schools under the control and operation of the statutes which controlled and regulated these schools previous to the time when the township law went into effect. Under the terms of this law town boards of education are to continue in charge of the schools during the current school year, or until August 1, 1918. Town boards of education and other town school officers are to continue in the performance of their duties as the township school law provides until that date. Town boards will make the reports required by this Department for the current school year. Proper blanks will be forwarded from this Department in due time. Such town boards may take any action necessary to maintain and operate the schools to the end of the school year.

Town boards may not, however, after the taking effect of the repeal act, on April 13, 1918, make any contract or incur any indebtedness which becomes a liability against the town, nor can such boards take any action or incur any obligation which become liabilities against any of the school districts embraced within the territory over which such town boards of education have jurisdiction.

Town boards should not enter into contract to make repairs or improvements to any of the school buildings under their supervision nor should they undertake to erect new buildings or outbuildings for the remainder of the school year. These matters should all be held in abeyance for such action as the respective school districts within a town unit may determine to take after the schools are in operation under the former law prescribing and regulating the school district system of the State. Town boards should economize to the same extent in the administration of the schools for the remainder of the year as though such schools were to be operated another year under the township system. The law makes provision for the proper distribution among the several school districts in the town of any balance in the treasury after paying all of the obligations lawfully incurred by the town board. This balance is to be divided among such districts in the proportion that the assessed valuation of the taxable property of the district bears to the assessed valuation of such property in the town.

On August 1, 1918, all school districts in the State are to be restored as such districts existed on the second day of May 1917. The alteration of the boundaries of such districts and the consolidation of districts may thereafter be made as provided by article 5 of the Education Law. The provisions of the Education Law relating to common school districts and those provisions relating to union free school districts were not repealed by the act establishing the township system in 1917. The act therefore, repealing the township law and restoring school district to their status previous to the enactment of the township law places such school districts again under the operation of the law which governed and controlled them before the enactment of the township law.

Under the terms of the repeal act annual school meetings or elections are not to be held on the first Tuesday in May 1918, in any of the common school districts or in any of the union free school districts which are under the township law. School authorities in these districts should, therefore, make no further provision for holding meetings on the first Tuesday in May, nor will it be necessary for town boards of education to complete the registration of those entitled to vote at town school meetings as provided under the township law. The law authorizes district superintendents to call a meeting of the voters of each school district under his jurisdiction some time during the month of June 1918. It is important that these meetings should be held as early as possible so that officers may be duly chosen in all the school districts of the State to arrange for the employment of teachers, repair of school buildings, and to have all matters in proper form for the opening of schools in September. It is, therefore, recommended that district superintendents call these meetings at 7.30 o'clock p. m. on June 4, 1918.

A notice of these meetings must be given as provided by section 103 of the Education Law. The district superintendent should prepare a notice of

the district meeting and should deliver the same to a qualified elector for posting in each of the common school districts. Five notices should be posted. One of these notices must be posted on the front door of the school-house and one must be posted in each of four other conspicuous places in the district. These notices should be posted at least five days prior to the date fixed for holding the meeting. District superintendents should, therefore, have these notices prepared and properly delivered so that those to whom they are delivered may post them not later than May 27, 1918.

In union free school districts the notice should be given by publishing the same once in each week for each of the four weeks immediately preceding June 4th. These notices should be published in two newspapers if there are two such papers in the district, or in one newspaper if there is but one paper published in the district. If no newspaper is published in the district, the notice must be posted in at least twenty of the most public places in the district and at least twenty days before the day of the meeting.

These notices should be prepared and delivered to those who are to publish or post them not later than May 4, 1918. By observing these dates ample time will be afforded to enable proper notice to be given and all question as to the legality of such notices will be avoided.

These notices should be in the following form:

NOTICE OF SCHOOL DISTRICT MEETING

Notice is hereby given that a school district meeting of the inhabitants of school district no., town of, qualified to vote at school meetings in said district will be held at the schoolhouse in said district on, June, 1918, at 7:30 o'clock p. m., for the election of a trustee (or trustees) and other district officers and for the transaction of such business as is authorized to be transacted at an annual district meeting under the provisions of the Education Law.

This notice is given in compliance with chapter 199 of the Laws of 1918.

.....
District Superintendent

CONDUCT OF MEETING

1 The meeting may be called to order by any qualified elector present who may conduct the election of a chairman, clerk and tellers.

2 A trustee or trustees, as the case may be, for such district shall be elected to take office on the first day of August 1918.

3 The whole number of trustees to be elected in the district at the meeting held in June 1918, shall be the number which the district had on May 2, 1917.

4 Where one trustee is elected he shall be elected for a term of one year, beginning August 1, 1918. Where three trustees are elected they shall be designated for terms of one, two and three years, respectively.

5 A district clerk and a collector shall be elected who will take office on August 1, 1918, and also a district treasurer in such districts as had a treasurer on May 2, 1917.

6 In each union free school district which was subject to the township law a full board of education is to be elected, consisting of the same number

of members as comprised the board on May 2, 1917. They shall be elected for terms of one, two and three years, such terms to be designated by the electors. In such union free school districts the clerk, collector and treasurer will be appointed by the board of education after such board takes office and will not be elected at the school meeting.

7 After the election of the district officers the meeting should consider its budget for school district purposes for the ensuing school year, beginning August 1, 1918. Provision should be made for the salaries and compensation of principals, teachers, medical inspectors, nurses, attendance officers, janitors and other employees of the board, and necessary estimated expenses for light, fuel, supplies, books, school apparatus, furniture and repairs and any other items for which the voters of a school district have power to vote taxes under the provisions of the Education Law.

8 School districts desiring to contract for the education of their children in other districts should adopt a resolution at the meeting authorizing the trustee to make such contract.

AUTHORITY OF NEWLY ELECTED OFFICERS

While the trustees of a common school district or boards of education of union free school districts and other district officers elected at the meeting held in June 1918 are not authorized, nor do they have legal authority to transact school business prior to August 1, 1918, the date on which they assume the duties of their offices, it is suggested that such trustees and boards of education arrange for the employment of teachers by coming to a general agreement with teachers on the terms of their contract but that such contract shall not be executed until August 1, 1918.

POWERS OF PRESENT TOWN BOARDS OF EDUCATION

Town boards of education may not borrow any money, issue bonds or other evidence of debt, or make *any contract obligation*. This precludes the present board from making any contracts with teachers for the coming school year and also from purchasing any supplies or incurring any indebtedness whatsoever.

The repeal act contains an express provision to the effect that where funds on hand or provided for shall be insufficient to pay salaries and compensation of principals, teachers, medical inspectors, nurses, attendance officers, janitors and other employees of the board, and necessary expenses for light, fuel, supplies, textbooks, school apparatus, furniture, articles and services, and ordinary repair of school buildings, in order to properly maintain and operate the schools within its jurisdiction until and including July 31, 1918, the board may borrow money for such purposes upon temporary certificates of indebtedness, in anticipation of taxes.

TOWNSHIP SCHOOL OBLIGATIONS

1 Obligations lawfully created by the town boards of education are not impaired by the repeal act.

2 Where a contract has been made by the board for the construction, enlargement or repair of the school building within a particular district or for any purpose applying only to the schools in such district and the same is not

provided for by bonds or other evidence of debt, the payment of the moneys due under the contract becomes a charge upon the particular district in which the building is located.

3 Where bonds or other obligations have been lawfully issued with respect to the schools in the township generally such obligations are to be apportioned by the district superintendent among the several school districts in proportion to the benefits received or provided for. Such apportionment shall be made by the district superintendent after examining the facts at a public hearing.

The full text of the repeal act is appended hereto.

Very respectfully yours

THOS. E. FINEGAN

Deputy Commissioner of Education.

THE TOWNSHIP LAW

When a camel becomes angry at its master, the man puts his clothes on a dummy and lays it down where the camel can reach it. The camel stamps upon it with ungovernable rage until it is weary and then relapses into its usual surly good nature, whereupon the master is safe to treat it as usual. The farmers of the state have shown the unreasonable rage of the camel against the township law, and now having threshed out their fury over a dummy law in the assembly, will it is hoped acquiesce reasonably in the needed amendments offered in the senate.

There is nothing unprecedented in the movement for the repeal of the new school law. In 1849 the legislature passed a bill to submit to the people a law to establish free schools, and it was passed by 249,872 to 91,951. But when it came to raising the money the taxpayers revolted and the next year the legislature submitted a repeal to the voters of the state. In 42 of the 59 counties there was a majority for repeal of 46,874, and the law was saved only by the majority of 171,912 against repeal in the other 27 counties, which included the principal cities. Then as now the farmers of the state felt the pinch upon their pocketbooks, but what farmer would now go back to the old rate system?

In his annual message Governor Whitman declared in favor of amendment, and later in a special message urged its repeal. Against this message Speaker Sweet protested as follows:

That the press and the people of the state may obtain the correct view of my position in the matter of the proposed legislation on the subject of rural school educational matters as dealt with by the special message of the Governor to the Assembly under date of Friday, February 8th, I beg to state:

That at the request of Governor Whitman and in reply to his question as to what was being done by the Legislature on the subject of rural education, I informed him that a bill had been prepared and that on the evening before I with other members of the Assembly had worked until after midnight in a study of the provisions of the bill as had been prepared to form our final conclusions before its introduction as to whether it met our purpose in response to the requests of rural citizens in an endeavor to remedy the evils complained of under the present township school law. And in an effort to overcome the objections thereof the bill proposed that each rural school district unit would proceed under the identical manner of the old law prior to the enactment of the Machold bill in electing a trustee for each rural district

unit, who, with the trustees similarly elected in all other rural district units in a rural school district would constitute the rural school board of a township, the number on such board being determined by the number of school district units within such township, and that the respective trustees not only would become members of the rural district board, but would be the custodians of the unit district school property for its maintenance and that the district board composed of the unit district trustees should provide at least one teacher for each district unit school, unless the qualified electors of the unit district should of themselves and by a majority vote that the school in their unit district should be closed and joined with another unit district, as in the case which might exist that there would be but two or three pupils in such unit district proposed to be abandoned. The proposed bill excludes from the rural school district the union free school. It also provides that any bonded indebtedness of a school district shall remain a lien upon the district incurring such obligation and shall be amortized by that district alone.

The bill also dealt with the subject of high school education for rural school pupils who had completed their elementary course of education in the rural school district by providing that they should be admitted to a union free school district having an academic course of study on the payment of a tuition of which the state would pay at least forty dollars per pupil, which is double the amount now paid, or if determined at the time of the hearing on this bill such amount should be fixed on a percentage basis of the cost of the maintenance of the rural pupil in the union free school district, the amount varying in some instances, and that the difference between the amount of the tuition and that paid by the state should be a charge upon the rural school district at large in order to offer an inducement and an opportunity for the rural pupil to receive the advantages of a high school education which as at present, in many instances, are denied.

Also in justice to the union free school district, it was provided that so great a number of rural high school pupils could not be forced upon any single union free school district as to require an outlay by the union free school district of funds for the enlargement of the school building, etc., without the approval of a majority vote of the school electors of the union free school district. In fact, the bill already prepared, met, as was our endeavor, the objections complained of in the instance related, and others.

The items of expense imposed upon a rural school district for physical training and medical inspection were not a result of the enactment of the township school law, but were in separate sections of the educational law and required separate legislation which, as previously stated, are in process of formulating in accordance with that part of my address to the members of the Assembly on the occasion of my election as Speaker of the Assembly on January 2d, last.

The message of the Governor to the Legislature this morning dealt with the various sections of the proposed bill as had already been drawn and as stated by me to him, concluding that it was his belief that wise legislation may be formulated that he recommended the repeal of the township school law as now exists, which in his first message to the Legislature on its convening was dealt with in the nature of a recommendation for its amendment.

Contrary to the usual custom which is, that special message from the Governor presented at the hand of his private secretary to the Legislature, by agreement with the secretary to the Governor some weeks ago, were to be presented to the Speaker of the Assembly and by him handed down as a communication from the chief Executive, as has been the practice as well as the understanding, as immediately above related, until this morning the message referred to was delivered to a deputy clerk of the Clerk of the Assembly and by him to the Journal Clerk who acting as Clerk of this morning's session read, and properly so, the communication to the members assembled.

As Speaker of the Assembly, with confidence in my associates, I deemed the procedure and the manner of handling the subject in the message unfair to the Assembly and those who have with integrity and honest effort endeavored to work out this school question and it is in the spirit of protect-

HONORABLE T. C. SWEET
Speaker of the Assembly

ing those associates that I take exception to the methods employed. Not desiring to enter into a controversy with anyone, and least of all the Governor of our state, who, as my record stands, I have endeavored at all times to support and uphold when in my judgment correct, I believe it is incumbent upon me to protect the integrity of the Assembly, chiding its members when in my judgment they act in error and myself receiving criticism by them and the public when I err in judgment. It has been my purpose in the past, is and shall continue to be my course, in the interest of the enactment of the best legislation in the interest of the people, to stand for principles involving my position and the Legislature so long as I shall continue to be its presiding officer.

On Feb. 27, a hearing was held before the joint legislative committee at which Senator Brown expressed himself in favor of the present law, as follows:

I feel that I ought to say something on this occasion. May I give just a little personal experience? When a daughter of mine went to Wellesley College we felt that it was necessary to go there to reside also. We took a house in Wellesley. There were two other children of school age and we thought to have arrangements made so that they might be put in a private school. We commenced to speak for private schools. All the information which came back was to the effect that the schools in the town of Wellesley were better than any private school available. I could scarcely believe it. Although myself having been educated in common schools and having attended a common school in the country, I felt it my duty to employ a private tutor for my children. I had the choice of incurring that expense and paying my taxes at the same time for the support of the public schools in the town in which I resided or * * *.

When my children went to the school in Wellesley I found they were of the best; that the students who went from the high school ranked high in college, and that the children who came from the common schools were well trained by experienced and able teachers. In that town they employed a superintendent at an expense of \$1,000 per year and twice each year I received a communication from that superintendent telling me precisely the progress of my children in school, and what the family should do to encourage them and to correct any faults.

I was amazed at the comparison between that township school and the school in New York. It led me to think upon the subject and to study it. Among other papers that I read was one which I think was the report of the Board of Education of Connecticut for the year 1900—a very marvellous report framed by a Prof. Sumner of Yale. I looked over the law and got reports of the various educational systems of the States and I discovered that in most of the Northern States there had been a change from the old district system to a broader plan, usually the township system. I began to investigate and I found that they had better schoolhouses; that they had larger schools; that they had systems of transporting scholars to central schools; that they spent more money on buildings and on teaching, and that in the rural districts they systematically gave instruction in agriculture.

I became satisfied that we were backward in our system in New York, and the reason for our becoming backward was easy enough to apprehend. The country districts were more populous fifty years ago than they are today; the families were larger, there were more children within a school district than there are today. The people were poor and salaries were small, but a better class of mind could be obtained to instruct children in those days than can be obtained for small pay today. Many of our best citizens received their best instruction in the old select schools which prevailed throughout the country districts, where able men inspired their students.

Now our schools in the country have steadily gone down in attendance. The schoolhouses are poor, miserable, cheap. The majority of them would not be permitted to stand as outbuildings on the best farms in the town.

This is the fact about it, and everybody here knows it, that the children in the country have not received and are not receiving the education which the rising generation needs if we are to be worthy of the name of a commonwealth at all.

Now this bill may have faults. I suppose it has. I never knew a bill blocking out a new line of thought and action which was not in need of amendment and change. A great many people think that when legislation is passed it should be perfect. Now what I object to about this situation is this: I have always advocated doing everything that could be done to make the rural schools of the State stronger and the rural districts better and more desirable as a place of residence. I believe that the interests of the commonwealth demand that attention. I object after this bill has been passed because it has defects and because there are a good many defective people who object to it on untenable grounds, I object to having an issue made upon the subject of education where you find upon one side all bourbonism and ignorance and on the other side progressivism and no alternative. I object to that division. I do not want a fight between those on one hand who want to go back to conditions that are undesirable and on the other hand people who want improved school conditions in the rural districts without any capacity to solve the problem. I object as a legislator to being put in a position of either discarding this attempt to improve the schools of the State altogether or giving the people of the State something that they are not satisfied with.

We should seek now to find out what the just criticisms are upon this legislation to correct them. If we repeal this law it will set back education in this State for a quarter of a century. I object as a legislator to being put in an impossible position and because there is something to correct, to correct it by destroying a great and beneficial measure. It is not consistent with the public interest or with manhood to do a thing of that kind. It may be that there are mistakes in the bill. I am for correcting them, but I am for correcting them not because I am afraid or because I want to get on the "band wagon", but because I believe conditions will be improved, and for no other reason.

Now, education is a State matter. How many millions does the State appropriate annually for education?

Doctor Finley—Six or seven million dollars.

Senator Brown—It is a recognized fact and has been for decades that education is the State's duty and the State's obligation, and the particular manner in which it performs that duty—whether by the School district system or the township system or whatever system it may do it—is merely a matter of convenience. The State has been giving six or seven million dollars and in the apportionment of this money it has come to my knowledge that in quite a number of districts they have sent their children to a neighboring district and paid the entire expense with the State's apportionment and levied no tax whatever, and I suppose those people are objecting to this bill.

It is a novel experience to me to be in harmony with the Woman Suffrage party, but I am their ally or they are mine: we are married today. It may be on the Japanese plan, possibly.

I want to say in relation to this matter that I have had very grave doubts whether, even with an appropriation of six or seven million dollars among the various school districts of the State, the State of New York was discharging its full duty. I understand that there are about 8,300 one-room schools in this State. Now, if the State of New York has not given enough to the support of these single room schools so that the different towns can afford to have the tax levied in the town as it is in the State, on an equal basis throughout the entire State, I am in favor of the State's levying more and giving more to the common schools that cannot be maintained without it. I want to say to you I do not want to be unfair and I do not want to institute a plan for the flag and an appropriation, but we have had our poor conditions for an awfully long time on the one room system. We have 8,300 districts with one, two, three

four or five scholars and they have been maintained for \$300, \$400, \$500 or \$600 when it is wholly inadequate.

So far as I am concerned I stand ready to correct the wrongs in this bill, to recognize the necessity of the State's helping these single room schools on the ground that they are single room schools and to vote, if need be to vote, \$100 more to every single room school on the average; if that won't do to vote \$200, and if that won't do to vote \$300 to every single room school for the purpose of bringing it up to a desirable standard of efficiency. When that appropriation is made I want it to be conditioned on the appropriation of an equal amount by the district under the direction of that splendid, inspiring force who has addressed you today and who is the head of our educational system, so that when the money is distributed it shall be distributed on a principle of apportionment which shall comply with the rules which he shall formulate to induce and compel the abandonment of such impossible conditions as may now exist. If we do that we will have done something which is approximately progressive, and until we do it we shall be guilty if we repeal this law of going back into the dark ages because when we tried to emerge we did not perceive precisely the door through which we should make our exit.

I want to say to those citizens who have come here to advocate the repeal of this bill that I appeal to you as citizens of this State who must have at heart the welfare of the children of the State—your children and your neighbor's children—who must have at heart the welfare of the commonwealth, so much of which depends upon the progress, the intelligence, the knowledge and the willingness to make sacrifices of the great rural population of this State, you must look upon it in a broad way: you must approach the Legislature with demands not to restore impossible conditions but with demands that its members shall do their part while you do your part to correct these very bad conditions.

I intended to hear what was said in opposition to the bill, but my engagements are such that it is impossible for me to do so. I found its advocates first speaking and I am obliged to those; but I shall receive a careful report of the objections raised to the bill and I shall give careful attention to them.

President Finley had written:

We shall be at a disadvantage in presenting at the hearing, set for the 27th of February, the merits of the present township school law as seen by the department because of the absence of Dr. Finegan who is most fully acquainted with conditions in the State. He is president of the department of superintendents of the National education association, which has its meeting in Atlantic City, the chief national educational meeting of the year.

We do not, however, ask for a postponement of the hearings, for we know that the Legislature, will not act on this most important school measure—the most important, in my judgment, enacted since the establishment of free schools in this State—without fullest consideration of what is best for the children in the rural districts.

He was present at the hearing, and said the law was an effort to give the farmer boy an equal opportunity with the city boy for a good education. It was a long step forward, and sufficient time had not been given to try it out. A letter declaring that the repeal would be a disaster was signed by all the regents except one, who is in Europe. They said:

“There is practical unanimity of opinion among those who have to do directly with the education of children that there can be no great general improvement in rural school conditions except under this larger unit of taxation and administration. Nearly half of the one-room school districts of the state (3800 out of 8340) have a valuation of not to exceed \$40,000

and an average attendance of not to exceed ten. It is obvious that adequate facilities cannot be provided and efficient teaching secured on such a basis, especially when agricultural teaching ought to form a part of the training in every rural school." On March 13 the bill for repeal passed the assembly by 107 to 36.

On March 6 Senator Thompson said the senate committee was hopelessly entangled over the bill, to which Senator Robinson replied that he was ready at any time to vote against the bill, and Chairman Brown said the committee was quite capable to manage its own affairs. It was agreed that it would come up March 19, and on that day reported a bill making the needed amendments in the present law.

The Senate committee on public education has proposed a new measure embodying the essential features of the township law and also providing for liberal State aid. The principal features of the Senate bill are as follows:

- 1 Elimination of all districts maintaining academic departments.
- 2 Combination of other school districts into a town district.
- 3 Division of a town containing 12 or more school districts into town districts; no town district shall contain less than 5 school districts.
- 4 Organization of town districts out of school districts located in two or more towns or counties, to meet public convenience; organization of even independent districts to meet local conditions.
- 5 Apportionment of \$250 to each town for each school district in the town. If no school is maintained in a district, the town would still be entitled to the quota. An academic quota of \$600 to each high school district.

School men and the public are shortsighted if they do not grasp this opportunity to obtain this great amount of State aid for the rural and village schools. It means additional aid of \$625 for every high school in the State. If up-state does not avail itself of the favorable attitude in the Legislature toward this measure and give it hearty support, it will be many years before such an opportunity is again presented.

The joint legislative committee of the State teachers association, the State council of superintendents and the State association of district superintendents has issued a strong appeal urging school authorities and the public generally about the state to support this measure.—*School Bulletin*, March, 1918.

The New School Law; Now Organize for Control

The unexpected has happened. The "impossible" has been accomplished. The Township School Law has been repealed. The Capitol at Albany has been jarred to its very foundations, and the Department across the street has received a shock, thanks to *The R. N.-Y.*, and a lot of men and women all over the State of New York who have brought this about and have shown that they are not afraid of politicians. Now, on May 7, let the rural people rally to the largest funeral ever held in the State of New York and pay their last tribute to the defunct Township School Law, and then elect their trustees as they did in the past years.

But a word of warning. We must not rest secure in what we have accomplished. There will surely come a counter-attack, and you may rest

assured that when the Department gets its breath there will be another lemon hauled out of its sleeve to pass out to us. It seems to me there is no better time than when every school district is assembled at the annual school meeting, to organize as a district to cooperate with a town, county, and a State organization. Then we can present such a solid front that no political power of Kaiserism can put anything on to us we do not ask for. We are told that our district schools are to be probed. If there is any probing to be done let us do it ourselves. We have no confidence in the committee they are to send out.

It is an ill wind that blows nobody some good. Let the experience of the past year be a lesson to us and teach us that we must be faithful to our political duties and to know whom we are voting for. The people of the State have never been so personally acquainted with their representatives as during the past session of the Legislature. If your representatives have been true to your wishes re-elect them; if not then turn them down. But don't fail to let them know what your wishes are. If you don't instruct them, how are they to know? Things have happened in the Legislature during the last session that surpass all history. Prayers have been recalled. The Township School Law has been repealed inside of a year from its passage and legislators have been shown up in their true light.

C. L. C.

R. N.-Y.—Let us add this suggestion. Elect the best men and women you can find in your town as school officers. They must accept as a patriotic duty. We must show the possibilities of the old law. Begin by putting in the best school officers you can find.—*Rural New Yorker*, April 27, 1918

And now the Legislature proposes to have an investigation of the rural school problem, conducted, no doubt, by members of the Legislature. This commission or committee is to make a more or less extended investigation, and report next year, their report to form the basis of legislation some time. There is but one thing certain about this investigation, and that is, that it will take time and cost money. The state of New York has a department of education which receives statistical reports regularly from all the schools, rural and urban. The department has also inspectors who are experts, and who are numerous enough and make visits enough to get a pretty clear idea of conditions, and on their report as to facts and on their recommendations, the state commissioner of education, after years of careful observation and study makes recommendations to the Legislature. It is possible that the legislative investigation will discover more than the commissioner has so far done, and its findings contain more of wisdom on educational matters but it is not at all probable.—*Utica Press*, April 15, 1918

The "deestrick" school, emblematic of what is most antiquated and defective in American elementary education, was half deposed last year while men marveled that New York had clung so long to it. Yesterday Gov. Whitman replaced it in its old position by signing the repeal of the Township School Law. New York, which had been maintaining 3,800 district schools, in each of which there were less than ten pupils, for lack of means of combining them; which had seen a farmer in one township taxed for the schools five times as much as his neighbor: which had watched

the school funds poorly administered for lack of a sound budget system, was given a prospect of relief by the Machold Act, approved by practically all the educational authorities of the State. Different schools within a township might then easily be consolidated—they did not have to be; school taxes were equalized, as other taxes have been for years; general school administration was renovated. Some erroneously believed that consolidation was mandatory, that the unwise physical training requirements—really provided by another act—were part of this law, and that school expenses were increased. Some were purely selfish. It might have been proper to modify the law in some particulars. But, with a shortsighted view of legislative expediency, to repeal it, is a wrong to the State.—*New York Post, April 16, 1918*

Rural School Inefficiency

Our rural school system needs reorganizing, and needs it badly. In our rural schools, as they exist today, there is too much lost motion, too little steadiness. That our old district schools are extremely prodigal of their pupils' time must be apparent to anybody who ever has attended them. They take a longer time to train the child than is necessary and often train him faultily. It should not be so. Why is it?

Frederick J. Lewis, superintendent of schools for this district, is authority for the statement, which holds true in his district and probably does in others of which this is typical, that only two out of ten teachers remain for more than one year at a school. In other words the percentage of new teachers each year is 80.

Here we have one of the most important causes contributing to the inefficiency of our rural school system. When a new teacher comes to a school, it requires the first few weeks of her term to get acquainted with the pupils; to find out where each belongs and to classify each correctly.

With the next school year comes another teacher. She, too, like her predecessor, has to find where each child belongs. There has been left no classified list of pupils, with important and necessary information about each of them. The new teacher has to find out for herself,—by her own experience. The experience of her predecessor is of no avail; it is merely wasted effort, something learned never to be used. True, the new teacher finds—usually—a list of the students who have failed or passed, as the case may be, the graded examinations, a record which, because of the wide difference in marking by teachers is wellnigh valueless. In reality, the case of the school teacher who takes charge of pupils without anything to work upon, is no more tragic than would be the case of a general who succeeds to the command of an army without receiving any information from the retiring staff as to the army's personnel, equipment or ability.

The frequent change of teachers also contributes to inefficiency by the consequent change of system. Few teachers have the same system of instruction. The pupils under one teacher have to spend part of their time unlearning what the teacher of the preceding year taught. One teacher forbids what another ordered. Imagine a country with entirely new laws each year. A similar system works havoc in our rural schools.

Superintendent Lewis made another statement recently which throws additional light on the inefficiency of the rural school. He said that wages in other positions and professions were so much higher than the wages paid for teaching, that the best talent no longer is attracted to the teaching profession. Undoubtedly he is right. The only remedy will be to pay higher wages; and the rural schools soon will find themselves compelled to do this if they wish any but mediocre talent to instruct the children.

Before we can hope to improve our rural schools we shall have to encourage a teacher's return year after year to the same school and the attraction to the teaching profession of broader, more capable persons.—*Liberty Register, April 19, 1918*

Mixing Politics and Education

An educational "episode," as the movie man would say, which merits attention is now enacting in Arizona. Not so much on account of the persons and interests involved, as for the strong light which it throws on the irrepressible conflict between politics and education and the disastrous consequences certain to follow attempts to mix them. Arizona, youngest, is also one of the most advanced states in its educational scheme and system, and the support of the state to its schools generous and irrevocable, with a correspondingly large and intimate supervision and control. Since the election, which took a court decision to establish, of the democratic Gov. Hunt, the State Normal School of Flagstaff has been in a state of disorganization, because of the suspension of its president by the governor for political reasons. The students, incensed by the interference with what they considered their domain, all went on strike, work was stopped, and apparently speedy cessation, possibly dissolution, of the school was inevitable.

Finally a compromise was effected, pending an investigation, but now all hopes of a settlement have been dissipated by the refusal of the governor to conduct the inquiry in Flagstaff, on the ground that he fears mob violence and by the threat of the students that if the investigation is held elsewhere they will renew the strike and make it permanent. The evicted president substantially admits that he paid no attention to the pre-election demands for political contributions, a position in which faculty and students back him, while the governor holds that as state officials, beneficiaries of the party which controls the school system of the state, they should bear a share of the expense of its operation.

Essentially, therefore, and apart from its personal factor, there is nothing new in the Arizona contention. It is in its first, and state-wide application of "to the victors belong the spoils" and the expense of getting them, to the school and educational system of the state that lies its significance.

New York, also, within the last few months, passed through its experiment of mixing politics and education, and the repeal of the township school law, against the judgment of the most competent and experienced authorities, betrayed by its friends who repudiated their own arguments the year before for its enactment, with only four months of trial and no facts worth notice against it, was ruthlessly jammed through, under execu-

tive whip and spur, to advance personal ambition and the rural schools of the state, relegated three-quarters of a century into the past, thrown back into the turnpike and stage coach days when graded schools were unknown and the high schools of the present day and rank not dreamed of.

Fortunately the department of education has met the reverse, the unforeseen and the unprecedented situation promptly and wisely, and has sent everywhere throughout the state carefully prepared and workable instructions which will enable the schools to go on with the least possible interruption and minimize, to a great degree, the dislocation and confusion, otherwise inevitable. No thanks, though, will be due the governor that his attempt to wreck the public schools of the state that he might drive his political car of triumph over their ruins did not succeed, and his reversal of himself and his record and ostentatious change of front upon legislation which, a year before, he had advocated and promoted, will become another count in the indictment which the rural counties of the state are daily strengthening against him.

The present point of remark on these two attempts, one near and the other remote, and both certain to fail; to mingle politics and education, for oil and water will not mix, is that the situation, though by long usage and constant acquaintance familiar, is just now of exceptional and highly emphasized importance. Education is enlarging its scope and powers and extending its fields and functions to a degree and at a rate hitherto altogether unknown, and by so much as this is true, by so much are the peril and danger of political control and domination enhanced. With the war, though not in consequence of it, have come physical culture, military training, instruction in civics, vocational and industrial schools and a whole congeries of activities, but yesterday unknown, and that they are to be made the sport and playthings of politicians; schools, asylums for favorites and positions, sinecures; their administration perquisites of leading citizens and real estate speculators is unthinkable, and in this state, impossible. New York has gone too far on the road of educational progress to reverse or change its direction, and a temporary set-back like that of the last session means only one of Haig's falling back to a stronger position, against the political Huns.

Particularly in the city is the issue sharply drawn and the experiment for high stakes. The "try-out" of the small board, accepted with grave and honest misgivings by many of the most thoughtful and competent, is now about to have its first, real, practical test. Four months have been occupied, and by no means wasted, in getting "a good ready" in selecting a superintendent who measures up to the duties and opportunities, and the choice has been satisfactory and auspicious. The whole system should soon begin to get under way, and function with harmony, discipline and intelligent and sympathetic efficiency, teamwork on a large scale which it has never yet attained. Any politician of high or low degree, who, for political reasons or partisan motives, undertakes until further notice to interfere with the public schools of the city and those charged with their instruction and administration will do well to recall the monkey and buzz-saw incident.

On the other hand, as the politician should keep off the grass, by so much the more should parents and citizens be attentive and vigilant. The machine is so large and complicated that direct and immediate action through the ballot is difficult and practically impossible. The Mayor who appoints the school board will not be elected for nearly four years, the new superintendent's term is for six, but the schools are open, every day, and parents will do pupils, teachers and themselves no better service than by personal visit and observation, by that direct, first-hand knowledge which means sympathy and appreciation. Two of the greatest driving forces for both pupils and teachers, personal understanding and relations, were the cornerstones of the little red schoolhouse and, modified to meet city conditions, great advantage would result from their restoration and reproduction in our time and environment. As for politics and partisanship, as they stop at the frontier and at the church, so must they at the school.—*Brooklyn Standard, May 5, 1918*

Country Schools on Backward Step

A chaotic condition has been brought about by the repeal of the township school bill. Town boards of education created under the township bill, are now legislated out of existence and after August 1, Perry will again be divided into eleven districts instead of two units as at present. Town education boards have been directed not to enter into any contracts to make repairs or improvements to any school building or undertake to erect new buildings for the remainder of the school year. These directions have been communicated to them by the district superintendents of schools. The repeal act took effect on April 13th. A town board is forbidden to contract or incur any indebtedness or obligation which might become a liability against the school district over which such board has jurisdiction.

On August 1, 1918, all school districts in the state are to be restored to such districts as existed on May 2, 1917, and any alterations in boundaries or consolidation of districts thereafter must be made in accordance with the education law. Annual school meetings cannot be held this month. County school superintendents of schools are directed to call meetings of the voters of the school districts during the month of June. The State Department of Education has directed that such meetings shall be held at 7:30 p. m. on June 4th.

At each meeting trustees are to be elected to take office on August 1, 1918; also a district clerk and collector to take office at the same time, and a treasurer, provided the district had a treasurer on May 2, 1917. In union free school districts a full board of education is to be elected. After such elections the district officers shall consider the budgets for the school year beginning on August 1st. It is suggested that, as the authority of the newly-elected officers is not legal prior to August 1st, that they come to an agreement with teachers on contracts to date from August 1st.

Obligations created by the town boards of education are not impaired by the repeal act and bonds and other obligations shall be apportioned by the district superintendent among the several school districts in proportion to the benefits received or provided for. District superintendents are directed

to prepare meeting notices as required by law. Provision is made for newspaper publication where a newspaper is published in the district.

The military training law has been made more drastic by the enactment of the Slater bill requiring boys between 16 and 19 years old to attend drill and perform military duties.

Compliance with the requirements of the new law entitle the youth to certificate, without which he cannot attend public or private school or obtain employment.

Governor Whitman has also signed the bill introduced by the Assembly committee on education for the purpose of relieving certain rural school districts of the burden of maintaining physical training instructors.

Under the provisions of the law districts maintaining less than ten teachers in the public schools may have physical training taught by one of these teachers instead of requiring the district to hire a teacher whose work is confined to physical training instruction. — *Perry Herald*, May 8, 1918

Faithful Stewards These

To the Taxpayers of the Town of Huntington:

The Town Board of Education to whom, by law, was committed the care of the schools in the township of Huntington (except those in the villages of Huntington and Northport) desire to make their report to you both as to their doings and the handling of the finances.

We do this at this time as, having served the town during the past school year in accordance with the Township School Law, the operation of a new law relieves us from further duties on this date except such as may be required in the closing up of matters with which we have had to do. The newly elected trustees in the various districts will now assume control.

In our judgment the Township School Law had in it possibilities of much usefulness and, as taxpayers and those interested in the children, we cannot help feeling that if the operation of the law could have been continued for a short while longer, results would have been so apparent that there would have been no attempt to repeal it. It has been possible to bring about a uniformity of control of advantage to the scholars and without increase of cost.

The Board started upon their term of office with the thought in mind that the children of our township deserved first consideration and were entitled to the best possible educational advantages. All that has been done was done with this thought in mind. The placing of new school books in the hands of the children at the expense of the town was one means of promoting uniformity. Frequent contact on the part of the trustees and their representative, the clerk, with the teachers, tended also toward the same end. The prompt payment of teachers and janitors by the Treasurer was also productive of good results.

In this connection we desire to say that the Board and the town, through them, have been very well served by Mr. Fredericks, the Clerk, and Mr. Bunce, the Treasurer, who for nominal salaries entered into the work with the same spirit and interest as did the members of the Board and were animated by the same purpose.

JOSEPH B. MORRELL of Northport, N. Y.
President of a town board of education and favorable to the township system

We have endeavored to have the medical inspection attended to and we regret that more of the parents have not seen fit to follow it up. We would respectfully recommend to the newly elected trustees that this very important matter, the health of the children, be carefully guarded and attended to.

The plan which we had in mind in connection with the staff of teachers, as to classifying and grading, it will not be possible to carry out now, but this had in it large possibilities in our judgment.

We believe that, general speaking, the people interested in the schools have felt that the Board was working disinterestedly and with the sole thought of the good of the children in mind. For many courtesies and helpful suggestions we desire to express our thanks. At considerable expense of time the Board has served the community and, of course, without any recompense whatever except the consciousness of having been of service to the children of our town.

In another column will be found the treasurer's statement, both of a general character and as related to each of the districts so far as the expenses could be allotted to each. We trust that all will be found in order and to the satisfaction of our constituents.

Respectfully submitted,

J. B. MORRELL
I. W. VALENTINE
JOHN DEANS
JOHN H. SOPER

Huntington Town Board of Education, July 31, 1918

—Long Islander, August 9, 1918

Town Board System Should Be Restored

We wish that every voter in Suffolk and Nassau Counties could read the report of the Town Board of Education of the town of Huntington and study up some of the possibilities of the Town Board Law which was repealed last winter, when the plan should be carried out in the spirit as well as the letter. The only regret expressed by the Huntington Board, the members of which rendered their services without charge, was that the law had not been allowed to stand at least two years during which their plans could have been worked out more fully.

The advantages of a uniformity of control in all the districts, the maintenance of graded schools, a uniformly higher standard of teaching, of better and more sanitary buildings, the advantage of free attendance at the high school of the town for children of all the districts, and a better attendance and enforcement of the truancy law, the prompt payment of teachers and securing the best of teachers; attention to the physical ailments and defects of the children, free textbooks, teaching of music, and all at an average cost no higher than under the previous inferior separate unregulated school system, are some of the many reasons why the Town Board of Education law should be re-enacted.

The complaint made by some that the tax rate was made higher in a part of the districts and lower in others, under the new law, was one of

the best recommendations of the law. There is no reason why the rich districts with few children should not help pay for the tuition in the poor districts with many children. In as small a territory as a township what is for the benefit of one section is for the benefit of all. There is no more logic in maintaining separate school districts with different rates of taxation and standards of tuition than there would be in having separate road districts. No more than there would be in having different rates of taxation for schools in different sections of the City of New York.

A campaign should be begun by every friend of the children in the rural districts of the State of New York to have the old law re-enacted. The inequalities as to the burden of bonded indebtedness between the districts could be easily adjusted, so that each district could pay off its own special burden of indebtedness incurred prior to the enactment of the law.

The future of our country rests very largely, if not mainly, with the boys and girls of to-day of our rural districts. The importance of giving them the best possible educational facilities that the country can afford cannot be over-estimated.

The great problems with which our country is to grapple within the next few years calls for men and women well educated and strong mentally, morally and physically sound. This equipment must be gained largely in the public schools.—*Long Islander, August 9, 1918*

Report of Township Board

July 31, 1918

The Board of Education of District 1, of the Town of Chautauqua:

Gentlemen: We hereby turn over to the acting clerk of your board, the insurance policies on Mayville school properties, the contracts with teachers for the ensuing year and the keys to the school buildings.

The equipment for the different departments is complete, with the exception of the domestic science and agriculture departments.

We recommend that the new board contract for coal at an early date, as there has been no contract let for coal by the Township Board.

You will undoubtedly have to overhaul the toilets as they have not been satisfactory during the past year; and have been a subject of much criticism by the public. The heating plant is also in bad condition and has given the board much trouble and expense during the past year; and the Township Board is of the opinion that the present heating plant can not be used another winter.

The Township Board installed the two new departments, agriculture and domestic science as an experiment; also with the expectation that the school unit would remain under the township law, thereby approximately two thirds of the source of income from taxation came from the rural districts. Since the repeal of the township law the tax rate in this district is so high that public sentiment seems to favor the discontinuance of these two departments. As there is no sanitary kitchen for the domestic science department nor any suitable place for the agriculture department without renting or building a new building, this board would recommend that they be discontinued.

This board has left five vacancies in the Mayville school faculty, viz.: Principal, preceptress and history teacher in the high school, also physical director and 6th grade teacher. We would recommend that in filling these vacancies that you do not consider politics, relationship or religion as a requirement.

We also recommend that you hold all board meetings in a public place so that the parents and taxpayers may feel free to attend.

The above recommendations were unanimously passed by the board.

CLARK E. GOODRICH, *Clerk.*

—*Mayville Sentinel, August 2, 1918*

Town of Fowler, St Lawrence County

Comparison of expense under the township law and the 1916 expense

DIST.	ASSESSED VALUATION	TAX, 1916	TEACHERS' WAGES, 1916	TAX RATE, 1917	TEACHERS' WAGES, 1917
1	\$153 793	\$992 41	\$880	.00645	\$880
2	37 142	362 87	396	.0098	432
3	45 173	324 55	414	.0072	540
4	352 513	1 672 81	1 600	.0046	1 710
5	28 470	395 06	396	.014	396
6	30 170	225	324	.0075	360
7	46 777	450	360	.0096	396
8	42 675	227 19	360	.0053	396
9	52 575	232 37	324	.0044	396
10	32 400	273 13	360	.0084	432
11	107 500	750	432	.0075	432
12	79 750	290	369	.00362	432
13			Annulled		
14	23 940	90 87	153	.0038	Contract
15	11 930	149 96	306	.0125	396
Totals	\$1 044 838	\$6 436 21	\$6 674		\$7 198
Total tax raised 1917 under the township law.....					\$7 979 38
Total tax raised 1916 under the old plan.....					6 436 21
More tax raised 1917.....					\$1 543 07

The tax rate under the township law is .0077 and if the tax had been distributed last year in the same way, upon the town generally, the rate would have been .0062. Districts 1, 2, 3, 5, 6, 7, 10, 11, 15 would have benefitted by that plan, and districts 4, 8, 9, 12, 14 would have paid a higher rate.

The increased expense is accounted for as follows:

	OLD LAW	TOWNSHIP LAW
Janitor service	\$131	\$155
Compulsory law	15	50
Fuel	577	727
Repairs	377 21	653
Medical inspection	57 50	50
Insurance	32 80
Library	25	50
Physical training	108 59	250
Clerk and treasurer	25	250
Incidental expenses	302 91	612
	<hr/>	<hr/>
	\$1 652 01	\$2 797
Teachers' wages, shown above.....	6 674	7 198
	<hr/>	<hr/>
	\$8 226 01	\$9 995

It will be seen from the above that the principal increase in expense for the present year over last year is made up as follows:

Teachers' wages	\$524
Clerk and treasurer.....	225
Physical training	141 41
Repairs	275 79
Fuel and janitor	184
Compulsory law	35
Incidental expense	310
	<hr/>
	\$1 695 20

The incidental expenses are simply estimates and without any doubt, some of that money will be carried over for next year's expense.

Town of Gouverneur, St Lawrence County

DIST.	ASSESSED VALUATION	TAX, 1916	TEACHERS' WAGES, 1916	TAX RATE, 1917	TEACHERS' WAGES, 1917
2	\$71 417	\$260 28	\$324	.0037	\$336
3	64 240	260 60	360	.0041	396
4	111 840	359 57	360	.0033	396
5	54 250	200 03	324	.0038	360
6	58 236	250 77	360	.0045	360
7	60 053	271 33	360	.0043	432
8	102 748	355 46	396	.0035	414
9	53 144	279 88	360	.0053	432
10	117 777	470	525	.004	540
11	44 460	178 04	288	.004	324
12	64 264	287	360	.005	378
13	42 856	206 42	324	.005	336
14	54 850	331 37	431	.006	414
15	138 230	759 17	798	.0054	960
16	69 790	278 79	360	.004	396
Totals	\$1 108 150	\$4 749 50	\$5 930		\$6 431

There was 501 more paid teachers this year than last year.

Total tax raised 1917 under the township law.....	\$6118.85
Total tax raised 1916 under the old law.....	4749.50
	<hr/>
More tax raised 1917.....	\$1369.35

The tax rate under the township law in the town of Gouverneur is .00544, and if the tax had been distributed last year upon the town generally the rate would have been .0043.

Districts 6, 7, 9, 11, 12, 13, 14, 15 are as high or higher than the average of the town would have been based in the township plan, and districts 2, 3, 4, 5, 8, 10, 16 have a lower tax rate than the average and would pay more tax under the township plan.

The increased expense for this year over last year is accounted for as follows:

	OLD LAW	TOWNSHIP LAW
Janitor service	\$90	\$100
Compulsory law		30
Fuel	339 62	540
Repairs	126 47	320
Medical inspection	23 50	50
Insurance	74 90	50
Library	10 18	50
Physical training	150	300
Clerk of board		150
Incidental expenses	191 71	250
Furniture		25
	<hr/>	<hr/>
	\$1 006 38	\$1 865
Teachers' wages, above	5 930	6 431
	<hr/>	<hr/>
	\$6 936 38	\$8 296

From the above it will be seen that the increase in expense for the present year over last year is made up as follows:

Teachers' wages	\$501
Clerk	150
Physical training	150
Repairs	193 53
Fuel and janitor	200 38
Compulsory law	30
Incidental expenses	58 29
Furniture	25
Medical inspection and library	66 32
	<hr/>
	\$1 374 62

From the foregoing it will be seen that the only expense this year that would not have been necessary under the old system is the item of \$150 for clerk hire.

A Reactionary Legislature

The bill repealing the township law has been signed by the governor, restoring on August 1, 1918, the school districts as they existed May 2, 1917, with the old provisions of the law. In June the district superintendents are to issue call for meetings in each district, to be called to order by any qualified elector, to elect the same number of trustees that existed in May, 1917, and to transact any other business of a regular meeting. The town boards may not borrow money or make contracts except to maintain school till July 31, but are to remain in office until relations of the towns to the districts have been adjusted.

This is reactionary legislation, the first set-back the Education Department has met since Commissioner Draper returned to New York in 1904. The commonest comment upon the recent session is that it shows how unnecessary it was, and how much better if the New York legislature met biennially. Had there been no session this year, costing the state half a million, the township system would have had a second year's trial, many of the difficulties would have been solved, and the higher taxation would have been less manifest. As it is we are thrown once more to the bottom of the hill, and must toil up again toward the township system.

As a whole the legislature did very little. Mr. Martin introduced another bill to provide for an investigation of rural school conditions and to recommend remedial measures to next year's legislature. It provided for the appointment of a special commission of 7 members to consist of the master of the state grange, the president of the state agricultural society, the professor of home economics at the school of agriculture at Cornell university, the other members to be named by the president of the senate, the speaker of the assembly, the Education department and the state tax commission.

So kind to allow the Education department to be among those present.—*School Bulletin, Syracuse, N. Y., April 1918, page 163.*

AN EXAMPLE OF WHAT CAN BE DONE TO HELP BUILD A TOWNSHIP SPIRIT

The question of possibilities in developing the township spirit is well illustrated in the following township educational day program and extracts of a letter from District Superintendent Walter Elwood, of the second supervisory district of Montgomery county, dated December 11, 1917. Programs similar to that for Amsterdam were used for the towns of Florida and Glen.

PROGRAM

Township Educational Day

OF

The Schools of the Town of Amsterdam

To be Held at Crescent Park

FRIDAY, MAY 25, 1917

A General Exhibition of Work Undertaken in the Public
Schools during the School Year, 1916-1917.

IN THREE DIVISIONS

- 1.—Contests in Reading, Arithmetic, and Spelling
 - 2.—Exhibit of work in Drawing, Writing, Hand-work, Nature Study.
 - 3.—Exhibition of work in Physical Training—Setting-up Exercises, Folk Dances, Games, Races.
-

We extend a pressing invitation to fathers and mothers, to school officers and to all friends of our schools to be with us on May 25, and to help us make the day a success. We will do our best to make the whole affair pleasant for you.

Superintendent Elwood's Letter

I believe I told you last April of our good fortune in enlisting the deep interest of Mrs. Sanford of Amsterdam in the weals and woes of our rural schools. Mrs. Sanford's interest took practicable shape when she hired for this Supervisory District a trained agricultural man to organize and supervise the boys' and girls' work in gardens and crops. Mr. C. E. Shill, a graduate of the Cortland Agricultural Course and of the State College of Agriculture at Cornell, came highly recommended and made our new cause his own.

Five hundred boys and girls enthusiastically enrolled; only three hundred and five, however, finished the season's work in that frame of mind.

Our efforts came to a striking conclusion the first week in October upon the occasion of our County Fair, when the pupils brought samples of their best products and their gardens' financial accounts. It would have done your heart good to see the intense interest that our thousands of visitors showed in the school exhibit and particularly that part which concerned the boys' and girls' agricultural enterprises. The Fair officials themselves had to admit that the school display was the chief attraction of the week, and that despite the presence of a huge Carnival Company just outside our doors. Fathers came up to me and declared that if they had known how well this work was going to turn out they would have had their boys get into it. Grizzled old farmers said that it was wonderful and regretted that agriculture had not been a part of their school life years ago. We were proud of our school exhibit—which Professor Griffin of Cornell said was the best he had ever seen—and especially proud of our pupils' success as young farmers.

We had an extraordinarily bad season—a cold, late, wet Spring, a destructive hailstorm in the Summer and a premature hard frost. Our boys and girls, nevertheless, succeeded in raising, at a conservative estimate, more than \$4,000 worth of edibles on the thirty-six acres which they had under intensive cultivation.

When Mr. Shill's contract with Mrs. Sanford was about to expire, I took up with four of my Town Boards of Education the matter of continuing our agricultural study throughout the year. My strongest argument lay in a statement of what had already been done, as visualized at the Fonda Fair. The result was that the Four Townships approached unanimously decided to enter into a contract with our agriculture man for the remainder of the school year. This was a vindication—if any were needed—of our new undertaking. The farmers, I am glad to say, generally believe that this work is a fine work for country boys and girls, and that the keen interest the youngsters take in it ought to help in the problem of keeping them on the farm.

I am enclosing some photographs taken of our school exhibit at the Fonda Fair, believing that they would be of interest to you.

I wish to mention not only the work of Mr. Shill, the first regularly employed rural school agriculture supervisor of the State, but also the good work of Miss Florence M. Bright, our physical training teacher, whose energy and enthusiasm has accomplished wonders for the physical training work in this District. I wish you would have been present at our three

Township Educational Days last May and June to see for yourself what a good beginning we had made. By careful organization and frequent conferences, we have been able to accomplish as much as some districts I know of where several physical training teachers are employed, and more, too, judging from the equality of the work done by teachers coming to us from some of these other districts. Miss Bright and I believe in folk dances and games as well as the setting-up exercises and have established our standards for all of them, which puts an extra burden, perhaps, upon our teachers, but which, nevertheless, brings results—which, after all, is our goal. Some thirty-five of my schools have earned Victrolas for themselves and these, of course, add much to the physical training periods.

Our school nurse, Mrs. Lillian E. Wilcox, also a new official for us in this district, is likewise very materially assisting in the solution of the health problem, devoting special attention to the follow-up work where we can actually see defects being remedied.

The four good Townships in this district have followed my counsel and established a uniform school term of forty weeks and have appropriated money generously for supplies used in instruction and have made arrangements for the new sanitary toilets. I have but one school Board which is not whole-heartedly in favor of the Township School system, and that is the Board which is doing nothing and which can not, consequently, see any advantage in it.

I like the fine, willing spirit which has grown up among my teachers, and which makes my work a pleasure, and I thank God for the Township School System. (I've had to fight valiantly in its defense, both by word of mouth and in print, and did so, gladly.)

We've tried to interest the public in our work in every way that we could. That was one of our reasons for the Township Educational Days, the big school exhibit at the Fonda Fair, and some of our other activities, patriotic and otherwise. We've successfully undertaken several of them. We don't do these things for the sake of appearing gallantly in the lime-light, but for the plain utilitarian purpose of awakening public interest in our rural schools, their fine efforts and their needs. We hope that understanding will follow interest and, goodness knows, all of us engaged in public rural school work need the intelligent sympathy and understanding of our patrons and constituents. Ignorance and indifference, in the matter of rural education, have too long been a powerful depressant upon the vitality of the country school, and the boys and girls have been the sufferers.

In conclusion, I would like to say that I find the work of being a District Superintendent exceedingly interesting. It strikes me that it is an important job, with no end of things to be accomplished. But, unfortunately it is as financially unprofitable as it is professionally interesting.

TRANSPORTATION

There is now an extended system of transportation of school children in operation in this State. Individual conveyances, school busses, automobiles, automobile busses, electric lines, steam lines,

motor boats, horses and sleighs, are all utilized rather extensively in taking children to and from school. All these agencies, together with our system of state and county roads and improved town roads, are bringing within the reach of all children better school facilities.

Where transportation is provided systematically and with good business regulation and supervision, the objections that have been raised to such system have been overcome. It is no hardship upon any child to ride from two to four miles in a comfortable wagon or other conveyance in order to attend school. Very generally children will prefer this method to walking a mile or more to attend school. Under proper regulation it is just as safe for children to be conveyed to school as it is for them to walk to school. There are, of course, certain regulations in the transportation of children which must be strictly observed. There must be an established route with scheduled hours for arrival and departure, and drivers should carry watches and be required to meet this schedule.

The schedule should be arranged so that children will be on the road the minimum period of time. This can be done without inconvenience to the home and without interfering with the established hours which regulate farm life as to rising in the morning, hour of meals, etc.

The cases are rare when children should be compelled to travel, even in a proper conveyance, more than four miles to attend school. The climate and the topography of the country, etc., must also be taken into consideration. During cold weather conveyances should be inclosed, blankets provided and very often the conveyances may be properly heated with safety to the children.

No person should be permitted to carry children to and from school who has not the full confidence of the community. The driver should be responsible for the conduct of the children during the time they are under his care to the same extent that a teacher is responsible for their conduct while they are in school. Any breach of conduct on the part of a pupil should be immediately reported to the teacher on the arrival at the school or to the parents when returning the children to their homes.

It may be advisable in some instances to make an allowance to parents for taking their children to and from school for such days as the children are actually conveyed. This plan may also prove to be economical in the administration of a transportation system.

Accompanying pictures demonstrate how feasible transportation

TRANSPORTING PUPILS FROM BETHELLEUM TO THE ALBANY HIGH SCHOOL.

Transporting children in District 3 Orangetown, Rockland county

Utilizing the railroad to attend the high school at Colleskill

is, the advantages which are afforded children thereby, and the desirability of making the transportation of children to and from school a general feature of rural school life.

Laws Relating to Transportation for School Children

ALABAMA

Sec. 6 In addition to the duties hereinbefore prescribed, the county boards of education shall perform the following duties: . . . provide for the transportation of pupils at public expense. (Alabama: General Acts, 1915, no. 220, p. 282-83)

ARKANSAS

Sec. 75470 The board of directors shall have power to provide such transportation for the pupils of the districts as the board may deem advisable, and may purchase, rent or hire conveyances for this purpose; or the board of directors may enter into contracts with others for transportation service, requiring proper bonds for the faithful performance of the terms of said contracts. Such transportation shall be comfortable and safe, and shall be governed by such rules and regulations as the board of directors may prescribe. The cost of transportation shall be paid out of the school funds to the credit of the consolidated school district. (Arkansas: Supplement to Kirby's Digest, 1911, p. 629-30)

CALIFORNIA

Sec. 1674, par. 13 The board of trustees of a union or joint union school district may contract, in such manner as they may deem best, for the transportation, to and from school, of such pupils as may seem to such board to be in need of such transportation, and shall pay for such transportation, in the usual manner, out of any funds available for the purpose; provided, that all such contracts for transportation shall be first approved by the county superintendent (or superintendents) of schools of the county (or counties) in which such district is situated. (California: Kerr's Cumulative Supplement Annotated, 1906-13, p. 201)

COLORADO

Sec. 5909-D As soon as the organization of a special school district as herein contemplated shall have been perfected and its officers elected, it shall be the duty of the school board of such consolidated school district, if necessary, to purchase a site and erect a suitable building thereon, and said school board is hereby required to maintain and support a graded course of instruction, and may include a high school course of not less than two years, and may at its discretion furnish transportation to and from school to all pupils living one mile or more from the consolidated school or building. Said distance to be measured from the enclosure immediately surrounding their residence to the school house property along the public highway: provided, that the person or persons employed for the purpose of transporting the pupils to and from school shall be required to give reasonable bond for the faithful performance of duties as prescribed by the school board. (Colorado: Annotated Statutes, v. 4, p. 3760)

CONNECTICUT

Sec. 1 Any town in which a high school is maintained may, at any annual or special meeting, authorize and instruct the high school committee, board of school visitors, or town school committee, as the case may be, to provide for the transportation, to and from such school, of any pupil attending such school and residing within the limits of such town, or pay the whole or a part of the reasonable and necessary costs thereof. (Connecticut: Public Acts, 1907, ch. 36, p. 612)

Sec. 1 Every town in which a school has been discontinued or in which two or more school districts have been consolidated shall furnish, whenever necessary, by transportation or otherwise, school accommodations so that every child over seven and under sixteen years of age can attend school required in sections 2116 of the general statutes. If any town refuses or neglects to furnish such accommodations, the parent or guardian of any child who is deprived of schooling, or any agent or officer whose duty it is to compel the observance of the laws concerning attendance at school, may, in writing, request a hearing by the town school committee, board of school visitors, or board of education, as the case may be, and said officer shall give such person a hearing within ten days after receipt of his written request therefor, and shall make a finding within ten days after said hearing. (Connecticut: Public Acts, 1911, ch. 173, p. 1436-37)

GEORGIA

Sec. 1565 Whenever the county board of education deems it for the best interest of a school, they shall have the right to provide means for the transportation of the pupils to and from said school, provided that no school is established in three miles of the pupils to be transported: provided, that this shall only apply to school or schools where two or more districts have been combined or consolidated and such other schools as are now furnishing transportation. No school trustee, teacher, or superintendent of county schools shall be interested financially in transportation of pupils. (Georgia: Park's Annotated Code, 1914, v. 1, p. 675)

INDIANA

Sec. 6423 It shall be the duty of the township trustees to provide for the education of such pupils as are affected by such or any former discontinuance in other schools, and they shall provide and maintain means of transportation for all such pupils that live at a greater distance than two (2) miles and for all pupils between the ages of six (6) and twelve (12) that live less than two (2) miles and more than one (1) mile from the schools to which they may be transferred, either within the township or in an adjoining township or school corporation, as a result of such discontinuance. In all townships where a school has been abandoned under the provisions of this act, the trustee shall provide for the transportation of all pupils of any other school of such township who live more than two (2) miles and all pupils between the ages of six (6) and twelve (12) that live more than one (1) mile from the school to which they are attached, whenever a majority of the patrons of such school petition the trustee to provide such transportation. Such transportation shall be in comfortable and

safe conveyances. The drivers of such conveyances shall furnish the teams therefor, and shall use every care for the safety of the children under their charge, and shall maintain discipline in such conveyances. Restrictions as to the use of public highways shall not apply to such conveyances. The expenses necessitated by the carrying into effect of the provisions of this act shall be paid from the special school fund. (Indiana: Burns's Annotated Statutes Revision, 1914, v. 3, p. 290-91)

Sec. 6423-a 1. That in all cases where a township has established a centralized school and has provided for the transportation of the school children of the township to such school, it shall be the duty of the township trustee of such township to provide for the transportation of pupils transferred from schools in adjoining townships when such pupils have been transferred to such township school and when such transportation will not necessitate any additional wagons or require an additional distance to be traveled in such transportation.

Sec. 6423-b 2. The township trustee having charge of the school from which such children are transferred shall pay to the township trustee of the township to which they are transferred, an amount equal to the per capita cost of transportation of the pupils of such township. (Indiana: Burns's Annotated Statutes Revision, 1914, v. 3, p. 291)

IOWA

Sec. 2774 It may, when necessary, rent a room and employ a teacher, where there are ten children for whose accommodation there is no school-house; and when the board is released from its obligation to maintain a school, or when children live at an unreasonable distance from their own school, the board may contract with boards of other school townships or independent districts for the instruction of children thus deprived of school advantages, in any school therein, and the cost thereof shall be paid from the teachers' fund. And when there will be a saving of expense, and children will also thereby secure increased advantages, it may arrange with any school in the same or in another corporation and such expenses shall be paid from the contingent fund. (Iowa: Code Annotated, 1897, p. 942)

Sec. 2157-g The persons to whom free tickets, free passes, free transportation and discriminating reduced rates may be issued, furnished, or given are the following, to wit: . . . school children to and from public and parochial schools. (Iowa: Supplement Code Annotated, 1913, p. 823)

Sec. 2794 . . . (c) It shall be the duty of the school board of any consolidated independent school corporation and school township maintaining a central school to provide suitable transportation to and from school, for every child of school age living within said district, and outside the limits of any city, town or village, but the board shall not be required to cause the vehicle of transportation to leave the public highway to receive or discharge occupants thereof. The board shall from time to time, by resolution regularly adopted, number and designate the route to be traveled by each conveyance in transporting children to and from school. The school board may require that children living an unreasonable distance from school shall be transported by the parents, or guardian, a distance of not to exceed two miles, to connect with any vehicle of transportation to and from school; or may, in the discretion of the board, contract with

an adjoining school corporation for the instruction of any child living an unreasonable distance from school, and they shall allow a reasonable amount of compensation for the transportation of children to and from the point where they are taken over, or discharged from, the vehicle used to convey them to and from school, or for transporting to an adjoining district. In determining what an unreasonable distance would be, consideration shall be given to the number and age of the children, the condition of the roads, and the number of miles to be traveled in going to and from school. The board shall have the right on account of inclemency of the weather to suspend the transportation of any route upon any day or days when in the judgment of the said board it would be a hardship on the children, or when the roads, to be traveled are unfit or impassable.

(d) The school board of any consolidated independent school corporation shall contract with as many suitable persons as they deem necessary for the transportation of children of school age to and from school, such contract to be in writing and shall state the number of the route, the length of time contracted for, the compensation to be allowed per week of five school days, or per month of four school weeks, and may provide that two weeks' salary shall be retained by the board pending full compliance therewith by the party contracted with, and shall always provide that any party or parties to said contract and every person in charge of vehicles conveying children to and from school, shall be at all times subject to any rules and regulations said board shall adopt for the protection of the children, or to govern the conduct of the person in charge of said conveyance. (Iowa: Supplemental Supplement, Code, 1915, p. 264-65)

KANSAS

Sec. 9 . . . The district board of the district in which school is discontinued shall provide for the transportation of the pupils of said district, living two miles or more from the school to which said pupils are sent, to such school or schools in a safe and comfortable and enclosed conveyance or conveyances, properly heated, and the expense of such transportation shall be paid by said school district in which school has been discontinued; provided, further, that when any school district within the provisions of this act, having voted an amount of money representing not less than four and one-half mills of the assessed valuation of such district, finds its funds insufficient to pay the tuition and cost of transportation as herein provided the state shall pay to said district schools three-fourths of the difference between the amount raised by said district from all sources for school purposes, and the cost of tuition and transportation of pupils therein, and the county shall pay from the general fund one-fourth of said differences; provided, that not more than seventy-five dollars shall be given to any district whose school has been discontinued according to the provisions of this act. (Kansas: Laws 1911, ch. 268, p. 495-96)

Sec. 1 That the district board of any school district may provide for the comfortable transportation of pupils of said school district living two and one-half or more miles from the school attended, by the usual traveled road, in a safe and inclosed conveyance or conveyances properly heated, and said district board is authorized to establish such rules and regulations as may be necessary for carrying out the provisions of this act. (Kansas: Laws 1911, ch. 273, p. 501)

LOUISIANA

Sec. 2526 The free right of passage or conveyance over all public ferries, bridges and roads which are rented out by the state, parish, or municipality, or over which the state or parish, or municipality, exercises any control, or for which license is paid or toll exacted, be and is hereby granted to all children attending the public schools; and no tolls or fees shall be demanded or exacted from said children by the keepers or attendants of said ferries, bridges or roads in their passage to and from school between the hours of 7 o'clock a. m. and 9 o'clock a. m. and 4 o'clock p. m. and 6 o'clock p. m.; provided, that on Sundays and holidays no children shall have the right to cross said such ferries, bridges roads or roads on terms different from those of any ordinary passenger. The provision of the foregoing section shall apply to the parish of Orleans as well as other parts of the state. (Louisiana: Marr's Annotated Revised Statutes, v. 1, p. 844, 845)

MAINE

Sec. 2 . . . The superintendent of schools in each town shall procure the conveyance of all common school pupils residing in his town, a part or the whole of the distance, to and from the nearest suitable school, for the number of weeks for which schools are maintained in each year, when such pupils reside at such a distance from the said school as in the judgment of the superintending school committee shall render such conveyance necessary. Provided, however, that the superintending school committee may authorize the superintendent of schools, to pay the board of any pupil or pupils at a suitable place near any established school instead of providing conveyance for said pupil or pupils, when in their judgment it may be done at an equal or less expense than by conveyance. (Maine: Revised Statutes, 1916, ch. 16, p. 351-52)

MARYLAND

Sec. 25 . . . The board of county school commissioners shall obtain the consent of sixty per cent of the patrons of the school, the schoolhouse of which is to be closed in order that it may be consolidated with another school, and to arrange for and to pay charges of transporting pupils to and from such schools. (Maryland: Annotated Code, v. 3, p. 810)

MASSACHUSETTS

Sec. 15 . . . For conveying pupils to and from the public schools, or, if it maintains no high school or public school of corresponding grade but affords high school instruction by sending pupils to other towns, for the necessary transportation expenses of such pupils, the same to be expended by the school committee in its discretion. (Massachusetts: Revised Laws, 1902, v. 1, p. 369)

Sec. 1 A town of less than five hundred families or householders, in which a public high school or public school of corresponding grade is not maintained, shall, through its school committee, when necessary, provide for the transportation of any child who resides in said town and who, with the previous approval of the school committee of the town, attends the high school of any other town or city, and shall pay for the expense of such transportation a sum not exceeding one dollar and fifty cents per

week during the time of actual attendance of such child in the high school. If any town fails to provide such transportation, it shall be liable in an action of contract, to the parent or guardian of a child who has been furnished with such transportation for such amounts, not exceeding one dollar and fifty cents per week, as the parent or guardian has paid for the same. A town which has expended for the support of its public schools for the preceding year from the proceeds of local taxation an amount not less than four and less than five dollars per thousand dollars of valuation shall receive from the treasury of the commonwealth one-half of the amount actually expended for transportation under the provisions of this act; and a town which has expended from the proceeds of local taxation for the support of its public schools for the preceding year an amount equal to at least five dollars per thousand of valuation shall receive from the treasury of the commonwealth the whole transportation under the provisions of this act. (Massachusetts: Acts and Resolves, 1913, p. 338-39)

Sec. 1 . . . For the transportation to and from a public school of any child whose tuition is payable by the commonwealth or by the city of Boston under the provisions of this section, the commonwealth or the city of Boston, as the case may be, shall pay to the city or town furnishing such transportation, for each week of five days or major part thereof, an amount equal to the average amount for each child paid by said city or town per week for the transportation of children to and from school over the route by which such child is conveyed. Settlements of the accounts of the several cities and towns with the commonwealth and with the city of Boston shall be made annually on the first day of April, and the amounts found due shall be paid within three months thereafter. (Massachusetts: Supplement to the Revised Laws, 1902-8, p. 442)

Sec. 1 The rates of fare charged by street or elevated railway companies for the transportation of pupils of the public day schools or public evening schools or private schools between a given point, from or to which it is necessary for them to ride in travelling to or from the schoolhouses in which they attend school and their homes, whether such schoolhouses are located in the city or town in which the pupils reside or in another city or town, shall not exceed one-half of the regular fare charged by such street or elevated railway company for the transportation of other passengers between said points, and tickets for the transportation of pupils as aforesaid, good during the days or evenings on which said schools are in session, shall be sold by said companies in lots of ten each. A railway company which violates the provisions of this section shall forfeit twenty-five dollars for each offence. (Massachusetts: Supplement to the Revised Laws, 1902-8, p. 1042)

MICHIGAN

Sec. 1 The district board or board of education of any school district which does not maintain a high school shall have authority and is hereby required to vote a tax sufficient to pay the tuition to one of the three nearest high schools of any children of school age residents of said district, at the time of giving notice as hereinafter provided, who have completed the studies of the eight grades, not exceeding in amount twenty

dollars per pupil per year, unless the voters appropriate a larger sum at the annual school meeting, and may vote a tax to pay the transportation during school days of such children. (Michigan: Howell's Statutes, v. 4, p. 4049)

MINNESOTA

Sec. 2691 For the purpose of promoting a better condition in rural schools, and to encourage industrial training, including the elements of agricultural, manual training and home economics, the board in a consolidated school district is authorized to establish schools of two or more departments, provide for the transportation of pupils.

Sec. 2692 (1) For the purpose of receiving state aid, schools in consolidated districts shall be classified as A, B and C. They shall be in session at least eight months in the year, and be well organized. They shall have suitable schoolhouses, with the necessary rooms and equipment. Those belonging to class A shall have at least four departments; those of class B three departments; and those of class C two departments. The board in a consolidated school district maintaining a school of either class shall arrange for the attendance of all pupils living more than two miles from the school, through suitable provision for transportation, or for the board and room of such as may be more economically and conveniently provided for by such means.

Sec. 2747 . . . Provide for the free transportation to and from school, at the expense of the district, of pupils residing more than one-half mile from the school house, for the whole or such part of the school year as they may deem expedient, and subject to such rules and regulations as they may adopt; and they shall require from every person employed for that purpose, a reasonable bond for the faithful discharge of his duties, as prescribed by the board.

Sec. 2782 It shall be the duty of the said board to furnish school facilities to every child of school age residing in any part of said unorganized territory, either by building school houses, leasing school room, transporting said children to the nearest school, boarding said children within convenient distance from a school at the expense of said board, or otherwise, and to provide necessary supplies, text and library books. (Minnesota: General Statutes, 1913, p. 609-10, 620-21, 626-27)

Sec. 2750 The school board of any district, when it deems it advisable, may provide for the instruction of its pupils in an adjoining district, and in such case may discontinue the schools of its own district, or of any grades or departments in said schools, and provide for the free transportation of the pupils of its own district to the school in an adjoining or nearby district.

MISSISSIPPI

Sec. 2 The expense necessary to carry this act into effect and provide for the transportation of the pupils, as provided in section 1 of this act, shall be paid out of the school fund of the county. At the end of each scholastic month the person or persons employed to transport the pupils shall file with the county superintendent an itemized statement of his services, properly sworn to by him and approved by at least two of the trustees and certified to by them; and upon the filing of such account with

him the county superintendent shall issue to such person a pay certificate, and such account shall be filed and preserved in his office. If the trustee, without good cause, refuse to approve said itemized account, such person may appeal to the county superintendent, who shall issue his pay certificate without the approval of the trustees, in case he decides, after full investigation, in favor of the person who transports the pupils. Upon the presentation of the pay certificate for services rendered, as herein set out, duly attested by the county superintendent, the clerk of the board of supervisors shall issue a warrant in the manner as directed for the issuance of teachers' warrants in Section 4566 of the Mississippi Code of 1906. The oath required to said account may be made before the county superintendent.

Sec. 3 On petition of the majority of the qualified electors of a consolidated school district containing not less than twenty-five square miles, and on the approval of the county school board, the board of supervisors shall, in the same manner as provided for separate school districts, annually levy a tax on the property of the said district sufficient to pay for fuel, transportation wagons and other incidental expenses, erect and repair school buildings for the district, and shall levy a tax sufficient to maintain the schools of said district after the expiration of the county public school term or to supplement during the county public school term, provided a free public school shall be maintained therein at least seven months in each scholastic year. And the board of supervisors may issue bonds for such consolidated districts, in the manner provided in the chapter on "Municipalities" to erect and repair and equip school buildings for said district. The tax collector shall collect the taxes required of such district as other taxes are collected, and deposit same with the county treasurer to the credit of the district for which it was levied. Such funds shall be disbursed on pay certificates issued by the county superintendent, on the order of the trustees of the district. The expense of transporting the pupils shall be borne by the district after the expiration of the county public school term.

Sec. 1 That where two or more schools are consolidated into one school by the county school board, the board of public school trustees for said consolidated school, together with the county superintendent, are authorized and empowered to provide means for the transportation of pupils living two miles from the consolidated school to and from the schoolhouse in the district, under such rules and regulations as may be prescribed by the state board of education. (Mississippi: Laws 1912, ch. 255, p. 323-24)

MISSOURI

Sec. 10846-a The board of directors of any school district of which the assessed valuation does not exceed fifty thousand dollars (\$50,000) and in which the average daily attendance in school during any year has been less than fifteen, is hereby authorized to arrange with the board or boards of directors of other district or districts for the admission of all children of school age in said district having a daily attendance of less than fifteen, and, if desired to arrange also for transporting the children to and from school. In the event any such district has levied for school purposes the maximum levy provided by law (sixty-five cents on the one hundred dollars assessed valuation) and applies the funds so derived together with the money on hand and the amount received from public funds to the payment

of the cost of transportation for the children of said district and also applies any balance remaining in such fund after the payment of transportation cost to the payment of tuition for the children of said district and does not have a sufficient amount to meet all this tuition cost, the state shall grant aid to such district sufficient to enable the district to keep all its children in school for a period of at least eight months: Provided, however, the amount of aid granted shall in no case exceed the actual cost for tuition and the rate of tuition paid shall not exceed the pro rata cost for maintenance in the district or districts which said children attend, based on the maintenance cost of the preceding year. It is also provided that the estimated cost per pupil for transportation shall be a reasonable charge and the state superintendent shall decide as to the reasonableness of this charge and his decision shall be final. The application and manner of payment of the aid granted under this section shall be similar to the application and method of payment provided in section 10846. (Missouri: Laws 1915, S.B. 261, p. 384-85)

Sec. 1 That section 4 of the act of the general assembly of the state of Missouri, approved March 14, 1913, be and the same is hereby amended by inserting between the word "district" and the word "provided" in line 8 of the said section, the following: "Provided that when the average attendance in any elementary school for any month falls below ten, the school board shall have authority to close such elementary school for the remainder of the term and to provide transportation for the pupils of such elementary school to some other elementary school or schools in said district. Such transportation to be paid for out of the incidental funds of the district," so that said section, when amended, shall read as follows:

Sec. 4 The question of transportation of pupils may be voted upon at the special meeting above provided for, if notice is given that such a vote will be taken. If transportation is not provided for in any school district formed under the provisions of this act, it shall then be the duty of the board of directors to maintain an elementary school within two and one-half miles by the nearest traveled road of the home of every child of school age within said school district: Provided, that when the average attendance in any elementary school for any month falls below ten, the school board shall have authority to close such elementary school for the remainder of the term and to provide transportation for the pupils of such elementary school to some other elementary school or schools in said district. Such transportation to be paid for out of the incidental funds of the district: Provided further, that if transportation is not provided for, any consolidated district may by a majority vote at any annual or special meeting decide to have all the seventh grade and the eighth grade work done at the central high school building, provided fifteen days' notice has been given that such vote will be taken. Such seventh and eighth grade work at the central high school may be discontinued at any time by a majority vote taken at any annual or special meeting. (Missouri: Laws 1915, H.B. 1032, p. 385-86)

MONTANA

Sec. 816 . . . 3 That the trustees of any school district in the state of Montana, when they shall deem it for the best interest of all pupils

residing in such district, may close their school and send pupils of the district to another district and for such purpose are hereby empowered to expend any moneys belonging to their district for the purpose of paying for the transportation of pupils from their district to such other district or districts and for the purpose of paying their tuition. Whenever the trustees of any school district in the state of Montana deem it for the best interest of such district and the pupils residing therein they made (may) expend any moneys belonging to their district for the purpose of paying for the transportation of pupils from their homes to the public school or schools maintained in such district. (Montana: Revised Codes, Supplement 1915, v. 3, p. 105)

NEBRASKA

Sec. 6943 A board of education of a city or a board of trustees of a high school district, by a two-thirds vote of the entire board, or a district board of any school district in this state when authorized by a two-thirds vote of those present at any annual or special meeting, is hereby empowered to make provision for the transportation of pupils residing within the district to any other school to which such pupils may lawfully attend, whenever the distance from such school shall render it impracticable for the pupils to attend without transportation. (Nebraska: Revised Statutes, 1913, p. 1935)

Sec. 2 (b) The district board of any consolidated school district shall provide for the comfortable transportation of pupils of said consolidated district living two or more miles from the school attended, by the usual traveled road, in a safe and inclosed conveyance or conveyances, properly heated, and said district board is authorized to establish such rules and regulations as may be necessary for carrying out the provisions of this act. At any regular annual school district meeting in such district, it shall be lawful for the qualified voters therein by two-thirds vote to suspend the provision for the district transportation of pupils and the said action shall be confirmed by the county superintendent upon a satisfactory showing that individual arrangements have been made for all necessary transportation of pupils without cost to the district. (Nebraska: Laws 1915, ch. 121, p. 277)

NEVADA

Sec. 4 And provided further, that the trustees of consolidated school districts shall require contracts with persons whom shall be of reputable character elected as drivers of vehicles used to transport children to school at the expense of the district. Such contracts shall state the time of the arrival at and the departure from the schoolhouse each day, the time such person is to act as driver of such vehicle unless released by agreement, the compensation of the driver and any other details that the trustees may designate. Before any driver of any school vehicle shall begin the duties of that position he shall furnish a bond of an amount equal to his total wages for the current term of school in which he shall be hired, which bond shall insure the faithful performance of his contract.

Sec. 5 To obtain funds for such transportation, the trustees shall, each year, make an estimate of the amount of money necessary to maintain such transportation for that year or for the next ensuing year or for both, and shall certify the amount to the county commissioners, who shall ascertain

the necessary percentage on the property in said district as shown by the last assessment made thereof after equalization to raise the amount of money certified to and shall add it to the next county tax to be collected on the property aforesaid; and the same shall be paid into the county treasury in favor of said district and be kept as a separate fund to be known as Consolidated School District No. Transportation Fund, to be drawn only for purposes of transportation of school children to and from school, and in the same manner as is now provided by law for drawing other school moneys; provided, that if the trustees shall certify to the county commissioners that such money is necessary for immediate use, the tax provided for in this section shall be due and payable to the treasurer of the county in the same manner as are all other taxes.

Sec. 6 The trustees of any school district, other than a consolidated district, shall provide transportation to and from school for all children living one mile or more therefrom in the manner provided in sections 4 and 5 of this act, if at any regular or special election held in the district the proposition of providing transportation for pupils to and from schools shall have been submitted to the qualified voters of the district and a majority of the votes cast shall have favored such transportation.

Sec. 6 The trustees of any school district, other than a consolidated district, shall provide transportation to and from school for all children living one mile or more therefrom in the manner provided in sections four and five of this act, if at any regular or special election held in the district the proposition of providing transportation for pupils to and from schools shall have been submitted to the qualified voters of the district and a majority of the votes cast shall have favored such transportation. (Nevada: Statutes, 1915, ch. 29, p. 28-29)

NEW HAMPSHIRE

Sec. 1 The school board of every district shall provide schools at such places within the district and at such times in each year as will best subserve the interests of education, and will give to all the scholars of the district as nearly equal advantages as may be practicable. They may use a portion of the school money, not exceeding 25 per cent, for the purpose of conveying scholars to and from the schools. (New Hampshire: Public Statutes and Session Laws, 1901, p. 298)

Sec. 1 Any school districts may raise money for the purchase of suitable vehicles for the transportation of school children. (New Hampshire: Public Statutes and Session Laws, Supplement 1901-13, p. 168)

NEW JERSEY

Sec. 117 Whenever in any district there shall be children living remote from the schoolhouse, the board of education of such district may make rules and contracts for the transportation of such children to and from school. Nothing in this section shall be so construed as to prohibit a board of education from making contracts for the transportation of children to a school in an adjoining district when such children shall be transferred to said district by order of the county superintendent of schools, or when any children shall attend school in a district other than that in which they shall reside by virtue of an agreement made by the respective boards of education. (New Jersey: Compiled Statutes, 1709-1910, v. 4, p. 4765)

NEW YORK

Sec. 206 . . . 18. Whenever any district shall have contracted with the school authorities of any city, or other school districts for the education therein of the pupils residing in such school districts, or whenever in any school district children of school age shall reside so remote from the schoolhouse therein that they are practically deprived of school advantages during any portion of the school year, the inhabitants thereof entitled to vote are authorized to provide, by tax or otherwise, for the conveyance of any or all pupils residing therein to the schools of such city, or district with which such contract shall have been made, or to the school maintained in said district, and the trustees thereof may contract for such conveyance when so authorized in accordance with such rules and regulations as they may establish, and for the purpose of defraying any expense incurred in carrying out the provisions of this subdivision, they may if necessary use any portion of the public money apportioned to such district as a district quota. (New York: Birdseye, Cumming and Gilbert's Consolidated Laws Annotated, 1910-13, v. 7, p. 586)

Sec. 186 . . . The Commissioner of Education shall have power in any such central district to require the payment by the district of such expense of transportation of school children to and from the school as in his judgment justice requires, and the same shall be a charge upon the district. (New York: Birdseye, Cumming and Gilbert's Consolidated Laws Annotated, 1914, v. 9, p. 425)

NORTH CAROLINA

Sec. 1 Upon the consolidation of two or more school districts into one by the county board of education, the said county board of education is authorized and empowered to make provision for the transportation of pupils in said consolidated district that reside too far from the schoolhouse to attend without transportation, and to pay for the same out of the apportionment to said consolidated district: provided, that the daily cost of transportation per pupil shall not exceed the daily cost per pupil of providing a separate school in a separate district for said pupils. (North Carolina: Public Laws, 1911, ch. 135, p. 299-300)

NORTH DAKOTA

Sec. 1190 The district board may call, and, if petitioned by one-third of the voters in the district, shall call an election to determine the question of "conveying pupils at the expense of said district to and from schools already established," or "of consolidating two or more schools, and of selecting a site and erecting a suitable building, or of making suitable additions to buildings already erected, to accommodate the pupils of schools to be vacated." Said elections shall be conducted, both as to notices and as to manner of canvassing the votes, in the same manner as the annual school election. If a majority of the votes cast at such election are in favor of conveying the pupils at the expense of the district to and from schools already established or of consolidating two or more schools and of providing a suitable building for the accommodation of the pupils of vacated schools, then the board shall make all necessary arrangements to carry out the decision of the district. The board shall arrange for the transportation

of pupils to and from such schools. It shall establish routes of travel, adopt rules and regulations for such transportation, and shall contract with responsible parties for such transportation. Provided, that whenever the school board of a district in which a consolidated school is established is unable to make suitable arrangements for the transportation of pupils to and from school, said transportation shall be provided according to the provisions of section 1342. (North Dakota: Compiled Laws, 1913, p. 288)

Sec. 1190 The district school board may call, and if petitioned by one-third of the voters in the district, shall call, an election to determine the question: (1) "to consolidate two or more schools or the territory usually served by two or more schools and select a site and provide a suitable building," or (2) "to select a school already established and, if necessary, make suitable additions thereto to accommodate the pupils of the school to be vacated."

Said election shall be conducted, both as to notices and as to manner of canvassing the votes, in the same manner as the annual school elections. If a majority of the votes cast at such an election are in favor of either proposal, then the board shall carry out the decision of the district within four months thereafter.

In the event of carrying out either proposal prior to or after the passage of this act, it shall be the duty of the board to provide for the transportation of the pupils at public expense to and from the consolidated school, except to those pupils living less than two and one-half miles from such school; and it shall also be the duty of the board, if deemed expedient, to move to the site selected schoolhouses already built or to sell such schoolhouses. (North Dakota: Laws 1915, p. 166).

Sec. 1342 . . . 5. If no school is taught the requisite length of time within two and one-quarter miles of the residence of such child by the nearest route, such attendance shall not be enforced, except in cases of consolidated schools, where the school board has arranged for the transportation of pupils. In school districts where consolidated schools have not been established, the school board shall pay a sum not to exceed thirty-five cents nor less than fifteen cents per day to any one family living more than two and one-quarter miles from the nearest school, which shall be equitably based upon the number of children attending school from each family; provided, that the tender of such a daily compensation shall be construed as furnishing transportation and when such a tender is made by the school board, the compulsory attendance law shall apply to all children of school age living more than two and one-quarter and not to exceed five miles from school; provided, further, that the provisions for transportation shall not apply to deaf, blind and feeble minded children in this state, and this section shall not be construed to apply to parents, guardians, or other person having control of any child or children between the ages of eight and fifteen, inclusive, who desire to send such child or children for a total period of not exceeding six months, which may be taken in one or more years, to any parochial school for the purpose of preparing such child or children for certain religious duties. It shall be the duty of the clerk of the school board to include in his annual statement an item setting forth the amount spent for the transportation of pupils. (North Dakota: Laws 1915, p. 180-81)

OHIO

Sec. 7730 The board of education of any rural or village school district may suspend any or all schools in such village or rural school district. Upon such suspension the board in such village school district may provide and in such rural school districts shall provide for the conveyance of the pupils attending such schools to a public school in the rural or village district, or to a public school in another district. When the average daily attendance of any school for the preceding year has been below twelve, such school shall be suspended and the pupils transferred to such other school or schools as the local board may direct. No school of any rural district shall be suspended or abolished until after sixty days' notice has been given by the school board of such district. Such notice shall be posted in five conspicuous places within such village or rural school district.

Sec. 7731 In all rural and village school districts where pupils live more than two miles from the nearest school the board of education shall provide transportation for such pupils to and from such school. The transportation for pupils living less than two miles from the schoolhouse, by the most direct public highway shall be optional with the board of education. When transportation of pupils is provided, the conveyance must pass within one-half mile of the respective residence of all pupils, except when such residences are situated more than one-half mile from the public road. When local boards of education neglect or refuse to provide transportation for pupils, the county board of education shall provide such transportation and the cost thereof shall be charged against the local school district. (Ohio: Laws 1914, H. B. no. 13, p. 139-40)

Sec. 7646 Each township board of education shall establish and maintain at least one elementary school in each subdistrict under its control, unless transportation is furnished to the pupils thereof as provided by law. (Ohio: Paige and Adams Annotated General Code, v. 3, p. 812)

OKLAHOMA

Sec. 4 The powers and duties of the district boards herein provided and of the several officers shall be the same as those provided by law for school districts and their several officers and in addition it shall be the duty of said district board to provide transportation to and from school for all pupils residing two or more miles therefrom, in suitable vehicles of ample size, with comfortable seats, arranged to conform to the size of the pupils to be carried, with adjustable covers for the comfort and protection of the pupils, drawn by stout, gentle teams, driven by competent persons of good moral character, who shall have control of the pupils during their transportation. Provided, that any consolidated school district may, by a majority vote of the legal voters present and voting at any annual meeting, provide free transportation for all pupils under ten years of age, in said districts whether living more than two miles or not, and such free transportation shall then be furnished to all pupils under ten years of age residing in the district until a change shall be ordered at an annual meeting of such district by a majority vote of all the legal voters present and voting at such meeting. Provided, further, that all independent school districts

having the area, population and assessed valuation equal to that required of consolidated school districts, as provided by law, shall have the authority to provide transportation for pupils, as provided by law. (Oklahoma: Laws 1915, ch. 36, p. 44-45)

OREGON

Sec. 4055 That a district school board of any legally organized district shall, when authorized by a majority vote of the legal voters present at any legally called school meeting, furnish transportation to and from school to all pupils living more than two miles from the school building; and may, at their discretion, provide for the transportation of any and all pupils residing nearer than two miles from the central building; said distance, in either case, to be measured from the inclosure immediately surrounding their residence to the schoolhouse property along the nearest traveled road; Provided, that the district school board may, at its discretion, pay the board of any pupil or pupils at any suitable place near any established school instead of providing conveyance for said pupil or pupils, when, in their judgment, it may be done at an equal or less expense than by conveyance. District school boards of such districts are hereby authorized to pay for the transportation or board of pupils, as provided for in this section, out of the common school fund of their respective districts; and shall, when authorized by a majority vote of the legal voters present at any legally called school meeting, levy a tax upon the taxable property of their districts for the purpose of carrying out the provisions of this section.

Sec. 4056 The district school board of any legally organized district shall, when authorized by a majority vote of the legal voters present at any legally called school meeting, suspend the district school for such time as they may have been authorized, and arrange with any adjoining or other district, or districts, during the time when the school shall be suspended for the instruction of the pupils of such district; and, also, provide for the transportation of any or all pupils residing therein to and from the school house in the district with which the arrangements for their instruction is made, and to pay for the amount of expense incurred in providing for the transportation, and for tuition of pupils in an adjoining or other district or districts. District school boards are hereby authorized to pay for the transportation or board of pupils, as provided for in this section, out of the common school fund of their respective districts, and when authorized by a majority vote of the legal voters present at any legally called school meeting, shall levy a tax upon the taxable property of their districts for the purpose of carrying out the provisions of this section. (Oregon: Lord's Laws, v. 2, p. 1603-4)

PENNSYLVANIA

Sec. 1404 . . . The board of school directors in any school district in this commonwealth may, out of the funds of the district, provide for the free transportation of any pupil to and from the public schools. (Pennsylvania: Laws 1911, p. 381)

RHODE ISLAND

Sec. 7 The school committee of any town may, subject to the approval of the commissioner of public schools, consolidate any schools the average number belonging to each of which is less than twelve, or may unite such school or schools with some other school in order to establish a graded

school or to secure greater efficiency of the schools; and said committee shall have authority to provide, in their discretion, transportation for pupils to and from school. (Rhode Island: General Laws 1909, p. 286)

SOUTH DAKOTA

Sec. 108 When pupils reside more than two and one-half miles from the nearest school house in the school district and not to exceed three miles, then the parent, guardian or pupil shall receive from his school district ten cents per day for each pupil, if more than three miles and not to exceed four miles twenty cents per day. If more than four miles and not to exceed five miles thirty cents per day. If more than five miles forty cents per day. Provided, however, that in cases where more than one pupil from any family receives compensation under the provisions of this section, the total amount allowed for any one family shall not exceed twenty (20¢) cents for traveling three miles or under, and not to exceed forty (40¢) cents for traveling between three and four miles, and not to exceed sixty (60¢) cents for traveling between four and five miles, and not to exceed eighty (80¢) cents for traveling five miles or more. Provided, that such financial provision shall be only for actual attendance at public school and conditioned that the district in no way furnish means of conveyance. Provided, that when any pupil shall have passed the eighth grade, such pupil, his parents or guardian shall not receive payment for transportation to or from school. Provided, that when pupils reside nearer some school in another school township or district than the school board or board of education can make arrangements for the schooling of such pupils at such other school by paying tuition at the rate of (\$2) dollars per month for each pupil so enrolled from any such district, unless some other rate be agreed to between the school boards of districts concerned prior to the enrolment of any such pupil, such tuition to be computed from the time of enrolment until such pupil leaves such school permanently, or to the close of the school term, and such transportation as previously provided for in this section. Provided, further, in determining the distance to be traveled to get to any school the most direct route to be established by the school district board, subject to an appeal as provided in sections 114, 115 and 116, of chapter 135, Session Laws of 1907, shall be the basis of computation. Provided, further, that no township or district shall expend more than eight hundred (\$800) dollars for transportation in any one year. Provided, further, that no payments shall be made until the close of the school year, and if bills allowed are in excess of eight hundred (\$800) dollars, said sum of eight hundred (\$800) dollars shall be divided pro rata, but this act shall not apply to school districts organized as consolidated school districts under chapter 194 of the Session Laws of 1913. (South Dakota: Laws 1915, ch. 163, p. 345-46)

TENNESSEE

Sec. 2 That whenever, by reason of such consolidation, a sufficient number of children is situated too far away from such schools to attend without transportation, said boards of education are hereby authorized and empowered to make provisions for the transportation of said pupils that

reside too far away from said school to attend without transportation, and to pay for same out of the respective public school funds of the county in which such children reside. (Tennessee: Acts 1913, ch. 4, p. 7)

TEXAS

Sec. 6742 All persons or corporations, owning or operating street railways in or upon the public streets of any town or city in this state of not less than forty thousand inhabitants, are required to carry children of the age of twelve years or less at and for one-half the charge or fare regularly collected by such person or corporation for the transportation of adult persons; provided, that this article shall not apply to street cars carrying children or students to and from schools, colleges, or other institutions of learning, situated at a distance of one mile or more beyond the limits of the incorporated city or town from which said cars run.

Sec. 6743 All such persons or corporations, owning or operating street railways, shall sell or provide for the sale of tickets in lots of twenty, each good for one trip over the line or lines owned or operated by such person or corporation, at and for one-half the regular fare or charge collected for the transportation of adult persons, to students not more than seventeen years of age, in actual attendance upon any academic, public or private school, of grades not higher than the grades of the public high schools of this state, situated within or adjacent to the town or city in which such street railway is located. Such tickets are required to be sold only upon the presentation by the student desiring to purchase the same of the written certificate of the principal of the school upon which he is in attendance, showing that he is not more than seventeen years of age, is in regular attendance upon such school, and is within the grades hereinbefore provided. Such tickets are not required to be sold to such students, and shall not be used, except during the months of the year when such schools are in actual session, and such students shall be transported at half fare only upon the presentation of such tickets. (Texas: Vernon's Sayles' Civil Statutes, 1914, v. 4, p. 4386)

WASHINGTON

Sec. 4481 Every board of directors, unless otherwise specially provided by law, shall have power and it shall be its duty

Eleventh. To provide and pay for transportation of children to and from school when in their judgment the best interests of their district will be subserved thereby, but, in case transportation is provided, the directors shall not be compelled to transport children who live within two miles of the schoolhouse. (Washington: Laws 1915, ch. 44, p. 144-45)

WEST VIRGINIA

Sec. 68 Boards of education shall have authority to consolidate two or more subdistricts into a single subdistrict, and where practicable establish a graded or consolidated school therein, and if necessary, provide for the transportation of pupils to and from such school at public expense; provided, that no subdistrict whose school during the last preceding school year maintained an average daily attendance of twelve or more, shall be

consolidated with another subdistrict except with the written consent of at least a majority of the voters of the subdistrict affected.

Contracts for the transportation of pupils shall be let to the lowest responsible bidder, and all expenses shall be paid out of the building fund of the district, under such rules and regulations as the board of education may prescribe. (West Virginia: Acts 1915, ch. 58, p. 383)

WISCONSIN

Sec. 419-*e* In case two or more school districts shall be ordered consolidated, and in case the electors and school board of such consolidated school district shall maintain during any school year a first class rural school, a state graded school or free high school, and the grades below a free high school, and the electors of such consolidated school district shall direct the school board to transport all persons of school age living more than two miles from the school in such district, that may desire to attend school, then the state may repay to such school district ten cents per day for each such person living more than two miles from school, the distance to be measured by the nearest traveled highway, that was so transported to and attended school regularly for at least six months during the school year.

Sec. 419-*f* In case the electors of any such consolidated school district shall desire to take advantage of the provisions of sections 419-*b* to 419-*h*, inclusive, relating to transportation, they may make arrangement with the parents, guardians, or other persons to transport children living more than two miles from school; providing, that such parents, guardians or other persons shall provide for the transportation of the children a comfortable and convenient bus or wagon well supplied with protection against inclement weather, and shall actually transport or provide for the transportation of such children to the school for at least six months.

Sec. 419-*g* Any board of the consolidated school district entitled to aid under the provisions of sections 419-*b* to 419-*h*, inclusive, shall, on or before the fifteenth day of July in each school year, make under oath a report to the state superintendent giving the name of each pupil transported more than two miles, the number of days each such pupil was transported, the mode of transportation, and the total amount claimed by the district on account of all pupils residing more than two miles from school for whom transportation or transportation and tuition have been paid. Upon receipt of such report the state superintendent shall certify to the secretary of state the amount due such district, and the secretary of state shall thereupon issue a warrant in favor of such district, for such amount which shall be paid by the state treasurer to the treasurer of the district from the school funds provided for by section 1072-*a* of the statutes.

Sec. 419-*h* To carry out the provisions of this act there is hereby appropriated annually, out of the moneys assessed and collected under the provisions of section 1072-*a* of the statutes, a sum sufficient to meet all the approved claims coming under the provisions of sections 419-*b* to 419-*h*, inclusive.

Sec. 430-2 The electors shall also have power to order the board to provide for transportation of any or all pupils residing in the district to and from the school or schools with which contracts for tuition are made.

Sec. 430-3 In all cases where the electors have voted to suspend the school in their district or have directed the board to pay for tuition or for transportation they shall provide by tax upon the district, a sum sufficient to meet the cost of the tuition or the transportation or both; provided, that if any district at its annual or at a subsequent special meeting prior to the third Monday of November following shall not vote a tax sufficient to pay for tuition or transportation or both for the time during which the school is suspended, the district board, on or before the Wednesday next following said third Monday of November, shall determine the sum necessary to pay for tuition or transportation or both, as the case may be, and the district clerk shall at once certify to the town clerk the amount so fixed and the town clerk shall assess said amount as other district taxes are assessed.

Sec. 430-4 It shall also be lawful for the electors of any school district to authorize the school board or town board of school directors to enter into an agreement with the parent, guardian or other person in charge of any pupil to compensate such parent, guardian or other person for transportation, or providing for the transportation of any pupil or pupils to and from school, and to enter into contracts for the transportation to and from school of all persons of school age who attend, and to levy a tax therefor; provided, that in all cases where the distance from the home of the pupil or pupils, who are to be transported, is two miles or less by the nearest traveled highway, the sum per pupil so paid shall be such as may be authorized by the electors, and in all cases where the distance is more than two miles the state may be called upon to pay five cents per day for each such pupil transported regularly to and from school in some reasonable and comfortable manner for a period of not less than five months. The school board or the town board of school directors and the principal teacher of the school in which such pupil is enrolled shall, on or before the fifteenth day of July of each year, make under oath a report giving the name of each pupil transported more than two miles, the number of days such pupil was transported, the mode of transportation and the total amount claimed by the district on account of all pupils residing more than two miles from school, for whom transportation or transportation and tuition have been paid.

Sec. 430-5 Upon receipt of such report the state superintendent shall certify to the secretary of state the amount due such district and the secretary of state shall thereupon issue a warrant in favor of such district for such amount which shall be paid by the state treasurer to the treasurer of the district from the school funds provided for by section 1072-a of the statutes.

Sec. 496-g Whenever the electors of any rural school district maintaining a one or two department rural school, shall direct the school board or the town board of school directors to close the district school, and provide transportation and tuition for all persons of school age, who may desire to attend school, at a district maintaining a one or two department rural school, or a state graded school, or the grades below the free high school in a free high school district, each such rural school district shall receive special state aid in the sum of one hundred fifty dollars annually upon complying with the following conditions:

(1) Transportation and tuition shall be provided for at least thirty-two weeks including legal holidays for all persons of school age desiring to attend school during the school year.

(2) The average daily attendance of the pupils transported under the provisions of this act from any district or subdistrict to the school in any rural school district, or to a state graded school, or to the grades in a district maintaining a free high school shall be at least eighty per cent of the entire number enrolled for transportation to such school during each term of school.

(3) The district board shall in all cases where the school is closed and transportation is provided by team, enter into a written contract in the name of the district with one or more persons, whereby it is agreed that such person or persons are to safely and carefully carry or provide for carrying the children to and from the school or schools in the district where provision has been made for their schooling.

(4) The driver of each transportation wagon shall be of good moral character, trustworthy and responsible; shall furnish a safe team and a suitable and comfortable bus or wagon well supplied for protection against stormy and inclement weather; such driver shall have control of and be responsible for the good order and behavior of the children while in the conveyance going to and returning from school, and shall prohibit the use of profane or unseemly language upon the part of the pupils, and shall report all cases of insubordination while on the wagon to the parents and to the school board of the district. Be it also understood that in cases where it is practicable conveyance by interurban, steam railway or automobile shall be equivalent for transportation or conveyance by a team.

(5) No state aid under the provisions of sections 496-*q* to 496-*t*, inclusive, shall be paid to any district providing transportation and tuition for its pupils at a district maintaining a rural school of one or more departments, unless the school in the district where such nonresident children attend shall be a first-class rural school as defined in sections 560-*f* to 560-*m*, inclusive, and acts amendatory thereof, and it is further provided, that in case the district entering into a contract for the schooling of nonresident pupils, according to the provisions of sections 496-*q* to 496-*t*, inclusive and shall fail to maintain a first-class rural school as provided in sections 560-*f* to 560-*m*, inclusive, then such school districts shall forfeit their rights to collect tuition from the district where such nonresident children reside for such school year or part of a school year that the school in such school district shall not have been maintained as a first-class rural school.

(6) The school board of each district taking advantage of sections 496-*q* to 496-*t*, inclusive, shall make annually, on or before the first day of August, a special report under oath to the state superintendent of public instruction showing that the above conditions have been complied with, and this report shall give the names and ages of the persons transported, the number of days each such person was transported and attended school, the rate of tuition paid and the amount of tuition paid for each person.

(7) It shall be the duty of the county superintendent of schools in any county where a rural school takes advantage of the provisions of sections 496-*q* to 496-*t*, inclusive, and provides transportation and tuition for persons

of school age at a rural school, to report annually to the state superintendent upon the blanks furnished by him, such information as he may request for the purpose of ascertaining if the rural school in such district during the year for which aid is demanded was maintained as a first-class rural school, according to the provisions of sections 560-*f* to 560-*m*, inclusive.

(8) Upon the receipt of such sworn statement of the school board and in case of the attendance of pupils at a rural school of a satisfactory report from the county superintendent of schools, it shall be the duty of the state superintendent to certify to the secretary of state the amount due each such school district under the provisions of sections 496-*q* to 496-*t*, inclusive. It shall then become the duty of the secretary of state to draw his warrant for the amount certified in favor of the treasurer of each such school district.

(9) In case of a disagreement concerning the standard of work done in any rural school, the decision of the state superintendent shall be final, and he shall have power either in person or through inspectors of schools, to investigate the quality of work done and equipment offered in any of the schools accepting nonresident pupils under the provisions of sections 496-*q* to 496-*t*, inclusive.

Sec. 496-*r* The school district board shall embody in the notices of every annual or special meeting at which any or all of the provisions of sections 496-*q* to 496-*t*, inclusive, are to be considered, a statement of the effect that the electors will be called upon to vote upon such questions; said notices to be posted as provided in sections 426 and 427 of the statutes; provided, however, that failure to include such statements in the notices posted for the annual school district meeting shall not prevent the electors from considering and voting upon such questions.

Sec. 496-*s* To carry out the provisions of sections 496-*q* to 496-*t*, inclusive, there is hereby appropriated annually out of the moneys assessed and collected under the provisions of section 1072-*a* of the statutes, a sum sufficient to meet all the approved claims coming under the provisions of sections 496-*q* to 496-*t*, inclusive.

Sec. 496-*t* Each district taking advantage of sections 496-*q* to 496-*t*, inclusive, shall receive the same apportionment of the state and other taxes as provided by law, as would have been received had school been maintained in the district.

Sec. 496-*g* The officers of any consolidated rural school district may enter into contracts for the transportation of pupils to the consolidated rural schools maintained under their authority.

Sec. 496-10 The school board of any consolidated rural school district established and formed under the provisions of sections 496-1 to 496-12, inclusive, must provide transportation to and from the consolidated school for all children of school age residing more than two miles from such consolidated school, the distance to be measured by the regularly traveled highway. In case the electors of such consolidated rural school district fail to levy a sufficient amount to enable the school board to provide for the transportation as required by this section, the board shall on or before the second Wednesday in November certify to the town clerk a tax sufficient to meet all obligations arising on account of contracts entered into

for the transportation of children living more than two miles from school, which tax, when so certified to the town clerk, shall be levied and collected as other district taxes are now levied and collected.

Sec. 496-12 It shall also be lawful for the electors to authorize the school board to enter into an agreement with the parent, guardian or other person in charge of any pupil, to compensate such parent, guardian or other person, for transporting any pupil or pupils to and from school, and to enter into contracts for the transportation to and from school of all persons of school age who attend, and to levy a tax therefor. In all cases where the distance from the home of the pupil or pupils who are to be transported is two miles or less by the nearest traveled highway, the sum per pupil so paid shall be such as may be authorized by the electors; and in all cases where the distance is more than one and less than two miles, the state shall pay five cents per day, and where the distance is more than two miles, ten cents per day for each pupil transported regularly to and from school in some reasonable and comfortable manner for a period of not less than five months. The school board and the principal teacher of the school in which such pupil is enrolled, shall on or before the fifteenth day of July of each year, make under oath a report giving the name and showing the distance and number of days each pupil was transported, the mode of transportation, and the total amount claimed by the districts on account of such transportation. (Wisconsin: Statutes 1915, p. 252-53, 256-57, 318-19, 320-21)

COURT ACTIONS

Two actions were instituted in the courts for the purpose of testing the constitutionality of the township law.

Soon after the law went into effect reports were circulated in the town of Greenburgh, Westchester county, to the effect that the taxes imposed under the township law would be much larger than the taxes imposed for the maintenance of schools under the old district system, and a meeting of the citizens of that town was held to determine whether or not a court proceeding should be instituted to test the constitutionality of the law. Attorneys attended such meeting and gave their opinion as to the constitutionality of the law. The citizens were advised at the meeting to test the law and it was agreed that an action should be instituted.

Some time after the action had been instituted in Westchester county, the Honorable James W. Wadsworth of Geneseo instituted a second action in the county of Livingston. Substantially the same questions were raised in the case in Livingston county which were raised in the case in Westchester county.

The questions raised in these cases, if sustained by the courts, would have invalidated nearly all the cases of consolidations of school districts which had taken place in the last fifty years.

Each of the above cases is so important and has such a vital bearing upon school administration and on the organization of school systems that the complete record of each is given. These records are as follows:

Complaint, Affidavits, Order to Show Cause
SUPREME COURT OF THE STATE OF NEW YORK
 COUNTY OF WESTCHESTER

ELMO BROWN, BERNARD CALL and WALTER H. WHIFFEN, constituting the board of trustees for school district No. 8, town of Greenburgh, Westchester county, State of New York,

Plaintiffs

against

WILLIAM BUNSELMEYER, WILLIAM C. EMERICK and CHARLES H. SCHOCK, individually and as claiming to constitute the town board of education for the town of Greenburgh, Westchester county, State of New York, and **WILLIAM A. BUCKLEY**, receiver of taxes of the town of Greenburgh, Westchester county, State of New York,

Defendants

Trial
desired in
Westchester
county

The plaintiffs, by Cohen & Richter, their attorneys, complaining of the defendants, allege:

1 The plaintiffs are the trustees of school district no. 8 of the town of Greenburgh, county of Westchester and State of New York, duly organized and existing under the Education Law, being chapter 21 of the Laws of 1909, or chapter 16 of the Consolidated Laws, as amended, and constituting, under section 270 of said law, the board for such district as a body corporate, and holding, pursuant to said law, all property vested in and transferred to said trustees for the use of schools in the district. That such trustees possess all the powers and are subject to all the duties, liabilities and penalties imposed by the Education Law upon such trustees, including the power to purchase and hold school house property, to have the custody and safeguarding thereof, to levy assessments and to collect taxes sufficient for the maintenance of said schools.

2 The defendant William A. Buckley is receiver and collector of taxes for the town of Greenburgh, county of Westchester, State of New York.

3 That school district no. 8 aforesaid has existed as a school district for more than sixty years and its affairs have been managed by trustees. That it now owns and holds the site and buildings used for school purposes on the Dobbs Ferry road, having an approximate valuation of \$16,000. That expenditures for said school approximate \$8000. That seven teachers are employed therein, and that the average attendance during the preceding

year was approximately 200 pupils. The plaintiffs have in their hands as such trustees a cash balance of \$1300.

4 The defendants Bunselmeyer, Emerick and Schock above named, claim to be the duly authorized board of trustees constituted for the town of Greenburgh, under and pursuant to chapter 328 of the Laws of 1917, amending the said Education Law.

5 That said chapter 328 added to the Education Law a new article, entitled "X1-A," which purported to create town boards of education.

6 Section 352 thereof provided as follows:

"Sec. 352. School district officers abolished; terms continued to collect funds, pay claims, et cetera.

1 All trustees, members of boards of education and other school officers of school districts subject to this article, in office when this act takes effect, shall continue in office to and including the thirty-first day of July, 1917, when the offices of trustees, members of boards of education, district clerks, collectors, treasurers and other school district officers of such districts shall be and are hereby abolished and the terms of such officers shall cease except as herein provided.

2 The trustees, boards of education and other officers, of each district, enumerated in subdivision 1 of this section, are hereby continued in office with all the powers and duties conferred on such officers by the education law or other statutes, including the power of levy, assess and collect taxes for the purpose of closing up the business and financial affairs of such district and of satisfying its obligations except bonded indebtedness, adjusting its claims, collecting funds due it and paying its just debts. After liquidating all outstanding obligations except bonded indebtedness, and settling of adjusting all claims against such district, and closing up all its financial affairs as a district, such officers shall apportion any funds remaining in the treasury, except moneys received from the state, among the taxpayers of the district in the manner now provided by law. Such apportionment shall be based upon the relation of the assessed valuation of such taxpayers to the aggregate assessed valuation of the district. The portion of such funds which consists of moneys received from the state shall be paid into the town school treasury."

7 Section 354 thereof provided as follows:

"Sec. 354. Election of board of education.

1 The first board of education of each town thereof shall be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article. The said trustees and members of boards of education shall meet for such purpose on the second Tuesday in June, 1917, in one of the school houses in the town to be designated by the district superintendent of schools. The said trustees and members of boards of education shall organize by the election of a chairman and clerk. They shall thereupon proceed to elect members of the board of education of the town to hold office for the term specified in section 331 of this article. The persons elected as members of such board shall be residents of the town and qualified electors at school meetings therein. Not more than three of the members of such board of education

shall reside in the same school district, except in towns in which there are less than three school districts. The chairman and clerk of the meeting shall canvass the votes cast for the candidates for the offices to be filled and the candidate receiving a majority of the votes cast shall be elected. The chairman and clerk of the meeting shall thereupon notify the district superintendent in writing of the persons declared elected as members of said board, and the district superintendent shall give notice of such election to the persons so elected. As the terms of office of such members expire their successors shall be elected at the annual school meeting.

The district superintendent of schools shall call a meeting of the board of education of each town in his supervisory district, elected as above provided, on the first day of August, in 1917, at the principal schoolhouse of the town, for the purpose of organization and the transaction of any other business which may properly come before such board. Upon the election of a clerk of such board, the chairman and clerk of the meeting held for the purpose of electing members of the board of education shall file the minutes of the meeting with such clerk."

8 By said chapter 328 of the Laws of 1917 it was provided that there should be established, to begin on the 1st day of August, 1917, a town board of education in each town of the State, which should thereafter have jurisdiction over all the schools in the town as provided in said act.

9 There was, however, specifically excepted from the said act, by section 331 thereof, "union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more at the time this act takes effect, and the school districts in the several towns of a county which adjoins a city having a population of one million or more in which there are only two district superintendents"

10 That the said statute, in the form in which it was originally introduced in the Legislature, Assembly bill introductory no. 911, print no. 1016, provided for the establishment of a town board of education in each town of the State, which should thereafter have jurisdiction over all the schools in the town, and excepted from the operation of said act "union free school districts having a population of fifteen hundred or more." That in the amendment and reprint of the said bill, 1872, the said provision was changed so as to except from the operation of the said law, "union free school districts having a population of fifteen hundred or more or employing more than fifteen teachers," and likewise excepted "the school districts in the several towns of a county which adjoins a city having a population of one million or more and in which there are at least two district superintendents."

11 That in the final amendment of the bill before it was passed by the Legislature, the words "at least" aforesaid, were changed to "only," so that section 331 as adopted by the Legislature and signed by the Governor reads that its provision shall not be applicable to school districts having a population of 1500 or more or employing fifteen teachers or more, and "school districts in the several towns of a county which adjoins a city having a population of one million or more and in which there are only two district superintendents."

12 The only city in the State of New York having a population of 1,000,000 or more is the city of New York, and the only counties adjoining the city

of New York are the counties of Nassau and Westchester. Westchester county has, and for a long time past has had four district superintendents. Nassau county has, and for a long time past has had but two district superintendents.

13 That the foregoing provision by which Nassau county is excepted from the operation of the law and Westchester county is included is unconstitutional and void, in that it unreasonably discriminates against the residents and taxpayers of the county of Westchester; that whatever reason may exist for a system of education in rural districts throughout the State requiring the consolidation of school districts, no such reason is applicable to Westchester county, and if such a reason exist applicable to Westchester county, it is equally applicable to Nassau county. That it is apparent that the reason for the amendments made to the legislation while passing through the Legislature was that districts having a population of more than 1500 and employing more than fifteen school teachers, and counties adjoining a city so large as New York City, were, in the opinion of the Legislature, so peculiarly situated that the general policy and principles of legislation could not be carried out in such districts. But the limitation of the application of the exception to counties adjoining a city having a population of 1,000,000 or more to the one district in which there are only two district superintendents is arbitrary and without reason and discriminatory against the residents and taxpayers of the county of Westchester.

14 Upon information and belief, the plaintiffs allege, further, that the said act is unconstitutional and void, in that it violates article 9, section 1, of the constitution, which requires "that the Legislature shall provide for the maintenance and support of a system of free common schools wherein all the children of this State may be educated." The plaintiffs allege that said provision of the constitution is intended to guarantee to all the children of the State equality of opportunity for securing free common school education.

15 Upon information and belief, that the total assessed valuation of real estate within district no. 8 aforesaid, is \$2,536,210. That in the year 1915 the school tax rate per thousand in said district was 3.007; in 1916, 2.991. That if there be included within the town board of the Town of Greenburgh the districts nos. 5, 6, 7, 8 and 9, constituting respectively the districts of Ardsley, Scarsdale and Hartsdale, the districts represented by the plaintiffs, and the village of Elmsford, the school tax rate will be raised to 5.734 per thousand.

16 Upon information and belief, that in district no. 6 (Scarsdale), the school tax rate in 1915 was 2.597 per thousand; in 1916, 3.027. That in district no. 7 (Hartsdale), the school tax rate during 1915 was 2.419; and in 1916, 1.848, and that under the new consolidation of districts under the operation of the said law (chapter 328 of the Laws of 1917), the school tax rate for said district no. 6 (Scarsdale) and no. 7 (Hartsdale) will be 5.734. That the school tax rate for district no. 9 (village of Elmsford) for 1915 was 7.54, and for 1916, 7.315; and for district no. 5 (Ardsley), for 1915, the school tax rate was 8.659, and for 1916, 5.717, and that by such consolidation the rate per thousand for each of said two districts, Elmsford and Ardsley, will become 5.734.

17 Upon information and belief, that the children who attend the school of district no. 8 are entirely children of parents who cannot afford to send them to private schools or to the school at White Plains, while from the districts of Elmsford and Ardsley many children are sent to the school at White Plains.

18 Upon information and belief, that the village of Elmsford has a brick school building, located upon one and a half acres of land, valued at at least \$45,000; that said village of Elmsford has already a bonded school indebtedness of \$30,000, and proposes to raise another bonded indebtedness of between \$30,000 and \$40,000; that the school district of Ardsley has a brick school house covering a site of one and a half acres, and is worth not less than \$100,000; the said district has a bonded indebtedness of at least \$60,000. That the entire bonded indebtedness of district no. 8 (district represented by the plaintiff) is \$6000. The school building is a frame school building covering not more than an acre and a quarter and valued at \$16,000.

19 Upon information and belief, that the total expenditures for the school for district no. 8, during the year 1916, were not more than \$8000.

20 That said chapter 328 of the Laws of 1917 provides (sec. 355) for an annual meeting in each town on the first Tuesday in May in each year, of which notice shall be given (sec. 356) by publication in at least two newspapers and at which duly qualified voters shall be entitled to vote, and prior to which, and on or before the first day of April in each year (sec. 359), the clerk of the board shall prepare a list of such persons qualified to vote. That candidates (sec. 360) for members of the said board of education shall be nominated by petition, which shall be signed by at least twenty-five qualified electors, shall state the names and residences of the candidates and whether such candidates are nominated for full terms or for the unexpired portions of such terms, and such petitions shall be filed with the clerk of the board of education on or before the fifteenth day preceding the day of the annual school meeting. The said act further provides that official ballots shall be printed by the board of education, containing the names of all candidates nominated as above provided, which ballots shall separately state whether the persons named thereon are candidates for full terms or for portions of terms, and upon which shall be printed alphabetically the names of the candidates, according to their surnames, in columns under titles or designations, showing whether they are to be elected for full terms or portions of terms; that blank spaces shall be provided so that persons may vote for candidates who have not been nominated for the offices to be filled at such election, and such blank ballots shall have printed thereon instructions as to the marking of the ballots and the number of candidates for the several offices for which an elector is permitted to vote. The said act further provides that the number of ballots to be used shall at least equal the number of qualified electors in the town, as appears from the list of qualified electors thereof; that the clerk of the board shall cause to be delivered to the inspectors in each of such election districts, on the day of the meeting, a sufficient supply of such ballots for the use of the qualified electors thereof, and that such ballots shall be printed at the expense of the

town and the cost thereof shall be paid out of the school funds, in the same manner as other school expenses. The said act further provides (sec. 361) for the designation of three inspectors of election for each election district into which such town has been divided, to be appointed by the board of education of such town, and that written notice of appointment should be given by the clerk of such board to the persons so appointed. That such board of inspectors shall, before opening the polls in the election district for which they are appointed, organize by electing one of their number as chairman and one as poll clerk. Said act further provides (sec. 362) that all elections as provided herein, shall be conducted, so far as may be, in accordance with the provisions of the election law relative to general elections, except as otherwise provided herein; that suitable ballot boxes shall be provided by the board of education, to be used at such school meetings, and that such ballot boxes shall conform, as nearly as may be, to the provisions of the election law relative to ballot boxes at general elections. The said act further provides (sec. 362), that all persons whose names appear upon the list of qualified electors, as residing in the town or election districts, shall be permitted to vote and shall be given ballots for such purpose. Said act further provides that any qualified elector may challenge the right of a person to vote, at the time when he requests a ballot, and provides for the manner in which such challenge shall be disposed of. Said act further provides that a person who wilfully makes a false declaration as to his right to vote at such meeting, is guilty of a misdemeanor. Said act further provides (sec. 363) for a canvass of the votes by the inspectors, for the manner in which invalid ballots shall be recorded and counted, for the manner in which an appeal may be taken to the Commissioner of Education from such election, and for the declaration of election of the successful candidate, and for the acceptance or declination of such candidate.

21 Notwithstanding the elaborate provisions made in the said act for the election of members of the said town board of education, nevertheless, the said act provides (sec. 354): "The first board of education of each town thereof shall be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article." That for such purpose the said trustees and members of the boards of education shall meet on the second Tuesday in June in one of the schoolhouses in the town to be designated by the district superintendent of schools, and the said trustees and members of boards of education shall thereupon elect a chairman and clerk and proceed to elect members of the board of education of the town, to hold office for the term specified in section 331 of this article. That section 352 of the said act provides that all trustees, members of boards of education and other school officers of school districts subject to this article, in office when this act takes effect, shall continue in office to and including the thirty-first day of July, 1917, when the offices of trustees, members of boards of education, district clerks, collectors, treasurers and other school district officers of such districts shall be and are hereby abolished and the terms of such officers shall cease as herein provided.

22 That subdivision 1 of section 354 of said chapter 328 is in the following language: "The first board of education of each town thereof shall

be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article." The presence of the comma between the word "town" and "subject," as the plaintiffs are informed and verily believe, leaves it open to judicial interpretation as to whether or not the words "subject to the provisions of this article" apply to the election, or whether they apply to the members of the board of education or the school districts which shall be entitled to vote at the election of the trustees of the town board. That as appears from other sections of the said law, notwithstanding the termination of the offices of the old school district trustees, they are, nevertheless, "subject to the provisions of this article." Subdivision 2 of section 352, providing that "trustees, boards of education and other officers, of each district, enumerated in subdivision 1 of this section are hereby continued in office with all the powers and duties conferred on such officers by the education law or other statutes, including the power to levy, assess and collect taxes for the purpose of closing up the business and financial affairs of such district and of satisfying its obligations, except bonded indebtedness, adjusting its claims, collecting funds due it and paying its just debts."

23 The plaintiffs are informed and believe that all of the provisions relating to the election of the first board of education are unconstitutional, null and void, in that they violate section 2 of article 10 of the constitution of the State of New York, which provides that "all other officers whose election or appointment is not provided for by this constitution, and all officers whose offices may hereafter be created by law, shall be elected by the people, or appointed, as the Legislature may direct." In that more particularly, the provision for the election of the first board of trustees does not provide for the election of the said board of trustees by the people.

24 School district no. 9 comprises the village of Elmsford, duly incorporated as a village under the village law of the State of New York. Upon information and belief, the said village of Elmsford has for the year last past had a population of more than fifteen hundred.

25 Upon information and belief that on the second Tuesday in June last, there was held what purported to be an election for membership in a town board of education for the town of Greenburgh. That such meeting was held in the village of Elmsford at the Elmsford schoolhouse. That notwithstanding the provisions of the said chapter 328 of the Laws of 1917, and the provisions of the constitution of the United States as well as of the State of New York, the said village of Elmsford participated in the said election of the trustees and other villages participated in said election, and an alleged election took place, at which the defendants Bunselmeyer, Emerick and Schock were declared to be elected as the trustees of the town of Greenburgh, under and pursuant to the provisions of said chapter 328 of the Laws of 1917.

26 That the plaintiffs were represented at said meeting and made vigorous and earnest protest against the holding of the said alleged election, and fully notified the chairman presiding that the plaintiffs contended that the said election was null and void, and that the provisions of the statute under which the same was held were unconstitutional and null and void. That notwithstanding the plaintiffs' protests the meeting proceeded and the defend-

ants Bunselmeyer, Emerick and Schock, as aforesaid, were declared to be the duly elected trustees, and have since asserted their right to act as trustees, as aforesaid.

27 That the plaintiffs received protests from taxpayers within school district no. 8, and demands that proceedings be taken by the plaintiffs to contest the validity of the provisions of law aforesaid, and to restrain the defendants Bunselmeyer, Emerick and Schock from taking over the property funds of school district no. 8, and from assessing and levying any tax against the taxpayers within said district.

28 That on the 23d day of August, 1917, a taxpayers' meeting was held in the schoolhouse on Dobbs Ferry road in said district, and that at said meeting there were present at least thirty taxpayers; that the meeting decided, with but only three votes dissenting, to request the trustees to bring appropriate proceedings to test the constitutionality of the said law and the authority of the defendants Bunselmeyer, Emerick and Schock to administer the affairs of school district no. 8, and the power of the said defendants to levy and assess a tax against the property of said taxpayers.

29 That subsequently thereto the said action of said meeting was ratified and confirmed by the taxpayers within the school district no. 8, representing approximately \$1,800,000 of taxable property at its present assessed valuation, and that in addition thereto taxpayers within school district nos. 6 and 7 have joined in the support of the said request, so that a total of taxpayers owning property within the said districts, amounting in assessed valuation to upwards of \$2,500,000, have joined in the support of this action. That while these papers are being drawn other taxpayers in said districts are signing a form of ratification and approval of these proceedings.

30 That notwithstanding the protests of the plaintiffs the defendants Bunselmeyer, Emerick and Schock have proceeded and are now proceeding to exercise authority over the school property within the respective districts in the town of Greenburgh, including the said district no. 8, and that to that end they have asserted and are still asserting their right to levy a tax upon all the property of the taxpayers in said district and have already fixed and determined the rate of 5.734 as the school tax rate for the ensuing year; that they have already made up the assessment rolls for said district and are about to extend the amount of the tax levied against each property owner, and have announced that they will do so on Monday next, to wit, October 15, 1917. That the said defendants have also demanded of the plaintiffs that they turn over to the defendants all school property of every kind, nature and description, and that they threaten to take proceedings to enforce the said demand.

31 That unless there is a speedy determination of the questions herein involved, great hardship and irreparable damage will ensue to the taxpayers of the said district, and the administration of the schools will be confused, to the great injury of the children, a multiplicity of suits will result from the questions involved, and the plaintiffs will be unable to perform their duties as trustees. That until there is a determination of the validity of the provisions of chapter 328 of the Laws of 1917 aforesaid, the plaintiffs are charged by law with the duty of administering the property in their hands as trustees, and are subject to severe penalties for failure so to do.

32 That the plaintiffs have no adequate remedy at law; that acting under the authority of section 346 of said chapter 328 of the Laws of 1917, the defendants Bunselmeyer, Emerick and Schock have made a tax budget and are causing the amounts specified in said tax budget to be levied and assessed against taxable property within the portion of the town of Greenburgh, which they allege is subject to the provisions of said law, and that said defendants are about to annex thereto a warrant for the collection thereof, directing the said defendant Buckley, as collector of the town, to collect the tax so levied and assessed and to pay over the amount thereof to the town school treasurer; and that by reason thereof the plaintiffs will be interfered with in the performance of their duties under the law, and great confusion in the collection of taxes will result.

WHEREFORE, the plaintiffs pray to this court for a determination of their rights and duties as trustees aforesaid, and for a determination by this court that the said chapter 328 of the Laws of 1917 be declared unconstitutional, null and void, in that it violates the provisions of the constitution of the United States and the constitution of the State of New York, and in that more particularly it violates section 1 of article 14 of the constitution of the United States, section 1 of article 9, and section 2 of article 10 of the constitution of the State of New York, and further, that the defendants and each of them restrained from exercising any of the powers alleged by them to be vested in them under the provisions of chapter 328 of the Laws of 1917, or any part thereof, and more especially that they be restrained from taking over any of the property formerly held by the trustees of school district no. 8, and from levying or collecting any tax against the property of any of the taxpayers therein, and that pending the hearing and determination of this suit the said defendants be temporarily enjoined and restrained from doing any of the aforesaid things or performing any of the aforesaid acts.

Kings Co., No. 174

Certificate filed in New York Co., No. 195

Preliminary Injunction

SUPREME COURT OF THE STATE OF NEW YORK

COUNTY OF WESTCHESTER

It appearing to my satisfaction by the complaint herein, duly verified the 12th day of October, 1917, and by the affidavits thereto annexed, that the plaintiffs demand a judgment against the defendants restraining the commission of the acts hereinafter enjoined, and that the commission or continuance of said acts during the pendency of this action would necessarily produce serious and irreparable damage and injury to the plaintiffs and multiplicity of suits, and that there is a question as to the validity and interpretation of chapter 328 of the Laws of 1917, by which the management of school district boards is transferred to town boards, and it appearing that the defendants are about to levy and collect a school tax against the taxpayers in the district over which the plaintiffs assert jurisdiction, and it further appearing to my satisfaction by said complaint and affidavits that there is good and sufficient reason for believing that the defendants are about to do said things, and that by reason of the multiplicity of suits that will have to be brought by the taxpayers within the said districts the plaintiffs have no adequate relief or remedy except through the injunctive relief of a court of law, and the plaintiffs having duly given the undertaking required by law,

Now, upon reading the summons in this action, dated the 11th day of October, 1917, the complaint duly verified the 12th day of October, 1917, the affidavits of Elmo Brown and Harry Haupt, each duly verified the 12th day of October, 1917, and the affidavit of John H. Lauren, duly verified the 11th day of October, 1917, and upon such other affidavits as may be served upon the defendants at least twenty-four hours prior to the return of this order to show cause, and upon motion of Messrs Cohen & Richter, attorneys for the plaintiffs herein, it is

ORDERED, that the defendants and each of them, their agents, servants and employees, be and they are hereby enjoined and restrained until the further order of this court:

1 From levying or attempting to levy, or from collecting or attempting to collect any tax against any of the taxable property of taxpayers within school district no. 8 of the town of Greenburgh, Westchester county, State of New York.

2 From exercising any control or authority over the school property said school property situated within the said district.

3 From incurring any indebtedness or obligation chargeable against the said school property.

4 From interfering in any way with the performance by the plaintiffs of their duties as trustees of school district no. 8.

5 From asserting any power or authority to act as trustees of the town board of education.

Sufficient cause appearing therefor, it is further

ORDERED, that the defendants, and each of them, show cause before this court, at a special term whereof, to be held at Goshen, Orange county, State of New York, at the county court house, on the 19th day of October, 1917,

at 10:30 o'clock in the forenoon of said day, or as soon thereafter as counsel can be heard, why the injunction herein granted should not be continued during the pendency of this action, and why the defendants should not be further enjoined as and for enforcing any power asserted by them to be vested in them under and pursuant to chapter 328 of the Laws of 1917.

Sufficient ground appearing therefor, it is further

ORDERED, that the plaintiffs may use in support of this injunction and of the motion to continue the same, any affidavits or other papers served on the defendants or their attorney not later than twenty-four hours prior to the return day hereof.

Sufficient ground existing thereof, service of this order, with copies of the papers heretofore recited, on or before the 17th day of October, 1917, shall be deemed sufficient service thereof.

Dated, New York, October 13, 1917.

A. S. TOMPKINS,
*Justice of the Supreme Court
of the State of New York*

Answer of Defendants Bunselmeyer, Emerick and Schock

SUPREME COURT OF THE STATE OF NEW YORK

COUNTY OF WESTCHESTER

The defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, individually and as trustees of the town board of education for the town of Greenburgh, Westchester county, State of New York, in answer to the complaint of the plaintiffs' herein, by David Tepp, their attorney, allege:

1 Deny each and every allegation contained in paragraphs designated "First," "Thirteenth," "Fourteenth," "Twenty-third," "Twenty-fourth," and "Thirty-first" in plaintiffs' complaint.

2 Deny each and every allegation contained in paragraph designated "Twenty-second" in plaintiffs' complaint, except that subdivision 1 of section 354 and subdivision 2. of section 352 of chapter 328 read as therein set forth in quotation marks.

3 Deny each and every allegation in paragraph designated "Thirty-second" of plaintiffs' complaint, except that the defendants Bunselmeyer, Emerick and Schock have made up a tax budget and are causing the amounts specified in said tax budget to be levied, etc., as alleged, and that said actions are done under authority of section 346 of chapter 328 of the laws of 1917.

4 Deny any knowledge or information sufficient to form a belief as to any allegations in paragraphs designated "Seventeenth," "Eighteenth," "Nineteenth," "Twenty-seventh," "Twenty-eighth," and "Twenty-ninth" of plaintiffs' complaint.

WHEREFORE, the defendants herein named demand judgment dismissing the complaint herein, together with the costs and disbursements of this action.

Order Vacating Injunction

At a special term of the Supreme Court, held in and for the county of Westchester, at the county court house, in the city of White Plains, on the 24th day of January, 1918.

Present:

Hon. WILLIAM P. PLATT, *Justice*

ELMO BROWN, BERNARD CALL and WALTER H. WHIFFEN,
constituting the board of trustees for school district
no. 8, town of Greenburgh, Westchester county, State
of New York,

Plaintiffs

against

WILLIAM BUNSELMEYER, WILLIAM G. EMERICK and
CHARLES H. SCHOCK, individually and as claiming to
constitute the town board of education for the town
of Greenburgh, Westchester county, State of New
York, and WILLIAM A. BUCKLEY, receiver of taxes
of the town of Greenburgh, Westchester county, State
of New York,

Defendants

On reading and filing the order to show cause herein, dated the 19th day of January, 1918, the affidavit of David Tepp, verified January 19, 1918,

the summons and complaint herein, and all the filed papers herein, the telegram of Frank B. Gilbert, dated January 23, 1918, the telegram of Merton E. Lewis, dated January 23, 1918, and a further telegram of said Merton E. Lewis, dated January 23, 1918, and the affidavit of Julius Henry Cohen, verified the 23d day of January, 1918, and upon hearing David Tepp (Joseph Rosenzweig, of counsel), in support of the motion, and Messrs. Cohen & Richter (Theodore Richter, of counsel), in opposition, it is

Now, on motion of David Tepp, attorney for the defendants,

ORDERED that the motion brought up for hearing by said order to show cause of January 19, 1918, be and the same hereby is in all respects granted; and it is

FURTHER ORDERED that the injunction order herein contained in the order of Honorable Arthur S. Tompkins, dated Oct. 13, 1917, and the injunction order thereafter entered herein in the office of the clerk of the county of Westchester on the 23d day of November, 1917, as well as any and all other injunctions and stays heretofore in any manner granted herein, be and the same hereby are as to each and every one of them vacated and set aside.

Enter,

WILLIAM P. PLATT,

J. S. C.

Findings of Fact and Conclusions of Law

SUPREME COURT OF THE STATE OF NEW YORK

WESTCHESTER COUNTY

This cause having come regularly on for trial before this court at special term, without a jury, the trial having been completed and this cause submitted to the court for its decision, on the 13th day of November, 1917, plaintiffs appearing by Messrs Cohen & Richter, their attorneys, and by Julius Henry Cohen, Esq., of counsel, the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, constituting the town board of education for the town of Greenburgh, county of Westchester, State of New York, appearing by David Tepp, Esq., their attorney; the defendant, William A. Buckley, as receiver of taxes for the said town of Greenburgh, appearing by Frank D. Brigg, Esq., his attorney, and the State Department of Education appearing amicus curiae, by Hon. Merton E. Lewis, Attorney General; and the court having heard the allegations and proofs and the arguments of counsel, and having duly considered the same, and having thereafter and on the 1st day of December, 1917, rendered its decision in writing herein, holding and deciding that chapter 328 of the Laws of 1917 passed by the Legislature of the State of New York, was and is constitutional and valid; and also, that the election of the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, as members of and constituting the first town board of education of said town of Greenburgh, under and pursuant to the provisions of section 354 of said chapter 328 of the Laws of 1917, was and is legal and valid, the court now makes its findings of fact and conclusions of law herein, as follows, that is to say:

FINDINGS OF FACT

First: That at and during all the times herein mentioned the town of Greenburgh was and still is a municipal corporation, duly organized and existing under and by virtue of the laws of the State of New York, and that at and during all of said times the defendant, William A. Buckley, was and still is the duly elected, qualified and acting receiver of taxes for said town of Greenburgh, and as such receiver of taxes was empowered and was charged by law with the duty of collecting school taxes within such school districts in said town as were by law subject to the provisions of the act of the Legislature of the State of New York, known as chapter 328 of the Laws of 1917, known as the township school law, which went into effect on May 2, 1917.

Second: That at and prior to the time when said act mentioned in finding first went into effect, to wit: May 2, 1917, there existed in said town of Greenburgh four school districts, the trustees of which were bodies corporate under the laws of the State of New York, and having duly elected qualified and acting trustees thereof, known as school districts nos. 5, 6, 7 and 8 respectively of said town of Greenburgh, and then engaged in the performance of the duties imposed by law therein as such; that each and all of said school districts nos. 5, 6, 7 and 8 became subject to the provisions of said act of the Legislature of the State of New York, above mentioned, on May 2, 1917, when the same went into effect, and that on said date neither of said four school districts nos. 5, 6, 7, or 8, was a union free school district, having a population of 1500 or more, nor employed 15 teachers or more.

Third: That at said time, to wit: on or prior to May 2, 1917, there also existed in said town of Greenburgh a school district known as union free school district no 9, of the town of Greenburgh, the trustees of which were William Bunselmeyer, Joseph Sokol, Howard W. Lander, Charles E. Ward, Sr.; Mary Hamilton, Louis De Beauvais and William E. Mountenay, who were a body corporate, duly organized and existing under the laws of the State of New York, and performing their duties and functions as such, which school district no. 9 had, by the last official census thereof, taken prior to May 2, 1917, a population of less than 1500, to wit: a population of 1486, and did not employ nor was said district no. 9 then employing 15 or more teachers.

Fourth: That thereupon, pursuant to the provisions of section 354 of said act, the trustees of said school districts nos. 5, 6, 7, 8 and 9 met as provided in said act, at one of the school houses in said town of Greenburgh, designated by the superintendent of education for that purpose, to wit: at a school-house located in said district no. 9, on the second Tuesday in June, 1917, for the purpose of electing and designating the first town board of education of said town of Greenburgh, as provided by said act; that said meeting thereupon proceeded to elect members of the board of education of said town of Greenburgh to hold office for the time specified in section 331 of said act, and that said meeting and election was participated in by the trustees of all of said five school districts, including the trustees of said district no. 9, and that thereupon the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, all of whom were duly qualified to act as such under said law, were duly and regularly elected and designated as the town board

of education of said town of Greenburgh, and that they all duly qualified as such, and that the district superintendent duly gave notice to said persons so elected at such election, as required by said act, and that thereupon the superintendent of schools, duly, and as required by the provisions of said act, called a meeting of said board of education so as aforesaid elected, on the first day of August, 1917, at the principal schoolhouse in said town of Greenburgh, to wit: at the schoolhouse in the village of Elmsford, in said district no. 9, for the purpose of organization and for the transaction of any other business which might or may properly come before such board; and that at said meeting said board was duly organized and otherwise complied with the provisions of said act, and thereupon entered upon the discharge of their duties as such board, and have continued to perform such duties since said date.

Fifth: That thereafter, and as provided by law, said town board of education duly levied and assessed a tax for school and educational purposes in said educational unit, comprising, under the new organization under said act, the five school districts above in these findings mentioned, and that thereafter and in due time said board duly delivered the assessment roll for said tax so levied and assessed, to the defendant, William A. Buckley, as receiver of taxes for said town of Greenburgh, who thereupon, and after the dissolution of the restraining order, and as provided by law, proceeded to collect the tax so levied and assessed, including the tax levied and assessed against the persons and property, liable to such tax, within said school district no. 9, and that said receiver has collected substantially all said tax which can be collected, and has fully accounted for and paid over to said town board of education all moneys by him so collected.

Sixth: That the moneys so collected and paid over to said town board of education, as well as all other moneys received by it from the former trustees of said school district nos. 5, 6, 7 and 8, and from the trustees of said school district no. 9, have been in large part and almost entirely paid out and disbursed by said town board of education for purposes of education and as provided and required by law.

Seventh: That there still remains in the custody of said town board of education the sum of \$2700, which is the proportion of the unexpended balance in its hands, ratably and fairly apportionable to the said school district no. 9, as though it had not been included in the new educational unit formed, as aforesaid, under the provisions of said act.

Eighth: That after said election and designation so as aforesaid held on the second Tuesday of June, 1917, under section 354 of said act, under direction of the Commissioner of Education of the State of New York, a new census or enumeration of the inhabitants of said school district no. 9, commencing on January 29, 1918, and completed prior to March 7, 1918, and that by such new census or enumeration it was found and ascertained by said Commissioner of Education that said school district no. 9 had on May 2, 1917, when said act went in effect, a population in excess of 1500, to wit: a population of more than 1600, and that to that extent the last official census taken as aforesaid, prior to May 2, 1917, was inaccurate, and that therefore the inclusion of said school district no. 9, in said new educational unit, under said act, was illegal and unwarranted in law.

Ninth: That said Commissioner of Education has determined that the inclusion of said district no. 9, in said new educational unit, was and is illegal, and has directed that the members of the board of education thereof in office on May 2, 1917, be reinstated as members of the board of education of said union free school district no. 9, possessing the powers and performing the same duties as though they had not been included within the new school unit aforesaid; that said Commissioner of Education has also decided that the said election of the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, as comprising the town board of education of said town of Greenburgh, held on the second Tuesday of June, 1917, was illegal, but that they were and are de facto such town board of education, and has also directed that the trustees of the districts comprising such new unit, that is to say, the trustees of said districts nos. 5, 6, 7 and 8, shall meet at a time and place to be designated by the district superintendent of schools, not less than thirty days after March 7, 1918, for the purpose of electing a town board of education, under the provisions of said act for said new unit comprising said districts nos. 5, 6, 7 and 8, and that such election has been held, and at such election the following named persons were duly elected as comprising such town board of education, that is to say: Frederick E. Tompkins, William C. Emerick and Charles H. Schock, all duly qualified under said act, and that they have been duly qualified as such, and that said town board so elected has duly organized as such, and as required by the provisions of said act, and is now engaged in the performance of its duties as such.

And as conclusions of law from the foregoing facts the court finds:

First: That said act known as chapter 328 of the Laws of the State of New York, of 1917, was and is constitutional and valid.

Second: That the election held under said act on the second Tuesday in June, 1917, was illegal by reason only of the participation therein and the inclusion in said new educational unit of said union free school district no. 9, and that therefore the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, comprising said town board of education, are not now such a board, but that from the time of their said election they were in law a de facto town board of education, and all of their acts as such board were and are legal and valid, as though they had been legally elected and designated as such board, and that all of the acts of said defendant, William A. Buckley, as such receiver of taxes, in the premises were and are legal and valid.

Third: That whenever and as soon as the new town board of education, the election of which is provided for in the order of the said Commissioner of Education, hereinbefore mentioned, under date of March 7, 1918, shall have been duly elected and qualified and shall have been duly and regularly organized as such board, pursuant to law, and shall have entered upon the proper discharge of its duties as such, the powers and functions of said defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, as comprising said de facto board, shall cease and forever determine, and all property in their possession which ratably belongs to the four school districts comprising the new educational unit aforesaid shall be delivered to and transferred to the said new board and that thereupon all prop-

erty in the possession of said William Bunselmeyer, William C. Emerick and Charles H. Schock, as comprising said de facto board, ratably and fairly belonging to said union free school district no. 9, shall be by said de facto board turned over and transferred to the reinstated board of education of said union free school district no. 9, and that like disposition shall be made of any moneys collected from taxes on account of said 5 school districts or the new educational unit of which they had, de facto, been composed, by the defendant, William A. Buckley, as such receiver of taxes, shall be likewise and in the same manner paid over and transferred to him.

Fourth: That neither of the parties hereto shall be entitled to any costs or disbursements herein.

Let judgment be entered accordingly.

Dated, April 30, 1918

J. A. YOUNG

Justice of the Supreme Court

Judgment

At a special term of the Supreme Court of the State of New York, for the county of Westchester, held at chambers in the City of New Rochelle, on the 30th day of April, 1918

Present:

HON. J. ADDISON YOUNG, *Justice*

ELMO BROWN, BERNARD CALL and WALTER H. WHIFFEN,
constituting the board of trustees for school district
no. 8, town of Greenburgh, Westchester county, State
of New York,

Plaintiffs

against

WILLIAM BUNSELMEYER, WILLIAM C. EMERICK and
CHARLES H. SCHOCK, individually and as claiming to
constitute the town board of education of the town of
Greenburgh, Westchester county, State of New York,
and WILLIAM A. BUCKLEY, receiver of taxes of the
town of Greenburgh, Westchester county, State of
New York,

Defendants

This action having heretofore been regularly tried by the court at special term, without a jury, the plaintiffs appearing by Messrs Cohen & Richter, their attorneys, the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, appearing by David Tepp, Esq., their attorney, the defendant, William A. Buckley, as receiver of taxes for the town of Greenburgh, appearing by Frank D. Briggs, Esq., his attorney, and the State Department of Education appearing, amicus curiae, by Hon. Merton E. Lewis, Attorney-General, and the court having after due deliberation

rendered its decision, and made and filed its findings of fact and conclusions of law herein;

Now, on motion of Frank D. Briggs, Esq., attorney for William A. Buckley, as receiver of taxes, it is

ORDERED, ADJUDGED AND DECREED:

1 That the act of the Legislature of the State of New York, amendatory of the Educational Law, known as chapter 328 of the Laws of 1917, which went into effect on May 2, 1917, is in all respects constitutional and valid.

2 That the attempted inclusion in the new educational unit for the town of Greenburgh, Westchester county, State of New York of the school district of said town known as union free school district no. 9, with school districts nos. 5, 6, 7 and 8 of said town, was illegal, for the reason that said act known as chapter 328 of the Laws of 1917, had no application to said union free district no. 9, for the reason that at the time said act went into effect, on May 2, 1917, said district last named had more than 1500 population.

3 That the attempted election by the trustees of said 5 school districts, to wit: districts nos. 5, 6, 7, 8 and 9, on the second Tuesday in June, 1917, under the provisions of section 354 of said act, of the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, as a town board of education for said new educational unit, was illegal, and they were not nor are they legally such town board of education.

4 That though not legally elected as such board, said three persons last named were and are a de facto town board of education for said town of Greenburgh, and all their acts as such were and are legal and valid, and are so adjudged and declared.

5 That whenever and at such time as the new town board of education of said town for the educational unit composed, under said act, of said school districts nos. 5, 6, 7 and 8, shall have been duly elected under the election ordered by the Commissioner of Education of the State of New York, pursuant to his order dated March 7, 1918, shall have been duly elected and shall duly qualify as such, and shall become duly organized pursuant to the provisions of said act, and shall regularly assume and enter upon the duties of their office as such town board of education, the duties and powers of the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, as such de facto board shall at once cease and determine, and the latter shall thereupon and on demand pay over and transfer to said new town board so elected, any and all funds, moneys and property of every kind or nature in their possession or under their control as such de facto board, which fairly and ratably belongs to the four school districts comprising and composing said new educational unit, formed under said act.

6 That as soon as may be after the service upon their attorney of a copy of this judgment with notice of entry thereof, the defendants, William Bunselmeyer, William C. Emerick and Charles H. Schock, comprising such de facto board, shall pay over and transfer to the reinstated board of education of said union free school district no. 9, of the town of Greenburgh, all funds, moneys and property of every kind in their possession or under their control; which fairly and ratably belongs to said union free

school district no. 9, and that upon the payments and transfers above provided for being made, as herein provided, the said defendants, William Bunselmeyer, William C. Emerick, and Charles H. Schock, shall be released and freed from any and all liability of every kind and nature, as members of said de facto board.

7 That as to any and all moneys which may have been heretofore collected or received by the defendant, William A. Buckley, as receiver of taxes for said town of Greenburgh, under or by reason of any taxes, levied or assessed by said de facto board, for or on account of the educational unit comprising said school districts nos. 5, 6, 7, 8 and 9, or collected or received by said William A. Buckley for or on account of said five school districts, or either or any thereof, and by said William A. Buckley duly paid over to said de facto board, the said William A. Buckley shall not nor is he in any way or manner liable at law or otherwise, but that as to such moneys so by him paid over to such de facto board, said William A. Buckley shall be and he is hereby adjudged to be fully and freely exonerated and discharged.

8 That as to any such funds or moneys so collected or received by said William A. Buckley, as such receiver of taxes, and not so paid over by him to said de facto board, the same shall be by said William A. Buckley disposed of as follows:

(a) As to the proportion of such moneys in his charge, fairly and ratably due to the new educational unit, comprising school districts nos. 5, 6, 7 and 8, the same shall be by said William A. Buckley, as such receiver of taxes, paid over to the new town board of education of said town, the election of which is provided for in the order of the Commissioner of Education of the State of New York, dated March 7, 1918, as soon as and after the due election, qualifying and organization of said new board, and upon demand by said new board therefor.

(b) The proportion and amount of such unpaid moneys as shall be fairly and ratably belong to said union free school district no. 9, of said town of Greenburgh, shall, on demand therefor, or by said William A. Buckley, as such receiver, paid over to the reinstated board of education of said union free school district no. 9, and upon such payments being made as herein provided, the said William A. Buckley, as such receiver, shall be from thenceforth and forever released, discharged and fully exonerated from any and all liability by reason of any such moneys or the collection or receipt thereof by him.

9 That in case of any dispute or controversy as to the proper disposition of the funds and property, the payment and transfer of which is provided for in the foregoing provisions of this judgment, any of the parties to this action may apply to this court for such further order or relief as he or they may deem proper, upon notice to the parties not so applying.

10 That any of the parties to this action may apply at the foot of this judgment for such other or further order or relief as may be just and proper.

11 That neither of the parties to this action shall recover any costs or disbursements herein as against any party to this action.

Enter,

J. A. YOUNG

Justice of the Supreme Court

Opinion of Lower Court on Motion for Injunction

SUPREME COURT
WESTCHESTER COUNTY

TOMPKINS, J.:

Serious questions are raised as to the constitutionality of chapter 328 of the Laws of 1917, under which the defendant board of education was chosen, and much doubt exists as to whether, assuming the law to be constitutional, district no. 9 (Elmsford) should have participated in the selection of the town board of education for the town of Greenburgh.

All of these questions should be promptly determined, and the Department of Education, and all concerned should, waiving all formalities and technical objections, unite in an early trial of this action to the end that there may be a final decision respecting the constitutionality of the law and the legality of the election of the board of education in the town of Greenburgh, without unnecessary interference with the educational facilities of that town or any other, and that proper legislation may be enacted at the next session of the Legislature if the act in question, or any part thereof, is invalid.

It is well settled that the court at special term will not declare a law to be unconstitutional unless the invalidity thereof clearly appears, especially where great injury or much confusion may result therefrom to persons and corporations not parties to the action, and following that rule, I shall not undertake to declare the act unconstitutional, nor restrain the board of education of the town of Greenburgh from proceeding with its general work under said act, but I will grant the plaintiff's motion for an injunction pendente lite to the extent of restraining said board of education from collecting or attempting to collect any tax within school district no. 8, and from exercising any control or authority over school property within said district, upon condition, however, that the plaintiffs bring this action to trial at the special term for trials to be held at White Plains on the second Monday of November.

Dated, Nyack, N. Y., November 1, 1917.

Opinion on Constitutionality

SUPREME COURT
COUNTY OF WESTCHESTER

The plaintiffs are the trustees of school district no. 8 of the town of Greenburgh. The defendants constitute the town board of education of that town, claiming to be such under the provisions of chapter 328 of the Laws of 1917. The plaintiffs seek in this action a determination of their rights and duties, a decree of this court that the law in question is unconstitutional and in violation of section 1 of article 14 of the United States constitution; section 1 of article 9, and section 2 of article 10 of the constitution of this State, and that the defendants be restrained from exercising any powers under that act and from taking over the school property of the district and levying or collecting any tax, etc.

The purpose of the act in question seems to be to reorganize the rural school districts into a town school system with a single town board of

education instead of separate boards in each of the several districts of the towns. Defendants assert that this legislation was enacted upon the recommendation of the State Department and the Regents of the University, and that it is a great advance in the solution of the problem of rural education. It provides for the creation of a town board of education in each town with certain exceptions, to which I shall refer hereafter, and similar boards in certain union free school districts, the qualification of members of such board, appointment of officers, their powers and duties, etc. Such boards are made bodies corporate and are given full control and management of the school and school property, the levy and collection of taxes for school purposes, etc. The act contains the following provision:

§ 331 *Town board of education.* 1 A town board of education in each town of the State, having jurisdiction over all the schools in the town as hereinafter provided, except in union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more at the time this act takes effect, and the school districts in the several towns of a county which adjoins a city having a population of one million or more and in which there are only two district superintendents, is hereby established to begin on the first day of August, nineteen hundred and seventeen. . . .

It is contended by plaintiffs that this section violates the provisions of the fourteenth amendment to the United States constitution in that it unlawfully discriminates against the citizens of Westchester county and denies to them the equal protection of the laws, because the exception contained in this section of the school districts in the towns of a county adjoining a city having a population of one million or more, and in which there are *only* two district superintendents, was intended, and can only apply to, Nassau county, is purely arbitrary and unreasonable and unfairly discriminates against the towns of Westchester county.

I understand it to be conceded that this exception can only affect Nassau county, and we may assume that that was the legislative intent. Could the Legislature enact a law reorganizing and consolidating the rural school system in towns and except from its provisions the towns of Nassau county without violating the constitutional provisions in question; or was it obliged to include all rural communities in the State, or at least include in any exception all counties which apparently were, or might be, claimed to be of a similar nature with respect to wealth, population and their proximity to a large city like New York? It seems to me that this is a matter over which the Legislature has full control. It is not for the courts to determine whether the legislative reason for the exclusion of one county from the provisions of the act and the inclusion of another, apparently similarly situated, is good or bad. To attempt such a review opens a wide field of pure speculation. To the Legislature has been entrusted power to provide "for the maintenance and support of a system of free common schools wherein all the children of the State may be educated" (New York State constitution, article 9, section 1); and it is clearly within its province to provide the necessary legislation to accomplish that purpose. Clearly, this constitutional provision does not require it to provide the same system and organization for each locality in the State. On the contrary, it is within its power to provide such a system or systems as will meet the special needs of each locality, and its classification is not the subject of judicial review. What the real purpose of legislation was in excepting

Nassau county from the benefit of this act we may only surmise, conjecture or speculate upon. The court can not know. Unless, however, some right of person or property is invaded by reason of this so-called discrimination, some liberty of person or action interfered with, property taken or vested right destroyed, its action is beyond the review of the courts. Clearly, the inhabitants of one portion of the State have no vested right to have the same kind of school system as those of another portion, and therefore no personal liberty or liberty of action to attend the schools of the state is unlawfully interfered with. No school property or vested right in school property is taken or destroyed, for such school property is still in the people and is merely transferred to and held by a new board in trust for school purposes.

I have been unable to find any case in this State where any such constitutional question had been presented. I do not think the cases cited by plaintiff's counsel are applicable here. The case of *Matter of Henneberger* (155 N. Y. 420) involved a very different constitutional provision. There the Legislature attempted by general language to provide for the construction of highways in a particular locality and the court held that although the language was general in form its purpose was plainly to evade the constitutional mandate that the Legislature should not pass a private or local bill laying out highways. In that case the Legislature sought by an act general in form to affect a particular locality, contrary to the constitutional provision. Here, on the contrary, the Legislature has passed a general act providing for a general school system in rural communities affecting all such communities, with the exception of those contained in one county. There is no inhibition against their making such an exception in our state constitution similar to that violated by the act under review in the *Henneberger* case.

Nor do I think that the numerous cases cited by plaintiffs' counsel involving the construction of statutes enacted under the police powers of the Legislature have any application. I do not think that the legislative authority over our school system is comprehended within the definition of the police powers of the State as that term is usually understood. Ordinarily that term includes the power of the Legislature to enact such legislation as may be necessary to preserve the public health, protect the public morals and provide for public safety, and it is well settled that such powers must be so exercised that statutes enacted thereunder have some reasonable connection with the public welfare and apply without discrimination to all persons comprehended in the subject matter of the act; although, even in the regulation of such matters, it has been held that the Legislature is authorized to apply the act to certain portions of the State and except others, and that such application will involve no violation of the fourteenth amendment of the United States constitution. (See *People v. Havnor*, 149 N. Y. 195.) The court in that case said: "That amendment does not relate to territorial arrangements made for different portions of a state, nor to legislation which, in carrying out a public purpose, is limited in its operation, but within the sphere of its operation affects alike all persons similarly situated."

I am therefore convinced that these provisions of the statute under discussion constitute a valid exercise by the Legislature of its power to provide a school system, and that it violates no constitutional provision.

Plaintiffs also attack the following provision of the act:

§ 354 *Election of board of education.* 1 The first board of education of each town thereof shall be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article. The said trustees and members of boards of education shall meet for such purpose on the second Tuesday in June, 1917, in one of the schoolhouses in the town to be designated by the district superintendent of schools. The said trustees and members of boards of education shall organize by the election of a chairman and clerk. They shall thereupon proceed to elect members of the board of education of the town to hold office for the term specified in section 331 of this article. The persons elected as members of such board shall be residents of the town and qualified electors at school meetings therein. Not more than three of the members of such board of education shall reside in the same school district, except in towns in which there are less than three school districts. The chairman and clerk of the meeting shall canvass the votes cast for the candidates for the offices to be filled and the candidate receiving a majority of the votes cast shall be elected. The chairman and clerk of the meeting shall thereupon notify the district superintendent in writing of the persons declared elected as members of said board, and the district superintendent shall give notice of such election to the persons so elected. As the terms of office of such members expire their successors shall be elected at the annual school meeting. The district superintendent of schools shall call a meeting of the board of education of each town in his supervisory district, elected as above provided on the first day of August in 1917, at the principal schoolhouse of the town, for the purpose of organization and the transaction of any other business which may properly come before such board. Upon the election of a clerk of such board, the chairman and clerk of the meeting held for the purpose of electing members of the board of education shall file the minutes of the meeting with such clerk.

Plaintiffs contend that this section violates section 2 of article 10 of our state constitution. That section prescribes the method by which certain county, city, town and village officers shall be selected, and further provides that all other officers whose election or appointment is not provided for by the constitution, and all officers whose offices might thereafter be created by law, should be elected by the people or appointed as the Legislature may direct. The criticism by plaintiffs' counsel is that this statute provides for an election of the first board of trustees not by the people, but "by the trustees and members of the boards of education of the several school districts in such town." On the other hand, it is contended by defendants' counsel that although the Legislature has employed the word "election" in this section of the act, the method actually prescribed was clearly nothing more than an appointment; that as the annual school meeting at which these boards would ordinarily be elected was held prior to the taking effect of the statute, it was necessary to provide some method of electing the first board, and that method consisted in what is termed in the act "an election" by the trustees and members of all the several boards of education in the town. The question presented is whether the word "election" as used in the section under review, as well as the method prescribed for such election, was an *election* within the meaning of that word employed in the constitutional provision referred to; or was it simply equivalent to an *appointment* by the boards of education of the town jointly assembled for that purpose? If it was an election as distinguished from appointment, this section of the statute can not be upheld. In determining this question, it

is necessary to consider the substance of the statute rather than its mere form. If, then, we substitute for the words "elect," "elected" and "election" the words "appoint," "appointed" and "appointment," it could hardly be argued that because the statute prescribed a method of voting, it was an election, rather than an appointment. Plainly, the only means by which a board of that character could make an appointment would be by voting. The substitution above referred to neither adds to nor detracts from the substance of the statute. The method pursued and the result obtained are precisely the same, whichever language is employed, and I do not think that a statute should be held unconstitutional merely because the Legislature has employed the word "election" for what is plainly nothing but an appointment within the meaning of the constitution. (See *People v. Sturges*, 27 A. D. 387, Aff'd. 156 N. Y. 580; *State Board of Pharmacy v. Bellinger*, 138 A. D. 12.) If the method prescribed resulted in an appointment, the Legislature was authorized to provide for such appointment either for full terms or temporarily.

The only remaining provisions of this statute attacked are those contained in sections 352 and 353. Section 352 provides, among other things, for an apportionment and distribution by the old trustees of the funds remaining in their hands except state moneys after closing up the financial affairs of the district, among the taxpayers of the district. Section 353 makes the bonded indebtedness of the several school districts affected a charge against property subject to tax for the maintenance of the schools of the town, and provides for an appraisal of school property, a credit to each district of its value after deducting the bonded indebtedness, and an apportionment and distribution of the amount credited to and among the owners or possessors of taxable property in the district in the ratio of their several assessments. The right of the Legislature to alter and enlarge towns, villages and school districts, to transfer the public property affected, to the newly created town, village or district and to charge it with the outstanding indebtedness, has never, so far as I have been able to find, been questioned by any decision in this State. This power has been upheld by the United States Supreme Court (*Laramie Co. v. Albany Co.*, 92 U. S. 307). In my opinion such transfer of property violates no constitutional provision. No property or property right is taken away. The transfer is simply from one public authority to another, for convenience of administration.

The appraisal, apportionment and distribution among the taxpayers and owners and possessors of taxable property provided by the state presents a different question. The precise constitutional provision claimed to have been contravened by this portion of the statute is not pointed out by the plaintiffs. Clearly neither the provision of section 1 of the fourteenth amendment to the United States constitution nor section 1 of article IX, nor section 2 of article X of our state constitution are so violated. Section 10 of article VIII which prohibits a town from giving any money or property to any individual is designed to prevent the application of public moneys to private uses. The right of the Legislature to distribute these moneys and property to taxpayers, even for the purpose of equalization, is not entirely clear. I know of no similar statute in this State nor of any decision of our courts involving this precise question. In New Jersey a similar statute was held unconstitutional as devoting public funds to private use (*State*

ex rel. Elizabethtown Water Co. v. Wade, 59 N. J. L., 78). On the other hand, similar statutes have been upheld in Massachusetts and Rhode Island (Whitney v. Stow, 111 Mass., 366; Matter of Town Council of Cranston, 18 R. I., 417; Matter of School Committee, Town of Johnston, 19 R. I., 279; Matter of Cumberland, 21 R. I., 576; Matter of North Smithfield, 26 R. I., 164; Tefft v. Lewis, 27 R. I., 9). These latter decisions, in effect, hold that where the purpose of such a statute is merely to equalize the burden of the new school system upon all the taxpayers of the town, it does not violate any constitutional inhibition and will be upheld. My own opinion accords with this view. It seems to me only fair that the burden of this new system should be equitably apportioned among the several school districts of the town so as to secure equality as far as possible, and I know of no better way to accomplish this purpose than as provided in the statute. The criticism that it results in the payment to present taxpayers who personally made no contribution to the fund now sought to be distributed is unsound, and ignores the fact that whatever taxes were levied for school purposes were levied against the property and not against the individual owners at the time, and that it is the same property which is now sought to be relieved of an undue burden by the equalization provided for.

I therefore decide that the provisions of the statute in question are constitutional and valid.

J. S. C.

Brief for Commissioner of Education

SUPREME COURT OF THE STATE OF NEW YORK

COUNTY OF WESTCHESTER

Preliminary Statement

The action herein is brought by summons and complaint in the name of Elmo Brown, Bernard Call and Walter H. Whiffen, constituting the board of trustees for school district no. 8, town of Greenburgh, Westchester county, against William Bunselmeyer, William C. Emerick and Charles H. Schock, constituting the town board of education for the town of Greenburgh in such county, and William A. Buckley, the receiver of taxes of such town. The action is in equity and the plaintiffs pray for a determination of their rights and duties as trustees of district no. 8, Greenburgh, and for a determination that chapter 328 of the Laws of 1917, under which the defendant board of education was elected, be declared unconstitutional, null and void, and that the said defendant board of education "be restrained from exercising any of the powers alleged by them to be vested in them under the provisions of chapter 328 of the Laws of 1917 or any part thereof, and more especially that they be restrained from taking over any of the property formerly held by school district no. 8 and from levying or collecting any tax against the property of any of the taxpayers therein." The plaintiffs also ask that pending determination and hearing of the suit the defendants be temporarily enjoined and restrained from doing any of the aforesaid things or performing any of the aforesaid acts.

Mr Justice Tompkins of the Supreme Court, ninth judicial district, upon the *ex parte* application of the plaintiffs herein issued an order restraining, until further order of the court, the defendants from levying or attempting to levy, or collecting or attempting to collect, any tax against the taxable property within school district no. 8, town of Greenburgh; from exercising any control or authority over the school property situated within said district; from incurring any indebtedness or obligation chargeable against such school property; from interfering in any way with the performance by the plaintiffs of their duties as trustees of school district no. 8, and from asserting any power or authority to act as a board of education of the town of Greenburgh. The defendants were also directed by such order to show cause before the court at a special term thereof held on October 10, 1917, why the injunction granted by such order should not be continued during the pendency of the action "and why the defendants should not be further enjoined as and for enforcing any power asserted by them to be vested in them under and pursuant to chapter 328 of the Laws of 1917."

The parties herein appeared by attorneys before Mr Justice Tompkins at special term on the day and at the place appointed, and presented arguments for and against the continuance of such order of injunction pending the determination of the questions raised in such suit.

At such time Hon. John H. Finley, Commissioner of Education of the State of New York, appeared by counsel and asked to intervene in behalf of the State. Such request was granted and the Commissioner of Education submits this brief on the questions involved as to the propriety of granting a temporary injunction *pendente lite* and as to the constitutionality of Laws of 1917, chapter 328, under which the defendant board of education was appointed and assumes to exercise official functions. The matter now before the court for determination is as to whether the order issued under date of October 13, 1917, whereby the defendant board of education was restrained from exercising any power or authority as a town board of education under said chapter and from in any way exercising its official functions as to the schools in such town, including the levy and collection of a tax, the payment of indebtedness and the control or authority of the schools of such town, should be continued until a final determination of the action.

Statement of Facts

The plaintiffs constitute the trustees of school district no. 8, town of Greenburgh, Westchester county. Such district is a common school district, originally organized and maintained under the provisions of the Education Law relative to such districts. The defendants were duly elected as members of the board of education of the school unit of the town of Greenburgh, created by chapter 328 of the Laws of 1917. This unit comprises school districts nos. 5, 6, 7, 8 and 9 of the town of Greenburgh. The plaintiffs in paragraphs 15 and 16 of their complaint state the tax rate of the districts comprising the Greenburgh town school unit. The rates given do not conform with the rates shown by the records of the Education Department, but the statements are sufficiently accurate to indicate that because of the inclusion of district no. 8, with its assessed valuation of \$2,536,210, in the town school unit, the school tax rate in such district has been increased from \$2.99 per \$1000 to \$5.73 per \$1000, while the tax rate is district no. 9 in such town has been reduced thereby from \$7.31 to \$5.73 per \$1000.

These facts are not material to a determination of the issues raised in the action, other than to show that the taxpayers of district no. 8 are called upon by the township law to contribute an equitable proportion of the cost of maintaining the schools in the unit created by such law, while under the former law they were substantially favored by the extent of their taxable property and the comparatively diminished demand for school maintenance. The facts thus set forth illustrate in a practical manner one of the beneficial results of the legislation which is complained of, that is, the equalization of the tax burden for school maintenance in communities that are similarly situated.

It also appears from the eighteenth paragraph of the plaintiffs' complaint that the Elmsford district, district no. 9, town of Greenburgh, has been required to expend for the school accommodation of its children the esti-

mated amount of \$45,000, and that in order to provide suitable school facilities for the increasing school population of the district it will soon be necessary to expend a further sum of about \$40,000. It appears from the records of this Department that the Elmsford district employs ten teachers for the instruction of 454 pupils, while district no. 8 employs five teachers for the instruction of 236 pupils. The complaint shows that the school building and site in district no. 8 are only valued at \$16,000. It appears from the allegations in the complaint that the assessed valuation of district no. 8 is \$2,536,210. The complaint does not state the assessed valuation of district no. 9, but it appears from the records of the Education Department that such valuation is \$1,698,000. It is thus established as a fact that the Elmsford district is required, with two-thirds of the financial resources of the plaintiffs' district, to provide for the instruction of nearly twice as many children, and that notwithstanding such materially greater tax burden they have provided materially greater school facilities than have been furnished by the taxpayers of district no. 8.

District no. 5, the Ardsley district, had a school tax rate in 1916, as appears from the plaintiffs' complaint, of \$5.71 per \$1000. It appears from the records of this Department that the assessed valuation of this district was \$2,188,364, and that the district provided instruction for 274 children and raised by tax in the neighborhood of \$13,000. This district has a school building which the plaintiffs state is worth not less than \$100,000. District no. 8, of which the plaintiffs were trustees, expended for school purposes during the year 1916, as appears in the nineteenth paragraph of their complaint, not more than \$8000. The records of the Department show that they raised by tax during this year \$8400. With a less assessed valuation and substantially the same number of children, the Ardsley district expended 50 per cent more than district no. 8 in furnishing school facilities for its children. The township law (Laws of 1917, chapter 328) equalizes the tax burden of the five districts which are brought into the unit and will tend to give to the children of the districts equal school facilities. The injury complained of by the plaintiffs consists in their being required by the township law to contribute to the burden of their neighbors in the maintenance of an efficient school system for the benefit of the children of the community and in their being compelled to furnish to their children school facilities equivalent to those previously obtained in the surrounding districts.

The facts set forth in the plaintiffs' complaint show clearly enough that the complaining district has the greatest financial resources of all of the districts comprising the unit and that they have expended less for the education of their children than any of the other districts, and under the former system furnished to their children the least school facilities. The sole ground for complaint, as indicated by the facts alleged by them, is the requirement under the new law that they share equally and equitably with the surrounding districts the essential burdens of an adequate and effective public school system. The plaintiffs allege in paragraph 24 that school district no. 9 comprises the village of Elmsford, "duly incorporated as a village under the village law of the State of New York"; and upon information and belief that said village of Elmsford has for the year last past had a population of more than fifteen hundred. The defendants deny this allegation.

The records of the Education Department show that such district is a union free school district and established as such under the Education Law, and that the boundaries of such district are not coterminous with the boundaries of the village of Elmsford. The complaint does not allege that such district is a union free school district. If the district is not a union free school district, it is subject to the provisions of the township law and its trustees were qualified to participate in the election of the first board of education. It will be noticed that section 331 of the township law provides that a town board of education is established in each town of the State, having jurisdiction over all of the schools, "except in union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more at the time this act takes effect."

It appears from the twenty-fifth paragraph of the plaintiffs' complaint that the defendant board of education was elected under the provisions of the township law (Laws of 1917, chapter 328) on the second Tuesday in June 1917, and that "the said village of Elmsford participated in the said election of the trustees" and that as a result of such election the defendants, Bunselmeyer, Emerick and Schock, were declared to be elected as the trustees of the town of Greenburgh.

The plaintiffs were present at such meeting as appears from their complaint, and protested against the election of the defendants as members of the town board of education.

The defendant board of education have duly entered upon the performance of their duties on August 1, 1917, as required by the township law, and have prepared a tax list and are about to annex thereto a warrant for the collection thereof, directing the defendant Buckley, as town receiver of taxes, to collect the tax so levied and assessed and pay over the amount thereof to the town school treasurer.

The plaintiffs pray for a determination of their rights and duties as trustees of district no. 8, and for a determination that said chapter 328 of the Laws of 1917 be declared unconstitutional, null and void. They base their prayer for nullification of the act upon the ground that "it violates the provisions of the constitution of the United States and the constitution of the State of New York, and in that more particularly it violates section 1 of article XIV of the constitution of the United States, section 1 of article IX and section 2 of article X of the constitution of the State of New York."

The plaintiffs further pray that the defendants, and each of them, be restrained from exercising any of the powers vested in them under the provisions of the act, and more especially that they be restrained from taking over any of the property formerly held by the trustees of school district no. 8, and from levying or collecting any tax against the property of any of the taxpayers therein, and "that pending the hearing and determination of this suit the said defendants be temporarily enjoined and restrained from doing any of the aforesaid things or performing any of the aforesaid acts."

The question now presented to the court for determination is whether or not an injunction will be granted as prayed for by the plaintiffs, restraining the defendants from performing any official act in respect to the schools of the town school unit until there be a determination in the suit of the questions raised as to the constitutionality of the law, and as to whether the plain-

tiffs have ceased to exist by virtue of such act as a board of trustees of district no. 8, and whether the defendants have any power or may perform any duties as to the schools in the several districts comprising the town school unit.

Analysis of Township Law

a Object of law

Chapter 328 of the Laws of 1917, referred to herein as the township law, was enacted by the State Legislature upon the recommendation of the State Education Department and the Regents of the University. The proposal to unify the rural school districts into a town school system has been before conferences, conventions and associations of teachers, school superintendents and organized bodies of school authorities for many years, and has been unqualifiedly approved by them. A bill substantially in the same form and accomplishing the same purpose was introduced in the Legislatures of 1915 and 1916. It has been recognized by leading educational experts as a pronounced advance in the solution of our problem of rural education.

Three important and positive beneficial results are accomplished by the law:

First. It tends to improve the educational opportunities of the children of our rural communities and to equalize the school facilities to be furnished to them. It does this by giving to the children of the districts comprised in the town school unit the privileges of all the schools in all the districts therein, and by providing for their academic instruction in high schools and academic departments in other units, districts or cities, where no such instruction is provided in the schools in the community within which they reside. It authorizes provision for transportation, so that children in remote portions of the school unit may obtain school privileges which otherwise would be inaccessible. It provides for more effective supervision of instruction and requires standardization of school buildings and equipment.

Second. It increases efficiency of school administration in that it reduces the number of school organizations and of school officers and employees. Under the former system there were in the neighborhood of 11,000 school districts having one or three school trustees, a district clerk, collector, and in many cases a treasurer. Besides that, there were in the neighborhood of 600 union free school districts having a population of less than 1500, with a board of education of from three to nine members and a district clerk, collector and treasurer. In place of this army of school officers we have under the present system less than one thousand town school units, with from three to five trustees and a district clerk and treasurer. School taxes are now payable to the same tax collector as town and other taxes. The administration of the school system of the State outside of cities and union free school districts having a population of fifteen hundred or more, is now concentrated in a compact body of men who may be held directly responsible to the qualified electors of the town school unit, and through whom supervising officers, including the State Education Department, may reach definitely and effectively the persons in charge of school administration. Under the former system a school trusteeship was regarded as an irksome burden, too frequently shunned by men competent to administer affairs of importance. Under the

present law it is anticipated that business men prominent in their communities will be willing to assume responsibility for the proper maintenance of the schools in the town in which they live.

Third. It equalizes the burden of taxation for the support of our rural schools throughout the State. Thousands of instances might be given where because of some favorable situation the taxpayers in one district have practically avoided the payment of any substantial school tax, while in the near neighborhood, across the street, the highway or the stream, a more unfortunate neighbor has been burdened with an excessive tax. In hundreds of districts, owing to the operation of the law whereby contracts might be made with adjoining districts for the instruction of the pupils of a district and public money has been available to meet the contract obligation, the property of the district has been entirely without the burden of a school tax. Hundreds of districts having an assessed valuation of less than \$20,000 have been required to maintain schools with one, two and sometimes three teachers, making a tax almost unbearable, while in a less populous but more wealthy community a school with few pupils has been maintained for a nominal sum. The extension of the unit from the district to the town has materially improved this situation. By spreading the tax over a more extended territory the districts so placed as to include within their limits valuable corporate and other property have been required to share their privileges and advantages with adjoining districts less fortunately situated. Naturally, the complaints come from those districts where because of this attempt at equalization there has been substantial increase in the burden of the tax required to maintain our State system of education. The educational advantages to be obtained from the application of the provisions of the township law will outweigh the increased cost to the taxpayer who because of fortuitous advantage of location has for a generation or more been little affected by the cost of school maintenance, if he has in mind the importance of providing effectively for the education of the children of the State.

Hon. Thomas E. Finegan, Deputy Commissioner of Education, has made a careful investigation of the benefits to be derived from the so-called township system. He has written many articles and addresses upon this subject. Reference is made especially to an article prepared by him, included in the Annual Report of the State Education Department for 1916, entitled "The Township Law." Such article is appended to this brief.

b. Provisions of township law

The following salient features of the new law are properly to be considered in comprehending its purpose and effect:

(1) The school districts of the State are continued under section 330, so far as their territorial extent is concerned, until consolidated as provided therein. The purpose of this provision is to retain such districts for maintenance of existing schools therein, so that a town board of education may not arbitrarily abandon a schoolhouse and compel the children to attend that in another district, unless it be upon order of the district superintendent and approval of the qualified electors of the districts and town.

(2) The school districts in a town, including both common and union free school districts, are included within the town school unit and a board of edu-

cation is established therein. Union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more on May 2, 1917, the time of the taking effect of the law, are excepted from the provisions of the act. An exception is also made as to the school districts in the towns of a county which adjoins a city having a population of one million or more and in which there are only two district superintendents. (See township law, sec. 331, subd. 1). If a town has two or more union free school districts having a population of less than fifteen hundred and each maintaining an academic department, the town is divided into as many town school units as there are such union free school districts situated in such town, and a board of education is established for each town school unit. The division of the town is made by the district superintendent.

(3) The board of education in a town or a town school unit having under its jurisdiction five school districts or less consists of three members. In all other towns and town school units such board consists of five members. The term of office of each of the members of the board begins on the first day of August following his election. (Township law, sec. 331, subd. 1).

(4) The annual meeting of each board of education is held on the first Tuesday in August in each year. The board organizes by the election of one of its members as chairman and is required to appoint a clerk and a town school treasurer. (Township law, sec. 333, 337).

(5) The board of education of each town is a corporation. All property vested in or hereafter transferred to the board of education of a town or a town school unit for the use of the schools therein is held by such board in trust for the schools of the town or unit as a corporation. (Township law, sec. 336).

(6) The first board of education of each town and town school unit was to be elected by the trustees and members of the board of education of the several school districts therein. The meeting for such purpose was held on the second Tuesday in June, 1917. Such trustees and members of boards of education of the school districts comprised in the town or unit constituted a board for the purpose of electing the first board of education. (See township law, sec. 354, subd. 1). The terms of office of the members first elected are prescribed in section 331, subdivision 1. In a town or unit having a board consisting of three members, one is to hold until August 1, 1918, one until August 1, 1919, and one until August 1, 1920. Their successors are required by section 354 to be elected at the annual school meeting. Sections 355-364 inclusive provide for the time and place of holding the annual meeting, the qualifications of voters at school meetings, the determination of the qualifications, the making of nominations, appointment of inspectors, the conduct of school elections and the canvass of votes cast thereat, with the declaration of the result. These sections provide a new method of holding school elections and were designed to remedy a rather glaring defect in the laws which have been in existence in the past, controlling the conduct of school elections. The former law which controlled as to school elections in common school districts provided no method of ascertaining in advance the qualifications of those who offered to vote for school officers and upon school appropriations. It is proposed in the scheme included in the township law to prepare in advance a list of the qualified electors of the town and permit

inspection of such list of electors, so that in advance of the election the qualifications of those who offer to vote may be ascertained. The scheme will result in prevention of fraudulent voting at contested school elections and avoid in the future many contests such as have arisen as to election of school officers and the voting of appropriations for school improvements.

It was not possible to apply this method to elections of the members of the first board because of the time that would be required in the preparation of the lists and in organizing the necessary machinery. For this reason the plan was devised of providing for the election of the first board by trustees and boards of education in office at the time of the taking effect of the law, and by providing that their successors should be elected in the method prescribed for the holding and conduct of annual school meetings.

(7) The board of education of the town or town school unit assumes the functions, exercises the powers and performs the duties theretofore conferred or imposed by law upon the boards of education or trustees of the school districts comprising such town or school unit. Powers other than those formerly possessed by boards of education or trustees of school districts are conferred upon the town board of education. The object of the extension of the powers was to impose upon the board of education of the town a responsibility for school conditions which was not imposed under prior laws. Section 340 of the township law provides that any power, duty, liability or obligation conferred by any law upon the board of education of a union free school district or the trustees of a common school district are to be exercised or performed by the board of education of a town.

(8) The board of education of a town is authorized by section 342 to transfer pupils from a district in the town to a school in another town, where accessibility or convenience requires it. Provision is made for an arrangement for the payment of the cost of such instruction by the town where the pupils reside to the town board of the town in which the pupils are instructed. Under this provision, if a town board of education does not see fit to provide academic instruction in any school of the town, an agreement may be made with the board of education of another town or union free school district or city, whereby such children will receive academic instruction at the expense of the town. It is provided in section 341 that all the schools of the town are to be free to the children residing therein, so that if one district furnishes advanced instruction all the children of the town may receive the benefit thereof, while under the former system the children were restricted exclusively to the school maintained within the limits of the district.

(9) Under section 343 the board of education of a town is authorized to designate a new schoolhouse site or enlarge the site of an existing schoolhouse. The board may expend in any one year an amount not exceeding one-half of one per cent of the assessed valuation of the property within the town school unit, and in no case in excess of five thousand dollars, for the improvement of school buildings, without a vote of a town school meeting. If it is proposed to exceed this amount a vote of the qualified electors of the district is required.

(10) The board is required to prepare the annual school budget, including items of necessary expenditure. The form of the budget is prescribed by the Commissioner of Education. If the amount included therein is not suffi-

cient to meet the requirements of the schools of the town, the board may prepare and issue a supplemental tax budget. (See township law, sec. 345).

(11) The board of education is required to cause to be levied and assessed against the taxable property in the town the amount specified in the tax budget. A tax list is prepared and a warrant attached thereto and placed in the hands of the town collector of taxes for collection. The provisions of the Education Law relative to the assessment and collection of taxes for school purposes apply to the assessment and collection of school taxes in towns. (See township law, sec. 346).

(12) If the board of education of a town deems it necessary to expend an amount exceeding the sum of five thousand dollars, it may call a school meeting to vote upon a proposition therefor. Such proposition may be submitted at an annual school meeting. Where it is proposed to vote an appropriation, provision is made for the levy and collection of a tax in installments and the issue and sale of town school bonds (see township law, sec. 348, 349). A town board of education may borrow money in anticipation of the levy and collection of a tax for any of the purposes specified in the budget or supplemental budget filed with the clerk of the board of education. (Township law, sec. 347).

c Provisions of township law attacked by plaintiffs as unconstitutional

The provisions above referred to indicate the general purpose of the township law. As will be noticed, it substitutes an entirely new scheme of school administration in the place of that formerly in existence in the school districts of the State. The Legislature could not, obviously, accomplish this purpose without making some disposition of existing school property and district obligations. It became necessary to close up the affairs of existing districts and to transfer to the newly created board the official powers and duties of existing trustees and boards of education. The Legislature in considering the question deemed it advisable to exclude from the operation of the law certain districts and localities. It is contended by the plaintiffs herein that such exceptions were discriminatory and render the law unconstitutional and void. The following provisions are here referred to as indicating the method of making the transfer from the old system to the new. These provisions are for the most part those which the plaintiffs contend are unconstitutional and because of which they claim the law is invalid and inoperative.

(1) The law does not apply to union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more at the time this act takes effect. Nor does it apply to school districts in the several towns of a county which adjoins a city having a population of one million or more and in which there are only two district superintendents. (Township law, sec. 331, subd. 1) A substantially equivalent provision is included in section 351, which further provides that in any such district a resolution may be adopted by the district authorizing the application of the provisions of the law to such district.

(2) The first board of education of the town or town school unit is to be elected by the trustees and members of the boards of education of the several school districts in such town. (See township law, sec. 354, above referred

to). It is contended that this provision violates article X, section 2, of the constitution.

(3) All trustees, members of boards of education and other school officers in school districts were continued in office up to and including July 31, 1917. At such time the terms of office of such trustees and members of boards of education expired, except that they were continued in office after such date if necessary for the purpose of closing up "the business and financial affairs of the district and of settling its obligations, except bonded indebtedness, adjusting its claims, collecting funds due it and paying its just debts." (Township law, sec. 352).

(4) The bonded indebtedness of the school districts in a town or unit existing at the time of the taking effect of the law became a charge against the property which is subject to tax for the maintenance of the schools in such town or unit. (Township law, sec. 353, subd. 1). The town board of education succeeds to the title and interest of former trustees and boards of education as to school property in the several districts brought into the town or town school unit. The town board exercises in respect thereto the same control and performs the same duties, and is subject to the same liabilities and obligations, as were the trustees and boards of education of the school districts. (See township law, sec. 340).

(5) Provision is made for the appraisal of school property belonging to the school districts comprising the town or town school unit. The value of the property is appraised and after deducting the outstanding bonded indebtedness such value is credited to the district and is to be charged against the town. It is proposed in this manner to equalize the values of school property in the several districts in the towns. The districts are thus to be compensated for the property for which they have contributed and which has been taken over by the town.

Questions Before the Court for Determination

The suit itself involves a determination of the validity of the township law and asks for a permanent injunction restraining all acts by the defendant board of education under such law. The suit therefore is in equity, the main purpose of which is the determination of the validity of the existence of the defendant board of education as a corporation under the township law and the right of the members of such board to exercise official functions and perform official duties under that act. The plaintiff board of trustees of district no. 8 Greenburgh claim the right to perform their official duties as prescribed under the general Education Law and ask that their rights in respect to the school of their district be determined in the suit. These questions are for determination by the court upon the final disposition of the suit.

The question now before the court is as to whether or not the injunction *pendente lite* be continued during the continuance of the suit and until its final disposition. It may be assumed that in determining this preliminary question the court will take into consideration the force and weight of the contentions of the plaintiffs as to the validity of the act. In determining this preliminary question the Court will doubtless consider:

First. Does the nature of the suit and the allegations contained in the plaintiffs' complaint warrant the granting of an injunction *pendente lite*?

Second. If an injunction *pendente lite* may issue in such a suit, is the right to the relief sought by the plaintiffs based on sufficient grounds to warrant the issuance of such an injunction?

In presenting the matter for the consideration of the Court it seems appropriate to discuss at some length the conditions under which an injunction *pendente lite* may properly be granted, and to submit such authorities relating to the constitutional questions involved as will tend to convince the Court that there is no substantial basis for the contention that the act in question is invalid.

Points

1 *The plaintiffs have mistaken their remedy. They should proceed at law either by quo warranto or other legal process to test the legality of the organization of the defendant board of education.*

The plaintiffs herein allege that they are trustees of school district no. 8 of the town of Greenburgh. This district is included in the town school unit of the town of Greenburgh under the township law. By virtue of section 352 of that act the offices of the plaintiffs have been abolished and their powers and duties have ceased. During the pendency of a suit, the purpose of which is to obtain a judicial determination nullifying the act of the Legislature, such trustees may not legally perform any duties as to the schools of the district which they claim to represent. They assert in their complaint that the defendant board of education has usurped their powers and duties, under what they claim to be an invalid act. They ask in their prayer for relief that their rights as trustees of such district be determined, and that the defendant board of education be prevented from exercising any of the powers conferred upon them by the township law.

This clearly brings up for the determination of this Court the question as to whether or not the organization of the board of education under the township law as a corporation is legal and valid, and as to whether or not the defendant members of the board of education of the town of Greenburgh have legal right to exercise the powers and perform the duties conferred or imposed upon them by such law. The action therefore brings before the court the question of the title to office of the plaintiffs, the right of the defendants to exist as a corporation, and the rights of the individual members of the board of education of the town to exercise the official powers and perform the official duties under the law creating their offices.

It is provided in section 1948 of the Code of Civil Procedure that

"The Attorney General may maintain an action upon his own information or upon the complaint of a private person in either of the following cases: (1) against a person who usurps, intrudes into, or unlawfully holds or exercises within the state, a franchise or a public office, civil or military, or an office in a domestic corporation."

The assertion herein is that the defendant board unlawfully holds or exercises a franchise or a public office. A proceeding by the legal remedy of *quo warranto* would therefore lie against the defendant board for the determination of the right of the board to exist as a corporation and for the determination of the rights of its members to hold the offices to which they have been elected. The remedy by *quo warranto* being an available remedy to the plaintiffs, they may not maintain this suit in equity for the

permanent restraint of the defendants and an injunction *pendente lite* may not properly be issued during the continuance of the suit.

In the case of *Prankard v. Cooley*, 147 App. Div. 145, determined in this department, it appeared that the defendant Cooley, a school commissioner, acting under former section 130 of the Education Law, had created three villages within a union free school district as separate school districts and it was alleged that the villages had been created as such in pursuance of a fraudulent scheme on the part of their residents to avoid their due share of taxation for school purposes. The plaintiffs sought a permanent injunction restraining the defendant school commissioner from declaring by certificate that the territory within the limits of said villages constituted separate school districts. The Appellate Division through Mr Justice Hirschberg said:

"We are of opinion that the action is not maintainable by the plaintiffs; that the validity of a municipal corporation created by proceedings legal and regular in form cannot be questioned collaterally by a private individual, but can only be determined in proceedings instituted by the Attorney General in the name of the State and in the nature of a *quo warranto*. The general principle is well stated in the *Cyclopedia of Law and Procedure* (vol. 10, p. 256) as a doctrine 'founded in public policy and convenience and supported by an almost unanimous consensus of judicial opinion, which is that the rightfulness of the existence of a body claiming to act, and in fact acting, in the face of the State, as a corporation, cannot be litigated in actions between private individuals or between private individuals and the assumed corporation, but that the rightfulness of the existence of the corporation can be questioned only by the State; in other words, that the question of the rightful existence of the corporation cannot be raised in a collateral proceeding.'"

Quo warranto is the exclusive method of testing the legality of the organization or change in the territory of a quasi public corporation such as a school district, etc. (32 Cyc 1415)

The plaintiffs in this case seek to prevent the performance of official duties by the defendant board of education. They question the rightfulness of the existence of the board. They attack a legislative enactment having for its purpose the establishment and maintenance of a statewide system of education. They attempt to prevent, during the pendency of the suit which they have brought for the determination of the validity of the act, the administration of such system in a territory of considerable extent. As a result of the restraint school affairs involving the interests of more than a thousand children are directly affected. The principal question to be disposed of is as to the rights of the plaintiffs as the trustees of district no. 8 of the town of Greenburgh to control the school affairs of such district as against the town board of education of the town of Greenburgh exercising its powers and performing its duties as to all of the schools in the town. The people of the State, and not the plaintiffs as individual members of a board of trustees which formerly existed, are most concerned in the disposition of this question. The question is therefore a state question, which under the principles governing the remedy of *quo warranto* should be made the subject of such a proceeding, rather than a proceeding instigated by private individuals for the determination of individual rights.

The Court of Appeals has held in no uncertain way that the determination of the title to any public office belongs exclusively to the courts of law, to be exercised by mandamus, prohibition and quo warranto as to the circumstances of the case and the mode of procedure may require.

People ex rel. Corscadden v. Howe, 177 N. Y. 499.

In this case chapter 127 of Laws of 1902 was under consideration, which amended the act relative to the management of the Albany Penitentiary by authorizing the commissioners of the penitentiary to discharge the keeper thereof and turn the penitentiary over to the sheriff of Albany county. It was contended that this law was unconstitutional for various reasons. The keeper of the penitentiary brought an action to restrain the commissioners from removing him from his office and from transferring the penitentiary to the sheriff, and obtained in such action a temporary injunction. The court after determining that the act in question was unconstitutional passed upon the question as to whether or not an action of injunction would lie to prevent official action under that act. After discussing the question and citing a number of authorities, the court came to the conclusion that a court of equity could not entertain jurisdiction over contests to public office, and that therefore an action brought by the incumbent of the office of keeper of the penitentiary to procure an injunction restraining the commissioners from removing him from office and from transferring the penitentiary to the sheriff, could not be successfully maintained.

As stated by Mr Justice Cullen in the case last cited, the principle that a court of equity may not entertain jurisdiction over contests to public office has been so fully recognized in this State that there seems to be no direct authority in the Court of Appeals on the question prior to the Corscadden case. As indicated in that case, the alleged invalidity of the act does not confer jurisdiction upon the court of equity to determine the right of the plaintiffs to the offices which they seek. In the case at hand the plaintiffs seek the nullification of the township law, so that they may be reinstated in the positions which they formerly occupied. They seek to exclude the defendant town board of education from the offices to which they have been elected so that they, the plaintiffs, may be permitted to continue in the offices which they formerly held. The question therefore is clearly one affecting title to office and the Corscadden case as applied hereto prevents the exercise of equitable jurisdiction by this court, and a suit in equity with an injunction *pendente lite* intervening will not lie.

In the case of Johnston v. Carside, 65 Hun 209, 20 N. Y. 327, it was held that a suit to restrain a claimant of a municipal office from attempting to exercise its powers and duties can not be maintained, as the question of title to office is involved, which may only be tried in *quo warranto* brought by the people.

See also Morris v. Whalen, 64 How. Pr. 109.

In High on Injunction (4th edition), sec. 1312, it is stated that

"Equity will not interfere by injunction to restrain persons from exercising the functions of public offices on the ground of the illegality of the law under which their appointments were made, but will leave that question to be determined by legal forum."

And so too in section 1249 of the same work it is stated that

"Courts of equity have no jurisdiction independent of statute to enjoin at the suit of citizens the proceedings of county or other municipal officers because of the illegality of the act creating such county or municipality, when no question of private right is involved, since the State itself is the only party to institute proceedings to test the franchise of a municipality, the appropriate remedy for that purpose being by proceedings in *quo warranto*."

In the case of *People ex rel. Kingsland v. Clark*, 70 N. Y. 518, the Court of Appeals said: "A legal action in the nature of *quo warranto* is an appropriate if not the only remedy" to determine the validity of proceedings taken for the incorporation of a village. In the case of *Trumbo v. People*, 75 Ill. 561, 565, it was held that the only mode in which the illegality of the formation of a school district can be inquired into is by action in the nature of a *quo warranto* against the trustee.

See also *Alderman v. School Trustees*, 91 Ill. 179

In 22 *Cyclopedia of Law and Procedure*, under the title "Injunctions," at page 888, the rule applicable to questions involving the right to hold public office and perform official duties is well expressed in the following language:

"The incumbent of a public office will not generally be enjoined from performing the duties of that office, and it is immaterial whether he holds the office rightfully or wrongfully where he is the *de facto* officer. Injunction is not the proper remedy, even though the statute under which the officer holds is unconstitutional and void. *Quo warranto* affords an adequate remedy for the trial of title to an office."

It is being thus established that the questions as to the rights of the plaintiffs herein to exercise the duties of their offices as trustees of former school district no. 8, town of Greenburgh, and the rights of the defendants to exist as a corporate body and to exercise their corporate franchises and perform their official duties under the township law, are proper subjects of a proceeding in the nature of *quo warranto*, it appears that there is an adequate remedy at law and that therefore an action by injunction may not be maintained.

The Commissioner of Education, in the exercise of the duty devolving upon him to enforce the Education Law of the State, respectfully submits to this court that the complaint herein should be dismissed and the plaintiffs be compelled to proceed by appropriate remedy at law wherein the people of the State may be properly represented. The questions raised in this suit vitally affect the administration of the State system of schools. If the courts are asked to pass upon the validity of the act, the Commissioner of Education would be remiss in his duty if he did not insist that the action be brought in the form prescribed by the Code of Civil Procedure for the prosecution of actions in which the interests of the State are involved.

2 The granting of an injunction pendente lite in this case will preclude all administrative acts for the maintenance of the schools of the town, and such injunction should not be granted even if the action is properly brought.

It is obvious that pending a determination of the question as to the constitutionality of the township law such law must be deemed in full force and effect and must control the administration of the schools of the town of Greenburgh. The plaintiffs as trustees of district no. 8, town of Greenburgh, are no longer in office by virtue of the act which they seek

to have declared a nullity. They can not legally perform any official acts as to the school in their district until it be finally determined that the township law is invalid and inoperative. The plaintiffs may not exercise as trustees during the pendency of this action any official functions as to the school in the district.

Pending the determination of the question as to the validity of the law, the trustees of the other four districts comprising the Greenburgh town school unit have no legal powers and may perform no duties in respect to the schools in their districts. Until the township law is declared invalid the schools in the town must be operated and maintained in accordance with its provisions. If the town board of education of the town is restrained during the pendency of the suit from exercising any powers under the act, nothing can be done during such period in the way of controlling the schools, providing for their maintenance and furnishing funds for the payment of teachers' salaries and other necessary expenditures. As a result of the injunction there would be no official board having any power or control over the schools of the town school unit. It seems clear under such circumstances that in a suit of this kind an injunction *pendente lite* should not be granted, but that the defendant board of education should be permitted to continue to exercise their powers and duties under the law the validity of which is herein attacked.

There is plenty of authority in support of this position. In the case of *People ex rel. Wood v. Draper*, 24 Barb. 265, characterized and referred to in the opinion of Judge Cullen, in the case of *People ex rel. Corscadden v. Howe*, *supra*, as the famous Metropolitan Police District case, and the decision in which was approved by the Court of Appeals in that case, it appeared that the constitutionality of an act passed April 15, 1857, entitled "An act to establish the metropolitan police district and to provide for the government thereof," was attacked on the ground of unconstitutionality. In the complaint therein it was alleged that the police commissioners appointed in pursuance of that act had intruded upon and usurped their offices without legal warrant, since such law was unconstitutional and conferred no legal powers upon them. The action was one of *quo warranto* by the Attorney General. The plaintiffs sought an injunction to restrain the defendants from exercising any of the functions of the offices of police commissioners under that act during the pendency of the suit and until a decision of the question as to the validity of the law under which they claimed to act. The injunction was denied. In giving its reason for so doing, the court said (at page 269):

"That the public welfare has been deemed to require that an actual incumbent of an office should not be forbidden to perform the duties of it for the time being, even though his title to the office were doubtful; that the public should not be deprived of the benefit of an office merely because it was uncertain whether the person in and ready to perform the duties of it were there rightfully, even while the title of the party assuming to act should be in controversy. To restrain the action of the incumbent is to restrain all the functions of the office; *for he being in—even if wrongfully—no one else can enter until he is removed, and he must act, or no one can.* And it is not at all difficult to see that in very many cases the public interests would require that the duties of an office should not be suspended, and its functions cease, until a matter of personal right between rival claimants could be determined."

In the case at hand the plaintiffs insist that the defendant board of education has usurped their powers and functions. It is asserted that the law under which the defendant board exercises its powers is unconstitutional, and that therefore such board has no legal existence. The plaintiffs ask that all the functions of the office of the defendant board be restrained pending the suit. As a result of this, public interests will be seriously affected and the schools of the town will be deprived of administrative control.

The court, in the case of *People ex rel. Wood v. Draper, supra*, carefully draws a distinction between an injunction restraining an officer from the performance of a particular act and an injunction restraining an officer from the performance of all his duties in the office. The court says:

"But restraining a person from doing a particular act because the act itself is not proper to be done is a very different thing from restraining the entire functions of a public office on the ground that, though the discharge of these functions is necessary to the public welfare, as it is by law declared to be, and no one else but the incumbent for the time can discharge them, still, as there is a doubt whether the incumbent is the proper person for the place, he shall refrain from acting and the public dispense with the benefits of the office until the question of title can be tested by the tedious process of law. It may very well be, and indeed there is no doubt, that a man being a public officer may be restrained in a proper case from doing a particular act of an official character, but it by no means follows that a public office may be restrained from dispensing its benefits to the public. That is a very different matter. The practical utility or benefit to the public of an office can not be questioned before a court. The Legislature by creating it have settled that question, and from that decision courts of justice entertain no appeal. The office itself is not only an emanation from sovereignty but it represents and in measure embraces the principle of sovereignty itself. *Courts therefore will not undertake to restrain the action or operation of it, which they would in effect do if they should restrain generally the incumbent, he of necessity being for the time the only person through whom the public can have the benefit of the functions of the office.*"

May it not, therefore, in view of this leading authority upon this question, be forcibly insisted that this court may not interfere by its order with the official functions of a board created by the Legislature in the exercise of what it deemed to be its constitutional powers? It is not unreasonable for the Commissioner of Education as the representative of the State in matters pertaining to the public education of the children of the State, to respectfully insist that this court shall not interfere with the operation of this law until there be a final determination as to its validity. The propriety of assuming this position is emphasized by the fact that if the injunction *pendente lite* is granted, the people of the town of Greenburgh will be entirely deprived of any benefits of all school offices during the continuance of the suit.

It is true that the case of *People ex rel. Wood v. Draper, supra*, was an action of *quo warranto* and not a suit in equity. It should be noted that in *quo warranto* actions the Attorney General sues for the State and seeks a remedy in behalf of the people. If it be established as a rule that where an action of *quo warranto* is brought by the people for the purpose of determining the right of a public officer to exercise official

powers under a statute claimed to be unconstitutional, as appeared in the Draper case, an injunction *pendente lite* will not be granted, it would be unreasonable to assert that such an injunction might be granted in a suit brought by individuals to test the right of public officers to perform their duties under an alleged unconstitutional law. If the people in an action brought to test the constitutionality of a law involving official title and the performance of official duties, may not have a temporary injunction, it would be unreasonable to permit such an injunction in a suit or action as between individuals where similar questions are involved.

In the case of *Morris v. Whalen*, 64 How. Pr. 109, 115, this distinction was drawn and the court there said:

"It has already been shown that when a 'person usurps or intrudes into . . . a public office, civil or military', and the Attorney-General brings his action to oust him, no injunction can be obtained *pendente lite*; and would be a little remarkable for a party who, as is conceded, has no right to bring an action to test a title, could obtain a relief which the people cannot be afforded."

This case was commented upon and approved by the General Term in *Johnston v. Carside*, 65 Hun 209, 20 N. Y. Supp. 327.

It must be obvious to this court without further discussion that to grant the injunction *pendente lite* as requested by the plaintiffs would be a serious interference with school administration in the town in question and would deprive the people of the town school unit of the benefits of a public office which the Legislature has created. As we have shown, the plaintiffs may not legally exercise any powers as to the school in their own district or as to the schools in the town, so that it is not a question of retaining the plaintiffs in office pending the determination of the question of the validity of the act, for so long as the act is in force such plaintiffs have no official powers and may perform no act as to the school in their district. So that if the injunction *pendente lite* is granted, the people represented by the plaintiffs herein would be as seriously inconvenienced and as grievously injured as the residents and children of the other districts in the town school unit. For this reason, if for no other, this court should permit the defendant board of education to continue in office during the pendency of the suit.

3 *An injunction pendente lite should not be granted in an action brought to test the constitutionality of a law unless the invalidity of the act is clearly apparent and irreparable public injury will result unless it be granted*

The general rule is that an injunction *pendente lite* should not be granted upon light grounds or in doubtful cases. Where the right is not clear or the damage great, or the apprehended mischief irreparable, it should not be granted until the rights of the parties are ascertained upon full proof on the final hearing.

See *Partridge v. Menck*, 1 How. App. Cas. 547, affirming 2 Barb. Ch. 101.
Abraham v. Meyers, 29 Abb. N. C. 384.

Mapleson v. Delpuente, 13 Abb. N. C. 144.

The strongest probability of a decision in favor of the plaintiff must appear.

Hamilton v. Transit Co., 3 Abb. Pr. 255.

As we will attempt to show in the succeeding points in this brief, the contention of the plaintiffs that the law is unconstitutional is without substantial basis. There is a valid presumption in favor of the constitutionality of this law. It was enacted after exhaustive investigation and deliberate consideration by the Legislature and its various committees. As we have before indicated in this brief, the leading educational authorities of the State and country recommended its enactment. Unless the plaintiffs have been able to show to this court that there is a serious infringement upon their constitutional rights by its enactment, they are not entitled to an injunction *pendente lite*.

If this court has the legal right to grant an injunction *pendente lite* in this case, it may exercise such right entirely as a matter of discretion. We submit that the injunction should not be granted in view of the serious situation that would result because thereof, not only in the town of Greenburgh but throughout the State. In this connection the court should take judicial notice of the fact that there are more than one thousand town school units similar to that of the town of Greenburgh, which have recently been organized under this law. In many of such towns questions have arisen similar to those in this case. In many of them districts which have been favored in the past by unreasonably low tax rates have been required to contribute in equality with their neighbors for the support of the schools of the towns. There are naturally many localities where such favored taxpayers have been adversely affected by the attempt made in this law to equalize the burden of taxation. Litigations are contemplated and many have been threatened in various parts of the State to test the validity of the law.

In many of these cases, as in the case at hand, questions of fact will arise which must be tried out in court. The determination of such questions of fact, as well as a determination of the particular questions of law which may arise, will necessarily require considerable time. If it be declared in this case that an injunction *pendente lite* may properly be granted, so that town boards of education may be restrained from exercising any of their powers under the Township Law during the pendency of the suits brought to test its validity, it is readily conceivable that the administration of school affairs in many of the towns of the State will be interrupted and disturbed. In my opinion this situation should rest heavily upon the conscience of the court in arriving at a conclusion as to the exercise of the discretion conferred upon it to grant this injunction.

The injury which the plaintiffs herein anticipate, and which they assert is irreparable, pertains to them exclusively or to the taxpayers of district no. 8 whose taxes have been increased because of the enactment of the township law. They do not assert and they can not establish that the school in their district will be injured by the continuance of the board of education of the town of Greenburgh in office during the pendency of action. As has been sufficiently shown, the other districts in the town will be seriously injured by the suspension of the operations of the board during the continuance of the suit. The people of the town as a whole

will therefore be more seriously injured by the granting of the injunction than will the plaintiffs be by the refusal to grant it.

It was declared in the case of *Fitzpatrick v. Flagg*, 5 Abb. Pr. 213, that where an injunction will cause greater public injury than can follow from the acts sought to be enjoined, it should not be allowed. This principle may not be controverted. It especially applies in a case where it is sought to nullify the organization of a municipal board or a quasi public corporation created for carrying out a beneficent public object.

↓ *The plaintiffs may not under their complaint in this suit obtain a determination as to whether or not district no. 9 (the Elmsford district) of the town of Greenburgh is within the provisions of the law.*

The plaintiffs have urged in their complaint that school district no. 9 of the town of Greenburgh comprises the village of Elmsford, duly incorporated as a village under the village law of the State New York, and upon information and belief that said village has for the year last past had a population of more than fifteen hundred. (See paragraph 24 of complaint.) The plaintiffs further allege that notwithstanding the provisions of said chapter 328 of Laws 1917 the said village of Elmsford participated in the said election of the trustees, and other villages participated in said election. (See paragraph 25 of complaint.) The township law, in section 331, subdivision 1, excepts from the provisions of the law "union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more at the time this act takes effect." The plaintiffs do not allege that district no. 9 is a union free school district, and it nowhere appears in the record of the case that such district is a union free school district. The allegation to the effect that the village of Elmsford has a population of more than fifteen hundred will not permit the introduction of evidence as to the population of the district, since it does not appear in the complaint that the boundaries of such district and the boundaries of the village are coterminous. The village of Elmsford as a village has no connection, either under the Education Law or under the township law, with the school system of the town.

In the plaintiffs' prayer for relief they ask for a determination of their rights and duties as trustees of school district no. 8 Greenburgh, and further request a determination as to the constitutionality of the township law. Their rights and duties as trustees of district no. 8 are in no way affected by the alleged illegal participation of the trustees of school district no. 9 in the election of a town board of education of the town of Greenburgh. If it be determined that such district had a population of more than fifteen hundred and was on this account exempted from the provisions of the law, the plaintiffs as trustees of district no. 8 would have no greater powers or rights than they now possess. The plaintiffs' prayer for relief does not, therefore, include the request for a determination as to the validity of the participation of the Elmsford district in the election of the defendant board of education. A determination of such question may not therefore be made in this connection.

If the plaintiffs insist upon a determination of this question it will involve a protracted trial of an issue of fact and will necessitate the taking

of considerable evidence. It will necessarily delay the final disposition of the case.

The question thus raised by the plaintiffs involves a test of the validity of the election of the defendant board. The title to the offices of members of the board is thus questioned. Such question cannot be tried in this action, but must be tried by an action of *quo warranto* in the name of the people. The cases previously cited in this brief are in point upon this question. Whatever may be the determination of the court as to the remedy sought by the plaintiffs in this action, it must be held, in view of section 1948 of the Code of the decisions thereunder, that the election of the members of the defendant board of education can only be tested by an action of *quo warranto* on the law side of the court.

5 The law is constitutional in all respects and will be sustained upon a final determination of the suit

It may be assumed that the court will not at this time finally dispose of the question of the constitutionality of the township law. It will therefore be unnecessary at this time to present an exhaustive argument in support of the validity of the law. The learned counsel for the plaintiffs in his oral presentation of his case presented authorities upon which he apparently relies to sustain his contention that the law is invalid. It seems proper, therefore, to present briefly authorities and arguments sustaining the constitutionality of the act.

The plaintiffs alleged that the law is unconstitutional in the following respects:

(1) *It is asserted that it is special legislation and discriminatory against Westchester county in that by general language it has excepted Nassau county from its provisions and included Westchester county within it.*

The attorney for the plaintiffs has insisted that the provisions of sections 331 and 351 to the effect that school districts in the several towns of a county which adjoins a city having a population of one million or more and in which there are only two district superintendents, are exempted from its provisions. In his argument he relied upon the case of *Matter of Henneberger*, 155 N. Y. 420, and read extensively from the opinion of the court as to the effect of language used in a statute intended to make such statute general, although local in its application.

This case has no bearing upon and does not in any way control the disposition of the case at hand. In the *Henneberger* case the court considered the constitutionality of Laws of 1897, chapter 286, entitled "An act to provide for the widening and improving of the highways in towns having a total population of eight thousand or more inhabitants and containing an incorporated village having a total population of not less than eight thousand and not more than fifteen thousand inhabitants." Such act authorized the improvement upon petition of a highway "or a certain specified portion thereof not less than two miles and a half in length, such portion being wholly without the limits of such incorporated village." It was held that although the language was general in form it was so confined in its operation by the conditions imposed as to make it a local act within the clause of the constitution, article III, section 18, which prohibits the Legislature from passing any private or local bill laying out or altering highways. In this case there was

an attempted evasion of a specific constitutional provision prohibiting the enactment by the Legislature of local or special laws for certain enumerated clauses.

The honorable court apparently considered the question raised as of some significance. The court mentioned the case of *Smith v. Smythe*, in which a question as to the use of general language in evading certain constitutional restrictions as to local legislation was under consideration. This case is reported in 132 App. Div. 71 and was subsequently reversed in 197 N. Y. 457, wherein the Court of Appeals sustained the conclusion reached by Mr. Justice Tompkins. In this case an act entitled "An act to amend the village law relative to lighting certain streets and roads and subdivisions of villages," which merely gave to the board of trustees under certain conditions the power to assume the duty of lighting and caring for certain described streets within the limits of villages, was under consideration. It was apparent that the intention of the act was to limit its application to the village of Bronxville. The whole question depended for its determination upon whether or not the language was such as to constitute an evasion of section 18 of article III of the constitution, prohibiting the passage of a private or local bill, laying out, opening, altering, working or discontinuing roads, highways or alleys.

In all cases that may be cited bearing upon the questions as to the use of general language to describe a particular locality, the question arising for determination is always whether or not the law is violative of some expressed constitutional restriction or prohibition as to the enactment of private or local bills. The plaintiffs' attorney has not cited, and will not be able to cite, any constitutional provision which prevents or in any way limits the power of the Legislature to enact private or local bills relative to the creation of school districts or the administration of school affairs. It is not necessary to cite instances where the Legislature has enacted local and special laws pertaining to educational affairs. The Session Laws are full of such special legislation.

There is no constitutional objection to the inclusion in the act of a specific provision excepting the county of Nassau from its operation. It is for the Legislature to determine as to the localities to be affected by legislation of this kind. If all of the schools and the children of a specified district, town or county are subject to the provisions of a law, it may not be deemed to be class or discriminatory legislation because other counties, towns and districts are not made subject to its provisions.

(2) *It is asserted that the provision made for the election of the first board of education violates the provisions of section 2 of article X of the Constitution.*

This contention is unsound and with no substantial foundation. Article X, section 2, of the constitution, so far as the same applies to this controversy, provides as follows:

"All city, town and village officers, whose election or appointment is not provided for by this constitution, shall be elected by the electors of such cities, towns and villages, or of some division thereof, or appointed by such authorities thereof, as the Legislature shall designate for that purpose.

All other officers, whose election or appointment is not provided for by this constitution, and all officers whose offices may hereafter be created by law shall be elected by the people, or appointed as the Legislature may direct."

A school district officer is not a city, town or village officer. A member of a town board of education is an officer of the town school unit, the extent of which is limited by the boundaries of the school districts comprising such unit, some of which extend into adjoining towns. Such members are officers representing the State in the administration in the locality designated of a state system of education. It is not necessary to cite authorities establishing this proposition. Reference may only be made to the case of *Gunnison v. Board of Education*, 176 N. Y. 11, in which it was distinctly held that the board of education of the city of New York in the administration of the school affairs of the city exercises a state function and is entirely independent of the other administrative departments of the city.

The office of member of the board of education of the town school unit not being a city, town or village office, it is not subject to the restriction of the home rule clause of this section of the constitution. Such office falls within the last sentence of the section, wherein it is provided that all officers other than county, city, town and village officers, whose election is not provided for by the constitution or whose offices may hereafter be created by law, shall be either elected by the people or appointed as the Legislature may direct. The Legislature has, in the exercise of its power thus conferred, directed that the members of the town board of education first elected under the township law shall be appointed by the trustees and members of the boards of education of the school districts comprising the town school unit. It is not material that the act says that such members shall be elected by such trustees and members of boards of education.

For instance, in the case of *People v. Sturges*, 27 App. Div. 387, aff'd, 150 N. Y. 580, it was held that a statute (L. 1895, chap. 247) providing for the "election" of a village president by the board of trustees of the village "is not unconstitutional under this section as designating a mode of selecting that officer other than an election by the people or appointment by local authority." It was held therein that the "election" by the trustees was equivalent to "appointment" within the meaning of section 2 of article X of the constitution.

And so also in the case of *State Board of Pharmacy v. Bellinger*, 138 App. Div. 12, it was held that article 11 of the public health law, creating the State Board of Pharmacy, was not violative of this section because it provided that the members of the board should be "elected" by a restricted electorate of licensed pharmacists, for while the statute used the word "election" the method of selection amounted in legal effect to an appointment.

In this case the election of members of the town board of education by the trustees and members of the boards of education of the districts comprising the school unit is in effect an appointment and falls clearly within the authority conferred upon the Legislature to direct as to the method of appointing public officers.

(3) *It is asserted that the act violates section 1 of article 18 of the constitution, which requires the Legislature to provide for the maintenance and support of a system of free common schools.*

The attorney for the plaintiffs has cited no authority in support of this contention. The Legislature has, in the exercise of the comprehensive power conferred upon it, provided for a system of school administration in certain districts prescribed in the law. Other districts not included are left subject to the provisions of the general Education Law or such special acts as may have been enacted applicable thereto. The township law will tend to promote the educational interests of all the children in the districts in the towns which are subject to its provisions. The Legislature has not by excepting certain counties and districts from its provisions deprived such counties and districts of the benefits of a system of free common schools. Public schools are still to be maintained in such districts and counties under the provisions of general or special laws applicable thereto. The township law was enacted by the Legislature in compliance with the mandate of the constitution requiring the maintenance of a "system of free common schools."

(4) It is further asserted that the law violates the provisions of the constitutions of the United States and of the State of New York in that it deprives district no. 8 Greenburgh of its property without due process and imposes upon it bonded indebtedness incurred by other districts.

The township law, in section 340, substitutes the board of education of the town school unit for the trustees and boards of education of the districts comprising such unit and confers upon such board the power to control and maintain all school property in the districts of the unit. It further provides, in section 353, that the bonded indebtedness of the school districts in the town which are made subject to the law shall become the bonded indebtedness of the town school unit.

The township law must be regarded as consolidating for administrative and tax purposes all the school districts which are brought within it. It has been the law in this State for more than fifty years that the establishment of school districts or alteration of their boundaries and the consolidation of school districts, is within the control of the Legislature, and provision has always been made for such establishment, alteration or consolidation by authorities indicated by the Legislature. For instance, in sections 128 and 129 of the Education Law, which was originally enacted in 1864, (chap. 555, tit. 6, sec. 8) the school commissioner (now district superintendent) might dissolve one or more school districts and annex the territory thereof to adjoining districts or consolidate such districts into a new district. Where such dissolution and consolidation was effected, the law provided, in section 137, that the property of such districts should become the property of the consolidated district. And in section 134-a, as amended by Laws of 1913, chapter 129, it is provided that where districts are consolidated under sections 128 and 132, the bonded indebtedness of the dissolved districts becomes the bonded indebtedness of the consolidated district. Numerous controversies have arisen in the courts and before the Commissioner of Education and the former Superintendents of Public Instruction involving the validity and effect of such consolidation. No question has ever been raised in any of these cases as to the constitutional power of the Legislature to transfer to the consolidated district the property of the dissolved districts, or to impose upon the consolidated district the bonded indebtedness of the dissolved districts.

In the case of Board of Education v. Storms, 147 App. Div. 679, the board of education of a consolidated district maintained an action against a former

treasurer of one of the dissolved districts to recover money in his hands, which under the section above referred to became the property of the consolidated district. The court held that such action was maintainable, although it does not appear that the court considered the question of the constitutionality of the transfer of the property. It is fair to assume that if there had been any basis for such a contention it would have been raised in this case and controlled the determination of the court.

It is not advisable or necessary at this time to submit to this court a comprehensive discussion of authorities in support of the constitutionality of a law which alters the boundaries, extends the limits or dissolves existing municipalities and creates new ones out of the territory thereof. The United States Supreme Court has in a number of cases sustained the power of the Legislature in this respect. In the case of *Mount Pleasant v. Beckwith*, 100 U. S. 514, the court said:

"Old towns may be divided and new ones incorporated out of parts of the territory of those previously organized; and in enacting such regulations the Legislature may apportion the common property and the common burdens and may, as between the parties in interest, settle all the terms and conditions of the division of their territory or the alteration of the boundaries as fixed by any prior law."

See also *Hunter v. Pittsburgh*, 207 U. S. 161, 178.

Vilas v. Manila, 220 U. S. 345, 356.

People ex rel. Hendrickson v. Supervisors, 147 N. Y. 1, 5.

Dillon on Municipal Corporations, 5th ed., Sec. 355.

The State of New York has been late in following other states in their recognition of the educational necessity of abolishing small school units and substituting in place thereof larger units, either by consolidation or by the adoption of the township system. In Massachusetts the so-called township system has been in force and effect for nearly fifty years. The same questions arose under the statute in that state abolishing school districts and substituting in place thereof the township system. It was contended there, as it is here, that the taking over of the property of the school districts by the newly organized town school unit was a deprivation of the property rights of the school district without due process of law. In every case where the question has arisen in the state of Massachusetts under the law consolidating school districts and establishing the township system, the court has sustained the constitutionality of the law and denied that there was any infringement upon existing property rights by the taking over of the property of the school district and by the imposition upon the town of existing indebtedness.

I call the court's attention especially to the cases of *Rawson v. Spencer*, 113 Mass. 40.

School Dist. No. 1 Stoneham v. Richardson, 23 Pick. (Mass.) 62.

In Michigan, under Laws 1891, chapter 176, a township might be organized into a single school district, and under section 13 of that act it was provided that all school property within the limits of a township incorporated as aforesaid became by force of the act "the property of the public schools of the township, and all debts and liabilities of the school districts of said township as they existed prior to its incorporation under the provisions of the act shall become the liabilities of the public schools of the

township so incorporated." The Supreme Court of that state, in the case of *Perizo v. Kessler*, 93 Mich. 280, sustained the constitutionality of such provision.

6 *The application for an injunction pendente lite should be denied.*
Respectfully submitted

FRANK B. GILBERT

Attorney for the Commissioner of Education

Replying Memorandum on Behalf of Defendants and the State of New York, Intervener

It is our understanding that the question being considered by the court is a motion for judgment dismissing the complaint upon the pleadings, counsel for plaintiffs having conceded upon the argument that if the act under consideration should be held to be constitutional, its action must fail; but that if the act should be held to be unconstitutional, then the action shall continue and plaintiffs shall be accorded an opportunity of proving facts to sustain their complaint.

The complaint having charged that the act is unconstitutional for the reasons therein stated, no objection will be offered to the form of the action if the act under consideration shall be held to be unconstitutional. If, however, the court shall determine that the act is constitutional, then and in that case it is most respectfully urged that the action in the form in which it has been brought will not lie and that plaintiffs' remedy is either an appeal to the Commissioner of Education from the proceedings of the meeting of district trustees which resulted in the election of the defendant board of education, or an action of *quo warranto* after permission by the Attorney General.

The very plain distinction is that if the act is unconstitutional, then there is no board of education of the town of Greenburgh and there has been no election of such a board, and there are therefore no determinations or proceedings from which to appeal and no office the title to which may be tried out in a *quo warranto* action; but, if on the other hand the act is constitutional, then there has been a meeting of trustees resulting in an election or selection of a board of education of the town of Greenburgh, there is such an office as member of the board of education of the town of Greenburgh and the defendants are de facto members of such board and their title to such office may not, upon abundant authority, be tried out in an equity action.

Cases in support of the proposition above made have been cited in the brief of Mr Gilbert for the State Education Department, previously submitted.

Before proceeding to a consideration of the constitutional questions raised by plaintiffs' counsel, we deem it appropriate to make a few general suggestions with respect to plaintiffs' charge of discrimination against the county of Westchester and to the pretense of plaintiffs' counsel that this is an application to the court for the instruction and direction of trustees.

First: This is not an application to the court for the instruction and direction of trustees in any fair or proper sense. Plaintiffs do not seek the instruction of the court; they seem not to be in any doubt whatever with respect to the course which they should adopt; in fact they have determined what their course should be and are seeking the judgment of the court to assist them in executing their determination.

Further, if the act under consideration is constitutional, these plaintiffs have no existence as trustees, save only for the very limited purposes specified in section 352 of the act under consideration, the township school law.

Second: There has been no discrimination against the county of Westchester. It must be presumed that the township school law is a wise and just enactment of the Legislature. At any rate it is beyond the province of the court to determine that it is unwise and imprudent. Much of the argument contained in plaintiffs' brief against the law might with propriety have been urged before the Legislature which enacted the law, but the legislative discretion is not vested in the court nor in plaintiffs' counsel, but in the Legislature and it is beyond the power of the court to nullify the action of the Legislature when the act in some particular offends the federal or the state constitution.

The act treats Westchester county exactly as it treats every other county in the State, except the county of Nassau, and it is difficult to conceive how it can be contended with success that the county of Westchester has been discriminated against.

It seems to be perfectly plain that if any discrimination is worked by the act, it is against Nassau county which is the only county excepted from the operation of the act, and not Westchester county, which is treated by the act in exactly the same manner as every other county of the State except Nassau.

As to Constitutionality

Plaintiffs contend that the act offends section 1 of article IX, section 2 of article X of the state constitution, and section 1 of article XIV of the federal constitution, or the fourteenth amendment. We shall consider these constitutional provisions in the order stated.

Article IX, Section 1, State Constitution

The section reads as follows:

"Article IX. Common schools. Section 1. The Legislature shall provide for the maintenance and support of a system of free common schools, wherein all the children of this State may be educated."

Plaintiffs' attorney does not discuss this section in his brief, nor did he refer to it upon the oral argument, nor has any authority been cited in support of the contention that the township school law offends this provision of the constitution.

It is respectfully submitted that the Education Law of the State of which the act under consideration is a part, has been enacted by the Legislature in compliance with the constitutional section above quoted, and does provide a system of free common schools wherein all the children of this

State may be educated, we assuming that objection based upon this provision has been abandoned by plaintiffs for the reason that plaintiffs' counsel has not pointed out in what manner he claims this section of the constitution has been offended and did not refer to it upon the argument.

Article X, Section 2, State Constitution

The particular part of this section which counsel claims the township school law offends, reads as follows:

. . . All other officers, whose election or appointment is not provided for by this constitution, and all officers, whose offices may hereafter be created by law, shall be elected by the people, or appointed as the Legislature may direct."

The particular section of the statute which plaintiffs contend violates the above constitutional provision is section 354 which provides the manner in which the first board of education in each town shall be chosen and upon the expiration of their terms how succeeding boards shall be elected.

The objection does not extend to the election of boards of education subsequent to the first board, but is confined to the selection of the first board of education.

With respect to the selection of the first board, the section provides that the first board of education shall be "elected" by the trustees and members of the board of education of the several school districts in such town, subject to the provisions of the article, and goes on to provide in detail how and when and where the trustees and members of boards of education shall be gathered together for the purpose of education, and provides in detail the procedure which shall be followed in order to make the selection.

The contention of plaintiffs is that this machinery and procedure provided for by the Legislature is not an election but an appointment, whereas the Legislature has called it an election; and that inasmuch as it is not an election by the people, it violates the constitutional provisions above cited.

Counsel for plaintiffs has made a very labored effort on his brief to convince the court that this manner of choosing a board of education is not an election but an appointment, and in fact concedes that if section 354 had provided that the first board of education of each town shall be "appointed" by the trustees following exactly the same procedure and employing exactly the same machinery as it has provided, but which it has called an election, the provision would not be violative of the constitutional provision above cited.

Plaintiffs' contention therefore resolves itself into a mere quibble with respect to the use of words. A procedure within the power of the Legislature to provide is contended, for the purpose of construing this act, to be unlawful and unconstitutional simply because the Legislature has called it an election, not because of any objection to the procedure itself.

Of course, there is nothing of substance in this contention.

In *People v. Sturgess*, 27 App. Div. 387, affirmed 156 N. Y. 580, it was held that chapter 247 of the Laws of 1895 providing for the "election" of a village president by the board of trustees of a village is not unconstitutional under this section as designating a mode of selecting that officer, other than an election by the people or an appointment by local authority.

It was there held that the "election" by the trustees was equivalent to "appointment" within the meaning of section 2 of article X of the state constitution.

In *Sturgis v. Spofford*, 45 N. Y. 446, it appeared that chapter 467 of the Laws of 1853 provided that three commissioners of pilots should be "elected" by the members of the chamber of commerce and the other two by the presidents and vice presidents of the marine insurance companies of the city of New York represented in the board of underwriters of said city. It was contended that this provision was violative of section 2 of article X of the state constitution because it did not in terms provide that such officer should be "appointed" or elected by the people. The court held that the act was not unconstitutional, saying:

"Although the word election is used in the statute, it cannot be supposed that the legislature intended it in any such sense as that word is used in the constitution, or as the result of the choice by the ordinary mode of voting by the people. The mode prescribed by the statute for selecting these officers is, in legal effect, an appointment, and comes within the meaning of that word as used in the constitution, and the misnomer of the legislature can not change the real character of the act provided for." (Page 449)

In *State Board of Pharmacy v. Bellinger*, 138 App. Div. 12, it was held that article XI of the public health law creating the State Board of Pharmacy, was not violative of section 2 of article X of the state constitution because it provided that the members of the board should be "elected" by a restricted electorate of licensed pharmacists, for while the statute used the word "election," the method of selection amounted in legal effect to an appointment.

The decision in the pharmacy case cited *Sturgis v. Spofford* (supra) and of it said: "This authority is decisive on the point now raised."

We respectfully submit that these decisions of the courts of New York are controlling upon this question and conclusively establish the proposition that where a statute uses the terms "election" and the method described is that of an appointment, the requirements of the constitutional provision have been met.

14th Amendment, Federal Constitution

Section 1 of article XIV reads as follows:

"All *persons* born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of *citizens* of the United States; nor shall any state deprive any *person* of life, liberty, or property, without due process of law, nor deny to any *person* within its jurisdiction the equal protection of the laws."

It is our contention that this section of the federal constitution is intended to protect the *personal* rights of *individual citizens* and that it has no proper application to a statute which assigns or delegates to subdivisions of the State details of governmental functions; and that political subdivisions of the State, created by the Legislature, have no rights as such as against the State either under the fourteenth amendment to the federal constitution or any other provision of constitutional or statute law.

Markey v. County of Queens, 154 N. Y. 675.

County of Albany v. Hooker, 204 N. Y. 1.

In the case last cited it was held, quoting from the head note which is a succinct statement of the opinion:

"The state has exercised its sovereign power by dividing its territory into counties and imposing upon them certain governmental and political powers and duties. In the exercise of such powers and in the performance of such duties *the counties are mere agents of the state and component parts of it.* They are not, in the exercise of such authority, subject to suit any more than the state itself, and cannot maintain an action against the state of whose sovereign power they are a part, or against state officers who are expressly charged with the performance of sovereign power.

"In the exercise of certain corporate powers counties have been treated as quasi corporations and have sued and been sued as such; but authority to sue and be sued as quasi corporations has been restricted to matters pertaining to them in their corporate capacity as distinguished from their governmental and political capacity.

"Counties are trustees only of the property held for public use. *They are not the guardians and protectors of private and individual interests or property of the citizen.* They may not intervene by action to protect or redress the individual citizen in respect to wrongs or injury to his person or property. Their power as well as duty is restricted to the protection and preservation of property possessed by them in their corporate capacity."

The principle enunciated by the court in the case last above cited is applicable with as great, if not greater force to a school district.

Gunnison v. Board of Education, 176 N. Y. 11.

In the Gunnison case, at pages 16 and 17, the court says:

"It is apparent from the general drift of the argument that the learned counsel for the defendant is of the opinion that the employment of the teachers in the public schools and the general conduct and management of the schools is a city function in the same sense as it is in the case of the care of the streets or the employment of police and the payment of their salaries and compensation; but that view of the relations of the city to public education, if entertained, is an obvious mistake. The city cannot rent, build or buy a schoolhouse; it cannot employ or discharge a teacher, and has no power to contract with teachers with respect to their compensation. There is no contract or official relation, express or implied, between the teachers and the city. *All this results from the settled policy of the state* from an early date to divorce the business of public education from all other municipal interests or business, and to take charge of it as a peculiar and separate function through agents of its own selection, and immediately subject and responsive to its own control. To this end it is enacted in the general laws of the state that all school trustees and boards of education shall be corporations with corporate powers, which, of course, includes the power to sue and be sued in all matters relating to the control and management of the schools . . . The only purpose for which the defendant (the board of education of the city of New York) was created a corporate body was to conduct a system of public education in a designated division of the state and manage and control the schools therein."

It should be remembered that plaintiffs did not, nor do they assume to represent the county of Westchester, but only a single school district within one town of Westchester county. There is nothing in the complaint to indicate that the entire county of Westchester and its citizens, with the single exception of the plaintiffs' school district, do not favor and approve the township school law, or that that act is in any way diverse to the interest of the county of Westchester and its citizens.

The act under consideration should be treated and considered as though specific exemption from the operation of its provisions for the county of

Nassau were therein declared because the county of Nassau is the only county to which the exception complained of by plaintiffs applies.

It was within the power of the Legislature and within its legislative discretion to determine that such conditions existed with respect to the county of Nassau as to make it wise to exempt that county from the operation of this statute, and there being no constitutional provision to restrict the Legislature in the exercise of its discretion in this respect, it is beyond the power of the courts to nullify the action of the Legislature.

In *Laramie County v. Albany County et al.*, 92 U. S. 307, it is said at page 308:

"Counties, cities, and towns are municipal corporations, created by the authority of the legislature; and they derive all their powers from the source of their creation, *except where the constitution of the State otherwise provides*. Beyond doubt, they are, in general, made bodies politic and corporate; and are usually invested with certain subordinate legislative powers to facilitate the due administration of their own internal affairs, and to promote the general welfare of the municipality. *They have no inherent jurisdiction to make laws, or to adopt governmental regulations; nor can they exercise any other powers in that regard than such as are expressly or impliedly derived from their charters, or other statutes of the State.*"

Again at page 310 the court says:

"Corporations of the kind are properly denominated public corporations, for the reason that they are but parts of the machinery employed in carrying on the affairs of the State; and it is well-settled law, that the charters under which such corporations are created may be changed, modified, or repealed, as the exigencies of the public service or the public welfare may demand. 2 Kent, Com., 12th ed., 305; Angell & Ames on Corp., 10th ed., sect. 31; McKim v. Odom, 3 Bland, 407; St. Louis v. Allen, 13 Mo. 400; The Schools v. Tatman, 13 Ill. 27; Yarmouth v. Skillings, 45 Me. 141.

"Such corporation are composed of all the inhabitants of the Territory included in the political organization; and the attribute of individuality is conferred on the entire mass of such residents, *and it may be modified or taken away at the mere will of the legislature, according to its own views of public convenience, and without any necessity for the consent of those composing the body politic*. 1 Greenl. Ev., 12th ed., sect. 331."

Again at page 311 the court says:

"Public duties are required of counties as well as of towns, *as a part of the machinery of the state*; and, in order that they may be able to perform those duties, they are vested with certain corporate powers; but their functions are wholly of a public nature, and they are at all times as much subject to the will of the legislature as incorporated towns, as appears by the best text-writers upon the subject and the great weight of judicial authority.

"Institutions of the kind, whether called counties or towns, *are the auxiliaries of the State in the important business of municipal rule, and can not have the least pretension to sustain their privileges or their existence upon any thing like a contract between them and the legislature of the State* because there is not and can not be any reciprocity of stipulation, and their objects and duties are utterly incompatible with every thing of the nature of compact. Instead of that, the constant practice is to divide large counties and towns, and to consolidate small ones, to meet the wishes of the residents, or to promote the public interests, as understood by those who control the action of the legislature. Opposition is sometimes manifested; but it is everywhere acknowledged that the legislature possesses the power to divide counties and towns at their pleasure, and to apportion the common property and the common burdens in such manner as to them may seem reasonable and equitable. (Citing cases.)

"Political subdivisions of the kind are always subject to the general laws of the state; and the Supreme Court of Connecticut decided that the legislature of that State have immemorially exercised the power of dividing towns at their pleasure, and upon such division to apportion the *common property and the common burdens* as to them shall seem reasonable and equitable. (Citing cases.)

"Such corporations are the mere creatures of the legislative will; and, inasmuch as all their powers are derived from that source, it follows that those powers may be enlarged, modified, or diminished at any time, without their consent, or even without notice. They are but subdivisions of the state, deriving even their existence from the legislature. *Their officers are nothing more than local agents of the state; and their powers may be revoked or enlarged and their acts may be set aside or confirmed at the pleasure of the paramount authority, so long as private rights are not thereby violated.*"

Again at page 313 the court says:

"Old towns may be divided, or a new town may be formed from parts of two or more existing towns; and the legislature, if they see fit, may apportion the common property and the common burdens, even to the extent of providing that a certain portion of the property of the old town shall be transferred to the new corporation.

"In dividing towns, the legislature may settle the terms and conditions on which the division shall be made. It may enlarge or diminish their territorial liabilities, may extend or abridge their privileges, and may impose new liabilities. Towns, says Richardson, C. J., are public corporations, created for purposes purely public, empowered to hold property, and invested with many functions and faculties to enable them to answer the purposes of their creation.

"There must, in the nature of things, be reserved, by necessary implication, in the creation of such corporations, a power to modify them in such manner as to meet the public exigencies. Alterations of the kind are often required by public convenience and necessity; and we have the authority of that learned judge for saying that it has been the constant usage, in all that section of the Union, to enlarge or curtail the power of towns, divide their territory, and make new towns, whenever the convenience of the public requires that such a change should be made."

To the same effect are *Worcester v. Worcester Consolidated Street Railway Co.*, 196 U. S. 539, and *Kies v. Lowrey*, 199 U. S. 233.

The case last cited is a school district case and holds, quoting from the headnote:

"Where the legislature of the State has the power to create and alter school districts and divide and apportion the property thereof, no contract arises in favor of any district created by an act, the obligation whereof is later impaired by a subsequent act altering the districts and transferring property, nor does such later act amount to the taking of the property of the district taken without due process of law."

In this case it appeared that the constitution of the state of Michigan required the Legislature to establish and provide a system of public schools, whereby a school shall be kept open at least three months in each year in every school district in the state. In fulfillment of this constitutional requirement legislation had been enacted from time to time by the Legislature of Michigan providing for the formation of school districts, among others four districts in the townships of Somerset and Moscow, county of Hillsdale.

In 1901 the Legislature passed an act to incorporate the public schools of the village of Jerome, Hillsdale county, Michigan, define the boundaries thereof, provide for the election of trustees, fix their powers and duties and

provide for the distribution of territory of the disorganized districts, by the terms of which act one of the districts formed in the townships of Somerset and Moscow, in which the village of Jerome is situated, and portions of other districts, was set off and incorporated in one school district to be known as "the public schools of the village of Jerome."

The act appointed defendants in error trustees of the new district, to continue in office until their successors should be elected, as provided in the act, and gave to the new district the property within its limits which had belonged to the districts from which it was created, and required the new district to assume and pay the debts and obligations of the old districts. The new district did not include all the lands of the old districts.

The constitutionality of the act was attacked and the act was held constitutional by the state courts.

Appeal was, however, taken to the federal courts, the claim being made that the act impaired the obligation of contracts within the meaning of the federal constitution.

The act was held to be constitutional by the Supreme Court of the United States, the court citing with approval *Laramie County v. Albany County et al.* (supra), the court saying (190 U. S. 239) among other things:

"The districts did not hold this property under any contract with the state, but as a public agency. . . . If the legislature of the state has the power to create and alter school districts and divide and apportion the property of such districts no contract can arise, no property of a district can be said to be taken, and the action of the legislature is compatible with a republican form of government even if it be admitted that section 4, article IV, of the constitution applies to the creation of, or the powers or rights of property of, the subordinate municipalities of a state." (Page 239.)

The statute books contain hundreds of general statutes from the operation of the provisions of which, or parts of which, specified counties and cities have been exempted, and this is peculiarly true with respect to schools. Until the enactment of the city school law of 1917 in no two cities of the State were the school systems organized, controlled and administered in all respects in exactly the same way. In fact, in the city school law, chapter 786 of the Laws of 1917, more than two hundred and fifty provisions of statute law applicable to the school systems in the several cities of the State were repealed. Even though the statute affects and restricts individual and personal rights, it is within the power of the Legislature to exempt one or more counties from the operation of its provisions.

People v. Havnor, 149 N. Y. 195.

In the *Havnor* case (supra) the prevailing opinion quotes with approval from the opinion of the Appellate Division the following:

"If the legislature has power to regulate the observance and prevent the desecration of the Sabbath, it has the power to say what acts in the different localities of the state it is necessary to prohibit to accomplish this purpose. It is quite conceivable that an act in one locality, thickly settled, should be prohibited which in sparsely settled districts of the state could be allowed, and for this reason an act might be objectionable in one district, but not in another. All of these regulations have in view the proper observance of the day, and are within the discretion of the Legislature."

If, as is provided in section 1 of article IX of the state constitution, upon the Legislature is imposed the duty of providing "for the maintenance and

support of a system of free common schools, wherein all the children of this State may be educated," and if, as held in *Albany County v. Hooker* (*supra*), the subdivision of the State, created by the Legislature, are the mere agents of the State, created for the convenience of the State to assist in the exercise of the governmental powers of the State, and have no powers and rights except such as are specifically conferred by the Legislature, it must follow as in the *Haynor* case (*supra*) that the Legislature has power to say what things may be done, and by whom, with respect to the administration of details of the school system in the different localities of the State. It should be borne in mind that the Education Law, including the township school article thereof, provides a system of free common schools for all of the children of the State and each locality thereof, the system of instruction in which is uniform throughout the State, the only difference being one of territorial extent of the school unit.

It should be remembered also that counsel for plaintiffs upon the argument bestowed upon the township school law the benediction of his approval with respect to its application to sixty counties in the State, including the county of Nassau, his only criticism being that the county of Westchester had not been exempted from the application of its provisions as Nassau had been.

Counsel for the plaintiffs has not cited upon his brief, nor did he refer upon the argument to a single adjudicated case where a statute similar to the one now under consideration had been adjudged to be violative of any constitutional provision upon any of the grounds alleged in the complaint herein, for the reason, we believe, that no such holding has ever been made. Counsel has in his brief quoted from a number of adjudicated cases a great mass of language, but has failed with respect to every case to state the facts of the case and the nature of the statute under consideration by the courts with respect to which the quoted language was used.

An examination of the cited cases discloses that no one of them involved a statute of the nature of the one here under consideration.

In the *Henneberger* case, 155 N. Y. 420, the act under consideration was a local act and not a general act, although an attempt had been made to phrase it, or parts of it, in such language as to make it a general act, and was therefore violative of section 18 of article III of the state constitution which inhibits the Legislature from passing any private or local bill laying out a highway.

Johnson v. The City of Milwaukee, 88 Wis. 383, held that certain statutes authorizing cities operating under special charters to issue bonds for the improvement of streets, parks and sewer systems, were not violative of a provision of the constitution of Wisconsin which forbids special legislation to amend the charters of cities.

In *re Home Discount Co.*, 147 Fed. 538, was a case considering the constitutionality of an act of the state of Alabama regulating the business of money brokers.

In *State v. Richards*, 42 N. J. Law 435, the question was whether the statute under consideration violated the constitution of the state of New Jersey in that the object of the statute was not expressed in its title and that it was, though general in terms, in fact a local or special law regulating the

internal affairs of towns and counties, the power to enact which was denied the Legislature by the New Jersey constitution.

Sutton v. The State, 96 Tenn. 696, held a statute of the state of Tennessee to be unconstitutional because it was class legislation and violative of a provision of the constitution of the state of Tennessee.

Gulf C. & S. Railway v. Ellis, 165 U. S. 150, held that a statute which imposed upon railroad companies penalties in the nature of attorneys' fees in actions for debt, was unconstitutional as denying equal protection of the law, for the reason that attorneys' fees were not recoverable against citizen defendants in similar cases.

Yick Wo v. Hopkins, 118 U. S. 356, held a municipal ordinance regulating the carrying on of public laundries within the limits of a municipality to be unconstitutional and violative of the fourteenth amendment to the federal constitution because it conferred upon the municipal authorities arbitrary power at their own will and without regard to discretion in the legal sense of the term, to give or withhold consent as to the persons or places by whom and where the business might be carried on. The determination is placed upon the ground that the guarantees of protection contained in the fourteenth amendment to the constitution extend to all *persons* within the territorial jurisdiction of the United States without regard to differences of *race, color or nationality*.

Hall v. Geiger-Jones Co., 242 U. S. 539, involved the constitutionality of the Ohio "Blue Sky Law" which required dealers in stocks and other corporate securities to obtain licenses to carry on such business within the state.

Central Lumber Co. v. South Dakota, 226 U. S. 157, considered the constitutionality of a statute regulating discriminatory sales made within the state of South Dakota for the purpose of destroying competition.

New York Sanitary Utilization Co. v. Department of Health, 32 Misc. 577, involved the constitutionality of chapter 663 of the Laws of 1900 which forbade the continuance within the borough of Brooklyn of the business of rendering or treating garbage, etc., by steam or by boiling. It was held that the statute was violative of section 1 of article I of the state constitution, in that the statute, although not declaring the business to be a nuisance, arbitrarily and unreasonably prohibits the *citizen* from engaging in it in Brooklyn, while permitting it in the other boroughs of the city of New York.

Taylor v. Porter, 4 Hill 140, held a statute authorizing a private road to be laid out over the lands of a person without his consent to be unconstitutional because it deprived the citizen of his rights, privileges and property without due process of law and contrary to the law of the land.

Matter of Jacobs, 98 N. Y. 98, held to be unconstitutional a statute which prohibited the manufacture of cigars and the preparation of tobacco in tenement houses.

People v. Marks, 99 N. Y. 377, held to be unconstitutional a statute prohibiting the manufacture or sale as an article of food, of any substitute for butter or cheese produced from pure, unadulterated milk or cream.

Foster v. Scott, 136 N. Y. 577, held to be unconstitutional a provision of the New York Consolidation Act which provided that no compensation should be allowed to the owner of land taken for a street or for any building erected or placed thereon after the filing of a map of the street as pre-

scribed by the terms of the act, for the reason that said act by its terms imposed a restriction upon the use of the land which amounted to an incumbrance.

People v. Rosenberg, 138 N. Y. 410, considered the constitutionality of a statute declaring it to be unlawful for any person to carry on the business of fat rendering, bone boiling or the manufacture of fertilizers or any such business as a public nuisance within the corporate limits of a city.

Health Department v. Rector, 145 N. Y. 32, considered the constitutionality of a provision of the New York Consolidation Act declaring that tenement houses in the city previously erected should be furnished by the owners with water "when they shall be directed so to do by the board of health, in sufficient quantity at one or more places on each floor occupied or intended to be occupied by one or more families." The act was held to be unconstitutional.

People v. Havnor, 149 N. Y. 195, is the barber case above cited and discussed.

Colon v. Lisk, 153 N. Y. 188, held to be unconstitutional an act of the New York Legislature which provided for the summary seizure of any boat or vessel used by one person in interfering with oysters or other shell fish belonging to another, and for the forfeiture and sale of such boat or vessel, and for the payment of the avails to the commissioners of fisheries, game and forest, by an exclusive procedure before a justice of the peace, with no provision for a jury trial.

Lawton v. Steele, 152 U. S. 133, held to be unconstitutional a statute of the State of New York which provided that fishing nets set or maintained upon waters of the State, or upon the shores of any island in such waters, in violation of the statutes of the State enacted for the protection of fish, may be summarily destroyed by any person, and that it shall be the duty of certain officers to abate, forthwith remove or destroy them, and that no action for damages shall lie or be maintained against any person for or on account of such seizure or destruction, as the statute was a lawful exercise of the police power of the State and does not deprive the citizen of his property without due process of law.

Minnesota v. Barber, 136 U. S. 313, held to be unconstitutional a statute of the state of Minnesota providing for the inspection before slaughtering of cattle, sheep and swine designed for slaughter for human food, because said statute provided, as a condition of sales in Minnesota of fresh beef, veal, mutton, lamb or pork, that the animals from which such meats were taken, must have been inspected *within that state* before being slaughtered, in that it discriminated against the products and business of other states in favor of the products and business of Minnesota, and was repugnant to the provision of the federal constitution giving to Congress the power to regulate the commerce among the several states, as well as to the provision of said constitution declaring the citizens of each state shall be entitled to all of the privileges and immunities of citizens in the several states.

Collins v. New Hampshire, 171 U. S. 30, was an oleomargarine case which held that a statute of the state of New Hampshire prohibiting the sale of oleomargarine as a substitute for butter unless it is of pink color, is invalid because it was impossible to make it pink and was therefore prohibitory.

Thus it will be seen that all of the cases cited by plaintiffs' counsel on his brief involved the personal or property rights of the individual citizen and furnished no authority in support of the contention made by plaintiffs here that plaintiffs' school district may escape the operation of the township school law, because plaintiffs claim that the act is discriminatory against that district or against the county of Westchester.

Plaintiffs' difficulty is that there is no provision in the federal constitution or in the constitution of this State affecting the case at bar, in the interpretation of which the language quoted from the cases cited by plaintiffs is pertinent. The act under consideration must be tested not by language employed in the decisions of cases nowise similar, but by the express provisions of the constitutions, federal and state; and, as before urged in this brief, there is no provision of either constitution in any way limiting the Legislature with respect to the matter of providing a system of common schools, except that such school shall be free and that all children of the State may be educated therein.

Appraisal of School Property and Levy against Town for Value Thereof

It is provided in section 353 of the township school law that within one year from the taking effect of the law

"the value of the school property in the several districts which are made subject to the provisions hereof shall be appraised and determined by a commission consisting of the supervisor of the town, the chairman of the town board of education and the district superintendent of schools."

In subdivision 3 of such section it is provided that the value of the school property in each district as so appraised shall, after deducting the outstanding bonded indebtedness of the district, be credited to such district and charged against the town. The tax levied against the town on account of such property is to be levied and collected in five equal annual installments, and each annual installment is to be included in the annual tax budget of the town.

It is made the duty of the commission created as provided in such section, to apportion the amount so credited to the district "among the owners or possessors of taxable property in the district in the ratio of their several assessments on the last corrected assessment roll of the town." It is then provided in subdivision 4 of the section that certificates of credit shall be issued to such owners or possessors of taxable property in the district, and such certificates of credit are made payable only out of moneys raised by tax against the town "on account of the school property acquired by such town."

It is insisted by the counsel for the plaintiffs that the provision for the appraisal of the school property of the districts in a town school unit and the apportionment of the appraised value of such property among the owners or possessors of taxable property in the district is unconstitutional. The complaint contains no allegation relative to the appraisal of such property and the apportionment of the value among the owners or possessors of taxable property in the district. The defendant board of education of the town

of Greenburgh has no duty to perform in respect to this appraisal or apportionment. The statute creates a special commission to perform this duty. No effort has been made by any officer with a view of appraising such property or apportioning its value. The section makes it the duty of the Commissioner of Education to prescribe the rules under which such appraisal and apportionment are to be made. No such rules have yet been prescribed.

It is therefore insisted that the constitutionality of the provision referred to may not be considered or determined in this action. Such determination can be made only in an action directly brought for such purpose, to which the commission created for the purpose of such appraisal and apportionment is made a party.

The counsel for the plaintiffs in asserting the unconstitutionality of this provision relied upon the case of *Water Company v. Wade*, 59 N. J. Law 78. In this case the court had under consideration a somewhat similar provision contained in the New Jersey statute. The New Jersey act of May 25, 1894, consolidated the several school districts in each township into one school district and transferred to the consolidated district all of the property of the several school districts and also imposed upon the town all outstanding bonded indebtedness. The act in question provided a general scheme for the administration of the schools in the consolidated district by a township board of education. Many of the features of our township law are similar to the provisions of the New Jersey act.

Section 27 of the New Jersey act of 1894 provided for an appraisal of the property of the several school districts in the consolidated district and made the value thereof a charge against the town. This section was amended in 1895 by providing for remitting

"to the taxpayers of each school district as said district existed on the 30th day of June last, one-fifth of the appraised value of the school property belonging to said school district, and yearly thereafter one-fifth of the value of said property so appraised as aforesaid shall be assessed and remitted until the total appraised value of said property has been remitted."

This provision as to the remission of the value of the property to the taxpayers of the several districts was declared unconstitutional. The reasons for so holding are set forth at length and it is not necessary to quote the same in this connection.

The case relied upon by the plaintiffs' counsel is not necessarily controlling in this State. The courts in other states where similar acts have been enacted have sustained the provisions requiring the appraisal and apportionment of appraised values among taxpayers and owners of taxable property. It is submitted that the weight of authority upon this proposition is in favor of the validity of such provision.

In New Hampshire the township system of administration of public schools was adopted in 1885. In section 2 of chapter 43 of Laws of 1885, provision was made for the appraisal of the property of the several districts and the apportionment of the value among the taxpayers of the district. The validity of this provision does not seem to have been questioned, although in the case of *Perry v. Fitzwilliam*, 64 N. H. 289, the question of an appraisal of the property and an assessment of the same against the town was considered and action directed thereunder.

In Massachusetts the school district system was abolished by chapter 110 of the Statutes of 1869. By section 2 of this act each town in which the system existed was directed forthwith to take possession of the school-houses, land and other property owned and used by the several school districts therein, "appraise the same, levy a tax therefor and remit the amount of the tax to the taxpayers of the district." The constitutionality of the Massachusetts township law was considered in the case of *Whitney v. Stow*, 111 Mass. 366. In this case the court said:

"The power of the legislature to abolish, at its discretion, school districts or other districts, established by its authority for special municipal purposes, is undoubted. It was equally within the constitutional power of the same legislature which abolished the school districts and merged them in the town and provided for the transfer to the latter of the property of the former, to charge the town with the whole or any part of the debts of the district. The case falls within the principle upon which it has long been held that the legislature, on dividing one town or county into two, or annexing one town to another, may provide what part of the property of the first corporation its successor should take, and what part of its obligations the latter should bear and discharge, and that a provision as to the burden and payment of such obligations may be made either in the original act of division or annexation or in a supplemental act passed at the same session."

In the state of Rhode Island, chapter 447 of the Public Laws provides for the abolishing of the school district system and the adoption of the town system. The act provides that the title to all school property shall vest in the town, subject to an appraisal to be made by a commission to be appointed by the court. The act provides that

"At the next annual assessment of taxes thereafter a tax shall be levied upon the whole town equal to the amount of the said appraisal; and there shall be remitted to the taxpayers of each district their proportional share of the appraised value of the school property in such district; provided that if any district be in debt and said debt shall be assumed by the town, the amount of such debt shall be deducted from the whole amount to be remitted to the taxpayers of said district."

This provision was declared to be constitutional and the general purpose of it was emphatically approved in the case of *Matter of Town Council of Cranston*, 18 R. I. 417. The constitutionality of this provision was again under consideration and was sustained in the cases of *Matter of School Committee, Town of Johnston*, 19 R. I. 279; *Matter of Cumberland*, 21 R. I. 576.

In the case of *Matter of North Smithfield*, 26 R. I. 164, the court held that the Public Laws of Rhode Island, cap. 1101, abolishing all school districts on and after January 1, 1904, and vesting the title in all of the schoolhouses, land, furniture, and other property which was vested in the district, in the town in which the district was located, and providing for the appraisal of such property, is not in violation of the constitutional prohibition against the deprivation of property without due process of law, since the law affects no private right of property, but is a mere transfer of public property from one quasi public corporation to another.

In the case of *Tefft v. Lewis*, 27 R. I. 9, the court in discussing the same statute said:

"In this connection it may be observed that the tax which is to be levied under said act is not a tax for revenue, as it is all to be remitted to the

taxpayers under the provisions of said act, but its sole purpose is to equalize the burdens of the new school system upon all the taxpayers of the town. And as it is matter of common knowledge that some school districts are possessed of property which is much more valuable than that possessed by others, some such scheme as the one devised by the General Assembly in said act is necessary in order to do justice as between the taxpayers of such school districts. If, for instance, a given district has property of the value of ten thousand dollars, while an adjoining district has property of only the value of one thousand dollars, it would clearly be very inequitable to require the taxpayers of the first named district to contribute an equal percentage, with that required of the second, of the amount represented by the entire appraisal of the property of all the school districts in the town; for in the one case an equitable adjustment of the matter might entitle the taxpayers to more than enough to pay their proportional part of the tax, so that as a matter of fact they would not be taxed at all, while in the other case the taxpayers might be called upon to contribute something towards the equalization of the burden aforesaid — or perhaps it may be more properly said, to contribute something towards the common ownership of all the school property, as this is what is intended to be accomplished by the change which the statute makes. The town is to own — indeed, does now own — all of the school property which was heretofore owned by all of the school districts within its borders. And it is only fair to all concerned so to adjust the rights growing out of the previous ownership of said school property by the respective districts as to compel those taxpayers who have not already contributed an amount equal to their share of the present total value of all the school property in the town to do so, and also to remit to those who have already paid more than their share of said total value, the overplus heretofore paid by them."

Assuming that the provisions of the township school law of this State relative to the appraisal of the school property of school districts which are brought into the township system and the apportionment of such value among the taxpayers of such districts is unconstitutional, it does not in any sense affect the validity of the other provisions of the law. It is not, as suggested by the counsel for the plaintiffs, a fundamental provision of the law. It is merely a matter of detail, which may be entirely eliminated without in any way affecting the operation of the statute.

Respectfully submitted,

MERTON E. LEWIS

*Attorney General,
Attorney for Defendants,
Capitol, Albany, N. Y.*

SANFORD W. SMITH, *Deputy Attorney General*

FRANK B. GILBERT, *Counsel for the*

Commissioner of Education,

Of Counsel

Supplemental Brief by Defendant

Appraisal of School Property and Levy against Town for Value Thereof

It is provided in section 353 of the township school law that within one year from the taking effect of the law "the value of the school property in the several districts which are made subject to the provisions hereof shall be appraised and determined by a commission consisting of the supervisor of the town, the chairman of the town board of education and the district superintendent of schools."

In subdivision 3 of such section it is provided that the value of the school property in each district as so appraised shall, after deducting the outstanding bonded indebtedness of the district, be credited to such district and charged against the town. The tax levied against the town on account of such property is to be levied and collected in five equal annual installments, and each annual installment is to be included in the annual tax budget of the town.

It is made the duty of the commission created as provided in such section to apportion the amount so credited to the district "among the owners or possessors of taxable property in the district in the ratio of their several assessments on the last corrected assessment roll of the town." It is then provided in subdivision 4 of the section that certificates of credit shall be issued to such owners or possessors of taxable property in the district, and such certificates of credit are made payable only out of moneys raised by tax against the town "on account of the school property acquired by such town."

It is insisted by the counsel for the plaintiffs that the provision for the appraisal of the school property of the districts in a town school unit and the apportionment of the appraised value of such property among the owners or possessors of taxable property in the district is unconstitutional. The complaint contains no allegation relative to the appraisal of such property and the apportionment of the value among the owners or possessors of taxable property in the district. The defendant board of education of the town of Greenburgh has no duty to perform in respect to this appraisal or apportionment. The statute creates a special commission to perform this duty. No effort has been made by any officer with a view of appraising such property or apportioning its value. The section makes it the duty of the Commissioner of Education to prescribe the rules under which such appraisal and apportionment are to be made. No such rules have yet been prescribed.

It is therefore insisted that the constitutionality of the provision referred to may not be considered or determined in this action. Such determination can only be made in an action directly brought for such purpose, to which the commission created for the purpose of such appraisal and apportionment is made a party.

The counsel for the plaintiffs in asserting the unconstitutionality of this provision relied upon the case of *Water Company v. Wade*, 59 N. J. Law 78. In this case the court had under consideration a somewhat similar provision contained in the New Jersey statute. The New Jersey act of May 25, 1894, consolidated the several school districts in each township into one school district and transferred to the consolidated district all of the property of the several school districts and also imposed upon the town all outstanding bonded indebtedness. The act in question provided a general scheme for the administration of the schools in the consolidated district by a township board of education. Many of the features of our township law are similar to the provisions of the New Jersey act.

Section 27 of the New Jersey act of 1894 provided for an appraisal of the property of the several school districts in the consolidated district and made the value thereof a charge against the town. This section was amended in 1895 by providing for remitting "to the taxpayers of each

school district as said district existed on the 30th day of June last, one-fifth of the appraised value of the school property belonging to said school district, and yearly thereafter one-fifth of the value of said property so appraised as aforesaid shall be assessed and remitted until the total appraised value of said property has been remitted." This provision as to the remission of the value of the property to the taxpayers of the several districts was declared unconstitutional. The reasons for so holding are set forth at length and it is not necessary to quote the same in this connection.

The case relied upon by the plaintiffs' counsel is not necessarily controlling in this State. The courts in other states where similar acts have been enacted have sustained the provisions requiring the appraisal and apportionment of appraised values among taxpayers and owners of taxable property. It is submitted that the weight of authority upon this proposition is in favor of the validity of such provision.

In New Hampshire the township system of administration of public schools was adopted in 1885. In section 2 of chapter 43 of Laws of 1885, provision was made for the appraisal of the property of the several districts and the apportionment of the value among the taxpayers of the district. The validity of this provision does not seem to have been questioned, although in the case of *Perry v. Fitzwilliam*, 64 N. H. 289, the question of an appraisal of the property and an assessment of the same against the town was considered and action directed thereunder.

In Massachusetts the school district system was abolished by chapter 110 of the Statutes of 1869. By section 2 of this act each town in which the system existed was directed forthwith to take possession of the school-houses, land and other property owned and used by the several school districts therein, "appraise the same, levy a tax therefor and remit the amount of the tax to the taxpayers of the district." The constitutionality of the Massachusetts township law was considered in the case of *Whitney v. Stow*, 111 Mass. 366. In this case the court said:

"The power of the legislature to abolish, at its discretion, school districts or other districts, established by its authority for special municipal purposes, is undoubted. It was equally within the constitutional power of the same legislature which abolished the school districts and merged them in the town and provided for the transfer to the latter of the property of the former, to charge the town with the whole or any part of the debts of the district. The case falls within the principle upon which it has long been held that the legislature, on dividing one town or county into two, or annexing one town to another, may provide what part of the property of the first corporation its successor should take, and what part of its obligations the latter should bear and discharge, and that a provision as to the burden and payment of such obligations may be made either in the original act of division or annexation or in a supplemental act passed at the same session."

In the state of Rhode Island, chapter 447 of the Public Laws provides for the abolishing of the school district system and the adoption of the town system. The act provides that the title to all school property shall vest in the town, subject to an appraisal to be made by a commission to be appointed by the court. The act provides that

"At the next annual assessment of taxes thereafter a tax shall be levied upon the whole town equal to the amount of the said appraisal; and there shall be remitted to the taxpayers of each district their proportional share

of the appraised value of the school property in such district; provided that if any district be in debt and said debt shall be assumed by the town, the amount of such debt shall be deducted from the whole amount to be remitted to the taxpayers of said districts."

This provision was declared to be constitutional and the general purpose of it was emphatically approved in the case of *Matter of Town Council of Cranston*, 18 R. I. 417. The constitutionality of this provision was again under consideration and was sustained in the cases of *Matter of School Committee, town of Johnston*, 19 R. I. 279; *Matter of Cumberland*, 21 R. I. 576.

In the case of *Matter of North Smithfield*, 26 R. I. 164, the court held that the Public Laws, of Rhode Island, cap. 1101, abolishing all school districts on and after January 1, 1904, and vesting the title in all of the schoolhouses, land, furniture, and other property which was vested in the district, in the town in which the district was located, and providing for the appraisal of such property, is not in violation of the constitutional prohibition against the deprivation of property without due process of law, since the law affects no private right of property, but is a mere transfer of public property from one quasi public corporation to another.

In the case of *Tefft v. Lewis*, 27 R. I. 9, the Court in discussing the same statute said:

"In this connection it may be observed that the tax which is to be levied under said act is not a tax for revenue, as it is all to be remitted to the taxpayers under the provisions of said act, but its sole purpose is to equalize the burdens of the new school system upon all the taxpayers of the town. And as it is matter of common knowledge that some school districts are possessed of property which is much more valuable than that possessed by others, some such scheme as the one devised by the General Assembly in said act is necessary in order to do justice as between the taxpayers of such school districts. If, for instance, a given district has property of the value of ten thousand dollars, while an adjoining district has property of only the value of one thousand dollars, it would clearly be very inequitable to require the taxpayers of the first-named districts to contribute an equal percentage, with that required of the second, of the amount represented by the entire appraisal of the property of all the school districts in the town; for in the one case an equitable adjustment of the matter might entitle the taxpayers to more than enough to pay their proportional part of the tax, so that as a matter of fact they would not be taxed at all, while in the other case the taxpayers might be called upon to contribute something towards the equalization of the burden aforesaid—or perhaps it may be more properly said, to contribute something towards the common ownership of all the school property, as this is what is intended to be accomplished by the change which the statute makes. The town is to own—indeed, does now own—all of the school property which was heretofore owned by all of the school districts within its borders. And it is only fair to all concerned so to adjust the rights growing out of the previous ownership of said school property by the respective districts as to compel those taxpayers who have not already contributed an amount equal to their share of the present total value of all the school property in the town to do so, and also to remit to those who have already paid more than their share of said total value, the over-plus heretofore paid by them."

Assuming that the provisions of the township school law of this State relative to the appraisal of the school property of school districts which are brought into the township system and the apportionment of such value among the taxpayers of such districts is unconstitutional, it does not in

any sense affect the validity of the other provisions of the law. It is not, as suggested by the counsel for the plaintiffs, a fundamental provision of the law. It is merely a matter of detail, which may be entirely eliminated without in any way affecting the operation of the statute.

Memorandum on behalf of plaintiffs in support of motion for injunction pendente lite

This suit is brought by the plaintiffs as trustees of school district no. 8, holding, pursuant to chapter 16 of the Consolidated Laws, all property vested and transferred to them as trustees for the use of the schools in the district. The trustees possess all the powers and are subject to all the duties, liabilities and penalties imposed by the Education Law upon such trustees, including the holding of schoolhouse property, the custody and safety thereof and the levying, assessing and collection of taxes sufficient for the maintenance of said schools. The plaintiffs now own and hold the site and buildings used for school purposes on the Dobbs Ferry road, having an approximate value of sixteen thousand dollars (\$16,000) and the defendants, Bunselmeyer, Emerick and Schock claim to be the duly authorized board of trustees under and pursuant to chapter 328 of the Laws of 1917, and notwithstanding the protests of the plaintiffs, the defendants have proceeded and are now proceeding to exercise authority over the school property within the school district no. 8 and have asserted and are still asserting their right to levy a tax thereon and have demanded of the plaintiffs that they turn over to the defendants all school property of every kind, nature and description in their possession, and unless there is a speedy determination of the questions therein involved, great hardship and irreparable damage will ensue to the taxpayers of this district and the administration of the schools will be confused and the plaintiffs interfered with in the performance of duties put upon them by law, of administering the property placed in their hands as trustees. Having no adequate remedy at law and because of the interference with them in the performance of their duty, they pray this court for a determination of their rights and duties as trustees aforesaid and incidental thereto, for a determination that chapter 328 of the Laws of 1917 be declared unconstitutional, null and void and that the defendants be restrained from taking over any of the property held by the trustees of school district no. 8 and "From levying or collecting any tax against the property of any of the taxpayers therein." As an incident to this relief, the validity of the law under which the defendants are acting is brought into the question in two respects; first: in the respect in which it gives power to the defendants to assume control over the school property; and, secondly: in the respect in which their present title to office is valid. The plaintiffs, it is to be observed, are not seeking to hold the office occupied by the defendants, but are seeking to prevent the interference by the defendants with the performance by the plaintiffs as trustees of their duties as such trustees. In this connection, we shall discuss:

1 The facts with reference to the inclusion of school district no. 5 (Elmsford) in the present town board of education of the town of Greenburgh;

2 The unconstitutionality of the provisions of chapter 328 of the Laws of 1917, in respect to the provisions for the election of the first board of trustees of the town of Greenburgh.

3 The unconstitutionality of the provision discriminating against Westchester county.

If any one of these grounds is sound, the preliminary injunction should be continued.

1 *The facts with reference to the inclusion of school district no. 9 (Elmsford) in the present town board of education of the town of Greenburgh.*

Upon the presentation of the original papers it was assumed that the fact that this district contained more than fifteen hundred inhabitants would not be disputed. No affidavits were filed by the defendants in opposition to the motion, but permission to file affidavits was secured, and upon the oral argument counsel for the defendants stated that a new census had been ordered by the board of education of school district no. 9, and that for some reason or other it had not been completed. Under the permission granted by the court to the plaintiffs to file replying affidavits, we have now been able to secure complete information with regard to the so-called census. The affidavits of William J. Moore, the president of the village, of John C. Gengenbach, of John G. Davis, as clerk of the school board, and of John M. Fulton, leave no doubt upon this score. Not only is the population much more than fifteen hundred, but it is perfectly clear that the defendant Bunselmeyer, acting as chairman of district no. 9, has not been particularly alert to have the census disclose the fact. We leave to the State Department of Education to explain why the petition of Mr Gengenbach has not yet been acted upon. The inclusion of district no. 9 in the election was in spite of the protests of the taxpayers in that district, who, like the taxpayers represented by the plaintiffs herein, do not desire their district merged into the town board. In this memorandum we shall not attempt to go into the details of the proceedings taken by the taxpayers of Elmsford to secure, both from their local school authorities and from the Department of Education, the administration of their affairs in accordance with the law. A perusal of the affidavits will at once disclose these facts.

Upon this point, section 331 of chapter 328 of the Laws of 1917 expressly provides that it shall not apply to "Union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more at the time this act takes effect." It is difficult to understand how the district superintendent came to advise the taxpayers of district no. 9 (Elmsford), that they had the right to vote upon the question of whether they should be included or not, unless they did have fifteen hundred population, for it is only in the event of their having fifteen hundred or more inhabitants that they could vote to come in (see section 351 and brief for Department of Education, page 25). And it is difficult to understand why anyone should try to suppress the facts. The census of the village of Elmsford alone, for 1916, as made in the town clerk's office, shows 1623, and the census returns filed by Joseph Sokol, who was directed to take such census for the purposes of the election, showed 1504 with at least 100 names omitted, to his knowledge. And, under the advice of the district super-

intendent, district no. 9 voted upon the question, "Shall the qualified voters of union free school district no. 9 . . . discuss in vote *whether the said district shall enter into a consolidation with school districts within the said town of Greenburgh, county of Westchester, as laid down by the recent legislation?*" But, it is true that the submission of the question gave opportunity to the taxpayers of school district no. 9 to record themselves as emphatically opposed to the consolidation, and the consolidation was defeated by the *vote* of the trustees of school district no. 9.

We do not believe that the defendants will any longer seriously contend that there are less than fifteen hundred population in union free school district no. 9. This being the fact at the time of the election, the entire election was invalidated by the participation therein of the voters of school district no. 9.

Section 354 provides:

"The first board of education of each town thereof shall be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article."

The only reasonable interpretation that can be given to this provision is that only those trustees and members of the boards of education of the several school districts who are "*subject to the provisions of this article*" may participate in this election.

It is conceded by the admission of the pleadings that the defendants owe their election to the participation of the trustees of union free school district no. 9, the defendant Bunselmeyer being himself one of the trustees of said school district no. 9.

These facts alone, as now disclosed by the papers, sufficiently justify the continuance of the preliminary injunction. Upon the oral argument the counsel for the State Department of Education, appearing as *amicus curiæ*, referred to the effect upon other school districts of the continuance of the injunction, and upon the administration of education in all of the districts. We submit that it is clearly shown that the situation in the town of Greenburgh is *sui generis*, and that so far as interference with the administration of the affairs of the school are concerned, that interference comes about through the endeavor on the part of some of the trustees of school district no. 9 to thwart the intent of the statute and the wishes of the taxpayers in that district. The defendants have no warrant of law whatever, to administer the school affairs of the town of Greenburgh, and the Department of Education should be required immediately to hold a new election in which district no. 9 does not participate. This, regardless of the other points involved herein, which we shall now discuss.

2 *The unconstitutionality of the provisions of chapter 328 of the Laws of 1917, in respect to the provisions for the election of the first board of trustees of the town of Greenburgh.*

Section 354 of the act provides:

"The first board of education of each town shall be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article. The said trustees and members of boards of education shall meet for such purpose on the second Tuesday in June, nineteen hundred and seventeen, in one of the school-houses in the town to be designated by the district superintendent of schools."

The old law contained elaborate provisions for the *election* of trustees of school districts. The new law contains elaborate provisions for the *election* of future trustees of the board of education, and, indeed, for the election of the present board. The election is by ballot and can not in any sense be construed as an *appointment*.

Section 2 of article X of the constitution provides:

"All other officers, whose election or appointment is not provided for by this Constitution, and all officers, whose offices may hereafter be created by law, shall be *elected by the people*, or appointed, as the Legislature may direct."

The clear intention of the constitution is that the Legislature may provide for the appointment of officers to fill all new offices, but that if it provides for an *election*, it shall be an election by the *people*. The Century Dictionary defines "election" as follows:

"2. The choice of a person or persons for office of any kind by the voting of a body of qualified or authorized electors.

3. The act or process of choosing a person or persons for office by vote; a polling for office; also, the occasion or set time and provision for making such choice; as, a general or a special *election*; American *elections* are generally held in autumn.

Hence—4. By extension, a public vote upon a proposition submitted; a poll for the decision by vote of any public matter or question: as, to hold an *election* on a new constitution, or on a measure referred by the legislature to the people. (U. S.)"

The Century Dictionary gives reference and defines the word "appoint" as follows:

"2. To constitute, ordain, or fix by decree, order, or decision; decree; command; prescribe.

3. To allot, set apart, or designate; nominate or authoritatively assign, as for a use, or to a post or office.

4. To settle; fix, name, or determine by authority or upon agreement: as, they *appointed* a time and place for the meeting."

The following cases show the distinction between the meaning of the word "election" and the word "appointment."

In the case of *State v. Compson*, 34 Or. 25, 32, 54 P. 349, the court said:

"The word 'election' in the strict sense, undoubtedly means the choice of an officer in the exercise of which all the qualified electors have an opportunity to participate, while the word 'appointment' is understood to mean the selection by one or more persons, who have been commissioned for that purpose, of another, who, by virtue of the choice, represents or may exercise some authority over the persons delegating the power to make the appointment."

To the same effect:

Wickersham v. Britton, 93 Cal. 34, 28 P. 792, 29 P. 51, 15 LRA 106 and note
Speed v. Crawford, 3 Metc. (Ky.) 207, 211

State v. Squire, 39 Oh. St. 197, 199

State v. McCollister, 11 Oh. 46, 52

In *State v. Williams*, 60 Kan. 837, 841, 58 P. 476, the court held:

"In the popular sense an election is a choice which several persons collectively make of a person to fill an office or position, while an appointment is a choice for such office or position by some single officer or person."

In *Reid v. Gorsuch*, 67 N. J. L. 396, 401, 51 A 457, it was held:

"The distinction seems to be that election signifies the act of choosing, where several participate in the selection. Appointment relates to the bestowal of the office upon the person selected, whether the choosing be the act of one or of many. Where the choice rests in the sole discretion of an individual, the usual authoritative evidence that a selection has been definitely made is in the act of bestowal; hence, in such cases, the word 'appointment' has come to include the function of selection as well as the function of authoritatively designating the person selected. That the functions are distinct, however, appears when we come to consider those cases where one has the exclusive function of selection, but the appointment is subject to the approval of others; for instance, the governor nominates and, with the advice and consent of the senate, appoints certain officers. But where the power of making an appointment resides in a numerous body, the exercise of the power necessitates a previous agreement, by a majority of voices or otherwise, with respect to the person to be chosen; and the choice so made is an election; after which the person selected receives the appointment, and can properly be said to be 'appointed,' although he is the choice of many. Under our system of government the most familiar example of 'election' is that which is participated in by the people at large; at the same time it requires the use of the phrase 'popular election', or 'election by the people', to clearly express the thought."

It is true that in *People v. Ahearn*, 131 App. Div. 30 (affirmed 196 N. Y. 221), the Court of Appeals held that where the Greater New York charter provided for "election" by a board of aldermen, this was in legal contemplation only an *appointment*, but an examination of the case will reveal that there was no real discussion of the question and this interpretation of the statute was conceded.

So, too, in *Sturgis v. Spofford*, 45 N. Y. 446, where the Legislature provided that pilot commissioners should be named by the chamber of commerce in certain marine insurance companies. The court held that though the word "elected" was used, it really meant "appointment." The same was held in *People ex rel. Mitchell v. Sturgis*, 27 App. Div. 387 (affirmed 156 N. Y. 580).

These authorities, though seemingly *per contra*, really emphasize and enforce the rule. In each of these cases it will be found that the Legislature inadvertently used the word "election" when it had in mind "appointment." The act now under consideration discloses a very deliberate attempt to provide for "election" of trustees of the town board of education. It has taken a short cut in the case of election of the first board, by providing that this election shall be made by the old trustees of the districts. But such a short cut the Legislature may not take. If there is to be an election, it cannot be an election by delegated agents of the people, but must be an election by the people themselves. That was the very purpose of the constitution.

Section 355 provides for an annual meeting in each town on the first Tuesday of May in each year, of which notice shall be given, and provides that such meeting shall be held in the schoolhouse in the town "which is the most conveniently accessible to a majority of the *qualified electors* of such town."

Section 356 provides for the notice of this annual meeting.

Section 358 provides for "qualifications of voters at school meetings," and says that they shall "possess the qualifications prescribed in section two hundred and three of this chapter."

Section 203 of the Education Law provides that a person to be "entitled

to vote at any school meeting for the election of school district officers, and upon all other matters which may be brought before such meeting" must be:

"1 A citizen of the United States.

2 Twenty-one years of age.

3 A resident within the district for a period of thirty days next preceding the meeting at which he offers to vote; and who in addition thereto possesses one of the following four qualifications:

a Owns or hires, or is in the possession under a contract of purchase of real property in such district liable to taxation for school purposes, or

b Is the parent of a child of school age, provided such child shall have attended the district school in the district in which the meeting is held for a period of at least eight weeks during the year preceding such school meeting, or

c Not being the parent, has permanently residing with him a child of school age who shall have attended the district school for a period of at least eight weeks during the year preceding such meeting, or

d Owns any personal property, assessed on the last preceding assessment-roll of the town, exceeding fifty dollars in value, exclusive of such as is exempt from execution.

No person shall be deemed to be ineligible to vote at any such meeting, by reason of sex, who has the other qualifications required by this section."

Section 359 requires the preparation of a list of qualified electors by the board of education, and for a separate list in each "school election district" which lists shall contain "the names of the *qualified electors*, residing in each district." This list is to be placed on file in the office of the clerk of the board of education. Public inspection of such list is to be permitted, and "if the name and residence of a *qualified elector* are incorrectly stated upon such list, the clerk, upon satisfactory evidence being presented to him, may correct such errors." By subdivision 3 of section 359 a *qualified voter* at the annual school meeting "may, upon the examination of such list, file with the clerk of the board, a written challenge of the qualifications as an *elector* of any person, whose name appears upon such list," and the board of education of the town is required to meet on Monday preceding the annual school meeting and to correct the errors "in such list of *qualified electors* and add thereto the names of persons, ascertained by it to be qualified electors at such annual meeting. The board shall also indicate upon the list of qualified electors, the persons whose qualifications as *electors* have been challenged. And by subdivision 4 of section 359, if the annual school meeting is to be held in *election districts*, a separate list for each district, revised and corrected as provided in the law, is to be delivered by the clerk of the board of education to the inspectors appointed by section 361 to conduct the election.

Section 360 provides elaborately for "nominations and ballots," provides that candidates for members of the board of education "shall be nominated by petition." Such petition is to be directed to the clerk of the board of education of the town, and shall be signed by at least twenty-five *qualified electors thereof*. By subdivision 2 the board of education is required to print "official ballots, containing the names of all candidates" so nominated. It is required to state whether or not these candidates are for full terms or for portions of terms. It is required to arrange alphabetically according to their surnames, in columns under titles or designations, showing whether they are to be elected for full terms or portions of terms. Blank spaces are required "so that persons may vote for candidates who have not been nominated for the offices to be filled at such election," and such ballots must have

printed upon them instructions as to the marking of the ballots and the number of candidates for the several offices for which an *elector* is permitted to vote. Subdivision 4 makes provision for the printing of ballots and declares an *election* of a member of a board of education invalid or illegal because of the use of ballots which do not conform to the requirements of this section, or to the provisions of the election law, provided the intent of the *elector* may be ascertained from the use of such irregular or defective ballot and such use was not fraudulent and did not substantially affect the result of the *election*.

Section 361 provides for inspectors of election.

Section 362 provides for ballot boxes and says: "All elections, held as provided herein, shall be conducted, so far as may be, in accordance with the provisions of the *election law* relative to general elections, except as otherwise provided herein. Ballot boxes are to be provided which shall conform as nearly as may be to the provisions of the *election law* relative to ballot boxes at general elections. Persons whose names do not appear upon the list may be permitted to *vote* upon satisfactory evidence being presented showing that they are *qualified voters* in the town and district, and upon making the declaration hereinafter prescribed." Again, "the ballots when presented to the inspectors shall be folded so as to conceal the names of candidates for whom or the proposition or question for which the *elector* had voted." Again it is provided that all *electors* shall be entitled to vote, who are in the places where the *election* is held at or before the time of closing the polls, and the poll clerk shall keep a poll list, containing the names of the *qualified electors* who vote at such *election* for the *candidates* or propositions voted for. Subdivision 2 of section 362 provides for challenges by *qualified electors*, and the form of declaration which must be made, and that if the person makes such declaration "he shall be permitted to vote at the meeting," but if he shall refuse to make such declaration he shall not be permitted to vote for candidates or upon any question or proposition at such meeting. Subdivision 3 of section 362 makes it a misdemeanor for any person to wilfully make a false declaration as to his right to vote at such meeting, and a person who is not qualified to vote at such meeting, but who shall vote thereat, shall be subjected to a penalty of fifty dollars, which may be recovered in a suit brought therefor by the board of education for the benefit of the schools of the town.

Section 363 provides for a *canvass of votes* and for the manner in which the ballots shall be opened and counted.

Section 364 provides that "successful candidates" shall be notified of their *election* within twenty-four hours after the result of the *election* has been declared.

It is quite evident that the Legislature knew clearly the meaning of the word "election" and the meaning of the word "appointment" in framing this act. It had in mind the election law governing the details of the election. In the first sentence of section 333 the Legislature makes a clear discrimination between the use of the word "appoint" and the use of the word "elect." It provides that the board of education of each town shall *elect* one of its members chairman, but it shall *appoint* a clerk of the board to serve during the pleasure of such board. So that when section

354 is headed "*Election of board of education*," and it is provided that "the first board of education of each town thereof shall be *elected* by the trustees and members of the boards of education in the several school districts in such town, subject to the provisions of this article," the Legislature must have meant an "election" and not an "appointment." That this is true is made clear by the repeated use of the words "elected" and "qualified electors" in said section, and by the requirement that the chairman and clerk of the meeting "shall canvass the votes cast for the candidates for the offices to be filled and the candidates receiving a majority of the votes cast shall be *elected*. The chairman and clerk of the meeting shall thereupon notify the district superintendent in writing of the persons declared *elected* as members of said board, and the district superintendent shall give notice of such *election* to the persons so *elected*." And, furthermore, as the terms of office of such members expire their successors shall be *elected* at the annual school meeting.

There can be no way by which the word "election" can be twisted out of its meaning so as to constitute an "appointment," and if this be true, the provisions are unconstitutional because there is no *election by the people*. It is no argument to say that there was not time enough for such an election. We are dealing with the question of constitutional power and not with the question of constitutional policy.

Upon the oral argument the court directed our adversaries' attention to the consideration of but two points; first, the constitutionality of the statute by reason of the exclusion of Westchester county; and, second, as to the inclusion of school district no. 9 (Elmsford), giving us the impression that the point that we are now discussing as to the application of Article X, section 2 of the constitution was not regarded as a weighty point by the court. If this was the tentative opinion of the court, it must be due to counsel's failure adequately to present the point, because an examination of the constitution and of the authorities we have cited indicates that it is equally as strong as either of the other two points.

3 The unconstitutionality of the provision discriminating against Westchester county.

The statute is obviously intended to consolidate the school districts of the State under town management. Without going into detail, this is deducible from a very cursory reading of the statute and was so conceded by state counsel for the Department of Education on the oral argument. It was quite obvious, however, that the general policy of consolidating union free school districts could not be effectively carried out in all parts of the State. For reasons of policy, it is obvious that the Legislature did not regard it as applicable to districts having a population of more than 1500 or to districts having more than twelve teachers. The counties adjoining the city of New York present in themselves a separate and distinct problem of educational policy. In Westchester county are such cities as White Plains, Yonkers, New Rochelle, Tarrytown and Mount Vernon. There, excellent facilities for high school education are now provided, accessible to the rural neighbors at far less expense than they could possibly supply. In many of the districts like Ardsley and Elmsford, fine brick schoolhouses, involving heavy investments and bonded indebtedness have already been

provided. This is quite evident from the budget just published by the defendants, in which the interest to be paid on bonded indebtedness varies as follows:

In the case of school district no. 5, Ardsley, the interest on bonds amounts to \$2745. In the case of no. 9, Elmsford, it amounts to \$2093; while in the case of no. 6 it is only \$162 and in the case of no. 8 it is \$300. In the matter of debt service, payment of bonds, no. 5 must, next year, pay \$2000, while each of the other districts only pays \$500. Even in the matter of instructional service, teachers' salaries, the incongruity is to be found in that no. 5 carries a budget of \$10,050, while no. 6 carries \$2650. In the operation of school plant, the wages of janitors alone for no. 5 amount to \$1200, while for no. 6, they amount to but \$480.

The counties adjoining New York, therefore, presented a natural and logical basis for separate classification and this classification was the one contained in the law as it was in process of enactment and is to be found in the printed number of the act "nos. 1016, 1872, introductory number 911" and shows that it was not to apply to

"School districts in the several towns of a county which adjoins a city having a population of one million or more and in which there are at least two district superintendents."

The general policy of the law with regard to the constitutional restrictions upon the legislature with respect to local governmental measures is expressed clearly by Judge Gray in the Matter of Henneberger, 135 N. Y. 420:

"The provision expressed a fundamental idea in our popular form of government; namely, to commit to local bodies the discharge of functions, which can be as well, if not better, discharged by them. For a variety of reasons, the state legislature should not be concerned with the administration of those local affairs, as to which there exist local legislative bodies; whose acts, motivated by the needs of the citizens, are more sure to be pure and efficient. Notwithstanding the existence of general laws, the statute books were being filled by acts operating upon particular and sectional interests."

And in that case, commenting upon an act carefully drawn so as to effect one possible community, the court said:

"The classification of cities by population is an idea recently embodied in the Constitution, and good reasons exist why, in a general law, reference may be had to conditions of population, whether in counties, cities, towns or villages, or with respect to a proximity to cities of a certain growth."

Judge Gray asked:

"Whether the constitutional provision shall continue to stand as a vigorous expression of the will of the people; or whether the legislature may evade its inhibition, with the approval of the judicial branch of the government."

And in answer to the question by him said:

"It is my judgment that when a constitutional question is presented to the court, it should be answered according to the view which takes in the purpose of the adoption of the constitutional provision and the consequence to the people of its disregard. I do not think it to be a safe principle of construction to adopt that the general form of the legislative enactment may save it from condemnation; when a willful and impolitic, or unnecessary, purpose to evade the constitutional mandate is to be seen through the transparent device. That would be too fraught with danger to the efficiency of the constitutional provision."

It is now well settled that

"All classification must be based upon substantial distinctions which make one class really different from another The classification adopted must be germane to the purpose of the law The classification must not be based upon existing circumstances only. It must not be so constituted as to preclude addition to the numbers included within a class To whatever class a law may apply, it must apply equally to each member thereof." *Johnson v. Milwaukee*, 88 Wis. 383, 390, 60 NW 270 (quot *Wagner v. Milwaukee County*, 112 Wis. 601, 602, 88 NW 577).

Again,

"If its distinctions are based upon some just reason and it does not attempt, under the guise of regulating an evil, to deprive of liberty or property without due process, or unjustly to confer special or exclusive privileges upon one class at the expense of others, or to put burdens and penalties upon persons beyond the extent to which their conduct and relations to an evil fairly subject them, in view of the principle upon which the regulations are rested, the statute is not objectionable on constitutional grounds." *In re Home Discount Co.*, 147 Fed. 538, 545.

Again in *State v. Hammar*, 42 N. J. L., 435, 440.

"The true principle requires something more than a mere designation by such characteristics as will serve to classify, for the characteristics which thus serve as the basis for classification must be of such a nature as to mark the objects so designated as peculiarly requiring exclusive legislation. There must be substantial distinction, having a reference to the subject matter of the proposed legislation, between the objects or places embraced in such legislation and the objects or places excluded. The marks of distinction on which the classification is founded must be such, in the nature of things, as will, in some reasonable degree, at least, account for or "justify the restriction of the legislation."

In *Sutton v. State*, 96 Tenn. 696, at page 710, the court said that it

"Must possess each of two indispensable qualities. First, it must be so framed as to extend to and embrace equally all persons who are or may be in the like situation and circumstances, and, secondly, the classification must be natural and reasonable, not arbitrary and capricious."

In *Gulf C. & S. F. R. Co. v. Ellis*, 165 U. S. 150, at page 155, *Brewer, J.*, stating the familiar rule with regard to the scope of the fourteenth amendment to withhold from states the power to classify, said:

"If the law deals alike with all of a certain class, it is not obnoxious to the charge of a denial of equal protection. While, as a general proposition, this is undeniably true, yet it is equally true that such classification cannot be made arbitrarily. The state may not say that all white men shall be subjected to the payment of attorney's fees of parties successfully suing them, and all black men not. It may not say that all men beyond a certain age shall be alone thus subjected or all men possessed of a certain wealth. These are distinctions which do not furnish any proper basis for the attempted classification. That must always rest upon some difference which bears a reasonable and just relation to the act in respect to which the classification is proposed and can never be made arbitrarily and without any such basis."

In *Yick Wo v. Hopkins*, 118 U. S. 356, the United States Supreme Court said:

"The cases present the ordinances in actual operation, and the facts shown establish an administration directed so exclusively against a particular class of persons as to warrant and require the conclusion that whatever may have been the intent of the ordinances as adopted they are applied by the public

authorities charged with their administration and thus representing the state itself, with a mind so unequal and oppressive as to amount to a practical denial by the state of that equal protection of the laws which is secured to the petitioners, as to all other persons, by the broad and benign provisions of the Fourteenth Amendment of the Constitution of the United States. Though the law itself be fair on its face and impartial in appearance, yet, if it is applied and administered by public authority with an evil eye and an unequal hand, so as practically to make unjust and illegal discriminations between persons in similar circumstances material to their rights, the denial of equal justice is still within the prohibition of the constitution."

In *Hall v. Geiger-Jones Co.*, 242 U. S. 539, the court said:

"If a class is deemed to present a conspicuous example of what the legislature seeks to prevent, the Fourteenth Amendment allows it to be dealt with, although otherwise and merely logically not distinguishable from others not embraced in the law." *Central Lumber Co. v. S. D.*, 226 U. S. 157.

Now, within these definitions a reasonable basis could readily be found for holding that the two counties adjoining the city of New York present a classification all by themselves. They are large and they have many large schoolhouses, both communities are suburban residential communities, having a large population which does its business in New York, there are many golf courses, many summer residences, whose owners send their children to public or private schools in New York City, and the general accessibility to higher education is such that they require no such treatment as is required in the case of rural communities generally throughout the State. The Legislature, therefore, not only had the power, but actually acted upon the proposition that they constituted a class of people or a class of schools, namely, those within a county adjoining a city having a population of more than a million, separate from all others. Could the Legislature, by limiting this classification to these districts, in which there are *only two* district superintendents, thereby confine it to the small county of Nassau and deny its privileges and protection to the large county of Westchester? Could it say that a county so classifiable for educational reasons as that it adjoins the city of New York, is properly exceptable from the act, and yet deny the privileges of such an exception to all of Westchester county? Westchester county might have a dozen, might have two dozen, might have a hundred school superintendents, yet having exceeded the limit of *two*, is it to be deprived of the privileges accorded to Nassau county, which happens to have just two? Of course, the argument is equally sound that a county so situated as to be territorially entitled to one district superintendent, would be deprived of the privileges of exception. Such an act as this which almost definitely names a particular county (like Nassau) is repugnant to all constitutional provisions.

In *N. Y. S. U. Co. v. Dept. of Public Health*, 32 Misc. 577, at 581 Andrews, P. J. said:

"The statute in question, while prohibiting the carrying on, or the continuance of such trade or business in the borough of Brooklyn, impliedly permits it so to be carried on in any of the other boroughs of Greater New York.

"Under these circumstances, the statute is obnoxious to the criticism that it is arbitrary, unreasonable, and was not an act in the interest of the public generally; that is to say, the public of Greater New York. . . .

"Moreover, while the business is prohibited in the borough of Brooklyn, it is permitted to be carried on in all the other boroughs of the

city, and the act is obviously not for the benefit of all the public in Greater New York, but only for the supposed benefit of a smaller portion thereof.

"It is undoubtedly true that under what are known as the police powers, the legislature can exercise a very wide discretion in enacting statutes for the preservation of the health and comfort of the citizens of this State. But its acts are subject to review by the courts, and where statutes have been passed, which are found to be arbitrary and unreasonable, and which were not for the interest of the general public, they have been held to be in excess of its powers, and have been nullified by the courts," citing:

Taylor v. Porter, 4 Hill 145;
 Matter of Jacobs, 98 N. Y. 98;
 People v. Marx, 99 N. Y. 386;
 Foster v. Scott, 136 N. Y. 577;
 People v. Rosenberg, 138 N. Y. 410;
 Health Dept. v. Rector, 145 N. Y. 32;
 People v. Havnor, 149 N. Y. 195;
 Colon v. Liek, 153 N. Y. 188, 196;
 Lawton v. Steele, 152 U. S. 133, 137;
 Yick Wo v. Hopkins, 118 U. S. 356;
 Minn. v. Barber, 136 U. S. 313;
 Collins v. N. H., 171 U. S. 30, 34.

The practical consequence is shown in the increased tax rate which districts nos. 6, 7 and 8 will have to pay, jumping from 2.419, 1.848 and 2.991 respectively to 5.734 per thousand; in other words, for Hartsdale the tax rate is nearly treble and for no. 8 it is nearly double.

In the brief submitted by the attorney for the Commissioner of Education it is said that

"The complaining district has the greatest financial resources of all of the districts comprising the unit and that they have expended less for the education of their children than any of the other districts, and under the former system furnished to their children the least school facilities."

And at page 13 it is argued that

"The important and positive beneficial result" of the law is to "equalize the school facilities . . . by giving to the children of the districts comprised in the town school unit the privileges of all the schools in all the districts therein, and by providing for their academic instruction in high schools and academic departments in other units, districts or cities, where no such instruction is provided in the schools in the community within which they reside."

Now, in Westchester county are the incorporated cities and villages of Yonkers, White Plains, Tarrytown, Mount Vernon, New Rochelle, Ardsley, Dobbs Ferry, Pleasantville and Mount Kisco, all of which are clearly *exempted* from the operation of the act. The rich property owned by all of these cities and villages is not combined with any of the other sections of the county, but each is continued as a separate, distinct governmental agency for the administration of the schools. Nowhere in the entire State can there be found a county so dotted with large cities and villages, with so little left of a community surrounding each that could properly be called "rural." The general object of the law "to unify the rural school districts" (page 12 of the brief for the Commissioner of Education) can not be worked out in any practical way so as to apply to the county of West-

chester. It is obvious, therefore, that the original purpose of the law could not be carried out throughout the whole State and that it was necessary to exclude from its operation, not only all cities, villages and districts having more than 1500 population or more than twelve teachers, but as well, all counties adjoining cities having a million or more in population and which there were *at least* two district superintendents. The amendment by which the words "at least" were converted into the word "only" is a clear act of discrimination against Westchester county.

One searches in vain through the sixty-five pages of the brief submitted by the Commissioner of Education for any authority supporting such a discrimination. It is argued that the plaintiffs have mistaken their remedy, (which point we shall presently consider separately). It is said that the matters of *Henneberger and Smith v. Smythe*, (155 N. Y. 420 and 197 N. Y. 457 respectively) are not in point. We did not argue upon the motion that they were controlling. They relate to the home rule provisions of the constitution, but the principles underlying these decisions are applicable to the case at bar and indicate the policy of the State and the constitution in dealing, not only with special and local bills, but with all legislation directed at particular localities. This is made clear in *N. Y. S. U. Co. v. Dept. of Public Health*, 32 Misc. 577 (ante). The entire argument upon this score made by counsel for the Commissioner of Education is contained in the first paragraph on page 56 of his brief:

"There is no constitutional objection to the inclusion in the act of a specific provision excepting the county of Nassau from its operation. It is for the Legislature to determine as to the localities to be affected by legislation of this kind. If all of the schools and the children of a specified district, town or county are subject to the provisions of a law, it may not be deemed to be class or discriminatory legislation because other counties, towns and districts are not made subject to its provisions."

For this point he cites no precedent and fails to meet the force of the federal and state authorities to which we have already referred.

4 The argument that the plaintiffs must proceed by quo warranto.

The facts referred to in the affidavits submitted relating to the population of school district no. 9 (Elmsford) are nowhere discussed in the labored brief for the Commissioner of Education. Nor is the failure to take appropriate action on the petition of Mr. Gengenbach explained. The point is made, however, that the complainants in this suit may not bring this point to the attention of the court and that their only remedy is to appeal to the Attorney General for a proceeding to test the title of the defendants to their office. For this, the learned counsel for the Department of Education cites the case of *Prankard v. Cooley*, 147 App. Div. 145; *People ex rel. Corscadden v. Howe*, 177 N. Y. 499 and *Johnston v. Carside*, 65 Hun 209.

In *Prankard v. Cooley*, the plaintiffs were taxpayers who sought to set aside the determination of the defendant Cooley as school commissioner of the school district, which determination, they alleged, was wholly "In pursuance of a fraudulent scheme instituted and instigated by certain unnamed persons," by which separate school districts were constructed "In order to escape their share of taxation for school purposes and to throw upon other persons, including the plaintiffs, an additional financial burden

in that respect." The court held that the proper remedy was by *quo warranto*:

"That the validity of a municipal corporation created by proceedings legal and regular in form can not be questioned collaterally by a private individual, but can only be determined in proceedings instituted by the Attorney General in the "name of the State and in the nature of a *quo warranto*."

This suit is not a suit by private individuals, but is a suit of school trustees, who are themselves a body corporate and are charged by law with responsibility and custody of certain property. They are not legislated out of office, but under subdivision 2 of section 352

"Are . . . continued in office with all the powers and duties conferred on such officers by the Education Law or other statutes, including the power to levy, assess and collect taxes for the purpose of closing up the business and financial affairs of such district and of satisfying its obligations, except bonded indebtedness, adjusting its claims, collecting funds due it and paying its just debts."

They are therefore continuing trustees with trust duties and trust powers and have the right and the duty to appeal to a court of equity for instruction as to the application of the law and for the protection of the property which is in their charge. They assert that certain provisions purporting to be law are unconstitutional and void. As is said by Chief Justice Barker in *People ex rel. Corscadden v. Howe*, the cases in which courts have declined to interfere "relate to contests between rival claimants for the same office."

By virtue of an unconstitutional act of the Legislature, the defendants not only assert title to an office, but are seeking to distribute property held in trust by the plaintiffs. In the *Corscadden* case, an unconstitutional act put the plaintiff out of office. Three of the seven judges of the Court of Appeals (Parker, Chief Justice, O'Brien and Werner) held that the act was unconstitutional, and held that a court of equity might enjoin the defendants. The majority of the court, finding in the litigation nothing but "a contest over a public office," refused to entertain jurisdiction. The case at bar is clearly distinguishable in that it does not involve solely a contest for public office, but involves the determination of the rights of property between two sets of trustees, the plaintiffs on the one hand and the defendants upon the other. In this connection, we bring to the attention of the court, another provision of the law, which requires the plaintiff trustees, after the liquidation of "all outstanding obligations, except bonded indebtedness and the settling or adjusting of claims against such district and the closing up of all its financial affairs as a district, to apportion any funds remaining in the treasury, except moneys received from the State, among the taxpayers in the district, in the manner now provided by law," and "such apportionment shall be based upon the relation of the assessed valuation of such taxpayers to the aggregate assessed valuation of the district." This provision, as well as the provisions under section 353, results in the taking of the property held by the trustees and distributing it among the present taxpayers, a distribution in itself unconstitutional; see *State ex rel. Elizabethtown Water Co. v. Wade*, 59 N. J. L. 78, in which the court says:

"So far as this tax is remitted, it is imposed for private use, not for any public use; no part of it goes to discharge a public debt or to promote a

public purpose, and no part of it finds its way into the public treasury. In the most favorable view that can be taken of the law, it is levied expressly for the benefit of a selected class of persons, to reimburse them for moneys heretofore paid by them in satisfaction of taxes legally laid upon them and appropriated to public uses. . . . It cannot be justified on the theory that the taxpayers who receive the remittance are only receiving compensation for property in which they have a personal interest. Such taxpayers have no right of property whatever in school lands and buildings, to the purchase of which taxes paid by them have been applied. The school property is public property, the property of the incorporated district and not of the taxpayers residing within it."

It is clear that none of the authorities cited by the learned counsel for the Commissioner of Education apply to a case like the present, which is one not brought by a taxpayer and which does not involve title to an office "created by proceedings legal and regular in form," but is brought by trustees of school property still continued for certain definite purposes, who have duties to perform and who are confronted with unconstitutional provisions of law and with irregular administration of the law.

As the plaintiffs are suing to preserve a trust *res*, an equity action is the proper form of action in this case and a temporary injunction is the proper provisional remedy.

"The jurisdiction of courts of equity to restrain the proceedings of municipal corporations (even) at the suit of citizens and taxpayers, where such proceedings encroach upon private rights and are productive of irreparable injury, may be regarded as well established. In the exercise of this jurisdiction the courts proceed upon substantially the same principles which govern their interference in cases of trusts, a municipal corporation being regarded in equity as charged with and made the depository of a public trust, and thus amenable to the jurisdiction of equity for a breach of that trust."

High on Injunctions (4th ed.) sec. 1236.

Meehan v. Sharp, 15 Barb. 193.

Stuyvesant v. Pearsall, id. 244.

Where public officers are acting illegally or without authority and in breach of trust, and are causing irreparable injury or a multiplication of actions at law, they will be enjoined.

22 Cyc. tit. Inj. p. 879, and cases cited.

Even though the State may not be enjoined, state officers seeking to act in an unconstitutional or illegal manner may be enjoined.

McConnell v. Arkansas Brick, etc. Co., 70 Ark. 568; 695 W. 559.

See numerous illustrations of the rule in 22 Cyc. p. 881-82.

School directors and other school officers may be enjoined when they are proceeding illegally.

Wharton v. Cass, Tp. 42 Pa. St. 358.

Krickbaum v. Benton, 3 Kulp (Pa.) 30 Kulp v. Reets, 1 Luz. Leg. Reg. (Pa.) 675.

A taxpayer may prevent the collection of taxes illegally levied for school purposes.

Moss v. Special School Dist. Bd. of Ed., 58 Ohio St. 354; 50 N. E. 921.

Where the authorities of a county, for example, attempt to appropriate and pay to a judge as a mere gratuity any portion of the county funds, such appropriation, not being authorized by law, an injunction will be allowed to prevent its payment.

Perry v. Kinnear, 42 Ill. 160.

Walker, C. J., in this case saying:

"In the absence of some law authorizing the performance of the act, the board has no power to make such an appropriation, and being unauthorized and illegal, its consummation should be restrained. By an unauthorized tax, the citizen is deprived of his property without sanction of law. And bodies created for the discharge of public duties and to aid in conducting the affairs of counties, have not been entrusted with the power to seize and appropriate the property of the people to any but legal purposes. The inhabitants of the state have been secured in the possession and enjoyment of their property against as well the officer created by law as private persons. The former can only exercise power to deprive him of it, in the mode and for the purposes constitutionally authorized by law."

The fundamental error in the contentions of counsel for the Commissioner of Education lies in his confusing this case with a conflict over an office, like the keeper of a penitentiary (*People ex rel Corscadden v. Howe*, 177 N. Y. 449), or the Commissioner of Police (*People ex rel Wood, v. Draper*, 24 Barb. 265). Here the provisions of law which affect the property of the taxpayers in school district no. 8, which determine the disposition of the funds now held by the plaintiffs as *trustees*, and which affect the future liability of the taxpayers, are brought before the court for the purpose, primarily, of fixing and determining the rights and duties of the plaintiffs. That the Commissioner of Education has not been misled in this regard appears from the opening sentence in his brief:

"The action is brought . . . in the name of Elmo Brown . . . constituting the board of trustees for school district no. 8. . . . The action is in equity and the plaintiffs pray for a determination of their rights and duties as trustees of district no. 8. . . ."

The only money question involved in the Corscadden case was the salary that went with the office. The majority of the court recognized the case as presenting only a conflict *over an office*. Witness this sentence (p. 505) "As early as the case of *Tappan v. Gray* (9 Paige 507) it was held by the chancellor that the Court of Chancery had no jurisdiction to enjoin at the suit of the incumbent of the office the intrusion of a hostile claimant illegally appointed to the office." And so it understood *People ex rel. Wood v. Draper* (24 Barb. 265). Reading the opinion of Parker, Ch. J., in conjunction with the majority opinion by Cullen, J. in the Corscadden case, is there the slightest doubt if a case like the present had been presented, that all seven judges would have agreed that injunction would lie? (In that case, it will be observed that the court had before it two litigations, one involving the direct question of title to the office, the other an injunction. It disposed of the first by holding that the relator was entitled to the office. The decision in the injunction suit, therefore, was a mere pro forma decision upon what really became academic by the court's decision—see Parker's opinion).

It has long been settled that where a particular fund is to be appropriated for the support of one school to the exclusion of others, any citizen or taxpayer of the township is entitled to an injunction to prevent such improper application of the fund.

High on Injunctions, sec. 1263;

Malory v. Madget, 47 Ind. 241.

And "An injunction," says High, "is the appropriate remedy, in behalf of the taxable inhabitants of a school district, to restrain the township treasurer from paying out money for the erection of a schoolhouse at a place other than that authorized by law." *Id.*

Marble v. McKenney, 60 Me. 332.

Again, "The wrongful use of corporate property is a fraud upon the rights of corporators, and may be prevented by the aid of equity, where courts of law are powerless to grant the necessary relief." (*High*, sec. 1269.)

Thus the use of a schoolhouse by the inhabitants of a school district for religious purposes, against the wishes of any taxpayers of the district, is an improper use of the corporate property, even though the district may have voted to permit such use. And in such a case, any taxpayer of the district is entitled to an injunction, though the injury sustained by him in person be slight, since he can have no adequate remedy at law.

"The principle which runs through the cases is that corporations have only such powers as are within the scope of their charters; and where they are wasting or misappropriating the corporate property or funds, courts of equity treat them as trustees of the property for the benefit of the individual corporators; and on this ground as well as on the ground that such misappropriation of the property is a fraud upon the rights and interests of the corporators individually, they interfere by injunction to restrain and prevent any such wasting or destruction of the corporate property. And it makes no difference if the corporation is a joint-stock, manufacturing or trading corporation, . . . or a municipal or territorial corporation . . . or is of the character of this school district."

Scofield v. Eighth School District, 27 Conn. 499.

See also *Hurd v. Walters*, 48 Ind. 148. Page 150:

"We entertain no doubt of the powers of the court to grant injunctive relief in such a case as the present, if it be shown that the trustee had exceeded his authority, for there is no other remedy."

Spencer v. School District, 15 Kan. 259.

Even if the directors of the district or a majority of the taxpayers, or electors consent, nevertheless, any taxpayer may enjoin the use of a schoolhouse for other than school purposes.

Spencer v. School District, 15 Kan. 259.

In such a case, a single resident and taxpayer of the district, whose children attend school therein, has a sufficient interest to maintain the suit for an injunction.

Idem.

So too, a taxpayer may enjoin the school authorities from leasing a public school for the purpose of keeping a private school.

Weir v. Day, 35 Ohio St. 143.

In the case at bar, the situation is worse; the entire school property is to be turned over, books, building and cash, to a new board under an *unconstitutional* exercise of power.

The fact that in determining such a question a court of equity must determine the validity of an *election* does not preclude it from entering into the matter. Thus, for example, upon a bill of taxpayers to restrain the issuing of county bonds in aid of a subscription to a railway, upon the ground of the illegality of the election under which the bonds are issued,

the court has jurisdiction to investigate and pass upon the validity of such election.

"In such cases the jurisdiction is exercised, not with a view to contesting the election, but for the purpose of ascertaining whether the contract of subscription has been duly authorized in accordance with law." High on Inj., sec. 1285.

Winston v. Tenn. & P. R. R. Co., 1 Baxter 60;

McDowell v. Mass. & S. C. Co., 96 N. C. 514;

Goforth v. Rutherford R. Co., 96 N. C. 535, 2 S. E. 361.

This suit is similar to that of a suit by a citizen and taxpayer in behalf of himself and all other taxpayers of the State, to enjoin a state treasurer from issuing bonds of the state in aid of a subscription under an act of the legislature which is *unconstitutional*. Such a suit will always lie.

Whiting v. Sheboygan & Fond du Lac R. Co., 25 Wis. 167.

The whole subject of "Injunction against public officers" is exhaustively treated by High in chapter 22, where, in section 1308 he states it to be well settled that

"The preventive jurisdiction of equity extends to the acts of public officers and will be exercised in behalf of private citizens who sustain such injury at the hands of those claiming to act for the public as is not susceptible of reparation in the ordinary course of proceedings at law." And whenever public officers "Assume powers over property which does not belong to them, and infringe upon or violate the rights of citizens under pretense of such assumed authority, equity has jurisdiction to interfere for the protection of the citizen." (Id., sec. 1309).

All the cases cited by High for the proposition that equity will not determine the title to office (sec. 1312) relate entirely to contests between two claimants for the same office. (See notes to sec. 1312 and 1313). But High recognizes clearly, as here, that

"The actual incumbents of an office may be protected, pending a contest as to their title, from interference with their possession, and with the exercise of their functions." (Sec. 1315, citing many cases).

Thus, as here, the officers *de facto* of a school district may restrain persons claiming to be officers *de jure*, but who are not in possession, from taking possession of the schoolhouse, and from interfering with plaintiffs in the employment of teachers and in the management of school affairs; and

"This, notwithstanding the fact that the defendants thus enjoined claimed to be the legally elected officers and have instituted proceedings in *quo warranto* to establish their title."

Brady v. Sweetland, 13 Kan. 41.

And courts of equity will always determine title to an office when the question "Arises incidentally" (sec. 1315). It could not be put more strongly than it is put by the author in stating the qualifications of the rule quoted in the brief submitted by counsel for the Commissioner of Education at page 35 (sec. 1312):

"The rule announced in the preceding sections which forbids interference by courts of equity for the purpose of determining disputed questions concerning the appointment or election of public officers is to be understood as applying only to cases where the title to the office is the sole issue involved and where the bill is filed for the primary purpose of determining the same." (Sec. 1315 a).

Thus, equity, High points out, will entertain jurisdiction of condemnation proceedings, where the right to the relief is based upon the charge that one of the officials who had instituted the proceedings was not in fact a duly appointed official; and in such a case, the court may pass upon the validity of the appointment in question for the purpose of determining the issues thus properly before it.

Hurley v. Level Commission, 76 Miss. 141; 23 So. 580.

See also High, sec. 1235, for application of same principle in cases involving disputed questions of title to offices of private corporations.

Equity will always interfere in behalf of an officer *de facto*, claiming to be the officer *de jure* to prevent another from wresting the office from him.

See 2 Cyc. Lit. Injunctions, p. 887, and cases cited in note 33.

It is, of course, elementary that where the matter in litigation is a trust fund, as here, an injunction will be granted to preserve the fund and save it for the party to whom it may belong upon the final decree.

22 Cyc. Lit. Injunctions, p. 823.

The case of *People ex rel. Kingsland v. Clark*, 70 N. Y. 518, cited by counsel for the Commissioner of Education (p. 36) is not in point. The quotations by counsel appears in the syllabus with the preface "It seems" in italics, to which counsel does not refer. The action was to restrain the defendants from incorporating the village of North Tarrytown. The real ground of the decision is that the injunction would have "no practical effect upon the corporation" and the "village itself, or the trustees as exercising the franchise, were necessary parties."

The case of *Johnson v. Garside*, 65 Hun 208, is also not in point. There the contest was over the office of fire commissioner of the city of Cohoes. The court held that "The only *substantial question* (italics by the court) to be tried in this action is the title of Dickey and Daley to the office in question."

The case of *Palmer v. Foley*, 45 N. Y. 112 (not cited by counsel for the Commissioner of Education) is more nearly akin to the one at bar and is distinguished in *Johnston v. Garside*. The point of the distinction is indicated by Putnam, J. (p. 211):

There "The plaintiff was deputy chamberlain of the city of New York and in possession of the office. As such he had under his control city funds, amounting to a very large sum, and the defendant, it was alleged, was unlawfully about to interfere with his possession of said funds."

Obviously, whatever rights a citizen or taxpayer might have to restrain the defendants from doing an illegal act, the plaintiffs here have superior rights, even to those of a citizen or taxpayer. They are *trustees* and as such charged with the duty of administering a trust fund. As such, they have the right always to protect the *res* in their custody and to apply to equity for such protection; but, additionally, they have the right to seek *instruction from the court* concerning the administration and execution of their trust. (See 39 Cyc. at "Trusts" p. 316 and numerous cases cited.)

So far as the "distribution" of property under sections 352 and 353 of the act are concerned, this is as clearly unconstitutional as anything can be. As the court points out in the case of *Water Co. v. Wade*, 59 N. J. L. 78, (a case on all fours with the case at bar),

"The theory of taxation is that it is levied for a public purpose; that it is an attribute essential to the exercise of government, without which it would be powerless to discharge its functions, and for that reason it is held to be inherent. It is the public use for it which marks it as a tax. Where no public end is subserved, the former cannot be called into question."

There, as here, taxes were imposed, out of which other taxpayers who were such on given days named, were to receive back certain remittances,

"Although they had become such taxpayers after all the school property had been paid for by taxation of the district, and they had never contributed to the purchase of the school property. The effect of this legislation is to assess upon *all* the taxpayers of the consolidated district a tax equal to the value of all the school property in the several districts comprising it at the time of the consolidation, and to give back to the taxpayers in each of the old districts a sum equal to the value of the school property in their district."

This, says the court, is a tax

"Imposed for private use, not for any public use; no part of it goes to discharge a public debt or to promote a public purpose, and no part of it finds its way into a public treasury."

"In the most favorable view that can be taken of the tax, it is levied expressly for the benefit of a selected class of persons. . . ."

The present taxpayers in school district no. 8

"Have no property whatsoever in the school lands or buildings to the purchase of which taxes paid by them have been applied. *The school property is public property, the property of the incorporated district, and not of the taxpayers residing in it.*"

By what right are present taxpayers to receive a division of school property when those who for twenty years past have paid into the school fund, by selling their property but a day before, lose all benefit therein? Why should a recent purchaser—one who has, maybe, not yet paid a single annual tax, receive a complete pro rata share of the school property of the district? As the court says in the case cited, to share the property in this fashion is not using it for a *public purpose*; it is *distributing it as a personal gift to a specially favored class*.

Has this court no power to restrain such a misuse of authority by the legislature?

Is school property the property of the present group of taxpayers, or is it held in trust for the district, never to be turned back? Counsel for the Commissioner of Education, in one branch of his brief, contends that the very constitutional basis of the redistricting comes through the State's power to make any district it pleases for educational purposes. If his argument is sound, then certainly the school property does not belong to the people in any one district heretofore bounded by any specified geographical lines, but it belongs to the people of the district which the State chooses to form.

Consequently, to disperse the property, or to levy a tax to divide up its appraised value among a limited number of present taxpayers amounts either to a concession that the taxpayers in a single school district, say no. 8, have a vested constitutional right to the school property within their district, or else the State owns it. If the State owns it, by what constitutional authority can it be turned back to the taxpayers? If the State does

not own it, and it belongs to those within the old district lines, how can the State constitutionally divest these persons of their share in the property by process of consolidation?

5 *The argument of confusion*

It is said that the continuance of the preliminary injunction until the trial will create great confusion in the administration of the law. This argument would come with better grace from the Commissioner of Education, if the petition of Mr Gengenbach had been acted upon and there had been a reelection in which the trustees of school district no. 9 did not participate, or if the Commissioner of Education had reorganized this district in accordance with the law whose constitutionality is now under consideration. But the difficulties of administering the law are not due to the presence of this litigation; they are due to the nature of the questions that unavoidably arise from the consideration of this law. If the law is constitutional, the sooner it is so declared the better. If it is unconstitutional, the sooner it is so declared the better. None of the school districts can be administered without incurring new bonded indebtedness. It is already well known to the Commissioner of Education that none of the bond houses will lend a dollar to any of the new town school boards, counsel for such houses having already raised the same questions that are raised in this litigation. The only thing that will prevent confusion is a clear and distinct utterance from the court as to the constitutional character of the law under consideration. Instead of questioning the validity of the proceedings instituted by the plaintiffs and raising technical objection to the disposition of these large, important questions, the Department of Education ought to join in the prompt determination of the question and its review by the higher courts. So far as the school administration is concerned, it will continue to be hampered and embarrassed until there is a determination of these questions. The technical points raised by the Department of Education will only delay the disposition of the controversy. The plaintiffs seek only a determination of their duties as trustees. They hold property as well as office. They are required by the new statute to perform one set of duties—they are required under the statute under which they were elected to perform another set of duties. Which law are they to follow? They are called upon by the taxpayers of their district to resist any attempt to take over the property which they now hold in trust. To what court shall trustees apply for a determination of their duties in such a situation, except to a court of equity? The distinction between the case at bar and the cases cited in the brief of counsel for the Commissioner of Education is referred to in one of the cases cited by him at page 42 of his brief, where (quoting from the leading case of the People *ex rel* Wood v. Draper, 24 Barber 265), the court says

“It may very well be and indeed *there is no doubt* that a man being a public officer may be restrained in a proper case from doing a particular act of an official character.”

It is to restrain the defendants from doing particular acts under provisions of a statute clearly unconstitutional that the plaintiffs, holding property to which the defendants lay claim, bring this proceeding. If

everything that counsel for the Commissioner of Education says were true as to the difficulty of the court's ousting the defendants Bunselmeyer, Emerick and Schock from office, it still remains true that the court must pass upon the constitutional features of the Act by which they seek to interfere with property held by the plaintiffs and by which they seek to impose new and additional burdens upon the taxpayers of the town of Greenburgh. And the court must surely determine whether or not the defendant Buckley, whose title to office is not attacked and against whom no claim is made except that he is about to enforce a law which is clearly unconstitutional, may proceed with the enforcement of the provisions of law which are thus put under scrutiny.

Respectfully submitted

JULIUS HENRY COHEN
Of Counsel

COHEN & RICHTER
Attorneys for Plaintiffs
111 Broadway, New York City.

SUPREME COURT
LIVINGSTON COUNTY

JAMES W. WADSWORTH, Plaintiff

vs.

CHARLES MENZIE, JOSEPH A. KRENZER, JOSEPH D. DONOHUE, JAMES C. FOOTE and PETER CARMICHAEL, individually and as claiming to constitute the town board of education for the town of Caledonia, Livingston county, New York, and Henry Feeley, collector of the said town of Caledonia, Livingston county, New York, Defendants

Complaint

The above-named plaintiff, in behalf of himself and others similarly situated, by Cook & Horton, his attorneys, complaining of the said defendants, alleges:

1st: That this plaintiff is and at all of the times hereinafter mentioned has been a citizen of the United States of America, a resident of the State of New York and a freeholder and taxpayer in the town of Caledonia, Livingston county, New York, and in school district number 3 of said township, more particularly hereinafter described; that the real property owned by plaintiff and situate in said town of Caledonia in said school district number 3 thereof is assessed for taxes in said township and in said school district in the sum of one hundred and twelve thousand two hundred dollars (\$112,200), and that he has been assessed and has paid taxes levied upon the aforesaid assessment for several years last past prior to the commencement of this action and including the year 1916.

2d: That the defendants Charles Menzie, Joseph A. Krenzer, Joseph D. Donohue, James C. Foot and Peter Carmichael, above named, claim to be the duly authorized board of education elected for the town of Caledonia, Livingston county, New York, under and pursuant to the provisions of chapter 328 of the Laws of 1917, amending the Education Law of said State.

3d: That the defendant Henry Feeley is the collector of taxes for the said town of Caledonia, county of Livingston, State of New York.

4th: That upon information and belief the said school district number 3 of the said town of Caledonia aforesaid and of which said plaintiff is a taxpayer, as hereinabove stated, has existed as a school district for upwards of fifty years last past and that its affairs have been managed pursuant to law by the successive trustees thereof; that it now owns and holds a site and schoolhouse situate in said district number 3 and used for school purposes therein, of an approximate value of one thousand dollars; that one teacher is employed in said school and that the average attendance at said school during the preceding several years has been about ten pupils; that the expenditures for the maintenance of such school and for school purposes in said district have approximated the sum of about six hundred dollars per year; that said school has been wholly adequate and sufficient for all of the needs of the residents of said school district and their children; that the said school is favorably situated in said district, and is accessible to all children of school age therein; and that the affairs and business of said school district have been properly and conservatively managed for several years last past by the said defendant Joseph A. Krenzer, the duly elected and acting trustee thereof but who is now claimed by the defendant herein to have been superseded by the new school law, viz, the said chapter 328 of the Laws of 1917, further, that the balance in the hands of the said Joseph A. Krenzer as such trustee of the school district number 3 was, on the 31st day of July, 1917, the sum of \$194.12.

5th: That said chapter 328 of the Laws of 1917 added to the Education Law a new article, entitled "XI-A," which purported to create town boards of education, provided among other things, that there should be established to begin on the 1st day of August, 1917, a town board of education in each town of the State, which should thereafter have jurisdiction over all of the schools in the town, as provided in said act.

6th: That section 352 of said "Article XI-A" of chapter 321 of the Laws of 1917, provided as follows:

"Sec. 352 *School district officers abolished; terms continued to collect funds, pay claims, et cetera.* 1 All trustees, members of boards of education and other school officers of school districts subject to this article, in office when this act takes effect shall continue in office to and including the thirty-first day of July, 1917, when the offices of trustees, members of boards of education, district clerks, collectors, treasurers and other school district officers of such districts shall be and are hereby abolished and the terms of such officers shall cease except as herein provided.

2 The trustees, boards of education and other officers, of each district, enumerated in subdivision one of this section are hereby continued in office with all the powers and duties conferred on such officers by the education law or other statutes, including the power to levy, assess and collect taxes for the purpose of closing up the business and financial affairs of such district and of satisfying its obligations, except bonded indebtedness, adjusting its claims, collecting funds due it and paying its just debts. After liquidating all outstanding obligations except bonded indebtedness, and settling or adjusting all claims against such district, and closing up all its financial affairs as a district, such officers shall apportion any funds remaining in the treasury, except moneys received from the state, among the taxpayers of the district in the manner now provided by law. Such apportionment shall be based upon the relation of the assessed valuation of such taxpayers to the aggregate assessed valuation of the district. The portion of such funds which consists of moneys received from the State shall be paid into the town school treasury."

7th: That section 353 thereof provided as follows:

"Sec. 353. *Outstanding bonds; existing school property.* 1 The bonded indebtedness of the school districts in a town which are subject to the provisions of this article, including a union free school district having a population of fifteen hundred or employing fifteen teachers or more, which has adopted a resolution pursuant to the provisions of section three hundred and thirty-one of this article, existing and outstanding at the time of the taking effect of this article shall be a charge against the property which is subject to tax for the maintenance of the schools in such town or union free school district.

2 Within one year from the taking effect of this article the value of the school property in the several districts which are made subject to the provisions hereof shall be appraised and determined by a commission consisting of the supervisor of the town, the chairman of the town board of education and the district superintendent of schools.

3 The value of the school property in each district as so appraised shall, after deducting the outstanding bonded indebtedness of such district, be credited to such district and charged against the town. The total amount charged to the town as a result of such appraisal shall be raised by tax upon the taxable property of the town in the same manner as other school expenses are raised. Such tax shall be levied and collected in five equal, annual installments and the amount required shall be included by the board of education in the annual tax budget of the town.

4 The commission hereinbefore created shall, upon appraising such property and determining the credit to be allowed to each district, apportion the amount so credited to such district among the owners or possessors of taxable property in the district in the ratio of their several assessments on the last corrected assessment roll of the town. The said commission shall report to the board of education of the town the apportionment so made and the board shall cause to be issued to each of such owners or possessors, a certificate of credit stating the amount so apportioned. Such certificate of credit shall be transferable by the persons to whom they are issued, and shall be payable only out of moneys raised by tax as herein provided for the payment of the charge against the town on account of the school property acquired by such town. They shall be issued in such denominations and shall be due at such times as to provide for their payment out of the moneys raised by tax for the payment of such charge.

5 The Commissioner of Education shall prescribe rules governing the commission in the appraisal of school property as herein provided and regulating the distribution and apportionment of the credits and charges herein referred to and the form and denomination of such certificate. An appeal will lie from such appraisal or from any act of such commission or board of education in respect to the apportionment of credits, the distribution of charges and the levy and collection of a tax on account of such school property to the Commissioner of Education in the same manner and under the same conditions as in the case of other appeals to the Commissioner of Education. A like appeal will lie from the apportionment of the bonded indebtedness of any town."

8th: That section 354 thereof provided as follows:

"Sec. 354. *Election of board of education.* 1 The first board of education of each town thereof shall be elected by the trustee and members of the boards of education of the several school districts in such town, subject to the provisions of this article. The said trustees and members of boards of education shall meet for such purpose on the second Tuesday in June, 1917, in one of the schoolhouses in the town to be designated by the district superintendent of schools. The said trustees and members of boards of education shall organize by the election of a chairman and clerk. They shall thereupon proceed to elect members of the board of education of the town to hold office for the town specified in section 331 of this article. The persons elected

as members of such board shall be residents of the town and qualified electors at school meetings therein. Not more than three of the members of such board of education shall reside in the same school district, except in towns in which there are less than three school districts. The chairman and clerk of the meeting shall canvass the votes cast for the candidates for the offices to be filled and the candidate receiving a majority of the votes cast shall be elected. The chairman and clerk of the meeting shall thereupon notify the district superintendent in writing of the persons declared elected as members of said board, and the district superintendent shall give notice of such election to the persons so elected. As the terms of office of such members expire their successors shall be elected at the annual school meeting.

The district superintendent of schools shall call a meeting of the board of education of each town in his supervisory district, elected as above provided, on the first day of August in nineteen hundred and seventeen, at the principal schoolhouse of the town, for the purpose of organization and transaction of any other business which may properly come before such board. Upon the election of a clerk of such board, the chairman and clerk of the meeting held for the purpose of electing members of the board of education shall file the minutes of the meeting with such clerk."

9th: Upon information and belief, the said plaintiff alleges, further, that the said act is unconstitutional and void, in that it violates section 1 of article IX of the constitution of the State of New York, which requires "that Legislature shall provide for the maintenance and support of a system of free common schools wherein all the children of this State may be educated," and further alleges that said provision of the constitution is intended to guarantee to all of the children of the State equality of opportunity for securing free common school education, and that the same educational privileges shall be given equally to all persons in the same class.

10th: Upon information and belief, that the total assessed valuation of real estate within the said school district number 3 of the town of Caledonia aforesaid is \$405,018.10; that in the year 1916-17 the amount expended for school purposes in said district, including repairs to said schoolhouse, was \$802.52; that the amount raised by tax in said district for school purposes was \$617, that the school tax rate per \$1000 in said district was \$1.50; that in the year 1915-16 the amounts expended for school purposes in said district was \$580.65, the amount raised by school tax therein \$600, and the school tax rate per \$1000 in said district was approximately \$1.50; that in the year 1914-15 the amount expended for school purposes in said district was \$569.94, the amount raised by school tax therein was \$500 and the school tax rate per \$1000 in said district was less than \$1.50; that by the inclusion of the said school district number 3, pursuant to the aforesaid amendment of the Education Law in a combined school unit in said town, a school tax rate for the year 1917-18 is created in said school district number 3 which is over four times the prior school tax rate therein, to wit, a tax rate per \$1000 in said school district since the said act is alleged to have become operative in the amount of \$6.50; that the district school situate in said district number 3 is, as aforesaid, accessible to the residents of said school district and their children, and that the remaining schools maintained in said town are not thus accessible; that the said school heretofore maintained in said school district is sufficient for the needs of said district, and confers educational advantages upon the children of school age in said district equal to those of any other school in said town with the exception of the high

school in the village of Caledonia, hereinafter referred to, and which the school children of said district number 3 were permitted to attend upon the payment of a tuition amounting to the sum of \$12 per annum for attendance in the grades of such high school and \$15 per annum for attendance in the high school department thereof; that the said high school in the village of Caledonia is situate a very considerable distance from the rural community comprising said school district number 3, that the same is not accessible in winter time during periods of heavy snows and that it is impracticable if not impossible for the majority of the school children in said school district number 3 to attend the said high school in the said village of Caledonia; and that the effect of the said act of 1917 amending the Education Law of the State, as aforesaid, although quadrupling the school tax in said district number 3, is to confer no benefit upon said school district number 3 whatsoever.

11th: Upon information and belief, that the same conditions described in the foregoing paragraph of this complaint with reference to school district number 3 in said town also apply to school district number 1 in said town of which the assessed valuation of real estate therein is \$107,020, and the school tax rate in the year 1916-17 was .00456; and to school district number 2 in said town of which the assessed valuation of real estate therein is \$151,014 and the school tax rate in the year 1916-17 was .00265; and to school district number 6 in said town of which the assessed valuation of real estate therein is \$153,653, and the school tax rate in the year 1916-17 was .00276; and to school district number 9 in said town of which the assessed valuation of real estate is \$366,670, and the school tax rate in the year 1916-17 was .001363; that the amount raised by school tax for school purposes in each of said districts for the said year 1916-17 was as follows, viz: school district number 1, \$488; school district number 2, \$400.16; school district number 6, \$424.07 and school district number 9, \$500; and that the new school tax rate per \$1000 in each of said districts, including said school district number 3, under the combination of said districts with school district number 5 of said town, in which is included the high school in the said village of Caledonia, in one school district pursuant to the said amended act, is, for the present year, \$6.50, without any added benefits accruing to said school districts excepting said school district number 5, notwithstanding such large and unprecedented increase in school taxes.

12th: Upon information and belief, that the said school district number 5 of the said town of Caledonia includes the village of Caledonia in said town; that said school district number 5 has a school building and school property of the value of at least \$50,000; that the said school district number 5 has a bonded indebtedness of \$23,700; that, in the past several years, there has been raised in said school district number 5 by tax for school purposes an annual sum of about \$12,000 per year; that for the year 1916-17 the total assessed valuation of real estate within said district was \$1,241,546, the sum raised therein by tax for school purposes was \$12,421.46 and the school tax rate per \$1000 in said district was about \$10 and that the same school tax rate per \$1000 has existed therein for three years last past; that since the consolidation of all of the above mentioned school districts of said town in one unit during the present year, pursuant to said act, the said school district number 5 is attempting to raise by tax

throughout the said town, for school purposes, the sum of \$12,500, and that by the provisions of said amended act the school tax rate per \$1000 during the present year in said school district number 5 is reduced to the rate of \$6.50 per \$1000, by the automatic charge of a large part of the amount necessary to be raised for school purposes in said school district number 5 against the other districts in said town hereinabove mentioned, without any added benefit to said last-mentioned school districts, many of which are situated several miles from said village, in a farming community inaccessible to the school in said village, and from which it would be extremely difficult and impracticable, even if not impossible, for children of school age to attend said school.

13th: That under the provisions of said chapter 328 of the Laws of 1917 so amending the Education Law it is directed in sections 355 to 364 thereof inclusive that an annual school meeting shall be held in each town on the 1st Tuesday of May in each year, of which notice shall be given by publication as therein provided and at which duly qualified voters shall be entitled to vote according to a list of such voters prepared by the clerk of the board of education; that candidates for members of the board of education to be voted upon at such school meeting shall be nominated by petition duly filed, and shall be voted for at said school meeting by ballot prepared as directed therein; that such election shall be conducted by inspectors of election duly named in accordance with the provisions thereof; that such inspectors shall organize, and that the election of such board of education shall be conducted in accordance with the provisions of the election law relative to general elections except as otherwise provided therein; that the votes at such election shall be duly canvassed by the board of inspectors, the votes cast at such school meeting counted or canvassed and the candidates receiving a plurality of the votes cast shall be duly declared elected as such board of education, and in which said sections of the said amendment of the Education Law is stated and set forth full directions covering and controlling the election of said board of education and to which said sections of the said amended act reference is hereby made for a more particular statement of the contents thereof.

14th: That notwithstanding the elaborate provisions made in the said act for the election of members of the said town board of education, nevertheless, the said act provides (sec. 354) "The first board of education of each town thereof shall be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article"; that for such purpose the said trustees and members of the boards of education shall meet on the second Tuesday in June in one of the schoolhouses in the town to be designated by the district superintendent of schools, and the said trustees and members of boards of education shall thereupon elect a chairman and clerk and proceed to elect members of the board of education of the town, to hold office for the term specified in section 331 of this article; that section 352 of the said act provides that all trustees, members of boards of education and other school officers of school districts subject to this article, in office when this act takes effect, shall continue in office to and including the 31st day of July, 1917, when the offices of trustees, members of boards of education, district clerks, collectors, treasurers and other school district officers of

such districts shall be and are hereby abolished and the terms of such officers shall cease as herein provided.

15th: That subdivision 1 of section 354 of said chapter 328 is in the following language: "The first board of education of each town thereof shall be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article." That the presence of the comma between the word "town" and "subject," as the plaintiff is informed and verily believes, leaves it open to judicial interpretation as to whether or not the words "subject to the provisions of this article" apply to the election, or whether they apply to the members of the board of education or the school districts which shall be entitled to vote at the election of the trustees of the town board; that as appears from other sections of the said law, notwithstanding the termination of the offices of the old school district trustees, they are, nevertheless, "subject to the provisions of this article," subdivision 2 of section 352, providing that "trustees, boards of education and other officers, of each district, enumerated in subdivision one of this section are hereby continued in office with all the powers and duties conferred on such officers by the Education Law or other statutes, including the power to levy, assess and collect taxes for the purpose of closing up the business and financial affairs of such district and of satisfying its obligations, except bonded indebtedness, adjusting its claims, collecting funds due it and paying its just debts."

16th: Upon information and belief, that all of the said provisions of said act relating to the election of the first board of education are unconstitutional, null and void, in that they violate section 2 of article 10 of the constitution of the State of New York, which provides that "all other officers whose election or appointment is not provided for by this constitution, and all officers, whose offices may hereafter be created by law, shall be elected by the people, or appointed, as the Legislature may direct;" in that more particularly, the provision for the election of the first board of trustees does not provide for the election of the said board of trustees by the people.

17th: That subdivision 1 of section 353 of the said chapter 328 of the Laws of 1917, provides that the bonded indebtedness of a school district, existing and outstanding at the time of the taking effect of this article shall be a charge against the property which is subject to tax for the maintenance of the schools in such town or union free school district.

18th: Upon information and belief, that none of the said school districts in the said town have any bonded indebtedness with the exception of the said school district number 5 in said town which has a bonded indebtedness in the amount of \$23,700; that prior to the enactment of the said chapter 328 of the Laws of 1917, the aforesaid bonded indebtedness of said school district number 5 in said town had been created according to law by the vote of the qualified electors in said district; that bonds representing such indebtedness had been issued in accordance with law by the officers of said school district number 5 and that the principal and interest due upon said bonds became, were and continued to be an obligation of said school district number 5 and a charge upon the taxable property of said district; but

that said bonded indebtedness was not created, voted upon or authorized by this plaintiff or by any of the aforesaid electors or taxpayers of the said school district number 3 or of the other remaining school districts in said town, and has never been created, authorized or ratified by any of the school districts of said town with the exception of the said school district number 5 or by any elector or taxpayer therein; that the said act is unconstitutional and void and violates section 6 of article 1 of the constitution of the State of New York, and section 1 of article 14 of the constitution of the United States, which provide that no person shall be deprived of property without due process of law, in that said act attempts to charge against this plaintiff and against the taxpayers of the school districts of said town outside of said school district number 5, a bonded indebtedness, created by said school district number 5 and not created, authorized or in any respects ratified by the other school districts of said town or by this plaintiff or any other taxpayer in such other school districts.

19th: Upon information and belief, that, notwithstanding the premises and in alleged compliance with the provisions of said chapter 328 of the Laws of 1917, what purported to be an election for membership in a town board of education for the said town of Caledonia was held in said town on or about the second Tuesday of July, 1917, and an alleged election took place at which the defendants Charles Menzie, Joseph A. Krenzer, Joseph D. Donohue, James C. Foote and Peter Carmichael were declared to be elected as the board of education of the said town of Caledonia, and thereafter, in alleged compliance with said amended act, took over the powers and duties of the said trustee of said school district number 3 and the control and management of its property and the property of the other school districts of said town, and thereafter proceeded to levy and assess against the taxable property within said town a school tax computed in alleged compliance with said amended act, levying the same at the aforesaid rate per \$1000 of \$6.50, and completed a tax list, affixed thereto a warrant for the collection thereof, and delivered the same to the aforesaid defendant Henry Feeley, the collector of said town, with directions to him to collect the tax so levied and assessed and to pay over the amount thereof to the school treasurer of said town.

20th: Upon information and belief, that, pursuant to the aforesaid levy and assessment of such tax, including a tax levied to pay the interest and part of the principal of the said bonded indebtedness of school district number 5 in said town, the said defendant Henry Feeley, as such collector, has been and is attempting to collect the same from this plaintiff and from the taxpayers of the school districts of said town hereinabove described, and is threatening, and has threatened, to proceed to attempt to enforce the collection of such tax out of the property of this plaintiff and of other taxpayers in said town unless such tax is paid.

21st: That prior to said amendment of the Education Law and for the year 1916-17 the school tax in district number 3 of said town levied and assessed upon the plaintiff's property therein and paid by this plaintiff amounted to the sum of \$168.30; that since the said amendment the said alleged board of education have levied and assessed upon the property of the plaintiff in said school district number 3 a school tax for the present

year amounting to the sum of \$729.30; that, by reason of said amendment, and the attempted charge against the remaining districts of said town of the bonded indebtedness and interest thereon existing in said school district number 5, and the charge against the other districts of said town of a part of the expense of maintaining the said high school in the said village of Caledonia, the school taxes of all of the other school taxpayers in said school district number 3 in said town have been increased in the same proportionate amount as hereinabove stated with reference to this plaintiff, and the school taxes in each other school district of said town except the said school district number 5 have been also materially and largely increased.

22d: Upon information and belief, that this plaintiff is one of many taxpayers in the said school districts in the said town of Caledonia outside of the said school district number 5 who are and will be harrassed, prejudiced and damaged by the aforesaid acts and proceedings of said defendants under and pursuant to the said unconstitutional act of the Legislature; that the constitutional rights of many other taxpayers in said town have been and will be violated by the assessment and levy of said illegal tax and that many other taxpayers in said town having in common the same rights sought to be enforced herein by this plaintiff, are prepared to institute actions seeking the same relief hereinafter demanded or like relief in the event that such common relief can not be procured herein; that this plaintiff has refused to pay the aforesaid illegal tax for the reasons above stated, and apprehends that the collection of such illegal tax will be enforced and his property seized to satisfy the same; that he has no adequate remedy at law, and that this action is brought to prevent the consummation of the above described illegal acts and to obviate a multiplicity of actions by many other taxpayers similarly situated, and whose rights in the premises are similar to the rights of the plaintiff hereinabove described.

WHEREFORE this plaintiff prays for a determination by this court that the said chapter 328 of the Laws of 1917 of the State of New York be declared unconstitutional, null and void, in that it violates the provisions of the constitution of the United States and the constitution of the State of New York, and in that more particularly it violates section 1 of article 14 of the constitution of the United States, section 1 of article 9 and section 2 of article 10, and section 6 of article 1 of the constitution of the State of New York, and furthers, that the defendants and each of them be restrained from exercising any of the powers alleged by them to be vested in them under the provisions of chapter 328 of the Laws of 1917 or any part thereof, and more especially that the said defendants be restrained from collecting or attempting to collect any school tax against the property of the plaintiff or of any of the taxpayers therein, pursuant to the said chapter 328 of the Laws of 1917, and that pending the hearing and determination of this suit the said defendants be temporarily enjoined and restrained from doing any of the aforesaid things or performing any of the aforesaid acts, together with such other and further relief in the premises as to the court shall seem proper.

Answer

The defendants in the above-entitled action, answering the complaint of the plaintiff herein by A. M. Little, their attorney, deny upon information and belief, each and every allegation in said complaint contained in the subdivisions thereof numbered "ninth," "fifteenth," "sixteenth," and so much of the "eighteenth" paragraph of said complaint as alleges that said act is unconstitutional, void and violates section 6 or article 1 of the constitution of the State of New York and section 1 of article 14 of the constitution of the United States which provide that no person shall be deprived of property without due process of law; and so much of the "twenty-second" paragraph of said complaint as alleges that the constitutional rights of many other taxpayers in said town besides said plaintiff have been and will be violated by the assessment and levy of said alleged illegal tax; and these said defendants allege by way of answer to said complaint and the whole thereof, upon information and belief, that chapter 321 of the Laws of 1917 and such portions thereof as are alleged and set forth in the complaint herein do not violate any of the provisions of the constitution of the State of New York or the constitution of the United States.

WHEREFORE, said defendants demand judgment against the plaintiff dismissing his said complaint, with costs.

A. M. LITTLE
Attorney for Defendants

820 Gorman Insurance Building,
Rochester, N. Y.

Brief for Commissioner of Education

Preliminary Statement

The action herein is in equity brought by summons and complaint by James W. Wadsworth, a resident and taxpayer in school district no. 3, town of Caledonia, Livingston county, N. Y., against the town board of education of the town school unit comprising the school districts in such town, and the collector of such town, who is by virtue of his office the school collector of the town school unit. The plaintiff in his complaint prays for a determination by this court that chapter 328 of the Laws of 1917, being the so-called township school law, under which the defendant board of education was elected and assumes to act, be declared unconstitutional, null and void, and that the said defendant board of education "be restrained from exercising any of the powers alleged by them to be vested in them under the provisions of chapter 328 of the Laws of 1917, or any part thereof, and more especially that the said defendants be restrained from collecting or attempting to collect any school tax against the property of the plaintiff or of any of the taxpayers therein." The plaintiff also asks that pending the hearing and determination of the suit the defendants be temporarily enjoined and restrained from doing any of the aforesaid things or performing any of the aforesaid acts.

The plaintiff at the time of serving the summons and complaint in such action served notice that an application would be made at a special term of

the Supreme Court appointed to be held in and for the seventh judicial district at Supreme Court chambers in the village of Wayland, N. Y., on the 12th day of January, 1918, for an order temporarily enjoining and restraining the defendants from collecting or attempting to collect any school tax against the property of the plaintiff or of any of the taxpayers in such town under authority of such chapter 328 of the Laws of 1917, pending the hearing and determination of this suit. By agreement of the attorneys for the parties, the hearing on the motion was adjourned to such time as might be designated by Mr Justice Clark.

Hon. John H. Finley, Commissioner of Education of the State of New York, appears by Frank B. Gilbert, Esq., Counsel to the University, *amicus curiae*.

The defendant board of education has served an answer which in substance admits such allegations in the complaint as are material to a determination of the constitutionality of the law. It is obvious that if the act under the circumstances is declared to be unconstitutional the plaintiff is entitled to the relief which he seeks. It should be assumed that unless it be established by weight of authority that such act is clearly unconstitutional the defendant board of education and town school collector should not be restrained temporarily from performing their official acts pending the trial and the determination of the suit. It seems appropriate, therefore, that the court upon this motion should consider and determine the main question as to the constitutionality of the law. If the court determines that the law is constitutional, no further question remains for determination and judgment should be rendered against the plaintiff.

Statement of Facts

The sole question involved in the suit is one of law. The following allegations in the plaintiff's complaint may be admitted without affecting the issues raised:

1 That the plaintiff is a resident and taxpayer of the town of Caledonia, Livingston county, and of school district no. 3 of said town.

2 That the defendants, Charles Menzie, Joseph A. Krenzer, Joseph D. Donohue, James C. Foote and Peter Carmichael, constitute the board of education of the town of Caledonia, Livingston county, under and pursuant to chapter 328 of the Laws of 1917, and that the defendant Henry Feeley is the collector of taxes for such town and as such is, under such chapter, the collector of school taxes therein.

3 That the school tax rates for district no. 3, town of Caledonia, and the other districts specified in paragraphs 10 and 11 of the plaintiff's complaint, for the school year of 1916-17 are as indicated in such paragraphs, and that the tax rate for the unit comprising all the school districts in the town of Caledonia for the school year of 1917-18 is \$6.50 on \$1000.

4 That the assessed valuation of the taxable property in union free school district no. 5, which includes the village of Caledonia in said town, is \$1,241,546 and that the rate of tax therein for the school year 1916-17 was about \$10 per \$1000, and that the tax rate for the town school unit of which such union free school districts becomes a part is, for the school year of 1917-18, \$6.50 per \$1000.

5 That union free school district no. 5, Caledonia, has a bonded indebtedness of \$23,700 and that such indebtedness was created for the purpose of erecting a new schoolhouse in such district and was authorized by the vote of the qualified electors thereof, and that the bonds representing such indebtedness were issued in accordance with law by the officers of such union free school district no. 5, and that under and in accordance with the terms of such bonds they were at the time of their issuance obligations of such union free school district and a charge upon the taxable property thereof. That the bonded indebtedness of such union free school district was not created, voted upon or authorized by the qualified electors of district no. 3 or any of the other districts of the town school unit, and such indebtedness has never been created, authorized or ratified by any of the school districts of such town with the exception of such union free school district no. 5.

6 That the Defendants, Menzie, Krenzer, Donohue, Foote and Carmichael, were elected members of the board of education of the town of Caledonia under and pursuant to the provisions of chapter 328 of the Laws of 1917, on or about the second Tuesday of June, 1917, by the trustees of the several common school districts and the members of the board of education of union free school district no. 5, and that on August 1, 1917, the defendant board of education took over the powers and duties of the trustees of the school districts comprising the town school unit of Caledonia and the control and management of the property of such districts, and thereafter proceeded to levy and collect a tax for school purposes and to conduct and maintain the necessary schools in such town, pursuant to the provisions of the township school law and the Education Law.

It is alleged in the tenth paragraph of the plaintiff's complaint (fol. 20) that the effect of the township law, "although quadrupling the school tax in said district no. 3, is to confer no benefit upon said school district no. 3 whatsoever." And it is further alleged in the eleventh paragraph (fol. 22) that the tax rate formerly existing in the school districts outside of union free school district no. 5 has been increased to \$6.50 per \$1000, "without any added benefits accruing to said school districts excepting said school district no. 5." And again in the twelfth paragraph (fols. 24-25) it is alleged that "by the provisions of said amended act the school tax rate per \$1000 during the present year in said school district no. 5 is reduced to the rate of \$6.50 per \$1000 by the automatic charge of a large part of the amount necessary to be raised for school purposes in said school district no. 5 against the other districts in said town hereinbefore mentioned, without any added benefit to said last mentioned school districts, many of which are situated several miles from said village in a farming community, inaccessible to the school in said village, and from which it would be extremely difficult and impracticable, even if not impossible, for children of school age to attend said school."

In this connection the court will perhaps take notice of the fact that school district no. 3 and the other districts outside of the Caledonia union free school district are common school districts maintaining elementary schools, each with a single teacher, while the school maintained in the union free school district is a department school having a high school giving academic

instruction. Such school is a graded school with a supervising principal and eleven teachers. Under section 341 of the township school law, all the pupils residing in the town may obtain the privileges of this school without payment of tuition. A pupil who completes the work in any of the elementary schools in the common school districts in the town may obtain academic instruction in the Caledonia high school without additional cost.

The records of the Education Department show that a number of academic pupils have been in attendance at the Caledonia High School in the past, and it should be noted that this high school is as conveniently accessible to the pupils in the other districts in the town as any other high school in the vicinity, and that if it does appear that pupils who have completed elementary courses in the schools in the common school districts may be more conveniently instructed in the high schools of adjoining towns, they may be transferred thereto and the board of education of the Caledonia town school unit will be required to provide the cost of instruction. (See township school law sec. 342).

It is not the purpose of the law to abandon existing schools in the several school districts of the town. The children therein will not be required to attend upon instruction in the Caledonia village school. The law gives pupils who have obtained all that they can from the schools in the districts where they reside the privilege of attending upon advanced instruction without additional cost at the high school in the village of Caledonia.

The Caledonia High School is a substantial educational asset to the town of Caledonia. Without it the children in the outlying districts would be compelled to go a much greater distance to attend upon academic instruction. District no. 3, in which the plaintiff resides, has, according to the records of the Education Department, twenty-five pupils registered as in attendance at the school in the district, while there are 350 pupils registered in attendance at the school in union free school district no. 5. The assessed valuation in district no. 3 is \$405,000, while that in union free school district no. 5 is \$1,241,000, so that the taxable resources of district no. 3 for each pupil are about five times those in union free school district no. 5. The same inequality of tax burden in comparison with union free school district no. 5 may be shown in the other common school districts comprising the Caledonia town school unit.

School district no. 3 and many of the other districts have within their limits very valuable farm lands and are also favored by tax revenues derived from the assessment of railroad and other corporate property. Many of them are relieved of an appropriate tax burden for school purposes because of a lack of children to be educated. The inference may be drawn from the paragraphs in which the plaintiff attempts to show the injustice of the present law in imposing upon them the burden of contributing to the maintenance of schools for the education of children who do not reside within the restricted limits of their small districts, that in all cases the burden of paying the cost of the education of the children of the State must fall upon the particular community in which such children reside. This does not conform to the true theory of public education. The State under the constitution owes to its children, as a matter of state concern, the duty of providing school facilities for all of them, wherever they may be situated. If a community lacks

financial resources, its children must not because of such fact be deprived of educational facilities. Entirely apart from the fact that the children residing in the plaintiff's district and the other common school districts of the town will be benefited by the privilege of attending upon instruction in the high school in the village of Caledonia, the law may not be attacked justly because of the consolidation of the several districts in the town, resulting in the extension of the burden over the taxable property therein. We have long since departed from the theory that the education of the child must be paid for by the person directly interested in such child. Public education is a proper subject of taxation. A taxpayer may not be relieved of the duty of paying a tax because the property taxed is remote from the school maintained. The determination of the territorial extent of the school tax unit is within the exclusive control of the Legislature.

Analysis of Township Law

For the sole purpose of informing the court as to the object, operation and effect of the township school law, it seems advisable to include in this brief a concise analysis of such law. No attempt is made to convince the court of the wisdom of its provisions. The questions of policy as to school administration and maintenance must of course be addressed to the Legislature, and the court is only concerned in a determination of the validity of the law and of the meaning and application of its provisions. I assume, however, that it will be helpful to the court to know something of the arguments presented to the Legislature in obtaining the enactment of the law.

a Object of Law

Chapter 328 of the Laws of 1917, referred to herein as the township law, was enacted by the State Legislature upon the recommendation of the State Education Department and the Regents of the University. The proposal to unify the rural school districts into a town school system has been before conferences, conventions and associations of teachers, school superintendents and organized bodies of school authorities for many years, and has been unqualifiedly approved by them. A bill substantially in the same form and accomplishing the same purpose was introduced in the Legislatures of 1915 and 1916. It has been recognized by leading educational experts as a pronounced advance in the solution of our problem of rural education.

Three important and positive beneficial results are accomplished by the law:

First. It tends to improve the educational opportunities of the children of our rural communities and to equalize the school facilities to be furnished to them. It does this by giving to the children of the districts comprised in the town school unit the privileges of all schools in all the districts therein, and by providing for their academic instruction in high schools and academic departments in other units, districts or cities, where no such instruction is provided in the schools in the community within which they reside. It authorizes provision for transportation, so that children in remote portions of the school unit may obtain school privileges which otherwise would be inaccessible. It provides for more effective supervision of instruction and requires standardization of school buildings and equipment.

Second. It increases efficiency of school administration in that it reduces the number of school organizations and of school officers and employees. Under the former system there were in the neighborhood of 11,000 school districts having one or three school trustees, a district clerk, collector, and in many cases a treasurer. Besides that, there were in the neighborhood of 600 union free school districts having a population of less than 1500, with a board of education of from three to nine members and a district clerk, collector and treasurer. In place of this army of school officers we have under the present system less than one thousand town school units, with from three to five trustees and a district clerk and treasurer. School taxes are now payable to the same tax collector as town and other taxes. The administration of the school system of the State outside of cities and union free school districts having a population of fifteen hundred or more, is now concentrated in a compact body of men who may be held directly responsible to the qualified electors of the town school unit, and through whom supervising officers, including the State Education Department, may reach definitely and effectively the persons in charge of school administration. Under the former system a school trusteeship was regarded as an irksome burden, too frequently shunned by men competent to administer affairs of importance. Under the present law it is anticipated that business men prominent in their communities will be willing to assume responsibility for the proper maintenance of the schools in the town in which they live.

Third. It equalizes the burden of taxation for the support of our rural schools throughout the State. Thousands of instances might be given where because of some favorable situation the taxpayers in one district have practically avoided the payment of any substantial school tax, while in the near neighborhood, across the street, the highway or the stream, a more unfortunate neighbor has been burdened with an excessive tax. In hundreds of districts, owing to the operation of the law whereby contracts might be made with adjoining districts for the instruction of the pupils of a district and public money has been available to meet the contract obligation, the property of the district has been entirely without the burden of a school tax. Hundreds of districts having an assessed valuation of less than \$20,000 have required to maintain schools with one, two and sometimes three teachers, making a tax almost unbearable, while in a less populous but more wealthy community a school with few pupils has been maintained for a nominal sum. The extension of the unit from the district to the town has materially improved this situation. By spreading the tax over a more extended territory the districts so placed as to include within their limits valuable corporate and other property have been required to share their privileges and advantages with adjoining districts less fortunately situated. Naturally, the complaints come from those districts where because of this attempt at equalization there has been substantial increase in the burden of the tax required to maintain our State system of education. The educational advantages to be obtained from the application of the provisions of the township law will outweigh the increased cost to the taxpayer who because of fortuitous advantage of location has for a generation or more been little affected by the cost of school maintenance, if he has in mind the importance of providing effectively for the education of the children of the State.

Hon. Thomas E. Finegan, Deputy Commissioner of Education, has made a careful investigation of the benefits to be derived from the so-called township system. He has written many articles and addresses upon this subject. Reference is made especially to an article prepared by him, included in the Annual Report of the State Education Department for 1916, entitled "The Township Law." Such article is appended to this brief.

b Provisions of Township Law

The following salient features of the new law are properly to be considered in comprehending its purpose and effect:

1 The school districts of the State are continued under section 330, so far as their territorial extent is concerned, until consolidated as provided therein. The purpose of this provision is to retain such districts for maintenance of existing schools therein, so that a town board of education may not arbitrarily abandon a schoolhouse and compel the children to attend that in another district, unless it be upon order of the district superintendent and approval of the qualified electors of the districts and town.

2 The school districts in a town, including both common and union free school districts, are included within the town school unit and a board of education is established therein. Union free school districts having a population of fifteen hundred or more or employing fifteen teachers or more on May 2, 1917, the time of the taking effect of the law, are excepted from the provisions of the act. An exception is also made as to the school districts in the towns of a county which adjoins a city having a population of one million or more and in which there are only two district superintendents. (See township law, sec. 331, subd. 1). If a town has two or more union free school districts having a population of less than fifteen hundred and each maintaining an academic department, the town is divided into as many town school units as there are such union free school districts situated in such town, and a board of education is established for each town school unit. The division of the town is made by the district superintendent.

3 The board of education in a town or a town school unit having under its jurisdiction five school districts or less consists of three members. In all other towns and town school units such board consist of five members. The term of office of each of the members of the board begins on the first day of August following his election. (Township law, sec. 331 subd. 1).

4 The annual meeting of each board of education is held on the first Tuesday in August in each year. The board organizes by the election of one of its members as chairman and is required to appoint a clerk and a town school treasurer. (Township law, sec. 333, 337).

5 The board of education of each town is a corporation. All property vested in or hereafter transferred to the board of education of a town or a town school unit for the use of the schools therein is held by such board in trust for the schools of the town or unit as a corporation. (Township law, Sec. 336).

6 The first board of education of each town and town school unit was to be elected by the trustees and members of the boards of education of the several school districts therein. The meeting for such purpose was held on the second Tuesday in June, 1917. Such trustees and members of boards of

education of the school districts comprised in the town or unit constituted a board for the purpose of electing the first board of education. (See township law, sec. 354, subdivision 1). The terms of office of the members first elected are prescribed in section 331, subdivision 1. In a town or unit having a board consisting of three members, one is to hold until August 1, 1918, one until August 1, 1919, and one until August 1, 1920. Their successors are required by section 354 to be elected at the annual school meeting. Sections 355-364 inclusive provide for the time and place of holding the annual meeting, the qualifications of voters at school meetings, the determination of the qualifications, the making of nominations, appointment of inspectors, the conduct of school elections and the canvass of votes cast thereat, with the declaration of the result. These sections provide a new method of holding school elections and were designed to remedy a rather glaring defect in the laws which have been in existence in the past, controlling the conduct of school elections. The former law which controlled as to school elections in common school districts provided no method of ascertaining in advance the qualifications of those who offered to vote for school officers and upon school appropriations. It is proposed in the scheme included in the township law to prepare in advance a list of the qualified electors of the town and permit inspection of such list of electors, so that in advance of the election the qualifications of those who offer to vote may be ascertained. The scheme will result in prevention of fraudulent voting at contested school elections and avoid in the future many contests such as have arisen as to election of school officers and the voting of appropriations for school improvements.

It was not possible to apply this method to elections of the members of the first board because of the time that would be required in the preparation of the lists and in organizing the necessary machinery. For this reason the plan was devised of providing for the election of the first board by trustees and boards of education in office at the time of the taking effect of the law, and by providing that their successors should be elected in the method prescribed for the holding and conduct of annual school meetings.

7 The board of education of the town or town school unit assumes the functions, exercises the powers and performs the duties theretofore conferred or imposed by law upon the boards of education or trustees of the school districts comprising such town or school unit. Powers other than those formerly possessed by boards of education or trustees of school districts are conferred upon the town board of education. The object of the extension of the powers was to impose upon the board of education of the town a responsibility for school conditions which was not imposed under prior laws. Section 340 of the township law provides that any power, duty, liability or obligation conferred by any law upon the board of education of a union free school district or the trustees of a common school district are to be exercised or performed by the board of education of a town.

8 The board of education of a town is authorized by section 342 to transfer pupils from a district in the town to a school in another town, where accessibility or convenience requires it. Provision is made for an arrangement for the payment of the cost of such instruction by the town where the pupils reside to the town board of the town in which the pupils are instructed. Under this provision, if a town board of education does not see fit to pro-

vide academic instruction in any school of the town, an agreement may be made with the board of education of another town or union free school district or city, whereby such children will receive academic instruction at the expense of the town. It is provided in section 341 that all the schools of the town are to be free to the children residing therein, so that if one district furnishes advanced instruction all the children of the town may receive the benefit thereof, while under the former system the children were restricted exclusively to the school maintained within the limits of the district.

9 Under section 343 the board of education of a town is authorized to designate a new schoolhouse site or enlarge the site of an existing schoolhouse. The board may expend in any one year an amount not exceeding one-half of one per cent of the assessed valuation of the property within the town school unit, and in no case in excess of five thousand dollars, for the improvement of school buildings, without a vote of a town school meeting. If it is proposed to exceed this amount a vote of the qualified electors of the district is required.

10 The board is required to prepare the annual school budget, including items of necessary expenditure. The form of the budget is prescribed by the Commissioner of Education. If the amount included therein is not sufficient to meet the requirements of the schools of the town, the board may prepare and issue a supplemental tax budget. (See township law, sec. 345).

11 The board of education is required to cause to be levied and assessed against the taxable property in the town the amount specified in the tax budget. A tax list is prepared and a warrant attached thereto and placed in the hands of the town collector of taxes for collection. The provisions of the Education Law relative to the assessment and collection of taxes for school purposes apply to the assessment and collection of school taxes in towns. (See township law, sec. 346).

12 If the board of education of a town deems it necessary to expend an amount exceeding the sum of five thousand dollars, it may call a school meeting to vote upon a proposition therefor. Such proposition may be submitted at an annual school meeting. Where it is proposed to vote an appropriation, provision is made for the levy and collection of a tax in instalments and the issue and sale of town school bonds. (See township law, sec. 348, 349). A town board of education may borrow money in anticipation of the levy and collection of a tax for any of the purposes specified in the budget or supplemental budget filed with the clerk of the board of education. (Township law, sec. 347).

Provisions Attacked as Unconstitutional

The plaintiff in his complaint prays for a determination by this court "that the said chapter 328 of the Laws of 1917 of the State of New York be declared unconstitutional, null and void, in that it violates the provisions of the constitution of the United States and the constitution of the State of New York, and in that more particularly it violates section 1 of article 14 of the constitution of the United States, section 1 of article 9 and section 2 of article 10, and section 6 of article 1 of the constitution of the State of New York."

The court is therefore asked to determine in the action that the law is unconstitutional because in violation of the provisions of the constitution referred to in the prayer for relief. The question at issue involves a determination as to the specific provisions of the law alleged to be violative of certain provisions of the United States and state constitutions. It is assumed that the provisions referred to are all that are complained of by the plaintiff in this action, and that if it be determined that the specific provisions which are attacked are not in violation of the constitution the law will be sustained, the preliminary injunction denied and the plaintiff's complaint dismissed upon proper motion therefor.

The law is asserted to be unconstitutional in the following respects:

1 In paragraph 9 of the plaintiff's complaint it is alleged that the act is unconstitutional and void in that it violates section 1 of article 9 of the constitution of the State of New York, which requires that "The Legislature shall provide for the maintenance and support of a system of free common schools, wherein all of the children of this State may be educated." It is not alleged in what respect any particular provision of the law deprives the children of the State of the privilege conferred upon them by the constitution. It is not alleged that any specific provision of the statute is violative of this constitutional provision.

2 In the fourteenth, fifteenth and sixteenth paragraphs of the complaint it is alleged in effect that section 354 of the township law, which provides that

"The first board of education of each town thereof shall be elected by the trustees and members of the boards of education of the several school districts in such town, subject to the provisions of this article"

is unconstitutional and void because in violation of section 2 of article X of the constitution, which provides that

"All other officers whose election or appointment is not provided for by this constitution, and all officers whose offices may hereafter be created by law, shall be elected by the people, or appointed as the Legislature may direct."

It is contended that the provision of section 354 relating to the election of the first board of education does not provide for the election of the said board of education by the people, and that it is not an appointment within the meaning of the constitutional provision, and that therefore it is in violation of the constitution.

3 It is contended that subdivision 1 of section 355 of the law, which provides that the bonded indebtedness of a school district existing and outstanding at the time of the taking effect of the article shall be a charge against the property which is subject to tax for the maintenance of the schools of such town, is in violation of the constitution, presumably section 1 of article VI of the state constitution and article XIV of the constitution of the United States, in that the plaintiff and other taxpayers in district no. 3 and other districts of the town of Caledonia, except union free school district no. 5 of such town, are deprived of their rights and property without due process of law. Under this provision the bonded indebtedness of union free school district no. 5, in the amount of \$23,700 which was outstanding at the time of the taking effect of the township law, was transferred to and became a charge against all of the taxable property in the town school unit of Caledonia. It is contended that since the taxpayers and qualified electors

of the districts outside of union free school district no. 5 of such town did not have the opportunity of voting for the erection of a new school building in the union free school district and did not authorize the issue and sale of bonds therefor, they can not be taxed to pay the principal and interest of such bonds.

The plaintiff's right of action depends upon a determination of the validity of the provisions to which he has referred in his complaint. Our argument will therefore be directed to the questions thus raised by him.

Points

1 The township school law has been declared constitutional in all its material features in the case of Brown against Bunselmeyer, and the determination therein should control the determination in this case.

The provisions of the township school law (Laws of 1917, chap. 328) which are attacked in this section were also attacked in the case of Brown and others, constituting the board of trustees of school district No. 8, town of Greenburgh, Westchester county, against William Bunselmeyer and others, constituting the town board of education for the town of Greenburgh, Westchester county. The constitutional questions which are raised by the plaintiff in this case were also raised and passed upon by Mr Justice Young of the Supreme Court, Westchester county. This case will be reported in the Official Advance Sheets, 101 Misc. 625. There is submitted herewith a copy of the opinion of Mr. Justice Young in the Greenburgh case. A comparison of the complaint in this action with the complaint in the Greenburgh case shows clearly enough that the complaint herein was prepared after examination of the complaint in the Greenburgh case, and the prayer for relief is substantially the same in both complaints. In the Greenburgh case a determination was sought declaring the law unconstitutional "in that it violates the provisions of the constitution of the United States and the constitution of the State of New York, and in that more particularly it violates section 1 of article XIV of the Constitution of the United States, section 1 of article IX and section 2 of article X of the constitution of the State of New York." In this case the complaint seeks a declaration that the law is unconstitutional because of violation of the constitutional provisions referred to in the Greenburgh case, and in addition thereto that it is in violation of section 6 of article I of the constitution of the State of New York.

The purpose of seeking a determination that the law is unconstitutional as being in violation of section 6 of article I of the state constitution is apparently to bring before the court the provisions of subdivision 1 of section 353 of the township school law, which provides that the bonded indebtedness of a school district existing and outstanding at the time of the taking effect of the law shall be a charge against the property which is subject to tax for the maintenance of the schools in each town. It is alleged in the eighteenth paragraph of the plaintiff's complaint that by virtue of this provision bonded indebtedness in the amount of \$23,700 which was outstanding against union free school district No. 5 of the town of Caledonia, has become the bonded indebtedness of all of the other districts in the town, and that as a result thereof the plaintiff and

other taxpayers similarly situated residing in the other districts of the town have been deprived of their property without due process of law. If the provision referred to is unconstitutional upon this ground, it is in violation of section 1 of the fourteenth amendment to the constitution of the United States as well as of section 6 of article I of the constitution of the State of New York.

This question was before Mr Justice Young in the Greenburgh case and was passed upon by him in his decision. It was contended by the plaintiffs in the Greenburgh case that the exception contained in section 331 of the law, of a county adjoining a city having a population of one million or more and in which there are only two district superintendents, violates the provisions of the fourteenth amendment of the United States constitution in that it unlawfully discriminates against the citizens of Westchester county and denies to them the equal protection of the laws. It was contended that this exception was purely arbitrary and unreasonable and that it unfairly discriminated against the towns in Westchester county. This provision is not attacked in this case.

A careful analysis and examination of the opinion of Mr Justice Young will thus show that he has sustained the constitutionality of the law as to all of its provisions which are attacked in this action. The opinion shows that he gave careful attention to all of the points presented by plaintiffs' counsel. He reviewed carefully all of the cases cited, both for and against the constitutionality of the law, and the grounds for his conclusions are stated concisely and expressed clearly. His opinion, it is suggested, should have great weight in controlling the determination of this case.

2 The act does not violate section 1 of article IX of the constitution, which requires the Legislature to provide for the maintenance and support of a system of free common schools.

The plaintiff in the ninth paragraph of his complaint alleges that the act is unconstitutional and void in that it violates section 1 of article IX of the constitution of the State of New York, which provides that

"The Legislature shall provide for the maintenance and support of a system of free common schools wherein all of the children of this State may be educated."

It does not appear in what respect the law contravenes this section of the constitution. The complaint alleges in the paragraph referred to that

"Said provision of the constitution is intended to guarantee to all of the children of the State equality of opportunity for securing free common school education and that the same educational privileges shall be given equally to all persons in the same class."

It is submitted that the township school law was enacted in full conformity with this constitutional provision. It provides for a uniform system of school administration in all of the school districts comprising the town school unit and makes all of the schools in the town free to all children residing therein. The children who have completed the elementary grades in the school in the district in which the plaintiff resides may under this law have the same equal privileges as children residing in union free school district no. 5 of the town of Caledonia, in respect to attendance upon academic instruction in the high school to be maintained by the town in such district.

One object which is accomplished by this law is the equalizing of school facilities and opportunity in the districts comprising the town school unit. Under the law the schools in the several districts are not to be abandoned, but are to be continued until it is determined by the qualified electors of the several districts that they should be consolidated. School privileges are thus amply protected under the township law, and the opportunity of attending academic or other special courses of instruction is extended to all the children of the town. The township law was enacted, therefore, in strict compliance with the mandate of the constitution requiring the maintenance of a "system of free common schools, wherein all the children of this State may be educated."

3 The provision made for the election of the first board of education in towns does not violate section 2 of article X of the state constitution.

It is provided in article X, of the state constitution as follows:

"All city, town and village officers, whose election or appointment is not provided for by this constitution, shall be elected by the electors of such cities, towns and villages, or of some division thereof, or appointed by such authorities thereof, as the Legislature shall designate for that purpose. All other officers, whose election or appointment is not provided for by this constitution, and all officers, whose offices may hereafter be created by law, shall be elected by the people, or appointed as the Legislature may direct."

The plaintiff in his complaint sets forth in full the provisions of section 354 of the township school law, which provides in subdivision 1 thereof that

"The first board of education of each town thereof shall be elected by the trustees and members of the board of education of the several school districts in such town, subject to the provisions of this article."

It is contended that all of the provisions of the section relating to the election of the first board of education are unconstitutional, in that the provision for the election of the first board of education does not provide for the election of such board by the people. This question was presented by the plaintiff in the Greenburgh case, *supra*. In passing upon it Mr Justice Young says:

"The question presented is whether the word 'election' as used in the section under review, as well as the method prescribed for such election, was an election within the meaning of that word employed in the constitutional provision referred to; or was it simply equivalent to an appointment by the boards of education of the town jointly assembled for that purpose? If it was an election as distinguished from appointment, this section of the statute can not be upheld. In determining this question, it is necessary to consider the substance of the statute rather than its mere form. If then, we substitute for the words 'elect,' 'elected' and 'election' the words 'appoint,' 'appointed' and 'appointment,' it could hardly be argued that because the statute prescribed a method of voting, it was an election, rather than an appointment. Plainly, the only means by which a board of that character could make an appointment would be by voting. The substitution above referred to neither adds to nor detracts from the substance of the statute. The method pursued and the result obtained are precisely the same, whichever language is employed, and I do not think that a statute should be held unconstitutional merely because the Legislature has employed the word 'election' for what is plainly nothing but an appointment within the meaning of the constitution."

It is true that the statute says the first board of education of each town shall be "elected" by the trustees and members of the boards of education

of the several school districts in such town. The trustees and members of the boards of education in office when the act took effect were constituted a board for the purpose of selecting the persons who should form the first town board of education. The Legislature devised this procedure for the purpose of expediting the organization of the boards of education in the several towns. Subsequent elections were to be held in accordance with the somewhat elaborate provisions of the statute. If this procedure had been followed in the election of the first board of education, there would have been considerable delay in the selection of the new boards and their induction into office.

The Legislature has termed what may properly be deemed an appointment as an election, and has used the term "elected" with the same significance and meaning as would ordinarily apply to the word "appointed." If the selection of the first board by the trustees and members of boards of education of districts in the town is in effect an appointment, it is none the less so because the Legislature has seen fit to call it an election. The plaintiff's contention, therefore, as to the constitutionality of this provision resolves itself into a mere quibble with respect to the use of words. A procedure which the Legislature may provide within its constitutional powers is contended to be unlawful and unconstitutional for the purpose of construing the act, simply because the Legislature has called such procedure an election, not because of any objection to the procedure itself. There can be nothing of substance in such a contention. The same contention has been made in other cases, and so far as we are able to ascertain there has never been a case where a method of choosing officers which in effect was an appointment, was declared unconstitutional because it was termed an election. The authorities in fact are all to the contrary.

In *People v. Sturgess*, 27 App. Div. 387, affd. 156 N. Y. 580, it was held that chapter 247 of the Laws of 1895, providing for the "election" of a village president by the board of trustees of a village, is not unconstitutional under this section as designating a mode of selecting that officer other than an election by the people or an appointment by local authority. It was there held that the "election" by the trustees was equivalent to "appointment" within the meaning of section 2 of article X of the state constitution.

In *Sturgis v. Spofford*, 45 N. Y. 446, it appeared that chapter 467 of the Laws of 1853 provided that three commissioners of pilots should be "elected" by the members of the chamber of commerce and the other two by the presidents and vice presidents of the marine insurance companies of the city of New York represented in the board of underwriters of said city. It was contended that this provision was violative of section 2 of article X of the state constitution because it did not in terms provide that such officer should be "appointed" or elected by the people. The court held that the act was not unconstitutional, saying:

"Although the word election is used in the statute, it can not be supposed that the legislature intended it in any such sense as that word is used in the constitution, or as the result of the choice by the ordinary mode of voting by the people. The mode prescribed by the statute for selecting these officers is, in legal effect, an appointment, and comes within the meaning of that word as used in the constitution, and the misnomer of the legislature can not change the real character of the act provided for." (Page 449)

In *State Board of Pharmacy v. Bellinger*, 138 App. Div. 12, it was held that article IX of the public health law, creating the State Board of Pharmacy, was not violative of section 2 of article X of the state constitution because it provided that the members of the board should be "elected" by a restricted electorate of licensed pharmacists, for while the statute used the word "election," the method of selection amounted in legal effect to an appointment.

The decision in the Pharmacy case cited *Sturgis v. Spofford* (*supra*) and of it said: "This authority is decisive on the point now raised."

We respectfully submit that these decisions of the courts of New York are controlling upon this question and conclusively establish the proposition that where a statute uses the term "election" and the method described is that of an appointment, the requirements of the constitutional provision have been met.

4 The provisions of the law transferring to the town school unit property belonging to the school districts included therein, and imposing upon the town school unit the bonded indebtedness of such districts, are not unconstitutional because in violation of section 6 of article 1 of the State constitution and section 1 of article XIV of the United States constitution, which provide that no person shall be deprived of property without due process of law.

Section 353 of the township school law provides in effect that the bonded indebtedness of the school districts in a town which are subject to the provisions of the law shall be a charge against the property which is subject to tax for the maintenance of the schools in such town.

Such section also provides for the taking over by the town school unit of the school property in the several districts in such unit. A method is prescribed for the appraisal of the value of such school property, and when so appraised, after deducting bonded indebtedness, the balance becomes a charge against the town and certificates are to be issued on account thereof to the taxpayers of the several districts representing the value of the property thereof, which certificates are payable in annual instalments out of moneys raised by tax upon the taxable property of the town.

The plaintiff in this action alleges that union free school district no. 5 in the town of Caledonia has a bonded indebtedness in the amount of \$23,700, which under the law becomes a charge against the other districts in the town. It is alleged, and of course conceded, that the taxpayers in the other districts of the town had no voice in the incurring of such indebtedness. It is contended that the charge made against the plaintiff and the other taxpayers of the school districts of such town outside of such union free school district no. 5 on account of such bonded indebtedness deprives the plaintiff and such taxpayers of property without due process of law. The township law, in section 340, substitutes the board of education of the town school unit for the trustees and board of education of the districts comprising such unit, and confers upon such town board the power to control and maintain all school property in the unit. All of the districts in the unit are united in one district for administrative and tax purposes. All such districts are dissolved, so far as their administrative

functions are concerned, and the territory therein has been consolidated in one unit.

It has been the law in this State for more than fifty years that the establishment of school districts or alteration of their boundaries and the consolidation of school districts, is within the control of the Legislature, and provision has always been made for such establishment, alteration or consolidation by authorities indicated by the Legislature. For instance, in sections 128 and 129 of the Education Law, which was originally enacted in 1864, (chap. 555, tit. 6, sec. 8) the school commissioner (now district superintendent) might dissolve one or more school districts and annex the territory thereof to adjoining districts or consolidate such districts into a new district. Where such dissolution and consolidation was effected, the law provided, in section 137, that the property of such districts should become the property of the consolidated district. And in section 134-a, as amended by Laws of 1913, chapter 129, it is provided that where districts are consolidated under sections 128 and 132 the bonded indebtedness of the dissolved districts becomes the bonded indebtedness of the consolidated district. Numerous controversies have arisen in the courts and before the Commissioner of Education and the former Superintendents of Public Instruction involving the validity and effect of such consolidation. No question has ever been raised in any of these cases as to the constitutional power of the Legislature to transfer to the consolidated district the property of the dissolved districts, or to impose upon the consolidated district the bonded indebtedness of the dissolved districts.

The question here raised is identical with that which has been and may be raised in a case where the Legislature has increased the territorial extent of a municipality and provided that the property of the annexed territory should become that of the municipality and the indebtedness of such annexed territory should become a charge upon the consolidated municipality. There have been many notable instances where the Legislature has altered and enlarged cities, towns, villages and school districts, and transferred public property to and imposed outstanding indebtedness upon the newly constituted city, town, village or school district. Such legislation has been enacted as to very many of the cities of the State. Greater New York as now constituted is made up of counties, cities and villages which were included therein under the Greater New York charter of 1897. Section 5 of such charter provided that all valid debts of the municipal corporations, towns, villages and school districts, therein united and consolidated, as well as the debts of the city of New York, shall be the common debt of the city of New York, etc. Numerous cases have arisen involving questions as to the payment of such debts, but in no case has the validity of the transfer of the debts been successfully attacked.

As stated by Judge Young in the Greenburgh case (page 8 of pamphlet)

"The right of the Legislature to alter and enlarge towns, villages and school districts, to transfer the public property affected to the newly created town, village or district, and to charge it with outstanding indebtedness, has never, so far as I have been able to find, been questioned by any decision in this State."

It is respectfully insisted that in view of the many occasions where the Legislature has enacted legislation of this kind, if such provisions are

unconstitutional for the reasons stated by the plaintiff herein the courts would have long since declared their invalidity.

It is a general proposition, established by weight of authority in every jurisdiction, that the Legislature has full control over the creation of municipalities and the determination of the territory to be included within their boundaries. If the Legislature declares that the territorial extent of a municipality shall be increased by annexation, the municipal property included in the annexed territory becomes the property of the enlarged municipality unless contrary provision is made. And so where the Legislature consolidates two or more municipalities or enlarges one municipality by the transfer of territory from another, it may make the consolidated or annexing municipality liable for the indebtedness of all the municipalities included therein.

28 CYC 220, and cases cited.

It is stated in Dillon on Municipal Corporations, 5th edition, section 355, that

"Not only may the legislature originally fix the limits of the corporation, but it may, unless specially restrained in the constitution, subsequently annex or authorize the annexation of contiguous or other territory, and this without the consent and even against the remonstrance of the majority of the persons residing in the corporation or on the annexed territory; and it is no constitutional objection to the exercise of this power of compulsory annexation that the property thus brought within the corporate limits will be subject to taxation to discharge a preexisting municipal indebtedness, since this is a matter which in the absence of special constitutional restriction belongs wholly to the legislature to determine."

And in section 357 it is stated:

"The legislature may in the absence of a constitutional restriction dissolve a county, city or town and incorporate its territory and inhabitants in new political organizations or divisions. If a municipal corporation goes out of existence by being annexed to or merged in another corporation and if no legislative provision is made respecting the property and liabilities of the corporation which ceases to exist, the corporation to which it is annexed or in which it is merged is entitled to all its property and is answerable for all its liabilities."

This statement is approved of in the case of *Huffmire v. City of Brooklyn*, 162 N. Y. 584, 587, where it is stated that

"Where a municipal corporation is legislated out of existence and its territory annexed to another, the latter, unless the Legislature otherwise provided, is entitled to the property and liable for the debts of the former."

In the case of *Mount Pleasant v. Beckwith*, 100 U. S. 514, the court says:

"Old towns may be divided and new ones incorporated out of parts of the territory of those previously organized, and in enacting such regulations the legislature may apportion the common property and the common burdens, and may as between the parties in interest settle all the terms and conditions of the division of their territory or the alteration of the boundaries as fixed by any prior law."

In the case of *Laramie County v. Albany County*, 92 U. S. 307, it is said at page 308:

"Counties, cities and towns are municipal corporations, created by the authority of the legislature; and they derive all their powers from the source of their creation, *except where the constitution of the state otherwise provides*. Beyond doubt, they are, in general, made bodies politic and corporate; and are usually invested with certain subordinate legislative powers, to facilitate the due administration of their own internal affairs, and to promote the general welfare of the municipality. *They have no inherent jurisdiction to make laws, or to adopt governmental regulations; nor can they exercise any other powers in that regard than such as are expressly or impliedly derived from their charters, or other statutes of the state.*"

Again at page 310 the court says:

"Corporations of the kind are properly denominated public corporations, for the reason that they are but parts of the machinery employed in carrying on the affairs of the State; and it is well-settled law, that the charters under which such corporations are created may be changed, modified or repealed, as the exigencies of the public service or the public welfare may demand. 2 Kent Com., 12th ed., 305; Angell & Ames on Corp., 10th ed., sect. 31; McKim v. Odom, 3 Bland, 407; St. Louis v. Allen, 13 Mo. 400; The Schools v. Tatman, 13 Ill. 27; Yarmouth v. Skillings, 45 Mo. 141.

"Such corporations are composed of all the inhabitants of the Territory included in the political organization; and the attribute of individuality is conferred on the entire mass of such residents, *and it may be modified or taken away at the mere will of the legislature, according to its own views of public convenience, and without any necessity for the consent of those composing the body politic.* 1 Greenl. Ev., 12th ed., sect. 331."

Again at page 311 the court says:

"Public duties are required of counties as well as of towns, *as a part of the machinery of the State*; and, in order that they may be able to perform those duties, they are vested with certain corporate powers; but their functions are wholly of a public nature, and *they are at all times as much subject to the will of the legislature as incorporated towns, as appears by the best text-writers upon the subject and the great weight of judicial authority.*

"Institutions of the kind, whether called counties or towns, *are the auxiliaries of the State in the important business of municipal rule, and can not have the least pretension to sustain their privileges or their existence upon any thing like a contract between them and the legislature of the State, because there is not and cannot be any reciprocity of stipulation, and their objects and duties are utterly incompatible with every thing of the nature of compact. Instead of that, the constant practice is to divide large counties and towns, and to consolidate small ones, to meet the wishes of the residents, or to promote the public interests, as understood by those who control the action of the legislature. Opposition is sometimes manifested; but it is everywhere acknowledged that the legislature possesses the power to divide counties and towns at their pleasure, and to apportion the common property and the common burdens in such manner as to them may seem reasonable and equitable.* (Citing cases).

"Political subdivisions of the kind are always subject to the general laws of the state; and the Supreme Court of Connecticut decided that the legislature of that state have immemorially exercised the power of dividing towns at their pleasure, and upon such division to apportion the common property and the common burdens as to them shall seem reasonable and equitable. (Citing cases.)

"Such corporations are the mere creatures of the legislative will; and, inasmuch as all their powers are derived from that source, it follows that those powers may be enlarged, modified, or diminished at any time, without their consent, or even without notice. They are but subdivisions of the state, deriving even their existence from the legislature. *Their officers are nothing more than local agents of the state; and their powers may be*

revoked or enlarged and their acts may be set aside or confirmed at the pleasure of the paramount authority, so long as private rights are not thereby violated."

Again at page 313 the court says:

"Old towns may be divided, a new town may be formed from parts of two or more existing towns; and the legislature, if they see fit, may apportion the common property and the common burdens, even to the extent of providing that a certain portion of the property of the old town shall be transferred to the new corporation.

"In dividing towns, the legislature may settle the terms and conditions on which the division shall be made. It may enlarge or diminish their territorial liabilities, may extend or abridge their privileges, and may impose new liabilities. Towns, says Richardson, C. J., are public corporations, created for purposes purely public, empowered to hold property, and invested with many functions and faculties to enable them to answer the purposes of their creation.

"There must, in the nature of things, be reserved, by necessary implication, in the creation of such corporations, a power to modify them in such manner as to meet the public exigencies. Alterations of the kind are often required by public convenience and necessity; and we have the authority of that learned judge for saying that it has been the constant usage, in all that section of the Union, to enlarge or curtail the power of towns, divide their territory, and make new towns, whenever the convenience of the public requires that such a change should be made."

To the same effect are *Worcester v. Worcester Consolidated Street Railway Co.*, 196 U. S. 539, and *Kies v. Lowrey*, 199 U. S. 233.

The case last cited is a school district case and holds, quoting from the headnote:

"Where the legislature of the State has the power to create and alter school districts and divide and apportion the property thereof, no contract arises in favor of any district created by an act, the obligation whereof is later impaired by a subsequent act altering the districts and transferring property, nor does such later act amount to the taking of the property of the district taken without due process of law."

In this case it appeared that the constitution of the state of Michigan required the Legislature to establish and provide a system of public schools, whereby a school shall be kept open at least three months in each year in every school district in the state. In fulfilment of this constitutional requirement legislation had been enacted from time to time by the Legislature of Michigan providing for the formation of school districts, among others four districts in the townships of Somerset and Moscow, county of Hillsdale.

In 1901 the Legislature passed an act to incorporate the public schools of the village of Jerome, Hillsdale county, Michigan, define the boundaries thereof, provide for the election of trustees, fix their powers and duties and provide for the distribution of territory of the disorganized districts, by the terms of which act one of the districts formed in the townships of Somerset and Moscow, in which the village of Jerome is situated, and portions of other districts, was set off and incorporated in one school district to be known as "the public schools of the village of Jerome."

The act appointed defendants in error trustees of the new district, to continue in office until their successors should be elected, as provided in the act, and gave to the new district the property within its limits which had belonged to the districts from which it was created, and required the

new district to assume and pay the debts and obligations of the old districts. The new district did not include all the lands of the old districts.

The constitutionality of the act was attacked and the act was held constitutional by the state courts.

Appeal was however taken to the federal courts, the claim being made that the act impaired the obligation of contracts within the meaning of the federal constitution.

The act was held to be constitutional by the Supreme Court of the United States, the court citing with approval *Laramie County v. Albany County et al.* (supra), the court saying (199 U. S. 239) among other things:

"The districts did not hold this property under any contract with the State, but as a public agency . . . If the legislature of the state has the power to create and alter school districts and divide and apportion the property of such districts no contract can arise, no property of a district can be said to be taken, and the action of the legislature is compatible with a republican form of government even if it be admitted that section 4, article IX, of the constitution applies to the creation of, or the powers or rights of property of, the subordinate municipalities of a state."

The State of New York has been late in following other states in their recognition of the educational necessity of abolishing small school units and substituting in place thereof larger units, either by consolidation or by the adoption of a township system. In Massachusetts the so-called township system has been in force and effect for nearly fifty years. The same questions arose under the statute in that state abolishing school districts and substituting in place thereof the township system as have arisen under our statute. It was contended there, as it is here, that the taking over of the property of the school districts by the newly organized town school unit and the imposing upon the town of the burden of paying the outstanding indebtedness was a deprivation of the property rights of the taxpayers of the town adversely affected thereby. In every case where the question has arisen in the state of Massachusetts under the law consolidating school districts and establishing the township system, the court has sustained the constitutionality of the township law and denied that there was any infringement upon existing property rights by the taking over of the property of the school district and by the imposition upon the town of existing indebtedness.

The case of *Rawson v. Spencer*, 113 Mass. 40, which arose under Massachusetts statutes, provided for the abolition of school districts and the substitution in place thereof of the township system (Statutes 1869, Ch. 110; Ch. 423, § 6) the court said:

"The provisions of the statutes for the abolition of the school district system require the taking possession by the town of all the property which the districts owned and could convey; the appraisal of the same; the levy of a tax on the town for the amount of the appraisal; the remittance to the taxpayers of each district of the appraised value of their district property less the amount of the debts due from the district; and lastly, the assumption by the town of all the district debts. Gen. Sts. ch. 39, § 3. St. 1869, Ch. 110; Ch. 423, § 6.

"The plaintiff contends that these provisions are unconstitutional because the property of the district is taken and appropriated by the town without compensation provided therefor, and because the taxes imposed therefor are unreasonable and not proportional, and because the obligation of contracts is thereby impaired.

"These objections to the statutes are not well taken. The laws in question were enacted in the legitimate exercise of that power by which the Legislature may require the performance of certain public duties by different municipal or political agencies at its discretion. Before their enactment, school districts were indeed quasi corporations with the power to hold property, to raise money by taxation for the support of schools, and with certain defined public duties. But they were public and political as distinguished from private corporations, and their rights and powers were held at the will of the legislature, to be modified or abolished as public welfare might require. The property held by them for public use was subject to such disposition in the promotion of the objects for which it was held, as the supreme legislative power might see fit to make. The laws in question do nothing more; they provide for the transfer of public property and of a public duty connected with its use from one public corporation to another. In justice to those taxpayers in districts where the property transferred exceeds the debts, allowances are made intended to equalize as to such taxpayers the common burden. There is no attempt to provide compensation in the sense in which compensation is required when private property is taken for public use under the right of eminent domain. The right here exercised is quite distinct from that, and requires no provision for compensation."

See also School District No. 1, Stoneham v. Richardson, 23 Pickering (Mass.) 62.

In the case of Perrizo v. Kesler, 93 Mich. 280, which arose under Michigan laws, 1891, act No. 176, authorizing the organization of any township into a single school district upon certain steps being taken by the qualified electors of such township, under section 13 of which it was provided in effect that all school property, both real and personal, within the limits of a township incorporated as aforesaid, shall by force of the act "become the property of the public schools of such township, and all debts and liabilities of the primary school districts of said township, as they existed prior to its incorporation under the provisions of this act, shall become the debts and liabilities of the public schools of the township so incorporated"; the court said:

"While the injustice and inequity of this section may well be admitted, in a case where the inhabitants of an existing district within the township may be well equipped in school buildings and other property, and out of debt, while other districts are in debt and without much property, and are compelled by a majority of the electors of the township, against their will, to be incorporated into a single district with the others, and surrender their property into the common fund, and bear their proportion of the debts of the other districts within the township, yet there is no constitutional objection against it. 1 Dill. Mun. Corp. § 185. The history of our State is full of such legislation in the enlargement of the boundaries of municipalities, and the right so to legislate cannot now be questioned."

In the face of these convincing authorities it seems futile for the plaintiff to insist that the provisions of the statute imposing upon the town of Caledonia the outstanding bonded indebtedness of union free school district no. 5 of such town are unconstitutional because of depriving the plaintiff and other taxpayers of their property without due process of law.

5 The law is constitutional and the plaintiff's motion for injunction should be denied.

Respectfully submitted

FRANK B. GILBERT

Attorney for the Commissioner of Education

Opinion of Court

Action to construe the township school law (Laws 1917, chap. 328) and to determine its constitutionality and to restrain defendants from collecting certain taxes under said law.

Fred A. Quirk, for plaintiff.

Archibald M. Little, for certain defendants.

Frank B. Gilbert, for the Commissioner of Education.

CLARK, J.:

This action is brought to determine the constitutionality of chapter 328 of the Laws of 1917, commonly called the township school law.

This law was repealed in 1918 (chapter 199, Laws of 1918), but while it was in force certain taxes were levied under its provisions against plaintiff's property in the town of Caledonia, and he asks to have the school authorities restrained from the collection of said taxes on the ground that the law under which they were levied was unconstitutional and void.

The facts in the case are conceded. The plaintiff is an extensive property owner in school district no. 3, in the town of Caledonia, Livingston county, N. Y. Proceeding under the terms of the township school law (chapter 328, Laws of 1917), the school districts of said town were consolidated into a single town school unit with a single board of education in place of separate boards and trustees in each of the several school districts of the town.

School district no. 5 in said town before the consolidation had a valuable school building and a bonded indebtedness of \$23,700, which bonds had been issued in accordance with the law by the proper officers of said school district no. 5. Under the terms of the township school law this bonded indebtedness would be spread upon the districts of the entire town—that is, the districts consolidated into one township system would assume the payment of the bonded indebtedness of district no. 5.

The plaintiff attacks the constitutionality of the township law on several grounds, but none of them seem to be of importance excepting the one which asserts that plaintiff is deprived of his property without due process of law, in that the act attempts to charge against this plaintiff a bonded indebtedness created by school district no. 5, and not created, authorized, or in any respect ratified by the other school districts of said town, or by the plaintiff or any other taxpayer in such other school districts.

Plaintiff also attacks the constitutionality of the act in reference to the provisions about appraising the value of the school property in each district, crediting the value to the district and charging it against the town, in that it violates section 6 of article 1 of the constitution of the State of New York, because it will deprive the plaintiff of his property without due process of law and without compensation therefor, and take his property for private uses and for purposes of a personal rather than a public character.

I do not think the act violates section 6 of article 1 of the constitution of the State of New York, or section 1 of article 14 of the constitution of the United States, which provide that no person shall be deprived of property without due process of law.

The township school law in question substitutes a board of education of the town for the trustees and boards of education of the districts comprising the new school unit and confers upon the town board of education the power to control and maintain all school properties of the town. All of the districts of the town are united in one township school unit, the several districts are dissolved so far as their administrative functions are concerned, although they are continued as to territory of the several districts consolidated into one town unit, and it is intended to equalize the burden of taxation for the support of all schools in the territory affected.

For many years the Legislature has had full control over the creation of municipalities, and to determine what territory should and should not be included within their boundaries, and it has long been held that when the Legislature consolidated two or more municipalities or enlarged one by the transfer of property from another, it might make the consolidated municipality liable for the debts of all the municipalities included in the consolidation.

28 Cyc. 220.

Dillon on Municipal Corporations, Sec. 355.

Huffmire vs. City of Brooklyn, 162 N. Y. 584.

This township school unit became a public corporation composed of all the inhabitants of the town of Caledonia by virtue of the act in question, and boundaries of the district could be modified or enlarged by the Legislature without the necessity for the consent of those composing the body of the township.

It has long been the policy of some of our sister states to abolish small school districts and substitute the larger township unit to the end that the educational facilities of the community might be enlarged and improved. In Massachusetts for instance, a township school law very similar to the law under consideration here has been approved and upheld as being constitutional, although many times attacked on the precise grounds relied upon by plaintiff in his contention here.

An examination of those cases and of cases in Rhode Island, where a similar township school law has been in force for some years, reveals the fact that the courts of those states have uniformly held that the township school laws abolishing the school district system and taking possession by the town unit of all the property of the districts consolidated, the appraisal of the same, and the levying of a tax on the town for the amount of the appraisal and the remittance to the taxpayers of each district of the appraised value of their district property, less the amount of the debts due from the district, and the assumption by the town of all the district debts, has been approved and declared constitutional.

Rawson vs. Spencer, 113 Mass. 40.

Stoneham vs. Richardson, 23 Pickering 62.

Whitney vs. Stow, 111 Mass. 366.

Matter of North Smithfield, 26 R. I. 164.

Tefft vs. Lewis, 27 R. I. 9.

So far as my examination discloses township school laws in several other states similar to the one under consideration here have uniformly been upheld as constitutional, excepting in the state of New Jersey, where a similar statute was held unconstitutional as devoting public funds to private uses.

State ex rel. Elizabethtown Water Co. vs. Wade, 59 N. J. Law, 78.

The conceded fact that plaintiff as a taxpayer of district no. 3 of the town of Caledonia, is required under the provisions of the act in question to pay a portion of the bonded indebtedness of district no. 5 in said town in the creation of which he had no voice or part, would seem to be unfair, but when we consider the fact that under the provisions of this act the valuable school property in district no. 5 becomes the property of the entire township unit, of which plaintiff's district no. 3 is a part, and that the inhabitants of district no. 3 will be entitled to the privileges afforded by the fine school building in district no. 5, it would be equally unfair to say that the inhabitants of district no. 3 should receive an interest in the school properties in district no. 5 with all the advantages thereof without paying anything for such interest and advantages.

The whole scheme of consolidating the school districts of a town into one township school unit is in line with progressive ideas for the advancement and improvement of our educational system, and while our own State has seemingly been tardy in adopting the town unit system, it seems to have worked out satisfactorily and with the approval of the courts in other states, excepting the state of New Jersey.

The right of the Legislature to alter the boundaries of towns, villages and school districts, and enlarge them and to transfer public property of the districts affected to the newly created territory, and to impose upon it the outstanding debts of the old territory, has been upheld not only by the courts of Massachusetts and Rhode Island, but by the Supreme Court of the United States.

Laramie Co. vs. Albany Co., 92 U. S. 307.

The consolidation of the school districts of the town of Caledonia into one township unit, transferring the property of the districts affected to the town unit, and imposing the indebtedness of district no. 5 upon the entire consolidated territory, which received title to and advantages from the improved school facilities existing in district no. 5, violates no provision either of the state or federal constitutions to which my attention has been called. The plaintiff has in no way been deprived of property or property rights for private purposes, for the transfers contemplated by this act are from one public corporation to another not for private purposes, but for greater convenience in administering the educational functions of the town of Caledonia.

Likewise the appraisal, apportionment and distribution of taxable property as provided for under the act is not repugnant to the provisions of the federal constitution, nor of section 1 of article 9 of the state constitution, for it does not contemplate taking public property for private uses. It is simply a scheme to equalize the expenses of the new town school unit to the end that all taxpayers will share in the common burden on the basis of equalizing the property rights of the districts brought into the

town unit, giving credit to each district for the expenditures which it has made in providing school facilities.

It is my opinion that the criticisms of plaintiff to the act in question are without merit, and that its provisions are not repugnant to either the state or federal constitutions.

It follows that the injunctive relief asked for must be denied, and the complaint dismissed.

Findings may be submitted and judgment entered accordingly.

TAXATION

THE RAISING OF MONEY FOR SCHOOLS AND OTHER TOWN PURPOSES

Report of the Committee on Public Education

Certain provisions of the township school law of 1917 for the improvement of rural schools have caused dissatisfaction in the agricultural sections and this committee now has under consideration a bill passed by the Assembly for its repeal.

The principal ground of objection is increased taxes. As the township system has for many years been an accepted system, has been adopted in every adjoining state as a progressive plan for the improvement of rural education, and has been publicly declared by our Department of Education to be the most forward step in rural education since the establishment of free schools, the committee is deeply impressed with the duty and necessity of saving to the people of the State such provisions of the law as the public welfare requires, while affording relief from provisions which have resulted in inequalities or improper burdens.

The school district system was changed to the township system August 1, 1917. The management of the ten thousand schools affected was then turned over to the township boards of education, which are now in full charge. To again overturn the administration of these schools at this time would involve great confusion and loss of efficiency. Such action should not be taken if the situation may reasonably be met by pursuing another course.

There has been a general decline in the population of the agricultural sections of the State for the past forty years. This has resulted in a corresponding decrease in the number of children in attendance upon many of the schools maintained in these parts of the State. The official reports of the Education Department show that there are 8340 one-room schools in the State and that 3800, or nearly one-half, have a valuation not to exceed \$40,000; in 1200 of these districts the valuation is less than \$20,000. It further appears that in these 3800 rural districts the enrolment for the past year was as follows:

Schools	Enrolment
15.....	1 pupil
86.....	2 pupils
166.....	3 pupils
258.....	4 pupils
357.....	5 pupils
600.....	7 pupils
2318.....	8 to 10 pupils

Two of the essential elements in the maintenance of a good rural school are a sufficient number of pupils to stimulate an interest in the work and a sufficient amount of property to support the school without burdensome taxation. It is clear from the above facts that in nearly one-half of the rural schools of the State there is neither the number of children necessary to organize a successful school nor an amount of property sufficient for the support of a school, without imposing taxes upon the people which are burdensome.

The cost of maintaining all the schools in the territory under the operation of the township law is approximately eight million dollars. The amount of public money contributed by the State is approximately \$1,775,000. It was necessary last year, under the district system, therefore, to raise by tax for the support of these schools about \$6,225,000. The following tables will indicate not only the burden of taxation which is imposed upon farm property for the support of rural schools but they will also show the inequality of taxation existing under the old school district system. These high rates of taxation and the inequality in the assessment of such taxes prevail not only in the counties to which these tables relate but are typical of conditions generally throughout the State.

The burden of taxation upon farm property for school purposes is further illustrated by a comparison with the rates of taxation in some of the larger cities of the State. The tax rates for school purposes in these cities are of follows:

Albany005
Buffalo0085
New York005
Rochester0067

Syracuse0054
Schenectady0088
Utica0084
Yonkers0057

A further injustice in the matter of taxation under the district system is the method of the assessment of taxes on corporate property. Railroad, telegraph, telephone and other similar corporate property pay taxes in those school districts only through which such property extends. In many cases, a single district in a town has for years had the sole benefit of taxation for school purposes on all of this property, while the other twelve to thirty districts in the town have received nothing whatever in the form of taxes from such corporations. The township law, in operation at the present time, requires these corporations to pay a proportionate share of the taxes for the maintenance of schools in all the districts of the town. The separation of the village districts from the remaining districts will in a measure continue this injustice and some relief for such injustice should be accorded to the districts in which such property is not located.

The inequality of taxation and of school opportunities does not give the boys and girls upon the farm the equal advantages for obtaining an education which are afforded the boys and girls in the cities or villages where uniformity of taxation provides uniformity of school facilities. In the rural schools, the instruction is confined to the elementary branches while in the cities, having unusually lower tax rate, the instruction includes four-year high school courses and, in the city of New York, such instruction even includes a four-year college course. The country boy or girl is at a still greater disadvantage in the rural school because the school term is shorter, the teachers are not so well qualified and the equipment is altogether inadequate. There are employed in the smaller rural schools more than 3000 teachers, who have had no high school nor professional training. These teachers hold the lowest form of certificate authorized, are not qualified to be employed in the schools maintained in the villages and cities and would not generally be considered by board of education in a village or city for employment as teachers.

Another inequality in the matter of taxation for rural schools should be clearly understood. The law has for some years authorized a rural district to contract with another district for the education of its children instead of maintaining a school in its own district. When such contract is made the district is entitled to receive from the State the same amount of funds which it would receive if it maintained a home school. The result of this is that there are about 500 districts in the State operating under the contract system which maintain no school in their own districts, but which receive their regular allotment of public money from the State and such allotment is sufficient, in a majority of cases, to pay the tuition received by the district which educates such children. These districts take the money received from the State, pay it to the district which educates the children, and escape all taxation for school purposes. The State has therefore generously maintained for several years such school facilities for hun-

dreds of districts as they have had and the taxpayers in such districts have not paid a dollar in taxes for school purposes. This situation should no longer be tolerated, and property in these districts which escapes taxation for school purposes should be compelled to pay its proportionate share of taxes for the maintenance of schools.

The uniform policy of the State has been to extend state aid for public education to those units of administration which are in the greatest need of such aid. In 1885 Governor David B. Hill approved a plan which increased the amount of state aid to the country schools and in 1891 Governor Hill again approved a change in the method of apportioning public funds by which a fixed amount was thereafter required to be apportioned annually to every school district in the State.

Under the plan adopted in 1891, the amount of public money apportioned to each school district in the State was on the average \$153. The amount apportioned these districts at the present time is on the average \$150. While the amount appropriated by the State for the support of public schools has increased largely since 1891, the entire increase in this appropriation has been apportioned for the support of the schools in the villages and cities of the State.

In 1891, when the amount apportioned to each rural school was on the average \$153, it was necessary to raise by taxes for the maintenance of rural schools only \$3,000,000. The amount required to be raised last year, under the district system was approximately \$6,255,000, or more than twice as much as it was necessary to raise in 1891. It is observed therefore, that, while the cost of the maintenance of rural schools in the last twenty-five years has largely increased, the State is not making an increased apportionment for the support of such schools, and it is necessary to raise by taxes upon the property supporting these schools more than twice the amount which it was necessary to raise in 1891. Materials of all kinds as well as service of every grade are costing more than ever before. The cost of maintaining schools has been increased and relief must be provided.

Our State does not occupy the position it should in the amount of funds which it appropriates for public education. On the basis of percentage of State aid to the total cost of the maintenance of schools, New York stands 31 on the list; on the basis of the state aid to \$1000 of assessed valuation, New York stands 25 on the list.

Under the law of 1917 school districts can not be consolidated nor abolished except by a vote of the school electors. But education has long been recognized as a state rather than a local function. Such powers as are delegated to the localities are so delegated as a matter of state policy for the purpose of securing local interest and encouraging proper educational facilities, but not to give an option to curtail such facilities or close schools.

Under these circumstances the repeal of the law and the restoration of former conditions, involves the confession of impotency. The legislature is not reduced to the alternative of destroying an improved system of education nor perpetuating a wrong to rural taxpayers. It may both improve the system and correct the wrong; and the committee submits a bill which in its opinion will accomplish both these ends.

Its main provisions are

a The withdrawal of the union free school districts from the township system.

b An increase in the state aid of \$100 to each of the rural schools of the State, payable to the town.

c An increase in the Academic quota from \$100 to \$500 for each of the high schools of the State.

d Permitting union free school districts which receive nonresident students to charge a tuition equal to the actual cost of instruction.

e Power to create smaller units than towns when the public interest and convenience require it.

f Authority to organize units of administration so as to embrace school districts from two or more towns. Even if in different counties.

g Authority to establish, when public interest and convenience and local conditions require, independent district.

h Increasing the number of members on the board of education in the larger units.

The committee has in view of the present strain on the resources of the State to meet war conditions, restricted its recommendations for changes and for expenditures to the minimum essential to remedy intolerable conditions; to relieve the rural districts of the unjust burdens of taxation which they are required to carry, and to adapt the township system to existing conditions. If the bill becomes a law it will, in the opinion of the committee, meet all reasonable objections of the law of 1917, preserve the good features of that law, and save the State from lapsing into a decadent condition in rural education.

No internal matter is of greater importance; the condition of rural life, the strength of our citizenship, the productive capacity of our farm land, and the welfare of the State are largely dependent upon the education of its youth.

No one should fail to see that this is a critical moment in its history, and that the failure to solve the pending problem means a backward step instead of a strong, vital, progressive movement in rural education.

CHARLES C. LOCKWOOD

Chairman

Raising Moneys for Town Purposes

Section 170 of the town law defines what are town charges. Among such charges are the following briefly stated: the compensation of the town officers, contingent expenses necessarily incurred for the use and benefit of the town, moneys directed by law to be raised for town purposes or authorized by vote of a town meeting, judgments, costs and expenses, and expenses of the supervisor. Bills are presented to the town board at its annual or quarterly meetings held for the purpose of auditing such bills, covering all items included within or authorized under the section referred to. These audits are certified by the town board and an abstract thereof made, published and presented by the supervisor to the board of supervisors to be included in the town tax authorized by such board.

The town highway fund is first estimated by the superintendent of highways, his estimate being passed upon by the town board, and when determined by such board is presented by the supervisor of the town to the board of supervisors for action. There are certain limitations placed by law upon the town board as to the amounts to be raised for highway purposes. (94, highway law, as amended by L. 1916, ch. 578.)

An estimate of the amount required for the poor fund is made by the overseer of the poor and when approved by the town board is presented by the supervisor to the board of supervisors.

Moneys are also authorized to be raised for protection against fire and various other incidental purposes which enter into the town budget.

The people of the township do not control the expenditures or the amounts to be raised for town purposes under the sections referred to. The citizens and taxpayers of a village do not by vote regulate the ordinary running expenses of the municipality, nor vote the appropriations therefor. The same is true of county expenses and appropriations.

Powers of Trustees to Raise Taxes Without Vote of the District

Prior to the enactment of the township law school district trustees and boards of education had power to raise moneys for certain purposes without vote of the district electors.

Section 275 of the Education Law sets forth the powers and duties of trustees and at the end of this section we find the following paragraph:

Any expenditure made or liability incurred in pursuance of this section shall be a charge upon the district.

Under this section trustees were authorized to raise moneys by tax without vote for the following purposes:

- To insure school buildings, furniture, etc. (subd. 6)
- To insure school library (subd. 7)
- To pay the salaries of teachers (subd. 12)
- To pay judgments rendered against the district (subd. 12)
- To repair the schoolhouse and furniture not exceeding \$50 (subd. 14)
- To make repairs and abate nuisances pursuant to the direction of the district superintendent (subd. 15)
- To provide stoves and fuel (subd. 15)
- To provide apparatus and implements for cleaning schoolhouse (subd. 15)
- To provide janitor service (subd. 16)
- To provide blank books for district records (subd. 17)
- To expend not exceeding \$25 for books and apparatus (subd. 18)
- To establish branch schools (subd. 19)
- To hire rooms and buildings for temporary use (subd. 4)

Section 283 provides that where any expenses are incurred by trustees which are by express provision of law made a charge upon the district they may raise the amount thereof by tax in the same manner as if voted by district meeting.

Under section 453 trustees were required to provide fire escapes and the cost thereof was made a charge upon the district.

Under section 457 provision was required to be made for suitable outbuildings and the expense incurred was made a charge upon the district.

Under the medical inspection act (article 20-a) the salary of the medical inspector and school nurse becomes a district charge.

Under section 652 a school census is required to be taken and the expense made a charge upon the district.

Instruction in physical training is made mandatory by article 26-a and the expense as apportioned between districts jointly employing a medical inspector.

Under article 27 the purchase and display of a United States flag becomes a necessary charge.

Boards of education under section 317 have all the powers, and are required to perform all the duties devolving upon the trustees of school districts and are, therefore, authorized to make expenditures above set forth and raise taxes therefor and in addition, under section 325, may raise all moneys necessary for ordinary contingent expenses and levy a tax for same in like manner as if the inhabitants of the district had voted therefor. In incorporated villages or cities in which a union free school district was established the corporate authorities were required to raise such sums for school purposes as the board of education declared necessary, covering the teachers' salaries and the ordinary contingent expenses of running the schools.

Under the district system of school government each individual district which was fortunate enough to have within its boundaries a public service corporation was bound to have a comparatively low rate of taxation because of the increased assessed valuation of the district occasioned by the existence of the public service corporation therein. In many instances neighboring districts similarly situated but lacking additional assessed valuation of such corporation had double and treble the tax rate of the more favored districts. This condition prevailed throughout the State.

Under the provisions of the township law, equalizing the tax burden over the township, we have for the first time in the history of the State a situation which requires the public service corpora-

tions to pay their fair share of tax burdens for school purposes. The increased taxes paid by such corporations because the districts in which they are located now have an equal tax rate with other districts in the township have amounted to thousands of dollars this year.

The Payment of School Moneys Direct to Town Boards of Education

The following counties were selected for the purpose of ascertaining the amount of public moneys (1918) which will be apportioned to the districts under the township school system in such counties and will be paid by the county treasurer direct to the treasurer of the town board of education in each case, thus eliminating the supervisor from the handling of such moneys. Under this law the supervisors will not be entitled to the percentage they have been accustomed to receive upon the moneys which formerly passed through their hands but which now will go direct to the board of education. This will mean a loss to the supervisors and a saving to the schools as follows:

Columbia county	\$243 62
Dutchess county	301 47
Livingston county	263 51
Oneida county	635 31
Onondaga county	414 68
Saratoga county	301 08

The committee on Education in the Senate made a careful study of the opposition and presented the following report.

Tennessee.....	County school tax 2 mills. Levy of additional tax allowed
Texas.....	District school tax not to exceed 50 cents on \$100 valuation
Utah.....	County school tax.....	Township school tax not less than 40 cents on dollar valuation
Vermont.....
Virginia.....	County school tax.....	District school tax also levied
Washington.....	County school tax not to exceed 5 mills	District school tax also levied
West Virginia.....	District school tax also levied
Wisconsin.....	District school tax not to exceed 2 per cent
Wyoming.....	County school tax not to exceed 3 mills	District school tax also levied

ALABAMA

Sec. 1 That upon a petition signed by two hundred or more qualified electors of any county, to the court of county commissioners or other governing body, in any county within the state of Alabama, said court of county commissioners or other governing body shall order an election to determine whether or not a special tax shall be levied for public school purposes within said county, and upon request of the county board of education to the court of county commissioners or other governing body, said court shall order an election to determine whether or not a special tax shall be levied for public school purposes within any school district in any county; provided that no election in any school district shall be held for the purpose of levying and collecting a special school tax for school purposes unless the county in which said district is located shall be levying and collecting a special county tax for school purposes of not less than thirty (30¢) cents on each one hundred dollars (\$100) worth of taxable property in such county.

Sec. 5 . . . Provides that the funds arising from levying the special tax for school purposes in any school district, shall be used for the exclusive benefit of the public schools of such district; and in the case of incorporated cities and towns shall be paid over to the treasurer of said incorporated city or town, to be used for the exclusive benefit thereof. (Alabama: General Acts, 1915, no. 403 p. 360, 362-363)

ARIZONA

Sec. 2818 . . . The board of supervisors of each county shall annually, at the time of levying other taxes, levy a county school tax of a rate not less than a rate sufficient to raise the said minimum amount of money less the amount of money received by the county for school purposes from the state and other sources, and in addition a rate on the property of any district or districts in which an additional amount has been asked for; said tax shall be added to the county tax and collected in the same manner. That portion levied for county school purposes shall be paid into the county treasury to the credit of the county school fund for the support of the common schools. Such additional portion as has been levied for school purposes in a particular district shall be paid into the school fund of such district. (Arizona: Revised Statutes, 1913, p. 946)

ARKANSAS

Sec. 7590 The electors of every school district shall, when lawfully assembled in annual school district meeting with not less than five electors present, have the power, by a majority of the votes cast at such meeting, . . . to determine what amount of money shall be raised by tax on the taxable property of the district, sufficient, with the public school revenues apportioned to the district, to defray the expenses of a school for three months, or for any greater length of time they may decide to have a school taught during the year; provided, no tax for the purpose aforesaid greater than seven-tenths of one per cent on the assessed value of the property of the district shall be levied; and provided further, they may if sufficient revenue cannot be raised to sustain a school for three months during any one year, determine by ballot that no school shall be taught during

such year, in which case the revenue belonging to such district shall remain in the treasury to the credit of such school district; eight, to repeal and modify their proceedings from time to time. (Arkansas: Statutes, 1911, p. 638)

CALIFORNIA

Sec. 1817 The county superintendent of every county, and of every city and county, must, at least fifteen days before the first day of the month in which the board of supervisors of such county, or city and county, is required by law to levy the amount of taxes required for county, or city and county purposes, to furnish to the board of supervisors and to the auditor, respectively, an estimate in writing of the minimum amount of county or city and county school fund needed for the next ensuing school year . . .

But in no case shall the rate of tax levied for county, or city and county, school purposes in any one year exceed fifty cents on each one hundred dollars of taxable property in the county, or city and county.

Sec. 1840 The board of school trustees or board of education of any school district or of any city may, at least fifteen days before the 1st day of the month in which the board of supervisors is required by law to levy the taxes required for county purposes, submit to the county superintendent of schools an estimate of any amount of money in excess of the amounts derived from the state and county funds which will be required for the maintenance of any school or schools in their several districts for the ensuing school year. The county superintendent of schools shall thereupon examine said estimates and submit copies of the same with his approval or disapproval endorsed thereon to the board of supervisors and to the county auditor at the time he submits to them his estimate for the county school tax for the ensuing school year. If the county superintendent of schools approve such estimate the said board of supervisors may at the time and in the manner of levying other taxes levy and cause to be collected in the several school districts for which estimates have been submitted and approved as herein provided, the excess amounts so estimated and approved. The funds so levied and collected shall be known as the special school fund of . . . school district (as the case may be) and shall be available for any and all of the purposes for which the school funds derived from the state and county may be used and the moneys drawn from it shall be paid out in the same manner as state and county school funds are paid; provided, this section shall not be so construed as to repeal sections eighteen hundred and thirty to eighteen hundred and thirty-nine, inclusive of this code. (California: Kerr's Cumulative Supplement Annotated, 1906-1913, p. 238-39)

COLORADO

Sec. 5893 The county commissioners shall, at the time of levying the tax for county purposes, cause to be levied a tax for the support of the schools within the county, of not less than two (2) mills on the dollar, of the assessed value of all taxable property, real and personal, within the county, which tax shall be collected by the county treasurer at the same time, and in the same manner, as state and county taxes are collected, except

that it shall be receivable only in cash. . . . It is hereby made the duty of the county commissioners to increase the minimum rate of two (2) mills, to what shall be required for the purpose as stated as above; provided, that such tax levy shall in no case exceed five (5) mills; provided, further if any school district shall fail to certify a special tax for other expenses of the district necessary to maintaining a public school each year, as provided for in section 77, the county commissioners shall cause the same to levied.

Sec. 5895 On or before the day designated by law for the commissioners of each county to levy the requisite taxes for the then ensuing year, the school board in each district shall certify to the board of county commissioners a statement showing the aggregate amount, which, in the judgment of said school board, it is necessary to raise from the taxable property of said district, to create a special fund for any of the purposes specified in section 51 of this chapter; said statement shall also show the items composing said aggregate and the purpose to which it is intended to devote each sum so itemized. It shall thereupon be the duty of the county commissioners to levy, at the same time that other taxes are levied, such rate, within the limits allowed by law, as will produce the aggregate amount so certified. The amount of such special tax, which shall be assessed to each taxpayer of such district, shall be placed in a separate column of the tax book, which shall be headed "special school tax;" provided, in the case of districts of the third class no higher rate than twenty mills per dollar shall be levied. There shall also be a column in said tax book in which shall be designated the number of the school district in which the property is listed. This tax shall be collected in cash only and placed to the credit of the proper district as fast as collected and the amount placed to the credit of each district shall be reported to the secretary of such district at the end of every month, and shall be subject to the order of the district board. It is hereby made the duty of the county assessor and county treasurer to so arrange their tax schedules and books as to conform to the above provision; provided, that the county assessor shall list all property, both real and personal, in the school district in which the same may be on the first day of May. (Colorado: Statutes Annotated, v. 4, p. 3744-46)

CONNECTICUT

Sec. 10. The expenses of maintaining public schools which shall be incurred with the approval of the town school committee shall be paid by the town treasurer on orders drawn by the town school committee, except so far as they may be met by the income from local school funds. Such orders may be signed by such persons on behalf of the school committee as the committee by by-law or special vote, certified by the secretary to the town treasurer, may provide, and in the absence of such by-law or special direction by the secretary. (Connecticut: Public Acts, 1909, p. 1074)

Sec. 1 Section 2177 of the general statutes is hereby amended to read as follows: Every school district shall be a body corporate, and shall have power to sue and be sued, to purchase, receive, hold, and convey real and personal property for school purposes; to build, purchase, hire, and repair schoolhouses, and supply them with fuel, furniture, and other appendages

and accommodations; to establish schools of different grades; . . . to lay taxes and borrow money for the foregoing purposes; and to make agreements and regulations for establishing and conducting schools, not inconsistent with the regulations of the town having jurisdiction of the schools in such district. (Connecticut: Public Acts, 1915, ch. 172, p. 2002)

DELAWARE

Sec. 2292 It shall be the duty of the school committees of the several school districts for white children in the State, to make assessment lists for their respective districts. . . .

It shall be the duty of the school commissioners in each of the districts aforesaid, annually, in the month of July, to assess and levy without regard to any vote thereon, in each of their respective districts, that is to say; in each of the school districts in New Castle county the sum of one hundred dollars; in each of the school districts in Kent county the sum of one hundred dollars, and in each of the school districts in Sussex county, the sum of sixty dollars, to be applied to the support of the schools of their districts respectively. (Delaware: Revised Code, 1915, p. 1106-7)

FLORIDA

Sec. 347 Each board of public instruction is directed: . . .

Fourteenth. To prepare on or before the last Monday in June of each year, an itemized estimate showing the amount of money required for the maintenance of the necessary common schools of their county for the next ensuing scholastic year, stating the amount in mills on the dollar of taxable property of the county, which shall not be less than three or more than seven mills, and furnish a copy of the statement to the assessor of taxes of the county, and file a copy in the office of the board of public instruction; and the assessor shall assess the amount so stated, and the collector shall collect the amount assessed and pay over the same monthly to the county treasurer who is also by law school treasurer, to be used for the sole benefit of the public schools.

Sec. 399 Each county shall constitute a school unit; all subdivisions of a county for school purposes shall be designated as school districts; all school districts levying a school district tax, shall hereafter be designated as special tax school districts, and all schools receiving any district tax, as special tax schools. (Florida: Compiled Laws, 1914, v. I, p. 128, 130, 144)

GEORGIA

Sec. 1534 . . . Whenever the citizens of any county wish to supplement the public school fund received from the State by levying a tax upon the property of the county, it shall be the duty of the ordinary to order an election not earlier than twenty days, nor later than sixty days, after receiving a petition of one-fourth of the qualified voters of the county, unless the number of qualified voters in a county shall exceed five thousand, in which event the ordinary shall order the election after receiving a petition of one-tenth of the said voters; and notice of the same shall be published in

at least three weekly issues of the county newspaper in which legal advertisements of the county are published.

If the election is carried for local taxation, the ordinary or board of county commissioners, whichever levies the county tax, shall levy a local tax as recommended by the county board of education, or such board of public education, whether established by a general or a local law, as has control of the public schools of the county, upon all the property of the county, not to exceed one-half of one per cent, and the same shall be collected by the tax collector and paid by him to the county board of education, or such board of public education, whether established by a general or a local law, as has control of the public schools of the county. (Georgia: Laws, 1916, no. 284, p. 37-38)

IDAHO

Sec. 129 (a) The board of trustees of an independent school district shall have power and it is its duty: . . .

s To levy a special tax, if necessary, which, when added to money apportioned by the county superintendent of schools, will be sufficient to provide funds for the maintenance of the schools for nine (9) months in each year. The special taxes levied by said board of trustees for the payment of interest on bonds and sinking fund, for payment of bonds at maturity, together with the levy for the maintenance of schools, shall not exceed ten (10) mills on the dollar of the assessed valuation of all property in the district: provided, that the state board of education may authorize a particular district to increase its levy to fifteen (15) mills upon a showing of financial conditions that in the opinion of the said board justifies such increase: and provided further, that districts maintaining rural school routes may levy an additional tax of not to exceed four (4) mills for the support of such rural routes. (Idaho: Session Laws, 1917, ch. 59, p. 179-80)

Sec. 99 The board of county commissioners of each county is this State must levy annually upon all the taxable property of said county a tax for general county purposes, . . . and upon the same property and for the same year the board must also levy a tax for general school purposes, to be collected and paid into the county treasury and apportioned to the county school fund, which levy shall be sufficient to raise a minimum sum of fifteen dollars (\$15) per capita of school enumeration. (Idaho: Session Laws, 1917, ch. 170, p. 503-4)

ILLINOIS

Sec. 189 For the purpose of establishing and supporting free schools for not less than six nor more than nine months in each year and defraying all the expenses of the same of every description; for the purpose of repairing and improving school houses, of procuring furniture, fuel, libraries and apparatus, and for all other necessary incidental expenses in each district, village or city, anything in any special charter to the contrary notwithstanding, the directors or the board of education and the authorities of such village or city, as the case may be, shall be authorized to levy a tax annually upon all the taxable property of the district, village or city, not to exceed, except as hereinafter stated, one and one-half per cent for educational, and one and one-half per cent for building purposes upon the valuation to be

ascertained by the last assessment for state and county taxes. . . . But if the board of education, in any district having a population of not less than one thousand and not over one hundred thousand inhabitants, and not governed by any special act in relation to free schools now in force by which no tax limit is imposed, shall desire to levy in any one year more than one and one-half per cent, but not more than two per cent, for educational purposes, such board may, by resolution stating the percentage so desired, cause a proposition for an assent thereto to be submitted to the voters of such district at any general school election, or at a special election called for that purpose, and if at such election a majority of the votes cast on said proposition shall be in favor thereof, the board of education of such district may thereafter, until such authority is revoked in like manner, levy annually for educational purposes, a tax in excess of one and one-half per cent, but not exceeding the percentage mentioned in said proposition, and for building purposes such a percentage that the aggregate levy shall not exceed three per cent. (Illinois: Revised Statutes, 1915-16, p. 2387)

INDIANA

Sec. 6443 That the school trustees of the several townships, towns and cities shall have power to levy annually a tax not exceeding fifty cents on each one hundred dollars of taxable property and twenty-five cents on each taxable poll, which tax shall be assessed and collected as the taxes of the state and county revenues are assessed and collected, and the revenues arising from such tax levy shall constitute a supplementary tuition fund, to extend the terms of school in said townships, towns and cities after the tuition fund apportioned so such townships, towns and cities from the state tuition revenues shall be exhausted. (Indiana: Burns's Annotated Statutes, 1914, v. 3, p. 297)

Sec. 12 The trustees of the several townships, towns and cities, shall have the power to levy a special tax, in their respective townships, towns or cities, for the construction, renting or repairing of schoolhouses, providing furniture, school apparatus, and fuel therefore, and for the payment of other necessary expenses of the school, including tuition and teachers' salaries, whenever in any current year the tuition funds shall have been exhausted; but no tax shall exceed the sum of seventy-five (75) cents on each one hundred dollars (\$100) worth of taxable property, and one dollar (\$1) on each poll, in any one year, and the income from said tax shall be denominated the special school revenue. (Indiana: Laws 1917, ch. 126, p. 408)

IOWA

Sec. 2807 The board of supervisors shall at the time of levying taxes for county purposes levy the taxes necessary to raise the various funds authorized by law and certified to it under this chapter, but if the amount certified for any such fund is in excess of the amount authorized by law it shall levy only so much thereof as is authorized by law. If a schoolhouse tax is voted at a special meeting and certified to said board after the regular levy is made, it shall at its next regular meeting levy such tax and cause the same to be forthwith entered upon the tax list to be collected

as other school taxes. It shall also levy a tax for the support of the schools within the county of not less than one one nor more than three mills on the dollar on the assessed value of all the taxable property within the county. (Iowa: Code Annotated, 1897, p. 957)

KANSAS

Sec. 8913 The inhabitants qualified to vote at a school meeting lawfully assembled shall have power: . . . Fifth, to vote a sum annually not exceeding the limit fixed by law, as the meeting shall deem sufficient, for the various school purposes and for the payment of any floating indebtedness of the district, and distribute the amount as the meeting shall deem proper in the payment of teachers' wages, and to purchase or lease a site (provided, when not included within the limits of a town or village, said site shall not contain less than one acre), and to build, hire or purchase such schoolhouse, and to keep in repair and furnish the same with the necessary fuel and appendages, and to pay any floating indebtedness of the school district; sixth, to authorize and direct the sale of any schoolhouse, site or other property belonging to the district when the same shall not longer be needful for the use of the district, seventh, to give such direction and make such provisions as may be deemed necessary in relation to prosecution or defense of any suit or proceedings in which the district may be a party.

Sec. 8980 It shall be the duty of the school district clerk to certify to the county commissioners of their respective counties, on or before the 25th day of July, annually, the aggregate amount by them determined in each district to be necessary for school purposes. Upon the receipt of such certification the county commissioners shall, on or before the first Monday in August, annually, levy on the real and personal property in each district, as returned by the assessment roll of the county, a percentage which will produce an amount equal to and not exceeding by more than five per cent the amount certified by the district clerk: provided, however, no levy shall exceed four and one-half mills. And the county clerk is hereby authorized and required to place the same on the tax roll of said county, in a separate column or columns, designating the purpose for which such taxes were levied; and the said taxes shall be collected by the county treasurer and paid over to the treasurers of the respective school districts in the county, with the same power and restrictions and under the same regulations and in all respects as to the sale of real or personal property. He shall be authorized and he is hereby required to act according to the provisions and requisitions of the law for the collection of taxes for state and county purposes. (Kansas: General Statutes, 1915, p. 1804, 1817)

KENTUCKY

Sec. 129 It shall be the further duty of the county board of education to estimate and lay before the fiscal court of the county the educational needs of the county in accordance with such estimate, and said county shall levy a tax for school purposes not to exceed twenty cents on each hundred dollars of assessed valuation of property in the county and a capitation tax, not exceeding one dollar, and the sheriff shall then collect this tax as other State and county taxes are collected: provided, no tax for school purposes

shall be levied under this act upon property in cities and towns maintaining a first class system of public schools in which all grades are already taught to the satisfaction of the state board of education, and upon property in school districts which are made exempt as provided for in section 77 of this act. When the tax so levied shall have been collected by the sheriff of the county, he shall turn over to the county superintendent, who shall act as treasurer of the county board of education, the amount of money so levied and collected, and the county board shall expend the money so received in the building, improvement and equipment of schoolhouses, for the purchase and condemnation of necessary real estate, for the payment of teacher, purchasing, necessary supplies and the extension of the school term in the various subdistricts throughout the county, as in their judgment as a county board the needs of the individual schools for white and colored pupils demand. The county superintendent shall give such special bond as may be approved by the county court. No fund shall be paid out except on the order of the county board, signed by the chairman and countersigned by the secretary.

Sec. 130 Upon the petition of ten legal voters of any school subdistrict, the division board of education of any division shall submit to the legal voters of said subdistrict the question whether or not a tax shall be levied upon the taxable property in such subdistrict in any school year for "local school purposes;" an ad valorem tax may be so voted not to exceed twenty-five cents on each one hundred dollars of taxable property. (Kentucky: Acts, 1916, ch. 23, p. 229-30)

LOUISIANA

Sec. 2592 The police jurors of the several parishes, and the boards of trustees, councilmen, and legal representatives of cities, town and village (except the parish of Orleans) shall levy for the support of the public school of their respective parishes a tax for the public schools which shall not exceed the entire state tax, provided, that with this tax the whole amount of parish taxes shall not exceed the limit of parish taxation fixed by the constitution; and provided also, that no police jury of any parish shall levy for the support of its schools less than three mills on the dollar of the assessed valuation of the property thereof, unless the parish board of school directors of that parish certifies that the needs of the schools can be met by a smaller levy such taxes shall be paid to the school treasury of the parish or town where collected, monthly by the tax collector; provided towns not exempted under their charters, from the payment of parish taxes, and subjected to the same burden of taxation as the parishes are shall not pay this tax, for the same is included in the taxes imposed by the parish in which the town is situated.

Sec. 2594 A parish board of school directors as the governing body shall have authority to create at any time school districts composed of an entire parish, a ward, two or more wards, parts of two or more wards, part of an existing school district, parts of two or more existing school districts, or any other portion of a parish; and the parish board of school directors shall have exclusive authority to order, hold and conduct in any school district so created and named or any school district already created special elections for

the purpose of raising additional funds in aid of the public schools, or to be authorized to issue school bonds for the purpose of securing funds to be used in erecting and equipping school buildings, said elections to be held under the provisions of the constitution of the State of Louisiana and all laws governing such elections. (Louisiana: Marr's Annotated Revised Statutes, 1915, v. 1, p. 863-65)

MAINE

Sec. 16 Every town shall raise and expend, annually, for the support of common schools therein, exclusive of the income of any corporate school fund, or of any grant from the revenue or fund from the state, or of any voluntary donation, devise or bequest, or of any forfeiture accruing to the use of schools, not less than eighty cents for each inhabitant, according to the census by which representatives to the legislature were last apportioned, under penalty of forfeiting not less than twice nor more than four times the amount of its deficiency, and all moneys provided by towns, or apportioned by the state for the support of common schools, shall be expended for the maintenance of common schools established and controlled by the towns by which said moneys are provided, or to which said moneys are apportioned; but nothing in this section shall be so construed as to annul, or render void, the provisions made in section 21 of this chapter for the establishment and maintenance of union schools by adjoining towns. (Maine: Revised Statutes, 1916, p. 354-55)

MARYLAND

Sec. 26 The county board of education, each year, beginning with the year 1916, shall prepare, subject to the rules and regulations of the state board of education and on and with the advice of the county superintendent, an itemized and detailed school budget, showing the amount of money needed for permanent improvements and repairs, and for current repairs, furniture for old buildings, maintenance and support of the schools during the succeeding school year, also the estimated total amount that will be received from the state, which shall be used for paying teachers' salaries and purchasing textbooks, materials of instruction and school supplies; and finally the amount that will be needed to be raised by local taxation. This annual school budget shall be submitted in writing, not less than twenty days before the usual date for levying county taxes, to the board of county commissioners; at the same time a copy of this annual budget shall also be submitted to the board of county commissioners and to the state superintendent of schools. The board of county commissioners are hereby authorized, empowered, directed and required to levy and collect such tax upon the assessable property of the county as will produce the amount requested to be raised by local taxation in the annual budget of the county board of education. The amount requested in the annual budget of the county board of education for current repairs, furniture in old buildings, maintenance and support of the schools, for the succeeding school year, and to be raised by local taxation shall not hereafter in any year be less than a minimum tax, levied and collected, of 34 cents on each one hundred dollars (\$100) of the assessable property in the county. Provided that if in any county the tax levied and collected for the school year ending July thirty-first 1916, for cur-

rent repairs, furniture in old buildings, maintenance and support of the schools, was less than 34 cents on each one hundred dollars (\$100) of assessable property in the county, such county shall only be required to increase its total tax rate for the schools annually by 2 cents on each one hundred dollars (\$100) of the assessable property in the county, until the tax levied and collected for current repairs, furniture in old buildings, maintenance and support of the schools in any one school year, shall equal a minimum tax levied and collected of 34 cents on each one hundred dollars (\$100) of the assessable property of the county. Provided, further, that the total amount requested for any one school year by the county board of education for permanent improvements and repairs, current repairs, furniture in old buildings, maintenance and support of the schools shall not exceed a tax levied and collected of 40 cents on each one hundred dollars (\$100) of the assessable property in the county, unless the board of county commissioners shall approve and sanction such additional tax. Provided also that if the total amount requested for any one school year by the county board of education to be raised by local taxation exceeds a tax, levied and collected of 40 cents on each one hundred dollars (\$100) of the assessable property, in the county and such additional tax is not approved and sanctioned by the board of county commissioners, the county commissioners shall indicate in writing what item or items of the annual budget of the county board of education have been denied in whole or in part, and the reason for the denial in whole or in part of the respective items. Taxes so levied and collected shall be separately indicated on tax bills and tax receipts, and shall be known as the county school tax. Taxes so levied shall be collected as other taxes and shall be paid monthly to the treasurer of the county board of education in as nearly equal amounts as possible, beginning on or before the tenth of October of each year and continuing up to and including June; provided that taxes levied and collected for permanent improvements and repairs or special purposes may be required to be paid oftener, upon the order of the president and secretary of the county board of education to the board of county commissioners. All taxes received by the county board of education shall be expended by them in accordance with the items of their annual budget. Any sum of money which may have been specially levied and collected on any election or schoolhouse district for the educational purposes connected with such district shall be collected for and applied to the purpose so intended originally and shall be used for no other purpose; and if said funds have been used otherwise, they shall be returned and applied as aforesaid. (Maryland: Laws 1916, ch. 506 p. 1012-14)

MASSACHUSETTS

Sec. 22 Towns shall raise by taxation money necessary for the support of public schools. (Massachusetts: Revised Laws, 1902, v. 1, p. 469)

MICHIGAN

Sec. 20 The qualified voters of any school district when lawfully assembled at the first and at each annual meeting or at an adjournment thereof, or at any special meeting lawfully called, except as hereinafter provided, shall have power: . . .

Seventh, To determine the amount of money to be raised by tax for all school purposes, except as otherwise provided by law; the tax herein provided for, together with the one-mill tax, when collected and received by the treasurer shall be accounted for under the title of "General fund;" (Michigan: Public Acts, 1913, no. 230, p. 447-48)

Sec. 9919 It shall be the duty of the supervisor of the township to assess the taxes voted by every school district in his township, and also all other taxes provided for in this act, chargeable against such district or township, upon the taxable property of the district or township respectively, and to place the same on the township assessment roll in the column for school taxes, and the same shall be collected and returned by the township treasurer in the same manner and for the same compensation as township taxes. If any taxes provided for by law for school purposes shall fail to be assessed at the proper time, the same shall be assessed in the succeeding year. (Michigan: Howell's Statutes, 1912, v. 4, p. 3969-70)

MINNESOTA

Sec. 2916 The county auditor shall extend upon the tax lists of the county, in the same manner as district school taxes are extended, a tax of one mill on the dollar of the taxable property in each district, to be known as the county school tax, and be credited to the school district in which the property taxed is situated. The tax levied by school districts shall be known as the district school tax.

Sec. 2917 In common districts such district school tax shall not exceed fifteen mills on the dollar for the support of the schools, or ten mills for the purchase of school sites and the erection and equipment of schoolhouses; but in such districts in which such ten-mill tax will not produce six hundred dollars, a greater tax may be levied for school sites and buildings, not to exceed twenty-five mills on the dollar, nor six hundred dollars in amount. In common districts having less than ten voters the district school tax shall not exceed four hundred dollars. In independent districts school tax shall not exceed four hundred dollars. In independent districts no tax in excess of eight mills on the dollar shall be levied for the purpose of school sites and the erection of schoolhouses. In special districts such amounts may be levied as may be allowed by special law at the same time when the Revised Laws take effect. Provided, that in any common school district of this state in which there is now or shall hereafter be maintained a high school or a graded school, the district school tax for the support of schools may be not to exceed twenty-five mills on the dollar. (Minnesota: General Statutes, 1913, p. 648)

MISSISSIPPI

Sec. 4572 The board of supervisors are empowered to levy annually for public schools a tax upon the taxable property of the county, which is outside the limits of any separate school district, and may levy an additional poll-tax of not exceeding one dollar on each male inhabitant liable to pay a poll-tax; all to be collected as other taxes for general purposes, and at the same time, and to be paid into the county treasury to the credit of the school-fund; and such taxes shall be receivable only in lawful currency

of the United States, and shall be used for the maintenance of the public schools after the expiration of the four months required by the constitution. When two hundred qualified electors, outside of separate school districts, shall petition the board of supervisors to levy a certain tax for the extension of the school term of the county, the board of supervisors, within not less than twenty days nor more than forty days, shall submit the proposition to the qualified electors, outside of separate school districts, of the county at an election, and if a majority of those voting shall vote for the tax the board of supervisors shall levy the said tax, at the time other county taxes are levied, on all property in the county subject to taxation which is not situated within a separate school district, and shall continue from year to year to levy the same tax until another election is held, as is provided for in this section; provided, that boards of supervisors in those counties where the tax is now being levied shall have the power to continue levying the tax without an election. And every municipality, being a separate school district, may in like manner levy and collect such taxes for the maintenance of schools. (Mississippi: Code, 1906, p. 1242-43)

Sec. 4534 The mayor and board of aldermen of a municipality constituting a separate school district, or board of supervisors of unincorporated separate districts, in the manner heretofore provided, shall annually levy a tax sufficient to pay for fuel and other necessities for its public free schools, and shall make such levy of taxes as may be necessary to maintain the schools, after the expiration of the four months' term provided for by the state, or to supplement during the four months for the funds distributed by the state. And such municipality or board of supervisors for unincorporated districts, in the manner heretofore provided for, may levy and collect taxes to erect and repair school buildings, and may issue bonds for that purpose, in the manner provided in the chapter on "Municipalities." (Mississippi: Laws, 1912, ch. 216, p. 315)

MISSOURI

Sec. 10845 The qualified voters assembled at the annual meeting, when not otherwise provided, shall have power by a majority of the votes cast: . . .

Fourth. To determine, by ballot, the length of school term in excess of eight months that the public schools of the district shall be maintained for the next scholastic year; also, to determine the rate, if any, in excess of forty cents on the one hundred dollars' assessed valuation to be levied for school purposes, as provided for in section 10796.

Sec. 10846 The board of directors of every school district is hereby empowered and required to continue the public school or schools in the district for a period of eight months in each scholastic year: provided, that when any district has levied for school purposes (teacher and incidental) the maximum levy as provided by law, and the funds so derived, together with the money on hand and the amount received from the public funds, are insufficient to maintain such school or schools for such a period, paying the teacher or teachers a maximum salary of forty dollars per month, then such district shall receive from the state treasurer a sufficient amount to make up this deficit. Any district making application for such state aid shall show that

it contains an area of not less than nine square miles, that it has an assessed valuation of forty thousand dollars or less, that it has an enumeration of at least twenty-five pupils of school age, and that it has made a levy of sixty-five cents on the one hundred dollars' valuation for school purposes, not more than twenty-five cents of said levy to be used for incidental purposes. (Missouri: Revised Statutes, 1909, v. 3, p. 3370-72)

MONTANA

Sec. 920 In addition to the provisions for the support of common schools, hereinbefore provided, it shall be the duty of the county commissioners of each county in the state to levy an annual tax of four mills on the dollar of the assessed value of all taxable property, real and personal, within the county which levy shall be made at the time and in the manner provided by law for the levying of taxes for county purposes, which tax shall be collected by the county treasurer at the same time and in the same manner as state and county taxes are collected. For the further support of the common schools, there shall also be set apart by the county treasurer all moneys paid into the county treasury, arising from all fines or violations of law, unless otherwise specified by law. Such money shall be forthwith paid into the county treasury by the officer receiving the same, and be added to the yearly school fund raised by taxing each county and dividing in the same manner.

Sec. 921 On or before the day designated by law for the commissioners of each county to levy the requisite taxes for the then ensuing year, the school board in each school district shall certify to the county commissioners the number of mills per dollar which it is necessary to levy on the taxable property of the district, not to exceed ten mills, to raise a special fund to maintain the schools of said districts, to furnish additional school facilities therefor, and to furnish such appliances and apparatus as may be needed, and, in districts of the first and second class, the trustees thereof must make such special levy, or so much thereof as may be necessary to maintain a school term of at least nine months in each year, and the county commissioners shall cause the same to be levied at the same time that other taxes are levied, and the amount of such special tax shall be assessed to each taxpayer of such district, and shall be placed in a separate column of the tax book, which shall be headed, "Special School Tax." (Montana: Revised Codes, 1915, v. 3, p. 143)

NEBRASKA

Sec. 6740 Trustees of each school district within the state of Nebraska shall, prior to the annual school district meeting in each year, as provided by law, prepare an estimate showing the amount of money required for the maintenance of schools during the coming school year, and shall determine the amount of money required for school maintenance during the coming school year, which shall be an amount sufficient to maintain a school in the manner and for the time provided by law, and the amount of money so required shall be levied as a tax upon all of the taxable property of the school district. . . . Provided the amount so levied shall not exceed in any one year three and one-half dollars on the one hundred dollar valuation as assessed and equalized. (Nebraska: Revised Statutes, 1913, p. 1881-82)

NEVADA

Sec. 139 The board of county commissioners of each county shall, annually, at the time of levying other county taxes, levy a county school tax, not to exceed fifty cents on each one hundred dollars valuation of taxable property, which tax shall be added to the county tax and collected in the same manner, and paid into the county treasury as a special deposit, to be drawn in the same manner, as other public-school moneys; and should said county commissioners fail or neglect to levy said tax as required it shall be the duty of the county auditor to add such tax as the superintendent of public instruction may deem sufficient, not exceeding fifty cents on each one hundred dollars valuation of taxable property in the county, to the assessment roll, to be collected as specified in this section. (Nevada: Statutes, 1915, ch. 269, p. 402-3)

NEW HAMPSHIRE

Sec. 1 The selectmen in each town shall assess annually, upon the polls and ratable estate taxable therein, a sum to be computed at the rate of (seven hundred and fifty) dollars for every dollar of the public taxes apportioned to such town, and so for a greater or less sum. (New Hampshire: Public Statutes and Session Laws, Supplement 1901-13, p. 165)

Sec. 2 The school board of each district in their annual report shall state in detail the sums of money which will be required during the ensuing fiscal year for the purchase of textbooks, scholars' supplies, flags, and appurtenances, and for the payment of the tuition of the scholars of the district in high schools and academies, in accordance with chapter 96 of the Laws 1901, and for the payment of all other statutory obligations of the district. The selectmen of the town, in their next annual assessment, shall assess upon the taxable polls and property of the district a sum sufficient to meet the obligations of the above enumerated and when collected shall pay the same over to the district treasurer. (New Hampshire: Laws 1915, ch. 68, p. 73)

NEW JERSEY

Sec. 95 The legal voters of each township, incorporated town or borough school district may, at any annual or special meeting of said legal voters, by the vote of a majority of those present, raise by a special district tax such sum or sums as a majority of said legal voters present as such meeting may agree upon. (New Jersey: Compiled Statutes, v. 4, p. 4755)

NEW MEXICO

Sec. 5 The board of county commissioners shall annually at the time of levying other taxes levy a special school tax upon all the taxable property of its respective county, which together with the other revenues provided by law shall produce sufficient revenue to support and maintain said schools in municipal school districts and in rural school districts where there is or is to be established a graded school with at least four teachers, for the full period of nine months, and in rural school districts for the full period of seven, eight or nine months in accordance with the estimates as made and finally passed upon for such districts. (New Mexico: Session Laws, 1915, ch. 79, p. 118)

NEW YORK

Sec. 346 1 The board of education of the town shall, within ten days after the first day of September in each year, cause the amounts specified in such tax budget and supplemental tax budgets, if any, to be levied and assessed against the taxable property within that portion of the town which is subject to the provisions of this article. The board of education shall immediately upon the completion of its tax list annex thereto a warrant for the collection thereof, which shall direct the collector of the town to collect the tax so levied and assessed and to pay over the amount thereof to the town school treasurer. (New York: Laws 1917, ch. 328, p. 1095)

NORTH CAROLINA

Sec. 4106a . . . (8) On or before the first Monday in June of each and every year the county board of education of each county shall ascertain the amount of money needed to maintain the public schools of such county for four months during the succeeding school year. (North Carolina: Gregory's Supplement to Pell's Revisal, 1913, v. 3, p. 652)

NORTH DAKOTA

Sec. 1222 Each district school board shall have power and it shall be its duty to levy upon all property subject to taxation in the district, a tax for school purposes of all kinds authorized by law, not exceeding in the aggregate a rate of thirty mills on the dollar in any one year; provided, that such board may in addition thereto whenever there are past due warrants outstanding in said district levy not to exceed fifteen mills additional in any one year. (North Dakota: Laws 1915, ch. 139, p. 177)

OHIO

Sec. 7586 Each board of education, annually, at a regular or special meeting held between the third Monday in April and the first Monday in June, shall fix the rate of taxation necessary to be levied for all school purposes, after the state funds are exhausted.

Sec. 7588 In all cases of special school districts lying wholly within one civil township, or if the special district lies in and is part of two or more civil townships of the same or different counties, or two or more special districts lie wholly or partly within one civil township, a tax for school purposes may be levied, not exceeding six mills, on the duplicate of all the taxable property in such township lying outside of all city and village school districts therein.

Sec. 7589 The funds raised from such levy shall be divided between the board of education of the township and of the special school district, or between the board of education of the township and the boards of education of the special school districts, as the case may be. (Ohio: Page and Adams Annotated General Code, p. 787-88)

OKLAHOMA

Sec. 7815 The county commissioners shall annually provide for a school tax, which shall be levied and collected as other taxes; and the money so

realized, together with the proceeds of all moneys collected from fines, forfeitures, escheats, penalties, proceeds from the sale of estrays, and all moneys collected from marriage licenses, shall constitute a county school fund, to be appropriated exclusively for the purpose of establishing and supporting public schools for not less than three nor more than nine months in each year, and defraying current expenses of the same of every description; and said county school fund shall be apportioned to each school district in said county in proportion to the number of children over the age of six years and under the age of twenty-one years, resident therein, as shown by the last annual enumeration of the same. The county treasurer shall pay to each district treasurer in the county all school moneys in the county treasury belonging to the district, upon the order of the director and clerk of the district: provided, that said order shall be accompanied by a certificate from the district clerk, stating that the treasurer of the district has executed and filed his bond as required by law.

Sec. 7829 It shall be the duty of the school district board to cause to be certified by the school district clerk to the county clerk of their county, on or before the second Monday in July, annually, the aggregate percentage by them levied on the real and personal property in each district, as returned on the assessment roll of the county; and the county clerk is hereby authorized and required to place the same on the tax roll of said county, in a separate column or columns, designating the purpose for which said taxes were levied; and the said taxes shall be collected by the county treasurer and paid over to the treasurers of the respective school districts in the county, with the same power and restrictions and under the same regulations and in all respects, as to the sale of real and personal property.

Sec. 7376 Except as otherwise provided in this article, the total levy for current expenses of each county, city, town, township or school district shall not exceed in any one year the following:

County levy, not more than five mills: Provided, that any county may levy not exceeding one mill additional in aid of the common schools of the county, and in any county where a county high school is located, an additional levy of not more than one mill may be made for the county high school; Provided, further, that where the assessed valuation of any county is less than four million dollars, the county levy shall not exceed six mills.

City levy, not more than seven mills.

Incorporated town levy, not more than five mills.

Township levy, not more than three mills.

School district levy, for the support of common schools, not more than five mills. (Oklahoma: Revised Laws, 1910, v. 2, p. 2126, 2130, 1909)

OREGON

Sec. 4042 For the purpose of creating a county school fund, the county courts of the several counties of this state are hereby required to levy, at the same time they levy other taxes, a tax for school purposes upon all the taxable property of the county, which aggregate an amount which shall produce at least \$7 per capita for each and all the children within the county between the ages of four and twenty, as shown by the then preceding school census, which shall be collected at the same time, in the same manner, and

by the same officers, as other taxes shall be collected; provided, that the per capita amount so levied in any county shall not be less than the per capita amount of the school tax levied in the county for the year 1903.

Sec. 4043 In case a district does not levy a special tax of at least five mills on the dollar for maintenance for the ensuing year or that will produce an amount sufficient to give the district for such maintenance the difference between \$300 and the amount received from the county school fund as provided for in section 4042, or fails to report the same to the county clerk and county school superintendent as required in section 4045, it shall be the duty of the county court of the county in which said district is located to levy, at the same time it levies other taxes, a tax on all the taxable property of said district that will produce an amount sufficient to give to the district for maintenance for the ensuing year the difference between \$300 and the amount received, or to be received by said district for the ensuing year, from the county school fund as provided for in section 4042; provided, that such levy by the county court shall not exceed five mills on the dollar. (Oregon: Lord's General Laws, 1910, v. 2, p. 1591)

PENNSYLVANIA

Sec. 501 All taxes required by any school district in this commonwealth, in addition to the State appropriations, shall be levied by the board of school directors therein.

Sec. 502 There shall be but one levy of school taxes made in each school district in each year, which shall be assessed, levied, and collected for all the purposes provided in this act, and shall be uniform throughout the territorial limit of each school district. (Pennsylvania: Laws 1911, p. 331)

RHODE ISLAND

Sec. 4 No town shall receive any part of such state appropriation, unless it shall raise by tax, for the support of public schools, a sum equal to the amount it may receive from the treasury for the support of public schools.

Sec. 13 The town treasurer shall, on or before the first day of July, annually, transmit to the commissioner of public schools a certificate of the amount which the town has voted to raise by tax for the support of public schools for the current year; and also a statement of the amount paid out to the order of the school committee, and from what sources it was derived, for the year ending the thirtieth day of April next preceding; and until such return is made to the commissioner, he may, in his discretion, withhold the order for the money in the state treasury belonging to such town. (Rhode Island: General Laws, 1909, p. 269, 272)

SOUTH CAROLINA

Sec. 1 Be it enacted by the general assembly of the state of South Carolina, That the existing county boards of commissioners of the several counties of the state, or such officer or officers as are vested with the same or similar powers, shall levy a tax of three mills on the dollar upon all the taxable property in their respective counties, which tax shall be collected at the same time and by the same officers as the other taxes for the year, and shall be held in the county treasuries of the respective counties and be paid out

exclusively for the support of the public schools as provided by law. (South Carolina: Acts 1916, no. 560, p. 973)

Sec. 1742 The voters or electors of any school district, who return real or personal property for taxation, are authorized to levy and collect an annual tax, to supplement any special or other constitutional or other tax for like purposes, in the following manner: upon the written petition or request of at least one-third of the resident electors and a like proportion of the resident freeholders of the age of twenty-one years, being filed with the county board of education, asking for the same and stating the rate of the tax levy proposed, which shall not exceed eight mills, the said county board of education shall order the board of trustees of said school district to hold an election at some place within the district, after giving notice of the time and place thereof. (South Carolina: Code of Laws, 1912, v. 1, p. 483)

SOUTH DAKOTA

Section 1 . . . Provided that at the annual school district election the electors shall have authority to instruct the board in matters pertaining to the management of the schools for the coming year. . . . At this meeting the electors may instruct the board and it shall be their duty to carry into execution all such instructions, pertaining to the branches to be taught in addition to those prescribed in section 138; the time at which the schools of the district shall be held; the amount of tax levy, to direct the repair of the school houses, fixtures and out buildings; and for the removal of the school house to a more convenient location, for the erection of a new one, or the sale of an old one, and the lands belonging thereto; and upon any other subject pertaining to the schools. (South Dakota: Compiled Laws, 1910, v. 1, p. 578)

TENNESSEE

Sec. 1393 A tax of one and a half mills on the dollar shall be, and is hereby, annually assessed upon all property subject to taxation, for the support of the public schools, which shall be collected as other taxes, and paid over to the county trustee in the county where collected, and distributed therein to each school district, according to scholastic population.

Sec. 1394 When the money derived from the school fund and taxes imposed by the state on the counties shall not be sufficient to keep up a public school for five months in the year, in the school districts in the county, the county court shall levy an additional tax sufficient for this purpose, or shall submit the proposition to a vote of the people, and may levy a tax to prolong the schools beyond the five months; said tax to be levied on all property, polls, and privileges liable to taxation, but not to exceed the entire state tax. (Tennessee: Code 1917, p. 583)

TEXAS

Art. 2836 The county commissioners' court shall at the time of levying the taxes for county purposes, also levy upon such school district the rate of tax said district has voted upon itself, or, if the proposition shall have been, "for a school tax not exceeding fifty cents on the one hundred dollars, valuation of taxable property in the district" the commissioners' court shall levy such a rate within that limit as shall have been determined by the board of trustees of said district and the county superintendent, and certified to said

court by the county superintendent. It shall be the duty of the tax assessor to assess said tax as other taxes are assessed and to make an abstract showing the amount of special taxes against each school district in his county, and to furnish the same to the county superintendent, on or before the first day of September of the year for which such taxes are assessed; and the taxes levied upon the real property in said districts shall be a lien thereon, and the same shall be sold for unpaid taxes in the manner and at the time of sales for state and county taxes. A special tax voted in any district after the levy of county taxes shall be levied at any meeting of the commissioners' court prior to the delivery of the assessment rolls by the assessor. The tax assessor shall assess, and the tax collector shall collect, said district taxes as other taxes are assessed and collected. (Texas: Vernon's Sayles' Civil Statutes, 1914, v. 2, p. 2016)

UTAH

Sec. 1891x27. The board of education shall on or before the first day of May of each year, prepare a statement and estimate of the amount necessary for the support and maintenance of the schools under its charge for the school year commencing on the first day of July next thereafter. . . . The board of education shall forthwith cause the same to be certified by the president and clerk of said board to the officers charged with the assessment and collection of taxes for general county purposes in the county in which the district is situated, and the board of county commissioners of the county in which the district is situated shall at the time of making the annual levy of other county taxes, levy such per cent as shall, as nearly as may be, raise the amount required by the board, which levy shall be uniform on all property within said district as returned on the assessment roll, and the said county officers are hereby authorized and required to place the same on the tax roll. (Utah: Laws 1915, ch. 78, p. 99)

Sec. 1891x Each county within the state shall constitute a county school district of the first class (Utah: Laws 1915, ch. 78, p. 99)

VERMONT

Sec. 141 A town shall annually appropriate for school purposes a sum not less than forty cents on the dollar of the grand list of the town school district, and any town raising a less sum shall not be entitled to any of the benefits other than supervision, under this act. (Vermont: Acts and Resolves, 1915, no. 64, p. 148)

VIRGINIA

Sec. 833-a The board of supervisors of each county shall have power, and it shall be their duty, at regular meeting in month of January in each year or as soon thereafter as practicable, not later than their meeting in April: . . .

Second. To levy a tax upon all the property in the county, upon which county levies are laid, sufficient to raise the amount recommended by the county school board in their estimates for county school purposes, or so much thereof as it may allow; and to levy a tax upon such property, in each school district, sufficient to raise the amount recommended by the county school board for district school purposes, or so much thereof as it may allow;

but the tax so levied shall not be less than the minimum nor exceed the maximum prescribed in the third subdivision of section fifteen hundred and six (Virginia: Code, 1916, v. 4, p. 244-45)

Sec. 1466 The duties of district boards of school trustees shall be, in general, as follows: . . .

Eighth. On or before the fifteenth day of May, in each year, to prepare and return to the president of the county school board, to be by him laid before the board at its earliest meeting, an estimate of the amount of money which will be needed in the district during the next school year for providing schoolhouses, textbooks for indigent children, and other school appliances, and necessary expenses. (Virginia: Code, 1904, v. 1, p. 798-99)

WASHINGTON

Sec. 4602 The county commissioners of the several counties of the state of Washington shall annually, at the time of making the tax levy for county purposes, levy a tax on all the property subject to taxation in their county, sufficient to produce the sum of ten dollars for each child of school age therein, as is shown by the certificate of the county superintendent hereinafter mentioned: provided, that such tax on said property shall in no case exceed five mills on each dollar, at the assessed valuation; such tax to be used for the support and maintenance of the public schools in such county.

Sec. 4605 In addition to the school revenues provided by sections 4600 and 4603, for the support of the common schools of this state, a tax may be levied upon all taxable property in each school district of this state, in the manner provided by law, and the funds thereby created shall be known as the "school district fund."

The "school district fund," together with the apportionment from the "current state school fund" and the county apportionments, shall constitute the "general school fund" of each school district. (Washington: Annotated Codes and Statutes, 1909, v. 2, p. 502-3)

WEST VIRGINIA

Sec. 2 Every magisterial district in each of the counties of the state shall be a school district, which shall be divided into such number of subdistricts as may be necessary for the convenience of the free schools therein. The present districts and subdistricts shall remain until changed in the manner prescribed by law.

Sec. 3 In each district there shall be a board of education consisting of a president and two school commissioners elected by the voters thereof. (West Virginia: Code, 1916, p. 556)

Sec. 3 At its session held on the second Tuesday in August, as aforesaid, the board of education of every district or independent school district shall ascertain the condition of the fiscal affairs of the district, and make up an itemized statement thereof, which shall set forth in detail: . . .

Said statement shall also set forth the separate amounts necessary to be raised for each of said funds by the levy of taxes for the current fiscal year, and the proposed rates of levy of taxes, in cents on each one hundred dollars of assessed value, in the taxable property of the district for each of said funds; and also the aggregate of the taxable property of the

district, stating separately the assessed value of personal property, of real estate, and of the property assessed by the board of public works. A copy of such statement duly certified by the secretary of the board, shall be published as provided in section two and posted in each post office in the district at least eight days before an adjourned meeting of the board to be held on the fourth Tuesday in August; at which time the board shall reconvene and proceed in all respects as provided in section two. After having entered the said statement, as finally approved, in its book of record of proceedings, the board shall thereupon levy as many cents on each one hundred dollars of the assessed valuation of the property of the district, according to the last assessment thereof, as will produce the amount shown by the said statement necessary to be raised for the building fund, and levy in like manner the amount as shown by said statement to be necessary for the teachers' fund to continue the schools in such district for the term of six months or for a longer term where such may be established by or according to law. (West Virginia: Code, 1916, p. 292)

WISCONSIN

Sec. 430 The inhabitants of any school district qualified by law to vote at a school district meeting when assembled at the first and at each annual meeting in their district or at any adjournment thereof in their district shall have power: . . .

(5) To vote such tax as the meeting shall deem sufficient to purchase or lease a suitable site for a schoolhouse, to build, hire or purchase a schoolhouse and to keep in repair and furnish the same with the necessary fuel and appendages.

(6) To vote such tax as the meeting shall deem proper for the payment of teachers' wages in the district.

SEC. 430-a The total amount of school district tax hereafter levied in any school district in this state in any one year for building, hiring or purchasing any school building, and for the maintenance of schools, including teachers' wages and incidental expenses, shall not exceed two per cent of the total assessed valuation of taxable property in such school district for the preceding year. (Wisconsin: Statutes, 1915, p. 255, 257)

WYOMING

Sec. 7 It shall be the duty of the board of county commissioners of each county to levy a general school tax upon all property within the county in an amount sufficient to raise three hundred dollars for each teacher within said county as certified to by the county superintendent of schools: provided, that said levy shall not exceed three mills upon the dollar. (Wyoming: Laws 1913, ch. 52, p. 44)

Sec. 9 The authority of the qualified electors of any school district at the annual meeting, to vote a tax for school purposes, is hereby limited to the extent that no tax shall be voted for such purposes which shall be in excess of three and one-half mills upon the dollar of all the taxable property of any such school district. Provided, that in no event shall any school district levy any greater tax than is reasonably necessary for the ensuing school year; and provided, further, that the question of an

increased levy above the limitation hereinbefore specified may be submitted by the district board of any school district to the electors of the district at the annual meeting or election. (Wyoming: Laws 1911, ch. 106, p. 179)

LAWS ON TOWNSHIP SYSTEM

CONNECTICUT

Sec. 1 . . . Every town in this state shall, from and after July 15, 1909, assume and maintain the control of all the public schools within its limits, and for this purpose every town shall be a school district, and shall have all the powers and duties of school districts, except in so far as such powers and duties are inconsistent with the provisions of this act.

Sec. 2 . . . All business concerning the public schools, including all heretofore necessary or proper to be transacted in district meetings, shall be transacted in town meetings. The annual town meeting shall be the annual school district meeting.

Sec. 3 . . . At its annual town meeting, every town which now has a board of school visitors shall elect by ballot three, six, nine, or twelve residents of the town as a school committee, who shall divide themselves in three classes to hold office from the time of their election until the expiration of one, two, and three years, respectively, from the day of their election. If the number to be chosen be three, the members thereof shall all be annually elected at the annual town meeting, and no person shall vote for more than two; the three persons receiving the highest votes shall be such town school committee. If the number to be chosen be six or twelve, no person shall vote for more than half that number. If the number be nine, no person shall vote for more than five. At every subsequent annual town meeting, two, three, or four members, as the case may be, shall be elected by ballot for the term of three years, to begin on the day of election; provided, that if the number of the committee is three the whole number shall be elected as above prescribed. If the number to be chosen be two or four, no person shall vote for more than half that number. If the number to be chosen be three, no person shall vote for more than two. Said school committee shall have power to fill vacancies in its membership until the next annual election, when such vacancies shall be filled for the remainder of the term by the town, by ballot. From the fifteenth of July, 1909, until the next annual town meeting, the school visitors and the chairman of the committees of the district within each town shall constitute a joint board, having the powers and duties of the school committees created by this act. After the aforesaid date no boards of school visitors shall be elected, and no district committees, except in districts organized under special acts, and in districts which retain their organization in the manner hereinafter provided. Any town may, at any time, vote to make the number of its school committee either three, six, nine, or twelve, and at each subsequent election one-third of the new number shall be elected in the manner above provided, but those heretofore elected shall remain in office until the expiration of their terms; provided, however, that in every town now constituting a consolidated school district the school committee shall be of the same number and shall be elected in the same manner as at present. (Connecticut: Public Acts, 1909, ch. 146, p. 1070-71)

Sec. 4 . . . Said school committee shall, in general, have all the powers and perform the duties both of district committees and board of school visitors, except so far as such powers and duties are inconsistent with the provisions of this act. They shall maintain in their several towns good common schools, of the different grades, at such places and times as in their judgment shall best subserve the interests of education, and as shall give all the scholars of the town as nearly equal advantages as may be practicable; they shall have charge of schools heretofore organized or maintained by their respective towns; they shall appoint a chairman and secretary, which secretary shall be chosen, either from their number, or from the citizens of the town in which they are elected, who shall respectively perform the duties and exercise the powers now pertaining to the chairman and secretary of the boards of school visitors; they shall appoint one or more acting visitors or a superintendent to exercise, under their discretion a supervision over schools; they shall have the care and management of buildings, lands, apparatus, and other property used for school purposes; they shall determine the number and qualifications of the scholars to be admitted into each school; they shall employ a requisite number of qualified teachers, but shall make no contract for a longer period than one year; they shall designate the schools which shall be attended by the various children within their several towns, and shall make such provisions as will enable every child of school age, residing in the town, who is of proper mental and physical condition, to attend some public day school for the period required by law, and they may provide for the transportation of children wherever transportation may seem reasonable and desirable, and they may arrange, if they see fit, with the committee of an adjoining town for the instruction therein of such children as can attend school in such adjoining town more conveniently; they shall report in detail to the annual town meeting concerning the expenditures on the schools of the towns during the year ending on the fifteenth day of the previous July, and also concerning their doings, and the condition of the schools under their superintendence, and they shall perform all lawful acts necessary to carry into effect the powers and duties granted by this act. (Connecticut: Public Acts, 1913, ch. 178, p. 1776-77)

Sec. 5 . . . The town clerk and treasurer of each town shall have, in addition to the powers and duties now imposed by law upon such officers, all the powers and duties, respectively, of the clerk and treasurer of a school district, except in so far as such duties are rendered unnecessary by the provisions of this act.

Sec. 6 . . . The records of the districts heretofore existing in each town shall be handed over to the town clerk of such town, and shall be preserved by the town.

Sec. 7 . . . All property heretofore held by school districts shall vest in the towns in which such districts are situated, to be held by such towns for school purposes. All debts, obligations, or pecuniary trusts of any school district, existing at the time of the passage of this act, shall remain in force against the town in which such district was situated, and shall be paid and performed by such town, except as hereinafter provided. The assessors of each town shall, on or before the thirtieth day of September, 1909, appraise the property of each school district within its limits. At the next annual town meeting after the passage of this act, an equalization tax shall be levied

upon the grand list of the town, equivalent to such a tax as would, in all districts of the town combined, raise an amount of money equal to the value of the property owned by such districts, less their indebtedness, and there shall then be abated to the taxpayers of each district so many mills of such equalization tax rate as upon that part of the grand list of the town taxable within such district would yield an amount of money equal to the appraised value of its property less the amount of indebtedness of the district. Any district shall have power to determine that any stated amount of its indebtedness shall not be devolved upon the town, but shall be owed by such district exclusively, as heretofore, and any town shall have this same power regarding the indebtedness of any district situated within its limits; provided, that, if action is taken, both by the town and by the district having such indebtedness, the vote stating the larger amount of indebtedness to be separately retained by the district and not devolved upon the town shall determine such amount; and provided, further, that this amount of indebtedness thus separately retained by the district shall not be deducted from the appraised value of its property in fixing the amount of the equalization tax to be abated for its taxpayers. Every school district shall remain separately and solely liable for any indebtedness or liability by it incurred previously to September 1, 1909, unless the amount of such liability or indebtedness shall be deducted, as aforesaid, from the appraised value of its property in fixing the amount of the equalization tax to be abated for its taxpayers. For the purpose of distributing the effect of the equalization tax upon its taxpayers over a number of years, any school district may borrow and pay to the town any part of the sum of money which the equalization tax rate would raise upon that part of the grand list of the town taxable within such district, and the sum so paid to the town shall be added to the appraised value of the property of the district in calculating the number of mills of the equalization tax rate to be abated to its taxpayers. The provisions of this section shall not apply in any town in which the parties in interest shall, on or before the first day of December, 1909, agree upon any other mode of equalizing the differences in property and indebtedness between the several districts of such town.

Sec. 8 . . . In the case of any school district the fractional parts of which belong to different towns, the selectmen of such towns shall have power, by mutual agreement, to appraise the property of said district and to apportion the property and debts of said district between the towns, and find the balance due from either of such towns to the other of such towns. Such agreement, in writing, shall be final and binding upon such district and towns. Whenever such selectmen shall fail to agree before the twentieth day of July, 1910, then, upon the application of either town, or any taxpayer of such district, any judge of the superior court shall appoint a committee which shall finally decide the matter on which the selectmen have thus failed to agree, and shall lodge their decision with the respective clerks of such towns, from which time their decision shall be binding upon such districts and such towns. The appraised value of the property and the amount of money thus acquired by any town, diminished by the amount of money paid to the other town, and by the amount of indebtedness of the district apportioned to the town, shall be remitted by the town to the taxpayers of the portion of such district within its limits collecting the equalization tax pro-

vided for in section seven, in the same manner as in the case of other districts entirely within the town.

Sec. 9 . . . No power of school districts or any officers thereof, except such as are reserved or given by this act, shall be exercised after July 15, 1909; but every school district then existing may preserve its organization and necessary powers for the purpose of closing and settling up its affairs, and especially for the purpose of managing and paying any of its indebtedness not devolved upon the town.

Sec. 10 . . . The expenses of maintaining public schools which shall be incurred with the approval of the town school committee shall be paid by the town treasurer on orders drawn by the town school committee, except so far as they may be met by the income from local school funds. Such orders may be signed by such persons on behalf of the school committee as the committee by by-law or special vote, certified by the secretary to the town treasurer, may provide, and in the absence of such by-law or special direction by the secretary.

Sec. 11 . . . This act shall not apply to any town which has a city or borough, or district organized under special acts of the legislature within its limits, unless such town shall vote to abolish school districts and assume control of the public schools therein. (Connecticut: Public Acts, 1909, ch. 146, p. 1072-74)

INDIANA

Sec. 6403 . . . The county superintendent and the trustees of the townships, and the chairman of the school trustees of each town and city of the county shall constitute a county board of education. Said board shall meet, semiannually, at the office of the county superintendent, on the first days of May and September (unless the said days be Sunday, and if so, on the day following), a majority of whom shall constitute a quorum. The county superintendent shall preside at the meetings of the board, and shall be allowed to vote on all questions as other members of the same are allowed to vote. Said board shall consider the general wants and needs of the schools and school property of which they have charge, and all matters relating to the purchase of school furniture, books, maps, charts etc. The change of textbooks, except in cities, and the care and management of township libraries, shall be determined by such board, and each township shall conform as nearly as practicable to its action; but no textbook, hereafter adopted by the county board, shall be changed within six years from the date of such adoption, except by unanimous vote of all the members of such board: provided, that any textbook, heretofore adopted by the county board of education, shall not be changed within three years from the date of its adoption.

Sec. 6404 . . . 1 Each and every township that now is, or may hereafter be organized in any county in this state, is hereby also declared to be a school township, and, as such, to be a body politic and corporate, by the name and style of "_____ school, _____ township of _____ county," according to the name of the township and of the county in which the same may be organized; and, by such name, may contract and may be contracted with, sue and be sued, in any court having competent jurisdiction.

Sec. 6405 . . . Each civil township and each incorporated town or city in the several counties of the state is hereby declared a distinct municipal cor-

poration for school purposes, by the name and style of the civil township, town or city corporation respectively, and by such name may contract and be contracted with, sue and be sued, in any court having competent jurisdiction; and the trustees of such township, and the trustees provided for in the next section of this act, shall, for their township, town or city, be school trustees, and perform the duties of clerk and treasurer for school purposes.

Sec. 6406 . . . The county auditor, in fixing the penalty and approving and accepting the bonds of such trustees, shall see to their sufficiency to secure the school revenues which may come into their hands, as well as the ordinary township or other revenues. In case of a vacancy in the office of trustee, the county auditor shall appoint a person to fill the same, who shall take an oath and give bond as required in the last preceding section; and said auditor shall report to the superintendent of public instruction the name and post-office address of each trustee.

Sec. 6407 . . . The school trustees of every township, incorporated town or city shall receive the special school revenue belonging thereto, and the revenue for tuition which may be apportioned to his township, town or city by the state for tuition or the common schools, and shall pay out the same for the purpose for which such revenues were collected and appropriated. Such trustees shall keep accurate accounts of the receipts and expenditures of such revenues, and shall render to the county commissioners annually, on the first Monday of August, for the school year ending on the 31st day of July, and as much oftener as they may require, a report thereof in writing. Said board of commissioners shall hold a session on said Monday to receive said reports. They shall clearly and separately state:

First. The amount of special school revenue, and of school revenue for tuition, on hand at the commencement of the year then ending.

Second. The amount of each kind of revenue received within the year, giving the amount of tuition revenue received at each semiannual apportionment thereof.

Third. The amount of each kind of revenue paid out and expended within the year.

Fourth. The amount of each kind of revenue on hand at the date of said report, to be carried to the new account, and shall, with said report, present and file a detailed account current of the receipts and payments for the year, and support the same by proper vouchers, which report and account current shall each be duly verified by affidavit, and when the said county commissioners are satisfied that said report is full, accurate and right in all respects, and that said account is just and true, they shall allow and pass the same, which shall have the effect to credit the trustee for the expenditures. A copy of said report, as passed and allowed by the county commissioners, shall, within ten days after its date, be filed by the trustee with the county superintendent of the county, and upon failure of the trustee to discharge any of the duties required of him relative to school and school revenues, the board of county commissioners shall cause suit to be instituted against him on his official bond, and in case of recovery against him, the court rendering the judgment shall assess upon the amount thereof ten per cent damages, to be included in said judgment.

Sec. 6408 . . . The trustees shall keep a record of their proceedings relative to the schools, including all orders and allowances on account thereof;

including, also, accounts of all receipts and expenditures of school revenue, distinguishing between the special school revenue belonging to their township, town or city, and the school revenue for tuition which belongs to the state, and by it apportioned to their township, town or city; which said revenue for tuition they shall not permit to be expended for any other purpose, nor even for that purpose in advance of its apportionment to their respective corporations.

Sec. 6409 . . . The township trustees and the school trustees of incorporated towns and cities shall, immediately after their annual settlements with the county commissioners, in October, make a full statement of all their receipts and expenditures, for the year preceding, relative to their schools.

Sec. 6410 . . . That the school trustees shall take charge of the educational affairs of their respective townships, towns and cities. They shall employ teachers, establish and locate conveniently a sufficient number of schools for the education of the children therein, and build, or otherwise provide, suitable houses, furniture, apparatus and other articles and educational appliances necessary for the thorough organization and efficient management of said schools. Such school trustees may also establish and maintain in their respective corporations, as near the center of the township as seems wise, at least one separate graded high school, to which shall be admitted all pupils who are sufficiently advanced: Provided, That the school trustees of two or more school corporations may establish and maintain joint graded high schools in lieu of separate graded high schools, and when so done they jointly shall have the care, management and maintenance thereof; Provided further, That any trustee, instead of building a separate graded high school for his township, shall transfer the pupils of his township competent to enter a graded high school to another school corporation: Provided further, That all payments of tuition, provided for under this act, heretofore made by school trustees for such high school privileges are hereby legalized: Provided further, That no such graded high schools shall be so built unless there are at the time such house is built, at least twenty-five common school graduates of school age residing in the township.

Sec. 6423 . . . It shall be the duty of the township trustees to provide for the education of such pupils as are affected by such or any former discontinuance in other schools, and they shall provide and maintain means of transportation for all such pupils that live at a greater distance than two (2) miles and for all pupils between the ages of six (6) and twelve (12) that live less than two (2) miles and more than one (1) mile from the schools to which they may be transferred, either within the township or in an adjoining township or school corporation, as a result of such discontinuance. In all townships where a school has been abandoned under the provisions of this act, the trustee shall provide for the transportation of all pupils of any other school of such township who live more than two (2) miles and all pupils between the ages of six (6) and twelve (12) that live more than one (1) mile from the school to which they are attached, whenever a majority of the patrons of such school petition the trustee to provide such transportation. Such transportation shall be in comfortable and safe conveyances. The drivers of such conveyances shall furnish the teams therefor and shall use every care for the safety of the children under their charge, and shall main-

tain discipline in such conveyances. Restrictions as to the use of public highways shall not apply to such conveyances. The expenses necessitated by the carrying into effect of the provisions of this act shall be paid from the special school fund.

Sec. 6423-*a* . . . That in all cases where a township has established a centralized school and has provided for the transportation of the school children of the township to such school, it shall be the duty of the township trustee of such township to provide for the transportation of pupils transferred from schools in adjoining townships when such pupils have been transferred to such township school and when such transportation will not necessitate any additional wagons or require an additional distance to be traveled in such transportation.

Sec. 6423-*b* . . . The township trustee having charge of the school from which such children are transferred shall pay to the township trustee of the township to which they are transferred, an amount equal to the per capita cost of transportation of the pupils of such township. (Indiana: Burns's Annotated Statutes, Revision of 1914, v. 3, p. 281-85, 290 and 291)

Sec. 6376 . . . The township trustees of each county of this state shall meet at the office of the auditor of their county on the first Monday in June, 1917, at ten o'clock a.m., and every four years thereafter, and elect by ballot a county superintendent for their county. (Indiana: Burns's Annotated Statutes, Revision of 1914, v. 3, p. 267)

MAINE

Sec. 1 The school districts in all towns in the state are abolished. Provided, however, that school districts organized with special powers by act of the legislature, may retain such organization and special powers;

Sec. 2 The location of any school legally established prior to the seventeenth day of March, 1893, continues unchanged, notwithstanding the district is abolished; but any town at its annual meeting, or at a meeting called for the purpose, may determine the number and location of its schools, and may discontinue them or change their location; but such discontinuance or change of location shall be made only on the written recommendation of the superintending school committee, and on conditions proper to preserve the just rights and privileges of the inhabitants for whose benefit such schools were established; provided, however, that in case any school shall hereafter have too few scholars for its profitable maintenance, the superintending school committee may suspend the operation of such school for not more than one year unless otherwise instructed by the town, but any public school failing to maintain an average attendance for any school year, of at least eight pupils, shall be and hereby is suspended, unless the town in which said school is located shall by vote, at the annual meeting, or at a meeting called for that purpose, after the said committee shall have made a written recommendation to that effect, instruct its superintending school committee to maintain said school. The superintendent of schools in each town shall procure the conveyance of all common school pupils residing in his town, a part or the whole of the distance, to and from the nearest suitable school, for the number of weeks for which schools are maintained in each year, when such pupils reside at such a distance from the said school as in the judgment of the superintending school committee shall render such convey-

ance necessary. Provided, however, that the superintending school committee may authorize the superintendent of schools, to pay the board of any pupil or pupils at a suitable place near any established school instead of providing conveyance for said pupil or pupils, when in their judgment it may be done at an equal or less expense than by conveyance.

Sec. 32 Every town shall choose by ballot at its annual meeting, a superintending school committee of three, to hold office as provided in the following section and shall fill vacancies arising therein at each subsequent annual meeting. No person is ineligible to the office of superintending school committee, on account of sex.

Sec. 33 School committees first chosen shall designate by lot a member or members to hold office for one, two and three years respectively, in manner as follows: one for one year, one for two years and one for three years; and they shall certify such designation to the town clerk to be by him recorded; and thereafterwards one member shall be chosen by ballot at the annual meeting of the town, to hold office for three years. Said committee may fill vacancies occurring between annual meetings, and the term of office of any member of the committee so chosen shall expire at the next annual meeting. No member of the superintending school committee of any town shall be employed as a teacher in any public school in said town.

Sec. 34 The provisions of the two preceding sections shall not apply to cities whose charters specify the methods of election and term of office of a superintending school committee or board of education; nor to towns, cities and incorporated districts authorized by private and special laws to choose school committees other than those herein provided for.

Sec. 35 A town failing to elect members of the superintending school committee as required by law forfeits not less than thirty, nor more than two hundred dollars.

Sec. 36 Superintending school committees shall serve without pay, unless otherwise voted by the town, but the superintendent shall receive for his services such sum as the town shall annually vote therefor, which sum shall in no case be less than two dollars a day for every day of actual service and necessary traveling expenses.

Sec. 37 The management of the schools and the custody and care, including repairs and insurance on school buildings, of all school property in every town, shall devolve upon the superintending school committee which shall annually, and as often as a vacancy shall occur, elect a superintendent of schools who shall not be a member of the committee, and, after the first day of July, 1916, no person shall be eligible to the office of superintendent of schools under the provisions of this section unless he shall hold a teacher's state certificate, or a state certificate of superintendence grade. After due notice and investigation the superintending school committee may for cause discharge a superintendent of schools and after protracted absence from duty on the part of said superintendent may declare a vacancy in his office. This section, so far as it relates to the manner of the election or employment of superintendents of schools shall not apply to cities, nor to towns authorized by special laws to employ or choose superintendents in manner otherwise than is herein provided.

Sec. 38 Superintending school committees shall perform the following duties:

I Direct the general course of instruction, and select a uniform system of textbooks, due notice of which shall be given; no textbooks thus introduced, shall be changed for five years unless by vote of the town; any person violating this provision shall forfeit not exceeding five hundred dollars, to be recovered in an action of debt by any school officer or person aggrieved. And when said committee have made such selection of school books, they may contract, under section 22, with the publishers for the purchase and delivery thereof; make such rules as they deem effectual for their preservation and return; or, if they are kept for sale, may regulate the sale and appoint an agent to keep and sell them, and fix the retail price, which shall be marked on the title page of each book.

II They shall make provision for the instruction of all pupils in schools, supported by public money or under state control, in physiology and hygiene, with special reference to the effects of alcoholic drinks, stimulants and narcotics upon the human system.

III After due notice and investigation, they shall dismiss any teacher, although having the requisite certificate, who proves unfit to teach, or whose services they deem unprofitable to the school; and give to said teacher a certificate of dismissal and of the reasons therefor, a copy of which they shall retain, and such dismissal shall not deprive the teacher of compensation for previous services.

IV Expel any obstinately disobedient and disorderly scholar, after a proper investigation of his behavior, if found necessary for the peace and usefulness of the school; and restore him on satisfactory evidence of his repentance and amendment.

V Exclude, if they deem it expedient, any person not vaccinated, although otherwise entitled to admission.

VI Prescribe the sum, on payment of which persons of the required age, resident on territory, the jurisdiction of which has been ceded to the United States, included in or surrounded by the town may attend school in the town.

VII Determine what description of scholars shall attend each school, classify them, and transfer them from school to school where more than one school is kept at the same time.

Sec. 55 The superintending school committee of two or more towns, having under their care and custody an aggregate of not less than twenty, nor more than fifty schools, may unite in the employment of a superintendent of schools, provided they have been so authorized by a vote of their towns at the regular town meetings, or special town meetings called for that purpose. Provided further that such union shall not take effect until the state superintendent of public schools shall have approved the certificate of union as hereinafter provided; the committee of any town dissatisfied with the decision of the state superintendent may appeal to the governor and council who shall make the final decision relative thereto. Provided further, that, whenever it appears to the state superintendent of public schools, upon the representation of the school committees of certain towns that, owing to geographical situation or other reasons it is to the advantage of the state and of the said towns that a union shall include fewer than twenty or more than fifty schools, said state superintendent of public schools may approve the certificate of such union, and a union so formed shall, except for the number of schools, be governed by the conditions herein prescribed for

unions of towns. A union of towns formed under the provisions of this section shall upon its first organization continue for a period of at least three years unless sooner dissolved by a two-thirds vote of the joint committee, but after the expiration of said three-year period any of the towns forming said union may at its annual meeting withdraw from said union and the remaining members may continue a union in accordance with the conditions herein prescribed as to the number of schools and upon the approval of a new certificate of union by the state superintendent of public schools. The joint committee of any union of towns may admit to said union any town or towns which have voted to join the said union; but such admission shall be subject to the conditions herein prescribed as to the number of schools and upon the approval of a new certificate of union by the state superintendent of public schools.

Sec. 56 The superintending school committees of the towns composing a union shall form a joint committee, and for the purposes of this section and the four following sections, said joint committee shall be held to be the agents of each town composing the union. Said joint committee shall meet annually at a day and place agreed upon by the chairman of the committees of the several towns composing the union, and shall organize by the choice of a chairman and a secretary. They shall determine the relative amount of service to be performed by the superintendent in each town, including the minimum number of visits to be made each term to each school, fix his salary, apportion the amounts thereof to be paid by the several towns, which amounts shall be certified to the treasurers of said towns, respectively and to the state superintendent of public schools, together with the amount apportioned to each town; provided, that the amount so certified shall be in proportion to the amount of service performed in the several towns. They shall choose by ballot a superintendent of schools for a term not exceeding five years, but the period of such election shall not exceed that for which the union of towns has been authorized. (Maine: Revised Statutes 1916, p. 351, 358-60, 364-65)

MASSACHUSETTS

Sec. 334 . . . The town shall likewise at its annual meeting or at a meeting held in the same month in which the annual meeting occurs, choose members of the school committee, which committee shall consist of any number of persons divisible by three which said town has decided to elect, one-third thereof to be elected annually, and to continue in office three years. If a town fails or neglects to choose such committee, an election at a subsequent meeting shall be valid, and the town may, at its annual meeting, vote to increase or diminish the number of its school committee; and any town in which ballots for town officers are provided at the expense of the town may vote so to change the number of its school committee at a meeting, other than the annual meeting, called for the purpose and held thirty days at least before the annual meeting at which such change is to become operative. Such increase shall be made by adding one or more to each class, to hold office according to the tenure of the class to which they are severally chosen. Such diminution shall be made by choosing, annually, such number as will in three years effect it, and a vote to diminish shall remain in force until the diminution under it is accomplished.

Women shall be eligible as overseers of the poor and school commissioners.

Sec. 15 . . . For conveying pupils to and from the public schools, or, if it maintains no high school or public school of corresponding grade but affords high school instruction by sending pupils to other towns, for the necessary transportation expenses of such pupils, the same to be expended by the school committee in its discretion.

Sec. 31 . . . The school committee may dismiss any teacher from employment, and he shall receive no compensation for services rendered after such dismissal.

Sec. 32 . . . The school committee may elect a teacher who has served as such in the public schools of its city or town for not less than one year to serve as such at the pleasure of the committee.

Sec. 33 . . . If there is no superintendent of schools, the school committee or one of more of its members shall, for the purpose of organizing and making a careful examination of the schools and of ascertaining that the pupils are properly supplied with books, visit all the public schools in its town on a day during the first week after the opening of each term of such schools, and on a day during the two weeks preceding the close of the same, and also, without giving previous notice thereof to the instructors, once in each month; and they shall, at such examinations, inquire into the regulation and discipline of the schools and into the habits and proficiency of the pupils.

Sec. 34 . . . The school committee shall direct what books shall be used in the public schools, and shall prescribe, as far as is practicable, a course of studies and exercises to be pursued therein. Such exercises may, at the discretion of the committee, include calisthenics, gymnastics and military drill; but no special instructors shall be employed therefor except by a two-thirds vote of the committee. No pupil shall be required to take part in any military exercise if he, his parent or guardian notifies the committee that he or his parent or guardian has conscientious scruples against such exercise, or believes that it would be injurious to his health.

Sec. 35 . . . The school committee shall, at the expense of the town, purchase textbooks and other school supplies used in the public schools, and, subject to such regulations as to their care and custody as it may prescribe, loan them to the pupils of such schools free of charge, and, if instruction is given therein in the use of tools and in cooking, may so purchase and loan the tools, implements and materials necessary therefor.

Sec. 36 . . . In a city which, by vote of the board of aldermen, and in a town which, by a vote of the inhabitants at an annual town meeting, accepts the provisions of this section or has accepted the corresponding provisions of earlier laws, the school committee shall make regulations with reference to the care, custody and distribution of books and supplies so loaned, and may provide for the continued use of any textbooks by such pupils throughout any grades. Such pupils may, if the school committee so votes, purchase from such city or town, at such time and place as the school committee designates, at not more than the cost price to such city or town, any textbooks which are or are to be used by them in the public schools, and, if the committee so votes, pupils who complete two years, in any public school in grades more advanced than the fourth grade may, upon graduating from the grammar school and upon application to the school committee, be permitted to acquire the permanent ownership of such three textbooks, used during the last year of their attendance in the school, as they may select.

Sec. 40 . . . The school committee of a city or town which is not within an existing union for the employment of a superintendent may, and after the first day of July in the year 1902 shall, at the expense of the city or town, employ a superintendent of schools, who, under the direction and control of the committee, shall have the care and supervision of the public schools. The compensation of the superintendent shall not be less than one dollar and fifty cents for each day of actual service, and shall be determined by the school committee.

Sec. 41 . . . Two or more towns may, by a vote of each, form a district **for the purpose of employing a superintendent of public schools therein.**

Sec. 42. . . . Such superintendent shall be annually appointed by a joint committee, composed of the chairman and secretary of the school committee of each of the towns in said district, who shall determine the relative amount of service to be performed by him in each town, fix his salary, apportion the amount thereof to be paid by the several towns and certify the same to each town treasurer.

Sec. 43 . . . The school committees of two or more towns the valuation of each of which is less than two million five hundred thousand dollars, and the aggregate number of schools in all of which is not more than fifty nor less than twenty-five, and the school committee of four or more towns the valuation of each of which does not exceed two million five hundred thousand dollars, without reference to the minimum limit in the aggregate number of schools aforesaid, may, and after the first day of July in the year 1902 shall, form a union for the purpose of employing a superintendent of schools. Such union shall not be dissolved for three years after the date of its formation except by a vote of a majority of the towns constituting the union, nor shall it be dissolved for the reason that the valuation of any one of the towns shall have so increased as to exceed two million five hundred thousand dollars, nor for the reason that the number of schools shall have increased beyond fifty, or, in a union of less than four towns, shall have decreased below twenty-five.

Sec. 44 . . . The school committees of such towns shall be a joint committee, which, for the purpose of such union, shall be the agents of each town therein. The joint committee shall annually, in April, meet at a day and place agreed upon by the chairman of the committees of the several towns comprising the union, and shall organize by the choice of a chairman and secretary. They shall choose, by ballot, a superintendent of schools, determine the relative amount of service to be performed by him in each town, fix his salary, apportion the amount thereof to be paid by the several towns and certify it to each town treasurer.

Sec. 45 . . . When the chairman and secretary of such joint committee certify to the auditor of accounts under oath, that a union has been effected, that the towns, in addition to an amount equal to the average of the total amount paid, or to the amount paid for each child, by the several towns for schools during the three years then last preceding, unitedly have appropriated and raised by taxation not less than seven hundred and fifty dollars for the support of a superintendent of schools, and that a superintendent of schools has been employed for one year, a warrant shall, upon the approval of the certificate by the board of education, be drawn upon the treasurer and receiver general for the payment of twelve hundred and fifty dollars,

three-fifths of which shall be paid for the salary of such superintendent, and two-fifths thereof shall be apportioned and distributed to the towns forming such union on the basis of the amount appropriated and expended for a superintendent in such towns for the preceding year and shall be paid for the salaries of teachers employed in the public schools therein.

Sec. 47 . . . Towns whose valuation exceeds the limit fixed by section 43 may participate in a union formed under the provisions of said section, in the same manner and subject to the same terms, conditions and benefits as towns having such limited valuation, except that the allowance by the commonwealth in aid of said union, as provided in the preceding section, shall not be made to the entire union, but shall first be apportioned to the several towns upon the basis of the amount appropriated by them respectively for the support of a superintendent of schools for the preceding year, and the warrant upon the treasurer and receiver general shall then be drawn in favor of and only for the portions so assigned to those towns of the union whose valuation at the time of said union did not exceed the limit provided in section 43.

Sec. 49 . . . Every town shall provide and maintain a sufficient number of schoolhouses, properly furnished and conveniently located for the accommodation of all children therein who are entitled to attend the public schools. A town which for one year refuses or neglects to comply with the requirements of this section shall forfeit not less than five hundred nor more than one thousand dollars, to be paid and applied as provided, in sections twenty-three and twenty-four. The school committee, unless the town otherwise directs, shall have general charge and superintendence of the schoolhouses therein, shall keep them in good order, and shall procure a suitable place for the schools, if there is no schoolhouse, and provide fuel and all other things necessary for the comfort of the pupils therein, at the expense of the town.

Sec. 51 . . . A town may, at a meeting called for the purpose, determine the location of its schoolhouses, and adopt all necessary measures to purchase and procure land therefor, as provided in sections 47, 48 and 49 of chapter 25. (Massachusetts: Revised Laws, 1902, v. 1, p. 184, 369, 471 and 474)

Sec. 1 . . . A town of less than five hundred families or householders, in which a public high school or public school of corresponding grade is not maintained, shall, through its school committee, when necessary, provide for the transportation of any child who resides in said town and who, with the previous approval of the school committee of the town, attends the high school of any other town or city, and shall pay for the expense of such transportation a sum not exceeding one dollar and fifty cents per week during the time of actual attendance of such child in the high school. If any town fails to provide such transportation, it shall be liable in an action of contract, to the parent or guardian of a child who has been furnished with such transportation for such amounts, not exceeding one dollar and fifty cents per week, as the parent or guardian has paid for the same. A town which has expended for the support of its public schools for the preceding year from the proceeds of local taxation an amount not less than four and less than five dollars per thousand dollars of valuation shall receive from the treasury of the commonwealth one-half of the amount actually expended

for transportation under the provisions of this act; and a town which has expended from the proceeds of local taxation for the support of its public schools for the preceding year an amount equal to at least five dollars per thousand of valuation shall receive from the treasury of the commonwealth the whole transportation under the provisions of this act. (Massachusetts: Acts and Resolves, 1913, p. 338-39)

Sec. 1 . . . For the transportation to and from a public school of any child whose tuition is payable by the commonwealth or by the city of Boston under the provisions of this section, the commonwealth or the city of Boston, as the case may be, shall pay to the city or town furnishing such transportation, for each week of five days or major part thereof, an amount equal to the average amount for each child paid by said city or town per week for the transportation of children to and from school over the route by which such child is conveyed. Settlements of the accounts of the several cities and towns with the commonwealth and with the city of Boston shall be made annually on the first day of April, and the amounts found due shall be paid within three months thereafter. (Massachusetts: Supplement to the Revised Laws, 1902-1908, p. 442)

Sec. 1 . . . The rates of fare charged by street or elevated railway companies for the transportation of pupils of the public day schools or public evening schools or private schools between a given point, from or to which it is necessary for them to ride in travelling to or from the schoolhouses in which they attend school and their homes, whether such schoolhouses are located in the city or town in which the pupils reside or in another city or town, shall not exceed one-half of the regular fare charged by such street or elevated railway company for the transportation of other passengers between said points, and tickets for the transportation of pupils as aforesaid, good during the days or evenings on which said schools are in session, shall be sold by said companies in lots of ten each. A railway company which violates the provisions of this section shall forfeit twenty-five dollars for each offence. (Massachusetts: Supplement to the Revised Laws, 1902-1908, p. 1042)

NEW HAMPSHIRE

Sec. 1 . . . Each town shall constitute a single district for school purposes, provided, however, that districts organized under special acts of the legislature may retain their present organization; and the word "town" wherever used in the statutes in connection with the government, administration, support, or improvement of the public schools shall be held to mean district.

Sec. 2 All districts legally organized shall be corporations, with power to sue and be sued, to hold and dispose of real and personal property for the use of the schools therein, to make necessary contracts in relation thereto.

Sec. 3 School districts may raise money to procure land for schoolhouse lots, and for the enlargement of existing lots; to build, purchase, rent, repair, or remove schoolhouses and outbuildings; to procure insurance; to plant and care for shade and ornamental trees upon schoolhouse lots; to provide suitable furniture, books, maps, charts, apparatus, and conveniences for schools; and to pay debts. School districts may at any legal meeting holden therein, by a majority of the legal voters present and voting at the meeting, authorize its school board to hire money for any of the purposes above mentioned of individuals living in the town in which such school

district is located at a rate of interest not exceeding five per cent per annum, and provide that all moneys thus loaned shall be exempt from taxation.

Sec. 1 Any school district may raise money for the purchase of suitable vehicles for the transportation of school children. (Laws 1911, ch. 46). (New Hampshire: Public Statutes and Session Laws, 1901-13, p. 168)

Sec. 2 The school board shall select and hire suitable and competent teachers, shall provide necessary fuel, and shall make such occasional repairs of the schoolhouses and furniture as may be necessary, not exceeding in cost five per cent of the school money.

Sec. 3 They may dismiss any teacher found by them to be immoral or incompetent or who shall not conform to the regulations prescribed; provided, however, that no teacher shall be so dismissed before the expiration of the period for which said teacher was engaged without having previously been notified of the cause of such dismissal, and provided, further, that no teacher shall be so dismissed without having previously been granted a full and fair hearing (New Hampshire: Public Statutes and Session Laws, 1901-13, p. 171, 172)

Sec. 5 The school board may prescribe regulations for the attendance upon, and for the management, studies, classification, and discipline of, the schools; and such regulations, when recorded by the district clerk, and a copy thereof has been given to the teachers and read in the schools, shall be binding upon scholars and teachers. (New Hampshire: Public Statutes and Session Laws, 1901, p. 298)

Sec. 6 They shall prescribe in all mixed schools and in all graded schools above primary, the studies of physiology and hygiene, having special reference to the effects of alcoholic stimulants and of narcotics upon the human system, and shall see that the studies so prescribed are thoroughly taught in said schools and that well approved textbooks upon these subjects are furnished to teachers and scholars, [and shall see that a well-prescribed reading course dealing with the principle of the humane treatment of the lower animals shall be included in the ordinary instruction in reading or otherwise.] [and that the constitution of the United States and of the state of New Hampshire] be read aloud by the scholars at least once during the last year of the course below the high school, and may permit or prescribe the study of algebra, geometry, surveying, bookkeeping, philosophy, chemistry, and natural history, or any of them, and other suitable studies.

Sec. 1 Two or more towns or special districts, or their school boards when duly authorized by their respective districts, may, by vote of each, form a supervisory district for the purpose of employing a superintendent of the public schools therein, who shall perform in each town the duties prescribed by law and by the regulations of the school boards, giving thereto his entire time. (New Hampshire: Public Statutes and Session Laws, 1901, p. 290)

Sec. 1 Any town or special district which has united, or may hereafter unite, with any other town or towns, district or districts, to form a supervisory district as provided by chapter 77 of the Laws of 1899, may at any annual school district meeting, by vote, rescind such action, and thereupon shall, at the end of the school year or at the expiration of the period for which such supervisory district may then already have contracted for the services of a superintendent, cease to be a part of such supervisory district. (New Hampshire: Public Statutes and Session Laws, 1901-13, p. 171)

Sec. 2 The school boards of the several districts forming the supervisory district shall constitute a joint committee which for all purposes of this act shall be the agent of each district therein represented. Said committee shall meet between April 1 and August 1 of each year, as may be agreed upon by the chairmen of the several boards, and organize by the choice of a chairman, a secretary, and a treasurer; it shall elect a superintendent for such supervisory district, determine the character and value of his services, and apportion the same among the several districts, certifying such apportionment to their respective treasurers. (New Hampshire: Public Statutes and Session Laws, 1901, p. 290)

Sec. 3 Any town or special district which shall unite with one or more districts to form a supervisory district which shall employ as superintendent, at an annual salary, a person holding a permanent state teacher's certificate and shall certify through its chairman and secretary such facts to the state treasurer, shall be entitled to one half its apportioned share of said salary, said sum to be paid by him in December of each year to the town treasurer of each town in said supervisory district, upon sworn statement of the state superintendent of public instruction certifying as to what amount each town is entitled. (New Hampshire: Public Statutes and Session Laws, 1901-13, p. 171)

Sec. 12 The officers of every school district for which the law does not otherwise provide shall be a moderator, a clerk, a school board of three persons, a treasurer, and one or more auditors, and such other officers and agents as the voters may judge necessary for managing the district affairs.

Sec. 13 While any district maintains a high school or unites with another district in maintaining one, it may have a school board consisting of three, six, or nine members, as it shall determine by vote of by-law. Whenever it ceases to maintain or to unite in maintaining a high school, it shall thereafter elect only one member to the school board each year to fill vacancies occurring from expiration of term of service, so that the board will decrease in numbers, year by year, until it shall be composed of only three members.

Sec. 16 One-third of the members of the school board shall be chosen each year to hold office for three years, and until their successors are chosen and qualified, and vacancies in the board shall be filled so as to preserve such succession in office. All other officers shall be chosen annually, and shall hold office for one year, and until their successors are chosen and qualified.

Sec. 24 A school district may require the school board to elect or appoint a superintendent of schools, who shall hold office for such term, be vested with such of the powers and charged with such of the duties of the school board, and be entitled to such compensation, as it may provide; and such district may raise and appropriate money to pay the compensation.

Sec. 1 Two or more towns or special districts may, by vote of each, form a district for the purpose of employing a superintendent of the public schools therein, who shall perform in each town the duties prescribed by law and the regulations of the school boards.

Sec. 2 Such superintendent shall be appointed by a joint committee composed of the school board of each of the towns in said district, who shall determine the relative amount of service to be performed by him in each town, and shall fix his salary and apportion the amount thereof to be paid by

the several towns, and certify such amount to the treasurer of each town. Said joint committee shall, for said purposes, be held to be the agents of each town composing such districts. (New Hampshire: Public Statutes and Session Laws, 1901, p. 292, 293, 294)

Sec. 19 The school board, upon satisfying the selectmen that they have attended to the duties and made the reports by law required, shall be paid such reasonable compensation as the town or selectmen may determine. (New Hampshire: Public Statutes and Session Laws, 1901, p. 302)

Sec. 1 At its annual meeting each school district shall determine and appoint the salaries of its school board and truant officer or officers, and the district clerk shall certify the same to the selectmen. (New Hampshire: Public Statutes and Session Laws, 1901-13, p. 173)

NEW JERSEY

Sec. 32 Each township, city, incorporated town and borough shall be a separate school district, but each incorporated village shall remain and be a part of the school district in which said incorporated village shall be situated at the time of its incorporation.

Sec. 77 In each township, incorporated town and borough school district, there shall be a board of education consisting of nine members, except as hereinafter provided; three members of such board shall be chosen at each annual school meeting and shall hold office for the term of three years. In case there shall be a vacancy in a board of education, such vacancy shall be filled at the next annual meeting after such vacancy occurs, and the person elected to fill such vacancy shall be elected for the unexpired term only.

Sec. 78 If the board of education in any school district created under the provisions of this article shall deem it for the best interests of the schools that the number of members constituting said board shall be reduced, the district clerk, when directed by said board, shall insert in the call for the next annual school meeting a notice that it will be determined at said meeting whether the number of members of the board of education shall be reduced to five or three. If it shall be determined at said meeting to reduce the number of members of said board to either five or three, the members of said board then in office shall continue in office for the terms for which they were severally elected, and their successors shall be elected in the manner following:

1 If it shall be determined at said meeting that the number of members of the board of education shall be reduced to five, no election for members of said board shall be held at said meeting. At the next annual school meeting two members of said board shall be elected for the term of three years, and at the second annual school meeting held after the meeting at which it was determined to reduce the number of members of the board of education to five, two members of said board shall be elected for the term of three years and one for the term of one year, and thereafter there shall be elected at each annual school meeting a member or members of said board, in the place of those whose terms shall have expired, who shall hold office for the term of three years.

2 If it shall be determined at said meeting that the number of members of the board of education shall be reduced to three, no election for members

of said board shall be held until the second annual school meeting held after the meeting at which it was determined to reduce the number of members of the board to three. At such second annual school meeting there shall be elected three members of said board to serve for one, two and three years respectively, and thereafter one member of said board shall be elected at each annual school meeting, in the place of the member whose term shall have expired, who shall hold office for the term of three years.

Whenever a new township, incorporated town or borough school district shall be created, there shall be held, at the ensuing annual school meeting, an election for members of the board of education. Before proceeding to ballot for such members of the board of education the legal voters present shall determine whether the board of education shall consist of three, five or nine members. If it shall be determined that the board shall consist of three members, then said legal voters shall elect one member to serve for the term of one year, one for the term of two years, and one for the term of three years. If it shall be determined that the said board shall consist of five members, the said legal voters shall elect one member to serve for the term of one year, two for the term of two years, and two for the term of three years. If it shall be determined that said board shall consist of nine members, said legal voters shall elect three members to serve for the term of one year, three for the term of two years, and three for the term of three years. Annually thereafter there shall be elected a person or persons for the term of three years in the place of the member or members whose terms shall have expired.

Sec. 79 An annual meeting for the election of members of the board of education shall be held in each township, incorporated town or borough school district on the third Tuesday in March at a schoolhouse or such other convenient public place within the district as may be selected by the board of education. Not less than seven notices of such meeting, specifying the day, time, object and place thereof, shall be posted by the district clerk at least ten days before the date of such meeting; one of such notices shall be posted on each schoolhouse within the district, and at such other public places therein as the board of education of said district shall direct. Any district clerk who shall fail to post notices calling said annual meeting as required by this section shall pay a fine of twenty dollars, to be recovered in a court for the trial of small causes by any resident of said school district. A plurality of the votes cast shall be sufficient to elect a member of a board of education.

Sec. 84 Each board of education elected as provided in this article shall be a body corporate, and shall be known as and called "the board of education of the (township, town or borough, as the case may be) of, in the county of" The title to school property, real and personal, previously acquired by a school district acting under the provisions of this article, or by any school district, board of education, school trustees or other body heretofore having charge and control of the public schools situated in the territory now contained in such school district or in any part thereof and the title to all lands, buildings and other property hereafter acquired for school purposes in said school district shall vest in the board of education incorporated under the provisions of this section.

Sec. 86 The board of education shall have power: 1 To appoint a person to fill a vacancy in the board of education, except a vacancy caused by a failure to elect, but the person so appointed shall serve only until the next election for members of the board of education;

2 To employ and dismiss principals, teachers, janitors, mechanics and laborers, and to fix, alter and order paid their salaries and compensation;

3 To make, amend and repeal rules, regulations and by-laws, not inconsistent with this act or with the rules and regulations of the state board of education, for its own government, for the transaction of business, and for the government and management of the public schools and the public school property in said district, and also for the employment and discharge of principals and teachers;

4 To purchase, sell and improve school grounds; to erect, lease, enlarge, improve, repair or furnish school buildings and to borrow money therefor with or without mortgage; provided, that for any such act it shall have the previous authority of a vote of the legal voters of the district;

5 To take and condemn land and other property for school purposes in the manner provided by law regulating the ascertainment and payment of compensation for property condemned and taken for public use. If either party shall feel aggrieved by any proceedings and award thereunder, said party may appeal in the manner provided by law for appeals from such proceedings and award; provided, that before beginning any proceedings for taking and condemning land and other property, the board of education shall have the authority of a vote of the legal voters of the district;

6 To insure school buildings, furniture and other school property, and to receive, lease and hold in trust for the district any and all real or personal property for the benefit of the schools thereof;

7 To enforce the rules and regulations prescribed by the state board of education, select the textbooks, and, in connection with the county superintendent of schools, to prescribe the course of study to be pursued in the school or schools under its charge;

8 To suspend or expel pupils from school;

9 To provide textbooks and other necessary school supplies;

10 To call a special meeting of the legal voters of the district at any time when in its judgment the interests of the schools require it, or whenever fifty of such legal voters shall request it by petition so to do. In the notice of any special meeting, called upon petition as aforesaid, shall be inserted the purposes named in said petition so far as the same are not in conflict with the provisions of this act. No business shall be transacted at any special meeting except such as shall have been set forth in the notices by which said meeting was called. Special meetings shall be called in the manner provided for calling the annual meetings;

11 To permit a schoolhouse to be used for other than school purposes when the board shall consent thereto;

12 To adopt an official seal by which all its official acts may be authenticated;

13 To make an annual report to the county superintendent of schools on or before the first day of August in the manner and form prescribed by the state superintendent of public instruction;

14 To borrow, after the first day of July and before the first day of January, a sum not exceeding one-half of the amount appropriated for the current expenses of the schools and for the repair of schoolhouses under its control, and to execute and deliver promissory notes therefor, and to pay the amount so borrowed together with interest thereon, at a rate not exceeding six per centum per annum.

Sec. 87 A board of education may, under such rules and regulations as shall be prescribed by the state board of education, appoint a suitable person as supervising principal of schools, define his duties and fix his salary; provided that no person shall be appointed supervising principal unless he or she shall hold either a state or first grade county certificate (and provided further that) nor until the necessity for the appointment of a supervising principal shall have been authorized in writing by the county superintendent of schools, and approved by the state superintendent of public instruction and the state board of education. The county superintendent of schools in making his annual apportionment of school moneys shall not apportion the amount allowed by law for a supervising principal unless the salary paid to such supervising principal shall amount, at least, to the sum of one thousand dollars per annum. The boards of education of two or more districts may unite in employing a supervising principal. The term of all supervising principals now in office shall end on June thirtieth next after the passage of this act, and none shall hereafter be appointed except in the manner provided by this act.

Sec. 88 No principal or teacher shall be appointed, transferred or dismissed, nor the amount of his salary fixed; no school term shall be determined, nor shall any course of study be adopted or altered, nor textbooks selected, except by a majority vote of the whole number of members of the board of education.

Sec. 89 The board of education of every school district elected under the provisions of this article, shall meet for the transaction of business at least once in two months during the period that the schools in said district shall be in session. No contract shall be entered into by a board of education, nor shall any bill or demand for money against such board be paid until the same shall have been presented and passed on at a regularly called meeting of the board.

Sec. 91 Every board of education organized under the provisions of this article shall, by the majority vote of all the members of such board, appoint a district clerk, who may be elected from among said members, and shall fix his compensation and term of employment.

Sec. 92 A member of a board of education elected under the provisions of this article who shall fail to attend three consecutive regular meetings of said board, without good cause, may be removed by said board, and the vacancy thus created shall be filled in the same manner as other vacancies in the board of education shall be filled.

Sec. 93 The boards of education in the several school districts in each county organized under the provisions of this article, shall meet together semiannually at such times and places as the county superintendent of schools shall appoint.

Sec. 94 A board of education may, in its corporate capacity, sue and be sued, complain and defend in any court of law and equity, and employ coun-

sel therefor, and the amount of the expense incurred by said board in conducting or defending any such suit shall be certified to the assessor by the president and district clerk of such board, and said amount shall be assessed and collected in the next annual tax levy.

Sec. 103 Whenever a township, incorporated town or borough school district shall desire to consolidate with an adjoining township, incorporated town or borough school district, the board of education of said district shall petition the county superintendent of schools of the county in which said district shall be situated, to appoint a time when meetings of the legal voters of the districts proposed to be consolidated shall be held, and said county superintendent of schools shall, upon receiving said petition, appoint a day for said meetings, and shall notify the board of education of each of said districts of his action. Each board of education receiving such notification shall cause its district clerk to post notices calling a special meeting of the legal voters of the district for the purpose of voting on the question of the consolidation of said districts. Said meeting shall be called in the same manner as other special meetings are called, and shall be held on the day designated therefor by the county superintendent of schools, at such hour and place as may be determined by the board of education. The election shall be by ballot, and the chairman shall appoint two tellers who shall receive and count the ballots in the presence of the chairman of the meeting. The secretary of the meeting shall keep a poll list and shall record therein the name of each person voting at such meeting, and shall also keep a tally sheet of the votes as counted by the tellers. The tally sheet shall be signed by the chairman and tellers, and said tally sheet, poll list and ballots shall be placed in a sealed package by the secretary, indorsed with the name of the district, the name of the county in which said district shall be situated, and the date on which said election shall have been held, and said package, together with a statement of the result of said election, signed by the chairman and secretary, shall be within five days after the date of said election forwarded by said secretary to the county superintendent of schools, and the same shall be preserved by him for one year. If the county superintendent of schools shall ascertain from said statements that the number of votes cast in each of said districts in favor of consolidation exceeds the number of votes cast against the same, he shall immediately notify each of the boards of education of the result of said election, and thereafter said districts shall constitute but one district.

Sec. 103a—sec. 1 Wherever in this state any township, incorporated town or borough school district has theretofore been consolidated with an adjoining township, incorporated town or borough school district, by an election of the legal voters of said township, incorporated town or borough school districts, so that at the time of the passage of the act to which this act is a supplement the same formed one combined or consolidated school district, and the legal voters of said district have not, since said time rejected a proposition to confirm or continue such consolidation at an election called for that purpose, and said district has been, since the passage of said act, maintained and governed as one consolidated school district, such district shall hereafter continue to exist as a single consolidated school district in the same manner as though said consolidated school district had been erected by an election of the legal voters of said district held in pursuance of section one hundred and three of said act.

Sec. 104 The board of education of each district consolidated in the manner provided in the preceding section shall, upon receipt of the notice from the county superintendent of schools of such consolidation, select by lot four of its number to serve as members of the board of education of the consolidated district, and the eight members so selected shall select the ninth member of said board from among the remaining members of the board of education of that district which shall employ the greater number of teachers; provided, that if the board of education of one of the districts so consolidated shall consist of but three members, all of said members shall be members of the board of education of the consolidated district, and four members of said board shall be chosen as hereinbefore provided from the board of education of the other district so consolidated; and provided further, that if each of said boards of education shall consist of three members only, said board shall constitute the board of education of the consolidated district, and the board constituted as hereinbefore provided shall serve until the next annual meeting for the election of members of boards of education, and the terms of office of the remaining members of the board of education of each of said districts so consolidated shall thereupon cease and determine. At said annual meeting a board of education shall be elected as provided for the election of members of boards of education in new township school districts.

Sec. 105 The board of education of such consolidated district shall be a body corporate and shall have all the powers and duties and be subject to the same restrictions as a board of education in a township school district, and shall be known as and called "the board of education of ——— of ——— (here insert the name of the municipality in which was situated that district consolidated as aforesaid which had the larger amount of taxable property as ascertained from the last published report of the state comptroller), in the county of ———." (New Jersey: Compiled Statutes, 1709-1910, v. 4, p. 4732, 4748-55, 4760-61)

Sec. 117 Whenever in any district there shall be children living remote from the schoolhouse, the board of education of such district may make rules and contracts for the transportation of such children to and from school. Nothing in this section shall be so construed as to prohibit a board of education from making contracts for the transportation of children to a school in an adjoining district when such children shall be transferred to said district by order of the county superintendent of schools, or when any children shall attend school in a district other than that in which they shall reside by virtue of an agreement made by the respective boards of education. (New Jersey: Compiled Statutes, v. 4, p. 4765)

PENNSYLVANIA

Sec. 101 Each city, incorporated town, borough, or township in this commonwealth, now existing or hereafter created, shall constitute a separate school district, to be designated and known as the "School district of,," and the several school districts thus established shall be, and hereby are, divided into four classes, as follows:

Sec. 102 Each school district having a population of five hundred thousand (500,000), or more, shall be a school district of the first class.

Sec. 103 Each school district having a population of thirty thousand

(30,000), or more, but of less than five hundred thousand (500,000), shall be a school district of the second class.

Sec. 104 Each school district having a population of five thousand (5000), or more, but of less than thirty thousand (30,000), shall be a school district of the third class.

Sec. 105 Each school district having a population of less than five thousand (5000), shall be a school district of the fourth class.

Sec. 201 The public school system established by this act shall be administered by a board of school directors in each school district, to be elected or appointed as follows:

Sec. 202 In each school district of the first class, the judges of the courts of common pleas of the county in which such school district is situated, shall, in October, one thousand nine hundred and eleven (1911), appoint a board of fifteen (15) school directors as follows: five for two years, five for four years, and five for six years; and in October of every second year thereafter shall appoint five members for six years. Their term of office shall begin on the second Monday of November next following their appointment.

Sec. 203 In each school district of the second class, there shall be nine (9) school directors elected at large, at the municipal election held in November, one thousand nine hundred and eleven (1911), three for two years, three for four years, and three for six years; and biennially thereafter, at each municipal election, three school directors shall be elected at large, for terms of six (6) years. Their terms of office shall begin on the first Monday of December following their election.

Sec. 204 In each school district of the third class, there shall be seven (7) school directors elected at large, at the municipal election held in November, one thousand nine hundred and eleven (1911), two for two years, two for four years, and three for six years; and thereafter they shall be elected as follows: At each of the first two municipal elections, two school directors shall be elected; at the third municipal election, three shall be elected; and thereafter two school directors shall be elected at each of the two succeeding municipal elections, and three at each third municipal election; all to be elected at large, for terms of six years. Their terms of office shall begin on the first Monday of December following their election.

Sec. 205 In each school district of the fourth class, there shall be five (5) school directors elected at large, at the municipal election held in November, one thousand nine hundred and eleven (1911), two for two years, two for four years, and one for six years; and thereafter they shall be elected as follows: at each of the first two municipal elections, two school directors shall be elected; at the third municipal election, one shall be elected; and thereafter two school directors shall be elected at each of the two succeeding municipal elections, and one at each third municipal election; all shall be elected at large, for terms of six (6) years. Their terms of office shall begin on the first Monday of December following their election.

Sec. 206 Every independent school district, established as herein provided, shall have its affairs — except as to the election of school directors, who shall be appointed, as hereinafter provided — administered by a board of school directors, subject to all the provisions of this act relating to the class of school districts to which such independent district belongs. And the court establishing such independent school district shall, at the time of so doing, appoint a board of properly qualified residents of the district, of like number

and for the same terms as is herein provided for such class of districts; and, in November of every odd year, such court shall appoint the proper number of directors for the full term of six years, whose terms shall begin on the first Monday of December following their appointment, and any vacancy in such board shall be filled by the court for the unexpired term.

Sec. 401 The board of school directors in every school district in this commonwealth shall establish, equip, furnish, and maintain a sufficient number of elementary public schools, in compliance with the provisions of this act, to educate every person, residing in such district, between the ages of six and twenty-one years, who may attend; and may establish, equip, furnish, and maintain the following additional schools or departments for the education and recreation of persons residing in said district, which said additional schools or departments, when established, shall be an integral part of the public school system in such school district, and shall be so administered, namely:

- High schools,
- Manual training schools,
- Vocational schools,
- Domestic science schools,
- Agricultural schools,
- Evening schools,
- Kindergartens,
- Libraries,
- Museums,
- Reading-rooms,
- Gymnasiums,
- Playgrounds,
- Schools for blind, deaf, and mentally deficient,
- Truant schools,
- Parental schools,
- Schools for adults,

Public lectures,—together with such other schools or educational departments as they, in their wisdom, may see proper to establish:

Provided, that no pupil shall be refused admission to the courses in these additional schools or departments, by reason of the fact that his elementary or academic education is being or has been received in a school other than a public school.

Sec. 402 In order to establish, enlarge, equip, furnish, and maintain any schools or departments herein provided, or to pay any school indebtedness which any school district established by this act is required to pay, or to pay any indebtedness that may at any time hereafter be created by any school district, or to enable it to carry out any provision of this act, the board of school directors in each school district in this commonwealth shall be, and hereby is, vested with all the necessary authority and power annually to levy and collect, in the manner herein provided, the necessary taxes required, in addition to the annual state appropriation, and shall have, and be vested with, all necessary power and authority to comply with and carry out any or all of the provisions of this act.

Sec. 403 The affirmative vote of a majority of all the members of the board of school directors in every school district in this commonwealth, duly

recorded, showing how each member voted, shall be required in order to take action on the following subjects:

Fixing length of school term.

Adopting textbooks.

Appointing or dismissing district superintendents, assistant district superintendents, associate superintendents, principals, and teachers.

Appointing tax-collector and other appointees.

Levyng and assessing taxes.

Purchasing, selling, or condemning land.

Locating new buildings or changing the locations of old ones.

Dismissing a teacher after a hearing.

Creating or increasing any indebtedness.

Adopting courses of study.

Establishing additional schools or departments.

Designating depositories for school funds.

Entering into contracts of any kind, including the purchase of fuel or any supplies, where the amount involved exceeds one hundred dollars.

Fixing salaries or compensation of officers, teachers, or other appointees of the board of school directors.

Sec. 404 The board of school directors in every school district in this commonwealth may adopt and enforce such reasonable rules and regulations as it may deem necessary and proper, regarding the management of its school affairs and the conduct and deportment of all superintendents, teachers, and other appointees or employees during the time they are engaged in their duties to the district, as well as regarding the conduct and department of all pupils attending the public schools in the district, during such time as they are under the supervision of the board of school directors and teachers, including the time necessarily spent in coming to and returning from school.

Sec. 405. The board of school directors in every school district of the first or second class shall, and in every district of the third or fourth class may, prescribe, adopt, and enforce such reasonable rules and regulations as it may deem proper, regarding the management, control, or prohibition of exercises, athletics, or games of any kind, taken part in or played by any pupils as members of or in connection with any public school, and regarding the organization, management, supervision, control, or prohibition of school publications, and of organizations or societies of the members of any class or school, and may provide for the suspension, dismissal, or other reasonable penalty in the case of any superintendent, teacher, appointee, employee, or pupil who violates any of such rules and regulations.

Sec. 406 The board of school directors in any school district in this commonwealth, except as herein otherwise provided, shall after due notice, giving the reasons therefor, and after hearing if demanded, have the right at any time to remove any of its officers, employees, or appointees for incompetency, intemperance, neglect of duty, violation of any of the school laws of this commonwealth, or other improper conduct.

Sec. 408 The board of school directors shall exercise general supervision over the schools of their respective districts, and shall, except in districts having district superintendents or supervising principals, by one or more of their number visit every school in the district at least once a month, and shall cause the report of such visit to be entered on the minutes of the board.

Sec. 516 The board of school directors in every school district in this commonwealth shall have the right to use and pay out, in the manner herein provided, any funds of the district for any and all of the purposes herein provided, subject to all the provisions of this act. The use or payment of any public school funds of any school district in this commonwealth, in any manner or for any purpose not provided in this act, shall be illegal.

Sec. 801 The school directors, in every county in this commonwealth having a county superintendent of public schools, shall annually be called together at the county seat or some other suitable place within said county, by the county superintendent. The purpose of such annual conventions shall be the consideration and discussion, by the school directors and others, of questions and subjects pertaining to the welfare and promotion of the public schools in their respective counties, and such other business as may properly come before such conventions.

Sec. 1105 The school directors of each county of this commonwealth, in which a county superintendent is to be elected, shall meet in convention at the county seat of their county, in the court house, or some other suitable place to be furnished by the county commissioners at the expense of the county, on the second Tuesday of April, one thousand nine hundred and eighteen (1918), and on the same day of every fourth year thereafter, and, by a majority vote of those present, elect as herein provided one duly qualified person as county superintendent, to serve for four years from the first Monday of May next following:

Sec. 1119 Any county superintendent may be removed by the superintendent of public instruction, at any time, for neglect of duty, incompetency, intemperance, immorality, or other improper conduct as well as for the violation of any of the provisions of this act: provided, that before any county superintendent shall be removed, he shall be given a hearing, of which he shall have reasonable notice, together with a statement of the charges preferred against him.

Sec. 1120 Any vacancy in the office of county superintendent, by reason of death, removal, or otherwise, shall be filled for the unexpired term by the superintendent of public instruction, after careful consideration of any recommendations concerning it from the officers of the proper county school directors' association, made within ten days after the vacancy occurs.

Sec. 1127 The superintendent of each county entitled to an assistant superintendent or assistant superintendents shall, within fifteen days after receiving his commission, nominate to the five officers of the school directors' association of the county the assistant superintendent or superintendents, who must furnish the president of said association the same evidence of eligibility as is required of candidates for county superintendents. These nominations shall be appointments until the end of the county superintendent's term of office, when confirmed by a majority vote of the five officers of the directors' association of said county. The president and secretary of the School Directors' Association shall certify to the superintendent of public instruction the names and post-office addresses of the assistant county superintendents thus appointed, and their salaries as fixed by the directors' convention, and such assistant county superintendents shall be commissioned by the superintendent of public instruction, in the same manner and under the same conditions, as in the case of county superintendents. Should the

county superintendent and the officers of the School Directors' Association of any county fail to nominate and confirm the assistant superintendent or superintendents for such county within thirty days after the county superintendent has received his commission, the superintendent of public instruction shall appoint such assistant superintendent or superintendents to serve until the end of the county superintendent's term of office.

Sec. 1128 Any vacancy occurring in the position of assistant county superintendent shall be filled by the county superintendent and the officers of the School Directors' Association, in like manner as at the beginning of a term.

Sec. 1133 The board of school directors in every school district of the first and second class shall, and in every district of the third class may, by a majority vote of all the members thereof, elect a properly qualified person as district superintendent, together with such properly qualified assistant district superintendents as it deems wise. The directors of any school district required or electing to have a district superintendent of schools shall not participate in the election of a county superintendent, and the public schools of any district which has a district superintendent shall not be subject to the superintendence or supervision of a county or an assistant county superintendent, but shall all be under the supervision of the district superintendent.

Sec. 1214 The board of school directors of any school district of the third or fourth class which has no district superintendent may employ, for a term not exceeding three years, a supervising principal of a part or all of the public schools of said school district. Every supervising principal shall have the same qualifications as are herein required for a superintendent of schools.

Sec. 1215 Two or more school districts may join in the employment of a supervising principal, or of a supervisor or teacher of drawing, music, or other special subject, for part or all of the schools of such districts; such supervising principal, supervisor or special teacher to be employed, his compensation paid, and his duties prescribed, by the several districts employing him.

Sec. 1801 The boards of school directors in any two or more adjoining school districts may establish, construct, equip, furnish, and maintain joint elementary public schools, high schools, or any other kind of schools or departments provided for in this act. The cost of establishing, constructing, equipping, furnishing, and maintaining such joint schools or departments shall be paid by the several districts establishing the same, in such manner and in such proportion as they may agree upon. The action of the several boards establishing and maintaining such joint schools or departments shall be recorded in full in the minutes of the respective boards.

Sec. 2202 In each school district of the first class, the board of school directors herein provided shall be known and designated as "The board of public education" of said district. The board of public education in each school district of the first class shall succeed to, and shall have and possess, all the powers, rights and privileges, not inconsistent with this act, which the present existing board of public education in its respective district now lawfully has. (Pennsylvania: Laws 1911, p. 309, 310, 317, 318, 329-31, 336, 355, 361, 365, 367, 369, 374, 399, 413-14)

RHODE ISLAND

Sec. 1 . . . Every town shall establish and maintain, a sufficient number of public schools, at convenient places, under the management of the school committee, subject to the supervision of the commissioner of public schools as provided by this title.

Sec. 2 . . . Any town may vote, in a meeting notified for that purpose, to provide schoolhouses, together with the necessary fixtures and appendages thereof.

Sec. 3 . . . The corporate powers and liabilities of any school district heretofore existing shall continue and remain so far as may be necessary for the enforcement of its rights and duties.

Sec. 4 . . . The school committee of each town shall consist of three residents of the town, or of such number as at the present time constitute the committee, and they shall be divided as equally as may be into three classes, whose several terms of office shall expire at the end of three years from the dates of their respective elections. As the office of each class shall become vacant, such vacancy or vacancies shall be filled by the town at its annual town meeting for the election of state or town officers, or by the town council at its next meeting thereafter. In case of a vacancy by death, resignation, or otherwise than as is above provided, such vacancy shall be filled by the town council until the next annual town meeting for state or town officers, when it shall be filled for the unexpired term thereof as is above provided. (Rhode Island: General Laws, 1909, ch. 66, p. 270-71)

Sec. 5 . . . The school committee of each town shall elect a superintendent of the public schools of the town to perform, under the advice and direction of the committee, such duties, and to exercise such powers, as the committee shall assign him; and to receive such compensation out of the town appropriation for public schools as the committee shall vote. (Rhode Island: Acts and Resolves, 1913, ch. 946, p. 66)

Sec. 6 . . . The school committees of two or more towns, in which the aggregate number of schools shall not be more than sixty, may by vote unite for the purpose of the employment of a superintendent of the schools of said several towns.

Sec. 7 . . . The school committees of the respective towns voting therefor, as prescribed in the preceding section, shall form a joint committee, for the purpose of this chapter; said joint committee shall be the agents of each town comprising such union. Said school committees shall meet annually in joint convention at a place and time agreed upon by the chairmen of the several school committees, and shall organize by the choice of a chairman and secretary. They shall choose by ballot a superintendent of schools, fix his salary and apportion the amount thereof to be paid by each of the towns, approximately according to the next preceding school census in said town. Such union shall not be dissolved because the number of schools shall have increased beyond the number of sixty, nor, for any reason, for the period of three years from the date of the formation of such union, except by concurrent votes of the school committees of a majority of the towns constituting such union. (Rhode Island: Acts and Resolves, 1912, ch. 804, p. 152-53)

Sec. 3 . . . The school committee shall locate all schoolhouses, and shall not abandon or change the location of any without good cause.

Sec. 4 . . . The school committees of the several towns shall make provision for the instruction of the pupils in all schools supported wholly, or in part, by public money, in physiology and hygiene, with special reference to the effects of alcoholic liquors, stimulants and narcotics upon the human system.

Sec. 5 . . . The school committee shall visit, by one or more of their number, every public school in the town at least twice during each term, once within two weeks of its opening and once within two weeks of its close; at which visits they shall examine the register and matters touching the schoolhouse, library, studies, books, discipline, modes of teaching and improvement of the school.

Sec. 6 . . . The school committee shall make and cause to be put up in each schoolhouse, rules and regulations for the attendance and classification of the pupils, for the introduction and use of textbooks and works of reference, and for the instruction, government and discipline of the public schools, and shall prescribe the studies to be pursued therein, under the direction of the commissioner of public schools.

Sec. 7 . . . Whenever the school committee of any town shall find that it is more convenient or expedient for any child residing in said town to attend school in an adjoining town, said committee may arrange with the school authorities of such town for the attendance of such child at their schools, and may pay for such tuition out of the town appropriation for public schools. The amount so paid shall be used for school purposes only.

Sec. 8 . . . The school committee may suspend during pleasure all pupils found guilty of incorrigibly bad conduct or of violation of the school regulations.

Sec. 9 . . . The selection of teachers, and election of superintendent, in such towns as do not unite for the employment of a superintendent, and the entire care, control, and management of all the public school interests of the several towns, shall be vested in the school committee of the several towns, and they shall also draw all orders for the payment of their expenses.

Sec. 12 . . . The school committee of every city and town shall purchase, at the expense of such city or town, textbooks and other school supplies used in the public schools; and said textbooks and supplies shall be loaned to the pupils of said public schools free of charge, subject to such rules and regulations as to care and custody as the school committee may prescribe.

Sec. 13 . . . A change may be made in the schoolbooks in the public schools of any town by a vote of two-thirds of the whole school committee; and in the city of Providence by a vote of a majority of all the members elected to the school committee, notice of the proposed change having been given in writing at a previous regular meeting of said committee: Provided, that no change be made in any textbook in the public schools of any town oftener than once in three years, unless by the consent of the board of education.

Sec. 7 . . . The school committee of any town may, subject to the approval of the commissioner of public schools, consolidate any schools the average number belonging to each of which is less than twelve, or may unite such school or schools with some other school in order to establish a graded

school or to secure greater efficiency of the schools; and said committee shall have authority to provide, in their discretion, transportation for pupils to and from school. (Rhode Island: General Laws, 1909, ch. 67, p. 274, 275 and 286)

VERMONT

Sec. 11 A town shall constitute a district for school purposes, and the division of a town into school districts shall no longer exist.

Sec. 18 Each town shall have a board of school directors consisting of three citizens of the town, one of whom shall be elected at each annual meeting of the town and whose term of office shall be for three years, beginning the first day of July following, and until a successor is elected.

Sec. 21 The board of school directors shall have the care of the school property of the town and the management of its schools, keep the school houses suitably repaired and insured, have authority to designate the schools which shall be attended by the various pupils, subject to the approval of the superintendent, and make regulations not inconsistent with law as to carrying the powers granted them into effect. Said board shall also, unless otherwise provided, subject to the provisions of this act as to competency in number and convenience in instruction, determine the number and location of schools. Said board shall also, subject to the provisions of this act, employ teachers and fix their compensation. Said board shall examine claims against the town for school expenses, and draw orders for such as shall be allowed by them, payable to the party entitled thereto. Such orders shall state definitely the purpose for which they are drawn.

Sec. 26 The compensation of school directors, which shall be paid by orders drawn by said board, shall be such sum as the town votes at the annual town meeting in payment for services rendered in the performance of their duties; and their accounts shall be audited at the time of auditing the school account of said board.

Sec. 34 The state board of education shall, as soon as practicable appoint a sufficient number of superintendents who shall be trained educators to insure a reasonable supervision of all public schools within the state; they shall designate the schools over which each superintendent shall have supervision and shall make regulations governing the powers and duties of such superintendents.

Sec. 36 A superintendent shall annually on or before the fifth day of July submit to the board of school directors of each town a report of his services within the town, with information as to the condition and needs of the schools therein under his charge; and such report may be printed and distributed by said board. Said superintendent shall report at least once a week to the commissioner of education, on blanks to be furnished by said commissioner, stating what schools he has visited during the week, the number of hours spent in each, the quality and kind of work being done by the teachers in such schools, and such other facts as the commissioner may require.

Sec. 37 (a) The provisions of this chapter so far as they relate to the appointment and tenure of office of superintendents of schools shall not apply to towns or incorporated districts having twenty-five or more legal schools, except as such towns or districts by a majority of their school directors vote otherwise.

(b) Superintendents of schools other than those appointed by the state board of education shall, in the absence of special legislation relating thereto, be elected by the school directors of the several towns at such time and in such manner as the by-laws of such school directors provide; and the salaries of such superintendents and their tenure of office shall be fixed by the school commissioners and the salaries paid by the town except as heretofore provided.

Sec. 43 Elementary schools shall be competent in number, and of such quality and so located as to furnish adequate, reasonable and convenient opportunity for pupils. Said board of school directors may relocate or consolidate the schools within their respective towns as the interest of convenience and efficiency may require, except as herein otherwise provided. In the exercise of the powers given in this section, strict observance of the constitutional requirements as to competency in number and location shall be observed.

Sec. 71 The school directors, subject to the approval of the superintendent, shall have charge of and regulate the transportation and board of pupils in the schools under their charge and contracts therefor shall be made by them.

Sec. 72 Every person of school age, residing at a distance of one and one-half miles from an elementary school shall be furnished with transportation, whenever such transportation is feasible; and, if such transportation is not feasible, such person shall be furnished with board whenever necessary to afford him an opportunity to attend school, and such board shall be paid by the state, not to exceed one dollar per week.

Sec. 73 The charges for such transportation shall be borne wholly by the state in all towns whose grand list does not exceed five thousand dollars. In towns having a grand list in excess of five thousand dollars exclusive of incorporated districts the state and town shall bear the expense of transportation in the ratio five thousand bears to the grand list of such town, provided, however, that no town shall receive an average of more than twenty dollars a year for each pupil transported under the provisions of this section.

Sec. 74 School directors may cause transportation to be furnished to a child living less than one and one-half miles distant from an elementary school if the exigencies of the case require, but in all such cases the expenses thereof shall be borne by the town.

Sec. 75 In case of dissatisfaction on the part of any person interested and upon his complaint, or upon the complaint of any taxpayer, to the school directors, as to the transportation, residence or board of any pupil, or of the character of any person employed to transport pupils, the complaint shall be heard by said school directors and from their decision an appeal may be taken to the commissioner of education, whose decision thereon shall be final.

Sec. 76. The superintendent shall include, in his annual report to the board of school directors of each town, a report as to the pupils of said town transported or boarded under this act, and the expense thereof, and shall annually, at a time to be fixed by the state board of education, furnish to said last-named board a report of all pupils transported or boarded under this act, and the expense thereof.

Sec. 136 The board of school directors of each town shall provide all textbooks, appliances and supplies required for use in the public elementary schools therein, and the same shall be paid for by the town.

Sec. 137 The board of school directors shall make such rules and regulations as it deems proper for the care and custody of textbooks, appliances and supplies, provided for use in the public schools of the town, and shall furnish the same for the use of nonresident pupils under such regulations as the state board of education shall prescribe. (Vermont: Laws 1915, no. 64, p. 126-31, 136-37, 147)

TOWNSHIP DISTRICT SYSTEM

IOWA

Township and District System

Sec. 2744 District townships now existing shall hereafter be called school townships, subdivisions of which shall be called subdistricts. School corporations shall be designated as follows: the school township of (naming civil township), in the county of (naming county), state of Iowa; or, if the independent school district of (naming city, town, or village, and if there are two or more districts therein, including some appropriate name or number), in the county of (naming county), state of Iowa; or, the rural independent school district of (some appropriate name or number), township of (naming township), in the county of (naming county), state of Iowa.

Sec. 2752 The board of directors of a school township shall be composed of one director from each subdistrict. But when there is an even number of subdistricts another member shall be elected at large by all the voters of the school township. When the school township is not divided into subdistricts, a board of three directors shall be elected at large, on the second Monday in March, by all the voters of the school township.

Sec. 2772 The board shall appoint a temporary president and secretary, or either of them, in the absence of the regular officers, and shall prescribe a course of study for the schools of the corporation, make rules and regulations for its own government and that of the directors, officers, teachers and pupils, and the care of the schoolhouse, grounds and property of the school corporation, and aid in the enforcement of the same, and require the performance of duty by said persons not in conflict with law and said rules and regulations, and such rules and regulations shall prohibit the use of tobacco in any form by any student of such schools and such board may suspend or expel such student for any violation of such rule.

Sec. 2773 It may fix the site for each schoolhouse, taking into consideration the geographical position, number and convenience of the scholars, provide for the fencing of schoolhouse sites, determine the number of schools to be taught, divide the corporation into such wards or other divisions for school purposes as may be proper, determine the particular school which each child shall attend, and designate the period each school shall be held beyond the time required by law.

Sec. 2778 The board shall carry into effect any instruction from the annual meeting upon matters within the control of the voters, and shall elect all teachers and make all contracts necessary or proper for exercising the powers granted and performing the duties required by law. But the board

may authorize any subdirector to employ teachers for the schools in his subdistrict. Contracts with teachers must be in writing, and shall state the length of time the school is to be taught, the compensation per week of five days or month of four weeks, and such other matters as may be agreed upon, signed by the president and teacher, and filed with the secretary before the teacher commences to teach under such contract.

Sec. 2785 The board of directors of a school township may authorize the director of each subdistrict, subject to its regulations, to make contracts for the purchase of fuel, the repairing or furnishing of schoolhouses, and all other matters necessary for the convenience and prosperity of the schools in his subdistrict. Such contracts shall be binding upon the school township only when approved by the president of the board, and must be reported to the board. Each director shall, between the first and fifteenth days of June in each year, prepare a list of the heads of families in his subdistrict, the number and sex of all children of school age, and by the twentieth day of said month report this list to the secretary of the school township, who shall make full record thereof. The powers specified in this section cannot be exercised by individual directors of independent districts.

Sec. 2800 A township which has been divided into rural independent districts may be erected into a school township by a vote of the electors, to be taken upon the written request of one-third of the legal voters residing in such civil township. Upon presentation of such written request to the township trustees, they shall call a meeting of the electors at the usual place or places of holding the township election, upon giving at least ten days' notice thereof by posting three written notices in each rural independent district in the township, and by publication in a newspaper, if one be published in such township, at which meeting the said electors shall vote by ballot for or against a school township organization. If a majority of the votes cast at such election be in favor of such organization, each rural independent district shall become a subdistrict of the school township, and shall organize as such on the first Monday in March following by the election of a director, notice of which shall be given as in other cases by the secretary of each of the rural independent districts, and the directors so elected shall organize as a board of directors of the school township on the first day of July following, unless that date falls on Sunday, in which case on the day following.

Sec. 2801 The board of any school township may by a vote of a majority of all the members thereof, at the regular meeting in July, or at any special meeting called thereafter for that purpose, divide the school township into subdistricts such as justice, equity and the interests of the people require, and may make such alterations of the boundaries of subdistricts heretofore formed as may be deemed necessary, and shall designate such subdistricts and all subsequent alterations in a distinct and legible manner upon a plat of the school township provided for that purpose, and shall cause a written description of the same to be recorded in the records of the school township, a copy of which shall be delivered by the secretary to the county treasurer and also to the county auditor, who shall record the same in his office. The boundaries of subdistricts shall conform to the lines of congressional divisions of land, and the formation or alteration of subdistricts as contemplated in this section shall not take effect until the first Monday in March thereafter, at which time a director shall be elected for any subdistrict newly formed.

Sec. 2806 The board of each school corporation shall at its regular meeting in July, or at a special meeting called for that purpose between the time designated for such regular meeting and the third Monday in August, estimate the amount required for the contingent fund, . . . and such additional sum as may be necessary not exceeding five dollars for each person of school age for transporting children to and from school. (Iowa: Supplement Code Annotated, 1913, p. 1161, 1163, 1170-71, 1175, 1182, 1184)

Sec. 2794a (a) When a petition describing the boundaries of contiguous territory containing not less than sixteen sections within one or more counties is signed by one-third of the electors residing on such territory, and approved by the county superintendent, if of one county, and the superintendent of each if of more than one county, and by the state superintendent of public instruction if the county superintendents do not agree, and filed with the board of the school corporation in which the portion of the proposed district having the largest number of voters is situated, requesting the establishment of a consolidated independent district, it shall be the duty of said board, within ten days, to call an election in the proposed consolidated district, for which they shall give the same notices as are required in section 2746 of the code, and 2750 of the supplement to the code, 1907, at which election all voters residing in the proposed consolidated district shall be entitled to vote by ballot for or against such separate organization. When it is proposed to include in such district a city, or town or village, the voters residing upon the territory outside the incorporated limits of such city, town or village shall vote separately upon the proposition for the creating of such new district. The judges of said election shall provide separate ballot boxes in which shall be deposited the votes cast by the voters from their respective territory, and if a majority of the votes cast by the electors residing either within or without the limits of such city, town or village, is against the proposition to form a consolidated independent corporation, then the proposed corporation shall not be formed. If a majority of the votes so cast in each territory shall be in favor of such independent organization, the organization of the proposed consolidated independent school corporation shall be completed in this section shall not take effect until the first Monday in March as provided in section 2795 of the code, and when so organized shall not be reduced to less than sixteen sections unless dissolved as provided by this act. No school corporation from which territory is taken to form such a consolidated independent corporation shall, after the change, contain less than four government sections, which territory shall be contiguous and so situated as to form a suitable corporation. And where after the formation of such consolidated school corporation, whether heretofore or hereafter formed, there is left in any school township one or more subdistricts each of such subdistricts containing four or more government sections, each of such pieces of territory shall thereby become a rural independent school corporation, and it shall be the duty of the officers of the former school township to call an election in each of such rural independent districts for the purpose of electing school officers in the manner provided by law for the election of officers in rural independent school corporations.

(c) It shall be the duty of the school board of any consolidated independent school corporation and school townships maintaining a central school to provide suitable transportation to and from school, for every child of school

age living within said district, and outside the limits of any city, town or village, but the board shall not be required to cause the vehicle of transportation to leave the public highway to receive or discharge occupants thereof. The board shall from time to time, by resolution regularly adopted, number and designate the route to be traveled by each conveyance in transporting children to and from school. The school board may require that children living an unreasonable distance from school shall be transported by the parent, or guardian, a distance of not to exceed two miles, to connect with any vehicle of transportation to and from school; or may, in the discretion of the board, contract with an adjoining school corporation for the instruction of any child living an unreasonable distance from school, and they shall allow a reasonable amount of compensation for the transportation of children to and from the point where they are taken over, or discharged from, the vehicle used to convey them to and from school, or for transporting to an adjoining district. In determining what an unreasonable distance would be, consideration shall be given to the number and age of the children, the condition of the roads, and the number of miles to be traveled in going to and from school. The board shall have the right on account of inclemency of the weather to suspend the transportation of any route upon any day or days when in the judgment of the said board it would be a hardship on the children, or when the roads to be traveled are unfit or impassable.

(d) The school board of any consolidated independent school corporation shall contract with as many suitable persons as they deem necessary for the transportation of children of school age to and from school, such contract to be in writing and shall state the number of the route, the length of time contracted for, the compensation to be allowed per week of five school days, or per month of four school weeks, and may provide that two weeks' salary shall be retained by the board pending full compliance therewith by the party contracted with, and shall always provide that any party or parties to said contract and every person in charge of vehicles conveying children to and from school, shall be at all times subject to any rules or regulations said board shall adopt for the protection of the children, or to govern the conduct of the person in charge of said conveyance.

(f) Whenever a petition signed by one-third of the electors in a consolidated independent school corporation asking that said district be dissolved and describing the boundaries of the district or districts proposed to be organized out of the territory then included in such consolidated independent school corporation and having the approval of the county superintendent, if one county, and the superintendent of each if more than one county, and by the state superintendent of public instruction if the county superintendents do not agree, is filed with the board of said consolidated independent district, it shall be the duty of said board within ten days to call an election for which they shall give the same notices as are required in section 2746 of the code, and 2750 of the supplement to the code, 1907, at which election all voters residing within the district shall be allowed to vote by ballot for or against such dissolution. If a majority of all votes cast at said election be in favor of dissolving the consolidated district, same shall be dissolved and the organization of a new district or districts be forthwith completed by the election of a board of directors as provided by statute; provided, however, that such dissolution shall become effective only when the reorganization of the territory included in the original consolidated district is completed. The

assets and liabilities of any such school corporation thus dissolved shall be equitably divided as provided in section 2802 of the supplement to the code, 1907.

(g) Any person driving, managing, or in charge of any vehicle used in transporting children to and from school, in any consolidated independent school corporation, who shall be found guilty of violating any of the rules and regulations adopted by the board of said school for the guidance of any person in charge of such conveyance, shall be guilty of a misdemeanor, and for the first offense shall be fined not less than five dollars or more than ten dollars and for a subsequent offense shall be fined not less than twenty-five dollars or more than fifty dollars and shall be dismissed from the service. (Iowa: Supplemental Supplement Code, 1915, p. 262-65)

Sec. 2157-g The persons to whom free tickets, free passes, free transportation and discriminating reduced rates may be issued, furnished, or given are the following, to wit:

(o) school children to and from public or parochial schools; (Iowa: Supplement Code Annotated, 1913, p. 823)

Sec. 1072 . . . On the first Tuesday in April in the year 1915, and each third year thereafter, and whenever a vacancy occurs in the office of county superintendent of schools, a convention shall be held at the county seat for the purpose of electing a county superintendent of schools, at which convention each school township, city, town or village independent district and each independent consolidated district in the county shall be entitled to one vote. Each such school corporation shall be represented at the convention by the president of the school board, or in his absence or inability to act, by some member of such school board, to be selected by the board. It is further provided, however, that where a congressional township is composed in whole or in part of rural independent districts that such rural independent districts shall be entitled to one vote in the convention, which vote shall be cast by such person as may be selected by the presidents of the component rural independent districts within such township at a meeting to be held at such time and place as the county auditor shall fix in the written notice hereinafter provided for. All representatives to such convention shall serve until a county superintendent is elected and qualified. (Iowa: Supplement Code, 1913, p. 387)

District System

Sec. 2745 The affairs of each school corporation shall be conducted by a board of directors, the members of which in all independent school districts shall be chosen for a term of three years, and in all subdistricts of school townships for a term of one year.

Sec. 2751 The meeting of the voters of each subdistrict of a school township shall be held annually on the first Monday in March, and shall not organize earlier than nine o'clock a. m., nor adjourn before twelve o'clock m. Notice in writing of the time and place of such meeting and the amount of schoolhouse tax to be voted shall be given by its directors, or if there is none by the school township secretary, by posting in three public places in the subdistrict for five days next preceding the same. The voters shall select a chairman and secretary of the meeting who shall act as judges of election, and shall also elect a director for the subdistrict by ballot. The vote shall be canvassed by the judges of election, and the person receiving the highest vote shall be declared elected. (Iowa: Code Annotated, 1897, p. 933, 935)

MICHIGAN

Township and District System

Sec. 10036 . . . Whenever a majority of the qualified school electors in any organized township votes in favor of organizing said township into a single school district, such township shall, after the second Monday in July thereafter, be a single school district and shall be governed by the provisions of the act, and in case there are one or more graded school districts in the township having a population of nine hundred or less, the qualified school electors in such graded districts shall have the right to sign the petition hereinafter mentioned, and vote on the question of the establishment of such township district, and such graded districts shall become a part of the township district. The question of changing any organized township into a single school district to be governed by the provisions of this act, shall not be submitted to the qualified school electors of said township until a petition therefor, signed by one-fourth of the qualified school electors of such township, requesting the submission of such proposition, shall be filed in the office of the township clerk. Upon the receipt and filing of such petition, it shall be the duty of the township clerk to call a meeting of the township board and it shall be the duty of the township board of such township to attend such meeting, which shall be held not more than five days after the filing of such petition. It shall be the duty of the said township board at such meeting to consider the said petition with the names appearing thereon, and if it be found and determined that one-fourth of the qualified school electors of said township have signed the said petition requesting that the said township of which they are residents be organized as a single school district under the provisions of this act, it shall be the duty of the township board to call an election at which the question of the organization of the said township into a single school district shall be submitted to the qualified school electors of such township. Such election shall be called by the township board within thirty days after the meeting of the township board at which it is determined that the petition herein provided for is sufficient: provided, however, that if any such petition is determined to be sufficient not more than four months and not less than twenty days prior to the annual township election, such question shall be submitted at the annual township election. Notice of such election, whether it be of a special or of the annual election, shall be given by the township board by posting notices thereof in at least five public places in the township and at least one notice in each organized school district in the township which notice shall state that at such election, giving the date, the question of organization of the township into a single school district shall be submitted to the qualified school electors of the township. The ballots upon which such question shall be submitted shall be in the following form: Shall(name of township) township be organized into a single school district? () Yes. Shall(name of township) township be organized into a single school district? () No. Each ballot which has a cross marked in the square to the left of the word "Yes" on any such ballot shall be counted in favor of the organization of such township into a single school district, and each ballot which has a cross marked in the square to the left of the word "No" shall be counted against the organization of such township into a single school district. Any such election shall be conducted by

the township board of election inspectors in the same manner in all respects and the ballots shall be taken, counted, and canvassed in the same manner that is now provided for the counting of ballots under the general election law. If a majority of the school electors of such township voting at such election votes in favor of the proposition, such township shall, after the second Monday in July subsequent to such election, be considered a single school district and shall be governed by the provisions of this act. Whenever a majority of the qualified school electors of any township votes in favor of the organization of any township into a single school district it shall be the duty of the township board to call a township election for the second Monday in July, at which election the trustees for the township school district shall be elected by the qualified school electors of such township. Notice of such election shall be given by the township board by posting notices thereof in at least five public places in the township and at least one notice in each organized school district that on the second Monday in July following trustees for the township school district will be elected, and it shall be the duty of the township board of election inspectors of such township to conduct such first election and perform such duties in connection therewith as may be necessary to carry out the provisions of this act: provided, that if in such township, or as a part of such township, there are fractional school districts already organized, the schoolhouse of which is within the boundaries of the township, such fractional districts shall be considered a part of the township for school purposes, and qualified school electors residing anywhere in such fractional school district shall be qualified to sign the petition for or vote upon the question of the organization of the township district. The township board shall make and file, both with the county clerk and with the county commissioner of schools of the county in which such township is located, a certified copy of the above mentioned petition together with its findings and decision thereon, and when the trustees or district officers shall have been duly elected and shall have filed a written acceptance of office with the township clerk of such township and shall have complied with the general provisions of this act pertaining to the election and acceptance of school officers, the said board of education shall immediately become the custodian of all the property pertaining to the public schools of the township and shall have all the powers and privileges conferred upon school officers by the general laws of this state, and said general laws shall apply and be in force in such district in all particulars not otherwise provided for in this act: provided, that immediately upon the organization of the board of education herein provided for said board shall call a meeting of the officers of the school districts of the township as heretofore existing, if any, and at such meeting there shall be an accounting of the property, records, and funds of such districts and a settlement of the same, and the officers of the several school districts of the township as heretofore existing shall immediately thereafter turn over to the said board of education all books, records, money, property, and other matter or material in their possession and belonging to the public schools of their respective districts to the township board of education and said board shall give to such officers proper receipts, and the secretary of said board of education shall place a full statement of such several settlements in the records of the board of education for said township.

Sec. 10037 . . . All cities organized as school districts and all graded school districts having a population of more than nine hundred shall be exempt from the provision of this act. Their boundaries shall remain the same and they shall continue to administer the public schools of such city or graded district in the same manner as heretofore provided by statute: provided, that if any such city or graded school district shall desire to give up its own organization as a school district and become a part of the township district, and such district and the other district or districts of the township shall respectively so express themselves by ballot by a majority vote of the legal voters of each district at an annual or special meeting of each district, the superintendent of public instruction shall have authority to declare the organization of such city or graded school district for school purposes dissolved, and he shall make such declaration in writing and serve the same upon the officers of the township district and upon the officers of such city or graded district, and such officers shall immediately turn over to the board of education of such township all the building, property, appurtenances, money, and material heretofore belonging to such city or graded district to the board of education of the township district, and thereafter such city or graded district shall be a part of the township district and controlled by the township board of education as herein provided.

Sec. 10038 . . . The officers of said township district shall consist of five trustees, elected at large, who shall constitute the board of education of said district, and the regular term of office shall be three years. Any qualified voter in the district whose name appears upon the assessment roll and who is the owner in his own right of the property so assessed shall be eligible to election or appointment to office in such district: provided, that where a husband and wife own property jointly, if otherwise qualified, each shall be eligible to election or appointment to school office.

Sec. 10044 . . . The board of education shall have the following powers and duties:

a To fill any vacancies that may occur in the office of trustee until the next annual meeting, and the person or persons so appointed shall file his acceptance and affidavit as hereinbefore provided:

b To purchase or lease in the name of district such site or sites for school-houses as may be necessary, out of the fund provided for that purpose, and make sale of any site or other property of the district, when lawfully directed to do so by the qualified voters: provided, that the board shall not build a stone or brick schoolhouse upon any site without having first obtained a title in fee to the same or a lease for at least ninety-nine years, nor shall a frame school house be erected on any site for which the board has not secured a title in fee or a lease for at least fifty years, and in all cases where school sites are leased the board shall reserve the privilege of removing the school property from the site on the expiration of the lease;

c To estimate the amount of money necessary to be raised for buildings and sites and report same to the voters at the annual meeting;

d To vote the taxes necessary in addition to other school funds for teachers' wages which shall be accounted for under the title of "general fund;" and if no high school be established, to vote such taxes as may be necessary to pay the tuition of any and all children of high school age resident in such township, to high schools already established, and to vote

such taxes as may be necessary for the regular running expenses of the school, which shall include school furnishings and all appendages, library, the care of school property, record books and blanks, and all apparatus and material which may be necessary in order that the schools may be properly managed and maintained, and such taxes when collected and received by the treasurer of the board shall be accounted for under the title "general fund."

All moneys received from penal fines for library purposes and all moneys received for buildings and sites shall be kept in separate accounts under proper title: provided, that when the district or the board has voted a tax for any legal purpose and the money is needed before the tax can be levied and collected the board may borrow on the warrant of the district a sum not to exceed the amount of tax voted for such purposes;

e Between the second Monday of July and the first Monday of August in each year, to make out and deliver to the township clerk a report in writing, signed by the president and secretary, of all taxes for school purposes voted by the district and by the district board, to be levied on the taxable property of the district;

f To apply and pay over all school moneys belonging to the district in accordance with the provisions of the law regulating the same, and no money raised by tax shall be used for any other purpose than that for which it was raised without the consent of a majority of the taxpaying voters of the district present at an annual meeting or a special meeting, and no moneys received from the primary school interest fund shall be appropriated to any other use than the payment of teachers' wages, except as hereinafter provided, and no money received for teachers' wages shall be paid to any person who is not the holder of a proper certificate of qualification authorizing him to teach, and granted to said person before the commencement of his school. The board shall not apply any moneys received by it from any source for the support or maintenance of any school of a sectarian character, whether the same be under the control of any religious society or made sectarian by the school board;

g To have the care and custody of all school property and to provide suitable school privileges and sanitary conditions for all schools, a suitable water supply and all record books and blanks;

h To specify the studies to be pursued in the schools of the district and adopt a suitable course of study for said schools;

i To select and adopt suitable textbooks for use in the schools and the secretary shall make a record of such adoption. Textbooks once adopted under the provisions of this act shall not be changed within five years except by the consent of a majority of the qualified voters of the district present at any annual or special meeting: provided, that in the adoption of textbooks the board shall provide for instruction in the subject of physiology and hygiene with special reference to the nature of alcohol and narcotics and their effects upon the human system, and sanitary science. Textbooks adopted in this subject shall give at least one-fourth of their space to the consideration of such subjects, and for the high schools such books shall contain at least twenty pages of such matter, and the instruction in this subject shall be given in such manner and at such times as may be suited to the grade of the pupils. The textbooks used in giving such instruction shall first be approved by the state board of education. Each teacher or

superintendent shall report to the board of education at the close of each term or year in regard to the quantity and character of such special instruction in the subject of alcohol and narcotics, and the secretary of the board shall certify to the superintendent of public instruction that such instruction has been given;

j To have the general care of the schools of the district and make and enforce suitable rules and regulations for the general management of the schools and for the preservation of the property of the district, and to purchase at the expense of the district such textbooks as may be necessary for the use of children whose parents are not able to furnish the same. The board may authorize or order the suspension or expulsion from school of any pupil guilty of gross misdemeanor or persistent disobedience, or one having habits or bodily conditions detrimental to the school, whenever in its judgment the interests of the school may demand it;

k The board may admit to the schools of the township any nonresident pupils and determine the rate of tuition of such pupils and collect same. Children who are being cared for at county expense shall be admitted to the school in the township which is nearest the county house or in which the county house may be located, on the same terms that nonresident pupils are admitted. When nonresident pupils, their parents or guardians, pay a school tax in said district such children shall be admitted to the schools of the district, and the amount of such school tax shall be credited on their tuition in a sum not to exceed the amount of such tuition;

l To make rules relative to the taking of census of all children resident in said township district five years of age and under twenty years, and to make all necessary reports and transmit the same to the proper officers as designated by law so that the district may be entitled to its proportion of the primary school fund;

m To fix the length of time school shall be kept in all the schools of the township, which shall be the same for all schools and not less than five months in each year: provided, that all persons, residents of any township school district and five years of age, shall have an equal right to attend any school therein, and no separate school or department shall be kept for any person on account of race or color: provided further, that this shall not be construed to prevent the classifying and grading of the schools according to the intellectual progress of the pupils, such grades to be taught in such separate places as may be deemed expedient;

n To establish and maintain a district library and provide for its care and management;

o To establish and maintain a high school or high schools for the township and determine the qualifications for admission thereto: provided, that if a township high school be not maintained the board of education shall pay out of funds hereinbefore provided for, the tuition of any and all children of high school age who desire to attend high schools in the same township or in adjoining townships: provided further, that if in such township or adjoining townships there be no established high school then the tuition of such children shall be paid in such high school as shall be designated by such township board of education;

p To authorize the secretary to purchase and provide such incidental apparatus and material as may be deemed advisable for the schools, and to audit and order the payment of all accounts for such expenses and material;

q To employ a superintendent of schools for the township, when the same is authorized by a vote of the electors thereof, and to employ such other officers and servants as may be necessary for the management of the schools and school property, and to prescribe their duties and fix their compensation. The superintendent of schools herein provided for shall be the holder of at least a State life certificate or a normal school diploma, or he shall have educational qualifications equivalent thereto and shall be the holder of a diploma from a college or university of recognized standing, and he shall have the following duties:

First, To recommend in writing all teachers necessary for the schools, and to suspend any teacher for cause, until the board of education or a committee of such board may consider such suspension;

Second, To classify and control the promotion of pupils;

Third, To recommend to the board the best methods of arranging the course of study and the proper textbooks to be used;

Fourth, To make reports in writing to the board of education and to the superintendent of public instruction annually or oftener if required;

Fifth, To supervise and direct the work of the teachers;

Sixth, To assist the board in all matters pertaining to the general welfare of the school, and to perform such other duties as the board may determine;

r To hire and contract with such legally qualified teachers as may be required, and all contracts shall be in writing and signed by a majority of the board in behalf of the district. Said contracts shall specify the wages agreed upon and require the teachers to keep a correct record of all school work, the number of pupils, the classification and grading, the aggregate and average attendance and the percentage of attendance, and to furnish the secretary with a correct copy of the same at the close of school. The contracts shall also require the board to provide all proper material and keep the school property in proper and sanitary condition. The contract shall be filed with the secretary and a duplicate furnished the teacher. A contract with a person not holding a legal certificate of qualification shall be invalid and all contracts shall terminate if the certificate of the teacher shall expire by limitation within its term, or if the certificate be suspended or revoked by proper authority: provided, that in case of illness of the teacher or when a legally qualified teacher cannot be found by the board or by the commissioner of the schools, a person otherwise qualified but not holding a certificate may be employed temporarily as a supply, and such supply service shall be paid for from the general fund. A school month within the meaning of the school laws shall consist of four weeks of five days in each week;

s And to do all things needful and necessary for the maintenance, prosperity, and success of the schools of the district and the promotion of the thorough education of the children thereof.

Sec. 10055 . . . The compensation of members of the board of education other than the secretary and treasurer shall be two dollars for attendance at each regular meeting of the board. The secretary and treasurer of said board shall receive such compensation for their services as the board of education may determine, not exceeding one hundred dollars for the treasurer and one hundred and twenty-five dollars for the secretary per

annum. The amount of money necessary for the services of district officers shall be included in the regular budget voted by the board of education and shall be paid from the general fund.

Sec. 10058 . . . The superintendent of public instruction shall have power and is hereby required to remove from office, upon satisfactory proof and after at least ten days' notice to the party implicated, any trustee of any township school district who shall have illegally used or disposed of any of the public moneys entrusted to his charge, or who shall persistently and without sufficient cause refuse or neglect to discharge any of the duties of his office, and in case of such removal it shall be the duty of the said state superintendent to record in the office of the township clerk of such township the resolution or order for such removal, and such record of such resolution or order so entered, or a certified copy thereof, shall be prima facie evidence in all courts and places of jurisdiction of the regularity of such proceedings for removal, and said state superintendent shall file a similar copy of the proceedings in the records of his office: provided, that if the party so removed shall, within thirty days after such removal, institute proceedings before a court of competent jurisdiction for the setting aside of such order for removal from office, or if after said thirty days such proceedings to obtain such removal shall be discontinued or dismissed, the said order for removal from office shall stand and not be subject to attack by any legal proceedings thereafter.

Sec. 10059 . . . When any township district comprising one township shall be divided into two or more townships or when any two townships are consolidated for school purposes, the existing board or boards of trustees shall continue to act for all the townships until the same shall have been organized and the township boards of trustees duly elected and qualified therein. Immediately after such organization the township boards of education of each of the townships shall meet in joint session and direct an appraisal of all the school property of the former township to be made. When such appraisal has been made said township boards of education shall make an equitable division of the existing assets and liabilities of the school districts of such former township, basing their apportionment upon the amount of taxable property in the township divided, as shown by the last assessment roll of such former township. When a township district shall be altered in its limits by annexing a portion of its territory to another township or townships, the township boards of education of such township shall, immediately after such alteration, meet in joint session and make an equitable division of the assets and liabilities of the school districts of the township from which the territory has been detached, basing their division upon the amount of taxable property, as the same shall appear upon the last assessment roll of such township.

Sec. 10060 . . . When any ten or more qualified voters in any township district shall feel themselves aggrieved by any action, order or decision of the board of education with reference to the formation of any school, the division or arrangement of any territory, or location of the schools, or the maintaining of school in any part of said district, they may, at any time within ninety days from the time of such action on the part of said board of education, appeal from such action, order or decision of said board of education to the state superintendent of public instruction, and notice of

such appeal shall be served on the secretary of the board of education. The superintendent of public instruction, upon the receipt of such appeal, shall have power to entertain such appeal, and review, confirm, set aside or amend the action, order or decision of the board of education thus appealed from, or if in his opinion the appeal is frivolous or without sufficient cause, he may summarily dismiss the same. Said state superintendent of public instruction, before acting upon such appeal, may visit the locality or appoint some one to do so, and investigate carefully the action, order or decision and its effect upon the district and the conditions surrounding the same, and he or his appointee shall give a hearing at some place within the county where such township district may be located and to such hearing he may summon the board of education, the complainants and any persons who may have knowledge of the matter at issue. After the hearing and due consideration, said superintendent shall render his decision which shall be final. (Michigan: Howell's Annotated Statutes, v. 4, p. 4023-27, 4030-34 and 4040-43)

Sec. 10081 The district board or board of education of any school district which does not maintain a high school shall have authority and is hereby required to vote a tax sufficient to pay the tuition to one of the three nearest high schools of any children of school age residents of said district, at the time of giving notice as hereinafter provided, who have completed the studies of the eight grades, not exceeding in amount twenty dollars per pupil per year, unless the voters appropriate a larger sum at the annual school meeting, and may vote a tax to pay the transportation during school days of such children. (Michigan: Howell's Statutes, v. 4, p. 4049)

District System

Sec. 9867 . . . The township board of each township shall have authority to divide the township into such number of school districts as may from time to time be necessary, which districts it shall number, and it may regulate and alter the boundaries of the same as circumstances shall render proper; and each district shall be composed of contiguous territory and be in as compact a form as may be. Districts heretofore organized shall remain and have the same boundaries as at the time of the passage of this act, subject to change hereafter in the discretion of the township board.

Sec. 9887 . . . At the first meeting in each school district there shall be elected by ballot a moderator for the term of three years, a director for two years, and a treasurer for one year; and on the expiration of their respective terms of office, and regularly thereafter at the annual meetings, their several successors shall be elected in like manner for a term of three years each. The time intervening between the first meeting in any school district and the first annual meeting thereafter shall be reckoned as one year.

Sec. 9899 . . . The district board shall hire and contract with such duly qualified teachers as may be required; and all contracts shall be in writing and signed by a majority of the board in behalf of the district. Said contracts shall specify the wages agreed upon and shall require the teacher to keep a correct list of the pupils, grading and age of each, attending the school, and the number of days each pupil is present, the aggregate attendance, average daily attendance and percentage of attendance, and to furnish the director with a correct copy of the same at the close of school.

Said contract shall be filed with the director and duplicate copy of the contract shall be furnished to the teacher. No contract with any person not holding a legal certificate of qualification then authorizing such person to teach shall be valid, and all such contracts shall terminate if the certificate shall expire by limitation and shall not immediately be renewed, or if it shall be suspended or revoked by proper legal authority. A school month within the meaning of the school laws shall consist of four weeks of five days in each week, unless otherwise specified in the teacher's contract. (Michigan: Howell's Statutes, v. 4, pp. 3940, 3951, 3955 and 3956)

NORTH DAKOTA

Township and District System

Sec. 1141 . . . The county commissioners of each county in this state shall organize into a school district any territory not, at the taking effect of this act (sections 1105-1422), already organized into a school district upon being petitioned so to do by at least one-third of the residents of such territory having the care and custody of any child of school age; provided, such territory shall consist of not less than one congressional township and shall have at least twelve thousand dollars in taxable property and at least ten children of school age residing therein.

Sec. 1144 . . . In any county in this state, if a civil township, having less than fifteen persons of school age residing therein, by reason of the irregular course of natural boundary, contains less than twelve square miles of territory, it shall constitute a portion of the adjacent school district with which it has the longest common boundary line. (North Dakota: Compiled Laws Annotated, 1913, v. 1, pp. 276-77)

Sec. 1145 . . . Each school district constituted or formed under the provisions of this article, shall be designated and a school district as distinguished from a civil township or congressional township and shall be named as follows: Each school district which consists of a civil township shall be named ".....school district of.....county, state of North Dakota," with the name of the civil township inserted in the blank before the word "school" and the name of the county in which it is situated inserted before the word "county." Each school district which consists of territory not organized into a civil township, but which has already a distinctive name, may by a majority vote at any annual school election, after such territory has been organized into a civil township, change such distinctive name to conform to the name given the civil township. Each school district consisting of territory not organized into a civil township which has no distinctive name shall be named "school district no..... ofcounty, state of North Dakota," which is organized for school purposes under the district system at the taking effect of this act, the several school districts shall retain and be known by the number which they have respectively at the time of the taking effect of this act and any school district hereafter formed in any such county shall be known by the number next higher than that of the highest preexisting numbered district. (North Dakota: Laws 1915, ch. 134, p. 171-72)

Sec. 1146 . . . The board of county commissioners and county superintendent of schools may change the boundaries of any school district or

consolidate two or more districts already organized if in their judgment such change is desirable or necessary upon being petitioned so to do by a majority of the school voters residing in the districts whose boundaries will be affected by such change. (North Dakota: Compiled Laws Annotated, 1913, v. 1, p. 277)

Sec. 1151 . . . On the first Tuesday in June of each year there shall be elected one school director for the term of three years and on the first Tuesday in June of each even numbered year a school treasurer for the term of two years. Such officers shall hold their respective offices from the second Tuesday in July following their election for the number of years respectively for which they were elected, and until their successors are elected and qualified. At the first election for the organization of a new school district there shall be elected at large for such school district three directors, one to serve until the first annual election, one to serve until the second annual election thereafter and one to serve until the third annual election thereafter, and a school treasurer to serve until the annual election in the next even numbered year and until his successor is elected and qualified. (North Dakota: Compiled Laws Annotated, 1913, v. 1, p. 278 and 279)

Sec. 1173 . . . The district school board shall have the general charge, direction and management of the schools of the district, and the care, custody and control of all the property belonging to it, subject to the provisions of this chapter; provided that in the employment of teachers, no person related by blood or marriage to any member of the district board shall be hired without the unanimous consent of the board. (North Dakota: Compiled Laws Annotated, 1913, v. 1, p. 283)

Sec. 1174 . . . It shall organize, maintain and conveniently locate schools for the education of children, of school age within the district, and change or discontinue any of them as provided by law.

Sec. 1175 . . . It shall make all necessary repairs to school houses, outbuildings and appurtenances, and shall furnish fuel and all necessary supplies for the schools and provide for janitor service. (North Dakota: Compiled Laws Annotated, 1913, v. 1, p. 284)

Sec. 1176 . . . The district school board shall, with the approval of the county superintendent of schools, furnish to each school all necessary and suitable furniture, maps, charts, globes, blackboards, and other school apparatus, including any dictionary which is recognized as a standard authority. The school register and all school blanks used shall be those furnished by the state department of public instruction. It shall appropriate and expend each year not less than ten (\$10), or more than twenty-five (\$25), for each school of the district for the purpose of school library, to be selected by the school board and the teacher, from any list of books authorized by the superintendent of public instruction, and furnished by him to the county superintendent for that purpose; provided, that all books purchased for the library shall be bound in cloth or some material equally as durable; provided further, that when a school board of a common school, has purchased and has in their library two hundred books as afore provided, that the school board having such school under their supervision shall be obliged to expend not less than five dollars (\$5) annually, until such library shall contain, in good condition, three hundred volumes, after which

said school board shall not be obliged to purchase so as to increase the number, but shall keep the books in good condition, and replace annually as many books as may become lost or destroyed. (North Dakota: Laws 1915, ch. 132, p. 170)

Sec. 1177 . . . It shall have the care and custody of the library and may appoint as librarian any suitable person, including one of their number, but whenever practicable, the library shall be kept in the school house and always so when school is in session.

Sec. 1178 . . . It shall employ the teachers of the school district and may dismiss a teacher at any time for plain violation of contract, gross immorality or flagrant neglect of duty. No person shall be permitted to teach in any public school who is not the holder of a teacher's certificate or a permit to teach, valid in the county or district in which such school is situated, and every contract for the employment of a teacher must be in writing and such contract must be executed before such teacher begins to teach in such school; provided, that no teacher holding a valid certificate shall receive less than forty-five dollars per month. Nothing in this section shall be construed to mean that teachers holding the same grade certificate must necessarily receive the same salary.

Sec. 1179 . . . It shall have the power to admit to the schools in the district, pupils from other districts when it can be done without injuring or overcrowding such schools, and shall make regulations for their admission and the payment of their tuition. It shall have the power to arrange with the board of another district for sending to such district such pupils as can conveniently be taught therein, for paying their tuition, and for arranging the duty of the board of any district to arrange for sending to such district and paying for their transportation to and from the school in such district; and when petitioned by a majority of the voters of a district it shall be such pupils as can conveniently be taught therein, for paying their tuition and for arranging and paying for their transportation to and from the school in such district. It shall have the power to admit to the schools in the district, pupils residing in unorganized territory adjacent to the district, and to arrange with the parents or guardian of such pupils for paying their tuition; but in no instance shall a board refuse privileges to or collect tuition from pupils residing in such adjacent unorganized territory, if the parents of such pupils are property holders in the district and pay taxes. It shall also have the power to make proper and needful rules for the assignment and distribution of pupils to and among the schools in the district, and their transfer from one school to another.

Sec. 1180 . . . It shall assist and cooperate with teachers in the government and discipline of the schools, and may make proper rules and regulations therefor. It may suspend or expel from school any pupil who is insubordinate or habitually disobedient, but such suspension shall not be for a longer period than ten days nor such expulsion beyond the end of the current term of school.

Sec. 1181 . . . Subject to the approval of the county superintendent, it shall have power to determine what branches, if any in addition to those required by law shall be taught in any school of the district.

Sec. 1182 . . . It shall have power to levy upon the property in the district a tax for school purposes of not exceeding thirty mills on the dollar

in any year, which levy shall be made by resolution of the board prior to the twentieth day of July. The clerk shall immediately thereafter notify in writing the county auditor of the amount of tax so levied. It shall not have power to abate or reduce the amount of tax so levied after the county auditor has been notified of the amount of such levy. (North Dakota: Compiled Laws Annotated, 1913, v. I, p. 284-86, 288)

Sec. 1190 . . . The district school board may call, and if petitioned by one-third of the voters in the district, shall call an election to determine the question: (1) "To consolidate two or more schools or the territory usually served by two or more schools and select a site and provide a suitable building," or (2) "to select a school already established and, if necessary, make suitable additions thereto to accommodate the pupils of the school to be vacated."

Said election shall be conducted, both as to notices and as to manner of canvassing the votes, in the same manner as the annual school elections. If a majority of the votes cast at such an election are in favor of either proposal, then the board shall carry out the decision of the district within four months thereafter.

In the event of carrying out either proposal prior to or after the passage of this act, it shall be the duty of the board to provide for the transportation of the pupils at public expense to and from the consolidated school, except to those pupils living less than two and one-half miles from such school; and it shall also be the duty of the board, if deemed expedient, to move to the site selected schoolhouses already built or to sell such schoolhouses. (North Dakota: Laws 1915, ch. 127, p. 166)

WISCONSIN

Township-District System

Sec. 412 . . . The town board shall have power to alter or unite existing and to form new districts. The territory of a district shall be contiguous. If a district contract debt it shall not be so altered by taking its territory as to leave such debt exceeding five per cent of the last assessed valuation of the taxable property remaining therein.

Sec. 415 . . . If a district is to be formed from adjoining towns the boards of such towns shall meet, act together and make their joint written order describing the territory embraced in such district, signed by at least two of the supervisors of each town, file the order with the town clerk of each town, deliver the notice of formation to a taxable inhabitant of such district, and cause the same to be served and returned as prescribed in section 413; and such district may be altered only by the joint action of such town boards as provided in section 418. Districts become joint by the division of a town without other action.

Sec. 417 . . . The word district as used in this chapter, unless otherwise defined, means school district, and a district lawfully organized is a body corporate and possesses the usual powers of a public corporation by the name and style of school district (joint) school district number, of the town (towns) of, name of the town (towns) in which the district is situated. Such number shall be designated by the town board or boards in the order of the formation thereof. The board shall make its contracts in its corporate name. Provided, however, that when the terri-

tory embraced in any district or districts shall have been heretofore or shall hereafter be organized into a village or city, such district shall be known by the same name as theretofore but with the name of such village or city substituted in lieu of the name of such town, and the use heretofore of the name of such village or city in lieu of the name of such town in the designation of such a school district is hereby legalized and confirmed.

Sec. 419-*b* . . . Whenever an application in writing, signed by at least one-third of the legal voters in each of two or more school districts, shall be filed with the chairman of a town board of supervisors or the president of a village board of trustees or mayor of the city in which any part of such whole or joint school districts are situated, requesting the town board or boards of supervisors, or the town board or boards of supervisors and the village board of trustees or city council of any of the municipalities included wholly or in part within the boundaries of such school districts, to call a meeting of the town board or boards of supervisors, or the town board or boards of supervisors and the village board of trustees or city council, to consider the question of altering the boundaries of such school districts and forming in lieu thereof one consolidated school district, it shall be the duty of the officer with whom such application or petition has been filed, to fix a time for the meeting of the town board or boards of supervisors, or the town board of supervisors and the village trustees for a meeting of the town board of supervisors or for a joint meeting of the town boards of supervisors or town boards of supervisors and the village board of trustees, or city council, in which any part of such whole or joint school district may be situated, which time shall not be less than ten nor more than twenty days after the presentation to such officers of such petition or application.

Sec. 419-*e* . . . In case two or more school districts shall be ordered consolidated, and in case the electors and school board of such consolidated school district shall maintain during any school year a first class rural school, a state graded school or free high school, and the grades below a free high school, and the electors of such consolidated school district shall direct the school board to transport all persons of school age living more than two miles from the school in such district, that may desire to attend school, then the state may repay to such school district ten cents per day for each such person living more than two miles from school, the distance to be measured by the nearest traveled highway, that was so transported to and attended school regularly for at least six months during the school year.

Sec. 419-*f* . . . In case the electors of any such consolidated school district shall desire to take advantage of the provisions of sections 419-*b* to 419-*h*, inclusive, relating to transportation, they may make arrangement with the parents, guardians, or other persons to transport children living more than two miles from school; providing, that such parents, guardians or other persons shall provide for the transportation of the children in a comfortable and convenient bus or wagon well supplied with protection against inclement weather, and shall actually transport or provide for the transportation of such children to the school for at least six months.

Sec. 419-*g* . . . Any board of the consolidated school district entitled to aid under the provisions of sections 419-*b* to 419-*h*, inclusive, shall, on or

before the fifteenth day of July in each school year make under oath a report to the state superintendent giving the name of each pupil transported more than two miles, the number of days each such pupil was transported, the mode of transportation, and the total amount claimed by the district on account of all pupils residing more than two miles from school for whom transportation or transportation and tuition have been paid. Upon receipt of such report the state superintendent shall certify to the secretary of state the amount due such district, and the secretary of state shall thereupon issue a warrant in favor of such district, for such amount which shall be paid by the state treasurer to the treasurer of the district from the school funds provided for by section 1072*a* of the statutes.

Sec. 419-*h* . . . To carry out the provisions of this act there is hereby appropriated annually, out of the moneys assessed and collected under the provisions of section 1072-*a* of the statutes, a sum sufficient to meet all the approved claims coming under the provisions of sections 419-*b* to 419-*h*, inclusive.

Sec. 430-2 . . . The electors shall also have power to order the board to provide for transportation of any or all pupils residing in the district to and from the school in their district or to and from the school or schools with which contracts for tuition are made.

Sec. 430-3 . . . In all cases where the electors have voted to suspend the school in their district or have directed the board to pay for tuition or for transportation they shall provide by tax upon the district, a sum sufficient to meet the cost of the tuition or the transportation or both; provided, that if any district at its annual or at a subsequent special meeting prior to the third Monday of November following shall not vote a tax sufficient to pay for tuition or transportation or both for the time during which the school is suspended, the district board, on or before the Wednesday next following said third Monday of November, shall determine the sum necessary to pay for tuition or transportation or both, as the case may be, and the district clerk shall at once certify to the town clerk the amount so fixed and the town clerk shall assess said amount as other district taxes are assessed.

Sec. 430-4 . . . It shall also be lawful for the electors of any school district to authorize the school board or town board of school directors to enter into an agreement with the parent, guardian or other person in charge of any pupil to compensate such parent, guardian or other person for transportation, or providing for the transportation of any pupil or pupils to and from school, and to enter into contracts for the transportation to and from school of all persons of school age who attend, and to levy a tax therefor; provided, that in all cases where the distance from the home of the pupil or pupils, who are to be transported, is two miles or less by the nearest traveled highway, the sum per pupil so paid shall be such as may be authorized by the electors, and in all cases where the distance is more than two miles the state may be called upon to pay five cents per day for each such pupil transported regularly to and from school in some reasonable and comfortable manner for a period of not less than five months. The school board or the town board of school directors and the principal teacher of the school in which such pupil is enrolled shall, on or before the fifteenth day of July of each year, make under oath a report giving the name of each

pupil transported more than two miles, the number of days such pupil was transported, the mode of transportation and the total amount claimed by the district on account of all pupils residing more than two miles from school, for whom transportation or transportation and tuition have been paid.

Sec. 430-5 . . . Upon receipt of such report the state superintendent shall certify to the secretary of state the amount due such district and the secretary of state shall thereupon issue a warrant in favor of such district for such amount which shall be paid by the state treasurer to the treasurer of the district from the school funds provided for by section 1072-a of the statutes.

Sec. 431 . . . The officers of the district shall be a director, treasurer and clerk, who shall be residents of the district and hold their respective offices for three years and until their successors have been elected or appointed, but not beyond ten days beyond the expiration of their term of office without being again elected or appointed; provided, that at the first election of such officers in any newly organized district the clerk shall be chosen for one year, the treasurer for two years and the director for three years; and thereafter each officer shall be chosen for three years. Any person present at a meeting at which he shall be elected one of the board shall be deemed to be notified thereof; and any person so elected and not present shall be notified thereof by the clerk of said meeting within five days thereafter; and unless each person elected and notified shall within ten days after his election file with the clerk his refusal in writing to accept the office he shall be deemed to have accepted the same.

Sec. 434 . . . When lawfully directed by the electors the board shall purchase or lease the site for a schoolhouse designated by the district, build, hire or purchase a schoolhouse out of the funds provided for that purpose, and sell and convey any site, schoolhouse or other property of the district.

Sec. 435 . . . The board shall have the care and keeping of the schoolhouse, books, apparatus and other property of the district, except that especially confided by law to the clerk, and before each annual meeting they shall make and deposit with the clerk of the district an inventory thereof; keep the schoolhouse in good condition and repair, and provide all necessary appendages during the time a school shall be taught therein.

Sec. 438 . . . The board shall contract with qualified teachers, specify in the contract the wages per week, month or year to be paid, and when completed file the contract, with a copy of the certificate of the teacher so employed attached thereto, with the clerk. No contract with any person not holding a diploma or certificate authorizing him to teach shall be valid; and all such contracts shall terminate if the authority to teach expire by limitation and be not renewed or be revoked.

Sec. 496-g . . . Whenever the electors of any rural school district maintaining a one or two department rural school shall direct the school board or the town board of school directors to close the district school, and provide transportation and tuition for all persons of school age, who may desire to attend school, at a district maintaining a one or two department rural school, or a state graded school, or the grades below the free high school in a free high school district, each such rural school district shall receive special state aid in the sum of one hundred fifty dollars annually upon complying with the following conditions:

1 Transportation and tuition shall be provided for at least thirty-two weeks including legal holidays for all persons of school age desiring to attend school during the school year.

2 The average daily attendance of the pupils transported under the provisions of this act from any district or subdistrict to the school in any rural school district, or to a state graded school, or to the grades in a district maintaining a free high school shall be at least eighty per cent of the entire number enrolled for transportation to such school during each term of school.

3 The district board shall in all cases where the school is closed and transportation is provided by a team, enter into a written contract in the name of the district with one or more persons, whereby it is agreed that such person or persons are to safely and carefully carry or provide for carrying the children to and from the school or schools in the district where provision has been made for their schooling.

4 The driver of each transportation wagon shall be of good moral character, trustworthy and responsible; shall furnish a safe team and suitable and comfortable bus or wagon well supplied for protections against stormy and inclement weather; such driver shall have control of and be responsible for the good order and behavior of the children while in the conveyance going to and returning from school, and shall prohibit the use of profane or unseemly language upon the part of the pupils, and shall report all cases of insubordination while on the wagon to the parents and to the school board of the district. Be it also understood that in cases where it is practicable conveyance by interurban, steam railway or automobile shall be equivalent for transportation or conveyance by a team.

5 No state aid under the provisions of sections 496-*q* to 496-*t*, inclusive, shall be paid to any district providing transportation and tuition for its pupils at a district maintaining a rural school of one or more departments, unless the school in the district where such nonresident children attend shall be a first-class rural school as defined in sections 560-*f* to 560-*m*, inclusive, and acts amendatory thereof, and it is further provided that in case the district entering into a contract for the schooling of nonresident pupils, according to the provisions of sections 496-*q* to 496-*t*, inclusive, and shall fail to maintain a first-class rural school as provided in sections 560-*f* to 560-*m*, inclusive, then such school districts shall forfeit their rights to collect tuition from the district where such nonresident children reside for such school year or part of a school year that the school in such school district shall not have been maintained as a first-class rural school.

6 The school board of each district taking advantage of sections 496-*q* to 496-*t*, inclusive, shall make annually, on or before the first day of August, a special report under oath to the state superintendent of public instruction showing that the above conditions have been complied with, and this report shall give the names and ages of the persons transported, the number of days each such person was transported and attended school, the rate of tuition paid and the amount of tuition paid for each person.

7 It shall be the duty of the county superintendent of schools in any county where a rural school takes advantage of the provisions of sections 496-*q* to 496-*t*, inclusive and provides transportation and tuition for persons of school age at a rural school, to report annually to the state superintendent upon the blanks furnished by him, such information as he may request for

the purpose of ascertaining if the rural school in such district during the year for which aid is demanded was maintained as a first-class rural school, according to the provisions of sections 560-*f* to 560-*m*, inclusive.

8 Upon the receipt of such sworn statement of the school board and in case of the attendance of the pupils at a rural school of a satisfactory report from the county superintendent of schools, it shall be the duty of the state superintendent to certify to the secretary of state the amount due each such school district under the provisions of sections 496-*q* to 496-*t*, inclusive. It shall then become the duty of the secretary of state to draw his warrant for the amount certified in favor of the treasurer of each such school district.

Sec. 496-*r* . . . Whenever fifteen per cent of the electors of any rural school district, and one or more contiguous school districts within or outside of an incorporated village shall petition therefor, the respective school boards shall meet at a place designated by the school board of the petitioning district having the largest population to fix a time for an election to determine whether the district schools within the districts shall be consolidated. They shall fix the date of the election at not less than two, nor more than four weeks from the time of their meeting and notify the district clerks of the date. Such election shall be called for eight o'clock in the afternoon. The district clerks of the respective districts shall post the notices of election as notices of school district meetings are posted. The elections shall be held by the school officers of the respective districts by written ballots. They shall report the result of the election in their respective districts to the clerk of the district in which the meeting to fix the time of the election is held, within three days after the election. The respective school board one week after the election shall meet in the same manner and place as for calling the election and shall canvass the returns.

2 If a majority of those of each district voting at the election vote in favor of consolidating the district schools in their respective school districts, the territory included constitutes a consolidated rural school district.

3 The school boards at the time of canvassing the returns shall appoint a time and place for the first district meeting and shall post a written notice thereof in at least three public places in each of the several districts which compose the consolidated school district.

Sec. 496-*g* . . . The officers of any consolidated rural school district may enter into contracts for the transportation of pupils to the consolidated rural schools maintained under their authority.

Sec. 496-*h* . . . The school board of any consolidated rural school district established and formed under the provisions of sections 496-*i* to 496-*l*, inclusive, must provide transportation to and from the consolidated school for all children of school age residing more than two miles from such consolidated school, the distance to be measured by the regularly traveled highway. In case the electors of such consolidated rural school district fail to levy a sufficient amount to enable the school board to provide for the transportation as required by this section, the board shall on or before the second Wednesday in November certify to the town clerk a tax sufficient to meet all obligations arising on account of contracts entered into for the transportation of children living more than two miles from school, which

tax, when so certified to the town clerk, shall be levied and collected as other district taxes are now levied and collected.

Sec. 496-12 . . . It shall also be lawful for the electors to authorize the school board to enter into an agreement with the parent, guardian or other person in charge of any pupil, to compensate such parent, guardian or other person, for transporting any pupil or pupils to and from school, and to enter into contracts for the transportation to and from school of all persons of school age who attend, and to levy a tax therefor. In all cases where the distance from the home of the pupil or pupils who are to be transported is two miles or less by the nearest traveled highway, the sum per pupil so paid shall be such as may be authorized by the electors; and in all cases where the distance is more than one and less than two miles, the state shall pay five cents per day, and where the distance is more than two miles, ten cents per day for each pupil transported regularly to and from school in some reasonable and comfortable manner for a period of not less than five months. The school board and the principal teacher of the school in which such pupil is enrolled shall, on or before the fifteenth day of July of each year, make under oath a report giving the name and showing the distance and number of days each pupil was transported, the mode of transportation, and the total amount claimed by the districts on account of such transportation.

Sec. 516 . . . 1 Whenever the township system shall be abolished in any town, the town board of supervisors of said town shall meet for the purpose of creating and forming suitable independent districts. Such meeting shall be held between the first day of March and the first day of June, 1912. Due notice giving the time and place (day and hour) of such meeting shall be given in writing to each school officer in the town, and a copy thereof shall be posted in at least four public places in each subdistrict, and another copy affixed to the outer door of each schoolhouse in the town, not less than ten, nor more than fifteen days previous to the day of meeting fixed in the notice. If one or more weekly newspapers are published in the town, publication of the notice in such paper or papers for at least two consecutive weeks immediately preceding the meeting shall answer in place of service and posting of notices.

Sec. 553-*m* . . . 1 Whenever at any annual county school board convention provided for in subsection 9 of section 461, the question of adopting county or district uniform school text books shall be voted upon, the vote shall be taken by school districts and each school district shall be entitled to one vote. If a majority of all the districts in the county or superintendent district is in favor of adopting county or district uniform text books, it shall be the duty of said school board convention to immediately proceed to the election of a county board of education for such county or superintendent district, which board shall be composed of five persons, except as hereinafter provided. And said school board convention shall, at a regular annual meeting every four years thereafter elect five persons who shall constitute said county board of education. School officers residing in school districts not affected by the provisions of this act shall not be entitled to vote on the question of uniformity of text books nor be entitled to participate in the election of the members of the county board of education.

Sec. 553-*m* . . . 2 Whenever it shall be impracticable in any county to elect said board because of a limited number of persons in such county, possessing the qualifications in this act provided, the county school board convention shall elect three persons who shall constitute said board of education.

Sec. 553-*m* . . . 3 The members of the county board of education so elected shall hold their offices for four years and until their successors are elected and qualified.

Sec. 553-*m* . . . 4 The county school board convention shall fill all vacancies occurring in said board of education, excepting vacancies occurring between the annual meetings of said school board convention which shall be temporarily filled by said county board of education.

Sec. 553-*m* . . . 11 Every county board of education shall, between the first day of January and the first day of July, next following the date of their appointment, and every fourth year after the first adoption of text books, meet at the county seat and select and adopt a uniform series of textbooks for their respective counties.

Sec. 553-*m* . . . 25 . . . The members of the said county board of education shall be reimbursed their actual and necessary expenses in the performance of their duties; the same to be paid out of any funds of the county not otherwise appropriated. (Wisconsin: Statutes, 1915, p. 249-53, 256-59, 263, 318-21, 324 and 328-31)

LAWS ON COUNTY AND CONSOLIDATED SYSTEM

ALABAMA

Sec. 1 That from and after the third Saturday in November, 1916, the public schools of each of the several counties of the State, except those in incorporated cities and towns, shall be under the immediate direction and control of a county board of education consisting of five members. The county board of education of each county shall be elected by the qualified electors of the county. All members of the county board of education of any county shall be persons of good moral character with at least a fair elementary education, of good standing in their respective communities, and known for their honesty, business ability, public spirit and interest in the good of public education.

Sec. 2 That at the general election of State and county officers in November, 1916, the qualified electors of the county shall elect five members of the county board of education; and provided that the five persons receiving the highest number of votes from the county at large shall be declared the members of the county board of education; provided, that the two members of the board so elected receiving the highest number of votes shall hold office for a term of six years; that the two members receiving the next highest number of votes shall hold office for a term of four years; and that the members so elected receiving the lowest number of votes shall hold office for a term of two years; provided further, that at the general election of State and county officers in November, 1918, and biennially thereafter, a member or members shall be elected for terms of six years to succeed those whose term or terms of office shall expire at that time; provided that any member

of the board of education shall hold office until a successor has been elected and qualified.

Sec. 4 That the county board of education of each of the several counties, elected as herein provided, shall meet in the office of the county superintendent of education of the county within ten days after the election of such board or any member thereof, qualify and organize by electing one of its members president. The president shall be entitled to vote on all questions. The county superintendent of education shall be the secretary and executive officer of the board and shall attend all meetings of the same, but he shall not have the right of a vote in the board.

Sec. 5 That the county board of education shall have entire control of the public schools, unless otherwise provided by law, within their respective counties. They shall make rules and regulations for the government of the schools, see that the teachers perform their duties, and exercise such powers consistent with the law as in their judgment will best subserve the cause of education. The board shall have the right to acquire, purchase, by the institution of condemnation proceedings if necessary, lease, receive, hold, transmit, and convey the title to real and personal property for school purposes, except where otherwise provided, by and in the name of the county board of education, to sue and contract, all contracts to be made after resolutions adopted by the board and spread on its minutes and signed by its president. All process shall be executed by service on the executive officer of the board.

Sec. 6 In addition to the duties hereinbefore prescribed, the county board of education shall perform the following duties: (1) Select a county superintendent of education, prescribe his duties in addition to those required by law, and the amount of his salary; provided, that no member of a county board of education shall be eligible for election as county superintendent of education during the term for which he was elected as a member of the board of education. (2) Elect a county treasurer of public school funds. (3) Elect to hold office until the next regular election as provided under this act, the successor to any member of the county board of education whose place may have become vacant by death, resignation, or other cause; provided, that in case the county board fails for a period of thirty days to fill said vacancy, the State superintendent of education shall have authority to appoint a member to fill the same. At the next general election held in November, a successor shall be elected for the unexpired term as provided by section 2 of this act for the election of other members. (4) Select upon the nomination of the county superintendent of education, assistant superintendents, supervisors and such office force as may be necessary, and fix their salaries. (5) Select teachers for the several schools of the county upon nomination of the county superintendent of education, fix their salaries, erect, repair, and furnish school houses, fix all wages of employees, determine all incidental expenses, and have entire control of the public school funds of the county, except as otherwise provided by law. (6) Fix the boundaries of school districts and locate schools with reference to convenience, efficiency, and economy. (7) Consolidate schools and provide for the transportation of pupils at public expense. (8) Upon the agreement of the boards of education of adjoining counties, authorize a child residing in one county to attend school in another county, and it shall be permitted to do so when the

school in the other county is nearer than any school in its own county; upon the request of parents or guardians, a city board of education and a county board of education may make any just and equitable arrangement for the attendance of the children of the city at the schools of the county, and for the attendance of the children of the county at the schools of the city, and they shall do so when it can be done without injury to the schools of either the county or the city. (9) Control the public school funds as provided by law. (10) Appoint for every school in the county discreet, competent and reliable person or persons of mature years, not exceeding three in number, residing near to the schoolhouse, and having the respect and confidence of the people of the community, to serve as trustee or trustees of the school, to care for the property and to look after the general interests of the school, and to make to the county board of education, through the county superintendent of education, from time to time, reports of the progress and needs of the schools, and of the will and sentiment of the people in regard to the school; but such person or persons shall not be paid for such service out of the public school funds. (11) Enforce compulsory attendance as required by law. (12) Act as promptly as possible on cases of appeal by pupils suspended by teachers. (13) Dismiss county superintendents, and teachers for incompetency, improper or immoral conduct, or inattention to duty, or whenever in their opinion the best interests of the school may require. (14) Select resident persons to enumerate the scholastic population of all children between the ages of seven and twenty-one years as provided by law, and to require that in enumerating the scholastic population, the name of the child, the name of the parent or guardian, the age of the child, the school to which it belongs and the distance to the nearest school, be recorded, and also the fact as to whether the child is able to read and write. White children and negro children shall be reported in separate lists, and in any town or city maintaining a public school system, the board of education of that incorporated city or town, is hereby empowered and required to enumerate the scholastic population of that city or town as provided by law; and in addition to giving the name of the child, and the name of its parents or guardians, and stating whether the child can read and write, the name of the street and number of the house in which it resides shall be given.

Sec. 7 The members of the county board of education shall receive from the public school funds of the county their actual traveling and hotel expenses incurred in attending meetings of the board; provided that such expenditures shall be allowed for not more than twelve meetings in any one year. The members of the county board shall be paid in like manner as provided for the compensation paid to teachers; provided, that they shall not be required to hold state teachers' certificates. County superintendents shall be paid a minimum salary of \$1000 a year after September 30, 1915, shall engage in no other form of remunerative work.

Sec. 8 All laws or parts of laws in conflict with the provisions of this act, except such as make provisions for local taxation for school purposes, are hereby repealed, and in case any part of this law is declared unconstitutional, the parts not so declared unconstitutional shall remain in full force and effect as the law of the State. (Alabama: General Acts, 1915, no. 220, pp. 281-248)

FLORIDA

Sec. 328 The officers of the department of public instruction shall be a state superintendent of public instruction, a state board of education, a board of public instruction for each county, a superintendent of public instruction for each county, local school supervisors and treasurers.

Sec. 329 A board of public instruction shall consist of not more than three (3) members, no two of whom shall reside in the same district.

Sec. 341 Each board of public instruction is constituted a body corporate by the name of "The board of public instruction for the county ofstate of Florida," and in that name may acquire and hold real and personal property, receive bequests and donations, and perform other corporate acts for educational purposes.

Sec. 342 Each board before proceeding to any other business, shall complete its own organization. The chairman and secretary shall then make and sign two copies of the proceedings of organization, and annex their affidavits to each that the same is a correct and true copy of the original. They shall file one copy in the office of the clerk of the circuit court of the county, to be by him recorded in the record of deeds, and file the other copy in the office of the state superintendent of public instruction.

Sec. 343 The title to the school property of the county shall be vested in them and their successors in office, except in such special tax school districts as provided for.

Sec. 344 The members of the various county school boards shall be paid from the county school fund for their services four dollars per day, for each day's service, and ten cents per mile for every mile actually traveled in going to and from the county court house by the nearest practicable route.

Sec. 347 Each board of public instruction is directed:

First. To obtain possession of, accept and hold, under proper title, as a corporation, all property possessed, acquired or held by the county for educational purposes, and to manage and dispose of the same for the best interest of education: provided, that nothing in this act shall be so construed as to prevent any special tax school district from holding school property that it has, or may hereafter acquire, for school purposes, or prevent such districts from receiving their portions of money set apart for school purposes.

Second. To locate and maintain schools in every locality in the county where they may be needed, to accommodate, as far as practicable, all the youth between the ages of six and twenty-one years, during not less than four months in each year.

Third. To appoint one supervisor for each school on the recommendation of the patrons, whose duty it shall be to supervise the work of the school and to report to the county superintendent of public instruction monthly the result of his observations.

Fourth. To select and provide a site for each school house of not less than one-half acre of ground in the rural districts, and as nearly that amount as is practicable in the villages or cities. The situation to be dry, airy, healthful and pleasant, also reasonably central and convenient of access for all who should attend the school.

Fifth. To do whatever is necessary with regard to purchasing or renting school sites and premises, constructing, repairing, furnishing, warming, ventilating, keeping in order or improving the school houses, out buildings,

fences, land and movable property, procuring proper apparatus for the schools, grading and classifying the pupils, and providing separate schools for the different classes in such a manner as will secure the largest attendance of pupils, promote the harmony and advancement of the school, and establishing when required by the patrons, schools of higher grades of instruction where the advancement and number of the pupils require them.

Sixth. To employ teachers for every school in the county, and to contract with and pay the same for their services: provided, that schools shall not be located nearer than three miles to each other, unless for some local reason or necessity.

Seventh. To audit and pay all accounts due by the board of public instruction.

Eighth. To keep accurate accounts of all their official acts, proceedings and decisions, of all moneys received, held or disbursed, of all property acquired or disposed of, in a proper set of account books, and a record of the state and condition of each school, and to report the same to the state superintendent of public instruction when required. They shall also at the close of the scholastic year prepare an itemized report of all moneys by them received and disbursed.

Ninth. To prepare and file with the clerk of the circuit court of their respective counties by the first Tuesday after the first Monday in every month, an itemized financial statement showing all sums of money received during the month next preceding, on account of county school funds, and from whom received, and from what source derived, all appropriations made by such board, and for what purpose made, all warrants drawn by such board, in whose favor and for and on what account drawn, describing such warrant by date, number and amount. All such monthly financial statements shall be certified by the chairman of the board of public instruction for the county, and attested by the county superintendent of public instruction, and the said board shall without delay cause the same to be published in a newspaper of the county, when any such newspaper exists: provided, that the cost of such monthly publication shall not exceed two dollars per month; otherwise they shall post the same at the court house and at three other public places in the county.

Tenth. To prescribe, in consultation with prominent teachers, a course of study for the schools of the county and grade them properly; and to require to be taught in every public school in the county over which they preside, elementary physiology, especially as it relates to the effects of alcoholic stimulants and narcotics, morally, mentally and physically; and all persons applying for certificates to teach shall be examined upon this branch of study, under the same conditions as other branches required by law.

Eleventh. To fix the compensation for the services of the county superintendent of public instruction.

Twelfth. To perform all acts reasonable and necessary for the promotion of the educational interests of the county and the general diffusion of knowledge among the citizens.

Thirteenth. To hold regular meetings for the transaction of business, by arrangement with the state superintendent of public instruction, and to convene a special session on emergencies when requested by the county superintendent of public instruction.

Fourteenth. To prepare on or before the last Monday in June of each year, an itemized estimate showing the amount of money required for the maintenance of the necessary common schools of their county for the next ensuing scholastic year, stating the amount in mills on the dollar of taxable property of the county, which shall not be less than three or more than seven mills, and furnish a copy of the statement to the assessor of taxes of the county, and file a copy in the office of the board of public instruction; and the assessor shall assess the amount so stated, and the collector shall collect the amount assessed and pay over the same monthly to the county treasurer, who is also by law school treasurer, to be used for the sole benefit of the public schools.

Fifteenth. To select candidates for admission to the state colleges and seminaries.

Sixteenth. To have school census taken in case the county superintendent of schools shall fail to perform such duty when the same is required to be performed.

Seventeenth. To examine at least twice each year the books and records of the tax collector which relate to the collection of poll taxes, and said board shall require prompt settlement for all poll taxes assessed, together with those not assessed, but collected. Any member of a county school board who neglects to comply with the provisions of this act shall be suspended from office.

Sec. 347a That whenever there is no money in the county school fund applicable to the payment of outstanding warrants issued by any county school board in this state, the county boards of public instruction of the several counties in this state are hereby authorized and empowered to borrow money at a rate of interest not to exceed eight per cent (8 per cent) per annum for the purpose of paying all such outstanding warrants and for the further purpose of paying any and all legitimate expenses incurred in operating the schools of said county.

Sec. 349 The county board of public instruction in each county shall divide their respective counties into three county school board districts so as to place in each district, as nearly as practicable, the same number of qualified voters, the lines of said district to be so drawn as to place each election district wholly within one or another of said county school board districts; and the members of the county board of public instruction shall file in the office of the clerk of the circuit court for such county a certificate of their said action, containing a description of the boundaries of said districts, and naming the election districts comprising each county school board district, which certificate shall be published in a newspaper published in the county, or if there be no newspaper published in the county, then by posting at the county court house door for four weeks thereafter.

The county board of public instruction may thereafter change the boundaries of any such districts at a meeting in July of the year of general election, but such change shall be certified in the clerk's office and published as required for fixing such districts in the first instance.

Sec. 350 All vacancies on said board of public instruction shall be filled for the unexpired term by appointment by the state board of education on the nomination of the state superintendent of public instruction. (Florida: Compiled Laws Annotated, 1914, v. 1, p. 125, 127, 128-31)

GEORGIA

Sec. 1478. Each and every county in the State shall compose one school district, and shall be confided to the control and management of a county board of education.

Sec. 1479. The grand jury of each county (except those counties which are under a local system) shall from time to time select from the citizens of their respective counties five freeholders who shall constitute the county board of education. Said members shall be elected for the term of four years, and shall hold their offices until their successors shall be elected and qualified; provided, however, that no publisher of school books, nor any agent for such publisher, nor any person who shall be peculiarly interested in the sale of school books shall be eligible for election as member of any board of education or as county school commissioner: provided further, that whenever there is in a portion of any county a local school system having a board of education of its own, and receiving its pro rata of the public school fund directly from the state school commissioner, and having no dealings whatever with the county board of education, then the members of the county board of education of such county shall be selected from that portion of the county not embraced within the territory covered by such local system.

Sec. 1480. The members of the board of education in each county shall each be paid a per diem not to exceed two dollars for each day's actual service, out of the school fund apportioned to the county; and their accounts for service shall be submitted for approval to the ordinary or county school commissioner, and they shall not receive any other compensation, such as exemption from road and jury duty.

Sec. 1481. Whenever members of a county board are elected or appointed, it shall be the duty of the clerk of the superior court to forward to the state school commissioner a certified statement of the facts, under the seal of the court, as evidence upon which to issue commissions. The evidence of the election of a county commissioner shall be the certified statement of the secretary of the meeting of the board at which the election was held. Any member of a county board of education shall be removable by the judge of the superior court of the county, on the address of two thirds of the grand jury, for inefficiency, incapacity, general neglect of duty, or malfeasance or corruption in office; the judges of the superior courts in this state shall have the power to fill vacancies, by appointment, in the county boards of education for the counties composing their respective judicial circuits, until the next session of the grand juries in and for said counties, when said vacancies shall be filled by said grand juries.

Sec. 1482. The board of education shall elect one of their number president, who shall serve as such during the term for which he was chosen a member of the board. The county school commissioner shall be ex officio secretary of the board. A majority of the board shall constitute a quorum for the transaction of business. It shall be the duty of said secretary to be present at the meetings of the board, and to record, in a book to be provided for the purpose, all their official proceedings, which shall be a public record open to the inspection of any person interested therein; and all such proceedings, when so recorded, shall be signed by the president and countersigned by the secretary.

Sec. 1483 It shall be the duty of the county board of education to hold regular sessions on the first Tuesday of the month succeeding the election, and each three months thereafter, at the court house of the county, for the transaction of business pertaining to the public schools, with power to adjourn from time to time; and in case of the absence of the president or secretary, they may appoint one of their own number to serve temporarily.

Sec. 1484 The county boards of education shall have power to define and regulate the length of the public-school terms of their respective counties, and power to purchase, lease, or rent schoolsites, build, repair, or rent schoolhouses, purchase maps, globes, and school furniture, and make all arrangements necessary to the efficient operation of the schools. The said boards are invested with the title, care, and custody of all schoolhouses or other property belonging to the subdistricts now or hereafter defined, with power to control the same in such manner as they think will best subserve the interests of common schools; and when, in the opinion of the board, any schoolhouse site has been unnecessary or inconvenient, they may sell the same in the name of the county board of education, such conveyance to be executed by the president or secretary of said board, according to the order of the board. They shall have power to receive any gift, grant, donation, or devise made for the use of common schools within their respective counties, and all conveyances of real estate which may be made to said board shall vest the property in said board of education and their successors in office. It shall also be the duty of said board of education to make arrangements for the instruction of the children of the white and colored races in separate schools. They shall, as far as practicable, provide the same facilities for both races in respect to attainments and abilities of teachers and length of term-time; but the children of the white and colored races shall not be taught together in any common or public school of this state. In respect to the building of the schoolhouses, the said board of education may provide for the same, either by labor on the part of citizens of the subdistricts, or by a tax on their property.

Sec. 1485 The county board of education shall constitute a tribunal for hearing and determining any matters of local controversy in reference to the construction or administration of the school law, with power to summon witnesses and take testimony, if necessary; and when they have made a decision, said decision shall be binding upon the parties. Either of the parties shall have the right to appeal to the state school commissioner; said appeal shall be made through the county commissioner in writing, and shall distinctly set forth the question in dispute, the decision of the county board, and the testimony as agreed upon by the parties to the controversy, or, if they fail to agree, upon the testimony as reported by the commissioner.

Sec. 1525 [There shall be, subject to the conditions in this article hereinafter set forth, established in each of the several counties of this state, which, according to the United States census of 1910, contained a population of not less than twenty-three thousand and not exceeding twenty-four thousand, in which the county seat of the county shall be an incorporated city or town of a population, according to said census, of not less than fourteen thousand five hundred and not more than fifteen thousand in which there is an established local school system, a county board of education to be styled the board of education of the county, and said board of county education shall

be charged with the direction and control of the education of the white and colored children of such county, between the ages of six and eighteen years.]

Sec. 1525 (b) [On the first day of July following the adoption of this article, in the manner hereinafter provided by any of the counties embraced in the terms of this article, the members of the county board of education of such county then in office, and the members of the board of education of the local system of schools, established for the city or town, which is the county seat of the county, shall, with the mayor of said city, jointly constitute the county board of education provided for in this article, and shall hold office until the expiration of their present terms or until their successors are elected and qualified under the provisions of this article.]

Sec. 1525 (c) [The county board of education provided for by this article shall consist of sixteen members, five of whom, after the expiration of the terms of the present members, shall be elected by the grand jury of the county, at the session of the superior court of said county which shall convene immediately before the expiration of the term of each of the said present members or as soon thereafter as practicable by the grand jury at a subsequent session of said court, and the members so elected shall be citizens of said county, resident without the limits of the city or town, that may be the county seat; and ten members who, after the expiration of the terms of the present members, shall be elected by the mayor and council of the city or town that may be the county seat of such county, at the meeting of said mayor and council held in the month immediately preceding the expiration of the terms of said members, or as soon thereafter as practicable, and such members so elected shall be citizens of said county, resident within the limits of the city or town which may be the county seat of such county; and the mayor of the city or town which may be the county seat of such county shall be ex officio a member of said board of education during his term of office. The members of the said board elected by the grand jury shall be distributed as near as may be among the different militia districts of the county, but not more than one member shall be elected from a militia district; the members elected from the city or town which may be the county seat of the county, shall be distributed as near as may be among the different wards of the city, but no more than three members shall be elected from any one ward. Should the terms of office of the members of either the county board or the city board not expire on January first, then the grand jury, in the case of the county board or the city council, in the case of the city board, as hereinafter provided, shall elect a member to fill the vacancy or hold office until the January first following, if there is one vacancy, or if there are more vacancies, then a member shall be elected to fill each vacancy, but the terms of such members so elected shall be so arranged that the expirations shall fall on the first of January with yearly intervals, so that eventually the terms of one member from the county and two from the city shall expire on the first of January each year. Thereafter, and in the case of members whose terms expire on the first of January, members shall be elected for a term of five years. On the first day of July following the adoption of this article, the county board of education, as herein constituted, shall meet and organize by the election of a president of said board a vice president and a secretary and treasurer thereof, and transact such other business as may be necessary for the opening of the schools in Sep-

tember. In case of vacancy in said board of education by death, resignation or otherwise, the vacancy shall be filled by the election of a person by the board to fill the vacancy until the next meeting of the grand jury of the county or the next meeting of the mayor and council of the city or town, which may be the county seat, when such vacancy shall be filled by the grand jury or the city council, as the case may be, the vacancy in each case being filled by the body which had elected the member whose position had become vacant. All persons elected to fill a vacancy caused by death, resignation or otherwise, before the expiration of the term of a member, shall hold for the remainder of the unexpired term.]

Sec. 1525 (d) [The county board of education, as herein provided for, shall be and they are hereby created a body corporate and politic, with perpetual succession and with the name "The board of education of ——— county," naming the county, and such board shall have full power and authority to establish and maintain, and from time to time change, modify and alter a system of education for white and colored children in each of the counties which may adopt this article and to carry out and superintend the same; to select, appoint and remove a superintendent and such assistants, teachers and all other employees under said system as they may deem necessary; to prescribe and determine the methods of passing upon the qualifications of such teachers and upon what terms they shall be eligible for election; to fix their compensation and that of the superintendent, assistant superintendents, principals, assistant principals and other officers; to provide schoolhouses, to make by-laws for their own government, and rules and regulations for the government of the superintendent, assistants, teachers and schools under their control; to establish schools in their discretion, to adopt textbooks; to purchase, take, receive, hold and enjoy for the purpose aforesaid, real and personal property by gift, grant, contract, devise, or bequest; to sue and be sued by the name and style aforesaid; to have and use a common seal, and generally shall be clothed with all the rights, privileges, power and powers incident to corporations and necessary for carrying out the purposes of this article including the power to sell property held for school purposes and reinvest the proceeds of such sales upon like uses. Such board shall be liable for all the obligations of the county board of education and of the city board of education at the time this article is adopted.]

Sec. 1525 (u) [Upon the request in writing of not less than fifty qualified voters of the county, whose names appear in the last registration list made up by the county registrars of the county, and who are still residents of the county, the ordinary, board of county commissioners, or other tribunal, having charge of county matters of the county, as the case may be, shall call an election to determine whether the provisions of this article shall be adopted by the county, and the ordinary, board of county commissioners, or other tribunal having jurisdiction or authority over the county matters of the county, shall give notice of such election, once a week for four weeks immediately preceding the date of election, in the newspaper in which the sheriff of the county publishes his advertisements, and in said notice shall set forth the title of this act, the date that the election is to be held, and that the question to be determined shall be the adoption of the provisions of this article. Such election shall be held under the same rules and regulations

as now govern in the election of members of the general assembly, and no person shall be allowed to vote at said election until he shall have been duly registered under the laws of this state providing for the registration of voters. The returns of said election shall be, by the manager, made to the ordinary, board of commissioners, or other tribunal calling said election, who shall on the day following the election, or as soon as practicable thereafter, consolidate the returns and declare the result. All persons desiring to vote against the adoption of this article shall have written or printed on their ballots the words "Against county unit system of schools for _____ county," naming the county. All persons desiring to vote in favor of the adoption of this article shall have written or printed on their ballots the words, "For county unit system of schools in _____ county," naming the county. If at said election, two-thirds of the qualified voters of the county voting in said election shall vote in favor of the adoption of the provisions of this article, then said article shall become the law for said county, and there need be no further declaration of the result of said election than a declaration to that effect by the ordinary, board of county commissioners, or other tribunal having jurisdiction of the county matters of such county to whom the returns of said election shall be made.

Sec. 1531 As soon as practicable, it shall be the duty of the county board of education of each county in Georgia to lay off the county into school districts, the lines of which shall be clearly and positively defined by boundaries, such as creeks, public roads, land lines, district lines, or county lines. The school districts thus marked out shall contain an area of not less than sixteen square miles, and where practicable, shall be so shaped as to have the school buildings as near the center as possible, and no territory shall be included whose occupants reside farther than three miles from the school house without written petition of two-thirds of the qualified voters therein: provided, that the board of education may have the right to establish districts with areas less than sixteen square miles where there are natural causes or local conditions that make it necessary to do so.

Sec. 1533 Within ninety days after the board of education has laid off the county as required in section 1531, said board shall order the citizens of the several schools districts to hold an election for the purpose of electing three trustees for each district in the county. The election shall be held at a time and place and in a manner prescribed by the board. The trustees shall be intelligent citizens of good moral character, who are known to be earnest supporters of public education, and they shall serve one for three years, one for two years, one for one year, as the county board of education may determine. In districts containing incorporated towns there may be five trustees, one of whom shall be elected for one year, two for two years and two for three years. The notice of their election shall be filed by the election managers with the county school commissioner, who shall submit the same to the county board of education for their approval. After the local board of trustees have been approved and properly commissioned by the county board, it shall meet immediately and organize by electing one of its number president, and one secretary and treasurer. If the county board should consider any member or members unqualified for the work, they shall refuse to confirm the election of such member or members and require the citizens of a district at a time and place, and in a manner prescribed by the

county board of education, to elect others. At the expiration of the term of office of the members thus elected the citizens of the district shall meet at a time and place, and in a manner prescribed by the county board, and elect their successors, who must be approved by the board as hereinbefore provided, and the election shall be for a term of three years. If any member should refuse to act, or should be guilty of any conduct unbecoming the dignity of a school trustee, the county board of education shall have the right, upon a written complaint of a majority of the voters of the district, to remove said member and have his successor elected as hereinbefore provided. But no trustee shall be removed from office without sufficient proof, and he shall be served with a copy of such complaint at least ten days prior to the day set for the hearing, when such trustee shall be afforded an opportunity to be heard in his defense.

Sec. 1565 (s) [The county board of education shall consist of five members as now provided by law and selected by the grand jury as now provided by law, except that the grand jury in selecting such members shall not select one of their own number then in session, nor shall they select any two of those selected from the same militia district or locality, nor shall they select any person who resides within the limits of a local school system operated independent of the county board of education, but shall apportion members of the board as far as practicable over the county; they shall select men of good moral character, who shall have at least a fair knowledge of the elementary branches of an English education and be favorable to the common school system.]

Sec. 1565 (t) [The county board of education shall have and exercise all the powers that are now exercised by the county board of education, except as may be herein changed: provided, that the county school superintendent and county board of education shall make rules to govern the county schools of their respective counties. Upon being called together by some one of their number, after their election, they shall organize by selecting a chairman. The county superintendent shall act as secretary of the board, and keep the minutes of their meetings and make a permanent record of the same and do any other clerical work that they may direct him to do. Said board may suspend the county superintendent same as state superintendent, and may suspend teachers same as county superintendents. In each case they may appeal to state board.]

Sec. 1565 (u) [The board of education of any county shall have the right, if in their opinion, the welfare of the schools of the county and the best interest of the pupils requires, to consolidate two or more schools located in the same or different districts, into one school, to be located by said board at a place convenient to the pupils attending the same; said schoolhouse to be located as near the center of the district or districts involved as practicable. Whenever two or more schools are consolidated as hereinafter provided, the county superintendent shall call an election of trustees for said consolidated school from the district or districts concerned, said election shall be held in accordance with the provisions of existing law, and the result determined and declared by the board of education.]

Sec. 1565 (v) [The county board of education shall have the further power, when the best interests of schools demand to separate or divide any

school district into two or more school districts and to provide for the election of a board of trustees for each of said districts and to do all other things for the government and control of said districts as is herein provided for the organization and control of school districts: provided, that such county board of education shall have authority to establish two schools in any school district in this state if they deem it best to do so.]

Sec. 1565 (w) [Whenever, in the opinion of the county board of education, the best interests of the schools demand, the board of education shall have the right to consolidate two or more districts or parts of districts or to add any part of one district to any other district or to change the line or lines of any district at any time, when in their judgment the best interests of the schools require such change, into one school district with the purpose of the election of the board of trustees and of the location of the school at some central place as hereinbefore provided; but should as many as ten of the patrons of the said school or schools object to the consolidation, it shall be the duty of the county superintendent to call an election to be held in said district or districts affected, giving thirty days notice of same by publishing the same once a week for four weeks in the paper in which advertisements are published, and also by posting notices at three or more public places in the district, or districts to be affected thereby, at which election should a majority of the qualified voters vote for consolidation, the schools shall be consolidated; otherwise not. The result of such election shall be determined and declared by the board of education and the same shall be held as other elections are held.]

Sec. 1465 (x) [Whenever the county board of education deems it for the best interest of a school, they shall have the right to provide means for the transportation of the pupils to and from said school, provided that no school is established in three miles of the pupils to be transported: provided, that this shall only apply to school or schools where two or more districts have been combined or consolidated and such other schools as are now furnishing transportation. No school trustee, teacher, or superintendent of county schools shall be interested financially in transportation of pupils. (Georgia: Park's Annotated Code, 1914, v. 1, p. 622-25, 638-41, 644, 647-48, 650-51, 673-75)

KENTUCKY

Sec. 4426.1 . . . 1 That each and every county in this commonwealth shall compose one school district, excepting that where there is a city or town in any county which maintains a separate system of public schools, then the balance of said county outside of such city or town district, shall constitute a school district. (Kentucky: Statutes, 1909, p. 1774)

2 That within thirty days after this act goes into effect the county superintendent of schools, the county judge and the county attorney in each county of the commonwealth shall meet at the court house of their respective counties, upon the call of the county superintendent of schools, and shall divide each county school district, as provided in section 1, into educational divisions containing as nearly as possible an equal number of children of school age, including both white and colored children, as shown by the last census of school children, and in each county the said officers may make, as may seem expedient, either four, six or eight of such educational divisions, and

in fixing the boundaries of said educational divisions they shall be made to follow, as nearly as practicable, the boundaries of existing school districts for white children. They shall have the power to change the boundaries of educational divisions whenever such change becomes necessary. The county judge, county superintendent of schools and county attorney shall then subdivide each of the said educational divisions into school subdistricts, following as nearly as practicable the boundaries of existing school districts for white children. Provided, that any graded common school district that may exist in any educational division or that may hereafter be established according to law whether operating under special charter or established by popular vote, as provided for in the laws relating to the graded common schools, and school districts now operating within municipal districts established and incorporated under special charter and supplementing the state school fund by local tax of not less than twenty cents on each hundred dollars of assessed valuation of property, shall retain their present boundaries and be exempt from the provisions of this act. The provisions of this act shall not apply to any graded school district created by special act and having a school fund other than that provided by general law. The boundaries of any such school subdistrict as above fixed, shall include all children, both white and colored, residing in said subdistrict, and said subdistrict shall not include, except in cases of emergency fewer than fifty white children of school age, nor in any case fewer than twenty-five such children subject to the approval of the state board of education. No subdistrict shall be apportioned their per capita of the state fund on fewer than fifty white pupil children, nor shall any subdistrict be apportioned the per capita on more than one hundred white pupil children for the payment of one teacher.

3 On the first Saturday in August after the passage of this act an election shall be held at the school building in each school subdistrict in this Commonwealth from the hours of one until five o'clock in the afternoon for the purpose of electing one trustee for each school subdistrict as fixed by section 2 of this act. The trustees then elected shall hold their offices one-half for one year and one-half for two years, as shall be determined by lot at the first meeting of the division board as provided for in section four of this Act. Each year thereafter there shall be elected for two years one trustee in each subdistrict in which the term of his predecessor in office will then expire. Said trustees shall serve until their successors are fully elected or appointed and qualified as herein provided.

4 The county superintendent of schools shall meet the trustees so elected from the various school subdistricts of each educational division at some point to be designated by him within such educational division within thirty days after the date of their election, proper notice having been given in writing to each trustee as to the time and place of such meeting for the purpose of organizing the trustees so elected into a division board of school trustees by choosing one of said trustees to be chairman and one to be secretary of said division board.

The county superintendent of schools shall be a member of such division board of his county, but shall only vote upon any matter in case of a tie vote, and then he shall cast the deciding vote.

Any vacancy that may exist in the trusteeship of any school subdistrict shall be filled by appointment by the county board of education and to them petition may be made by the voters of the subdistrict.

Should the office of chairman of a division board become vacant the county superintendent, as soon as the election has been held to elect a subdistrict trustee as above provided, shall call a meeting of said division board and shall then proceed to elect another chairman, and until a chairman is so elected, such division board may choose one of its members as a temporary chairman.

5 It shall be the duty of the trustee in each school subdistrict to personally supervise the school or schools in his subdistrict, and to report the needs thereof to the division board of his educational division at its regular meeting, together with such recommendations as he may deem necessary for the best interests of said school or schools. All such reports and recommendations shall be in writing. The division board shall refer such reports to the county board with its recommendations on same.

The trustee of each school subdistrict shall in the month of April of each year, make and return to the county superintendent a complete census of the children of school age residing in his district, and for the performance of all his duties he shall be allowed and paid the sum of five cents per pupil child reported in such census. He shall make a complete census of all illiterate children of school age, with the names of their parents or guardians, with their postoffice address; also the names of all children of school age who have completed the common school course, together with their ages. He shall make a census of the names of the children who are attending school outside of the district in which they reside. This census and these reports must be made by the subdistrict trustee at the time now provided by law for taking the school census. The county superintendent of schools in each county shall make a complete report of said census to the state superintendent of public instruction, whose duty it shall be to have printed annually and distributed a report of same, giving the number of children in each school district and stating the number who are illiterate and, in addition, the number who have completed the common school course, together with the number who are attending school outside of the district in which they reside.

6 It shall be the duty of the subdistrict trustee to nominate and recommend in writing to the division board, one or more teachers for each school in his subdistrict, and with said nomination and recommendation he shall convey the teacher's credentials and any objections, remonstrances or petition that may be offered, in writing, to the election of said teacher or teachers, and the board shall elect of each subdistrict a teacher or teachers nominated by the trustee thereof, when such teacher possesses the necessary qualifications and no reasonable objection is offered.

Should the division board reject any nomination or should any trustee fail to nominate for his subdistrict, the chairman of the division board shall immediately notify such subdistrict trustee and request further nominations. Qualifications of teachers shall be determined as provided by law. Said division board may meet at such other times as the chairman may designate.

Teachers shall be elected for one school year, but may be removed by the division board of the educational division in which they are employed, at any time, subject to the approval of the county superintendent, for incompetency, neglect of duty or immoral conduct.

Contracts for the service of all teachers shall be in writing, signed in duplicate by the teacher and by the chairman and secretary of the division board of the division in which the teacher is employed. Upon organization of said board, one of the members shall be chosen as secretary, who shall keep a correct record of all proceedings, which shall be a public record.

6a The division board in each educational division shall meet for the consideration of application and the election of teachers on the first Saturday in June and July in each year, and any vacancy existing for any cause in any subdistrict thereafter shall be filled by the county board of education upon the (recommendation of) the trustee of such subdistrict. (Thum's Supplement, Kentucky Statutes, 1909, p. 1091, 1092, 1093 and 1094)

7 The chairman of the several educational division boards in each county, together with the county superintendent of schools, who shall be chairman, ex-officio, shall constitute the county board of education. (Kentucky: Statutes, 1909, p. 1777)

8 Within two years after the passage and approval of this act, there shall be established by the county board of education of each county one or more county high schools. (Kentucky: Thum's Supplement, 1905, p. 1095)

10 The county board of education shall have full power, when necessary, to lay off or establish new school subdistricts, or to change the boundaries of those already established. (Kentucky: Statutes, 1909, p. 1779)

11 The county board of education shall have the power to purchase, lease, or rent school sites, to build, to repair and to rent schoolhouses, purchase maps, globes, charts, school furniture, or other apparatus necessary to the efficient conduct of the schools of the county and said county board is hereby vested with the title, care and custody, of all schoolhouses, sites, or other property belonging to the districts of their several counties, and when in the opinion of the board, any site for schoolhouse has become unnecessary, they may sell and convey the same in the name of the county board of education. It shall have the power to receive any gift, grant or donation for the use of the schools within their respective counties, and all conveyances of real estate which shall be made to said county board of education shall vest the property in said board and their successors in office for the use and benefit of schools of the county. It shall have the power to condemn any real estate necessary for school purposes in any district and may proceed to do so in the manner provided for by law for the condemnation of lands for railroad purposes. The county board of education is hereby empowered to assume the indebtedness of any common school subdistrict contracted prior to the passage of the act of 1908, creating said county board of education and shall pay said indebtedness out of the county school tax levy. (Kentucky: Thum's Supplement, Statutes, 1909, p. 1096)

12 The county board of education and their successors shall be a body-politic and corporate, with perpetual succession and as such may sue and be sued.

17 The county board of any county shall have power to consolidate, with reference to the needs of either white or colored children, any two or more

contiguous schools sub-districts, and in case of such consolidation school-houses shall be built or acquired, located at some point convenient to the patrons of such consolidated school sub-districts, and of sufficient capacity to accommodate the pupil population of such consolidated school sub-districts, and such schools shall be called and known as consolidated schools. Teachers for such consolidated schools shall be employed in the same manner as teachers for school sub-districts.

No trustee nor member of the county board of education nor county superintendent shall be financially interested, directly or indirectly, in any contract for the purchase of land, the erection or repairs of any schoolhouse, the furnishing of supplies or equipment, or the employment of any teacher, and any of said officers so offending shall be guilty of an indictable misdemeanor and on conviction shall be fined not exceeding five hundred dollars, or imprisoned in the county jail not exceeding six months, and shall forfeit his office. (Kentucky: Carroll's Statutes, 1909, p. 1779 and 1780)

MARYLAND

Sec. 3 Educational matters affecting a county shall be under the control of a board of county school commissioners.

Sec. 4 Educational matters affecting a school district shall be under the supervision of a board of district school trustees.

Sec. 6 The governor, by and with the advice and consent of the senate, if in session, and without said advice and consent when not in session, shall appoint a board of county school commissioners for each county in this state, to be composed in the counties of Baltimore, Carroll, Frederick, Dorchester, Washington and Montgomery of six persons, and in each of the other counties of three persons; The term of office of the said commissioners, after the expiration of the term for which first appointed, shall be a term of six years; said persons shall be men of high character, integrity and capacity. Two of said appointees for the counties of Baltimore, Carroll, Frederick, Dorchester, Washington and Montgomery and one of said appointees for each of the other counties shall be selected and appointed by the governor from the political party which at the last preceding election for governor cast next to the highest number of votes in the state, so that said minority party shall always have a proper representation upon each of said boards. The governor may remove for incompetency, neglect of duty or misconduct any person so appointed by him as commissioner of public schools after giving due notice to such person of the charges made against him and a reasonable opportunity to be heard in his own defense. In case of vacancy by death, removal from the county, removal from office by the governor, resignation or disqualification from any cause, the governor shall fill such vacancy with an appointee from the same political party as that of the person whose position shall have become vacated.

Sec. 7 . . . The board of district school trustees shall be composed of three persons, residents of the school district and county where said school may be located, who shall be appointed by the county school commissioners on the first day of May, or at their first meeting thereafter, which must be held during the month of May, in each year, and who shall meet within thirty days after their appointment and enter upon the duties assigned them in

chapter 5 of this article; at their first meeting they shall appoint a chairman and shall give notice of their appointment to the secretary of the board of county school commissioners; when the trustees appoint a principal teacher, and the appointment shall be confirmed by the board of county school commissioners, the said principal teacher shall be ex officio secretary of the board of district trustees; district school trustees shall take and subscribe the oath or affirmation of office prescribed by the constitution before the county school commissioners, county superintendent, clerk to county school board, or any other officer duly authorized to administer oaths.

Sec. 22 . . . The board of county school commissioners shall meet for organization on the first Tuesday in May next succeeding their appointment, or as soon thereafter as may be, and elect a person, not a member of the board, who shall serve as secretary and treasurer of the board of county school commissioners and county superintendent of public education, and notice of such election, signed by the president of the board, shall be transmitted to the comptroller; the person thus elected as secretary, treasurer and county superintendent shall enter upon his duties the first day of August next ensuing after his election; in counties having more than eighty-five schools the board may, at their discretion, appoint a clerk and fix his salary; the board shall meet at least once in every school term, and at other times, if necessary, for the transaction of business; each commissioner shall receive as an annual salary the sum of one hundred dollars, and he shall make no further charge or charges for any services rendered.

Sec. 23 . . . The board of county school commissioners are hereby declared to be a body politic and corporate by the name and style of the board of county school commissioners of ——— county, and by that name shall have perpetual succession, and shall be capable to sue and be sued, to use and have a common seal, and the same at their pleasure to alter or break, and to exercise all the powers and privileges hereby granted to or vested in them; and every county superintendent or assistant county superintendent shall have power to take affidavits and administer oaths in all matters pertaining to public schools, but without charge or fee.

Sec. 24 . . . All the property, estates, effects, money, funds, claims and state donations, heretofore vested by law in the public school authorities of any county, for the use and benefit of public, primary, free or high schools, are transferred to and vested in the board of county school commissioners and their successors in office. (Maryland: Annotated Code, v. 2, p. 1714-16, 1721-22)

Sec. 25 . . . The board of county school commissioners shall have the general supervision and control of all the schools in their respective counties; they shall build, repair and furnish schoolhouses; they shall purchase and distribute textbooks; they shall after advising with the principal of the school to which the teacher is to be appointed, appoint all assistant teachers; they shall have authority to consolidate schools when in their judgment consolidation is practicable or desirable, provided that in case of a school, the yearly average of which is twelve pupils or more, the board of county school commissioners shall obtain the consent of sixty per cent of the patrons of the school, the schoolhouse of which is to be closed in order that it may be consolidated with another school, and to arrange for and to pay charges of transporting pupils to and from such schools and have power to close any

or all schools in any school district of the county when they deem it best so to do, except in the case of a school, the yearly average of which is twelve pupils or more, the board of county school commissioners shall obtain the consent of sixty per cent of its patrons, and shall perform such other duties as may be necessary to secure an efficient administration of the public school system, subject to the provisions of this article. (Maryland: Annotated Code, v. 3, p. 810)

Sec. 31 . . . The board of district school trustees shall have the care of houses and lands connected therewith intended for school purposes, also furniture, apparatus and other school property; they shall attend to all repairs and charge the cost among the incidental expenses of the school, to be paid out of the tax levied upon the assessable property of the county as herein provided for; provided, that when repairs are to be paid out of county school taxes, the amount to be expended for said school repairs shall be determined by the board of county school commissioners before the repairs are made; the board shall employ a principal teacher, subject to confirmation by the board of county school commissioners from among those persons who hold the certificate required by this article; they shall exercise a general supervision over their respective schools, and visit them frequently, and shall cause instruction to be given for ten months in the year if possible.

Sec. 36 . . . In case of neglect of duty or refusal to act on the part of the members of the board of trustees, their places shall be declared vacant by the board of county school commissioners, who shall fill the same by new appointment; but if it be found impossible to secure competent persons who will act in this capacity, then the duties of the board of district school trustees for the particular district shall devolve upon the board of county school commissioners. (Maryland: Annotated Code, v. 2, p. 1725-27)

NORTH CAROLINA

Sec. 4119 . . . The general assembly of 1909 shall appoint three men in each county, who shall constitute the county board of education, one for a term of office of two years, one for a term of office of four years and one for a term of office of six years. The term of office of each shall begin on the first Monday in July next succeeding his appointment. Each succeeding general assembly, at its regular session, shall appoint one member of the county board of education in place of the member whose term of office expires on the first Monday in July next succeeding that meeting of the general assembly, and his term of office shall continue for six years from the first Monday in July next succeeding his appointment and until his successor is duly appointed and qualified: Provided, that the provisions of this section shall not apply to those counties in which the county boards of education were at the general election of 1908 elected by a vote of the people. No person shall be eligible as a member of the county board of education who is not known to be a man of intelligence, of good moral character, of good business qualifications and heartily in favor of public education. In case of a vacancy in the county board of education by death, resignation or otherwise, such vacancy shall be filled by the remaining members of such county board until the next general assembly meets and acts; but if such vacancy should remain unfilled for thirty days after it occurs, it shall be

filled by the state board of education. Upon failure of the general assembly to appoint one or more members of the county board of education for any county as herein provided, such failure shall constitute a vacancy which shall be filled by the state board of education: Provided, no person while actually engaged in teaching in the public schools shall be eligible as a member of the county board of education. (North Carolina: Gregory's Supplement to Pell's Revisal, 1913, v. 3, p. 658)

Sec. 4120 . . . Those persons who shall be appointed members of the county board of education by the general assembly must qualify by taking the oath of office on or before the first Monday in July next succeeding their appointment. A failure to qualify within that time shall constitute a vacancy, which shall be filled by the state board of education. Those persons who shall be elected or appointed to fill a vacancy must qualify within thirty days after notification thereof. A failure to qualify within that time shall constitute a vacancy to be filled by the board which made such election or appointment.

Sec. 4121 . . . The county board of education shall be a body corporate by the name and style of The county board of education of county, and by that name shall be capable of purchasing and holding real and personal estate, of building and repairing schoolhouses, of selling and transferring the same for school purposes, and of prosecuting and defending suits for or against the corporation. It shall have power and authority, and it shall be its duty, to institute and prosecute any and all actions, suits or proceedings against any and all officers, persons or corporations, or other sureties, for the recovery, preservation and application of all moneys or property which may be due to or should be applied to the support and maintenance of the schools, except in case of a breach of his bond by the treasurer of the county school fund, in which case action shall be brought by the county commissioners as is hereinafter provided.

Sec. 4122 . . . The county board of education shall have power and authority to fix and determine the methods of conducting the public schools in their respective counties so as to furnish the most advantageous methods of education available to the children attending the public schools in the several counties of the state; and such board and the county superintendent of public instruction shall have full power to make all just and needful rules and regulations governing the conduct of teachers and pupils as to attendance on the schools, discipline, tardiness and the general government of the schools.

Sec. 4123 . . . The time of opening and closing the public schools in the several public school districts of the state shall be fixed and determined by the county boards of education in their respective counties. The board may fix different dates for opening the schools in different townships, but all the schools of each township must open on the same date as nearly as practicable.

Sec. 4124 . . . The building of all new schoolhouses shall be under the control and direction of and by contract with the county board of education. The board shall pay not exceeding one-half of the cost of the same out of the fund set aside for building under section four thousand one hundred and sixteen, and the school district in which any schoolhouse is erected shall pay the other part, and upon failure of such district to provide its part by

private subscription or otherwise the board is directed to take it out of the apportionment to that district. But the board shall not be authorized to invest any money in the new house that is not built in accordance with plans approved by the state superintendent of public instruction. All contracts for buildings shall be in writing and all buildings shall be inspected, received and approved by the county superintendent of public instruction before full payment is made therefor.

Sec. 4125 . . . In addition to all other duties and powers imposed and conferred upon it by law, the county board of education shall have general control and supervision of all matters pertaining to the public schools in their respective counties and are given the powers to execute, and is charged with the due execution of, the school laws in their respective counties; and all powers and duties conferred and imposed by this chapter and other laws of the state respecting public schools, which are not expressly conferred and imposed upon some other official, are conferred and imposed upon the county boards of education; and an appeal shall lie from all other county school officers to such board.

Sec. 4126 . . . In case the state superintendent shall have sufficient evidence at any time that any county superintendent of public instruction or any member of the county board of education is not capable of discharging, or is not discharging, the duties of his office as required by this chapter, or is guilty of immoral or disreputable conduct, he shall report the matter to the county board of education, which shall hear evidence in the case, and if, after careful investigation, it shall find sufficient cause for his removal, it shall declare the office vacant at once and proceed to elect his successor. Either party may appeal from the decision of the county board of education to the state board of education, which shall have full power to investigate and review the decision of the county board of education. This section shall not deprive any county superintendent of the right to try his title to his office in the courts of the state. In case the county superintendent shall have sufficient evidence at any time that any member of any school committee is not capable of discharging, or is not discharging, the duties of his office, he shall bring the matter to the attention of the county board of education, which shall thoroughly investigate the charges and shall remove such committeeman and appoint a successor if sufficient evidence shall be produced to warrant his removal and the best interest of the schools demand it.

Sec. 4127 . . . The county board of education shall have power to investigate and pass upon the moral character of any teacher in the public schools of the county, and to dismiss such teacher, if found of bad moral character; also to investigate and pass upon the moral character of any applicant for a teacher's certificate or for employment as teacher in any public school in the county. Such investigation shall be made after written notice, of not less than ten days, to the person whose character is to be investigated. The board shall have power to issue subpoenas for the attendance of witnesses. Subpoenas may be issued in any and all matters which may lawfully come within the powers of the board, and which, in the discretion of the board, require investigation. And it shall be the duty of the sheriffs, coroners and constables to serve such subpoenas upon payment of their lawful fees. Appeals provided for in this chapter shall be regulated by rules to be adopted by the board. The superior courts of the state may review any

action of the county board of education affecting any one's character, or right to teach.

Sec. 4128 . . . The county board of education of each county shall have power to punish for contempt, for any disorderly conduct or disturbance tending to interrupt it in the transaction of official business. (North Carolina: Pell's Revisal, 1908, v. 2, p. 2075-78)

Sec. 4129 . . . The county board of education shall divide the townships into convenient school districts as compact in form as practicable. It shall consult the convenience and necessities of each race in setting the boundaries of the school district for each race, and shall establish no new school in any township within less than three miles by the nearest traveled route of some school already established in said township; nor shall it create any school district with less than sixty-five children of school age, unless such district shall contain at least twelve square miles or shall be separated by dangerous natural barriers from a schoolhouse in the district of which the proposed new district is a part. Nothing in this chapter shall prevent the board, whenever it shall deem it necessary for the good of the public schools, from forming a school district out of portions of two or more contiguous townships. School districts may be formed out of portions of contiguous counties by agreement and consent of the county boards of education of the two counties; and, in case of the formation of such districts, the per capita part of the public school money due the children residing in one county shall be apportioned by the county board of education of that county and paid to the treasurer of the other county in which the schoolhouse is located, to be placed to the credit of the school district so formed. Upon the consolidation of two or more school districts into one by the county board of education, the said county board of education is authorized and empowered to make provision for the transportation of pupils in said consolidated district that reside too far from the schoolhouse to attend without transportation, and to pay for the same out of the apportionment to said consolidated district: provided, that the daily cost of transportation per pupil shall not exceed the daily cost per pupil of providing a separate school in a separate district for said pupils. The county board of education of any county is authorized and empowered to change the boundary lines between local tax school districts in said county upon satisfactory evidence furnished to said board that the convenience and best interests of the residents of the districts require such change: provided, that this authority to change boundaries between local tax districts shall not have the effect of releasing any taxpayer from the obligation of paying his school taxes, but shall be exercised only for transferring said taxpayer and his property from one local tax district to another in which the same rate of special taxation for schools is levied. (North Carolina: Gregory's Supplement to Pell's Revisal, 1913, v. 3, p. 659-69)

Sec. 4130 . . . The county board of education may receive any gift, grant, donation or devise made for the use of any school within its jurisdiction. When, in the opinion of the board, any schoolhouse, schoolhouse site, or other public school property has become unnecessary for public purposes, it may sell the same at public auction after advertisement of twenty days at three public places in the county, or at private sale. The deed for the property thus sold shall be executed by the chairman and secretary of the board, and the proceeds of the sale shall be paid to the treasurer of the county school fund. (North Carolina: Pell's Revisal, 1908, v. 2, p. 2078)

Sec. 4131 . . . The county board of education or the board of trustees of any incorporated or chartered graded school district may receive suitable sites for schoolhouses or school buildings by donation or purchase. In case of purchase the county board of education, or any board of trustees aforesaid, shall issue an order on its treasurer for the purchase money, and upon payment of the order the title to the site shall vest in the corporation in fee simple. Whenever the boards above mentioned are unable to obtain a suitable site for a school or school building, by gift or purchase, such board shall report to the county superintendent of public instruction, who shall, upon five days' notice to the owner or owners of the land, apply to the clerk of the superior court of the county in which the land is situated for the appointment of three appraisers, who shall lay off by metes and bounds not more than two acres and assess the value thereof. The same means may be used to obtain more land in a district where there is a house or a site previously obtained, but not more than three acres shall be procured, including the site already obtained. They shall make a written report of their proceedings, to be signed by them, or by a majority of them, to the clerk within five days from their appointment, who shall enter the same upon records of the court. The appraisers and officers shall serve without compensation. If the report is confirmed by the clerk, the chairman and the secretary of the board shall issue an order on the treasurer of the county school fund, or, if a graded school district, upon the treasurer of the graded school district, in favor of the owner of the land thus laid off, and upon the payment or offer of payment of this order the title to such land shall vest in fee simple in the corporation. Any person aggrieved by the action of the appraisers may appeal to the superior court in term, upon giving bond to secure the board against such costs as may be incurred on account of the appeal not being prosecuted with effect: provided, that if the lands sought to be condemned under this section, or any part of said lands, shall be owned by a nonresident of the state, that before said clerk shall appoint appraisers therefor, notice to such nonresident owners shall be given of such proceeding to condemn, by publication for thirty days in some newspaper published in the county, and if no newspaper is published in said county, then by posting such notice at the courthouse door and three other public places in said county for said period of thirty days. (North Carolina: Gregory's Supplement to Pell's Revisal, 1913, v. 3, p. 660-61)

Sec. 4132 . . . All deeds to the county board of education shall be registered and delivered to the clerk of the superior court for safe-keeping, and the secretary of the county board of education shall keep an index, by townships and school districts, of all such deeds in a book for that purpose. (North Carolina: Pell's Revisal, 1908, v. 2, p. 2079)

Sec. 4133 . . . The county board of education shall meet on the first Monday in January, April, July and October, and may, if necessary, continue in session two days, and it may have called meetings, of one day each, as often as once a month if the school business of the county require it. It shall at the meeting in January, April, July and October, examine the books and vouchers, and audit the accounts of treasurer of the county school fund. The boards of education of the several counties shall cause to be published annually on the first Monday of August in some newspaper published in the county, or at the court house door if there be no newspaper published

therein, or in the printed annual school report of said county, an itemized statement of all receipts and expenditures of school funds. (North Carolina: Gregory's Supplement to Pell's Revisal, 1913, v. 3, p. 661)

Sec. 4134 . . . On the first Monday in July, the county board of education, county superintendent of public instruction and treasurer shall meet at the office of the board and settle all the business of the preceding fiscal year. The board shall on that day examine the reports of treasurer and county superintendent, and, if found correct, shall direct them to be forwarded to the state superintendent within thirty days thereafter. (North Carolina: Pell's Revisal, 1908, v. 2, p. 2079-80)

Sec. 4135 . . . The county board of education on the first Monday in July, one thousand nine hundred and five and biennially thereafter, shall elect a county superintendent of public instruction. (North Carolina: Gregory's Supplement to Pell's Revisal, 1913, v. 3, p. 661)

Sec. 4145 . . . The county board of education of each county shall on the first Monday in July 1913, appoint in each of the townships of the county three intelligent men of good business qualifications who are known to be in favor of public education, who shall serve as follows: one for three years, one for two years, and one for one year from the date of their appointment, as school committeemen in their respective townships and until their successors are elected and qualified. On the first Monday in July of each succeeding year, the board of education shall appoint one member of the school committee in place of the member whose term of office has just expired, and who shall continue in office for a period of three years and until his successor is duly appointed and qualified. If a vacancy shall occur at any time by death, resignation or otherwise, it shall be the duty of the county board of education to fill such vacancy. Such board shall have the power to pay out of the reserve school fund to each member of the township committee thus appointed one dollar per day for not more than four days per annum. Such township committee must take the census in their township by districts and shall be paid for taking the same at the rate of two cents per name, and may be paid each one dollar per day for not exceeding four days, each year for such additional services as may be rendered by the committee in the discharge of their legal duties. Every township committee shall appoint one man in each school district in the township to look after the schoolhouse and property and advise with the committee. The county board of education in each county may if it deems best on the first Monday in July, 1913, instead of electing township committeeman, elect for each school of the several townships three school committeemen of intelligence and good business qualifications who are known to be in favor of public education, who shall serve as follows: one for three years, one for two years, and one for one year from the date of their appointment as committeeman and until their successors are appointed and qualified. And the board of education shall, on the first Monday of July of each succeeding year, appoint one member of the school committee in place of the member whose term of office has just expired, and who shall continue in office for a term of three years and until his successor is duly appointed and qualified. If a vacancy should occur at any time by death, resignation or otherwise, it shall be the duty of the county board of education to fill such vacancy. And in case such school committeeman shall be elected as above, all the powers and duties conferred under

this chapter on the township committeemen shall vest in such committeemen of the several schools of the township, who shall serve without compensation.

Sec. 4161 . . . The school committee shall have authority to employ and dismiss teachers, but no teacher shall be dismissed until charges shall have been filed in writing with the county superintendent and after a hearing shall have been had before the committee of the district in which such teacher is teaching, after two days' notice to such teacher. The committee shall meet at convenient times and places for the employment of teachers for the public schools, and no teacher shall be employed by any committee except at a regularly called meeting of such committee, due notice of such meeting having been given at three public places by the committee. The county board of education of each county shall fix annually a day and place in each township for the meeting of the township or district committeemen of said township, who shall, in conference with the county superintendent, with whom application must have previously been filed by all applicants, select the teachers for their respective schools, except for rural public high schools: provided, that no election of any teacher or of any assistant teacher shall be deemed valid until such election has been approved by the county superintendent; and no voucher for the salary of a teacher of any school shall be signed by any county superintendent unless a copy of such teacher's contract has been filed with him as herein provided, and unless he shall have received satisfactory evidence that such teacher has been elected in strict accordance with this section. No contract for teachers' salaries shall be made during any year to extend beyond the term of office of the committee, nor for more money than accrues to the credit of the district for the fiscal year during which the contract is made. (North Carolina: Gregory's Supplement to Pell's Revisal, 1913, v. 3, p. 661-63 and 665-66)

Sec. 4167-a . . . With the consent of the state board of education, the county board of education in any county, may in its discretion, establish and maintain, for a term of not less than seven school months in each school year, one or more public high schools for the county at such place or places as shall be most convenient for the pupils entitled to attend and most conducive to the progress of said school or schools.

Sec. 4167-b . . . For each public high school established under this act (sections 4167a-4167k) a committee of three persons shall be appointed by the county board of education, who shall be known as the school committee of public high school of county. The powers, duties and qualifications of said committeemen shall be similar to those of other public school committeemen. They shall be appointed as follows: one for a term of two years, one for a term of four years, and one for a term of six years, and at the expiration of the term of any committeeman his successor shall be appointed for a term of six years: provided, that in case of death or resignation of any committeeman, his successor shall be appointed for the unexpired term only. Within two weeks after appointment the committee shall meet and elect a chairman and a secretary, and enter upon the performance of their duties: provided, further, that the board of trustees or school committee of any chartered school receiving aid under section 6 of this act shall serve as the high school committee for said school. (North Carolina: Gregory's Supplement to Pell's Revisal, 1913, v. 3, p. 671)

TENNESSEE

Sec. 1 That in each county of the state of Tennessee the office of district directors shall be abolished, and that the schools shall be under the management and control of a county board of education and a district board of advisors, hereinafter to be provided for.

Sec. 2 That the county court of each county in the state shall, at its session to be held the first Monday in July, 1907, divide the county into five school districts, each representing as nearly as practicable equal area of territory or the same number of inhabitants; provided, that each of these school districts shall be composed of whole civil districts; and, provided, further, that in counties having fewer than five civil districts, each civil district shall constitute a school district, and a member of the said board of education be elected from each of said districts, and the remaining member or members be elected from the county at large.

Sec. 3 That one member from each of said school districts and the other members aforesaid from the county at large shall constitute said county board of education; provided, the county superintendent shall be secretary of the county board of education.

Sec. 4 That the county court in the several counties of the state, at its July term, shall elect a member of the county board of education from each of the school districts above mentioned; or where there be fewer than five districts, the necessary number, as above provided for, from the county at large, which county board of education shall qualify and organize within ten days after their election by electing one of their number chairman; provided, further, that the members of the county board of education thus elected shall serve until September 1, 1908, and that on the first Thursday of August, 1908, and biennially thereafter each member of the county board of education shall be elected by the qualified voters of the district, above provided for, and in counties with fewer than five districts the necessary number from the county at large; and the term of office of members thus elected shall begin on the first day of September next after said election, and their tenure of office shall be two years, or until their successors in office are duly elected and qualified.

Sec. 5 That any person shall be eligible to the office of member of the county board of education who is qualified by at least a primary education, such as the primary public-school course, to perform the duties required, and who is a resident of the district and a qualified voter therein. If he shall cease to be a resident thereof, his office shall be deemed vacant.

Sec. 6 That whenever a vacancy occurs among the members of the county board of education, the county superintendent of public instruction shall fill the same by appointment upon being notified of such vacancy.

Sec. 9 That the county superintendent as ex-officio secretary of the county board of education be required to give bond, to be approved by the chairman of the county court, to the amount of \$500 for the faithful discharge of his duties.

Sec. 10. 1 That it shall be the duty of the county board of education to hold a regular meeting on the first Saturday in July, October, January, and April of each year, and transact all public school business; provided, the chairman may call a special meeting whenever in his judgment the interest of the public schools requires it.

2 To select teachers, fix their salaries, erect buildings, repair and furnish schoolhouses, fix all wages and incidental expenses, and control the expenditure of the public school fund, except as hereinafter provided for the advisory board.

3 To run all public schools in the county as nearly as practicable the same length of time. If the daily attendance of one or more schools shall fall below the minimum fixed by the county board of education, then such school, or schools, shall be suspended until an attendance can be assured of not less than one-fourth of the number of pupils within the territory of said school, or schools; provided, the county board of education shall not fix the minimum in any case at less than ten pupils.

4 To locate schools where deemed most convenient, having due regard for lessening the number in order to improve the efficiency of the county system of education. Pupils may be permitted by the county board of education to attend school in a district other than that in which they reside if more convenient, and they may be permitted to attend in another county than that of their residence if more convenient; provided, it be by agreement of the county board of education of both counties.

5 To receive monthly reports from the teachers of their respective districts and issue an order or certificate therefor on the chairman of the county board of education for warrant for salary due.

6 To visit the public schools of their respective districts as often as the county board of education may require, but not less than twice a year.

7 To act on cases of appeal of pupils suspended by action of the advisory board.

8 To dismiss teachers for incompetency, improper or immoral conduct, and inattention to duty.

9 To take care of, manage, and control all school property; buy, transfer, or sell school property, and make and take proper conveyances and perform all duties now required of district directors under section 70 of chapter 25 of Acts of 1873, and chapter 44 of Acts of 1859-60, which may not be included in the foregoing subsection.

Sec. 11 That each member of the county board of education shall make a full and accurate report of the public schools of his district to the county superintendent of public instruction not later than the first day of August of each year, said report to be made on the forms furnished, and to include the time from July 1 to June 30 following, next before the report is made.

Sec. 12 That each member of the county board of education shall receive not less than one dollar and fifty cents per day nor more than three dollars per day, as determined by the county court, for not more than thirty days in a year, and to be paid for actual time spent for attendance upon meetings and in visiting the schools of the district as heretofore provided.

Sec. 13 That there shall be a local board of three members from each civil district in the county, known as the "advisory board," which advisory board shall be elected by the qualified voters of the civil district biennially. The first election shall be held the first Thursday in August, 1908; provided, further, that the district directors now in office in said civil districts shall constitute the advisory board until their successors are elected and qualified under the provisions of this Act.

Sec. 14 That the duties of the said advisory board shall be as follows:

1 To visit the schools and inspect the school work in their respective districts, to see that the schoolhouse is in good repair and properly equipped for work, that the school grounds are improved and properly kept, and that the buildings are supplied with water, fuel, and other necessities.

2 To make general recommendations to the county board for the advancement of school interests in said districts, and to recommend to the county board of education desirable teachers for their schools.

3 To make a written report once a year to the county board, or oftener if required by the said county board, in relation to the matters committed to said advisory board.

4 To have the secretary enumerate the scholastic population of the civil district annually during the month of July, and report the same to the secretary of the county board of education, and the secretary of said advisory board shall receive for this an amount not exceeding two cents per capita for pupils enumerated; provided, that in enumerating the scholastic population, the full name of the child, the name of the parent, and the age of the child be recorded, and also the fact as to whether the child is able to read and write.

5 To suspend and dismiss pupils, subject to appeal to the county board of education.

6 To issue an order upon the county board of education for expenditures for repairs and incidentals to an amount not exceeding ten dollars.

Sec. 15 That in case of a vacancy in any district advisory board, it shall be the duty of the county superintendent to fill said vacancy by appointment upon notification of same by the remaining member or members of said advisory board.

Sec. 16 That this act shall not in any way affect systems of city schools now operating under special charters, or the law governing municipal schools, and where said systems recognize the three district directors as members of city board of education, the said advisory board shall continue to serve in said capacity.

Sec. 17 That all provisions of laws now existing applying to school directors, not in conflict with any provisions heretofore stated, shall apply to members of the county board of education and district advisory boards; provided, the provisions of this act shall not apply to counties of a population not less than 36,010 nor more than 36,050 by the federal census of 1900 or any subsequent federal census; and, provided, further, that the provisions of this act shall not apply to the following counties having the population as indicated according to the federal census of 1900 or any subsequent federal census:

Counties between 28,285 and 28,287.

Counties between 16,850 and 17,000.

Counties between 5,700 and 5,710.

Counties between 19,000 and 19,100.

Counties between 26,500 and 27,500.

Counties between 16,400 and 16,415.

Counties between 29,770 and 30,000.

Counties between 20,920 and 22,017.

Counties between 33,035 and 33,050.

Counties between 4,455 and 5,000.

(Tennessee: Acts 1907, ch. 236, p. 845-50)

Sec. 1. That chapter 25 of the Acts of 1873, beginning with section 10, be so amended as to read as follows: "In each county of the state there shall be a county board of education composed of one member of each civil district, the judge or chairman of the county court, and the county superintendent of public instruction, who shall be ex officio chairman of said county board of education."

Sec. 2 That the clerks of the various district advisory boards of the county shall serve as members of the county board of education until September the first, 1910, and on the first Thursday of August, 1910, and biennially thereafter each member of the county board of education shall be elected by the qualified voters of the district, and the term of service of members thus elected shall begin on the first day of September next after said election.

Sec. 3 That any person shall be eligible to the office of member of the county board of education who is qualified by having at least a primary education such as the primary public school course at the present time to perform the duties required and who is a resident of the district. If he shall cease to be a resident thereof, his office shall be deemed vacant.

Sec. 4 That all members of the county board of education shall hold their office until the first day of July, 1909.

Sec. 5 That whenever a vacancy occurs among the members of the county board of education, the county superintendent shall fill same by appointment upon being notified of such vacancy.

Sec. 6 That the county board of education shall elect one of their number secretary, and his term of service shall be two years; provided, the first term shall expire the first day of September, 1910.

Sec. 9 That it shall be the duty of the county board of education:

- 1 To hold a regular meeting on the first Saturday in July, October, January, and April to transact all public school business; provided, the chairman may call a special meeting whenever in his judgment the interest of the public school requires it.

- 2 To select teachers, fix their salaries, locate, build, repair, furnish school-houses; fix all wages and incidental expenses, and control the expenditure of the public school fund.

- 3 To run all schools of the county as nearly as practicable the same length of time. If the daily attendance of one or more schools shall fall below the minimum fixed by the county board of education, then such schools shall be suspended until an attendance can be assured of not less than one-fourth of the number of pupils within the province of said school or schools.

- 4 To locate schools where deemed most convenient, having due regard for lessening the number in order to improve the efficiency of the county system of education. Pupils may by the consent of the county board of education be permitted to attend school in a district other than in which they reside.

- 5 To receive monthly reports from their respective teachers, and issue an order or certificate thereon to the chairman of the county board of education for warrant for salary due.

- 6 To visit the public schools of their respective districts as often as the county board of education may require.

7 To dismiss teachers for incompetency, improper conduct, or inattention to duty.

8 To suspend pupils whenever the prosperity of the school makes it necessary.

9 To take care of, manage, and control all school property; to transfer or sell school property and make a deed therefor, and perform all duties now required of district directors under sections 1430 and 1431 of the Code, which may not be included in the foregoing subsection.

Sec. 10 That the members of the county board of education shall take the scholastic population annually within the month of July, and not later than the fifteenth day of the month.

Sec. 11 That each member of the county board of education shall make a full and accurate report of the public schools of his districts to the county superintendent of public instruction not later than the first day of August each year, said report to be made on the forms furnished and to include the time from July the first to June the 30th following next before the report is made.

Sec. 12 That each member of the county board of education shall take the scholastic population of his district on blanks furnished by the state superintendent of public instruction, and shall give the name of parent or guardian, the name of the child, and also state whether child can read or write, and for this service said member of the board of education shall be paid two cents per capita for each child of school age; provided, further, that each member of the county board of education shall receive one dollar and fifty cents for attendance and service upon each meeting, and one dollar a day for visiting schools of the district when ordered by the county board of education.

Sec. 13 That this act shall not be so construed as to any way affect or abridge the rights of cities and towns of this state maintaining a separate school system of their own.

Sec. 14 That this act shall apply only to counties in this state having a population of not less than 33,034 nor more than 33,050, and to counties having a population of not less than 15,450 nor more than 16,475, and not less than 33,540 nor more than 33,550, and not less than 16,360 nor more than 16,370, and not less than 11,885 nor more than 11,890, and counties having a population of not less than 10,435 nor more than 10,445, and not less than 15,570 nor more than 15,580, and not less than 19,240 nor more than 19,250, and not less than 17,760 nor more than 17,765, and counties having a population of not less than 23,840 and not more than 23,850, according to the published federal census of 1900 or any subsequent federal census. (Tennessee: Acts 1909, ch. 302, p. 1101-4)

Sec. 12 That this act shall only apply to counties having a population of not less than 5900 and not more than 6100, and not less than 6400 nor more than 6500, and of 150,000 inhabitants or over, according to the federal census of 1900 or any subsequent federal census. (Tennessee: Acts 1909, ch. 327, p. 1192) The provisions of chapter 327 similar to chapter 302 except as to population.

Sec. 1 That whenever it shall appear to the county board of education, or the county high school board of education, in any county of the state that the efficiency of the public schools would be improved thereby, said

boards of education shall have full power, and are hereby granted authority to consolidate two or more schools.

Sec. 2 That whenever, by reason of such consolidation, a sufficient number of children is situated too far away from such schools to attend without transportation, said boards of education are hereby authorized and empowered to make provisions for the transportation of said pupils that reside too far away from said school to attend without transportation, and to pay for same out of the respective public school funds of the county in which such children reside.

Sec. 3 That said boards of education are hereby given authority to employ supervisors of schools, whose duties shall be to assist county superintendents of public instruction in the organization, gradation, and supervision of the public schools of the county, and the organization of industrial work, and to pay for same out of the respective public school funds of the county; provided, that such supervisors shall be persons of known ability to supervise the work of other teachers, and shall have the equivalent of a high school education; provided, further, that supervisors of elementary schools shall hold an elementary certificate of the first grade, and supervisors of high schools shall hold a high school certificate of the first grade.

Sec. 4 That all laws or parts of laws in conflict with this act be, and the same are, hereby repealed, and that this act shall take effect from and after its passage, the public welfare requiring it. (Tennessee: Public Acts, 1913, ch. 4, p. 7-8)

VIRGINIA

Sec. 1437 Within thirty days before April first, 1917, and every four years thereafter, the state board of education shall, subject to the confirmation of the Senate, appoint one division superintendent of schools for each school division that the state board may, in its discretion, establish according to law.

The term of office of the said division superintendent shall be four years from the first day of July following his appointment. (Virginia: Code Annotated, 1916, v. 4, p. 329)

Sec. 1439 The powers and duties of the division superintendent shall be fixed by the state board of education.

Sec. 1441 The division superintendent of schools, together with the district school trustees in each county, including those in towns constituting separate school districts, for certain purposes hereinafter specified, shall constitute a body corporate, under the style of "the county school board of _____ county," and may, in its corporate capacity, sue and be sued, contract and be contracted with, and purchase, lease, take, hold, and convey property. This board shall be subject to the higher authorities in like manner as the district boards. (Virginia: Code Annotated, 1904, v. 1, p. 791)

Sec. 1447 First. The county school board may order any district school board of the county to pay to each school trustee, except the clerk of the board, a sum not to exceed ten dollars in any one year to cover the expenses of said trustee for attendance upon the meetings of the county and the district school boards.

Second. It shall be the duty of the county school board of each county, on or before the first day of April of each year to prepare and file with the division superintendent of schools an estimate of the amount of money which will be needed during the next scholastic year for the support of the public free school system of the county, and at the same time, after carefully revising the estimates of the district boards of trustees submitted to the county board in accordance with the provisions of section 1466 of this chapter, to prepare and file with said superintendent separate estimates of the necessary expenses of the public free schools in each school district of the county for the next scholastic year, which estimates shall be submitted by him to the board of supervisors at a regular meeting.

Third. The county school fund shall be apportioned by the county school board among the several districts of the county according to its judgment, having due regard to maintaining, as far as practicable, a uniform term throughout all of the districts: provided, that such primary and grammar schools as may be established in any school year shall be maintained at least four months of that school year before any part of the fund assessed and collected may be devoted to the establishment of schools of a higher grade.

Fourth. All money, bonds, stocks, debts, funds, effects, and other property, real or personal, held by individuals by virtue of their office of school commissioner or overseers of the poor of any of the counties of this commonwealth, except the county of Loudoun, under any act heretofore passed by the general assembly of Virginia, acquired by or derived from the sale of glebe lands, or from any other source formerly belonging to any of the said counties, and applicable to school purposes; also such real or personal estate in any of the said counties as belonged to the former board of the literary fund, together with any other funds or property which had in any manner been set apart for school purposes, but which has been practically abandoned or is without trustees; and any funds or property that may be hereafter set apart solely for county school purposes, and all donations, by will, deed, or other conveyances, heretofore or hereafter made for county or district school purposes, the lot and school building and all the real and personal property acquired for the use of a county or district high school, or for the maintenance thereof, shall be vested in the said county or district school board of the said counties respectively, unless inconsistent with the grant or devise, upon such terms and conditions for the security of the same as the circuit court of said county shall prescribe. The said board or boards shall when not inconsistent with the terms of the grant or devise invest and manage the same, and apply the profits thereof for the purpose of education in the same manner and under the same restrictions as the general school fund of the state is applied under the general school law of the state, except that the said boards are authorized to apply such portions of the profits of the funds as in their judgment may be necessary to the erection of schoolhouses in their said counties, respectively, or to the purchase of school apparatus for the use of schools. But if such fund does not exceed in amount the sum of two thousand dollars, the said board or boards may, if in their judgment expedient, use such fund in whole or in part in the erection of schoolhouses in their said counties or districts or in paying any debt which may have been incurred by said county or district boards in the erection of schoolhouses; provided, that such disposition is not

in conflict with the will of the grantor or testator. In cases where funds or other property are held by trustees for purposes of common school education, the county school board shall have power, and it shall be its duty to examine into the manner in which such trusts are administered; and all such trustees are hereby required to render reports to the county board whenever called on, and to afford every facility wanted by said board in order to obtain a full understanding of all the points connected with such administration; and should such examination reveal any defect or irregularity in the administration of such trust funds or other property, it shall be the duty of the county school board to institute prompt proceedings for carrying the matter before the civil courts. In cases where donations or other funds have been set apart for the education of the poor, the county school board is authorized to receive and apply the same in connection with the public free schools, in obedience to the will of the donor. The county school board of any county may employ counsel, and provide for and direct the payment of reasonable attorney's fees whenever such action may be necessary for effectuating the purposes and objects of this section, or for the protection of the public schools of the county, or of any school district thereof, from loss or detriment from any cause; provided, that no such fee shall be paid or allowed by such board unless or until the same shall have been approved by the court in which such litigation was had; provided further, that nothing in this law contained shall be construed to apply to the twenty-fifth clause of the will of Samuel Miller, deceased, or in any wise to affect or impair any rights or interests whatsoever, either public or private, arising under said clause, or to any fund now held by the Charlottesville district school board of Albemarle county, known as district number five.

Sec. 1450 In each county there shall be a board, to be known as the school trustee electoral board, which shall, until February 1, 1904, be composed of the county judge, the attorney for the commonwealth, and the division superintendent of schools; but after the first day of February, 1904, the said board shall be composed of the attorney for the commonwealth, the division superintendent of schools, and a resident qualified voter, who is not a county or state officer, to be appointed by the judge of the circuit court on or within thirty days after the first day of February, 1904, and every four years thereafter. This resident qualified voter shall receive a per diem of two dollars for each day actually employed, to be paid out of the county school fund; but when acting as a member of the board of appeal, according to the provisions of section 1487, he shall receive two dollars per day, to be paid out of the district fund of the district in which the service is rendered. The said appointee shall qualify before the clerk of the said circuit court, and shall serve for a term of four years from the first day of March, 1904. Any vacancy occurring within the term of the said appointee shall be filled by the said circuit judge within thirty days thereafter.

Sec. 1454 The school trustee electoral board shall appoint one school trustee for the several school districts in their respective counties, not more than thirty days before September 1, 1906, whose term of office shall be three years from said September 1, 1906, and thirty days before September 1, 1906, and thirty days before September first of each succeeding year thereafter, one school trustee for each district, whose term of office shall begin on the first day of September of that year and continue for three years.

And the terms of the present trustees are hereby extended to the first day of September succeeding the term for which they were appointed. Said boards shall fill vacancies occurring within a regular term for the unexpired part thereof.

No person who is unable to read and write shall be appointed a trustee.

Sec. 1466 The duties of the district board of school trustees shall be in general as follows:

First. To explain, enforce, and observe the school laws, and to make rules for the government of the schools and for regulating the conduct of pupils going to and returning from school.

Second. To employ teachers and to dismiss them when delinquent, inefficient, or in anywise unworthy of the position: provided, however, that the authority hereby given shall be subject to review by the board of appeal provided by section 1455 of this chapter: provided, also, that no district school board shall employ or pay any teacher from the public funds unless the teacher shall hold a certificate in full force according to the provisions of section 1476: and provided further, that no district school board shall employ or pay any teacher from the public funds if said teacher is the brother, sister, wife, son, or daughter of any member of said board. Any member of any district board who shall violate any of these provisions shall be personally liable to refund any public funds paid in violation of this section, to be recovered from him by suit in the name of the commonwealth at the relation of the attorney for the commonwealth; such funds, when recovered, to be paid into the county school fund.

Third. To suspend or expel pupils when the prosperity and efficiency of the schools make it necessary.

Fourth. To decide what children wishing to enter the schools of the district should by reason of the poverty of their parents or guardians receive textbooks free of charge, and to provide for supplying them accordingly.

Fifth. To see that the census of children required by section 1462 of this chapter is taken in the proper time and in proper manner.

Sixth. To hold regular meetings at fixed periods, to be prescribed by the state board of education, and special meetings when called by the chairman or by two members.

Seventh. To call meetings of the people of the district for consultation in regard to the school interests thereof, at which meetings the chairman or some other member of the board shall preside, if present.

Eighth. On or before the fifteenth day of March in each year to prepare and return to the president of the county school board, to be by him laid before the board at its earliest meeting, an estimate of the amount of money which will be needed in the district during the next school year for providing schoolhouses, textbooks for indigent children and school appliances, and other necessary expenses.

Ninth. To provide suitable schoolhouses with proper furniture and appliances, in accordance with section 1433, subsection 6, of this act, and care for, manage, and control the school property of the district. For these purposes it may lease, purchase, or build such houses, according to the exigencies of the district and the means at its disposal.

Tenth. To visit the public free schools in the district from time to time, and to take care that they are conducted according to law, and with the utmost efficiency.

Eleventh. To provide for the pay of the teachers and of the clerk of the board, the cost of providing schoolhouses and the appurtenances thereto and the repairs thereof, school furniture and appliances as provided for in section 1433, subsection 6, of this act, necessary textbooks for indigent children attending the public free schools, and any other expense attending the administration of the public free school system, so far as the same is under the control or at the charge of the school district or its officers.

Twelfth. To examine all claims against the school district, and when approved, to pay the same: provided, that a record of such approval shall be made in the proceedings of the board; and a warrant on the county treasurer shall be drawn, signed by the chairman of the board and countersigned by the clerk thereof, payable to the person entitled to receive such money, and stating on its face the purpose or service for which it is to be paid, and that such warrant is drawn in pursuance of an order entered by the board on the day of

Thirteenth. To perform such other duties as shall be prescribed by the state board of education or are imposed by other parts of this chapter.

Fourteenth. To report on any matter when required by the division superintendent of schools, and on or before the first day of August of each year to make a report for the school year closing on the thirtieth day of June preceding on all subjects embraced in the blank forms supplied by the superintendent of public instruction.

Fifteenth. County, city, or district school boards and counties, cities, towns, and districts may make appropriations to nonsectarian schools of manual, industrial, or technical training, or to any school or institution of learning owned or exclusively controlled by such county, city, town, or school district or by such county, city, or district school boards. Said boards may also provide for the introduction of manual or industrial training and other special branches into any public school.

Sec. 1470 2 That in due time, before the opening of the schools in the year nineteen hundred and seven, or in any year thereafter, following the adoption of this act by any county, it shall be the duty of each district school board throughout the state, in each county in which this act may be adopted, as hereinafter provided, to determine, by specified boundaries what shall be the area to be attached to each schoolhouse for a primary school for white children, and to each schoolhouse for a primary school for colored children in the respective districts throughout the district, or in any part thereof. These areas shall be called subdistricts, and their boundaries and number may be changed from time to time, at the discretion of the district board, but both in establishing and altering the boundaries of such subdistricts such board shall be governed by the provisions of section 1503 of the Code of Virginia, as amended.

Sec. 23 This act shall apply to those counties, and only to those, in which it may be adopted, after due consideration, by the county school boards thereof, respectively: provided, that the county school board of any county in which this act shall be adopted as aforesaid may, if in its judgment the operation of the same is injurious to the interests of education, apply to the state board of education for relief to the county from the provisions of the act, and the said board shall have power to grant such relief. (Virginia: Code Annotated, 1910, v. 3, p. 212-19, 225)

LAWS ON COUNTY AND DISTRICT SYSTEMS

CALIFORNIA

County and District

Sec. 1768 1 Except in any city and county, there shall be a county board of education, which shall consist of the county superintendent of schools and of four other members, appointed by the board of supervisors of the county.

2 A majority of the members appointed by the board of supervisors shall be experienced teachers, holding not lower than grammar school certificates in full force and effect.

3 At their last regular meeting preceding the first day of July, in the year 1903, the board of supervisors shall appoint two persons to serve on said board of education for the period of two years; and thereafter, each and every year, the board of supervisors at the last regular meeting preceding the first day of July, shall appoint two persons to serve on said board of education for the period of two years; provided, that in all counties in which there are one or more high schools at least one of the appointive members of the board of education for such county or counties shall hold a certificate of the high school grade.

4 If the board of supervisors of any county refuse or neglect to appoint members of the county board of education, as provided in subdivision 3 of this section, it shall be the duty of the county superintendent to appoint them.

Should a vacancy occur at any time in the county board of education, it shall be the duty of the board of supervisors to appoint a party to fill such vacancy.

5 The members of the county board of education, elected or appointed, shall qualify within ten days after receiving notice of their election or appointment.

6 The county board of education shall organize on the first meeting subsequent to the first day of July in each year, by electing one of their number president of the board. The county superintendent shall be ex officio secretary of the board.

7 For the transaction of business three members shall constitute a quorum; but no teacher's certificate shall be issued, renewed, or revoked, nor shall any books or apparatus be adopted, except by an affirmative vote of at least three members of the board. On the call of any member, the ayes and nays shall be taken upon any proposition, and the vote shall be recorded in the minutes of the board. (California: Kerr's Cyclopedic Codes, v. 1, p. 423)

Sec. 1770 1 Each county board of education shall meet semiannually at such time as they may determine. Special meetings may be called by the superintendent whenever, in his judgment, the exigencies of the schools may require them to be held. Upon the request of any three members, in writing, the superintendent shall call a special meeting. Notice of all semiannual meetings shall be given by the secretary at least ten days prior to the time of meeting. No business shall be transacted at a special meeting, except as provided in subdivision two of this section, other than such as may be specified in the call of the secretary.

2 At the semiannual meetings only, the board shall examine applicants for certificates to teach in the public schools. All examination papers for teachers' certificates shall be kept on file in the office of the superintendent of schools for at least one year, and shall be open for the inspection of the applicants or their authorized agents. Certificates upon credentials may be granted, and unexpired certificates may be renewed, at any meeting of the board.

3 The board of supervisors shall allow to each member of the county board of education a compensation of five dollars a day for his services, and the same rate of mileage as is allowed to the members of the board of supervisors of the county. The secretary shall be allowed the sum of five dollars per day for the actual time that the board may be in session; said compensation of the members of the board, and of the superintendent, shall be payable out of the same fund and in the same manner as the salary of the superintendent of schools is paid.

4 All expenses for printing required by the county board of education, and all incidental expenses incurred for stationery or other purposes in the performance of their duties, shall be audited and paid as other claims against the general fund of the county are paid. (California: Kerr's Cumulative Supplement Annotated, 1906-13, p. 232)

Sec. 1771 County boards of education have power:

1 To adopt rules and regulations, not inconsistent with the laws of this state, for their own government.

2 To prescribe and enforce rules for the examination of teachers, to examine applicants for elementary school certificates and to establish a standard of proficiency which will entitle the person examined to a certificate.

3 To grant, in accordance with sections 1772 and 1775 of this code, the following certificates, renewable at the option of the board:

a Secondary school certificates, authorizing the holders to teach in any secondary or elementary school in the county.

b Elementary school certificates authorizing the holders to teach in any elementary school of the county, and in the first two years of any intermediate school course established as provided in section 1750 *a* of the Political Code; provided, that holders of elementary school certificates who have completed two years of work in a college, or one year of work in a college in addition to a normal school course, under regulations prescribed by the state board of education, may teach in the third year of any intermediate school course.

c Preliminary elementary school certificates, authorizing the holders to do cadet-teaching without salary in any elementary school of the county.

d Preliminary secondary school certificates, authorizing the holders to do cadet-teaching without salary, in any secondary school of the county.

e Kindergarten-primary certificates, authorizing the holders to teach in any kindergarten class in the county.

f Special certificates, authorizing the holders to teach in the schools of the county such branch or branches of learning and in such grades as are named in such certificates. No special certificate shall be granted to teach in any school, a subject other than those included under the manual and fine arts, vocal and instrumental music, physical culture, agriculture, commercial branches and technical, household and industrial arts, and other vocational arts not herein specified.

g Preliminary special certificates, authorizing the holders to do cadet-teaching without salary, in the special branch named in such certificate, in any elementary or secondary school in the county.

4 To grant, in accordance with subdivision 4 of section 1775 of this code, permanent certificates of the grade and kind designated therein. Every certificate, except a permanent certificate, shall be valid for six years; provided, that when any certificate shall be granted on a recommendation that has been given for a limited period only, such certificate shall not be valid for a longer period than that specified in the recommendation; provided further, that any preliminary elementary school certificate, or any elementary school certificate or any special certificate granted to a candidate who has not had at least one year of experience in teaching, shall not be valid for a longer period than two years. All certificates must be issued upon the blank form prepared by the superintendent of public instruction, and must have the impress of the seal of the county board of education.

5 To adopt a list of books and apparatus for district school libraries and books for supplementary use in elementary schools in their respective counties and cities and counties, as required by section 1712 of the Political Code; provided, that no pupil shall be required to purchase said supplementary books, and pupils must be expressly notified by teachers that it is not required or desirable that such books for supplementary use be purchased by pupils or parents. When supplementary books are purchased, they must be paid for by the school district. Except in cities having a city board of education, to prescribe and enforce in the public schools a course of study and the use of a uniform series of textbooks.

6 To revoke or suspend, for immoral or unprofessional conduct, evident unfitness for teaching, or persistent defiance of, and refusal to obey the laws regulating the duties of teachers, the certificates granted by them. But no certificate shall be revoked or suspended until after a hearing before the county board of education, and then only upon the affirmative vote of at least four members of the board. All charges of immoral or unprofessional conduct, of evident unfitness for teaching, or persistent defiance of, and refusal to obey the laws regulating the duties of teachers, shall be presented to the board in writing and shall be verified under oath. Notice of the time of hearing and a full and complete copy of the charges shall be furnished to the accused at least ten days before the hearing. The accused shall be given a fair and impartial hearing and shall have the right to be represented by counsel. The hearing shall be governed by, and conducted under, the rules of the board.

7 To keep a record of their proceedings.

8 To issue diplomas of graduation from any of the public elementary schools of the county, except in cities having boards of education, which diplomas shall be designed by the superintendent of public instruction, and distributed as other blanks from his office. Said diplomas of graduation shall be signed by the president and secretary of the board of education.

9 To adopt and use in authentication of their acts, an official seal, and to have such printing done as may be necessary in the discharge of their duties, (California: Statutes and Amendments to the Codes, 1915, p. 773-75)

Districts

Sec. 1611. Except when otherwise authorized by law, every school district shall be under the control of a board of school trustees, consisting of three members.

Sec. 1613. The term of office of school trustees is three years, from the first day of July next succeeding their election. (California: Kerr's Cyclopedia Codes, v. 1, p. 376-77)

Union School District

Sec. 1674. Union school districts may be formed, and union schools maintained therein, as in this section provided.

First. When a majority of the heads of families who reside in two or more contiguous school districts and who have children attending school as shown by the teachers' registers in the school of the said districts in the same county, shall unite in a petition to the county superintendent of schools for the formation of a union school district, to comprise the districts so petitioning, he shall, within twenty days after receiving said petition, call an election for the determination of the question, and shall appoint three qualified electors in each of the districts petitioning, to conduct the election therein, said election shall be held separately and simultaneously at the public schoolhouse in each of the districts petitioning, and shall be called by posting notices thereof in three of the most public places in each district, one of which places shall be the public schoolhouse in each district at least ten days before said election. Said election shall be conducted by the officers appointed for that purpose, in the manner provided by law for conducting school elections.

The ballots at such election, in each district, shall contain the words, "For the union school district," and the voters [voter] shall write or print after said words on his ballot the word "Yes" or the word "No. It shall be the duty of said election officers in each district to canvass the vote at said election, and report the result to the county superintendent of schools within five days subsequent to the holding of said election.

Second. If a majority of the votes cast at such election, in each and every of such districts, shall be in favor of such union school district, the county superintendent shall (except in the case of the formation of a union district consisting of but two districts, and as hereinafter provided for in subdivision fourth of this section), within fifteen days after receiving the returns of the election held therein, direct the board of trustees in each of said districts to call a meeting of the qualified electors of their respective districts, in the manner provided in section 1617 of this code for calling district meetings. At said meeting the qualified electors shall in each district select one representative, whose powers and duties shall be as hereinafter specified.

The representatives so chosen shall name the union school district, and shall have power to make temporary arrangements for the location of one or more union schools therein, and, if satisfactory apartments or buildings in a suitable location are offered or can be procured, for a consideration or at a rental which would make it advisable to accept the same, they shall have the power to secure an option of a lease on such apartment or building for a period not to exceed three years from the first day of July next ensuing. Within forty days after their selection they shall notify the county superin-

tendent of schools that they desire to meet to locate one or more union schools in and for such union district. Thereafter the representatives so chosen shall meet in conjunction with the county superintendent of schools at a time and place to be named by the superintendent, for the purpose of determining the location of such union school or schools. At such meeting the superintendent shall be the chairman and shall be entitled to vote and participate in all its proceedings.

Should said representatives fail to unanimously agree upon a location for such school or schools, they shall propose in writing to the county superintendent, then present, or, if he is not present, they shall transmit to his office, within ten days, the names of the locations which they, or any of them, favor. Within twenty days after receiving such notice, the superintendent shall call an election as provided in subdivision 1 hereof, to determine the location of the union school or schools. At such election only such sites as have been named by the representatives and certified to the county superintendent shall be voted upon.

Any form of ballot by which the voter signifies his choice of location or locations shall be allowed. The result of said election shall be determined and certified to the county superintendent, as provided in said subdivision one. The location or locations which receive the largest number of votes shall be chosen as the location or locations of the school or schools.

A union school district formed of school districts not all in the same county, is designated a joint union school district. 1. When a majority of the heads of families residing in two or more contiguous school districts not all in the same county and who have children attending the schools in the districts petitioning as shown by the teachers' registers shall unite in a petition to the county superintendents of their respective counties for the formation of a joint union school district, to comprise the districts so petitioning, it shall be the duty of each of said superintendents, within twenty days after receiving said petition, to call an election in the district or districts in his county petitioning, for the purpose of determining the question, and appoint three qualified electors in each of such petitioning districts, to conduct the election therein.

Said election shall be called and conducted in all respects as specified in subdivision 1 of this section, except that the form of ballot shall be: "For the joint union school district," and the result thereof shall be reported by the election officers in each district to the superintendent of the county in which such district is situated, within five days subsequent to the holding of said election.

2 If a majority of the votes cast at such election, in each and every of such districts, shall be in favor of such joint union school district, the county superintendent in each county shall (except in the case of the formation of a joint union district consisting of but two districts, and as hereinafter provided for in subdivision 4 of this section), within fifteen days after receiving the returns of the election, direct the board of trustees in the district, or districts, in his county, to call a meeting of the qualified electors, as provided in subdivision 2 of this section. At said meeting the qualified electors, in each district, shall select a representative, as provided in said subdivision. The representatives so chosen shall meet at a time and place to be agreed upon among themselves, and name the joint union school district.

The location of the joint union school, or schools, shall be determined by the joint action of the representatives chosen and the county superintendents of the counties, in manner and form as provided for the location of a union school, or schools.

Sixth. In union or joint union school districts, formed by the union of more than two school districts, the board of trustees shall be composed of one member elected from each district composing the union or joint union district, at the time and in the manner provided for the election of school trustees, except as otherwise provided in this section.

The county school superintendent (or superintendents by concurrent action in joint union school districts) shall, in union or joint union school districts composed of three or more school districts, divide the districts composing the union or joint union school districts in three classes, as nearly equal in number of school districts as possible, to be designated by him (or them) as class A, B, and C, respectively. At the first annual school election following the organization of the union or joint union school district and the location of the school or schools, the districts in class A, as so divided and designated, shall each elect a school trustee for one year; the districts in class B shall each elect a school trustee for two years; the districts in class C shall each elect a school trustee for three years; and all the trustees so elected shall constitute the board of trustees of the union or joint union school district.

At each annual election thereafter, as terms of office expire, the school trustees shall be elected for three years, and, in case of expiration of term of appointment, for the unexpired term. Vacancies in the board of school trustees shall be filled by appointment by the county superintendent of schools (in case of joint union school districts by appointment by the county superintendent of the county in which the vacancy occurs), the appointee or appointees to hold until the first day of May next succeeding the appointment.

Seventh. In union or joint union school districts formed by the union of but two school districts, the board of trustees of the union or joint union districts shall consist of the two boards of trustees of the district so uniting, and each trustee shall continue to hold office for the term for which he was elected; provided, that should one or more additional districts at any time be admitted to such union or joint union district, the board of trustees shall then consist of one trustee from each of the original districts, as provided in subdivision 6 of this section, and the terms of the trustees in the two original districts and of the trustees in the district or districts admitted shall expire on the first day of May next ensuing after the admission of the third district.

Tenth. The powers and duties of boards of trustees in union or joint union school districts shall be such as are now, or may hereafter be assigned by law to boards of school trustees, except as otherwise provided in this section.

Twelfth. The course of study shall be that prescribed by the proper authority, and shall embrace a period of not less than eight years, except as may be hereafter provided by law; and the textbooks used shall be those adopted by the proper authorities. In joint union districts the provisions of section 1583 of this code shall apply.

Thirteenth. The board of trustees of a union or joint union school district may contract, in such manner as they may deem best, for the transpor-

tation, to and from school, of such pupils as may seem to such board to be in need of such transportation, and shall pay for such transportation, in the usual manner, out of any funds available for the purpose; provided, that all such contracts for transportation shall be first approved by the county superintendent (or superintendents) of schools of the county (or counties) in which such district is situated.

Fourteenth. Whenever in their judgment it may be deemed advisable, the board of trustees for any union or joint union school district may unite with the trustees of any other school district, single, union or joint, in the employment of a supervising principal, who shall devote such time to the supervision of instruction in the several school districts and shall receive such compensation from each board of trustees as may be agreed upon by them. (California: Kerr's Cumulative Supplement Annotated 1906-13, sec. 1674, p. 198-201)

DELAWARE

County—District System

Sec. 2276 . . . The supervision of all the free public schools, including those for colored children, in each of the counties of this state, subject to the general supervision and control hereinbefore vested in the state board of education, shall be vested in a county school commission for each county. The said commission shall be composed of three members, no more than two of whom shall be of the same political party. They shall be appointed by the governor, and hold office for three years, or until their successors are duly qualified. One member of the county school commission in each county having been originally appointed for one year, one for two years, and one for three years, the term of office of one member of each of said commissions will expire each year, whereupon the governor shall annually appoint a member of each of said commissions, for the full term. The member serving for his third year in any commission shall be the senior member.

Each county school commission shall hold meetings quarterly, during the first week in the months of September, December, March and June, in each year, in the office of the county treasurer, or some other convenient place, in its respective county. Special meetings may be held upon the call of any two members. The senior member of the commission shall be its president and the junior member shall be its secretary. Two members shall constitute a quorum to do business, but one may adjourn from time to time until a quorum is secured.

Before entering upon the duties of his office, each member of said commission shall be sworn or affirmed to well and faithfully discharge the same. The oath or affirmation may be administered by any member. A vacancy in the office of county school commissioner, caused by death, resignation, removal, disability, or otherwise, shall be filled by the governor for the unexpired term, provided, that such appointee shall be of the same political party as he, to fill whose unexpired term, the appointee is chosen. A commission for an unexpired term as aforesaid shall vest in the holder thereof all the powers, and subject him to all the duties which would have devolved upon him had he been commissioned at the beginning of said term. Each of said commissions shall have power to make all such by-laws as are or may be necessary for its own government, and to formulate and carry into effect all

such rules and regulations as are requisite and proper for the execution of the powers and duties conferred upon it by this chapter.

Sec. 2277 . . . The object of the county school commission shall be the investigation of the school system throughout the county of its jurisdiction, the methods of instruction and discipline employed in the schools, the performance of their several duties by the various school officers and teachers, and the condition of school property. To this end, each commission shall have full power and authority to visit all the schools in its county, including incorporated schools, and to observe and question the teachers concerning their method of instruction and discipline; to examine all reports and papers made to or filed with the county superintendents for its county, and to confer with and aid him concerning the methods and systems which he has adopted, or desires to introduce into the schools under his supervision; to make reports quarterly to the state board of education at its stated quarterly meetings, containing any suggestions as to improvement in school methods and systems, and specifying any neglect or abuse on the part of any teacher or school officer whomsoever in its county. The commission, shall at any of its stated meetings, be ready to receive any and all complaints concerning teachers, the county superintendent, or any school officer whomsoever of the county under its jurisdiction, and to hear evidence upon the same. The said commission shall have power to determine the complaints aforesaid according to the best ability of its members, subject, however, to the right of appeal to the state board of education as hereinbefore provided. It shall be the further duty of each of the said county school commissions to act as a sanitary commission over any and all school property in the county under its supervision; with full power to condemn any school building or any part thereof, as unsafe or unhealthy; and upon the certificate of such condemnation by the commission, the trustee of the school fund shall withhold from the district in which such condemned property is situated, its share of the state appropriation, until the further certificate of the commission that such condemned property has been repaired or replaced, or that provision therefor has been made. Provided, however, that nothing in this chapter shall be construed or taken to confer upon any of said county school commissions any power, right, or authority to close or suspend any school for any reason whatever.

Sec. 2278 . . . No member of any county school commission shall receive any salary by virtue of his office, but, upon the warrant of the governor, the state treasurer shall, out of the general fund of the state, pay to each member of said commissions the sum of five dollars for each day actually spent in attendance upon the meetings of the commission of which he is a member; provided, that such allowance shall not exceed the sum of seventy-five dollars to any one member in any one year for such attendance; and the further sum of six cents per mile expended in visiting any of the schools under the supervision of the commission of which he is a member; provided, that such mileage shall not be allowed for more than one visit to any one school by any one member during a single quarter; and provided further, that such allowance for mileage shall not exceed the sum of twenty-five dollars to any one member during any one year. The said state treasurer shall further pay all reasonable and proper bills incurred by the said county

school commission for printing and postage, out of the general fund aforesaid, upon being presented with proper vouchers therefor by its president or secretary.

Sec. 2279 . . . It shall be the duty of the state board of education, and also of each of the county school commissions, to give notice of the time and place of each of its stated meetings, by advertisement in two successive issues of three newspapers in the state, at least ten days before the time fixed for such meeting. In the case of the county school commission, such advertisement shall be in newspapers published in the county under its jurisdiction.

Sec. 2280 . . . The colored school districts laid out and established by the county school commissions of the several counties, as named, numbered, bounded and returned to the clerk of the peace of each county, and certified to the trustee of the school fund, under the provisions of chapter 67 of volume 21, Laws of Delaware, shall be the colored school districts in each county. The county school commissions of the respective counties may alter, divide, consolidate, or unite such school districts, whenever any of said school commissions shall deem such action for the best interests of the colored pupils in said districts.

Sec. 2281 . . . The mode of having property transferred from one school district to another, or of altering the boundaries of existing school districts, or of creating new districts shall be as follows:

A petition stating the object sought shall be presented to the county school commission of the proper county at any of its stated meetings, signed, in the case of a petition to transfer, by the owner or owners of the property affected, or in the case of a petition to create a new district by twelve or more freeholders of the district or districts affected. Notice of the intention to present such petition must, in all cases, have been posted in four public places in the district or districts affected and a copy of the same transmitted to the school committee of each district affected, through its clerk, ten days at least before the presentation of such petition. The county school commission shall then determine the matter, and shall certify its finding to the clerk of the peace of the county, specifying when the prayer of the petition shall have been allowed, the metes and bounds of the new districts, and of the alterations in the boundaries of old districts by the transfer of property. A new district shall not be created unless it be made to appear to the commission that such proposed new district shall contain at least thirty-five children over the age of five years, and that at least that same number will remain in each of the old districts affected. A new district thus created shall be numbered in continuation of the school districts of the county, shall be subject to and have all the rights and powers given by all the laws of this state having reference to free public schools. The commission so having created a new district as aforesaid shall give notice in writing, at least ten days before the holding of the first regular meeting of the school voters to be held in districts created as aforesaid, of the time and place for holding such meeting, which notice shall be posted in five of the most public places of the district. A failure to give notice as aforesaid shall in nowise affect or invalidate an organization that may be made by the school voters in such district, provided, that a majority of the school voters of the district be present at any meeting, held without notice given as afore-

said. The finding or returning of a majority of the members of the commission upon any petition as aforesaid, shall be as effectual and binding as if made by all. The limits of the school districts so created, and alterations of the limits of old districts by division, union of several as hereinafter provided, or otherwise, shall be recorded in the office of the clerk of the peace of the proper county; and the number and location of such new districts and the alterations of old districts shall be certified to the trustee of the school fund by said clerk of the peace.

Whenever any of the county school commissioners of this state shall be satisfied that any real estate in the county of its jurisdiction, has not been included within the limits or boundaries of any school district for the two years then next preceding, then and in such case the said commission shall have the right, power and authority to transfer such real estate to any school district of the said county selected by the said commission, provided said school district shall at the time of such transfer be maintaining a free school under the laws of this state. No petition shall be necessary in order to empower a county school commission to act in the cases aforesaid, but the commission shall before making such transfer, give the owner and occupant of such real estate notice of the time and place of the meeting of the commission for the final determination of the transfer. Such notice may be sent through the mail or may be left at the dwelling house being on the real estate aforesaid, or if there be no dwelling house, there, may be posted anywhere on said real estate, five days at least before the day of the holding of the meeting aforesaid. When any transfer as aforesaid shall have been finally determined upon, the commission shall at once certify its action to the clerk or secretary of the school committee or board of education of the district to which the transfer is made. It shall likewise certify its action to the clerk of the peace of the county who shall cause a record of the transfer to be made in his office.

Sec. 2282 . . . Two or more school districts in any county may unite for establishing and supporting a free school for their common benefit; and such districts, when united, shall be one district by the name of "United school district nos. in county." The manner of forming a union of districts shall be this:

1 Notice shall be given in each district which it is proposed to unite, as required for stated meetings in the several districts.

2 At the meeting, thus called in each district, if two-thirds of the voters present are in favor of the union, a committee of three of such voters shall be appointed to arrange the terms, and the meeting may be adjourned to hear their report; if a majority of them agree upon a union with any other district, or districts, and settle upon the terms thereof, the same shall be reported to an adjourned meeting, and if such report shall be adopted by two-thirds of the voters present, it shall be obligatory, and the districts mentioned shall be united; provided, like proceedings be had in all the said districts; but, if, in either district, the report be not adopted by a vote of two-thirds, this shall not defeat the union between the other districts so adopting it; they shall be united, and the other shall be excluded.

3 A meeting of the united district shall be then held at the time and place fixed by the terms of the union. At this meeting, a school committee for the united school district shall be chosen, and a vote may be passed

to raise money by contribution, but not by tax. This meeting shall also inquire into the proceedings preparatory to the union of the districts and its determination thereupon shall be conclusive. United school districts shall have the same powers and exercise them in the same manner as original districts. The power of taxation shall extend to the amount that could be lawfully raised by tax in the several districts composing such united districts, if acting separately. The union of districts shall not affect the account of the trustee of the school fund, but dividends of the income of the fund shall be apportioned and credited to the original districts as before the union; and all sums placed to the credit of the several districts of which the union is formed, shall be paid upon the order of the school committee of the united district, and applied to the use of such district, upon their showing that a sum has been raised sufficient to entitle these several districts to draw their dividends as hereinafter provided. The place of meeting of school voters of a united school district shall be the schoolhouse of the district; or, if there be none, then one at the schoolhouse mentioned in the notices, which shall conform to any standing order of the school voters. A proposal to have several schoolhouses in a united district may be brought before a regular meeting of the school voters by inserting it in the notices of such meeting; if such proposal is made the secretary shall inquire concerning the regularity of the notice and make a minute of the fact. If it be carried, the school committee shall have power to execute it. (Delaware: Revised Code, 1915, p. 1089-95)

District System

Sec. 2387 . . . The supervision and control of the free public schools in each district in the state (subject to the general powers hereinbefore vested in the state board of education and the several county school commissions) shall be vested in a school committee for each district, which shall be composed of a clerk and two commissioners, who shall serve for three years from the time of their respective elections, or until their successors are duly qualified.

Sec. 228 . . . The respective school committees of adjoining districts shall have power to make such arrangements for the establishment of a school or schools for the joint benefit of the children of such adjoining districts as they may deem proper and advisable. (Delaware: Revised Code, 1915, p. 1099 and 1102)

MISSISSIPPI

County — District System

Sec. 4510 . . . There shall be a county school board, consisting of one member from each supervisor's district, to be appointed for a term of four years, by the superintendent, within ninety days after his term of office begins, the appointments to be subject to ratification by the board of supervisors. A majority of the members shall be a quorum for the transaction of business. For neglect of duty, the superintendent may remove a member of the school board; and he shall fill all vacancies occurring from any cause.

Sec. 4511 . . . Members of the county school board shall qualify by subscribing to the oath of office before the superintendent, and shall receive

as compensation for their services three dollars for each day's actual service, to be paid as teachers' salaries are paid; but they shall not be paid for more than five days in any one year.

Sec. 4512 . . . The county superintendent shall be president of the school board, and shall convene it annually, prior to the first day of August, to define the boundaries of the school districts of the county outside of the separate school districts, or to make alterations therein, and to designate the location of the schoolhouse in each district, if not already located.

Sec. 4513 . . . In districts containing not more than one chartered institution of learning the board shall locate the public school, if it be so desired by the authorities of the chartered institution, with the consent of the trustees of the chartered institution, at the site thereof; and the public school shall be conducted in accordance with the rules and regulations of the chartered institution of learning, and the local trustees of public schools, and the trustees of the chartered school shall, in joint session, elect teachers for the public school.

Sec. 4514 . . . Separate districts shall be made for the schools of the white and colored races, and the districts for each race shall embrace the whole territory of the county outside the separate school districts. A regular school district shall not contain less than forty-five educable children of the race for which the district is established, except where too great distance or impassable obstructions would debar children from school privileges; in such cases the school board may, in its discretion, establish a regular district containing not less than fifteen educable children. In places where swamps, large streams or other bodies of water which are not crossed by foot bridges render it impracticable to establish regular districts as above provided, the school board may establish special districts for such children as live in the forks or bends of the streams or other bodies of water, or who are prevented from attending school by other impassable obstruction; provided that a special district shall not be established for less than ten educable children, but such special district may contain less than nine square miles of territory, and the whole number of such special districts in a county shall not exceed one-fifth of the number of regular districts; adjacent parts of counties may, by the county school board, be embraced in a line school district, the superintendent previously consenting thereto and reporting to the board the territory to be so included. Trustees of such districts may reside in either county. The teacher may be licensed in either county, but the superintendent must previously agree upon the amount of salary to be paid, and each must contract with the teacher for the proportionate part of the salary, and shall require the teachers' monthly reports to him to show the statistics of the whole school, and also separately those of his county. In defining the boundaries of school districts the school board shall pay due regard to the larger water courses of the county, using parts of them as boundary lines whenever practicable. In counties not laid off into townships, the metes and bounds of the school districts shall be defined by streams, by the line of farms or otherwise.

Sec. 4515 . . . The districts shall be so arranged as to place all children within reasonable distance of a schoolhouse; and one public school shall be maintained in each district; but when less than five children attend school in a district, the school shall be discontinued by the superintendent at the end of any scholastic month.

Sec. 4516 . . . Children residing in one district may attend school in another, with the consent, in writing, of the trustees of both districts and of the county superintendent; but pupils shall not be allowed to attend more than one term during a scholastic year.

Sec. 4517 . . . It shall be the duty of the county superintendent to prepare, on township blanks, an outline map, showing the numbers of the sections and parts of sections embraced in each school district outside of the separate school district, and to paste the same in the school register for the district before delivering it to the teacher thereof. It shall be unlawful to issue a pay-certificate to the teacher of any district not established and recorded in accordance with the provisions of the law.

Sec. 4518 . . . There shall be three trustees for each of said school districts, each to be chosen for a term of three years, but so chosen that one will be selected every year. They shall be persons of good character, patrons of the school, and able to read and write. The trustees shall be elected by the patrons of the school, except in separate school districts.

Sec. 4519 . . . On the first Saturday of August of each year the patrons of each district not constituting a separate school district shall meet at the schoolhouse at two o'clock p.m., organize and elect a chairman and secretary, and elect by ballot one trustee for three years. At every such meeting the holding over trustees shall have prepared and present a list of the names of patrons entitled to vote for trustees. The chairman and secretary shall forthwith certify the result of the election to the county superintendent, and cause the certificate thereof to be delivered to him on or before the following Saturday. If from any cause a vacancy occurs in the office of trustee, outside of a separate school district, the county superintendent shall fill the same by appointment, unless the patrons thereof shall fill the same by an election within ten days after such vacancy occurs.

Sec. 4520 . . . If from a failure to qualify, or from other cause, there be a vacancy in the office of trustee, outside of a separate school district, the county superintendent shall fill the same by appointment, in writing; and the trustee so appointed shall hold office until the end of the vacant term, and until his successor be elected.

Sec. 4521 . . . Two of the trustees constitute a quorum to transact business. Upon organization, the trustees shall select a secretary, whose duty it shall be to preside at all meetings, to make the reports, and to perform all other duties required by law. If a trustee refuse to discharge the duties of the office or refuse to patronize the school, the office shall become vacant, and the county superintendent shall appoint another person to be trustee.

Sec. 4522 . . . The trustees shall meet annually, on or before the fifteenth day of September, to select a teacher if the school be opened during the winter term, and they shall at once notify the county superintendent of their selection. If the trustees fail so to report, or, if the teacher selected fail to obtain a license, the superintendent shall appoint a licensed teacher, and have the school taught during the winter term.

Sec. 4523 . . . The trustees shall scrutinize carefully the enumeration of educable children who attend the school made by the teacher, see that the children of the district and none others are included in the list, and certify the same over their official signatures placed in the teacher's register at the end of the list; and the enumeration thus reported and certified shall guide

the superintendent in determining the salary of the teacher for the ensuing year.

Sec. 4524 . . . The trustees may suspend or expel a pupil for misconduct, and shall look after the interests of their schools, visit the same at least once during each month by one or more of their number, see that fuel is provided, protect the school property and care for the same during vacation, and arbitrate difficulties or disputes between teachers and pupils; but either party feeling aggrieved by their decision, may appeal to the county superintendent, and from him to the state board of education. And the trustees may make provisions for the comfort and welfare of the pupils; but the same shall not involve an expenditure of money not already appropriated for the purpose by the proper authorities. (Mississippi: Code, 1906, ch. 125, p. 1228-31)

District System

Sec. 4526 . . . The schools of such district (separate school district) shall be under the control of five trustees, to be elected on the second Monday in April, or at the first regular meeting prior thereto, by the mayor and board of aldermen, or in the manner prescribed by the board; and the trustees shall all be patrons of the school. The conditions of eligibility imposed and powers granted trustees, under the general law, shall apply to trustees of separate school districts, and they shall be subject to the same penalties, and to removal from office by the board for the neglect of duty, but no member of the board of aldermen shall be eligible to the office of trustee; or any one who is a trustee of a private or sectarian school or college in same separate school district.

Sec. 4527 . . . The trustees shall be chosen for a term of three years; two being chosen each year for two successive years, and one being chosen during the third year, as vacancies shall occur. In unincorporated districts the vacancies annually occurring shall be filled as hereto provided for the appointment of trustees of such district. Their term of office shall be three years, and vacancies shall be filled by the mayor and board of aldermen, but vacancies in unincorporated districts shall be filled by the county superintendent of education. Existing trustees of separate school districts shall remain in office according to the terms of their appointment or designation, unless selected under the general law; and where they are numerous and authorized to act by a smaller number to be selected by them, they may continue to do so.

Sec. 4530 . . . Any municipality, by an ordinance of the mayor and board of aldermen thereof, or any unincorporated district of not less than sixteen square miles, by the county school board, on a petition of the majority of the qualified electors therein, may be declared a separate school district, but shall not be entitled to the rights and privileges of a separate school district unless a free public school shall be maintained therein for a term of at least seven months in each scholastic year. (Mississippi: Code 1906, ch. 125, p. 1232)

OHIO

County and Township Systems

Sec. 4679 . . . The school districts of the state shall be styled, respectively, city school districts, village school districts, rural school districts and county school districts.

Sec. 4682-1 . . . A village school district containing a population of less than fifteen hundred may vote at any general or special election to dissolve and join any contiguous rural district. After approval by the county board such proposition shall be submitted to the electors by the village board of education on the petition of one-fourth of the electors of such village school district or the village board may submit the proposition on its own motion and the result shall be determined by a majority vote of such electors.

Sec. 4683 . . . When a village school district is dissolved, the territory formerly constituting such village district shall become a part of the contiguous rural district which it votes to join in accordance with section 4682-1, and all school property shall pass to and become vested in the board of education of such rural school district.

Sec. 4684 . . . Each county, exclusive of the territory embraced in any city school district and the territory in any village school district exempted from the supervision of the county board of education by the provisions of sections 4688 and 4688-1, and territory detached for school purposes, and including the territory attached to it for school purposes, shall constitute a county school district. In each case where any village or rural school district is situated in more than one county such district shall become a part of the county school district in which the greatest part of the territory of such village or rural district is situated. (Ohio: Laws 1914, p. 133)

Sec. 4692 . . . The county board of education may transfer a part or all of a school district of the county school district to an adjoining district or districts of the county school district. Such transfer shall not take effect until a map is filed with the auditor of the county in which the transferred territory is situated, showing the boundaries of the territory transferred, and a notice of such proposed transfer has been posted in three conspicuous places in the district or districts proposed to be transferred, or printed in a paper of general circulation in said county, for ten days; nor shall such transfer take effect if a majority of the qualified electors residing in the territory to be transferred shall, within thirty days after the filing of such map, file with the county board of education a written remonstrance against such proposed transfer. If an entire district be transferred the board of education of such district is thereby abolished or if a member of the board of education lives in a part of a school district transferred the member becomes a non-resident of the school district from which he was transferred and ceases to be a member of such board of education. The legal title of the property of the board of education shall become vested in the board of education of the school district to which such territory is transferred. The county board of education is authorized to make an equitable division of the school funds of the transferred territory either in the treasury or in the course of collection. And also an equitable division of the indebtedness of the transferred territory. (Ohio: Laws 1914-15, p. 397)

Sec. 4712 . . . In rural school districts, the board of education shall consist of five members elected at large at the same time township officers are elected and in the manner provided by law, for a term of four years.

Sec. 4715 . . . Each member of the board of education of rural school districts, except such districts as contain less than sixteen square miles, shall receive as compensation two dollars for each regular meeting actually attended by such member, but for not more than five meetings in any year.

The compensation allowed members of the board shall be paid from the contingent fund. (Ohio: Laws 1914, p. 135-36)

Sec. 4726 . . . A rural board of education may submit the question of centralization, and, upon the petition of not less than one-fourth of the qualified electors of such rural district, or upon the order of the county board of education, must submit such question to the vote of the qualified electors of such rural district at a general election or a special election called for that purpose. If more votes are cast in favor of centralization than against it, at such election, such rural board of education shall proceed at once to the centralization of the schools of the rural district, and, if necessary, purchase a site or sites and erect a suitable building or buildings thereon. If, at such election, more votes are cast against the proposition of centralization than for it, the question shall not again be submitted to the electors of such rural district for a period of two years, except upon the petition of at least forty per cent of the electors of such district. (Ohio: Laws 1914, p. 139)

Sec. 4726-1 . . . In townships in which there are one or more school districts, the qualified electors of such school districts may vote on the question of centralizing the schools of said township districts, or of special school districts therein, without interfering with the existing school district organization until the result of the election shall have been determined. If at such election in any township a majority of all the votes cast shall be in favor of centralizing the schools in said township, the probate judge of the county shall create a new board of education for the said township, without delay, by selecting from the several boards of education thus consolidated, five suitable persons, giving each former district its fair representation in such selection, which such five persons so selected shall constitute the board of education for said township until the first township election thereafter; at such first township election thereafter the electors of such township shall elect two members of the board of education for two years, and three members to serve for three years, and at the proper elections thereafter their successors shall be elected for four years. If a majority of the electors in said township vote against said centralization at the time above designated, then the several school districts in said township shall proceed as though no election had been held. (Ohio: Laws 1914-15, p. 442)

Sec. 4727 . . . When the schools of a rural school district have been centralized such centralization shall not be discontinued within three years, and then only by petition and election, as provided in section 4726. If at such election more votes are cast against centralization than for it, the division into subdistricts as they existed prior to centralization shall thereby be reestablished. (Ohio: Laws 1914, p. 139)

Sec. 4728 . . . Each county school district shall be under the supervision and control of a county board of education composed of five members who shall be elected by the presidents of the various village and rural boards of education in such county school district. Each district shall have one vote in the election of members of the county board of education except as is provided in section 4728-1. At least one member of the county board of education shall be a resident of a village school district if such district is located in the county school district and at least three members of such board shall be residents of rural school districts, but not more than one

member of the county board of education shall reside in any one village or rural school district within the county school district. (Ohio: Laws 1914, p. 136)

Sec. 4728-1 . . . All school districts other than village and city school districts within a civil township shall be jointly entitled to one vote in the election of members of the county board of education. The presidents of the board of education of all such districts in a civil township shall meet for the purpose of choosing one from their number to cast the vote for members of the county board of education. If no such meeting is held in any year for the purpose of choosing one from their number to cast the vote for members of the county board of education. If no such meeting is held in any year for the purpose of choosing one from their number to cast the vote of such boards, the president of the board having the largest tax valuation shall represent all such districts of the civil township at the election of the county board members. A board of education of a rural district having territory in two or more civil townships shall vote with the boards of education of the districts of the civil township in which the greater part of its taxable property is located. (Ohio: Laws 1914, p. 136)

Sec. 4729 . . . On the second Saturday in June, 1914, the presidents of the boards of education of the various village and rural school districts in each county school district shall meet and elect the five members of the county board of education, one for one year, one for two years, one for three years, one for four years, and one for five years, and until their successors are elected and qualified. The terms of office of such members shall begin on the fifteenth of July, 1914, and each year thereafter on the third Saturday of January. Each year thereafter one member of the county board of education shall be elected in the same manner for a term of five years. The presidents of the various boards of education within the county school district shall be paid their necessary and actual expenses incurred while meeting for the purpose of electing members of the county board of education. Such expenses shall be allowed by the county auditor and paid out of the county treasury upon the order of the chairman and clerk of the meeting. (Ohio: Laws 1914, p. 136)

Sec. 4734 . . . Each member of the county board of education shall be paid his actual and necessary expenses incurred during his attendance upon any meeting of the board. Such expenses, and the expenses of the county superintendent, itemized and verified shall be paid from the county board of education fund upon vouchers signed by the president of the board. (Ohio: Laws 1914, p. 137)

Sec. 4735-1 . . . When a petition signed by not less than one-fourth of the electors residing within the territory constituting a rural school district, praying that the rural district be dissolved and joined to a contiguous rural or village district, is presented to the board of education of such district; or when such board, by a majority vote of the full membership thereof, shall decide to submit the question to dissolve and join a contiguous rural or village district, the board shall fix the time of holding such election at a special or general election. The clerk of the board of such district shall notify the deputy state supervisors of elections, of the date of such election and the purposes thereof, and such deputy state supervisors shall provide therefor. The clerk of the board of education shall post notices thereof

in five public places within the district. The result shall be determined by a majority vote of such electors. (Ohio: Laws 1914, p. 138)

Sec. 4736 . . . The county board of education shall arrange the school districts according to topography and population in order that the schools may be most easily accessible to the pupils, and shall file with the board or boards of education in the territory affected, a written notice of such proposed arrangement; which said arrangement shall be carried into effect as proposed unless, within thirty days after the filing of such notice with the board or boards of education, a majority of the qualified electors of the territory affected by such order of the county board, file a written remonstrance with the county board against the arrangement of school districts so proposed. The county board of education is hereby authorized to create a school district from one or more school districts or parts thereof. The county board of education is authorized to appoint a board of education for such newly created school district and direct an equitable division of the funds or indebtedness belonging to the newly created district. Members of the boards of education of the newly created district shall thereafter be elected at the same time and in the same manner as the boards of education of the village and rural districts. (Ohio: Laws 1914-15, p. 397-98)

Sec. 4737 . . . The county board of education shall publish with the advice of the county superintendent a minimum course of study which shall be a guide to local boards of education in prescribing the courses of study for the school under their control. The county board may publish different courses of study for village and rural school districts. (Ohio: Laws 1914, p. 140)

Sec. 4738 . . . The county board of education shall divide the county school district, any year, to take effect the first day of the following September, into supervision districts, each to contain one or more village or rural school districts. The territory of such supervision districts shall be contiguous and compact. In the formation of the supervision districts consideration shall be given to the number of teachers employed, the amount of consolidation and centralization, the condition of the roads and general topography. The territory in the different districts shall be as nearly equal as practicable and the number of teachers employed in any one supervision district shall not be less than thirty. The county board of education shall, upon application of three-fourths of the presidents of the village and rural district boards of the county, redistrict the county into supervision districts. The county board of education may at their discretion require the county superintendent to personally supervise not to exceed forty teachers of the village or rural schools of the county. This shall supersede the necessity of the district supervision of these schools. (Ohio: Laws 1914-15, p. 396-97)

Sec. 4739 . . . Each supervision district shall be under the direction of a district superintendent. Such district superintendent shall be elected by the presidents of the village and rural boards of education within such district, except that where such supervision district contains three or less rural or village school districts the boards of education of such school districts in joint session shall elect such superintendent. The district superintendent shall be employed upon the nomination of the county superintendent but the board electing such district superintendent may by a majority vote elect a district superintendent not so nominated. (Ohio: Laws 1914, p. 140-41)

Sec. 4740 . . . Any village or rural school district or union of school districts for high school purposes which maintains a first grade high school and which employs a superintendent shall upon application to the county board of education before September 10, 1915, or before June 1st of any year thereafter, be continued as a separate district under the direct supervision of the county superintendent. Such district shall continue to be under the direct supervision of the county superintendent until the board of education of such district by resolution shall petition to become a part of a supervision district of the county school district. Such superintendents shall perform all the duties prescribed by law for a district superintendent, but shall teach such part of each day as the board of education of the district or districts may direct. Such districts shall receive no state aid for the payment of the salaries of their superintendents, and the salaries shall be paid by the boards employing such superintendents. (Ohio: Laws 1914-15, p. 439-40)

Sec. 4741 . . . The first election of any district superintendent shall be for a term not longer than one year, thereafter he may be reelected in the same district for a period not to exceed three years. Whenever for any cause in any district a superintendent has not been appointed by September first, the county board of education shall appoint such superintendent for a term of one year. (Ohio: Laws 1914, p. 141)

Sec. 4742 . . . Not less than sixty days before the expiration of the term of any district superintendent, the presidents of the boards of education within such supervision district, or in supervision districts which contain three or less village or rural districts, the boards of education of such districts shall meet and elect his successor. The president of the board in the village or rural district having the largest number of teachers shall issue the call giving at least ten days' notice of the time and place of meeting. He shall also act as chairman and certify the results of such meeting to the county board of education. (Ohio: Laws 1914, p. 141)

Sec. 4743 . . . The compensation of the district superintendent shall be fixed at the same time that the appointment is made and by the same authority which appoints him; such compensation shall be paid out of the county board of education fund on vouchers signed by the president of the county board. The salary of any district superintendent shall in no case be less than one thousand dollars per annum, half of which salary not to exceed seven hundred and fifty dollars, shall be paid by the state and half by the supervision district, except where the number of teachers in any supervision district is less than forty in which case the amounts paid by the state shall be such proportion of half the salary as the ratio of the number of teachers employed is to forty. The half paid by the supervision district shall be pro-rated among the village and rural school districts in such district in proportion to the number of teachers employed in each district. (Ohio: Laws 1914, p. 142)

Sec. 4744 . . . The county board of education at a regular meeting held not later than July 20th, shall appoint a county superintendent for a term not longer than three years commencing on the first day of August. Such county superintendent shall have the educational qualifications mentioned in section 4744-4. He shall be in all respects the executive officer of the county board of education, and shall attend all meetings with the privilege of discussion but not voting. (Ohio: Laws 1914, p. 142)

Sec. 4744-2 . . . On or before the first day of August of each year the county board of education shall certify to the county auditor the number of teachers to be employed for the ensuing year in the various rural and village school districts within the county school districts, and also the number of district superintendents employed and their compensation and the compensation of the county superintendent; and such board of education shall also certify to the county auditor the amounts to be apportioned to each district for the payment of its share of the salaries of the county and district superintendents. (Ohio: Laws 1914, p. 142)

Sec. 7705 . . . The board of education of each village, and rural school district shall employ the teachers of the public schools of the district, for a term not longer than three school years, to begin within four months of the date of appointment. The local board shall employ no teacher for any school unless such teacher is nominated therefor by the district superintendent of the supervision district in which such school is located except by a majority vote. In all high schools and consolidated schools one of the teachers shall be designated by the board as principal and shall be the administrative head of such school. (Ohio: Laws 1914, p. 144)

Sec. 7706 . . . The district superintendent shall visit the schools under his charge, direct and assist teachers in the performance of their duties, classify and control the promotion of pupils, and shall spend not less than three-fourths of his working time in actual class room supervision. He shall report to the county superintendent annually and oftener if required, as to all matters under his supervision. He shall be the chief executive officer of all boards of education within his district and shall attend any and all meetings. He may take part in their deliberations, but shall not vote. Such time as is not spent in actual supervision shall be used for organization and administrative purposes and in the instruction of teachers. At the request of the county board of education he shall teach in teachers' training courses which may be organized in the county school district. (Ohio: Laws 1914, p. 144)

Sec. 7706-1 . . . The district superintendent shall, as often as advisable, assemble the teachers of his district, for the purpose of conference on the course of study, discipline, school management and other school work and for the promotion of the general good of all the schools in the district. The county superintendent shall cooperate with the different district superintendents in holding such teachers' meetings and shall attend as many of them as his other duties will permit. (Ohio: Laws 1914, p. 144)

Sec. 7706-2 . . . It shall be the duty of the district superintendent to recommend to the village and rural boards of education within such district, such textbooks and courses of study as are most suitable for adoption. (Ohio: Laws 1914, p. 144)

Sec. 4736-1 . . . In rural school districts hereafter created by a county board of education, a board of education shall be elected as provided in section 4712 of the General Code. When rural school districts hereafter so created, or which have been heretofore so created, fail or have failed to elect a board of education as provided in said section 4712, or whenever there exists such school district which for any reason or cause is not provided with a board of education, the commissioners of the county to which such district belongs shall appoint such board of education, and the members so appointed shall serve until their successors are elected

and qualified. The successors of the members so appointed shall be elected at the first election for members of the board of education held in such district after such appointment, two members to serve for two years and three members for four years. And thereafter their successors shall be elected in the manner and for the term as provided by section 4712 of the General Code. The board so appointed by the commissioners of the county shall organize on the second Monday after their appointment. (Ohio: Laws 1914-15, p. 550-51)

Sec. 7731 In all rural and village school districts where pupils live more than two miles from the nearest school the board of education shall provide transportation for such pupils to and from such school. The transportation for pupils living less than two miles from the schoolhouse, by the most direct public highway shall be optional with the board of education. When transportation of pupils is provided, the conveyance must pass within one-half mile of the respective residences of all pupils, except when such residences are situated more than one-half mile from the public road. When local boards of education neglect or refuse to provide transportation for pupils, the county board of education shall provide such transportation and the cost thereof shall be charged against the local school district. (Ohio: Laws 1914, p. 140)

Sec. 7646 Each township board of education shall establish and maintain at least one elementary school in each subdistrict under its control, unless transportation is furnished to the pupils thereof as provided by law. (Page & Adams Annotated Ohio General Code, sec. 5320-8509, p. 812)

SOUTH CAROLINA

County — District System

Sec. 1729 There shall be a county board of education in each county, composed of three members, one of whom shall be the county superintendent of education, and the other two shall be appointed by the state board of education at its regular meeting in April, 1897, and every two years thereafter, who shall hold their office for a term of two years from the time of their appointment and until their successors shall be appointed and qualified, unless sooner removed by the state board of education.

Sec. 1730 The county board of education shall examine all candidates for the position of teacher, and give to each person found qualified a certificate setting forth the branches of learning he or she may be capable of teaching, and the percentage attained in each branch, said certificate to be valid for a term of two years, unless sooner revoked, and it may be renewed with or without examination, at the discretion of the board, all of which shall be done with such regulations as the state board of education may prescribe. No teacher shall be employed in any of the free public schools without a certificate from the county board of education or the state board of education: provided, that no examinations as to the qualification shall be made in the case of any applicant who produces a full diploma from any chartered college or university of this state, or Mamminger Normal School of Charleston, and furnish satisfactory evidence of good moral character: provided, further, that the state board of education shall examine into the curriculum standing,

faculty and equipment of each institution, and see that it is doing real college work, before certificates may be issued on its diplomas. The two members of the board appointed by the state board of education shall receive for the services rendered by them compensation at the rate of three dollars per diem for not exceeding seven days, except in the counties of Greenville and Orangeburg, where the number of days shall not exceed twenty, and in the counties of Barnwell, Dorchester, York and Hampton, where the number of days shall be ten, if so much be necessary, in each year, and mileage of five cents for each mile of necessary travel, the same to be paid by the county board of commissioners out of the ordinary county funds.

Sec. 1731 It shall be the duty of the county board of education and the boards of trustees hereinafter provided for to see that in every school under their care there shall be taught, as far as practicable, orthography, reading, writing, arithmetic, geography, English grammar, the elements of agriculture, history of the United States and this state, the principles of the constitution of the United States and this state, morals and good behavior, algebra, physiology and hygiene, and especially as to the effects of alcoholic liquors and narcotics upon the human system, English literature, and such other branches as the state board may from time to time direct.

Sec. 1732 The nature of alcoholic drinks and narcotics and special instruction as to their effects upon the human system, in connection with the several divisions of the subject of physiology and hygiene, shall be included in the branches of study taught in common or public schools in the state of South Carolina and shall be studied and taught as thoroughly and in the same manner as other like required branches are in said schools, by the use of textbooks in the hands of pupils where other branches are thus studied in said schools, and orally in the case of pupils unable to read, and shall be taught by all teachers and studied by all pupils in all said schools supported wholly or in part by public money.

Sec. 1735 The county board of education of the several counties of this state, or such officer or officers as may be vested with the same or similar power or duties shall levy an annual tax of three mills on the dollar upon all the taxable property in their respective counties, which tax shall be collected at the same time and by the same officers as the other taxes for the same year, and shall be held in the county treasury of the respective counties, and on the first day of July of each year, or as soon as practicable thereafter, the said fund shall be apportioned by the said county boards respectively among the school districts of their respective counties in proportion to the number of pupils enrolled in the public schools of such school districts; and the said county boards shall ascertain the amount of poll taxes collected in and for each school district of their respective counties, and shall notify the county treasurer and the trustees of each school district of the amount of poll taxes, as well as of the amount of the aforesaid fund apportioned by them to each school district.

The school funds of each district shall be distributed and expended by the board of trustees for the best interests of the school district, according to the judgment of the board of trustees, on their warrant approved by the county superintendent of education. For the purpose of said apportionment pupils shall not be deemed enrolled until after an attendance of at least ten school days during the preceding scholastic year.

Sec. 1736 The county board of education shall constitute an advisory body with whom the county superintendent of education shall have the right to consult when he is in doubt as to his official duty, and also a tribunal for determining any matter of local controversy in reference to the construction or administration of the school laws, with the power to summon witnesses and take testimony if necessary, and when they have made a decision said decision shall be binding upon the parties to the controversy: provided, that either of the parties shall have the right to appeal to the state board of education, and said appeal shall be made through the county board of education, in writing, and shall distinctly set forth the question in dispute, the decision of the county board and the testimony as agreed upon by the parties to the controversy, or, if they fail to agree, upon the testimony as reported by the county board.

Sec. 1738 The county boards of education shall divide their counties into convenient school districts, as compact in form as practicable, having regard to natural boundaries, and not to exceed forty-nine nor less than nine square miles in area, and shall alter the lines thereof, and create additional school districts from time to time as the interests of the schools may, in their judgment, demand: provided, that no new school district shall be erected by said county board of education, except upon the petition of at least one-third of the qualified electors embraced within the limits of such proposed school district: provided, further, that no school district shall be consolidated except upon a petition of at least one-third of the qualified voters of the school district proposed to be consolidated: provided, further, whenever territory embraced in two or more counties is proposed to be formed into one school district, the same may be formed by the joint action of the board of education of the respective counties as herein provided for the formation of school districts in a county: provided, that in cities of ten thousand inhabitants and over, this limitation of area shall not apply: provided, further, that when any school district laid out under this section shall embrace cities or towns already organized into special school districts, in which graded school buildings have been erected by the issue of bonds, or by special taxation, or by donation, all the territory included in said school district shall bear its just proportion of any tax that may be levied to liquidate such bonds or support the public schools therein. The present division of the counties into school districts shall remain until changed by the county board of education. The county boards of education are authorized and empowered to make contracts for the purpose of dividing their counties into proper school districts, and to provide for the payment of the expenses thereof out of the school funds of the county. Every school district now organized, or to be hereafter organized in pursuance of this section, is and shall be a body politic and corporate, by the name and style of school district no. . . (such number as may be designated by the county board of education), of . . . county (the name of the county in which the district is situated), the state of South Carolina; and in that name may sue and be sued, and be capable of contracting and being contracted with to the extent of their school fund, and holding such real and personal estate as it may come into possession of, by will or otherwise, or as is authorized by law to be purchased, all of which shall be used exclusively for school purposes. (South Carolina: Code of Laws, 1912, v. 1, p. 479-82)

District System

Sec. 1740 Each school district shall be under the management and control of the board of trustees hereinafter provided for, subject to the supervision of the county board of education.

Sec. 1741 The school districts of the several counties of the state are hereby made and declared to be the divisions of the counties for taxation for all school purposes.

Sec. 1752 Each county board of education, on the first Tuesday of July, 1906 and on the first Tuesday in July every two years thereafter, shall appoint for each school district in their county three school trustees, from the qualified electors and taxpayers residing in the district, who shall hold their office for two years, and until their successors are appointed and qualified, unless sooner removed by the county board of education. The county board of education shall have power to fill, from time to time, all vacancies in the board of trustees. The school trustees shall meet as a board as soon and as often as practicable, and after having been appointed and qualified, at such place as may be most convenient in the district. At their first meeting they shall organize by electing one of their number chairman of the board, who shall preside at the official meetings of the board, and another clerk of the board, who shall record their proceedings in a book provided for that purpose. Each member of the board of trustees shall be duly notified of all meetings of the board by the clerk of the board: provided, that the forgoing provisions of this section shall not apply to special and graded school districts created by special acts: but that the trustees and school commissioners of all special and graded school districts shall remain the same in number, and shall be elected or appointed in the same manner, and shall hold the office for the same time as is provided for in the respective special acts; except that in the special school districts where the trustees, or their successors, are appointed by the state superintendent of education under the provisions of the special acts, the trustees shall hold office until the first Tuesday in July, 1906, on which day, and on the same day every two years thereafter, the trustees shall be elected by the qualified electors of such school districts: provided, that special school districts having a population of not less than five thousand inhabitants, and in which the boards are not fixed by special or specific legislation may elect on the second Tuesday in January, 1904, or on the second Tuesday in January of any alternate year thereafter, nine trustees, to constitute a board in their respective districts: provided, further, that three of the said trustees, to be elected at said election, shall serve for a term of two years, three for a term of four years and three for a term of six years; the term of each trustee to be determined by lot, in the presence of the county board of education; and on the second Tuesday of January every two years thereafter, three trustees shall be elected to serve for a term of six years.

Sec. 1753 The board of trustees in each school district shall take the management and control of the local educational interests of the same, and shall visit each school district at least once in every school term, and shall be subject to the supervision and orders of the county board of education. (South Carolina: Code of Laws, 1912, v. I, p. 483, 486-87)

TEXAS

County District System

Sec. 2849d.. The general management and control of the high schools in each county of the state, provided for in this act, shall be vested in five county school trustees, elected from the county at large, at the time the trustees of the common school districts are elected, the first Saturday in April of each year, the order for their election to be made at the same time and by the same authority that orders the election of the trustees of the common school districts. The first election under this act shall be held on the first Saturday in April subsequent to the taking effect of this act, at which election five county school trustees shall be chosen, who shall decide by lot at their first meeting which two shall hold office for one year, and which three shall hold office for two years, and two of whom shall hold office for one year, or until their successors are elected and qualified, and three of whom shall hold office for two years, or until their successors are elected and qualified; and regularly thereafter on the first Saturday in April of each year an election shall be held for such county school trustees, two being elected at the expiration of the term of those first holding for one year, and three being elected at the expiration of (the term of) those first holding for two years; provided, if this act does not take effect prior to the first Saturday of April, 1911, the county school trustees, herein provided for, shall be appointed by the commissioners court of each county, to serve until the election and qualification of their successors in 1912.

Sec. 2849e.. It shall be the duty of the county school trustees to classify the schools of the county into primary schools, intermediate schools and high schools, for the purpose of promoting the efficiency of the primary and intermediate school and of establishing high schools wherever practicable. In classifying the schools and in establishing high schools, the county school trustees shall confer and advise with the county superintendent of public instruction and the district school trustees of the county, and shall give due regard to schools already located, to the distribution of the population and to the advancement of the children in their studies. The said county school trustees shall, in cooperation with the county superintendent of public instruction, prescribe a course of study for the public schools of the county conforming to the law and the requirements of the state department of education.

Sec. 2849f.. All rights and powers pertaining to the public free schools of the county that have heretofore been vested in the commissioners court and that are not prescribed by this act, shall hereafter be vested in the county school trustees. In determining the location of high schools, the county school trustees shall, by and with the consent of the majority of the trustees of each district affected, effect the consolidation of as many common school districts as practicable, and shall negotiate with the school trustees of such common school districts as have no high schools for the free tuition of eligible children in the high schools, thereby giving high school privileges and opportunities, so far as possible, to all children of scholastic age residing in the rural districts. The county school trustees are also empowered to negotiate with the trustees of independent school

districts that have high schools for the free tuition of eligible children who reside in adjacent or convenient common school districts not maintaining high schools.

Sec. 2849-*g* . . . The county school trustees of each county shall constitute a body corporate, by the name of the County school trustees of . . . county, state of Texas, and in that name may acquire and hold real and personal property, and sue and be sued, and may receive bequests and donations or other moneys or funds coming legally into their hands, and may perform other acts for the promotion of education in the county. The title to any school property belonging to the county, the title of which has heretofore been vested in the county judge and his successors in office, or any school property that may be acquired, shall vest in the county school trustees and their successors in office for public free school purpose.

Sec. 2849-*l* . . . The county school trustees shall be qualified voters and freeholders of the precinct or county from which they are elected. They shall be of good moral character, able to read and speak the English language, shall be persons of good education and shall be in sympathy with public free schools. Four of the county school trustees shall each reside in different commissioners precincts, and a majority of them shall reside in common school districts. Within twenty days after their election and qualification, the county school trustees shall meet and organize by electing one of their number president. The county school trustees shall be elected and shall qualify in the same manner as other county officers are elected and qualified.

Sec. 2849-*m* . . . All vacancies in the office of county school trustees shall be filled by election by the remaining county school trustees. Three of the county school trustees shall constitute a quorum, and all questions shall be decided by a majority vote. (Texas: Vernon's Sayles's Civil Statutes, 1914, p. 2021-23)

District System

Sec. 2815 . . . It shall be the duty of the county commissioners, courts of all organized counties not already subdivided, to subdivide their respective counties into convenient school districts; and any county hereafter organized shall be so subdivided before the beginning of the next ensuing school year after its organization; provided, the county commissioners' court may reduce the area of any common school district and create such additional school districts as may be necessary for the best interests of the school children; provided, that no school district shall be reduced to contain less than nine square miles of territory; and no new district shall hereafter be created, having a less area than nine square miles; and provided, further, that the area of a school district having an outstanding bonded indebtedness shall never be reduced until after such bonded indebtedness shall have been fully discharged. The commissioners' court shall designate said school districts by number; provided, that all school districts in this state heretofore laid out and attempted to be established by the proper officers of any county, and heretofore recognized by said county authorities as school districts of said county, are hereby validated in all respects, as though they had been duly and legally established in the first instance.

Provided, further, that in counties containing a population of less than

ten thousand, no common school district shall be organized or surveyed in such a manner that the geographical center of the same will be more than four miles from the farthest line of said common school district.

Sec. 2816 . . . It shall be the duty of the commissioners' court, at any time they deem necessary, to redistrict a part or all of said county; and they may at any time consolidate two or more adjacent school districts, or may subdivide any school district or districts. The commissioners' court of any organized county, to which any unorganized county is attached for judicial purposes, may, and, upon the written petition of not less than ten resident citizens of such unorganized county, shall create such unorganized county into one or more school districts, and shall cause an order to that effect to be entered upon the minutes of said court.

Sec. 2818 . . . On the first Saturday in April each year, the qualified voters of each school district, at a school district meeting for that purpose, shall elect three trustees for said district, who shall enter upon the discharge of their duties on the first of May next following. They shall immediately thereafter organize by electing one of their number president and one secretary of the board of trustees. The term of office of said trustees shall be divided into two classes, and they shall draw for the different classes; the one drawing number one shall serve for one year, and those drawing numbers two and three shall serve for two years, and until their successors shall have been elected or appointed, and shall have qualified.

Sec. 2822 . . . The trustees of school districts provided for in the preceding articles of this chapter, and their successors in office, shall be a body politic and corporate in law, and shall be known by and under the title and name of district trustees of district number . . . , and county of . . . , state of Texas; and as such may contract and be contracted with, sue and be sued, plead or be impleaded, in any court of this state of proper jurisdiction, and may receive any gift, grant, donation or devise made for the use of the public schools of the district. All reports and other official papers shall be headed with the number of district and name of county.

Sec. 2823 . . . The trustees of school districts shall have the management and control of the public schools and public school grounds. They shall have the power to employ and dismiss teachers, but in case of dismissal, teachers shall have the right of appeal to the county and state superintendents.

Sec. 2824 . . . School trustees shall determine how many schools shall be maintained in their school district, and at what points they shall be located; provided, that not more than one school for white children and one school for colored children shall be established for each sixteen square miles of territory or major fraction thereof, within such district; they shall determine when the schools shall be opened and when closed; they shall contract with teachers and manage and supervise the schools, subject to the rules and regulations of the county and state superintendents; they shall approve all teachers vouchers, and all other claims against the school fund of their district; provided, that trustees, in making contracts with teachers, shall not create a deficiency debt against the district. (Texas: Vernon's Sayles's Civil Statutes, 1914, v. 2, p. 2006-7 and 2009-12)

Sec. 2759 . . . Each year after the scholastic census of the county is completed, the county superintendent shall, if any district has fewer than

twenty pupils of scholastic age, either white or colored, have authority to consolidate said district as to said white or colored schools with other adjoining districts, and to designate the board of trustees which shall control the white or colored school of such consolidated district. But this shall be done before the apportionment is made, and the apportionment shall be made with respect to such consolidation. (Texas: Vernon's Sayles's Civil Statutes, 1914, v. 2, p. 1989-90)

UTAH

County and District System

Sec. 1891r Each county within the state shall constitute a county school district of the first class; provided, that existing county school districts of the first class shall continue as such county school districts of the first class, and provided, that if in any county there be a school population of five thousand or more and said county is already divided into two or more high school districts, then each of said high school districts shall constitute and is hereby created a county school district of the first class. Upon the creation of any county school district of the first class, the county commissioners shall designate the name or names by which the same shall be known and shall divide each district into five representative precincts and shall appoint the members of the board of education for such district to serve until their successors are duly elected and shall have qualified; provided, that in districts already consolidated the members of the board of education as now constituted shall serve for the term for which they were elected.

Sec. 1891x The board of education of each county school district of the first class shall consist of five members; one to be elected from and by each of the representative precincts within said county school district. The board of county commissioners in which such county school district is located shall before June 15, 1915, divide the same into five representative precincts for school purposes and at the election in December, 1916, members of the board of education shall be elected in accordance with such redistricting. (Utah: Laws 1915, ch. 78, p. 98-99)

Sec. 1891x9 The board of education shall have power to appoint all other officers that in its judgment may be necessary fully to carry out the provisions of this chapter, for the protection and improvement of school property, and for the promotion of the interests of the schools, and remove the same at pleasure, and may require any such officer to give a bond to the board in such sum as it may prescribe. The oath of office and bond of the clerk shall be filed with the treasurer, and all others shall be filed with the clerk.

Sec. 1891x10 At the first meeting of the board in June, 1907, and biennially thereafter, a superintendent of schools shall be elected by the board, who shall subscribe the constitutional oath of office, and shall enter upon his duties on the 1st day of July thereafter. His term of office shall be two years, and until his successor shall be elected and qualified; provided, that until the date herein stated, the county superintendent shall, as such officer, perform the duties of superintendent of schools in county school districts of the first class situated in the county of which he is school superintendent. Said superintendent shall attend the convention of school superintendents provided for in section 1781.

Sec. 1891x12 The members of the board of education shall fix the compensation to be received for their services, at a sum not to exceed \$300 each per annum, and traveling expenses, not to exceed \$100 each per annum; provided, that the compensation of members of the board appointed prior to any election of members as named herein shall be fixed by the board of county commissioners.

Sec. 1891x19 The board of education of any such county school district of the first class shall be a body corporate under the name of "The board of education of . . . school district" (inserting the proper name), and shall have an official seal conformable to such name, which shall be used by the clerk in the authentication of all matters requiring it. Said board, in the name aforesaid, may sue and be sued; may take, hold, lease, sell, and convey real and personal property, as the interest of the school may require. The members of the board and the clerk thereof shall have the power and authority to administer oaths in proof of claims against said corporation, and no claim or account, except salaries of teachers and janitors, shall be audited or allowed by the board of education unless the correctness of the same shall be verified under oath.

Sec. 1891x20 The board of education shall have the power and authority to purchase and sell schoolhouse sites and improvements thereon; to construct and erect school buildings and to furnish the same; to establish, locate, and maintain kindergarten schools, common schools, consisting of primary and grammar grades, high schools, and industrial or manual training schools; to establish and support school libraries; to purchase, exchange, repair, and improve the high school apparatus, books, furniture, fixtures, and all other school supplies in said schools. It shall supply and loan to pupils in the several grades and departments of said schools, except the high school, free of charge, all text books and supplies used by the pupils of said schools; it shall have the power to sell to pupils in the several grades and departments of said schools, at cost, all text books and supplies used by the pupils of said schools; to collect all books and apparatus loaned to the pupils of the public schools of any such school district of the first class, or damages for the loss, injury, or destruction of the same; to assign to the state normal school, for the purpose of illustrating instruction in the practice school connected therewith, a sufficient number of pupils of appropriate grades, and reimburse the state university or state normal school for the instruction of such pupils at rates per pupil not exceeding the average cost of instruction per pupil in the public schools of the district as ascertained for each year; to do all things needful for the maintenance, prosperity, and success of the schools, and the promotion of education; to adopt by-laws and rules for the procedure of the board of education, and make and enforce all needful rules and regulations for the control and management of the public schools of the district.

Sec. 1891x22 Upon the appointment or election and qualification of a board of education for any county school district of the first class, the trustees of all school districts formerly existing in said county school district of the first class shall convey and deliver all the school property in said districts to the board of education of said county school district of the first class; and the title of all such property, and all property hereafter acquired for school purposes in said district, shall be conveyed to and vested in said board of education, for the use of the district schools of said district; and

all rights, claims, and causes of action to or for said property, or the use or income thereof, or for any conversion, disposition, or withholding thereof, or for any damage or injury thereto, shall at once vest in the board of education of said district, in trust for the use of the district schools of the district, and said board, in the name aforesaid, may bring and maintain actions to recover, protect, and preserve the property and rights of the district schools, and to enforce any contract relating thereto, and in its said name may sue and be sued in any court of law or equity. And all outstanding debts and obligations of any such school district shall be paid by said board of education. (Utah: Compiled Laws, 1907, ch. 16, p. 717, 719-20)

District System

Sec. 1800 Each county and each city, unless divided by proper authority, shall form a school district. (Utah: Compiled Laws, 1907, ch. 4, p. 693)

Sec. 1801 Except in school districts of the first class, the board of county commissioners of any county may create into a school district any territory not already so created, or may create a district out of a part or parts of one or more districts upon being petitioned so to do by as many residents of such territory as have the care and custody of not less than twenty school children of school age residing therein, or upon the recommendation of the County Superintendent. The board of county commissioners may change the boundaries of, divide, and consolidate existing school districts. Whenever the board of county commissioners of any county shall divide, consolidate, or change the power, as an incident to the division, consolidation, or change, equitably to adjust the property rights and burdens of the several districts affected thereby, by apportioning existing school property and debts and by modifying or reapportioning taxes already voted, in such manner as the justice of the case shall, in the opinion of the board, demand. To accomplish the adjustment, the board of county commissioners may from time to time direct necessary special taxes to be levied and collected on particular areas of districts so changed. (Utah: Laws 1911, ch. 13, p. 14)

Sec. 1802 In any county hereafter created the board of county commissioners thereof shall so divide the county, or any part thereof which has residing therein not less than twenty children of school age, into school districts as will best promote the permanent interests of the district schools in the county, upon the same petition and subject to the conditions and restrictions provided in the next preceding section.

Sec. 1803 Whenever any new district shall be created by the board of county commissioners, said board shall forthwith appoint three trustees of said district, who shall be qualified electors therein, to serve until the next ensuing regular election for trustees.

Sec. 1815 The school district board shall have general charge, direction, and management of the schools of the district, and the care, custody, and control of all property belonging to the district, subject to the provisions of the law. It may annually order to be raised on the taxable property of the district not to exceed one per cent, for the support of schools, to defray current expenses, and to purchase textbooks; provided, that one-half of one mill of the herein authorized levy of one per cent shall be set aside annually for the purpose of purchasing and maintaining a public school library; pro-

vided, further, that this fund shall be expended under the direction of the state board of education for books for school library purposes, under such rules and regulations as it may prescribe. Additional sums may be raised for such purposes by vote of the qualified voters as provided by law.

Sec. 1830 The trustees of any school district having a population of over 1000, when authorized by a majority vote of the property taxpayers resident in the district present at an annual or at a special meeting called for the purpose, may establish and maintain a high school.

Sec. 1831 Two or more contiguous school districts may unite and form a high school district.

Sec. 1832 The trustees so elected and the county superintendent of schools shall constitute the board of trustees of such high school district, and the county superintendent shall be ex officio president of the board. (Utah: Compiled Laws, 1907, p. 694, 697, 701)

WASHINGTON

County and District System

Sec. 4415 For purposes of supervision and administration each county in the state shall constitute one county district.

Sec. 4559 There shall be in each county of this state a county board of education, which shall consist of five (5) members, including the county superintendent of common schools, who shall be ex officio chairman of the board; the other members of said board shall be appointed by the county superintendent on the first Monday of September following his election and shall hold office for a term of two years: provided, that in the event of a vacancy in said board from any cause the county superintendent shall fill the same for the remainder of the school year by appointment.

Sec. 4560 Every member of the county board of education shall be the holder of a valid teacher's certificate for this state, and the members other than the county superintendent shall receive five dollars per day for the time spent in the performance of their official duties, and they shall also receive actual necessary traveling expenses, and the same shall be paid out of the funds of the county.

Sec. 4561 Every county board of education shall have power and it shall be its duty:

First. To grade the manuscripts of the pupils who take the state examination for the purpose of securing eighth grade, or grammar school certificates.

Second. To adopt textbooks for use in the public schools of school districts of the second division, as defined in chapter XXV of this title, of said county.

Third. To assist the county superintendent in the preparation of manuals, courses of study, rules and regulations for the circulating libraries, and to perform such other duties as may be required by him.

Fourth. To adopt rules and regulations for the schools of the county, not inconsistent with the code of public instruction or with the rules and regulations of the state board of education or the superintendent of public instruction. (Washington: Codes and Statutes Annotated, v. 2, p. 453, 493)

Sec. 4440 Upon receipt of a petition signed by five heads of families requesting the consolidation of two or more adjoining districts in the same county, the county superintendent shall call a special election of the voters of such school districts at some convenient place, by posting written or printed notices in like manner as is provided for calling annual school district elections, and said notices shall state the object for which the election is called.

If a majority of the voters of each district shall vote to consolidate, the clerk of each district so proposing to consolidate shall within ten days after the election notify the county superintendent of the holding of and the result of the election and the county superintendent shall immediately after receipt of said notice organize and establish a consolidated school district and when such consolidated district shall have been established no new district shall be established out of any portion thereof or any portion thereof changed to another district within five years from such consolidation. (Washington: Laws 1915, ch. 182, p. 646-47)

Sec. 4441 When two or more districts are consolidated by the provisions of this act, or where two or more districts are consolidated by the uniting of two or more incorporated cities or towns, as provided by law, all the directors of the several districts so consolidated shall constitute the board of directors of the new district so formed, and shall have all the powers and authority conferred by the laws of this state upon school district directors, until the next annual school election in said district, at which time there shall be elected three directors for said district, in the manner provided by law, who shall hold their respective offices as provided for the officers of new districts.

Sec. 4448 When the public good requires it, a school district may be formed of contiguous territory lying in two or more counties, and such districts shall be known as joint school districts. They shall be designated by a separate number for each county in which any portion of their territory may lie. (Washington: Code and Statutes Annotated, v. 2, p. 459, 461)

Sec. 4447. When two or more school districts shall be united by the provisions of this act, the board of directors of the several districts shall within thirty days thereafter meet and organize the new board by the election of one of their number as president of the board. The board shall elect a clerk for said district, and the clerks of the several districts so united shall deliver to said clerk all books, papers and records belonging to their respective offices. The board may in its discretion require the superintendent, if there be one, of such consolidated district to act as clerk. The clerk of the new district thus formed shall immediately notify the county superintendent of the organization of the board of the new district. (Washington: Laws 1915, ch. 182, p. 647-48)

District System

Sec. 4526 Directors of school districts of the third class shall consist of three members. They shall be elected by ballot by the qualified electors of the district, and shall hold their office for a term of three years and until their successors are elected and qualified. At the first annual election

in all new districts three directors shall be elected for one, two and three years respectively, and the ballot at such election shall specify the term for which each is to be elected. At each election after the first, one director shall be elected for a term of three years. In case vacancies are to be filled and a successor or successors to be elected to fill an unexpired term or terms, the ballots shall specify the term for which each director is to be elected. (Washington: Codes and Statutes Annotated, v. 2, p. 484)

Sec. 4481 Every board of directors, unless otherwise specially provided by law, shall have power and it shall be its duty:

First. To employ, for not more than one year, and for sufficient cause to discharge, teachers, and to fix, alter, allow and order paid their salaries and compensation. The directors, except in districts of the first class, shall make with each teacher employed by them a written or printed contract, which shall be in conformity with the laws of this state, and every such contract shall be made in duplicate, one copy of which shall be retained by the school district clerk and the other shall be delivered to the teacher after having been approved and registered by the county superintendent as by law required.

Second. To enforce the rules and regulations prescribed by the superintendent of public instruction and the state board of education for the government of schools, pupils and teachers, and to enforce the course of study lawfully prescribed for the schools of their district.

Third. To rent, repair, furnish and insure schoolhouses, to employ janitors, laborers and mechanics.

Fourth. To cause all schoolhouses to be properly heated lighted and ventilated, and to cause all school premises to be maintained in a cleanly and sanitary condition.

Fifth. To purchase personal property in the name of the district and to receive, lease and hold for their district any real or personal property.

Sixth. To suspend or expel pupils from school who refuse to obey the rules thereof, and they shall exclude from school all children under six years of age.

Seventh. To provide free textbooks and supplies to be loaned to the pupils of the school, when in their judgment the best interest of their district will be subserved thereby, and to prescribe such rules and regulations as they shall deem necessary to preserve such books and supplies from unnecessary damage.

Eight. To require all pupils to be furnished with such books as may have been adopted by the lawful authority of this state, as a condition to membership in the schools.

Ninth. To exclude from schools and school libraries all books, tracts, papers and other publications of an immoral or pernicious tendency.

Tenth. To authorize the school room to be used for summer or night schools, or for public, literary, scientific, religious, political, mechanical and agricultural meetings, under such regulations as the board of directors may adopt.

Eleventh. To provide and pay for transportation of children to and from school when in their judgment the best interests of their district will be

subservd thereby, but, in case transportation is provided, the directors shall not be compelled to transport children who live within two miles of the school house.

Twelfth. To establish and maintain night schools. (Washington: Laws 1915, ch. 44, p. 144-45)

Sec. 4532 Every board of directors of districts of the third class shall, in addition to the powers and duties enumerated in chapter XVII [XV], of this title, have power and it shall be their duty to provide and pay for such materials, supplies and libraries, as may be necessary for the schools, and to purchase such maps, charts and other apparatus as may have the written approval of the county school superintendent. (Washington: Codes and Statutes Annotated, v. 2, p. 485)
